- C.5 RSB Financials — Revenue, Margins & Ratios
- C.6 Operational KPIs & Peer Benchmarking
- C.7 RSB Competitive Position & Strategy

MACRO INDIA CONTEXT

Indian Economy, Per Capita Income, Demographics & Urbanisation

SECTION A

Why this matters for apparel: India is the fastest-growing major economy globally, projected to be a USD 6.5T economy by FY29. The combination of a young, urbanising, increasingly affluent population with rising women workforce participation creates a structurally supportive backdrop for organised apparel retail — particularly in South India where incomes and ethnic wear affinity are both high.

A.1 Indian Economy — GDP & Growth

India has consistently outpaced major global economies in GDP growth, peaking at **18.9% in FY2022** post-COVID. The economy contracted briefly in FY2021 (-1.2%) before a sharp rebound. Nominal GDP reached **USD 3.8T in FY2024** (5th globally) and is projected to reach **USD 5.7T by FY2029**, positioning India as the 3rd largest economy globally by then.

Metric	FY2024 (Actual)	FY2029 (Projected)	CAGR
Nominal GDP	USD 3.8 Trillion	USD 5.7 Trillion	~8.7% (FY24-29)
Nominal GDP CAGR (FY15-24)	10.3%	—	—
Real GDP CAGR (FY24-29)	—	USD 3.0 Trillion	~6.5%
Global GDP Ranking (Nominal)	5th	3rd (proj)	—
GDP Growth Rate	7.5% (FY24)	7.5-8.4% (FY28-29P)	—

Source: RBI, IMF Projections, Technopak Analysis (Aug 2025) · Note: USD 1 = INR 80

THESIS

Macro tailwind: India growing at 2x the world average GDP rate since FY2005 — this is the foundational demand engine for discretionary spend including apparel. Even assuming PFCE share stays flat at ~60% of GDP, the absolute consumption pool will nearly double by FY29.

MODEL

Benchmarking note: China GDP growth slowing from 7.8% (2012) to projected 3.3% (2029) — creates relative outperformance narrative for India as an investment destination in consumer sectors.

A.2 Per Capita Consumption & Income Evolution

India's per capita consumption expenditure (PFCE) has grown strongly, recovering from COVID-induced dip in FY2021. GNI per capita at **INR 208,633 in FY2024**, up ~47.5% from FY2019 (CAGR 8.1%) — outpacing USA (4.7%), UK (2.6%) and China (5%).

Indicator	FY2018	FY2021	FY2023	FY2025	FY2029P
Per Capita PFCE (INR)	76,794	88,775	1,18,755	1,35,762	1,77,956 (P)
GNI Per Capita (INR)	1,28,718	1,44,120	1,92,201	2,42,819 (P)	—
YoY PFCE Growth	—	-2.7%	13.0%	7.0%	7.0%

Source: Ministry of Statistics & Programme Implementation, Technopak Analysis

State (South India)

Per Capita NSDP (INR) — FY2024

Karnataka	1,86,038
Telangana	1,83,854
Tamil Nadu	1,79,732
Kerala	1,61,957
Andhra Pradesh	1,35,806

Note: RSB operates primarily in Telangana & AP — both above national average income levels.

THESIS

South India income advantage: Karnataka, Telangana and Tamil Nadu all have per capita NSDP well above the national average — supporting higher willingness-to-pay for quality and branded apparel vs rural/north Indian states. This underpins RSB's ability to maintain AOV of INR 2,500+ vs value peers at INR 1,000-1,100.

MODEL

India vs global per capita GNI CAGR 2018-23: India 8.5% > China 5.0% > Vietnam 4.8% > USA 1.7% > Brazil 1.0% > Germany 0.5%. India is the fastest growing income story among comparables.

A.3 Demographics & Age Structure

India became the world's most populous nation in 2023 (~1,430 million). Crucially, **74% of population is aged 15-45**, with median age of just 29.5 years (vs 38.5 USA, 39.8 China). Millennials + Gen Z = **50%+ of total population**.

