

# **ECONOMIC SURVEY OF KARNATAKA 2024-25**

# **ECONOMIC SURVEY OF KARNATAKA 2024-25**

**March, 2025**

Planning, Programme Monitoring and Statistics Department

First Edition : 1978-79

47th Edition : 2024-25

## PREFACE

The Economic Survey is published every year by the Department of Planning, Programme Monitoring and Statistics, Government of Karnataka with the objective of assessing and evaluating the performance of the State, across sectors, and to identify specific gaps and challenges for initiating appropriate action. Further, the document highlights the macro-economic profile of the State and provides basic information on the economic policies and developmental programmes being implemented by the Government.

This year's Economic Survey 2024-25 has 13 chapters. Each chapter has looked at the existing scenario and analyzed it as per the extant trends to predict suitable policy interventions. Some notable achievements, among others, are that the State has continued its progressive journey of inclusion and equity and is among the top States in several indicators like Gross State Domestic Product, Per Capita Income, Technology and Innovation, Start-ups, IT services, Good Governance practices, etc.

Karnataka tops the overall Devolution Index (DI) ranking of the Panchayat Raj system among states in India, even higher than Kerala and Tamil Nadu which are in the second and third spot respectively.

As a pioneering State, Karnataka which has 2.5 lakh Electric Vehicles, announced the Karnataka Clean Mobility Policy 2025-30 with an objective to create a comprehensive clean mobility vehicle eco-system in the State.

Further, the State hosted the prestigious "Global Investors Meet – Invest Karnataka 2025" in February 2025 to attract investments and generate employment where Rs. 6.24 lakh crores has been signed of as a MoU, out of Rs. 10.27 lakh crore investment committed to generate over 6 lakh employment. The State has also announced the Karnataka Industrial Policy 2025-30 for attracting Investments of Rs 7.5 lakh crores from across the country and abroad, to create employment opportunities for 20 lakh people by 2030, and to achieve balanced and inclusive regional development of the State.

Sincere acknowledgements are proposed for the support received from the various departments for providing timely information required for the Economic Survey. The role of Sri. Chandrashekar Gudi, Director, Directorate of Economics and Statistics and Co-ordinators, Nodal Officers and the supporting staff of the Directorate of Economics and Statistics and Planning Department for their tireless work to bring out 2024-25 Economic survey report within the stipulated time, is much appreciated.

Trust this document will provide useful insights to policy makers, industry bodies, academicians, students and citizens regarding the performance of schemes, policies, achievements, challenges and way forward for achieving sustainable development.

**Manoz Jain, IAS**

Secretary to the Government,  
Planning, Programme Monitoring  
and Statistics Department.

**Dr. Vishal R. IAS**

Secretary to the Government,  
Planning, Programme Monitoring  
and Statistics Department.

# EXECUTIVE SUMMARY

## Introduction

Karnataka is at the forefront of India's development, driving economic growth through progressive policies, technological advancements, and inclusive governance. As a premier investment destination, the state has nurtured a business-friendly ecosystem, particularly excelling in IT, biotechnology, and high-tech industries, with exports contributing nearly 40% of its GSDP.

Agriculture remains vital, with improved irrigation, technology integration, and farmer-centric initiatives enhancing productivity and rural livelihoods. Karnataka's rich biodiversity, covering 24.52% of its land with forests and tree cover, underscores its commitment to environmental sustainability. Home to a significant portion of the Western Ghats, five national parks, and 36 wildlife sanctuaries, the state plays a crucial role in conservation efforts.

Infrastructure development has been transformative, with renewable energy policies driving near self-sufficiency in power generation. Urban mobility projects like the Bengaluru Suburban Railway and Bangalore Metro Phase-2, alongside the Shakti scheme providing free travel for women, reflect Karnataka's people-centric development model. Expanding banking and digital governance initiatives further strengthen the economic framework.

Karnataka leads in human development, surpassing national health and education benchmarks. The state's early adoption of a Human Development Report and digital governance initiatives, such as the Karnataka Geographic Information System (K-GIS), reinforce transparency and efficiency.

Strategically advancing the Sustainable Development Goals (SDGs), Karnataka has improved performance in 11 goals and achieved success in clean energy. By empowering rural and urban communities, fostering skill development, and championing sustainability, Karnataka stands as a model of economic resilience and inclusive progress in India's growth story.

## 1. STATE INCOME AND PRICES

- The State has increased the GSDP from Rs.25.57 lakh crore in 2023-24 to Rs. 28.84 lakh crore in 2024-25 with a growth rate of 12.8% at current prices and Rs. 14.63 lakh crore to Rs. 15.70 lakh crore with a growth rate of 7.4% at constant prices during the same period.
- GDP grew by 7.4% during 2024-25 as compared to 6.4% of India at constant prices.
- During 2024-25, the share of Karnataka GSDP in All India GDP is at 8.9% as compared to 8.6% in 2023-24.
- Karnataka's Per capita Income of Rs.3,80,906 is higher by 90% to All India Per capita Income of Rs.2,00,162 during 2024-25
- The per capita income has increased from Rs.3,39,813 in 2023-24 to Rs. 3,80,906 in 2024-25 with a growth rate of 12.1% at current prices and Rs. 1,91,970 to Rs.2,04,605 with a growth rate of 6.6% at constant prices during the same period.
- Growth of Agriculture sector at constant prices is expected to be 4.0% in 2024-25 as against (-)4.9% during 2023-24.

- Industry sector at constant prices is anticipated to reach 5.8% growth rate in 2024-25 as against 7.3% in 2023-24 showing the gradual recovery from Covid distress. 6.4% growth in manufacturing is boosting the industrial sector growth rate.
- Services at constant prices is expected to attain a level of 8.9% growth rate in 2024-25 as against 7.9% in 2023-24 due to growth in IT related services from 10.2% in 2023-24 to 11.1% in 2024-25. Public Administration with 19.7% growth rate, 14.8% in Other Services are major contributing sub-sectors of services.
- Highest share of Services in GSVA at 68.1% followed by Industries at 20.2% and Agriculture at 11.7% in GSDP of Karnataka for 2024-25.
- Bangalore Urban District Gross Domestic Product is Rs. 9,98,659 Crore with 39.1% contribution to State GDP followed by Dakshina Kannada with 5.4% and Belagavi with 3.9% during 2023-24.
- Kalaburgi revenue region (comprising Ballari, Bidar, Kalaburgi, Koppal, Raichuru, Vijayanagar and Yadagiri districts), stood lowest in the per capita income of Rs.1,73,226 followed by Belagavi region (Rs.2,00,457) and Mysore regions (Rs.3,59,177) during 2023-24.
- Bangalore Urban district Per capita Income is Rs.7,38,910 is highest among all the districts, followed by Dakshina Kannada Rs.5,56,059, Udupi Rs.5,33,469 Chikkamagaluru Rs.4,44,472, Bangalore Rural Rs.4,04,138 and Shimoga Rs.3,49,177 are above the State Per capita Income of Rs.3,39,813 for the year 2023-24.

## 2. FISCAL DEVELOPMENT & STATE FINANCES

Karnataka has demonstrated strong fiscal discipline, ensuring economic stability and efficient public service delivery. As the first state to enact the Fiscal Responsibility Act (2002), it institutionalized transparency, prudent debt management, and fiscal sustainability. By maintaining the fiscal deficit within 3% of GSDP through consistent tax and non-tax revenue growth, Karnataka has built a resilient financial framework. These sound state finances have enabled sustained investments in infrastructure, social sectors, and human development.

- Karnataka has consistently maintained fiscal discipline by keeping the fiscal deficit within 3% of GSDP, driven by steady growth in tax and non-tax revenues each year.
- In 2024-25 (BE), the state's total receipts have surged by 17.90%, rising from Rs. 3,12,707.89 crore in 2023-24 (RE) to Rs. 3,68,673.87 crore.
- Revenue receipts have increased by 16.05%, from Rs. 2,26,779.89 crore in 2023-24 (RE) to Rs. 2,63,177.82 crore in 2024-25 (BE), while capital receipts have grown by 22.77%, reaching Rs. 1,05,496.05 crore in 2024-25 (BE) from Rs. 85,928.00 crore in 2023-24 (RE)
- The state's own tax revenue has witnessed a 17.59% rise, climbing from Rs. 1,61,494.00 crore in 2023-24 (RE) to Rs. 1,89,893.03 crore in 2024-25 (BE), while non-tax revenue has grown by 12.50%, increasing from Rs. 12,000.00 crore to Rs. 13,499.59 crore.
- Expenditure from the Consolidated Fund has gone up by 16.85%, rising from Rs. 3,17,835.57 crore in 2023-24 (RE) to Rs. 3,71,382.79 crore in 2024-25 (BE).
- Developmental expenditure has grown by 15.83%, reaching Rs. 2,41,725.40 crore in 2024-25(BE) from Rs. 2,08,687.88 crore in 2023-24(RE), reinforcing Karnataka's commitment to infrastructure and welfare schemes.

- Revenue expenditure has risen by 20.69%, from Rs. 2,40,731.04 crore in 2023-24 (RE) to Rs. 2,90,531.35 crore in 2024-25 (BE) and capital expenditure has increased by 4.86%, from Rs. 77,104.53 crore in 2023-24 (RE) to Rs. 80,851.44 crore in 2024-25 (BE).
- The state remains committed to social welfare, continuing the five guarantee schemes introduced in 2023-24, with Rs. 52,000.00 crore allocated in the 2024-25 budget, accounting for about 14% of total allocation. These schemes ensure financial support of Rs. 50,000 to Rs. 55,000 per household annually. The allocations for the five guarantees are: -
- The Shakti Scheme provides free travel for women across State with an allocation of Rs. 5,015.00 crore
- Under Anna Bhagya, beneficiaries receive 10 kg of food grains monthly (5 kg from GoI and 5 kg from the state), with Rs. 8,079.00 crore earmarked for the program
- The Gruha Jyothi Scheme grants households an exemption from electricity bills for up to 200 units per month, with an allocation of Rs. 9,657.00 crore.
- The Gruha Lakshmi Scheme ensures Rs. 2,000 per month for women heading households, with Rs. 28,608.40 crore set aside for this initiative
- Under Yuva Nidhi, unemployed graduates receive Rs. 3,000 per month, and diploma holders receive Rs. 1,500 per month for up to two years or until they secure employment. This scheme has been allocated Rs. 650.00 crore.

### 3. INVESTMENT AND EXPORTS

Karnataka has emerged as a top investment hub, driven by progressive policies, attractive incentives, and strong infrastructure. The state's focus on private investment has fuelled substantial growth, especially in IT and biotechnology, which contribute significantly to exports. With nearly 40% of its GSDP linked to exports, Karnataka continues to foster a business-friendly environment.

- The state pioneered the Industrial Facilitation Act, streamlining approval processes and making Karnataka one of the most investor-friendly regions in the country.
- The Karnataka Cybersecurity Policy 2024-29 is set to create a secure digital ecosystem by safeguarding critical infrastructure, raising cybersecurity awareness, and fostering innovation in security technologies.
- The Nipuna Karnataka Initiative is equipping the local workforce with globally relevant skills in AI, Blockchain, Cybersecurity, and Data Science, ensuring competitiveness in emerging industries.
- Karnataka has registered 536 IT/ITES companies, offering key incentives such as power tariff concessions to 288 companies, stamp duty exemptions to 38 companies, and financial support including Rs.14.34 lakh in PF/ESI benefits for two companies and Rs.20.37 lakh in rental reimbursements for seven companies outside Bengaluru—a testament to the state's commitment to inclusive IT sector growth.
- Karnataka has launched multiple startup-focused funds to drive innovation and entrepreneurship. These initiatives provide both financial and non-financial support, boosting technology-based startups in IT, biotechnology, healthcare, clean energy, and agriculture. The state aims to generate 25,000 direct startup-related jobs, expand its innovation ecosystem, and foster stronger collaborations between academia, industry, and startups to enhance the innovation pipeline.
- Karnataka continues to support the Electronic System Design and Manufacturing (ESDM) industry, with a total of Rs.18.98 crore disbursed as incentives. In FY 2023-24, Rs.1.18 crore was allocated, followed by Rs.1.76 crore in FY 2024-25, demonstrating the state's commitment to strengthening the ESDM sector.

- Bengaluru Lifesciences Park – A Biotech Hub in the Making is spread across 52 acres and 27 guntas, the Bengaluru Lifesciences Park is being developed as a world-class industry zone under the PPP model, featuring a 60-lakh sq. ft built-up area for cutting-edge R&D infrastructure. With 150+ biotech/life sciences companies and an expected workforce of 50,000+ employees, this park is set to be a game-changer for Karnataka's biotech sector.
- Strengthening Karnataka's Export Leadership: Karnataka recorded Rs.13,78,959.77 crore in exports for 2023-24, contributing 20.5% of India's total exports. While merchandise exports made up 6.09% of the country's total, software and service exports dominated with a 41% share, reinforcing the state's role as a tech-driven export powerhouse.
- Karnataka's agricultural commodity exports saw a decline from \$2,789.22 million in 2022-23 to \$2,043.70 million in 2023-24, marking a 27% drop. This highlights the need for renewed efforts to boost agro-exports and enhance global market access.
- Exports is powering economic growth as it is accounting for nearly 40% of Karnataka's Gross State Domestic Product (GSDP), with electronics, computer software, and biotechnology driving economic momentum. The state continues to prioritize private investment, industrial competitiveness, and a business-friendly environment to sustain this growth.
- Karnataka is a leader in high-value exports as it holds a dominant position in India's export landscape, contributing over one-third of the country's electronics and computer software exports. Additionally, the state is a top exporter of coffee, spices, petrochemicals, and engineering commodities, particularly from the Southern region, reinforcing its role as an industrial and agricultural export hub.

#### 4. RURAL DEVELOPMENT AND PANCHAYATH RAJ

Karnataka is setting a benchmark in sustainable and inclusive rural development by strengthening Panchayati Raj Institutions and promoting decentralized planning for better service delivery. With 5,949 Grama Panchayats, 239 Taluk Panchayats, and 31 Zilla Panchayats, the state ensures effective implementation of rural development programs. Karnataka is empowering rural communities by integrating education, sanitation, and social welfare, fostering long-term growth and self-reliance.

- Karnataka tops overall Devolution Index (DI) ranking of the Panchayath Raj System among the states in India, while Kerala and Tamil Nadu are in the second and third spot respectively.
- Decentralized planning remains crucial in driving economic growth and ensuring the effective implementation of rural development programs, leading to better service delivery across Karnataka.
- The Karnataka government has allocated Rs.21,616.52 crore for rural development in the 2024-25 budget. As of December 2024, Rs.10,749.09 crore has been released, and a total of Rs.10,886.65 crore has been utilized, including opening balance funds, under various rural development initiatives.
- Arivu Kendras (Rural Libraries) are transforming education in Karnataka's villages by bridging the learning gap. With nearly 6,000 operational centers in Gram Panchayats and 6,600 more being rolled out this year, they now serve over 5 million children free of cost, fostering a knowledge-driven rural ecosystem for sustainable development and an informed citizenry.
- Koosina Mane (Rural Crèches) ensures quality childcare for children of working mothers, especially MGNREGA workers. Currently, 3,852 crèches are operational, supporting over 55,000 children with trained caretakers. With nearly 30,000 women trained and an impressive 64% attendance rate, this initiative is making a significant impact on rural families.

- Solid Waste Management (SWM) in rural Karnataka has been strengthened by engaging Self-Help Groups (SHGs), creating economic opportunities while improving sanitation. So far, 5,279 women have been trained as waste collection vehicle drivers, and over 15,000 women have been trained in green livelihood.
- In 2024-25, the 15th Finance Commission has allocated Rs.2,637 crore for rural local bodies. Of this, Rs.2,241.45 crore (85%) is designated for Gram Panchayats, Rs.263.70 crore (10%) for Taluk Panchayats, and Rs.131.85 crore (5%) for Zilla Panchayats. So far, Rs.448.29 crore has been released to Gram Panchayats for the year.
- Under the Jal Jeevan Mission, household access to drinking water has significantly improved. Before the initiative, only 24.51 lakh households had water connections; now, 59.02 lakh households benefit from piped water, achieving 82.45% coverage across rural Karnataka. All 6,637 villages in the state now boast 100% Functional Household Tap Connections (FHTCs).
- Up to December 2024, the Jal Jeevan Mission has successfully installed 6.88 lakh FHTCs with an investment of Rs.1,407.20 crore, ensuring improved water accessibility for rural households.
- In 2024-25, under Swachh Bharat Mission (SBM-G) Phase II, Rs.76.05 crore was spent to construct 62,572 individual household latrines and 33 community sanitary complexes, including solid and liquid waste management infrastructure, reinforcing Karnataka's commitment to rural sanitation.
- A total of 5,069 villages have been recognized as ODF Plus Model under the Swachh Bharat Mission (G), having achieved sustainable open defecation-free status along with comprehensive solid and liquid waste management. For 2024-25, Rs.368.04 crore has been allocated to the SBM-G scheme, of which Rs.174.79 crore has been released, and Rs.76.05 crore has been spent by the end of December 2024.
- 10756 liters, of biodiesel were produced and utilised during the year 2024-25.
- Under the PMGSY program, Rs.250.00 crore was allocated, with Rs.105.00 crore spent on the construction of 138.874 km of roads. Additionally, for road maintenance, Rs.50.00 crore was earmarked, of which Rs.16.33 crore has been utilized to maintain 4,982 km of roads by the end of December 2024.
- As part of the Kalyan Path Scheme, 1,150 km of rural roads are being developed in 38 rural assembly constituencies of Kalyan Karnataka, modeled after the Pradhan Mantri Gram Sadak Yojana (PMGSY), at an estimated cost of Rs.1,000 crore.
- By December 2024, Rs.5,879.65 crore was released for the MGNREGA scheme against a total budget of Rs.8,015.37 crore allocated for 2024-25 (including wage components). Out of this, Rs.5,404.54 crore has been spent, generating 1,014.50 lakh person-days of employment. A total of 45.53 lakh workers from 25.83 lakh families have benefited from this scheme.
- The Rajiv Gandhi Panchayat Raj Fellowship program has been launched by the Rural Development and Panchayat Raj Department to enhance the efficiency of Gram Panchayats and address socio-economic disparities in seven districts of the Kalyana Karnataka Region.
- Responsibility mapping has been implemented across various departments, including Health and Family Welfare, Scheduled Tribes Welfare, Agriculture, Watershed Development, Horticulture, and Sericulture. Gram Panchayats, supported by development department officers, have identified priority areas such as poverty alleviation, livelihood and skill development, health, education, women and child welfare, environmental conservation, social security, infrastructure, and governance as part of the Vision Plan and Integrated Annual Action Plan.
- Residents of rural areas can now apply for services such as "11e Map," "Tatkal Payment of Land," "Land Conversion," and "Haddu Basthu Application" at Bapuji Seva Kendras in Gram Panchayats.

- To promote digital transactions, Android PoS machines have been installed in all Gram Panchayats in the state. These devices have facilitated property tax collection amounting to Rs.1,013 crore. For the first time in the country, property tax payments to Gram Panchayats can now be made through digital platforms like PhonePe, Google Pay, and Paytm. So far, Rs.16.94 crore has been collected via these digital payment options.
- The Panchamitra WhatsApp Chatbot has been utilized by 1,70,659 users, with 7,136 grievances registered through this platform. A Meeting Management module has been integrated into the Panchatantra 2.0 software, facilitating the organization of 1,10,369 Gram Panchayat meetings to date.

## 5. URBAN DEVELOPMENT

Karnataka is committed to building vibrant and inclusive urban local bodies, ensuring sustainable, efficient, and equitable urban development. By working closely with ULBs and stakeholders, the state aims to create smart, affordable, and sustainable cities that cater to the needs of all residents while fostering balanced urban growth.

