Statista Consumer Insights Target Audience Report

Introduction

Report overview

This report analyses consumers who answered the question "Which of these statements about fashion do you agree with?"

This report offers the reader a comprehensive overview of In-store fashion consumers: who they are; what they like; what they think; and how to reach them. It provides insights on their demographic lifestyle, opinions, and marketing touchpoints. Additionally, the report allows the reader to benchmark In-store fashion consumers ("target audience") against the average Indian consumer, labelled as "all respondents" in the charts.

This report is updated quarterly and is based on data from the Statista Consumer Insights Global survey.

Consumer Insights Global methodology ¹

	Design	Online survey, split questionnaire design
	Duration	approx. 15 minutes
	Language	official language(s) of each country with American English offered as an alternative
	Region	32 countries
	Number of respondents	1,700+ for all the countries
	Sample	Internet users, aged 18 – 64, quotas set on gender and age
	Fieldwork	Continuous from January to December

2 | Notes: ¹ See the full [methodology](#) for a detailed overview of the study design