Age Group	Share of Population	Relevance for Apparel
Under 15	25%	Kids wear market
15-24 (Gen Z)	18%	Fast fashion, athleisure, D2C digital
25-34 (Millennial)	17%	Core apparel buyer — ethnic + western
35-44	14%	Premium ethnic wear, occasion buying
45-54	11%	Festive & wedding wear demand
55-70	11%	Traditional ethnic wear
70+	4%	Smaller segment

Source: UN DESA Population Division 2024, Technopak Estimates

Country	India	Brazil	Australia	USA	China	UK	France	Germany	Japan
Median Age (2023)	29.5	34.7	37.9	38.5	39.8	40.6	42.4	46.7	49.5

Source: World Population Review 2023

THESIS

Demographic dividend: India remains under-30 median age until 2030. The 18-44 cohort (55%+ of population) is both the primary apparel buyer and the fastest adopter of organized retail — structurally supporting RSB's store rollout into Tier I and Tier II cities where this cohort is concentrating.

A.4 Urbanization & Digital Economy

India's urban population stands at 519 million (36% urbanization rate) vs global average of 57%. Projected to reach 613 million (41%) by 2030. Urban population contributes **63% of GDP**. Digital India has driven internet users from 350M (2015) to **881M (2024)** — CAGR 12%.

Digital Metric	2010	2015	2020	2023	2025P	CAGR 2015-20	CAGR 2020-25
Internet Users (mn)	72	350	662	881	900-1,000	14%	6-8%
Mobile Internet Users (mn)	24	159	480	651	730-820	25%	9-11%
Mobile % of Internet Users	34%	45%	73%	74%	82%	—	—

Source: Secondary Research, Technopak Analysis

MODEL

E-commerce context: 881M internet users with 74% on mobile creates a massive e-commerce addressable market. However, for RSB (currently no marketplace presence per Technopak data), this is both a risk (digital competitors) and an opportunity (own website expansion). Organised B&M; + e-commerce together driving the 18.2% to 24.2% organized share increase by FY29.

A.5 Key Growth Drivers

Growing Middle Class

Households earning USD 10,000-50,000 grew from 5.8% of population (FY2010) to ~34.5% (FY2023) and projected to reach 42% by FY2030. Expanding middle class drives premiumization across categories.

Women Workforce Participation

Female LFPR rose from 23.3% (FY2018) to 41.7% (FY2024) — an 8.9pp jump in 2 years. Working women drive branded fashion purchases, particularly ethnic and fusion wear. RSB's women's ethnic wear focus (54% of revenue) directly benefits from this trend.

Nuclearization of Households

Average household size declining: 5.3 (FY2001) → 4.2 (FY2023) → projected 3.9 by FY2030. More households = more apparel buying units. Drives discretionary spend per capita.

Remittances

India received USD 129.5B in remittances in 2024 (+8% YoY). Key states: Kerala, Maharashtra, Tamil Nadu, Karnataka — all in RSB's geographic zone. Remittances directly support festive/ethnic wear buying.

Digital Economy

881M internet subscribers, 74% mobile. Tier 2/3 city connectivity opening new markets for organised retail and e-commerce. RSB operational in 22 cities — digital penetration supports omnichannel and customer discovery.

Structural thesis in one line: Rising incomes + young demographics + urbanisation + women empowerment + nuclearization = sustained multi-year demand for organized apparel retail, especially in South India where cultural affinity for ethnic wear adds a durable, non-cyclical demand layer.

INDIA APPAREL MARKET

Total Market, Segments by Gender & Category, Organized vs Unorganized, Drivers & Risks

SECTION B

Market in summary: The Indian apparel market was INR 6,212 billion in FY2024 and is on track to reach INR 10,815 billion by FY2029 (CAGR 11.7%). Organized retail share is rising fast — from ~41% to ~57% in menswear, 41% to 49% in womenswear. Value (INR 3,541 Bn) dominates, but premium (CAGR 16.2%) and mid (CAGR 12.1%) are fastest growing. Activewear (18.3%) and denim (14.2%) lead subcategory growth.

B.1 India Retail Market — Context

The India retail market grew from INR 54,272 Bn (FY2019) to INR 84,662 Bn (FY2024) at 9.3% CAGR, projected to reach INR 1,35,383 Bn by FY2029 (9.8% CAGR). Within total consumption, private final consumption is ~60% of GDP. Apparel & Accessories = 3.5% of total household spend.