- In the 2024-25 budget, Rs.15,056.89 crores were allocated for various programs in Urban development, with Rs.12,875.56 crores utilized by the end of December 2024.
- During 2024-25 (up to Dec. 2024) a total of 17,228 houses have been built in urban areas under different housing schemes this year.
- The Cauvery Water Supply Scheme Stage-V, with a project cost of Rs.5,550 crores funded by JICA, will provide an additional 775 MLD of water to Bengaluru, benefiting 110 newly added villages and water-scarce areas.
- Infrastructure development for 110 villages includes 2,770 km of water supply pipelines and 1,480 km of underground drainage, with a project cost of Rs.2,500 crores.
- Upgradation of 20 sewage treatment plants (STPs) at Rs.1,400 crores is underway to meet KSPCB standards, with a focus on water reuse for non-potable purposes and inter-district supply.
- Under KIUWMIP, 27 projects have been undertaken, including UGD and water supply works in various towns across two phases. Of these, 17 projects are completed, with a total investment of Rs.1,238.82 crores in Tranche-1 and Rs.1,345.18 crores in Tranche-2. Expenditures stand at Rs.1,145.82 crores and Rs.1,110.13 crores, respectively, as of December 2024.
- A comprehensive urban water supply project under AMRUT covers 287 cities/towns with a population below one lakh, with a total investment of Rs.9,256 crores, including Rs.4,628 crores as central assistance. Rs.539.28 crores have been earmarked for this initiative.
- For universal water supply coverage in selected towns, Rs.8,716.72 crores have been allocated, with Rs.1,687.21 crores released for project implementation.
- The Bengaluru Suburban Rail Project spans 148.17 km across four corridors at an estimated Rs.15,767 crores, benefiting 8.9 lakh commuters daily, executed by K-RIDE.
- The government has approved a 36.59 km metro stretch from Sarjapur to Hebbal under Bangalore Metro Phase-3A, comprising 22.14 km of elevated and 14.45 km of underground sections with 28 stations. A depot is planned at Sarjapur, and the DPR has been submitted for central approval.
- The Peripheral Ring Road Project requires 2,565 acres, with final notifications completed for 1,810 acres. Land acquisition for the remaining extent is in progress.

- The widening of the Hebbal Junction flyover on NH-44 and other road expansion projects are ongoing, with key progress in piling and girder installations.
- As India's IT capital, Bengaluru has the potential to emerge as an e-waste hub, generating approximately 2,92,846 metric tonnes annually, valued at Rs.2,886 crores, presenting a significant economic opportunity.
- Lift irrigation projects should be prioritized to transport treated water from Bengaluru to arid districts, leveraging investments from the state, center, and private sector.
- Slum redevelopment should incorporate vertical housing models under PPP, while surplus land can be monetized for revenue generation.
- City Comprehensive Mobility Plans (CMPs) should be finalized for all urban areas, focusing on high-traffic zones.
- Revenue mobilization strategies include waste-to-resource initiatives, efficient tax collection, land value optimization, green bonds, and private sector partnerships.

## 6. AGRICULTURE AND FOOD MANAGEMENT

Karnataka has made significant progress in agriculture by boosting productivity, improving water availability, and integrating technology to support farmers. The state has focused on ensuring better access to resources, knowledge, and financial assistance, promoting sustainable agricultural growth. Innovative policies and targeted support have strengthened the farming sector, enhancing rural livelihoods. These efforts demonstrate Karnataka's commitment to safeguarding farmers' interests and driving long-term agricultural prosperity.

### Karnataka's Agricultural Progress and Key Developments

- Karnataka received ample rainfall during the pre-monsoon, Southwest, and Northeast monsoon seasons in 2024. However, heavy rains caused damage to 2.67 lakh hectares of agricultural crops.
- Major crop losses were reported in maize, paddy, cotton, and sugarcane, particularly in the districts of Haveri, Dharwad, Belagavi, and Kalaburagi.
- The First Advance Estimates for 2024-25 project cereal production at 88.52 lakh tonnes and pulses at 13.82 lakh tonnes, slightly below the targets of 97.32 lakh tonnes and 14.71 lakh tonnes, respectively. Oilseed production is estimated at 7.67 lakh tonnes against a target of 9.87 lakh tonnes, while cotton production is likely to reach 20.84 lakh bales compared to the goal of 24.34 lakh bales.
- The Karnataka government has allocated Rs. 3,894.17 crores for various agricultural schemes in the 2024-25 budget, reinforcing its commitment to farmers' welfare and sectoral growth.
- Key focus areas for 2024-25 include Karnataka Raitha Samruddhi Yojane, Community Seed Banks, a Knowledge Centre at R.K. Shala, support for agricultural start-ups through an accelerator platform, the creation of an Agriculture Development Authority, and a database system for advanced crop productivity forecasting.
- By the end of Kharif 2024, Karnataka received 25.95 lakh tonnes of fertilizers, and for Rabi/Summer 2024-25, the central government has allocated 15.69 lakh tonnes of different fertilizer grades.
- Around 6.85 lakh quintals of seeds were distributed in 2024, with Rs. 177.84 crore in subsidies benefiting 13.95 lakh farmers as of December 2024.

- The Farm Mechanization program has a budget of Rs. 412.72 crores for the year 2024-25, with Rs. 166.81 crores already spent by December, benefiting 60,801 farmers through various initiatives, including SMAM Programme, agro-processing and hi-tech harvesting.
- Under the Micro Irrigation Scheme, Rs. 627.01 crores have been allocated for the year 2024-25, and Rs. 338.59 crores have been utilized, covering 1,48,637 hectares by December 2024.
- The Food and Nutrition Security Mission is being implemented with an outlay of Rs. 387.68 crores for the year 2024-25, of which Rs. 128.91 crores had been spent by December 2024.
- Under Rashtriya Krishi Vikas Yojana (RKVY), the State Level Sanctioning Committee approved an additional 25% over the original allocation, bringing the total to Rs. 172.69 crores for the year 2024-25, with Rs. 42.25 crores spent by the end of December 2024.
- The Krishi Bhagya Scheme has been allocated Rs. 100 crores for the year 2024-25, with Rs. 27.99 crores spent as of December 2024. A total of 2,023 farm ponds have been constructed under this scheme.
- The Karnataka Raitha Suraksha Pradhan Mantri Fasal Bima Yojana has enrolled 25,21,310 farmers, covering 21.31 lakh hectares, with a total farmer-paid premium of Rs. 22,983.41 lakhs for the year 2024-25.
- Under the Watershed Development Component of PMKSY-2.0 and the REWARD Project, 48,277 hectares have been treated. Additionally, 5,210 hectares of forestry, 4,081 hectares of dryland horticulture, and 54 mini forests have been developed.
- The World Bank-funded REWARD Project has facilitated Land Resource Inventory (LRI) data collection across 7.6 lakh hectares, issuing LRI cards to 1.60 lakh farmers in 2024.
- 2,101 water harvesting structures are under construction through watershed development schemes, bringing 3,151 hectares under protective irrigation.
- As part of the Amrith Farmer Producer Organizations (FPOs) and 10,000 FPOs initiative, 586 FPOs have been supported, boosting farmers' collective bargaining power.
- Procurement under the Minimum Support Price (MSP) Scheme has benefited 64,777 farmers, with 3,064.90 MT of sunflower, 26,205.30 MT of green gram, 7,259.90 MT of soybean, and 69,207 MT of cotton purchased in 2024.
- To prevent farmers from distress-selling their produce, cold storage facilities are being set up in 13 Agricultural Product Marketing Committees (APMCs) under RIDF-29 and RIDF-30, benefiting dry chili and pulse growers.
- Enforcement cells have been established in all four revenue divisions to curb unauthorized sales of agricultural produce, ensuring fair pricing and improved market fee collection.

## Horticulture

- Under Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) during the year 2024-25, (up to December) an area of 29,007.49 hectares has been brought under Micro Irrigation by providing subsidy of Rs.20,795.60 lakh to 32,003 farmers.
- During 2024-25 (up to December), 83.00 lakh Goniozus parasites were produced in 23 parasite laboratories and distributed to 950 farmers.

- Under Apiculture development program 1606 beneficiaries have been trained on scientific beekeeping and 2069 honey boxes have been distributed.
- During 2024-25 (up to December), 21.26 lakhs of grafts/seedlings have been produced. Including the previous year's grafts/seedlings, at present 45.26 lakh grafts/seedlings are available for sale.
- During 2024-25, 314 tonnes and 24,045 liters of bio-inputs have been distributed to farming communities at affordable rates.
- Currently, around 7367 farmers are cultivating oil palm in an area of 10,944 ha.

### **Animal Husbandry and Veterinary Services**

- As per the 2019 livestock census, Karnataka is home to 3.03 crore livestock and 5.95 crore poultry, contributing 5.41% and 6.98%, respectively, to India's total.
- The state ranks 8th in milk production in India for 2023-24.
- Veterinary services remain robust, with 4,252 veterinary institutions providing health care to livestock and poultry. By December 2024, 29.53 lakh cattle had undergone artificial insemination, leading to the birth of 6.61 lakh calves.
- Under the Amrutha Swabhimani Kurigahi Yojana, 7806 beneficiaries received 20+1 sheep/goat units between April 2023 and December 2024, with a total expenditure of Rs.136.60 crore.
- Poultry and pig farming received a boost, with 2,07,664 chicks produced and 2,752 piglets distributed by December 2024.
- Fodder security has been strengthened with the procurement of 12,11,129 fodder seed minikits, leading to the production of 30 lakh tonnes of green fodder. Additionally, 79,500 lakh root slips were provided to farmers.
- To encourage milk production, Rs.1,124.15 crore was directly transferred to 8.95 lakh milk pourers under the Rs.5 per liter incentive scheme.
- Disease prevention measures have been prioritized, with 103.50 lakh cattle vaccinated against Lumpy Skin Disease. Additionally, mass vaccinations were carried out for 67.67 lakh animals against Haemorrhagic Septicaemia, 1.73 crore sheep and goats against Enterotoxaemia, and 18.93 lakh sheep and goats against Bluetongue disease.
- Specific measures were taken for Brucellosis, with 3.06 lakh female calves (cattle and buffaloes) vaccinated. Anthrax prevention efforts saw 4.51 lakh cattle, buffaloes, sheep and goats immunized.
- Mobile veterinary units provided 2,63,874 treatments through 275 well-equipped vehicles.
- To combat Foot and Mouth Disease (FMD), 97.64 lakh doses and 96.67 lakh doses of vaccines were administered in the 5th and 6th rounds of vaccination, respectively.
- The Karnataka Milk Federation (KMF) plays a crucial role in dairy production, with 26.79 lakh registered milk producers and 9.04 lakh active suppliers, collecting an average of 90 lakh liters of milk daily. Payments worth Rs.28 crore are made directly to producers every day.
- A new record was set on June 28, 2024, with an all-time high collection of 100.90 lakh kg of milk. Karnataka's dairy cooperative sector now ranks 2nd in the country and 1st among southern states.

- Nandini brand expansion continues, with sachet milk and curd now available in Hyderabad, Chennai, Mumbai, Pune, Solapur, Coimbatore, Kerala, and Goa.
- Since November 21, 2024, 15,000 liters of milk and curd have been sold daily in New Delhi, along with other Nandini products.
- The KMF has also expanded its presence in institutional supply, providing 100 lakh liters of UHT milk, 162 MTs of ghee, 316 MTs of butter, and 570 MTs of milk powder annually to the Indian Army, generating a turnover of Rs.126 crore.
- A key milestone was the supply of 1,220 MTs of Nandini ghee for the preparation of Tirupati temple laddus (prasadam). To increase brand visibility, from December 26, 2024, idli and dosa batter was introduced in Bengaluru at Rs. 40 for 450g and Rs.90 for 900g. Under the Ksheera Bhagya Scheme, 64,000 anganwadis and 55,683 government schools receive daily milk powder distribution to support children's nutrition.

## Fisheries

- Karnataka's fisheries sector employs 9.84 lakh fishermen, including 3.31 lakh engaged in marine fishing and 6.53 lakh in inland fisheries.
- The state has maintained its 1st position in marine fish production, 7th in inland fish production, and 3rd in total fish production across the country for 2022-23.
- In 2023-24, Karnataka produced 11.31 lakh metric tonnes (MT) of fish, with 7.50 lakh MT recorded by December 2024.
- To strengthen the fishing community, 62 Fish Farmers' Producer Organizations (FFPOs) have been set up, and 14,613 fishermen have received Kisan Credit Cards.
- In 2024-25, a premium of Rs.26.91 lakh was paid to the National Fisheries Development Board (NFDB) to provide insurance coverage for 80,099 registered fishermen.
- Under the Reimbursement of Sales Tax on Diesel Scheme, 1,13,300 KL of diesel was supplied to mechanized fishing boats. Additionally, 8030 motorized boats received 300 liters of kerosene per boat, per month at Public Distribution System (PDS) rates. By December 2024, Rs.2,200 lakh had been spent against an allocation of Rs.2,250 lakh.
- The government also extended Rs.5.30 crore in relief to 198 fishermen/their dependents from the Distress Relief Fund by December 2024.
- A subsidy of Rs.400 lakh was provided to support 180 ice plants, ensuring better storage facilities for fish produce.
- Under the Pradhan Mantri Matsya Sampada Yojana (PMMSY), the "Matsyavahini" initiative has approved 142 e-auto rickshaws for fish transportation, of which 62 have already been distributed to beneficiaries by December 2024.

## Food Management

- As of December 2024, Karnataka has 136.23 lakh ration card holders, including 10.81 lakh Antyodaya Anna Yojana (AAY) cardholders, 117.67 lakh Priority Household (PHH) cardholders, and 7.75 lakh non-priority ration cardholders.
- The state operates 20,469 Fair Price Shops, with 20,419 of them using bio-authentication to distribute ration supplies efficiently.

- Under the National Food Security Act (NFSA), beneficiaries under the AAY scheme receive 35kg of food grains per household each month, while PHH beneficiaries get 5 kg of food grains per person.
- To strengthen food security, the Karnataka government launched the Anna Bhagya Direct Benefit Transfer (DBT) Guarantee Scheme in July 2023. Under this initiative, AAY and PHH cardholders receive Rs.170 per month, credited directly to the head of the family's bank account, compensating for 5 kg of rice at Rs.34 per kg.
- In the ongoing effort to ensure only eligible households benefit from food security schemes, 8,564 ineligible AAY and PHH cards were cancelled or reclassified as Non- Priority Household (NPHH) cards during 2024-25 (up to December). Additionally, fines amounting to Rs.76.21 lakh were levied.
- Karnataka has introduced the Annasuvidha mobile app to deliver ration directly to the doorsteps of the most vulnerable individuals. This initiative primarily benefits senior citizens above 90 years and single-member Priority Household (PHH) and Antyodaya Anna Yojana (AAY) ration cardholders, ensuring they receive essential food supplies without difficulty.
- To address concerns regarding food grain distribution under Anna Bhagya Yojane, the state has set up a State Consumer Helpline with toll-free numbers 1967, 1800 425 9339, and 14445. Additionally, an online grievance redressal system is available on the department's website, allowing citizens to report issues conveniently.

## 7. NATURAL RESOURCE MANAGEMENT AND ENVIRONMENT

### Forest

Forests are the second-largest land use in Karnataka, covering 20.47% of the state's geographical area, with an additional 4.05% under tree cover, totaling 24.52%. Home to nearly 60% of the Western Ghats, Karnataka plays a crucial role in biodiversity conservation, supported by 6,554 Biodiversity Management Committees at the Gram Panchayat level. The state has 5 national parks, 36 wildlife sanctuaries, 18 conservation reserves, and 1 community reserve. With respect to irrigation, Karnataka has significantly expanded its irrigation potential across major, medium, and minor projects.

- The Karnataka Forest Department's afforestation programs and conservation initiatives have successfully stabilized forest cover, though human-induced pressures continue to pose threats to forest sustainability and wildlife habitats.
- Karnataka has a total forest area of 40,678.23 sq. km, encompassing Reserved Forests, Protected Forests, Village Forests, Private Forests, Section-4 Notified Forests, Unclassified Forests, and statutory forests.
- As per Section 4 of the Karnataka Forest Act, 1963, Deemed Forests, Statutory Forests, Reserved Forests, and all forest areas identified in official records are categorized as Unclassified Forests.
- Under the State Sector Tree Park Scheme, the Karnataka Forest Department (KFD) has developed green spaces in urban areas, providing residents with natural surroundings, recreational spaces for children, and improved air quality for community well-being.
- The State Sector Devarakadu Scheme aims to establish one Daivivana (sacred grove) in each district, preserving ecologically and religiously significant forest areas in their pristine state, ensuring their natural evolutionary process remains undisturbed. Out of total 105 Devarakadus, maintenance of 42 Devarakadus and development of 15 new Devarakadus are being carried out.

- For 2024-25, a budget allocation of Rs.1,000 lakh was provided for constructing new office buildings and residential quarters. By December 2024, Rs.750 lakh was disbursed, and Rs.484.20 lakh was utilized for project execution. Additionally, Rs.1,650 lakh was allocated for the maintenance of existing office buildings, roads, and bridges. By December 2024, Rs.825 lakh was released, with Rs.711.51 lakh spent on infrastructure upkeep.
- Karnataka ranks second in India with a tiger population of 563 as per the estimation done in 2022.
- The 2023 elephant estimation, conducted using the direct count method, confirms Karnataka as home to India's largest elephant population, with 6,395 elephants.
- Under the Rashtriya Krishi Vikas Yojana (RKVY) Agroforestry Component, a budget of Rs.20 crore was approved for 2024-25 to develop 26 new nurseries, upgrade one tissue culture lab, maintain 38.38 lakh saplings, raise 17.58 lakh Quality Planting Material (QPM) saplings, and conduct 35 skill development and capacity-building programs.
- No new forest encroachments were reported in Karnataka during 2024-25. Out of encroachment of 2,15,393.53 acres in 1,22,201 cases 1,981.15 acres of encroachment in 274 cases has been evicted and taken back to the department. Final orders have been passed in 130 cases under Section 64(A) of the Karnataka Forest Act, 1963 during this period.
- The state has a total of 40,67,823.00 hectares of forest land, out of which 30,10,336.49 hectares is mutated and 74 percent progress has been achieved.
- The State wildlife board has approved the declaration of the Hesarghatta Grassland in the Bengaluru urban division as a Conservation Reserve.
- A new project has been launched in 2024-25 to address elephant attacks by forming a Bandipur Elephant Task Force.
- 2.63 crore seedlings have been used for planting 53,015 hectares of new green cover in the year 2024-25 and 0.99 crore saplings have been distributed for planting in agricultural and private lands.
- A total of 1,494.38 acres of forest land in Mamadapura, Vijayapura District, has been declared as Sri Siddeshwara Swamiji Biodiversity Heritage Site.
- In recognition of contributions to biodiversity conservation, the Karnataka Biodiversity Board awarded Rs.50,000 to individuals under three categories—Biodiversity Conservation, Best Biodiversity Management Committee, and Organic-Traditional Agricultural Systems—during World Environment Day and Vanamahotsava 2024.
- The Karnataka government, in collaboration with the Karnataka State Coastal Zone Management Authority (KSCZMA), commissioned the National Centre for Sustainable Coastal Management (NCSCM), Chennai, to develop a Shoreline Change and Management Plan for the state's 320 km coastline.

## Water Resources

- In the 2024-25 budget, Rs 16,834.66 crore has been allocated to the Water Resources Department for major and medium irrigation projects. As of December 2024, a financial progress of Rs 9,894.49 crore (58.53%) has been achieved, creating an irrigation potential of approximately 14,174 hectares.
- The Yettinahole Integrated Drinking Water Project, a flagship initiative of the government, is being implemented to address critical challenges in ensuring water availability.