Segment (INR Bn)	FY2019	FY2024	FY2025E	FY2029P	CAGR 19-24	CAGR 24-29P
Unorganised	48,421	69,251	74,453	1,02,666	7.4%	8.2%
Organised B&M;	3,641	8,578	9,779	16,926	18.7%	14.6%
E-commerce	2,209	6,833	8,365	15,792	25.3%	18.2%
Total Retail	54,272	84,662	92,597	1,35,383	9.3%	9.8%
Organised Share	10.8%	18.2%	19.6%	24.2%	—	—

Source: Secondary Research, Technopak Analysis

Retail Category	FY2019 (INR Bn)	FY2024 (INR Bn)	FY2029P (INR Bn)	Share FY24	CAGR 24-29P
Food & Grocery	35,378	53,946	80,883	63.8%	8.4%
Jewellery	3,935	6,764	13,538	8.0%	14.9%
Consumer Electronics	3,450	6,059	10,821	7.2%	12.3%
Apparel & Accessories	4,024	6,212	10,815	7.3%	11.7%
Pharmacy & Wellness	1,572	2,545	4,525	3.0%	12.2%
Home & Living	2,325	3,558	5,941	4.2%	10.8%

Others	2,987	4,734	7,424	5.6%	—

Source: Secondary Research, Technopak Analysis

THESIS

Apparel share increasing: Apparel & Accessories share in total retail expected to rise from 7.3% (FY24) to 8.0% (FY29) — one of the few categories gaining wallet share within retail. Driven by premiumization, brand awareness and rising discretionary income.

B.2 & B.3 Indian Apparel Market — Total & By Gender

Apparel market = INR 6,212 Bn (FY2024), projecting to INR 10,815 Bn by FY2029 at CAGR 11.7%. Women's (37%) and Men's (40.5%) are the two largest segments. Kids (22.5%) is growing fastest (CAGR 12%).

Category	FY2019 (INR Bn)	FY2024 (INR Bn)	FY2025E	FY2029P	CAGR 19-24	CAGR 24-25E	CAGR 24-29P
Menswear	1,654	2,513	2,783	4,312	8.7%	10.8%	11.4%
Womenswear	1,477	2,298	2,560	4,029	9.2%	11.4%	11.9%
Kidswear	892	1,401	1,560	2,474	9.4%	11.3%	12.0%
Total Market	4,024	6,212	6,903	10,815	9.1%	11.1%	11.7%

Source: Secondary Research, Technopak Analysis

Organised vs Unorganised — by Gender Segment

Segment	Org% FY2019	Org% FY2024	Org% FY2025E	Org% FY2029P	Org CAGR 24-29P	Unorg CAGR 24-29P
Womenswear	30.0%	41.0%	41.5%	49.0%	15.9%	8.7%
Menswear	40.0%	52.0%	54.1%	59.0%	14.3%	7.9%
Kidswear	12.0%	29.0%	31.5%	40.2%	19.6%	8.3%

Source: Secondary Research, Technopak Analysis

THESIS

Organized shift accelerating: In all three gender segments, organized retail CAGR (14-20%) is running at nearly 2x the unorganized CAGR (8-9%). Kidswear organized retail at only 29% in FY24 vs menswear at 52% — kidswear represents the largest absolute headroom for organized players to capture.

RSB

RSB revenue mix context: Women (54%), Men (22%), Kids (18%), FMCG (6%) in FY2025. Women-heavy mix is well-aligned with the fastest-growing organized segment in womenswear — particularly ethnic wear in South India.

B.4 Women's Apparel — Subcategories & Saree Market

Women's apparel = INR 2,298 Bn (FY2024), growing at CAGR 11.9% to INR 4,029 Bn by FY2029. Ethnic/Indian wear dominates at **65.4%** of women's market. Activewear (CAGR 17.7%) and western wear (CAGR 16.2%) are fastest growing within women's segment.

Women's Sub-Category	FY2019	FY2024	FY2025E	FY2029P	CAGR 19-24	CAGR 24-29P
Ethnic/Indian Wear	1,051	1,503	1,657	2,540	7.4%	11.1%
Innerwear	215	428	474	755	14.8%	12.0%
Westernwear	113	200	233	424	12.1%	16.2%
Denim	30	62	77	122	15.4%	14.4%
Winterwear	46	57	62	92	4.3%	10.2%
Activewear	8	30	37	69	30.1%	17.7%
Other	15	17	19	28	3.4%	10.4%
Total	1,477	2,298	2,560	4,029	9.2%	11.9%

Source: Secondary Research, Technopak Analysis | All values in INR Billion

Saree Market in India

Saree market = INR 564 Bn (FY2024), projected to grow at 8.3% CAGR to INR 841 Bn by FY2029. **South India accounts for ~49.3%** of the saree market — by far the largest regional share. Saree = 37.5% share within women's Indian wear market in FY2024.

Region	Share of Saree Market (FY2024)	Key Saree Types
South India	~49.3%	Kanjivaram, Mysore Silk, Venkatagiri, Mangalagiri
East India	~18.5%	Baluchari, Tant, Muslin
West India	~16.5%	Brocade, Gharchola, Patola
North India	~15.8%	Banarasi, Chanderi, Maheshwari

Source: Secondary Research, Technopak Analysis

Women's Indian Wear by Product	FY2019	FY2024	FY2025E	FY2029P	Share FY24
Saree	440	564	608	841	~37.5%
Sets (Salwar/Kurta Sets)	279	415	462	691	~27.6%
Mix & Match	162	297	338	611	~19.8%
Lehenga	147	198	225	369	~13.2%
Others	23	30	25	27	~2.0%
Total	1,051	1,503	1,657	2,540	100%

Source: Secondary Research, Technopak Analysis | Values in INR Billion

THESIS

South India saree dominance: With ~49% of a INR 564 Bn market centred in South India, and RSB's deep presence in AP + Telangana (and expanding into TN/Karnataka), the company sits squarely in the highest-density ethnic wear zone in India. This is a structural competitive moat vs national players with limited regional curation.

RSB

RSB format alignment: Kanchipuram Narayani Silks (premium saree format) + South India Shopping Mall (broad ethnic + western) + R.S. Brothers (mid-premium) collectively address the full saree price spectrum — from INR 500 (value) to INR 10,000+ (premium). Average order value at Narayani Silks = INR 7,211, aligned with premium saree price points.

B.5 Festive & Wedding Wear + Men's & Kids' Apparel

Festive & Wedding Wear Market: INR 937 Bn (FY2024), growing at CAGR 11.2% to INR 1,594 Bn by FY2029. Women's share = ~75.6% of this market. Saree = ~39% within women's festive/wedding wear. This is a non-discretionary, occasion-linked recurring demand.

Festive/Wedding Segment	FY2019	FY2024	FY2025E	FY2029P	CAGR 19-24	CAGR 24-29P
Womenswear	516	709	778	1,189	6.5%	10.9%
Menswear	86	111	124	191	5.4%	11.4%
Kidswear	83	117	131	213	7.2%	12.7%
Total Festive Market	684	937	1,033	1,594	6.5%	11.2%

Source: Secondary Research, Technopak Analysis | Values in INR Billion

Men's Apparel — Category Split

Men's Sub-Category	FY2019	FY2024	FY2029P	CAGR 19-24	CAGR 24-29P
Westernwear	1,031	1,499	2,474	7.8%	10.5%
Denim	213	371	715	11.7%	14.0%
Innerwear	115	209	351	12.7%	10.9%
Ethnic/Indian wear	114	157	266	6.5%	11.1%
Activewear	48	109	253	17.9%	18.4%
Winterwear	117	144	212	4.3%	8.0%
Total Men's	1,654	2,513	4,312	8.7%	11.4%

Source: Secondary Research, Technopak Analysis | Values in INR Billion

Kids' Apparel — Category Split

Kids' Sub-Category	FY2019	FY2024	FY2029P	CAGR 19-24	CAGR 24-29P
Westernwear	602	989	1,756	10.4%	12.2%
Ethnic/Indian wear	115	164	300	7.3%	12.9%
Innerwear	73	112	190	9.0%	11.0%
Winterwear	64	84	133	5.5%	9.6%
Denim	15	23	51	9.1%	17.6%
Total Kids'	892	1,401	2,474	9.4%	12.0%

Source: Secondary Research, Technopak Analysis | Values in INR Billion

B.6 Apparel by Price Segment

Value segment dominates at INR 3,541 Bn (57% share in FY2024) driven by mass-market demand. However, Premium (CAGR 16.2%) and Mid (CAGR 12.1%) are the fastest-growing price bands, driven by rising incomes, urbanization and aspiration. Fastest selling prices: Sarees = INR 500 (Value), INR 3,700 (Mid), INR 10,000 (Premium).