- Due to an unforeseen emergency at the onset of the monsoon season, Spillway Gate No.19 of the Tungabhadra Reservoir was installed as a precautionary measure.
- The Karnataka Irrigation (Amendment) Bill, 2024, was passed as part of irrigation sector reforms. This legislation aims to prevent unauthorized water pipe connections to canal networks in irrigation project areas, ensure water reaches tail-end users.
- In the 2024-25 Budget announcement, six new projects were proposed under the Water Resources Department. Government orders have been issued for five of them:
  - ❖ Transforming Brindavan Park at Krishnarajasagar Dam into a world-class tourism destination through a Public-Private Partnership (PPP) model.
  - ❖ Upgrading the Water and Land Management Institute (WALMI) in Dharwad into a Centre of Excellence in Water Management.
  - ❖ Developing solar parks on Water Resources Department land and in reservoir backwaters, modeled after Pavagada Solar Park, through a PPP initiative.
  - ❖ Constructing a protective wall under the State Disaster Mitigation Fund (SDMF) to safeguard flood-prone villages along Bennehalla in Dharwad district.
  - ❖ Building a Bridge-cum-Barrage near Chikkamanchali village in Raichur at a cost of Rs 158 crore to improve connectivity with Mantralaya.
- In 2024, two major water-filling projects have been inaugurated
  - ❖ The project to supply water from Gugal Bridge-cum-Barrage to Ganekal Balancing Reservoir.
  - ❖ The initiative to channel water from the Cauvery River near Muttinamulusoge village in Periyapatna taluk to 150 tanks across 79 villages.
- The foundation stone has been laid for the Kottalagi Ammajeshwari Lift Irrigation Project, marking the commencement of another key irrigation initiative.

## Geology and Mining

- The Department has set a revenue collection target of Rs 9,000 crore for the financial year 2024-25. By December 2024, against the interim target of Rs 6,480 crore, Rs 5,404.88 crore has been collected, achieving 83.40% of the goal.
- Under the One State, One GPS initiative, 56,500 vehicles have been registered, and a total of Rs.6.40 crore in fines has been collected from vehicles violating regulations.
- The Karnataka State Remote Sensing Application Center has been assigned the task of conducting drone and DGPS surveys in quarry lease areas across all districts. This initiative aims to establish the existing ground level (Reduced Level) to streamline quarry operations and enhance monitoring.
- As per the Budget 2024-25 announcement, the New Sand Policy 2020 includes provisions for allocating sand blocks to government agencies through an e-tendering system. This ensures the supply of sand at fixed rates for public and government projects. A uniform sand price of Rs 850 per ton has been set, with guidelines and tender documents already issued.

- The Department is implementing a new Integrated Lease Management System (ILMS) with modern technology and enhanced features. Stone crusher units and weighbridges are being integrated into the ILMS software to prevent revenue leakage and enhance transparency.
- Under projects approved by the National Mineral Exploration Trust (NMET):
  - ❖ The Department's mineral exploration wing has completed and submitted a report on G3-level limestone mineral exploration covering 10.6 sq. km in Itaga Village, Chittapur Taluk, Kalaburagi District.
  - ❖ A G3-stage gold exploration project is underway over a 25 sq. km area in Sirigere Village, Siraguppa Taluk, Ballari District.

## Environmental Management

Karnataka State Action Plan on Climate Change Version-2 (KSAPCC V.2) has been developed to address climate change impacts. The plan has received approval from the National Steering Committee on Climate Change (NSCCC) under the Ministry of Environment, Forest & Climate Change (MoEF&CC), Government of India.

- To enhance governance and performance tracking, a dedicated departmental KPI monitoring dashboard has been developed by EMPRI-CEE.
- The Green Index Portal (<https://greenindex.karnataka.gov.in>) has been created by EMPRI to assess the environmental sustainability of public expenditure. This platform evaluates departmental schemes and programs to encourage green practices and maintain ecological balance.
- As part of the DST Phase II project – Strengthening the State Climate Change Centre, EMPRI has launched the portal [www.karccc.com](http://www.karccc.com) to disseminate knowledge and insights on climate change.
- The Karnataka State Natural Disaster Monitoring Centre (KSNDMC) has implemented a cutting-edge ICT-based monitoring system—a pioneering initiative in the country. This system provides real-time alerts, early warnings, and advisories to various response teams across the state.
- A comprehensive sewage management strategy has been adopted to enhance coverage and treatment capacity. This approach integrates community participation, financial investment, policy interventions, and regulatory frameworks to promote wastewater treatment and reuse—contributing to pollution control and mitigating water scarcity.
- The River Rejuvenation Programme targets the restoration of 12 polluted river stretches across Karnataka. This initiative is dedicated to improving river water quality and ensuring the long-term sustainability of these vital water bodies.
- Karnataka is taking proactive steps to strengthen e-waste management by formalizing the recycling sector, increasing public awareness, and enhancing policies to ensure responsible disposal and recycling of electronic waste.
- A robust circular economy framework has been established to improve plastic waste management, ensuring sustainable resource utilization and environmental conservation. The state has 112 registered recycling units with a combined authorized processing capacity of 1,99,577 tonnes, reflecting significant progress in creating a recycling infrastructure.
- To curb illegal plastic use, the Karnataka State Pollution Control Board (KSPCB), in collaboration with local bodies, has conducted 18,111 inspections/raids during 2024-25. These efforts led to the seizure of

223.09 metric tonnes of plastic and the imposition of penalties amounting to Rs.63.787 lakh, showcasing the state's commitment to enforcing regulations.

## 8. INDUSTRY

Karnataka has been spearheading the growth of Indian industry, particularly in terms of high-technology industries in the areas of electrical and electronics, information & communication technology (ICT), biotechnology and more recently, nanotechnology. The industrial structure of Karnataka presents a blend of modern high-tech capital goods and knowledge intensive industries on the one hand and traditional consumer goods industries on the other.

- Industrial sector GSDP was Rs. 4,85,163 crore with the growth rate of 8.9% in 2023-24 which has increased to Rs.5,29,575 crore with a growth rate of 9.20% in 2024-25. The contribution of the Industry Sector to the state GDP is 20.15%.
- The Government of Karnataka hosted the prestigious 'Global Investors Meet - Invest Karnataka 2025' in February 2025 to attract investments and generate employment. Total investments committed to Karnataka as a part of GIM is Rs. 10.27 lakh crore with employment generation of 6 lakh. Out of 10.27 lakh crore investment committed, 4.03 lakh investment commitments were recognized/announced. In case of 6.24 lakh crores MoUs have been signed, more than 45% of these investments are in North Karnataka.
- The Government of Karnataka has announced the Karnataka Industrial Policy 2025-30 for attracting investments of Rs.7.5 lakh crore across the country and abroad to create employment opportunities for 20 lakh people by 2030 and to achieve balanced and inclusive regional development of the state.
- For the fiscal year 2024-25, the Karnataka government allocated Rs. 1,12,271.31 lakh for the Large & Medium Industries sector, with Rs. 70,902.39 lakh spent by December 2024.
- Karnataka's thriving MSME sector boasts 17.48 lakh registered units on the Udyam portal, including 17.09 lakh micro industries, 35,906 small industries, and 2,941 medium industries, collectively generating 167.73 lakh jobs as of December 2024.
- The MSME sector received a budgetary allocation of Rs. 68,738.37 lakh for 2024-25, with Rs. 24,473.35 lakh utilized by December 2024.
- Under the Micro & Small Enterprises Cluster Development Programme (MSE-CDP), three industrial clusters received Rs. 6.66 crore in state grants.
- Karnataka has seen significant participation in the PM Vishwakarma scheme, with 29,60,732 applications registered as of December 2024.
- To strengthen the MSME sector, seven new industrial clusters have been approved across Belagavi, Davanagere, Gadag, Bagalkote, and Bengaluru, with a total project cost of Rs. 8,792.5 lakh.
- The Soft Seed Capital Assistance Scheme is supporting SC/ST entrepreneurs by providing financial aid for establishing micro and small enterprises, helping overcome financial barriers.
- A Strategic Investment Committee (SIC) has been established, comprising professionals from equity firms, venture capitalists, start-ups, and philanthropists to guide investments in the state.
- Karnataka, as the pioneering State which has 2.5 lakh Electric Vehicles announced the Karnataka Clean Mobility Policy 2025-30 with an objective to create a comprehensive clean mobility vehicle, eco-system in the State.

- Food park has been developed on 110 acres of land at Vasanthanarasapura industrial area of Tumkur district with a total investment of Rs. 218.48 crore and it is functional.
- Food park at KR Pet taluk Mandya district is being developed on 60 acres of land with an investment of Rs. 113.83 crores. Construction work is under progress.
- Karnataka remains a leader in silk production, contributing 9698.725 MTs till December 2024, while India's raw silk imports stood at 1,193 MTs till October 2024. The state produced 12,462.669 MT of mulberry silk in 2023-24.
- For 2024-25 an amount of Rs. 150 crore has been allocated to develop hi-tech markets in Ramanagar and Sidlaghatta as they are largest cocoon markets in Asia.
- KIADB has so far acquired and developed 215 industrial areas in 31 districts of the state covering an extent of 86850 acres providing infrastructural facilities viz roads, electricity, water supply etc. In order to facilitate land acquisition activities for industrial development, KIADB has introduced a land-sharing scheme.
- The state is home to 18,823 registered factories, employing 18,33,021 workers. Additionally, there are 3,376 active boilers and 91 Major Accident Hazardous Factories spread across 21 districts.
- The IT & Biotechnology (IT & BT) sector, a key driver of Karnataka's economy, continues its growth trajectory. A new IT park is set to be developed in Mangaluru on a 3.25-acre site with a 3.43 lakh sq. ft. built-up area under the Public-Private Partnership (PPP) model.
- Karnataka has secured USD 54,573 million in Foreign Direct Investment (FDI) between October 2019 and September 2024, contributing 21% of India's total FDI inflows.
- Karnataka's 38 operational Special Economic Zones (SEZs) have attracted Rs. 1,09,980.58 crore in investments, employing 4,27,518 individuals across 492 active units.

### **Tourism Growth & Infrastructure Development**

- Karnataka ranks 4th in India in domestic tourism, attracting nearly 10% of India's domestic tourists. In 2024, 4.01 lakh foreign tourists visited the state, signaling a strong post-pandemic recovery.
- The year 2024-25 has been declared the "Year of Adventure" under the theme 'Script Your Adventure', with widespread promotions in print and electronic media.
- Kuthluru village in Dakshina Kannada district was honored with the Best Tourism Village Award (Adventure Tourism Category) in 2024.
- The Tourist Mitra Programme has deployed 559 trained home guards, including 102 women, as "Pravasi Mitras" (Tourist Police) to ensure visitor safety at key tourist spots.
- The Karnataka Tourism Policy (2024-29) is being revised to maximize tourism potential and attract more tourists and investors.
- Karnataka leads the country in 3D laser scanning of 530 protected monuments, ensuring digital preservation and future interactive experiences.
- Eco-tourism will be boosted with Rs. 25 crore allocated to develop interpretation centers in Bandipur, Dandeli, and Kabini under Jungle Lodges & Resorts.
- The Sri Renuka Yellamma Tourism Development Board has been officially notified to oversee the conservation and development of areas around Sri Renuka Yellamma Temple.

## 9. SKILL, ENTREPRENEURSHIP, EMPLOYMENT AND LABOUR WELFARE

Karnataka is making remarkable progress in skill development, employment generation, and labour welfare, aligning with its vision of sustainable and inclusive growth. The state's proactive approach in integrating vocational training, industry collaborations, and social security initiatives ensures a future where economic opportunities are accessible to all. With continued policy focus and investment, Karnataka is well on its way to becoming a global leader in human capital development.

### Skill Development, Entrepreneurship and Livelihood

- With a strong youth population, Karnataka has a significant advantage for the next 25 years. By equipping and channelizing this workforce with the right skills, the state can position itself as a global leader. This approach not only enhances productivity across agriculture, industry, and services but also ensures industries have access to a well-trained workforce.
- By 2030, around 1.88 crore young individuals—including informal workers in agriculture and non-agriculture sectors, school dropouts, those completing secondary education, and young homemakers—will require vocational training. Recognizing this, Karnataka has established the Skill Mission Unit at the state level and District Skill Development Offices at the district level. These institutions drive the mission-mode implementation of skill development, entrepreneurship, and livelihood programs.
- Currently, over 13 lakh individuals have registered on koushalkar.com, showcasing the widespread interest in skill development initiatives.

### Bridging the Gap Between Skilling and Employment

- The Yuvanidhi scheme goes beyond financial assistance by equipping beneficiaries with employable skills through the Skill Connect Portal under the Yuvanidhi Plus initiative. So far, 1.81 lakh candidates have registered, with 1.48 lakh beneficiaries receiving support under this guarantee scheme.
- The TATA Udyoga Project, initiated in 2021-22, has upgraded 150 Government Industrial Training Institutes (ITIs) in collaboration with Tata Technologies and its 20 consortium partners. These upgraded ITIs offer 6 long-term and 23 short-term Industry 4.0 courses, with a capacity to train 1.20 lakh candidates annually. Training has been steadily progressing, with 4,453 trainees in 2021, 5,519 in 2022, 5,858 in 2023, and 4,723 undergoing training in 2024 (up to December).
- Under the India Skill Competition 2024, Karnataka secured 48 medals from 62 participants, earning second place at the national level. Furthermore, in the World Skill Competition 2024 held in Lyon, France, 9 participants from Karnataka represented India, winning 4 Medallions of Excellence.

### New Initiatives Driving Skill and Employment Opportunities

- Karnataka ranked 4th in the country under the PM SVAnidhi Scheme.
- The state government has allocated Rs.5 crore to enhance English and communication skills for 40,000 apprentices by December 2024.
- The “Kalike Jothe Kaushalya” initiative, in partnership with the Higher Education Department, offers industry-relevant short-term training to students in the 5th and 6th semesters of BA, B. Com, BBA, and B.Sc. programs across 62 colleges. So far, 29,850 students have received training.
- CEDOK has trained 27,931 candidates in entrepreneurship development, with 5,049 individuals successfully becoming self-employed.

- The CMKKY program has provided skill training to 2,46,348 candidates, with 31,118 placed in jobs.
- The Government Tool Room and Training Centre (GTTC) has trained 7,190 candidates through long-term programs, 38,567 through short-term courses, and facilitated job placements for 7,478 candidates.
- To support women's employment, Akka Café outlets have been set up in Devanahalli, Bengaluru, and Belagavi.

### Global Employment Opportunities

- The Karnataka Skill Development Corporation is facilitating overseas placements, having already secured international employment for 897 candidates. Additionally, 1,012 individuals have undergone Pre-Departure Orientation Training (PDOT), with 26 recruits awaiting visas for the UAE.
- Over 2.35 lakh offer letters have been issued to job seekers through 414 Mega Job Fairs across Karnataka.
- Under the Nal Jal Mitra initiative, Sanajeevini-KSRLPS is training 11,904 women from Self-Help Groups (SHGs) in plumbing, electrical, and machinery skills. Currently, 281 candidates have completed training, 150 are undergoing on-the-job training (OJT), and 143 trainers from GTTCs and ITIs have been certified.

### Advancing Labour Welfare and Employment in Karnataka

- Efforts by the state government have led to an increase in Labour Force Participation Rate (LFPR) among individuals aged 15-59 from 62.9% in 2022-23 to 63.5% in 2023-24. Similarly, the Worker Population Ratio (WPR) has risen from 61.2% to 61.6%. With an unemployment rate of just 2.9%, Karnataka holds the lowest unemployment rate among major southern states, significantly lower than the national average of 3.5%.
- The state has intensified inspections and enforcement under various labour laws; 57,091 inspections were conducted, 6,499 cases were filed against non-compliant employers, Rs.1.37 crore in fines was imposed in 2,136 resolved cases, A nationwide rescue and rehabilitation campaign against child and adolescent labour was conducted in June 2024. In Karnataka, 5,177 inspections led to the rescue of 199 child workers.
- The Karnataka Labour Welfare Board has extended Rs.13.69 crore in benefits to 15,666 organized sector employees and dependents, covering education, healthcare, funeral assistance, sports, and maternity benefits.
- The Ambedkar Karmika Sahaya Hasta Scheme, revised in 2024, now covers 26 unorganized worker categories. So far, 21.58 lakh workers have been registered and issued identity cards.
- Karnataka has also secured the 2nd rank in India for Decent Work and Economic Growth (SDG-8) in the NITI Aayog SDG India Index Report 2023-24.

### Social Security for the Unorganized Sector

- A dedicated Karnataka State Motor Transport and Other Allied Workers Social Security and Welfare Board has been established under the 2024 bill. This board, funded by 3% an additional cess on private commercial transport vehicles, ensures enhanced welfare for workers.
- The Karnataka Building and Other Construction Workers Welfare Board has registered 52.71 lakh construction workers. As of December 2024, an additional 82,477 workers have enrolled during 2024-25, with Rs.7,548 crore disbursed so far for various welfare schemes. In the current fiscal year, Rs.705.59 crore has been spent to 11.94 lakh beneficiaries.

- The ESI Scheme, Karnataka's premier social security initiative, provides comprehensive medical care to 37.30 lakh insured persons and their 1.80 crore family members through 11 ESI hospitals.
- A major breakthrough under the Project Implementation Plan (PIP) is the launch of a cervical cancer prevention and vaccination scheme for insured women, strengthening healthcare support for female workers.

## 10. ECONOMIC INFRASTRUCTURE

Karnataka has made significant strides in infrastructure development across energy, transport, and urban sectors. The state has achieved near self-sufficiency in power generation, supported by policies like the Karnataka Renewable Energy Policy 2022-27, promoting solar energy. The Bengaluru Suburban Railway Project and Bangalore Metro Phase-2 are enhancing urban mobility, while the 'Shakti' scheme has provided free travel for women, benefiting millions. Banking infrastructure has expanded, with a notable increase in branches and ATMs. These advancements reflect Karnataka's commitment to sustainable growth and improved public services.

### Energy Sector Developments in Karnataka

- Under the Gruha Jyoti Yojana, a key welfare initiative of the government, a total subsidy of Rs.12,604.19 crore has been disbursed until December 2024. This has ensured free electricity—up to 200 units per month—for 1.63 crore households across Karnataka.
- Karnataka has made remarkable strides in achieving near self-sufficiency in power generation, effectively meeting its growing energy demands. While occasional supply gaps arise due to seasonal variations, these are efficiently managed through short-term purchases. The state notably eliminated power shortages in 2018-19, and since then, sustained an uninterrupted power supply, largely due to improved infrastructure and streamlined distribution systems.
- As of December 2024, the total installed power generation capacity in the state stands at 34,950.90 MW, encompassing both public and private sector contributions as well as Karnataka's share from Central Generation Stations (CGS). Of this, 13,729.15 MW comes from the public sector, while 21,221.75 MW is attributed to the private sector, where renewable energy sources contribute over 50.66% (excluding IPP Thermal and Mini Hydel) to the total installed capacity.
- To enhance efficiency, power utilities have been strategically investing in upgrading and expanding the transmission network, significantly reducing technical losses. Efforts by ESCOMs to curb power theft and pilferage have paid off, with inspection numbers quintupling between 2021-22 and 2023-24. These interventions have led to a drop in Transmission & Distribution (T&D) losses from 16.34% in 2021-22 to 15.78% in 2023-24, while Aggregate Technical & Commercial (AT&C) losses have seen a substantial reduction from 16.99% in 2020-21 to 11.92% in 2023-24.
- In 2023-24, consumers in the Low-Tension (LT) category accounted for 76.83% of electricity consumption but contributed only 66.87% of ESCOMs' total revenue. Meanwhile, High-Tension (HT) industrial and commercial consumers, though using only 16.97% of electricity, contributed 19.78% of total revenue. The lowest revenue per unit comes from LT agriculture, including horticulture nurseries (Rs.6.47/kWh), while LT commercial consumers generate the highest revenue (Rs.11.47/kWh).
- Recognizing the potential of renewable energy, Karnataka has implemented the Karnataka Renewable Energy Policy 2022-27, with KREDL leading efforts to encourage private investment in solar and other renewable sources. Between 2023-24, the state added 1,960.27 MW of renewable energy capacity, and in 2024-25 (up to December), an additional 637.98 MW has been installed. Notably, renewable energy

capacity expansion surged by 235% between 2022-23 and 2023-24, contributing significantly to natural resource conservation by reducing dependency on coal.

- KREDL's efforts have been widely recognized, earning it the Best Nodal Agency award (2023-24) from the Indian Wind Power Association (IWPA) in August 2024 at Coimbatore. The agency also secured the second prize for wind installed capacity at Global Wind Day 2024 in New Delhi and another second-place award at the National Energy Conservation Awards 2024 in February 2024.