Price Segment	FY2019 (INR Bn)	FY2024 (INR Bn)	FY2029P (INR Bn)	Share FY2024	CAGR 19-24	CAGR 24-29P
Value	2,291	3,541	5,732	57.0%	9.1%	10.1%
Mid	1,129	1,677	2,974	27.0%	8.2%	12.1%
Premium	604	994	2,109	16.0%	10.5%	16.2%
Total	4,024	6,212	10,815	100%	9.1%	11.7%

Source: Secondary Research, Technopak Analysis

THESIS

Premium growth > Value growth (6pp CAGR gap): This matters for RSB — which spans Value (ValueZone AOV ~INR 1,998), Mid-Premium (RS Brothers/SISM AOV ~INR 2,542), and Premium (Narayani Silks AOV ~INR 7,211). The company is therefore capturing both ends of a bifurcating market. Premium and mid-premium are where margin expansion is most accessible.

B.7 Growth Drivers & Key Risks for India Apparel

+ Regional Brands Going National + D2C Rise

Regional brands expanding nationally + D2C platforms growing via e-commerce. RSB fits this pattern with its inter-state expansion (AP → Telangana → Karnataka → TN/Maharashtra planned).

+ Athleisure — Fastest Sub-Segment

Activewear growing at ~18.3% CAGR (FY24-29) — fastest within all apparel subcategories. Driven by health-conscious urban consumers. RSB's current product mix is under-indexed here but LFS stores carry some activewear.

+ Value Retail Surge

Success of Zudio (sub-INR 999 price point) catalysing new entrants in value space. RSB entered value through ValueZone (INR 2 hypermart stores). This is a high-volume, lower-margin but traffic-driving format.

+ Omnichannel Digital-First Strategy

E-commerce in apparel growing at ~17.4% CAGR (FY24-29). RSB has website presence but no marketplace listings currently — potential gap vs peers like Pothys and Sai Silks.

+ Sustainability & Ethical Fashion

Growing consumer preference for organic/sustainable materials. Handloom-based sarees (Kanjivaram, Mangalagiri) naturally align with this trend — RSB's ethnic wear focus has embedded sustainability appeal.

Key Risks

- Price Sensitivity & Global Slowdown

India consumers are value-conscious. Inflation squeezes mid-segment. Global fashion slowdown can dampen premium aspirations. RSB's multi-format (value + premium) model provides some hedge.

RISK

Price Sensitivity & Global Slowdown: India consumers are value-conscious. Inflation squeezes mid-segment. Global fashion slowdown can dampen premium aspirati...

- Inventory & Logistics Complexity

High return rates on e-commerce, inventory synchronization challenges, reverse logistics costs. RSB currently operates brick-and-mortar only — insulated from e-commerce return cycle risk but misses online upside.

RISK

Inventory & Logistics Complexity: High return rates on e-commerce, inventory synchronization challenges, reverse logistics costs. RSB currently operates b...

- Intense Competition from D2C & National Brands

National LFS (Trent/Westside, Pantaloons, Shoppers Stop) expanding into Tier I/II South Indian cities. D2C brands capturing younger shoppers online. RSB's regional depth is its moat but national players' scale is a structural threat.

RISK

Intense Competition from D2C & National Brands: National LFS (Trent/Westside, Pantaloons, Shoppers Stop) expanding into Tier I/II South Indian cities. D2C brands captur...

- Online Clothing Rental Market

Platforms like Flyrobe, Rent an Attire gaining traction in occasion-wear (directly competing with RSB's festive/ethnic segment). Currently urban, but could spread to Tier II.

RSB BUSINESS & BENCHMARKING

South India Market | LFS & Value Retail | RSB Formats | Financials | Peer Comparison

SECTION C

RSB Retail in context: RSB is a multi-format retailer operating across Large Format Stores, Exclusive Ethnic Wear (Women & Men), and Value Hypermart formats in South India (AP, Telangana, Karnataka). FY2025 Revenue = INR 26,939 Mn (CAGR 12.55%), EBITDA Margin = 13.88%, ROE = 25.83%. Among regional peers, RSB generates the **second-highest average revenue per store** (INR 369 Mn) and is the only regional player with presence across ALL four retail formats: Value, LFS, Ethnic-Women, Ethnic-Men.

C.1 South India Apparel Market

South India apparel market = INR 1,723 Bn (FY2024), 28% of total India apparel. Growing at CAGR 12.1% to INR 3,050 Bn by FY2029. Organized retail at 51.3% in FY2024 vs 37.2% in FY2019 — already majority organized, faster transition than national average.

Channel (South India, INR Bn)	FY2019	FY2024	FY2025E	FY2029P	CAGR 19-24	CAGR 24-29P
Unorganised	686	838	898	1,200	4.1%	7.4%
Organised Total	406	884	1,020	1,850	16.9%	15.9%

South India Women's Apparel — Subcategory Detail

Women's apparel in South India = INR 687 Bn (FY2024), dominated by Indian wear at **74% share**. Growing at CAGR 13.0% to INR 1,265 Bn by FY2029. South India's ethnic wear affinity is structurally higher than national average (65.4% nationally vs 74% in South).

Sub-Category	FY2019 (INR Bn)	FY2024 (INR Bn)	FY2029P (INR Bn)	CAGR 19-24	CAGR 24-29P
Indian/Ethnic Wear	312	507	925	10.2%	12.8%
Western Wear	105	180	340	11.4%	13.6%
Total Women South	417	687	1,265	10.5%	13.0%

THESIS

South India = highest organized penetration + highest ethnic affinity: At 51.3% organized share (vs ~37% in some other markets), South India has already crossed the tipping point into organized retail dominance. Combined with 74% ethnic wear share among women — RSB's core offering — this market is structurally tailor-made for RSB's format mix.

RSB

RSB store count in AP+Telangana context: RSB had 27 stores in AP and 45 in Telangana (FY2025). Among all players benchmarked, RSB had the highest combined store count in this specific market — ahead of Vishal Mega Mart (40+45), Trent (49+54), Reliance (315+333 — but very different format), and ABFRL (115+154 — pan-India brand).

C.2 Large Format Store (LFS) Market

LFS market = INR 629 Bn (FY2024), 9.8% of total apparel market. Projected to reach INR 1,154 Bn by FY2029 (CAGR 13.0%). South India is the largest LFS region at ~38% share (INR 238 Bn). South LFS projected to grow at CAGR 14.1% — fastest of any region.

LFS Region (INR Bn)	FY2019	FY2024	FY2025E	FY2029P	Share FY24	CAGR 19-24	CAGR 24-29P
South	151	238	270	462	~38%	9.6%	14.1%
West	105	158	176	277	~25%	8.5%	11.9%
North	91	144	162	265	~23%	9.7%	13.0%
East	66	88	99	150	~14%	6.0%	11.1%
Total LFS	412	629	708	1,154	100%	8.8%	13.0%

Sai Silks Kalamandir	N/A	10	10	7	8	12	11	11

Source: Annual Reports, Brand Websites, Technopak Analysis

RSB

RSB is the only regional LFS player with consistent store expansion: RSB grew from 18 stores (FY2018) to 47 (FY2025 LFS equivalent) — 2.6x in 7 years. Pothys (17→17), JC Brothers (17→14) and Sai Silks (10→11) have all stagnated or declined. RSB is the only player with clear network momentum among South Indian regional LFS peers.

C.3 Value Retail Market

Lifestyle & Home Value Retail market = INR 4,874 Bn (FY2024), 58% of lifestyle+home total. Projected to reach INR 7,869 Bn by FY2029 (CAGR 10.1%). Apparel = 73% of value retail market. South India value retail = INR 1,380 Bn (28% share), growing at CAGR 10.3%.

Category (Value Retail)	FY2019 (INR Bn)	FY2024 (INR Bn)	FY2029P (INR Bn)	Share FY24	CAGR 24-29P
Apparel	2,298	3,556	5,744	73%	10.1%
Footwear	352	487	757	10%	9.5%
Non-Apparel Acc.+Watches	319	487	865	10%	12.2%
Home Furnishings	223	487	709	10% (est)	8.4%
Total Value Retail	3,192	4,874	7,869	100%	10.1%

Source: Technopak Analysis

THESIS

Value retail as customer acquisition engine: RSB entered value retail in FY2023 with ValueZone (2 hypermarkets). Revenue contribution grew from 0 → 6.87% of total in FY2025 (INR 1,851 Mn). Value format drives higher footfall and cross-sells into apparel — the strategic rationale is customer funnel broadening, not margin expansion. This mirrors Trent's Zudio playbook at scale.

C.4 RSB Retail — Business Overview & Store Formats

RSB Retail India Limited (formerly R.S. Brothers, est. 1999) is a multi-format retailer in South India. As of March 31, 2025: **73 stores, 22 cities, 3 states**. Total store area: 1.85 mn sqft. Average store size: 25,409 sqft. Only regional player with presence across all 4 formats.