### Road Infrastructure Development in Karnataka

- Under State Highway Development Plan-IV (Stage-2), the government allocated Rs.3,500 crore, of which Rs.3,119 crore has been utilized to develop 2,120 km of roads. Currently, 50 project packages are actively progressing as of December 2024.
- To enhance connectivity, 242 bridges worth Rs.1,885 crore are being constructed across Karnataka in 15 project packages under KRDCL. As of December 2024, 190 bridges have been completed, with the remaining in different stages of completion. An expenditure of Rs.1,734 crore has been incurred so far.
- The Karnataka State Highways Development Project (KSHIP-III), funded by a \$346 million loan from the Asian Development Bank, is developing 418 km of state highways across three packages. Progress so far is that in Package-1: 96 km completed, Package-2: 150 km completed and Package-3: 128 km completed (as of December 2024).
- Under RIDF NABARD 28 (2022-23), 73 road works were sanctioned to improve 394 km of road infrastructure with an estimated Rs.326 crore budget. By December 2024, 273 km of roads have been developed, with Rs.158.76 crore spent, completing 58 of the 73 projects, while 15 are ongoing.
- Special attention is being given to remote regions in the coastal, Malnad, and Western Ghats, where footbridges are being constructed to improve pedestrian accessibility, particularly for school children crossing streams and ravines. In 2023-24, 87 footbridges were initiated at a cost of Rs.13.98 crore, of which 49 are completed, and 37 are under construction. For 2024-25, work is underway for 173 new footbridges, estimated at Rs.30.94 crore.
- Karnataka is emerging as a leader in electric vehicle (EV) adoption, with approximately 2.5 lakh EVs registered, making it the third highest in the country. The state currently hosts 5,403 EV charging stations, installed by both the government and private entities.
- To reinforce its commitment to sustainable mobility, the state has introduced the Karnataka Clean Mobility Policy 2025-30, set to shape the future of eco-friendly transportation. This ambitious policy, announced in February 2025, aims to foster a robust clean mobility ecosystem, ensuring Karnataka remains at the forefront of green transportation solutions.

### Transport

- In a major step towards women's empowerment, the Karnataka government launched the 'Shakti-Free Travel for Women' scheme on June 11, 2023. This initiative allows all women, including transgender individuals and girl students, to travel free of cost across the state. Between June 11, 2023, and December 31, 2024, 365.4 crore women passengers benefited from the scheme.
- The Transport Department has been given a revenue target of Rs.13,000 crore for the 2024-25 fiscal year. By the end of December 2024, the department had already collected Rs.8,622.08 crore against the target of Rs.9,393.24 crore, achieving 91.79% of the goal.

- The issuance of smart cards has seen remarkable progress, with 2.43 crore Driving License Smart Cards and 3.59 crore Registration Certificate Smart Cards distributed as of December 31, 2024.
- The Bangalore Metropolitan Transport Corporation (BMTTC) continues to modernize its fleet. By December 2024, it had added 674 private electric buses under the Gross Cost Contract (GCC) model, along with 666 diesel Leyland BS-VI buses, while retiring 639 old vehicles.
- For the convenience of travellers, BMTTC has set up a Smart Kiosk at the airport. This interactive kiosk helps passengers with bus schedules, routes, and other transport-related queries, ensuring a smooth and hassle-free journey for those arriving in or departing from Bengaluru.
- In a significant welfare initiative, North Western Karnataka Road Transport Corporation (NWKRTC) signed an agreement with KIMS Hubli to provide cashless inpatient treatment under the “Sarige Sanjeevini” scheme for its employees. This facility, which began on March 6, 2024, has now been extended to hospitals in Haveri, Belagavi, Karwar, and Gadag. So far, 169 employees and their dependents have availed cashless treatment under this scheme.

### **Infrastructure Development, Ports, and Inland Water Transport**

- The Vijayapura airport is being developed at a cost of Rs.347.92 crore, covering 727 acres to accommodate Airbus-320 type aircraft. The entire amount has been sanctioned, and construction is progressing as scheduled, with completion expected by March 2025.
- The Bengaluru Suburban Railway Project, a collaborative effort between the Government of Karnataka and the Ministry of Railways, is progressing at an estimated cost of Rs.15,767 crore. So far, Rs.1,365.42 crore has been released, and Rs.1,120.21 crore has already been utilized as of January 2025.
- Karnataka’s minor ports continue to play a vital role in trade, handling 8.85 lakh metric tons of cargo in 2023-24, generating Rs.42.46 crore in revenue. From April to December 2024, the ports handled 4.02 lakh metric tons, contributing Rs.15.42 crore in revenue.
- To protect the coastal areas from sea erosion, the government has allocated Rs.15 crore for coastal protection works in 2024-25. By December 2024, 940 meters of sea erosion protection walls had been completed at a cost of Rs.11.80 crore.
- The Bangalore Metro Rail Project Phase-2, which includes extensions to four existing lines and two new lines, is making steady progress. Covering 75.06 km with 61 stations (49 elevated and 12 underground), the project is estimated at Rs.30,695 crore. So far, 34.65 km has been completed and is operational.
- The R5 New Line (R.V. Road to Bommasandra, 19.15 km) is set to open by March 2025. The R6 Elevated Line (Kalena Agrahara to Tavarekere, 7.5 km) is expected to be commissioned by December 2025. The R6 Underground Line (Tavarekere to Nagawara, 13.76 km) is targeted for completion by December 2026. As of December 2024, the project has achieved 93.95% physical progress and 89.44% financial progress.

### **Banking and Finance, including Cooperatives in Karnataka**

- As of March 2024, Karnataka has seen an increase in banking infrastructure, with 12,261 branches and 17,062 ATMs across rural, semi-urban, urban, and metro areas—compared to 12,001 branches and 16,978 ATMs in March 2023.
- The state has a strong rural cooperative banking network, led by the Karnataka State Cooperative Apex Bank at the top and supported by 21 District Central Cooperative Banks (DCCBs). While almost all DCCBs have achieved the mandated 9% Capital to Risk-Weighted Assets Ratio (CRAR), Bidar DCCB stands at 7.02%. These banks have fully implemented Core Banking Solutions (CBS), ensuring seamless services

like RuPay debit cards, RTGS/NEFT transactions, Direct Benefit Transfers (DBT), and SMS alerts for all Kisan Credit Card (KCC) accounts.

- A significant initiative has been the computerization of 6,040 Primary Agricultural Credit Societies (PACS) at a cost of Rs.236 crore. Additionally, 2,585 PACS are now functioning as Common Service Centres (CSCs), offering 300 e-services under the Grama One model.
- The state is further expanding financial inclusion at the grassroots by establishing 218 new Multipurpose PACS (M-PACS), including 45 in unbanked Gram Panchayats and 173 to replace defunct PACS by 2026. Many of these M-PACS are being transformed into Jan Aushadhi Kendras (213), CSCs (2585), Fertilizer Distribution Centres (1,797), and even LPG (7) and petrol dealerships (11).
- To strengthen PACS as Multi-Service Centres (MSCs), NABARD has reimbursed Rs.1.35 crore for 82 PACS, supporting activities like pre-surveys, project reports, technology adoption, and capacity building. Over the past five years, NABARD has also provided Rs.3.94 crore to establish five Off-Farm Producer Organizations (OFPOs), benefiting 1,550 artisans, with three focused on Geographical Indication (GI) tagged products—Channapatna toys, Kasuti embroidery, and Kolhapuri chappals.
- In the irrigation sector, Rs.1,837.34 crore has been sanctioned under the Long-Term Irrigation Fund (LTIF) for five major projects: Narayanpur Left Bank Canal (ERM), Upper Tunga, Bhima LIS, Karanja, and Sri Rameshwar. So far, Rs.1,183.32 crore has been disbursed. In addition, a lift irrigation initiative covering 180 tanks in Shikaripura and six tanks in Hirekerur has brought 46,035 hectares under irrigation.
- NABARD has been actively promoting skill development, investing Rs.3.19 crore over six years to train over 4,250 youth and women. Impressively, 80% of the trainees have secured employment or started their own ventures. Efforts have also been made to revive GI-tagged Udupi sarees.
- A ground breaking project—the world’s largest Decentralized Grain Storage Program—is being piloted in the cooperative sector, starting with Ekamba PACS in Bidar district, out of a planned 34 PACS.
- Under the Rural Infrastructure Development Fund (RIDF), spanning tranches I to XXIX, Karnataka has received sanctions for 44,144 projects worth Rs.22,015.30 crore, with Rs.17,611.94 crore already disbursed. Agriculture and allied sectors have received 40% of these funds, rural connectivity 31%, and social sectors 29%. Under RIDF tranche (XXX), 298 projects worth Rs.2,056.09 crore have been sanctioned, close to the allocated Rs.2,060 crore.
- The impact of RIDF projects in Karnataka has been transformative. The state’s irrigation potential has increased by 5.56 lakh hectares, while rural infrastructure has expanded with 1,755 veterinary institutions, 906 rural market projects, 276 Raitha Samparka Kendras, 33 fish jetties, 10 cocoon quality testing labs, 3 pesticide residue labs, 4 high-tech cocoon markets, and training centres. Social infrastructure has also improved, with 13,431 education infrastructure projects, 7,290 Anganwadis, and 341 healthcare centres.
- Rural connectivity has been enhanced through 45,474 km of roads and 58,626 meters of bridges. Additionally, 12 drinking water projects under the Jal Jeevan Mission have been implemented.
- Karnataka is also leveraging NABARD’s Micro Irrigation Fund (MIF), securing Rs.290 crore to benefit 2.63 lakh farmers—75% of whom are small and marginal farmers.
- Under the NABARD Infrastructure Development Assistance (NIDA) scheme, two major projects worth Rs.2,671.12 crore are being implemented. A key initiative under this scheme is providing safe drinking water to 3,636 rural habitations across Raichur, Dharwad, Vijayapura, and Mandya, benefiting around 71.87 lakh people. So far, Rs.2,254.15 crore has been released for these projects.

- The state's agricultural financing has been significantly strengthened. In 2023-24, crop loans up to Rs.5 lakh were disbursed at 0% interest, while medium and long-term agricultural loans up to Rs.15 lakh were given at 3% interest.
- The government reimbursed the interest differential under the Subsidized Agriculture Loan Scheme, releasing Rs.1,178.22 crore to 30.38 lakh farmers in 2023-24. For 2024-25, a budget provision of Rs.1,451.02 crore has been made and Rs.1,041.16 crore has already been disbursed to cooperative institutions on behalf of 24.11 lakh farmers.

## 11. HUMAN DEVELOPMENT

Karnataka has consistently led in human development, surpassing the national average with significant progress in health and education. It was among the first states to publish a Human Development Report. While urban centers like Bangalore have advanced rapidly, rural areas still face challenges. The state's efforts focus on bridging these gaps to ensure equitable growth. Strategic interventions continue to address disparities, fostering inclusive development.

### Health and Family Welfare

- Karnataka has made remarkable strides in healthcare, significantly reducing mortality rates and expanding access to quality medical services. The state has consistently focused on bridging regional disparities and strengthening healthcare infrastructure.
- The state's concerted efforts in maternal and child healthcare have yielded impressive results. The Maternal mortality rate which stood at 97 (for every 100000 live births) in 2015-17, has now declined to 69 ( per 100000 live births) in 2018-20. Similarly, the infant mortality rate (IMR) has seen a steady drop from 28 in 2015 to 19 in 2020.
- The overall trend in child mortality indicators has been encouraging: Infant Mortality Rate: Declined from 35 in 2011 to 19 in 2020, Under-5 Mortality Rate: Reduced from 40 to 21, Neonatal Mortality Rate: Decreased from 24 to 14, Early Neonatal Mortality Rate: Reduced from 20 to 11.
- Additionally, Karnataka's Total Fertility Rate which was 1.8 in 2015-16, has declined to 1.7 in 2019-20, reflecting better family planning and maternal healthcare access.
- The state has 36,312 private medical establishments registered under the Karnataka Private Medical Establishment Act, ensuring quality healthcare services. Bangalore alone houses 9,942 (27%) of these facilities, followed by Dakshina Kannada 2,783, (7%) and Dharwad 2,402, (6%).
- To enhance access to healthcare, Ayushman Arogya Mandirs have been launched under the Ayushman Bharat – Arogya Karnataka scheme. As of December 2024, 1.78 crore health cards have been issued. During 2024-25 (up to December 2024), 21.87 lakh beneficiaries availed treatment under the scheme, with Rs.1,149.56 crores disbursed to network hospitals.
- Under the Shuchi – “Nanna Maithri” program, menstrual cups were distributed to 15,000 beneficiaries in 2024-25. By December 2024, 86.2% (12,932 children) had adopted their use, marking significant progress in menstrual hygiene management.
- Karnataka has set ambitious targets under its Routine Immunization Programme, aiming to vaccinate 11.06 lakh children and 12.12 lakh pregnant women annually. By December 2024, 8.01 lakh children had been immunized, achieving a 97% coverage rate.
- The Ashakirana initiative, launched to address eye health, has screened millions for vision-related issues: Phase I (2022-23): In Chikkaballapura, Chamarajanagar, Haveri, and Kalaburagi districts, 68.21 lakh

people were screened, with 10.82 lakh undergoing secondary screening. As a result, 3.2 lakh people were prescribed spectacles, 2.55 lakh received them, and 59,842 cataract surgeries were conducted. Phase II (2023-24): Covering Chitradurga, Mandya, Raichur, and Uttara Kannada districts, the program screened 72.15 lakh individuals, of whom 13.64 lakh required secondary screening. So far, 74,122 spectacles have been distributed, and 33,492 cataract surgeries have been performed.

- Screening for non-communicable diseases (NCDs) during 2024-25 showed that 90.08% of women aged 30 and above underwent tests for breast cancer and 72% for cervical cancer, while 89.55% of men and women aged 30 and above were screened for oral cancer.
- The STEMI Phase I program is operational in 45 spokes hospitals across 15 districts linked to three hubs at Sri Jayadeva Institute of Cardiovascular Sciences and Research in Bengaluru, Mysuru, and Kalaburagi.
- STEMI Phase II, named after Karnataka Rathna Dr. Puneeth Rajkumar Hrudaya Jyothi Yojane, will expand services to the remaining 15 districts with eight hubs and 41 spoke hospitals, with the government procuring highly effective medication for heart attack patients, including 408 administrations of Injection Tenecteplase, which costs Rs.25,000 per vial, out of 4,118 confirmed STEMI cases from 4,36,766 ECGs conducted. 408 patients have been administered Injection Tenecteplase, a life-saving drug worth Rs.25,000 per vial.
- Gruha Arogya, under the National Program for Prevention and Control of Non-Communicable Diseases (NP-NCD), was launched in Kolar and is set to expand across the state by January, addressing a prevalence rate of 24% for hypertension and 15.6% for diabetes in Karnataka.
- The Manochaitanya Taluka Mental Health Programme (Super Tuesday Clinic) ensures psychiatric care at the taluka level through specialists from District Mental Health Programme (DMHP) hospitals, medical colleges, and private hospitals, facilitating 4,52,684 consultations in 2024-25.
- Leprosy prevalence in Karnataka has drastically fallen from 40 per 10,000 population in 1986 to 0.40 per 10,000 in 2015-16 and further to 0.30 per 10,000 by December 2024. Tuberculosis (TB) mortality has reduced from 8% in 2009 to 6% in 2024, with the TB treatment success rate improving to 85%.
- During 2024-25 (up to December 2024), the state recorded 741 cases and three deaths from malaria, 32,886 cases and 20 deaths from dengue, 2,954 cases of chikungunya, and 688 cases of Acute Encephalitis Syndrome (AES) with 31 cases of Japanese Encephalitis (JE).
- To expand eye care services, mobile ophthalmic units have been strengthened in 25 districts, and 501 vision centers have been established at the PHC level to cater to rural populations, leading to the collection of 5,284 eyeballs against a target of 5,600 (94.36%) and 3,83,196 cataract surgeries performed against a target of 4,88,400 (78.46%) in 2024-25.
- HIV screening in 2024-25 identified 9,628 positive cases from 29 lakh general tests (0.33%), while 8,94,834 pregnant women were screened, of whom 306 tested positive (0.03%).
- Under the Arogya Kavacha emergency medical response system, there is one ambulance for every 95,000 people, with 715 ambulances in operation, responding to 5,48,642 emergencies in 2024-25, including services to 1,16,587 pregnant women and 81,889 lives saved.
- The Jothi Sanjeevini Scheme (JSS) has benefited 1,590 state employees, with Rs.1,018.16 lakhs disbursed to hospitals for their treatment in 2024-25. By December 2024, 9,058 health and wellness centers have been upgraded, comprising 6,532 rural sub-centers, 2,161 rural PHCs, and 365 urban primary health centers.

- The Ayush department saw 38.20 lakh outpatients and 0.99 lakh inpatients availing services in Ayurveda, Unani, Homeopathy, Yoga, and Naturopathy in Ayush hospitals during 2024-25.
- The COVID-19 situation has remained stable in Karnataka from January 2024, with 1,498 and 779 samples tested in November and December, respectively, of which 52 and 13 were confirmed positive. The state continues to follow the 5Ts strategy of Testing, Tracing, Tracking, Treatment, and Technology to manage COVID-19 effectively, implementing measures recommended by the State Technical Advisory Committee.

## Education

- The state has a well-established school education system with 22,917 lower primary schools, 30,104 higher primary schools, and 17,989 high schools. Among them, the Education Department manages a significant share, accounting for 88.04% of lower primary schools and 72.18% of higher primary schools. However, its role in secondary education is relatively limited, with only 26.96% of high schools under government management. Government schools are predominantly located in rural areas, whereas private schools are concentrated in urban centers.
- Over the years, total student enrolment from grades 1 to 10 has seen a slight decline, from 100.29 lakh in 2010-11 to 100.00 lakh in 2023-24. To ensure access to education, the state follows a policy of establishing a new primary school within one kilometer of habitations with a population exceeding 100 and at least 10 children. Higher primary schools (HPS) are set up within a three-kilometer radius, while high schools are located within a five-kilometer radius.
- In sparsely populated areas, feeder schools or transportation facilities are arranged, and HPS institutions are being upgraded to include class 8 wherever high schools are unavailable within a three-kilometer range.
- Efforts to tackle dropouts focus on enrolling every out-of-school child in a nearby school and providing them with special training. Their progress is tracked systematically, allowing them to transition into age-appropriate classes.
- While the number of never-enrolled children remains low, dropout cases have shown a declining trend over the years. Special enrollment drives help ensure that children aged six and above are directly admitted to schools. To strengthen data tracking, information on mainstreamed children is collected through the Vidyavahini software.
- In the academic year 2023-24, the state employed 1,94,585 teachers (79.77%) in lower and higher primary schools, compared to the sanctioned 2,43,904 positions. Additionally, 11,679 teachers were employed in aided elementary schools, filling all sanctioned posts. A notable trend is the predominance of female teachers in government elementary schools, comprising 80.33% of the workforce.
- The teacher-pupil ratio (PTR) in government schools is generally satisfactory, averaging 1:41.06 at the elementary level, though disparities exist across districts and schools. To address this, the state has implemented a policy to rationalize teacher deployment. Meanwhile, private aided and unaided schools maintain a lower PTR of 1:29.9 and 1:41.92, respectively.
- Several quality improvement initiatives have been undertaken, including infrastructure development, the establishment of residential schools for specific groups, and the adoption of the “Nali Kali” method in all government Kannada and Urdu medium primary schools. Other programs include the Kasturba Gandhi Balika Vidyalaya scheme for girls, home-based education for children with special needs (CWSN), and in-service training for teachers and administrators focusing on learning spaces and classroom processes.

- Under the National Skills Qualification Framework (NSQF), the “Shikshana Kirana” program has been launched to track students’ academic progress, attendance, promotions, and dropout status. This system has captured data for about one crore students across all schools in the state, enabling online monitoring of student, teacher, and school performance.
- Karnataka was also among the first three states in the country to implement the Library Act, resulting in the establishment of 1,335 public libraries across the state.
- To modernize administration, the government has initiated the implementation of e-office software in all district deputy director offices, with KSWAN network systems already in place. DSERT has been sanctioned funds to supply three all-in-one computers and a printer to each district office, with distribution coordinated through DIET offices.
- Additionally, Rs. 76.01 lakh was allocated for the maintenance of the Student Achievement Tracking System (SATS) and Seva Mithra applications, of which Rs. 38.00 lakh has already been utilized, with the remaining funds to be spent by March 2025.
- Under the TALP program, 95 government PU colleges are being equipped with six Mini PCs and a 2KVA UPS each, with DSERT overseeing procurement and fund distribution. In higher education, the state has 71 medical colleges offering MBBS programs with a total intake of 12,395 students, of which 24 colleges are government-run. Additionally, there are 45 dental colleges with a capacity of 3,345 students, including three government institutions. The state also has 638 nursing colleges, producing 35,465 nursing graduates (B.Sc.) annually.
- For postgraduate medical education in 2024-25, enrollment capacity stands at 6,313 for PG degrees and 34 for PG diploma courses. The Department of Medical Education has been allocated Rs. 4,331.58 crore in the 2024-25 budget, with Rs. 3,693.58 crore under the revenue head and Rs. 638 crore under the capital head. By December 2024, expenditure stood at Rs. 2,063.29 crore and Rs. 523.81 crore, respectively. The government has also approved Rs. 209 crore to establish a regional cardiology center at the Jayadeva Institute in Hubli, with Rs. 62 crore already released and construction underway.
- The state’s technical education system has grown significantly, from just 57 institutions under the Department of Technical Education to 538 institutions in 2023-24, covering diploma, degree, and junior technical schools. To enhance technical education, a special initiative was launched in 2022-23 to upgrade seven government engineering colleges into “Karnataka Institutes of Technology (KIT)” based on the IIT model.
- The Department of Collegiate Education administers 411 government first-grade colleges, 12 government residential first-grade colleges, two fine arts colleges, three Sanskrit colleges, 320 private aided degree colleges, 53 private aided B.Ed. colleges, 27 private aided law colleges, and 23 private aided fine arts colleges. These institutions operate under six regional joint directors located in Bangalore, Mysore, Mangalore, Shivamogga, Dharwad, and Kalaburagi.
- To integrate technology into higher education, the state has implemented the Karnataka Comprehensive Learning Management System and introduced smart classrooms under the ‘Digital Learning Scheme’ in government first-grade colleges. This initiative has significantly benefited students, particularly those from rural and socio-economically marginalized backgrounds.
- The State Quality Assurance Cell (SQAC) has restructured the academic calendar for government first-grade colleges to align with NAAC guidelines, ensuring a structured and effective learning environment. Updates have been made to stakeholder feedback forms and standard operating procedures for NAAC criteria. Additionally, SQAC has conducted workshops, review meetings, and on-site visits to support colleges in their NAAC accreditation process, assisting them in securing 2(f) and 12(b) status. Special

officers have been assigned to guide and supervise these efforts, strengthening the quality of higher education across the state.

### **Welfare of Scheduled Castes and Scheduled Tribes in Karnataka (2024-25)**

- During the financial year 2024-25, the Department of Social Welfare in Karnataka was allocated a budget of Rs.5,125.32 crores. Out of this, Rs.3,984.16 crores have been released, and by the end of January 2025, Rs.3,039.19 crores have been utilized for various welfare initiatives.
- The Dr. B.R. Ambedkar Overseas Scholarship provides financial support to Scheduled Caste (SC) and Scheduled Tribe (ST) students pursuing postgraduate and PhD programs at reputed foreign universities. By December 2024, Rs.1,500.00 lakhs had been spent, benefiting 189 students.
- For the comprehensive development of SC and ST communities, the Government of Karnataka allocated Rs.28,527.02 crores under the Scheduled Castes Sub Plan (SCSP) in 2024-25 of which an amount of Rs.16,578.67 crores is released and expenditure incurred upto January 2025 is Rs.15,041.97 crores. This funding is distributed across 35 departments to support education, employment, social security, and essential services.
- The Social Welfare Department (SWD) has undertaken various skill development initiatives. The Indira Gandhi Professional Development Centre trained 1,000 SC youth in agricultural drone technology, while 1,400 graduates received coaching for PSI competitive exams. Additionally, 100 SC artisans from leather-based traditional occupations are undergoing specialized training through LIDKAR to integrate modern technology and designs, catering to markets in Delhi, Tamil Nadu, Maharashtra, Uttar Pradesh, and West Bengal. Fifty hostel students were also provided training in a Basic Mountaineering Course in Himachal Pradesh.
- To promote education, the government spent Rs.10,245 lakhs on pre-matric scholarships for 6.91 lakh students and Rs.23,000 lakhs on post-matric scholarships benefiting 2.38 lakh students. Additionally, Rs.7,205 lakhs were awarded as prize money to 56,662 meritorious students, while Rs.2,500 lakhs were allocated for training 3,982 students at the Indira Gandhi Professional Development Institute. Maintenance of 713 Dr. B.R. Ambedkar Post-Matric Hostels cost Rs.18,779 lakhs, benefiting 1.17 lakh students, and Rs.33,342 lakhs were spent on maintaining pre-matric hostels for 1.25 lakh students. The government also invested Rs. 30,000 lakhs in constructing 234 hostels in 2023-24, with an additional Rs.13,475 lakhs allocated in 2024-25, with ongoing construction efforts.
- To encourage inter-caste marriages among SC communities, Rs.485.00 lakhs have been spent, supporting 243 beneficiaries under the SCSP scheme by December 2024.
- The Government of Karnataka is implementing numerous development programs for Scheduled Tribes through the Department of Tribal Welfare and the Karnataka Maharshi Valmiki Scheduled Tribes Development Corporation. In 2024-25, Rs.1,718.85 crores were allocated, of which Rs.813.21 crores were released, and by the end of January 2025, Rs.674.15 crores had been utilized.
- Under the Tribal Sub Plan (TSP), Rs.11,515.39 crores were earmarked, with Rs.5,756.12 crores released and Rs.5,347.96 crores spent by January 2025. The allocation is spread across 35 departments to ensure access to education, employment, social security, and essential services for ST communities.
- For educational support, Rs.1,125 lakhs were spent on the Admission to Prestigious Schools scheme, benefiting 2,835 ST students. The Pre-Matric Scholarship program supported 2,28,401 students with Rs.3,585.13 lakhs, while Rs.7,653 lakhs were spent on post-matric scholarships for 62,759 students. Additionally, Rs.1,737.20 lakhs were awarded as prize money to 11,860 meritorious students.

- The government allocated Rs.6,872.17 lakhs for the maintenance of post-matric hostels, benefiting 18,956 students, and Rs.2,958.89 lakhs for pre-matric hostel maintenance, supporting 10,911 students. Furthermore, Rs.790 lakhs were spent on constructing 97 Valmiki Bhavans, and Rs.4,000 lakhs were set aside for a nutrition program that benefited 47,859 families.
- The Karnataka Maharshi Valmiki Scheduled Tribes Development Corporation has also initiated various programs, including loan assistance and skill training, to improve the socio-economic conditions of Scheduled Tribe communities.

### **Welfare of Backward Classes**

- The Department of Backward Classes Welfare and the D. Devaraj Urs Backward Classes Development Corporation (DBCDC) have been actively implementing various programs to enhance the socio-economic status of backward communities in Karnataka. In the financial year 2024-25, a budget of Rs.2,251.62 crores was allocated, of which Rs.1,772.44 crores have been released. By the end of December 2024, an expenditure of Rs. 1,356.29 crores had been incurred.
- To support students from backward classes, the government continues to offer pre-matric and post-matric scholarships for students from Class 9 to postgraduate levels. For 2024-25, an amount of Rs. 22,666 lakhs is provided for pre matric and post matric scholarships of which Rs.14,171 lakhs is distributed to 141108 pre matric and post matric students upto December 2024.
- Free education and accommodation are provided in 174 Morarji Desai Residential Schools for students from Class 6 to 12, while 16 Ashrama Schools offer primary education with boarding facilities for Category-I students. Additionally, fee concessions and financial assistance, including up to Rs.10 lakhs for Ph.D. and post-doctoral studies abroad, have been introduced.
- An amount of Rs. 338.12 lakhs has been provided to 947 law graduates as stipend up to December 2024.
- The D. Devaraj Urs Backward Classes Development Corporation has allocated Rs.122.84 crores for developmental schemes, including support for unemployed law graduates and programs for the upliftment of NT/SNT communities.
- A new initiative, "Amrutha Munnade," has been launched to enhance skill development among youth from backward communities. Short-term and advanced skill training is provided through government institutions such as ITI, GTTC, KGTTI, ATDC and VTU improving employability and socio-economic status. While Category-1 candidates face no income criteria, applicants from Categories 2A, 3A, and 3B must have an annual family income below Rs.8 lakhs. By December 2024, 519 individuals had benefited from the program.

### **Welfare of Minorities**

- To uplift minority communities, the Karnataka government is implementing various welfare schemes through the Directorate of Minorities, the Karnataka Minorities Development Corporation and other related boards. In 2024-25, an allocation of Rs.2,653.60 crores was made, with Rs.1,977.98 crores released. By the end of December 2024, Rs. 1,528.01 crores had been utilized for various initiatives.
- To improve the financial stability of minority silk reelers and spinners, the government has introduced a loan scheme providing up to Rs.2 lakhs for working capital and infrastructure, with 50% of the amount offered as a subsidy.
- Educational support for minority students has been a key focus. In 2024-25, Rs.55.71 crores were disbursed as pre-matric scholarships, benefiting 3,22,170 students, while Rs.30.41 crores were disbursed for post-matric fee reimbursements, assisting 50,732 students.

- The Overseas Scholarship Scheme supported 198 students studying abroad with Rs.19.51 crores. Additionally, Rs.1.67 crores were granted to 123 students under the M.Phil. and Ph.D. Fellowship Scheme and 11 minority students received a one-time incentive of Rs.2 lakhs each. Further, Rs.98.01 lakhs were distributed as stipends to 248 law graduates.
- Efforts have also been made to provide accommodation facilities for minority students. Currently, 36 pre-matric hostels house 1,825 students from Class 5 to 10, ensuring access to essential amenities like meals, uniforms and stationery. For post-matric students, 365 hostels accommodate 29,350 students enrolled in PUC, degree and postgraduate programs, offering free meals and library access.
- Additionally, 100 new post-matric hostels have been established for minority students, with the admission process ongoing. To support working women, 10 hostels have been set up in Bangalore and other municipal corporation areas.
- In 2024-25, several new schemes have been introduced to promote economic empowerment among minority communities. The Incentive Scheme for Sericulture Reelers aims to strengthen the silk industry, while the Subsidy Scheme for Self-Help Groups provides financial assistance to encourage entrepreneurship among minority communities.
- The Sikhligar's Community Development Scheme has been introduced to uplift the Sikhligar community and the Interest Subsidy Scheme for Entrepreneurs offers financial relief to minority business owners, fostering growth and sustainability.

## Women and Child Development

- The Gruha Lakshmi scheme, launched in 2023-24, aims to ease financial burdens and economically empower women by providing Rs.2,000 per month to female heads of households. For 2024-25, a budget allocation of Rs.28,608.40 crores has been made of which Rs.18,566.31 crores have been released up to the end of December 2024. Rs.18,353.03 crores had been disbursed through DBT to 1,21,12,403 recipients.
- The Bhagyalakshmi scheme, designed to improve the sex ratio by encouraging the birth of girl children in BPL families, deposits Rs.3,000 annually into Sukanya Samruddhi Accounts for up to two children per family. Over 34.78 lakh beneficiaries have been covered from 2006-07 to 2023-24. In 2024-25, Rs.167.94 crores have been spent on 5,59,693 beneficiaries up to December 2024.
- Under the Stree Shakti scheme, Karnataka has 1.65 lakh self-help groups (SHGs) with 25.85 lakh women members. In 2024-25, Rs.218.05 lakhs have been allocated to strengthen these groups, with Rs.96.17 lakhs spent so far. Additionally, revolving funds are being provided to 140 Scheduled Caste SHGs and incentives to 340 Scheduled Tribe SHGs. An amount of Rs.6.25 lakhs disbursed for 140 Scheduled Caste groups as on December 2024.
- The gender-based budget for 2024-25 stands at Rs.86,423.25 crores. There are 956 schemes under this category, of which 88 fall under Category A and 868 under Category B.
- Under the Santwana scheme, 19,217 women have received legal assistance and counseling on issues such as dowry, domestic violence and sexual harassment across 179 centres. A total of Rs.500.07 lakhs has been spent up to December 2024.
- The Integrated Child Development Services (ICDS) program benefits 43,44,324 individuals, including children (0-6 years), pregnant women, lactating mothers, and adolescent girls. In 2024-25, Rs.90,669.79 lakhs have been spent on supplementary nutrition. Karnataka has 69,919 Anganwadi centres, catering to 36.13 lakh children. However, 22,687 centres (32.45%) lack their own buildings. To address this, Rs.85

crores have been allocated for constructing 441 Anganwadis, with Rs.63.32 crores released by December 2024.

- According to Poshan Tracker data from December 2024, Karnataka has identified 94,727 moderately malnourished and 12,527 severely malnourished children. Efforts are underway to improve nutrition for children, adolescent girls, and mothers to reduce malnutrition, stunting, and anemia. Under Poshan Abhiyan, a total of Rs.3,999.05 lakhs have been spent up to December 2024.
- The Udyogini scheme for 2024-25 had an allocation of Rs.1,500 lakhs, benefiting 1,540 women entrepreneurs.
- To support transgender individuals, the Karnataka Transgender Policy (2017) reserves 1% of government jobs across all categories. The Government of India's Transgender Portal has issued identity cards to 3,180 transgender persons, enabling access to various welfare schemes. In 2024-25, Rs.300 lakhs have been allocated to support 1,000 beneficiaries.
- The Child Helpline (1098) has handled 10,872 distress calls in 2024, resolving complaints effectively. A budget of Rs.1,027.11 lakhs has been earmarked, with Rs.513.56 lakhs spent up to December 2024.
- Under Vishvesha Palana Yojane, 11,825 HIV-infected or affected children receive Rs.1,000 per month in financial aid. By August 2024, Rs.5.75 crores had been spent. From September 2024 financial assistance has been increased to Rs. 2,000 per month. Meanwhile, 172 children orphaned or living with a single parent due to COVID-19 receive Rs.3,500 per month under the Chief Minister's Balaseva Yojane, with Rs.37.09 lakhs spent up to December 2024.
- In childcare institutions, 24 students excelled in the 2023-24 SSLC and PUC exams, with 08 students clearing SSLC and 16 students securing high scores in PUC.

### **Differently Abled and Senior Citizens**

- A total of 8,35,608 Unique Disability Identity Cards (UDID) has been issued, out of 10,95,216 applications received as on December 2024.
- The Government Braille Printing Press in Mysore has printed and distributed 6,237 Braille books for visually impaired students. Additionally, between 2020-21 and 2023-24, 1,582 Braille kits, including talking mobiles and Braille watches, were distributed at a cost of Rs.351.10 lakhs
- Under the Sadhane scheme, differently-abled individuals participating in national and international sports events receive Rs.50,000 in support. Similarly, the Prathibe scheme provides up to Rs.50,000 for sports participants and Rs.20,000 for cultural events. From 2017-18 to 2023-24, 817 individuals benefited from these initiatives, with an expenditure of Rs.408.50 lakhs.
- The Grameena Punarvasathi Yojane facilitates rehabilitation, awareness, education, training, and employment for differently-abled individuals at the village and taluk levels. From 2017-18 to 2023-24, 37,862 beneficiaries received assistance, with Rs.25,460.79 lakhs spent.
- Differently-abled students receive fee reimbursement post-SSLC, benefiting 13,448 students between 2017-18 and 2023-24, with an expenditure of Rs.826.21 lakhs.
- Under the Niramaya Health Insurance Scheme, children from BPL families with autism, cerebral palsy, mental retardation or multiple disabilities receive medical coverage of up to Rs.1 lakh annually for a one-time premium of Rs.250. From 2017-18 to 2023-24, 13,692 beneficiaries received benefits, with Rs.35.80 lakhs spent. For 2024-25, Rs.66 lakhs have been allocated.

- A total of 2,93,974 Senior Citizen ID cards have been issued against 3,19,091 applications received.
- The Senior Citizen Helpline, operational in 26 districts, provides emergency assistance. From 2017-18 to 2023-24, 585 senior citizens benefited from this initiative, with Rs.1,163.47 lakhs spent. For 2024-25, Rs.160.06 lakhs have been allocated, with Rs.88.86 lakhs spent as of December 2024.

### Human and Gender Development

- India ranks 134th out of 193 countries in the UNDP Human Development Report 2023-24, falling under the medium human development category.
- Karnataka's HDI improved from 0.432 in 1999 to 0.644 in 2022, consistently ranking between 10th and 11th among Indian states.
- Top HDI Districts in Karnataka are Bangalore Urban (0.738) leads, followed by Dakshina Kannada (0.687), Chikkamagaluru (0.668), and Udupi (0.665). Lowest HDI Districts in Karnataka are Yadgir (0.538), Kalaburagi (0.539), and Raichur (0.562) rank at the bottom.
- Among the taluk-wise HDI, Mangalore Taluk (0.786) in Dakshina Kannada has the highest HDI, while Yadgir Taluk (0.325) in Yadgir District has the lowest. 76 taluks fall below the state average (0.573), requiring urgent developmental focus.
- Karnataka's projected population for 2024 is 6.81 crore, with females comprising 49.31%. Postgraduate female enrolment is 56.7% (AISHE 2021-22), Female Worker population ratio is 42.7% (PLFS 2023-24), and Women in the organized sector is 32.82% (Men and Women in Karnataka 2022-23).
- In the Gender Inequality Index (GII) Dharwad (0.440) records the highest gender inequality, followed by Bengaluru Rural (0.420), Belgaum (0.419), and Tumkur (0.416). Bengaluru Urban (0.322) ranks 7th, showing a 32% loss due to gender inequality. The lowest GII is in Udupi (0.213), Uttara Kannada (0.250), Dakshina Kannada (0.281), Kodagu (0.299), and Gadag (0.321).
- To improve gender equality, the state has introduced programs focusing on reproductive health, female workforce participation and political representation. These measures aim to reduce disparities and promote inclusive development.

## 12. GOOD GOVERNANCE PRACTICES IN KARNATAKA

Karnataka has been a pioneer in leveraging technology for governance, ensuring transparency, efficiency, and data-driven decision-making. The Karnataka Geographic Information System (K-GIS) integrates geospatial technologies into governance, enhancing policy formulation and planning. Government has undertaken many initiatives to strengthen accountability and responsiveness which reflect the state's commitment to good governance through digital transformation and innovation.

### e-Governance

- Karnataka has upgraded its State Wide Area Network (KSWAN) to a more secure and robust KSWAN 2.0, with plans for KSWAN 3.0 already in motion. The Detailed Project Report (DPR) worth Rs.931.15 crores has been approved, aiming to extend connectivity to all Gram Panchayats and about 22,000 government offices.
- The Karnataka Public Procurement Platform 2.0 is enhancing transparency and competition in government procurement. As of 30th November 2024, it has been extended to 569 procurement entities, facilitating 14.24 lakh tenders, 67,583 auctions, and 35.51 lakh bids. The platform has 1.81 lakh registered suppliers and 33,742 government users, ensuring a fair and efficient procurement system.