Store Format	Target Segment	First Store	AOV FY25 (INR)	Revenue FY25 (INR Mn)	% of Revenue
R.S. Brothers	Mid-Premium	1999 (Koti, Hyd)	2,542	5,703	21.2%
South India Shopping Mall	Mid-Premium	2010 (Kothapet)	2,542*	18,407	68.3%
Kanchipuram Narayani Silks	Premium	2019 (Ameerpet)	7,211	682	2.5%
De Royal (Men Ethnic)	Premium	2022 (Chandanagar)	6,337	154	0.6%
ValueZone Hypermart	Value	2023 (Patancheruvu)	1,998	1,851	6.9%
Status/Ethnic Dest. (acq)	Premium/Mid	2024 (via BTA)	—	142	0.5%

State	FY2025 (INR Mn)	FY2024 (INR Mn)	FY2023 (INR Mn)	% FY2025
Telangana	16,690	15,253	13,709	61.9%
Andhra Pradesh	10,236	9,322	7,558	38.0%
Karnataka	13	5	—	0.05%
Total	26,939	24,580	21,267	100%

Source: RSB Restated Financial Statements

RSB

Hyderabad concentration risk: 39 of 73 stores (53%) and 52.1% of revenue is from Hyderabad alone. RSB's growth strategy explicitly targets reducing this dependency by expanding deeper into AP Tier-II cities and entering TN/Maharashtra. From a thesis perspective, this concentration creates both risk (single-market dependency) and opportunity (proven playbook for replication).

C.5 RSB Financial Performance (FY2023-FY2025)

P&L; Metric	FY2023 (INR Mn)	FY2024 (INR Mn)	FY2025 (INR Mn)	CAGR FY23-25
Revenue from Operations	21,267	24,580	26,939	12.55%
Gross Profit	6,923	8,711	10,126	20.94%
EBITDA	2,193	2,661	3,738	30.56%
PAT (Profit After Tax)	678	617	1,044	24.08%
Gross Margin %	32.55%	35.44%	37.59%	+502 bps

PAT Margin %	3.19%	2.51%	3.84%	+65 bps

Source: RSB Restated Financial Information (FY2023-FY2025)

Key Ratios	FY2023	FY2024	FY2025
Return on Equity (ROE)	26.55%	19.24%	25.83%
Return on Capital Employed (ROCE)	30.44%	24.39%	28.95%
Debt-to-Equity Ratio	1.73x	2.04x	2.35x
Inventory Turnover Ratio	3.72x	3.31x	3.09x
Net Working Capital Days	20	23	28
Same Store Sales Growth (SSSG)	29.19%	0.34%	(4.38)%
Average Order Value (INR)	2,834	2,705	2,551
Average Selling Price / Piece (INR)	864	760	723
Number of Bills (Mn)	7.50	9.09	10.56

Source: RSB Restated Financial Information | Debt-to-Equity includes lease liabilities

THESIS

Margin trajectory is the headline: Gross margin expanding from 32.6% → 37.6% and EBITDA from 10.3% → 13.9% in just 2 years — this is exceptional for a rapidly-expanding physical retailer. The expansion reflects better private label penetration (3.75% → 7.25% of revenue), improved supplier terms at scale, and operating leverage on the cost base.

RISK

SSSG turning negative: SSSG fell from +29.2% (FY23) to +0.3% (FY24) to -4.4% (FY25). While partly explained by new store cannibalization and the rapid store rollout, negative SSSG at mature stores needs watching. AOV and ASP are also declining year-on-year — pricing pressure or trading-down risk is evident.

RISK

Leverage rising: Debt-to-Equity ratio increased from 1.73x → 2.35x (FY23-25), including lease liabilities. Rapid store expansion is being funded through debt. Net Working Capital Days expanding (20 → 28). Inventory turnover declining. These are early warning signs for financial stress if growth moderates.

C.6 Peer Benchmarking — Financial & Operational KPIs

Revenue Comparison (INR Mn)

Company	Category	FY2023	FY2024	FY2025	CAGR 23-25
RSB Retail India Limited	Regional LFS	21,267	24,580	26,939	12.55%
Pothys Pvt. Ltd.	Regional LFS	19,464	21,824	N/A	12.12%
Marri Retail Pvt. Ltd.	Regional LFS	19,008	22,171	N/A	16.64%

Source: Annual Reports, Technopak Analysis | *V-Mart and Vishal figures adjusted for format difference

RSB

RSB second-highest average revenue per store (INR 369 Mn) among regional peers: Only Avenue Supermart (INR 1,393 Mn — completely different format/category mix) and Pothys (INR 973 Mn — very large stores) exceed RSB on this metric. Among comparable-format retailers, RSB leads.