- The KSDC, managed by CeG, supports over 500+ applications and 590+ web portals, maintaining a 99.95% uptime. It serves as the backbone for G2G, G2C, and G2B services, ensuring seamless digital governance across various departments.
- Karnataka has issued 6.95 crore Aadhaar numbers, facilitating Aadhaar-based authentication across various government schemes. This has significantly improved targeted delivery, ensuring benefits reach the right individuals efficiently.
- The e-Office platform has been successfully implemented in 4,759 offices, covering departments from the Secretariat to Taluk Panchayat offices. The rollout is ongoing in Nadakacheri and Gram Panchayat offices, streamlining administrative processes digitally.
- The Padakanaja platform, now available in State Data Centre, offers 95 glossaries and dictionaries containing 2.19 lakh Kannada words and 1.20 lakh English root words. Additionally, the Kannada Kasturi translation tool, developed in collaboration with the University of Hyderabad, is bridging the language gap in governance.
- Karnataka's DBT platform, designed to enhance transparency in welfare schemes, now supports 463 schemes. By directly transferring benefits to Aadhaar-linked bank accounts, it eliminates errors, duplication, and fraud, ensuring rightful beneficiaries receive their entitlements.
- The Kutumba project is a comprehensive family database integrating multiple department records with ration card data. Covering 5.8 crore residents (nearly 90% of Karnataka's population), it aids in policy-making, planning, and budgeting, earning national recognition with the e-Governance Award (Silver).
- Karnataka conducts crop surveys using a dedicated mobile application, with officials from Revenue, Agriculture, Horticulture, and Sericulture departments actively participating. The 2024-25 Kharif season survey has been completed, providing critical data for MSP operations, disaster subsidies, crop insurance, and beneficiary selection in agricultural schemes.
- The Mahiti Kanaja web portal, in line with the Right to Information Act (2005), ensures citizens access to government data. With 579 services from 150 departments integrated into DigiLocker, the initiative bridges information gaps and facilitates digital governance.
- The Farmer Registration and Unified Beneficiary Information System (FRUITS) is streamlining farm-related benefits. With 98.98 lakh farmers registered as of 15th December 2024, it provides Unique Farmer IDs (FID) and is integrated with Karnataka's DBT portal and financial management system (K2) for seamless subsidy disbursement.
- The CM's Janaspandana, District Janaspandana, and CMO Letter Monitoring System (LMS) modules have been introduced to enhance grievance redressal. By 16th December 2024, the CM Janaspandana module alone handled 9,002 grievances, with 8,947 resolved, ensuring responsive governance.
- A recent Guarantee Schemes survey revealed 80% Gruhajyothi beneficiaries used the savings for household needs, while 76% Gruhalakshmi recipients spent the amount on provisions, education, and healthcare. Additionally, 73% of Yuvanidhi beneficiaries reported reduced financial stress, showcasing the scheme's impact.
- Implemented in 2012 with 151 services, the Sakala Act has expanded to 1,255 notified services under 108 departments. By December 2024, it processed 36.43 crore applications, with a 99.82% timely disposal rate, ensuring citizens receive government services efficiently.

## Special Development Plan

- Since its introduction in 2007-08, the Special Development Plan (SDP) has aimed to uplift Karnataka's backward talukas. From 2007-08 to 2023-24, a total allocation of Rs.44,074 crores has been made, with Rs.37,662 crores released for various developmental works. As of now, Rs.34,381 crores have been effectively utilized, achieving a 91% utilization rate of the released funds.
- Recognizing the need for an updated assessment of regional disparities, the Karnataka Regional Imbalances Redressal Committee was constituted under the leadership of Prof. M. Govinda Rao, Ph.D., as per Para 248 of the 2024-25 Budget Speech. The committee, officially notified on March 16, 2024, began its work on September 1, 2024, and has been tasked with evaluating the impact of the Special Development Plan and revising the backwardness index of talukas. The final report is expected to be submitted within a year.

## Area Development Boards

- The Malnad Area Development Board, established under the Malnad Area Development Act of 1991, has been actively working since 1993-94 to support the development of the region. Over the years, a total of Rs.1,023.70 crores has been allocated, with Rs.950.63 crores released. As of January 2025, the board has effectively utilized Rs.905.63 crores for developmental activities.
- The Bayaluseeme Area Development Board, which came into existence in 1995-96 under the Bayaluseeme Area Development Board Act of 1994, has played a crucial role in the region's growth. Since its inception, an allocation of Rs.687.56 crores has been made, out of which Rs.605.75 crores has been released. By January 2025, the board had efficiently spent Rs.600.93 crores on various development initiatives.
- The Karavali Development Authority, established in 2008, has been instrumental in fostering the all-round progress of coastal Karnataka, covering Dakshina Kannada, Udupi, and Uttara Kannada districts. From 2009-10 to 2024-25, a total of Rs.161.68 crores was allocated, with Rs.145.87 crores released. By January 2025, an expenditure of Rs.138.19 crores had been incurred. Notably, in the year 2024-25 (up to December 2024), the authority successfully completed the construction of one hanging bridge, seven footbridges, and five fish markets, addressing key infrastructure needs of the coastal communities.
- To ensure localized planning and efficient service delivery, the Karnataka Legislators Local Area Development Scheme (KLLADS) was introduced in 2001-02. For the financial year 2024-25, a budget of Rs.600 crores was earmarked, out of which Rs.440 crores has already been released as of January 2025.
- The Hyderabad-Karnataka region, comprising Bidar, Yadgir, Raichur, Koppal, Ballari, Kalaburagi, and Vijayanagar, enjoys special status under Article 371(J), enabling focused development efforts. Since 2013-14, a total of Rs.19,778.33 crores has been allocated for the region, with Rs.13,978.80 crores already disbursed. By January 2025, the expenditure incurred stood at Rs.12,350.67 crores. Out of the 39,994 approved developmental projects, 29,044 projects have been successfully completed, making significant strides in regional progress.

## Directorate of Economics and Statistics

- The Directorate of Economics and Statistics publishes key annual reports, Karnataka at a Glance and District at a Glance, which provide insights into over 2,000 parameters. Since 2018-19, these reports have been enriched with data collected at the taluk and district levels, integrated with GIS technology developed by KRSAC. Beyond statistics, these publications include spatial maps that highlight regions performing below the state average on key development indicators, aiding policymakers in prioritizing support for backward taluks.

- For 2023-24, the Directorate estimated Karnataka's total agricultural area at 104.07 lakh hectares, with food grains covering 76.73 lakh hectares. The total food grains production stood at 128.31 lakh tonnes. As per the First Advance Estimates for 2024-25, the agricultural area is projected at 77.02 lakh hectares, with 57.11 lakh hectares under food grains, yielding an estimated 102.34 lakh tonnes.
- Under the Karnataka Pradhan Mantri Fasal Bima Yojana (PMFBY), 1,32,070 crop-cutting experiments were planned for 2023-24, of which 97,818 were successfully conducted for notified crops, and 3,887 were completed for non-CIS crops. In total, 1,01,705 experiments were carried out against the planned 1,37,050. The results of these experiments finalized the average yield for 18,612 insurance units (13,984 at the Gram Panchayat level and 4,628 at the Hobli level) in the Samrakshane Portal, aiding insurance claim settlements for farmers.
- For the 2024-25 kharif season, 84,444 crop-cutting experiments were planned, including 80,104 for notified crops and 4,340 for non-CIS crops. By 28th January 2025, 67,649 experiments had been completed, with the remaining underway. So far, 778 insurance units (381 at the GP level and 397 at the Hobli level) have had their average yield finalized in the CCE Samrakshane Portal, enabling timely insurance settlements.
- The first phase of the 11th Agriculture Census in Karnataka has been completed, with data successfully submitted to the Government of India. Meanwhile, the state continues its extensive registration of births and deaths, with 61,903 registration centres—61,250 in rural areas and 653 in urban centres. In 2024, Karnataka recorded 9.91 lakh births and 5.52 lakh deaths, compared to 10.17 lakh births and 5.39 lakh deaths in 2023. To ensure 100% registration in rural areas, Gram Panchayat Secretaries were appointed as Birth and Death sub-registrars in 2022-23.
- Karnataka has also updated its Registration of Births and Deaths Rules, 1999 to align with the Births and Deaths Amendment Act, 2023 of the Government of India, with a notification issued on 31st December 2024. Demonstrating its leadership in digital governance, Karnataka became the first state in India to integrate birth and death certificates registered in e-JanMa into blockchain technology from 1st April 2022, ensuring authenticity, preventing duplication, and curbing misuse of these essential documents.

### **Karnataka Monitoring and Evaluation Authority (KMEA)**

- Since its establishment in 2011-12, the Karnataka Monitoring and Evaluation Authority (KMEA) has played a crucial role in assessing the effectiveness of government schemes. Between 2011-12 and 2024-25, the authority received a total of Rs.9,142.32 lakhs, out of which Rs.8,145.02 lakhs has been utilized, reflecting a 89% fund utilization rate.
- During 2024-25 (up to December 2024), KMEA successfully completed five evaluation studies, with an additional seven studies currently in progress. Since its inception, the authority has completed a total of 199 evaluation studies, providing valuable insights that have contributed to enhancing the efficiency of various government programs. Additionally, KMEA has extended technical support to government departments, assisting them in conducting internal evaluations of their schemes.

### **13. SUSTAINABLE DEVELOPMENT GOALS**

Karnataka is taking a holistic and strategic approach to achieving the Sustainable Development Goals (SDGs) by integrating social, economic, and environmental dimensions. The government ensures targeted investments across sectors through scheme and budget mapping, promoting resource efficiency and convergence strategies for outcome-driven development. The state's performance improved in 11 SDGs in 2023-24 when compared with 2020-21, while it declined in four. Currently, 11 goals are in the front-runner category, four are underperforming, and Goal 7 is categorized as an achiever. With continued innovative implementation, Karnataka is steadily progressing toward meeting its 2030 SDGs targets

- The United Nations' 2030 Agenda for Sustainable Development sets 17 SDGs, 169 targets, and 232 indicators, expanding on the Millennium Development Goals (MDGs) to include critical areas such as climate change, economic inequality, innovation, sustainable consumption, peace, and justice
- As the core of this agenda is poverty eradication and the principle of "leaving no one behind," Karnataka is actively engaging with local governments, social institutions, NGOs, and self-help groups (SHGs) to shape policies that promote inclusive growth. Achieving the 2030 SDG targets demands innovative governance beyond the conventional approach
- To ensure effective action, Karnataka has established a State-Level Steering Committee and a Monitoring and Coordination Committee, along with goal-specific expert groups to provide technical support. The Karnataka Vision 2020 and 2025 has now been aligned with the Karnataka SDG Vision 2030, serving as a roadmap for achieving the state's developmental goals
- According to NITI Aayog's SDG India Index Report (2023-24), Karnataka's SDG score has improved from 72 in 2020-21 to 75 in 2023-24, ranking 5th among major states. The state has made notable progress in 11 SDGs such as poverty alleviation, health, clean water, economic growth, climate action, reduced inequalities, development of cities and communities, responsible consumption, life below water, life on land and promote peace and justice, while four goals require further improvement, particularly in education, gender equality, infrastructure and zero hunger
- Preparing an SDG outcome budget by identifying poor-performing indicators from the SDG India Index report and estimating the shortfalls in the budget which could be met through Corporate Social Responsibility (CSR) initiatives
- In Voluntary National Review 2020 Report, it was provisionally estimated that making India progress on SDGs would require an additional annual spend of 6.2 of GDP by 2030

# STATE INCOME, PRICES & INFLATION

## 1.1 INTRODUCTION

Karnataka is a state of diverse cultures and languages and the economic and social scenario within the State, in many ways, mirrors the scenario prevalent in the country itself. Located in the southern part of India, along its northern borders lie the states of Maharashtra and Goa; Andhra Pradesh and Telangana to the east; Tamil Nadu and Kerala to the south, while the Arabian Sea forms the western boundary.

Karnataka has an area of 1,91,791 sq. kms. which constitutes 5.83 per cent of the total geographical area and population of 6,10,95,297 accounts for 5.05 per cent of country's population in 2011. Karnataka, in terms of population, is the ninth largest state among India's 28 major states and 8 union territories. The state is urbanised steadily. In terms of urbanization, the state has witnessed an increase of 4.68 per cent in the proportion of urban population in 2001-2011 decade. 61.33 per cent are rural residents and 38.67 per cent are urban residents. It has a larger proportion of its population living in urban areas, than the average of the country as a whole.

This chapter analyses Karnataka's economic growth in terms of changes in Aggregate and Per Capita State Income including stability of prices in the indices of wholesale as well as retail prices in the entire state. In addition, this chapter also provides an analysis of District Income Estimates along with related Inter-District Variations.

## 1.2 GROSS STATE DOMESTIC PRODUCT

Gross State Domestic Product (GSDP) is the most important indicator in measuring economic growth of the State. It gives an overall picture of the economy of the state. This would enable the policy makers, administrators and planners for proper formulation and appraisal of plans for balanced economic development. Analysis of this indicator at aggregate and disaggregated levels leads to the insights of patterns and sources of growth.

The State Domestic Product is defined as the "aggregate of the economic value of all goods and services produced within the geographical boundaries of the State, counted without duplication, for a specified period of time" by convention: a financial year.

## 1.3 GROSS STATE DOMESTIC PRODUCT - OVER-VIEW FOR 2024-25

Karnataka has released the GSDP Advance Estimates for the year 2024-25. In accordance to the estimates, the GSDP is estimated to be Rs.28,83,903 crore and is anticipated to grow at 12.8% at current prices. At constant (2011-12) prices, GSDP is Rs.15,70,297 crore with an expected growth of 7.4%.

## 1.4 COMPARISON OF GROSS STATE DOMESTIC PRODUCT AND GROSS DOMESTIC PRODUCT

In 2024-25, the GSDP of Karnataka is anticipated to grow at 7.4% whereas the GDP at national level is 6.4% at constant (2011-12) prices. At current prices, the GSDP is anticipated to reach Rs.28,83,903 crore with a growth of 12.8% and GDP is likely to attain a level of Rs.3,24,11,406 crore with a growth rate of 9.7%. The share of Karnataka's GSDP in All India GDP is 8.9% during 2024-25.

The GSDP and GDP at current and constant (2011-12) prices from 2011-12 to 2024-25 are presented in **Table 1.1 & 1.2**. It can be clearly seen that except for 2017-18 Karnataka's growth rate at current prices has always been higher than all India growth rate. While at constant prices, State's growth rate is higher than all India except for 2014-15, 2018-19 and 2023-24.

**Table 1.1: Annual Growth of GSDP and GDP at Current Prices**

| Year    | GSDP<br>(Rs. Crore) | Growth Rate of<br>GSDP (%) | GDP<br>(Rs. Crore) | Growth Rate of<br>GDP (%) | Difference in<br>Growth Rates |
|---------|---------------------|----------------------------|--------------------|---------------------------|-------------------------------|
| 2011-12 | 6,06,010            | -                          | 87,36,329          | -                         | -                             |
| 2012-13 | 6,95,413            | 14.8                       | 99,44,013          | 13.8                      | 1.0                           |

## 1.5 COMPARISON BETWEEN ADVANCE ESTIMATES OF 2024-25 AND FIRST REVISED ESTIMATES OF 2023-24

The Gross State Domestic Product of Karnataka at constant (2011-12) prices for the year 2024-25 is anticipated to grow by 7.4%. The GSVA growth rate of agriculture sector has been estimated to be 4.0% in 2024-25 as against the growth of -4.9% in 2023-24 showing the recovery from severe drought conditions and inadequate rainfall in the state which had affected an area of 48 lakh hectares in 2023-24. The industry sector (comprising mining & quarrying, manufacturing, construction and electricity, gas & water supply) is expected to grow by 5.8% in 2024-25 against a growth of 7.3% during 2023-24 showing the steady recovery from Covid distress experienced during 2020-21. 6.4% growth in manufacturing is boosting the industrial sector growth rate. Service sector is expected to grow by 8.9% during 2024-25 compared to growth of 7.9% during 2023-24 due to growth in IT related services from 10.2% in 2023-24 to 11.1% in 2024-25. Public Administration with 19.7% growth rate, 14.8% in Other Services are other major contributing subsectors of services. Whereas, the First Advance Estimates of All India Gross Domestic Product (GDP) at constant (2011-12) prices for the year 2024-25 is expected to grow at 6.4%. The sectoral growth rate of Agriculture, Industry and Services at all India level is anticipated to grow at 3.8%, 6.2% and 7.2% respectively. The comparative table of sectoral growth rates of GSDP for 2023-24 and 2024-25 are presented in **Table 1.3**.

**Table 1.3: Sectoral Growth Rates of GSDP at Constant (2011-12) Prices**

(Percent)

| Sl. No | Sector                                                      | 2023-24 F.R.E. | 2024-25 A.E. |
|--------|-------------------------------------------------------------|----------------|--------------|
| 1      | Crops                                                       | -11.8          | 2.5          |

## 1.6 NET STATE DOMESTIC PRODUCT

The estimates of Net State Domestic Product (NSDP) are derived from the Gross State Domestic Product (GSDP) by deducting Consumption of Fixed Capital (CFC) or Depreciation. For the year 2024-25, at current prices, NSVA growth of agriculture, industry and service sectors are expected at 9.8%, 9.1% and 13.1% respectively which has lead the NSDP to Rs.26,03,948 crore, displaying a growth of 12.8% against 10.2% in 2023-24. Similarly, at constant (2011-12) prices the NSDP is estimated at Rs.13,98,723 crore showing a growth of 7.2% (Table 1.4). The NSVA growths of Agriculture, Industry and Service sectors are expected to be 4.1%, 5.9% and 8.7% respectively.

**Table 1.4: NSDP at Current and Constant (2011-12) Prices**

| Sectors                     | NSDP at Current Prices |                  | NSDP at Constant (2011-12) Prices |                  |

**Figure 1.1** shows the GSDP, NSDP and CFC at current prices from 2019-20 to 2024-25. The difference in GSDP and NSDP indicates the extent of consumption of fixed capital or depreciation.

Figure 1.1: GSDP, NSDP and CFC at current prices

## 1.7 SECTORAL COMPOSITION OF GROSS STATE DOMESTIC PRODUCT

The contributions of Agriculture and Industry sectors to the overall GSDP from 2023-24 to 2024-25 saw a marginal decrease from 11.95% to 11.72% and 20.67% to 20.15% respectively. The services sector, the largest component of GSDP saw a marginal increase from 67.38% in 2023-24 to 68.13% in 2024-25. The contribution of 'Real estate, Professional Services & Ownership of Dwellings' is the highest with (39.72%) in 2024-25 followed by Computer related services and R&D (30.47%); 'Manufacturing (12.34%)', 'Trade and Repair Services (9.07%)' and 'Crops (7.0%)'. The sectoral composition of GSDP in 2023-24 and 2024-25 at current prices is given in **Table 1.5**. The sectoral composition of GSDP is shown in **Figure 1.2** for primary, secondary and tertiary sectors. Sector wise Gross and Net State Domestic Product estimates from 2019-20 to 2024-25 has been presented in **Appendix 1.1 to 1.4**.

## 1.8 PER CAPITA INCOME

Per capita income is estimated by dividing NSDP at current prices with mid-financial year projected population (as on 1st October). Per Capita Income (i.e. per capita NSDP) of Karnataka at current prices is estimated to be Rs.3,80,906 showing a rise of 12.1% during 2024-25, as against Rs.3,39,813 in 2023-24. Karnataka's per capita income (Rs.3,80,906) is higher than All India per capita income (Rs.2,00,162) by 90%. **Figure 1.3** provides comparison of per capita income of Karnataka and All India from 2019-20 to 2024-25. It is significant to note that the per capita income has shown a steep increase after 2020-21, indicating gradual recovery of state's economy after the economic downturn due to covid pandemic.

Figure 1.3: Comparison of Per Capita Income

On comparison, the level of per capita income at constant (2011-12) prices was Rs.1,91,970 in 2023-24 and is expected to be Rs.2,04,605 in the year 2024-25 with a growth rate of 6.6%.

### 1.9 GROWTH OF NSDP AND PER CAPITA INCOME

**Table 1.6** presents the growth of Net State Domestic Product and Per Capita Income of the state over the years. CAGR shows incremental growth over time. Details of State Domestic Product estimates from 1960-61 to 2024-25 have been presented in **Appendix 1.5**.

Table 1.6: Growth of NSDP at Market Price and Per Capita Income

| Year             | NSDP at Current Prices (Rs.Crore) | CAGR (%) | Per Capita Income (Rs.) | CAGR (%) |
|------------------|-----------------------------------|----------|-------------------------|----------|
| 1960-61          | 692                               | -        | 296                     | -        |
| 1970-71          | 1,858                             | 10.4     | 641                     | 8.0      |

### 1.10 INTER STATE COMPARISON

The comparison of GSDP or State Income and per capita income of Karnataka for 2023-24 with selected States (for which data is available in CSO website) alongside All India is presented in **Table 1.7**. Karnataka ranks 3rd

with regard to per capita income among selected States. Among neighbouring States, only Telangana is above Karnataka by 4.9%.

**Table 1.7: Comparison of State Income and Per Capita Income for the year 2023-24**

| State          | State Income (Rs Crore) | Per capita Income (Rs) | Ranking in Per Capita Income |
|----------------|-------------------------|------------------------|------------------------------|
| Delhi          | 10,14,688               | 4,61,910               | 1                            |

### 1.11 DISTRICT INCOME

The District Domestic Product estimates are prepared on a provisional basis. The database for the estimation is available for Primary sector only. In respect of Secondary and Tertiary sectors, the State level estimates are allocated to districts with appropriate available indicators and workforce under each sector as revealed during 6th Economic Census. The Directorate of Economics and Statistics publishes important publications namely “Karnataka at a Glance” and “District at a Glance” every year. These publications provides approximately 2000 indicators of data, both static information (Population Census, Agricultural Census and Livestock Census) and dynamic information related to the programmes of various development departments in addition to socio-economic and geographical information of the districts / taluks. This publication provides district wise / taluk wise data needed for computation of District Domestic Product Estimates. This publication also provides maps of taluks and districts. The estimates of Gross District Domestic Product and Per capita income for 2023-24 have been presented in **Appendix 1.6**. District wise sectoral contribution for all the 31 districts are presented in **Table 1.8**

**Table 1.8: Sector wise contributions to Gross District Domestic Product Year : 2023-24**

(Rs. Crore)

| District         | Agriculture | Rank | Industry | Rank | Services | Rank | Gross District Domestic Product (GDDP) | Rank |

It is evident from the **table 1.8**, that the districts which are better in services and industries will fare well with overall growth in DDP. The districts which are at very lowest positions are well placed in Agriculture sector, however, due to less presence of industries and services establishments, these districts fared poorly. Further due to addition of new data items viz., Private Corporate part etc., and availability of new data sources in computation of GSDP of the State, identification of suitable physical indicators with respect to each sector to be allocated for the districts is in process. Because of data limitations, it may not be very useful to analyse sector-wise district estimates between any two given points of time as these estimates have not yet firmed up.

The district wise and sector wise contribution to the Gross State Domestic Product and per capita Income is presented in **Table 1.9**.

**Table 1.9: District wise and Sector wise contribution to GSDP and Per capita Income for 2023-24**

| District         | Agriculture  | Industry     | Services     | Gross District Domestic Product (GDDP) | Per Capita Income (Rs) |

Further, It is evident from **Table 1.9**, Bangalore Urban District stood first in the total District Income as well as per capita district income for the year 2023-24. Bengaluru Urban District contributes 39.1% to GSDP at current Prices followed by Dakshina Kannada (5.4%), Belagavi (3.9%). Bengaluru Urban District tops in industry and services sectors due to high concentration of major industries and infrastructure facilities. Each district has a potential for growth in one or the another sector

which can be used by the district planning committees to strengthen and enhance the GDP. The per capita income (in rupees) at current prices for all 31 districts for the year 2023-24 is presented in Figure 1.4.

**Figure 1.4: District wise Per Capita Income (in rupees) for the year 2023-24**

District income is also a measure of the level and growth of economic development prevailing in the district level. It is a useful policy indicator to monitor the nature and degree of inter-district variations as well as, disparities in the process of economic growth at the State level. A simple statistical indicator of inter-district variations in the levels of district income is the coefficient of variation. **Figure 1.5** shows these computed values across the four divisions and at the State level.

**Figure 1.5: Inter-district variations of Gross District Income and Per Capita Income by Divisions in Karnataka for 2023-24**

**Figure 1.5** indicates the variations in gross district and per capita district income among the revenue regions (divisions) of the State. The highest variation is evident with respect to Bengaluru division, if Bengaluru Urban District is included. Excluding Bengaluru Urban district, these inter-district variations in district income and per capita district income, get remarkably reduced at the division and State levels which is nothing but the districts without Bangalore Urban is fairly developed across all the districts. The growing inter-district variation is an important indicator and a source of broader inter-regional disparities in the process of State's economic development. However, a low coefficient of variation as such, does not necessarily imply either a higher or a lower district economic growth or regional disparity.

**Figure 1.6: Division wise Per Capita Income**

It can be observed from **Figure 1.6** that Kalaburgi revenue region (comprising Ballari, Bidar, Kalaburgi, Koppal, Raichuru, Vijayanagar and Yadagiri districts), stood lowest in the per capita income followed by Belagavi and Mysore regions due to less presence of industries and services sectors in these regions. Hence there is a dire need for development of industries and services in these regions through encouraging private investments.

### 1.11 PRICES

Price is one of the key indicators in the economic planning process. They provide an economic mechanism by which goods and services are distributed among the consumers. Changes in prices have a direct bearing on all sections of the society irrespective of their level of living. Prices determine what goods are to be produced and in what quantities. They also indicate the demand and supply of goods and services in the economy. The wholesale and retail Inflation can be measured in two ways viz., Wholesale Price Index and Consumer Price Index

### 1.12 INFLATION

Inflation is an increase in the level of prices of goods and services over time. It is the constant rise in the general level of prices where a unit of currency buys less than it did in prior periods. It indicates the purchasing power of a Nation's currency.

In India commonly used inflation indices are the Wholesale Price Index (WPI) and the Consumer Price Index (CPI). As the name indicates the WPI measures Price at the wholesale level and CPI at the consumer level. Beyond the basics, the number and types of items included in the WPI and CPI basket differ and so does the weights given to these items. Food has a larger weight in CPI than WPI, the CPIs are therefore more sensitive to changes in prices of food items. Whereas the fuel group has a much higher weight in Wholesale Price Index (WPI) than Consumer Price Index (CPI).

During 2024-25, based on inflation rate of All India Wholesale Price Index (WPI) is increased to 1.64% in 9 (April-December) months. During the corresponding period of previous year inflation rate was increased by 0.46%.

During 2024-25, based on inflation rate of All India Consumer Price Index (CPI) is increased to 3.1% in 9 (April-December) months. During the corresponding period of previous year inflation rate was increased by 3.4%.

### 1.13 ALL INDIA WHOLESALE PRICE INDEX

Wholesale Price Index measures the average change in the prices of commodities for bulk sale at the level of early stage of transactions. The index basket of the WPI covers commodities in three major groups namely Primary Articles, Fuel and Power and Manufactured Products.

Wholesale Price Index is released by the Office of Economic Advisor (OEA), Department of Industrial Policy and Promotion, Ministry of Commerce, and Industry. The base year for this index is 2011-12=100. The index basket of the present 2011-12 series has a total of 697 items including 117 items of Primary Articles, 16 items for Fuel and Power and 564 items for Manufactured Products. WPI basket does not cover services.

Wholesale Price Index is used to estimate inflation at the Wholesale transaction level. It is also used for estimating GDP by Central Statistical Office (CSO). This index is released every month at the National level.

During 2023-24 and 2024-25 Wholesale price index analysis given below.

- During 2024-25, the Index of all commodities increased from 152.9 in April to 155.4 in December 2024, showing an increase of 1.64%.
- During 2023-24, the index of all commodities is increased from 151.1 in April to 151.8 in December 2023, showing an increase of 0.46%.
- The Annual rate of inflation, based on monthly WPI, stood at 2.37% for the month of December 2024 (over December 2023)

During 2024-25 (April-December) Group-Wise changes in WPI are as follows.

- Primary Articles (Weight 22.62), the index for this major group rose by 3.58% in 9 months.
- Fuel and Power (Weight 13.15), the index for this major group decreased by 0.99% in 9 months.
- Manufactured Products (Weight 64.23), the index for this major group increased by 1.27% in 9 months.

The details of annual all India wholesale price index from April to December for the consecutive years 2022-23, 2023-24 and 2024-25 are presented in **Appendix 1.7** and group wise All-India Wholesale Price Index since 2016-17 are given in **Appendix 1.8**. The **Figure 1.7** shows group wise changes in WPI.

**Figure 1.7: Group wise changes in WPI**

#### 1.14 WHOLESALE PRICE INDEX OF KARNATAKA STATE FOR 33 AGRICULTURAL COMMODITIES

This index is useful to monitor the trends in prices at the first stage of commercial transaction and to estimate the State Domestic Product. The main source of primary data for the construction of this Index is (1) 40 Agricultural Produce Market Committees (APMCs) of Agricultural Marketing Department situated across the State, who compiles the prices of agricultural commodities (2) Directorate of Sugar (3) Coffee, Tobacco and Spices Board.

During 2023-24 and 2024-25 (April-December) Wholesale Price Index of Karnataka State 33 agricultural commodities analysis given below.

- During 2024-25, the Index of Wholesale prices is increased from 1921 in April to 1997 in December 2024, showing an increase of 3.96% in 9 months
- During 2023-24, the Index of Wholesale prices is increased from 1649 in April to 1811 in December 2023, showing an Increase of 9.82% in 9 months.
- In 2024, December index is 1997 and compared to 2023 December index (1811) the annual Index increased to 10.27%.

During 2024-25 (April- December) the statistics of Group-wise WPI is as follows.

- During 2024, when compared to April to December, all commodities index is increased by 3.96%. The index of Miscellaneous group increased by 18.78%, Cereals Increased by 4.05%, whereas Oilseeds group decreased by 14.40%, Fibre group decreased by 12.65%, pulses group decreased by 7.03%, Gur and Sugar decreased by 2.86% and Condiments and Spices decreased by 1.97%.
- During April to December 2024, the prices of Onion, castor and Tamarind are increased by 115.92%, 73.24% and 38.08% respectively. Whereas the prices of seasamum, Jowar and Groundnut are decreased by 25.50%, 20.81% and 19.10% respectively.

WPI numbers of agricultural commodities in Karnataka since 2016-17 are given in **Appendix 1.9** and group wise index numbers for 2022-23, 2023-24 and 2024-25 are given in **Appendix 1.10**. The trend of WPI for 33 agricultural commodities in Karnataka for the year 2023-24 and 2024-25 are shown in **Figure 1.8**.

**Figure 1.8: Average Trend of WPI in Karnataka**

### 1.15 CONSUMER PRICE INDEX

Consumer Price Index is a measure of change in retail prices of goods and services consumed by defined population group in a given area with reference to a base year.

Presently the consumer price indices compiled in India are CPI for Industrial workers (CPI-IW), CPI for Agricultural Labourers (CPI-AL), CPI for Rural Labourers (CPI-RL) and CPI for Rural and Urban (CPI-R& U). The first three indices are constructed and released by the Labour Bureau, Chandigarh and the fourth by the Central Statistical Office (CSO), New Delhi. In Karnataka, the Directorate of Economics & Statistics constructs and releases only CPI-IW for 9 centres as state series every month.

Consumer price index is widely considered as a Barometer of inflation, a tool for monitoring price stability. Also, the Dearness allowance of Government employees and wage contracts between labour and employer is based on this index.

### 1.16 CONSUMER PRICE INDEX FOR INDUSTRIAL WORKERS

The target group of CPI-IW is workers of factories, mining, plantations, motor transport, docks, railways & electricity. This index is mainly used to determine the dearness allowance for the employees in both the public and private sectors. At the National level, from September 2020 the base year of CPI (IW) for Central series has been revised from 2001=100 to 2016=100. In this series CPI-IW is constructed for 88 selected industrially developed centres across the country, out of which 7 centres namely Bengaluru, Belagavi, Hubballi-Dharwad, Madikeri, Mysuru, Davanagere and Chikmagalur based in Karnataka. CPI-IW in April and December for the year 2022-23, 2023-24 and 2024-25 in All India and Karnataka are presented in **Appendix 1.11**. The trend of all India CPI-IW of 2023-24 and 2024-25 is shown in **Figure 1.9**.

During 2022-23, 2023-24 and 2024-25 All India level consumer price Index for industrial workers analysis given below.

- All India level consumer price Index of December 2023 was 138.8 points, corresponding period of this year (December 2024) the points moved to 143.7, and annual inflation rate is 3.53%. During 2023-24, index of December 2023 was 138.1 points, corresponding period of previous year (December 2022) the index was 132.3 points, and annual inflation rate was 4.91%.
- During 2024-25 April-December 9 month's average index is 142.4 points, compared to corresponding period of the previous year average index was 137.6 and inflation rate is 3.55%. During 2023-24 April-December 9 month's average index was 137.6 points, compared to corresponding period of the previous year average index was 130.5 and inflation rate was 5.40%.

Figure 1.9: All India Consumer Price Index

### 1.17 STATE CONSUMER PRICE INDEX FOR INDUSTRIAL WORKERS

In Karnataka, the Directorate of Economics & Statistics constructs CPI-IW for 9 centres viz., Ballari, Bhadravathi, Dandeli, Kalaburagi, Hassan, Mandya, Mangaluru, Raichur and Tumakuru. With effect from February 2022 the base year for the State series index has been revised from 1987-88=100 to 2018=100. Even though revision of base year 2018=100 effected from February 2022 for State series, the previous year's indices has been worked out and presented in the related Appendices.

During 2024-25, among the 9 State series centers, General Index of Tumkur and Dandeli centres increased by 4.5% and 4.4% respectively. During 2024-25, the General Index of Tumkur centre is increased from 136.3 in April to 142.5 in December 2024 showing an increase of 4.5% and from April to December 9 months' average is 139.6 points showing an increase of 6.28% compared to corresponding period of previous year (131.4).

The details of the CPI-IW for All India and Karnataka are presented in **Appendix 1.12, 1.13, and 1.14.**

### 1.18 CONSUMER PRICE INDEX FOR AGRICULTURAL LABOURERS

Consumer Price Index for Agricultural Labourers (CPI-AL) for 20 States, including Karnataka, is being constructed every month by the Labour Bureau, Chandigarh based on the information obtaining from the Field Operation Division of National Sample Survey Office. This index is used for fixation and revision of minimum wages in agriculture sector. The base year for this index is 1986-87=100.

The general index of Karnataka is increased by 5.12% in December 2024 over April 2024 as against an increase in index by 4.51% at all India level.

During 2024-25 (upto December 2024), in Karnataka, the average general index has increased to 1485 from 1374 during same period of 2022-23, thus showing an increase of 8.09%. At the all-India level, the index was increased by 6.19%.

CPI-AL in April and November for the years 2022-23, 2023-24 and 2024-25 are presented in **Appendix 1.15.** The CPI-AL at All India and Karnataka from 2016-17 are given in **Appendix 1.16.** The Food and General Index of Agricultural Labourers during 2023-24 is illustrated in the **Figure 1.10.**

**Figure 1.10: Consumer Price Index of Agricultural Labourers**

### 1.19 PRICE SITUATION IN RURAL AND URBAN KARNATAKA

Directorate of Economics & Statistics, Government of Karnataka, collects retail prices of a basket of essential commodities from selected centres in rural and urban areas in order to assess the price situation in the State. Rural retail prices are collected every month and urban retail prices are collected every week for the construction of monthly Rural Retail Price Index Numbers and Urban Retail Price Index Numbers. For both these index numbers, with effect from February 2022 the base year has been revised from 1970=100 to 2018=100. These index numbers are based on un-weighted diagram and focuses on broad price trends in rural and urban areas, to guide policy decisions.

- (a) **Price Situation in Urban Areas:** Every week, retail prices of 26 important commodities are collected from 31 urban centres in the State in order to construct Urban Retail Price Index (URPI). During 2024-25 the index was 158.16 in April 2024 rose to 168.32 in December 2024 showing an increase of 6.42%. The rise in index is attributed to the increase in prices of Onion (75.93%), potato (18.36%), Gram dal (11.89%) and coconut (8.91%). During 2024-25 (up to December 2024), the average URPI (164.72) increased by 11.18% over the corresponding period of the previous year (148.15).
- (b) **Price Situation in Rural Areas:** For the construction of monthly Rural Retail Price Index (RRPI), the retail prices of 32 essential commodities are collected from 452 villages every month. During 2024-25, the index in April 2024 increased from 141.71 to 150.62 in December 2024 showing an increase of 6.29%. This increase was mainly due to increase in price of Onion(88.41%) whereas price of Tomato increased to 43.28% Up to December 2024, the average RRPI was 146.53 showing an increase of 7.49% over the corresponding period of the previous year (136.32).

The details of Urban and Rural Retail Price Index Numbers in Karnataka are given in **Appendix 1.17**.

#### Way Forward

The Gross State Domestic Product (GSDP) is expected to achieve 7.4% growth during 2024-25 as compared to 6.0% during 2023-24.

- The Government has constituted an advisory committee on GSDP to review the methodology, quality, Consistency of input data used for the estimation of GSDP and also recommend suitable measures for timely flow of data and data sources.
- To increase the GSDP of the state, the industrial policy 2020-25 has envisages a third position in merchandise export in the next five years. Amended Industrial Facilitation Act and brought in Affidavit Based Clearance System to promote investments in industrial sector. Ease of Doing Business is being promoted by minimising regulatory compliance burden.
- To increase the service sector contribution, Government has announced new IT policy 2020-25 with special focus on promoting IT beyond Bengaluru
- New Tourism Policy 2020-25 envisages avenues to promote private investments so as to attract domestic and foreign tourists
- New Data Centre Policy 2022-27 has vision to become a 'Destination of Choice' for futuristic data centers and an integral part of global data center ecosystem.
- Data Centre Policy 2022-27 envisages to develop more than 200 MW capacity data centre industry in Karnataka to attract Rs. 10,000 Crore investment.

### Appendix 1.1 GROSS STATE DOMESTIC PRODUCT – AT CURRENT PRICES

(Rs. Crore)

| Sl. No | Industry                                                      | 2019-20 | 2020-21 | 2021-22 | 2022-23 SRE | 2023-24 FRE | 2024-25 AE |

Note: Estimates of Net State Domestic Product only were computed from 1960-61 to 1979-80.

a) Computed with base year as 1960-61

b) Computed with base year as 1970-71

c) Computed with base year as 1980-81

d) Computed with base year as 1993-94

e) Computed with base year as 1999-2000

f) Computed with base year as 2004-05

g) Computed with base year as 2011-12

AE : Advance Estimates, FRE : First Revised Estimates, SRE : Second Revised Estimates, TRE : Third Revised Estimates

## 2.1 INTRODUCTION

In 2024-25, budget programmes have been formulated for the overall development of the State by achieving higher economic development and maintaining the fiscal discipline. As per Advance Estimates of 2023-24, the GDP growth rate of India is estimated at 7.3%, whereas GSDP growth rate for Karnataka is estimated at 6.6%. The state has better fiscal condition through prioritizing expenditures as well as improving revenue collections. This has implications for the fiscal position of the state. However, with the increasing government expenditure and declining government revenues, keeping the fiscal deficit at a low level is challenging. However, Karnataka estimated to contain the fiscal deficit to 2.67 percent of GSDP in 2023-24(RE). Further, for 2024-25(BE), the fiscal deficit has been targeted at 2.95 percent of GSDP, which is (less than 3 % GSDP) within the stipulated limits of the Karnataka Fiscal Responsibility Act 2002.

## 2.2 FISCAL CONSOLIDATION

In terms of fiscal consolidation that reflects the extent of fiscal discipline as well as the quality of government expenditures, the state of Karnataka has been in the forefront and has always maintained fiscal prudence as one of its main policy goals. The fiscal consolidation efforts in the state have continued and has ensured all the fiscal parameters are within the stipulated limits of the Karnataka Fiscal Responsibility Act, 2002 (KFRA). Fiscal and revenue deficits for the period 2017-18 to 2024-25(BE) are presented in **Figure 2.1**. Over the last several years with an exception in 2020-21 and 2021-22 due to Covid impact, the fiscal deficit could be maintained within 3% of GSDP as mandated by the KFRA. The state has budgeted the fiscal deficit at 2.95% of GSDP in 2024-25 (BE) in spite of the relaxation of this limit to 4% of GSDP following the pandemic (as suggested by the 15th Finance Commission). For 2023-26 the 15th Finance Commission suggests a fiscal deficit target of 3 percent of GSDP for the state governments, achieving this target may not be difficult for the state of Karnataka. Widening on the revenue account from surplus to deficit is not substantial.