MODEL

Gross margin expansion story: RSB gross margin went from 32.6% (FY23) to 37.6% (FY25) — a 500 bps improvement in 2 years. For context: V-Mart is flat at 34-35%, V2 Retail is declining (31% → 29%), and Baazar Style is flat at 32-34%. RSB's margin expansion is exceptional and driven by private label growth (3.75% → 7.25% revenue share).

C.7 RSB Competitive Position & Strategy

Multi-Format Coverage vs Peers

Player	Value Format	Large Format Store	Ethnic Wear — Women	Ethnic Wear — Men
RSB Retail India Limited	Yes (ValueZone)	Yes (RS Brothers, SISM)	Yes (Narayani Silks)	Yes (De Royal)
Pothys Pvt. Ltd.	No	Yes	Yes	No
Marri Retail (JC Brothers)	Yes	Yes	No	No
Saravana Stores	No	Yes	No	No
Sai Silk (Kalamandir)	Yes	Yes	Yes	No

RSB Strategic Priorities (Board-approved Aug 2025)

1. New Store Rollouts

INR 1,181.81 Mn from IPO proceeds to fund 14 new R.S. Brothers / SISM stores in AP & Telangana. Plan: 4 stores in FY26, 7+7 stores (SISM+RSB) in FY27-28. Also entering TN and Maharashtra. Letter of intent signed for one store each in Karnataka and Maharashtra.

2. Operational Efficiency & Scale Leverage

Improving supplier commercial terms. AI/ML for demand forecasting and inventory planning. Performance-based employee incentives. Expanding product range to improve basket size.

3. Private Label Expansion

13 private labels currently (Adam Parker, Republican, Temperature, SISMO, Classic Colors, HOSH etc.). Private label revenue grew from 3.75% → 7.25% of total (FY23-25). Targeting further increase; possibility of dedicated private label stores in future.

4. Reduce Hyderabad Concentration

52.1% revenue from Hyderabad (39 stores). Strategy to expand into other AP/Telangana Tier-I and Tier-II cities to diversify revenue and reduce single-market dependency.

Investment thesis in one statement: RSB is a rare South India multi-format retailer with proven playbook (1999 origin), clear format differentiation, growing private label mix driving margin expansion, and structurally advantaged positioning in the highest ethnic-wear-density region of India. The IPO proceeds fund an acceleration into underpenetrated Tier-II/III markets in AP & Telangana — where the unorganised-to-organised shift is fastest. Key risks: SSSG turning negative, rising leverage, Hyderabad concentration, and national LFS/D2C competition in digital channels.

Key Threads to Align With Your Research Data

Suggested approach for triangulation: Now that you have this structured view from the DRHP, the next step is to overlay your own scraped/collected data against each of these exhibits. Key questions your raw data should help answer are listed below.

1. Market Sizing Cross-Check

Does your scraped data on apparel market size, segment splits and CAGR numbers triangulate with Technopak's figures (INR 6,212 Bn FY24, CAGR 11.7%)? Key data to compare: CRISIL, ICRA, McKinsey, Wazir Advisors if you have any.

2. South India Ethnic Wear Depth

Technopak says South India = 74% ethnic share in women's apparel vs 65% national. Can your primary/secondary research validate this differential? What do consumer survey data show?

3. Competitive Store Counts & Expansion Plans

Has your research captured recent store openings by Pothys, Sai Silks, Marri Retail in AP/Telangana? Technopak uses Jan 2025 data — there may be gaps to fill from your scraping.

4. RSB Peer Financial Benchmarking

The DRHP benchmarks RSB vs Baazar Style, V-Mart, Vishal Mega Mart etc. Your data may include more granular unit economics, same-store metrics, or recent quarterly results post the DRHP filing date (Aug 2025). Layer these in.

5. Consumer Sentiment & Brand Perception

DRHP only covers structural market data. Your collected data may include social listening, Google Trends, customer reviews, NPS scores or survey data that add a consumer-voice dimension missing from the Technopak Report.

6. E-Commerce Gap

RSB has no marketplace presence per DRHP. Your research may reveal whether this is intentional strategy, a near-term gap being filled, or a structural weakness — key for your thesis on digital risk.

7. IPO Valuation Context

The DRHP sets out the use of proceeds and business plan. Your data may include peer EV/EBITDA, P/E, EV/Revenue multiples for listed retailers — critical for valuation framing in your presentation.