## 2.3 KARNATAKA vis-à-vis OTHER STATES

In the past few years, the Karnataka's major fiscal parameters fared well when compared with the 'all states' average. This is reflected in the trends in various fiscal parameters presented in **Table 2.1**. The State has been maintaining revenue surplus until the on-set of Covid-19. Further, in 2024-25, the ratio of State

Tax Revenue (STR) to Revenue Expenditure (RE) is at 70 percent, whereas for All States Average it is 57.40 percent for the same reference period. The Developmental Expenditure to Aggregate Disbursement is at 65.10 percent better than All State Average (62.50 percent). However, Karnataka could face a severe task of reverting to surplus on the revenue account that was the highlight of the state fiscal situation so as to enhance infrastructure investments in the state.

When the fiscal situation of Karnataka is compared with other southern states, which are largely comparable in terms of strength, structure, inter-connectedness as well as proximity of the economies, it is clear that Karnataka has performed better in managing its fiscal position (**Figure 2.2**). Among the five southern states, Karnataka registered lowest fiscal deficit. In 2024-25 (BE), Karnataka recorded the second lowest fiscal deficit (3%) among the southern states with Telangana (2.90%) stands first, Andhra Pradesh (4.20%), Kerala (3.50%) and Tamil Nadu (3.40%) having the fiscal deficits at a higher level compared to Karnataka.

**Figure 2.2: Karnataka's Fiscal Deficit (as a % of GSDP) Compared with the Southern States**

## 2.4 STATE FINANCES

Karnataka has been in the forefront in terms of adhering to the fiscal consolidation efforts as mandated by the FRA 2002. To achieve this, similar to the Centre's Expenditure Management Commission, the state had its own Expenditure Reforms Commission. Based on the Commission's recommendations, by and large, the state has been protecting the targets on the capital outlays even when there are some distresses on the revenue side. In other words, the state has been trying not to resort to compression of capital outlays even when there are revenue shortages compared to budgeted numbers. In addition to expenditure reforms, the state has also undertaken tax reforms and revamped the tax administration, which seems to have yielded results in terms of higher revenue receipts. This may be noted in **Table 2.2** where except for 2020-21 and 2023-24, the revenue receipts have been increasing every year. Similarly, the revenue expenditure have been increasing every year, however, the State has maintained revenue surplus till 2019-20 and has an insignificant revenue deficit thereafter (except for 2022-23). Unlike many other states, Karnataka generates significant capital receipts through implementing Expenditure Reforms Commission as well as through restructuring of public sector undertakings. The share of capital receipts in GSDP that is below 3 percent in 2019-20 has increased to 3.76 percent in 2024-25(BE). The capital disbursement has increased from Rs.49778.91 crore in 2019-20 to Rs.80851.44 crore in 2024-25(BE), an increase of about 62.42 percent, thus, suggesting no compression even during the revenue shock period. Receipts and expenditure of both revenue and capital as a percent of GSDP augurs well for the state in order to double the state's income in coming 4 to 5 years.

### Revenue Receipts and its Composition

As may be noted in **Table 2.3**, the major component of the State's revenue receipts is the own tax collections. The annual average share of the state's own tax in GSDP in the last six years(2019-25) is about 6.96 percent. However, serious cause for concern is the declining share of central taxes, which has been declining from 1.82 percent in 2019-20 to 1.58 percent in 2024-25. The trend is expected to be similar when we look at the grants from the centre which has declined from 1.18 percent in 2019-20 to as low as 0.54 percent in 2024-25. The other source of revenue receipts, i.e., non-tax revenue, has been sticky at around 0.5 percent. This shows the constraints that the government faces in mobilizing additional non-tax revenues.

**Table 2.3: Composition of revenue receipts**

(% of GSDP)

| Particulars            | 2019-20<br>(A/Cs) | 2020-21<br>(A/Cs) | 2021-22<br>(A/Cs) | 2022-23<br>(A/Cs) | 2023-24<br>(RE) | 2024-25<br>(BE) |
|------------------------|-------------------|-------------------|-------------------|-------------------|-----------------|-----------------|
| State taxes            | 6.88              | 6.83              | 7.54              | 7.52              | 6.29            | 6.76            |
| Share of central taxes | 1.82              | 1.20              | 1.93              | 1.59              | 1.57            | 1.58            |
| Grants from Centre     | 1.18              | 0.90              | 1.22              | 0.76              | 0.51            | 0.54            |

### On Finance Commission Grants

One of the important and serious challenges for the state of Karnataka during the 15th Finance Commission period is the decline in the share of state in the divisible pool of central taxes. It may be noted in **Table 2.4**, the overall share of the Finance Commission grants for Karnataka is about 3.7 percent which is reduction of over one percentage point compared to 14th Finance Commission, which was at 4.71 percent, which is going to pose a severe challenge for the state to cope up in the next five years.

**Table 2.4: Finance Commission Grants Recommended for all states and Karnataka (2021-26)**

(Rs. crore)

| Grants                           | All States     | Karnataka    | Karnataka share in total (%) |
|----------------------------------|----------------|--------------|------------------------------|

### Total Liabilities

Similar to the trends at the Union Government, the states are also expected to exceed their targets on outstanding liabilities as set by their respective state legislations. In the case of Karnataka also, as presented in the Medium-Term Fiscal Plan of 2024-28, the total liabilities (as percent of GSDP) is expected to have increased by over 1.31 percentage between 2020-21 and 2024-25 (**Figure 2.4**) and in terms of levels, it is expected to increase by around Rs 2.65 lakh crore in the same period (**Figure 2.3**).

Figure 2.3: Total liabilities of State Government

(Rs. Crore)

Figure 2.4: Total liabilities

(as a % to GSDP)

Source: (i) Economic Survey 2023-24, Planning Department, GoK (ii) Medium Term Fiscal Plan (2024-28), Finance Department, GoK

Further, the Medium-Term Fiscal Plan 2024-28 suggest that the outstanding liabilities to stabilize at 23.68 percent of GSDP by 2024-25. This is less than to what the 15th Finance Commission estimated for the state. The Commission estimates that if the state follows the fiscal deficit targets as suggested by the Commission, the outstanding liabilities are expected to be at 27.1 percent even by 2025-26, which is the last year of the Finance Commission period. Even to achieve this, the state needs to bring down the fiscal deficit to 3 percent for the period 2023-26.

## 2.5 BUDGETARY DEVELOPMENTS IN 2024-25

### 2.5.1 Main trends

Revenue receipts largely follow the extent of economic activities. With the recovery in most of the economic activities from 2021-22, the state is in a position to improve its revenue collection capacity. However, as may be noted in **Table 2.5**, the growth rate of revenue receipts is 16.05 percent in 2024-25, the growth of capital receipts for the same reference year is 22.77 percent and the overall receipts are expected to increase by 17.90 percent. In terms of shares, the share of revenue and capital receipts in total is 71.38 and 28.62 percent respectively.

In the case of expenditures, Revenue expenditure is expected to increase by 20.69 percent in 2024-25, capital expenditure is expected to increase by 4.86 percent and the overall expenditure is expected to increase by 16.85 percent.

**Table 2.6** provides the details about some of the crucial indicators between 2023-24 (RE) and 2024-25 (BE). This has both aggregate revenue and expenditure indicators for different classification. The revenue receipts (Rs.263177.82crore) being more than developmental expenditure (Rs.241725.40crore) for 2024-25 suggest that gap being used for financing non-developmental expenditures such as debt servicing.

## 2.5.2 Receipt

### 2.5.2.1 Revenue Receipts

By definition, total revenue receipts include four major components: Own tax revenue, non-tax revenue, devolution from the Central Government and Grants-in- Aid & contributions. The large chunk of revenue receipts is coming from state's own tax revenue which is estimated to be 72.15 percent in 2024-25(BE). The tax devolution from Government of India constitutes 16.90 percent of revenue receipts. The lowest contributor to the revenue receipts is coming from the non-tax revenue (5.13 percent). The rest 5.81 percent of the revenue receipts is in the form of Grants - in - aid from Central Government. The tax devolution from Government of India is expected to increase by 10.44 percent in 2024-25 (BE) over 2023-24 (RE) while the Grants - in - aid is expected to increase by 17.64 percent during the same period (**Table2.7**).

**Tax Revenues and Tax effort:** The State's own tax revenues (SOTR), which is identified as a crucial parameter to understand the fiscal strength of the State, is expected to increase from Rs. 161494.01 crore in 2023-24(RE) to Rs.189893.03 crore in 2024-25(BE) (**Figure2.5**). While it could reflect the efficiency of the tax administration in the state, looking at the tax effort data, which is showing an increasing trend from 2020-21.

**Figure 2.5 State's Own Tax Revenue**

(Rs. crore)

Source: (i) Economic Survey 2023-24, Planning Department, GoK (ii) Overview of Budget 2024-25, Finance Department, GoK

Figure 2.6: Tax-GSDP Ratio

Source: (i) Economic Survey 2023-24, Planning Department, GoK (ii) Overview of Budget 2024-25, Finance Department, GoK.

With respect to the composition of the total revenue receipts, while there are various sources, as shown in **Table 2.7**, the State's own tax revenue has been performing very well. The total revenue receipts (consisting of taxes on income & expenditure, entry tax, property and capital transactions, VAT, sale of goods, commodities & services, State excise, motor vehicle taxes and the State's share in central taxes) is estimated at Rs.263177.81 crore in 2024-25(BE) as against Rs.226779.89 crore in 2023-24(RE). Goods and Service Tax (GST) is the main source of indirect tax revenue(32.86%) in 2024-25(BE).

The State's share in central taxes is (as per the Union Budget) anticipated to increase from Rs.40280.89 crore in 2023-24(RE) to Rs.44485.49 crore in 2024-25(BE), a growth of 10.44percent in 2024-25(BE) over 2023-24(RE).

**Non-tax Revenue:** Unlike at all India level, at the state level, the role of non-tax revenue in the overall revenues is expected to be lower. The non-tax revenue, which is largely through the usage of social, economic and general services as well as a small component of interest and dividends, is expected to increase from Rs.12000.00 crore in 2023-24(RE) to Rs.13499.59 crore in 2024-25(BE). However, the share of these revenues in the total revenues has been declining over the years and is currently at about 5.13 percent. This suggest that there are increasing implicit subsidies in the form of un-recovered user charges across the services. And this could pose serious challenge to the fiscal strength of the state. Any effort to reduce these subsidies could be beneficial for increasing social sector expenditure at the state. For a state like Karnataka with non-tax revenue being just about one percent of GSDP, it suggests a substantial increase in recovery costs, user charges, fees, etc.is essential. Hence, it is necessary to relook at the recommendations of the Expenditure Reforms Commission and implement in order to improve this source of revenues.

### 2.5.2.2 Capital Receipts

Capital receipts could come in the form of loans from Central Government, internal debt management (excluding ways & means advances and market loans), recoveries of loans and advances, and miscellaneous capital receipts. The state has budgeted an increase in capital receipts from Rs. 85928.00 crore in 2023-24(RE) to Rs.105496.05 crore in 2024-25(BE), which is higher by 22.77 percent compared to 2023-24(RE).

Details of the above Revenue and Capital Receipts are given in **Table 2.7**.

### 2.5.3 Trends in Expenditures

As may be noted in **Table 2.8**, the Budget for 2024-25 had tried to revert back to pre-pandemic levels in terms of expenditures, as ratio to GSDP, such as developmental and capital expenditures. The developmental expenditure has increased from Rs.208687.88 crore in 2023-24(RE) to Rs.241725.40crore in 2024-25(BE) (15.83% increase). One silver lining in all these expenditures is that state could ring-fence the capital expenditure pattern from the pandemic shock and continues to ensure at least two percent increase every year. But to meet the FRA limits, there is a need to further enhance these expenditures to over three percent in the medium term every year.

Note: Figures in brackets indicate percentage to GSDP

#### 2.5.3.1 Functional Categories of Expenditure

In terms of various types of expenditures by the government, they are divided into three functional categories namely, General, Social and Economic and this forms the basis for allocating resources as per the broad objectives of the governments. The composition of the functional categories of expenditure reveal that the government focuses on social services covering the sectors such as education, health, housing, water supply etc. For the year 2024-25(BE), Karnataka has budgeted to spend 4.72 percent of its GSDP on social services, while its spending proposal on economic and general services are 3.78 percent and 3.48 percent respectively (**Table 2.9**)

1. **Economic Services** cover activities or assistance provided to agencies in the fields of production and trade such as Agriculture, Industry, Power, Transport, Communication, Storage etc.
2. **Social Services** cover activities associated with provision of basic social services to consumers such as Education, Health & Social Security services and provision for services needed for community living such as Water Supply & Sanitation.
3. **General Services** covers services such as Police, General Administration etc., which are indispensable to the existence of an organized State and can't be conceptually allocated to particular group of beneficiaries.
4. **Public Debt:** This has two components, viz., Repayment Internal debt of the State Government and repayment of GoI loans & advances.

5. **Loans & Advances:** Loans and advances for different activities viz., loans for (i) Urban development (ii) Water supply and Sanitation (iii) Food Storage & Warehousing (iv) Agricultural Financial institutions etc.
6. **Assistance to Local Bodies:** Assistance is being given to both rural and urban local bodies in the form of untied grants

### 2.5.3.2 Expenditure Highlights: 2024-25

In this section, disaggregated information on developmental and non-developmental expenditures at the sectoral level is discussed and the same is presented in **Table 2.10**.

Between 2023-24(RE) and 2024-25(BE), the overall developmental expenditure appears to have increased from Rs.208687.88 crore to Rs.241725.40 crore (15.83% increase). Since the pandemic, with the increased pressure on the health care services, the overall expenditure on social services within the developmental expenditure has increased from Rs.107275.10 crore in 2023-24(RE) to Rs.134603.55 crore in 2024-25 (BE)

(25.47% increase). Similarly, the expenditure under economic services is expected to increase Rs.101412.78 crore to Rs.107121.85 crore (5.63percent increase) for the same reference period. In terms of shares, within that, the share of Education sector appears to increase from 15.24 percent to 16.93percent for the same reference period.

Similarly, the share of non-developmental expenditure, which is expected to increase by 18.79percent between 2023-24(RE) and 2024-25(BE) could pose significant challenge for fiscal strength in the coming years. And this increase has largely been contributed by increase in interest payments & servicing of debt, admin expenses and pension bills.

**Table 2.10: Trends in Key Expenditure Components**

(Rs. crore)

|          | Category of Expenditure                                            | 2022-23 (A/C) | %*    | 2023-24 (RE) | %*    | 2024-25 (BE) | %*    | Percent Variation (2024-25 over 2023-24) |

### 2.5.3.3 Central Grants

Historically, central grants have been major component of state budgets. The composition of these grants is broadly under three categories. (i) Grants for Centrally Sponsored Schemes (CSS) (ii) Finance Commission Grants for Rural Local Bodies/Urban Local Bodies/State Disaster Response Fund. (iii) Other Transfers/Grants to State Legislatures (including Grants towards National Disaster Response Fund and Compensation for loss of revenue arising out of implementation of GST). With the reduction in central funds of Centrally Sponsored Schemes, there is generally a reduction in the transfer of central grants to the states. For the state of Karnataka, such grants are expected to decline from 16.09 percent of total revenue receipts in 2022-23 to 5.39 percent in 2024-25 (BE). This decline is sharp in 'Other Transfers' (**Table 2.12**).

### 2.5.3.4 Committed Expenditure

Large part of government expenditure is expected to follow an autoregressive process with near trend growth increase every year. This is largely due to increased share of committed expenditures in total expenditure. One important indicator to understand the availability of fiscal space for reviving the growth is to understand the share of committed expenditures in the revenue receipts. This is shown in **Figure 2.7**. As the committed expenditures include salaries, pensions, interest, subsidies, administrative expenditure, devolution to PRIs and ULBs, etc., increase in this share is expected to squeeze resource for development purpose. Committed expenditure constitute over 98 percent of total revenue receipts, for the year 2023-24(RE). Reducing this share is utmost important for achieving the FRA targets as well as reducing the outstanding liabilities of the state.

**Figure 2.7 Committed Expenditure as a % Revenue Receipts**

### 2.5.4 Review of trends in Receipts and Expenditure during April-September 2024

This section analyses the fiscal situation of the state from April to September of the current financial year. The summary of state's financial performance for the first six months of 2024-25 is compared with Budget Estimates of 2024-25 and with the corresponding period in the previous year (2023-24) which is summarized in **Table 2.13**. Further, various components of own tax revenue have been compared and the same is presented in **Table 2.14**.

The total revenue receipt of the state during the first six months of financial year 2024-25 from April to September 2024 is Rs.119747.02 crore. The state achieved 45.50percent of its revenue receipts targets for 2024-25 within first six months which includes the states own tax revenue of Rs.84945.42 crore, State's own non-tax revenue of Rs. 6623.81 crores, the devolution from Government of India of Rs 19869.01crore and grants-in-aid from Government of India of Rs.8308.78 crore. Component wise, the government collected 44.73 percent of own tax revenue during April-September of budget estimates 2024-25. Further, the collection of non-tax revenue reached 49.07 percent of the budget estimates in the first six months of the financial year. There is a growth of total receipts (13.84percent)during April-September 2024 compared to the corresponding period of 2023. The State own tax revenue also rose by 10.48 percent for the same reference period, which shows that the economy is on the recovery path.

State's own tax revenue includes, among others, the four major state taxes viz. commercial taxes, excise, motor vehicle taxes and taxes on stamps and registration. The large proportion of the own tax revenue is coming from commercial tax collections. Out of the total own tax revenue of Rs.84945.42 crore collected during April–September 2024, Rs.49264.36 crore is from the commercial taxes, which is 44.79 percent of the budget estimated and 9.89 percent higher than the achievement made during the corresponding period in 2023-24. State excise collections for first six months of 2024-25 is Rs.17702.46 crore which is 45.95 percent of the budgeted estimate 2024–25, and 6.57 percent over the achievement made during the corresponding period of 2023-24. Taxes from motor vehicles during April-Sep 2024 is Rs.5540.46 crores, which is 42.62 percent of the budgeted estimates for 2024-25 and 5.65 percent higher than the achievement made during the corresponding period of 2023-24. The revenue collected under the stamps and registration is Rs 11920.35 crore in the first six months of 2024-25, which is 45.85 percent of the budget estimates and an improvement of 27.58 percent over the achievement made during the corresponding period in 2023-24.

On the expenditure front, the share of total expenditure spent during first six months of 2024-25 with respect to the budget estimates is 37.33 percent and 19.32 percent higher than the expenditure happened during corresponding period of 2023-24. This suggests the smooth fund flow to the needy sectors of the economy. The revenue expenditure was spent by 39.96 percent of the budget estimates during April- Sep 2024 and it is 18.38 percent higher to the revenue expenditure during the corresponding period of 2023. Similarly, April-Sep 2024 witnessed 23.63 percent of capital expenditure estimated for 2024-25 and it is 28.29 percent higher to the capital expenditure during the corresponding period of 2023.

The total expenditure (including public debt) spent during the first six months is 37.01 percent of the total budget estimates for 2024-25 and it is 20.87 percent higher than the total expenditure made during the corresponding period in 2023-24. This seems to have been largely supported by better revenue mobilization. The total receipts (revenue+capital) during April-Sep 2024 were 45.47 percent of the budget estimates which is an increase of 13.81 percent over the corresponding period in 2023-24. Therefore, the experience of the state in the revenue collection and expenditure happened during the first six months of 2024-25 indicates that the fiscal management of the state is satisfactory during 2024-25.

## 2.6 MAJOR FISCAL INDICATORS COMPARED WITH SOUTHERN STATES

The State's performance in some of the major fiscal indicators, viz., Share in Central tax / Nontax as percent of GSDP/Own Tax revenue as percent of GSDP/Interest Payment in Revenue Receipts is compared. The share in Central Tax is less compared to Andhra Pradesh and Tamil Nadu. Similarly, in Own tax Revenue as percent of GSDP, the State's target is better than all other states, except Telangana (**Table 2.15**).

**Table 2.15: Comparable Fiscal Indicators 2024-25 (BE)**

| State          | Own tax Revenue as percent of GSDP | Interest Payment as percent of Revenue Receipts | Share in Central Tax | Nontax revenue as percent of GSDP |
|----------------|------------------------------------|-------------------------------------------------|----------------------|-----------------------------------|
| Andhra Pradesh | 6.8                                | 14.3                                            | 4.1                  | 0.7                               |
| Karnataka      | 6.9                                | 14.9                                            | 3.6                  | 0.5                               |
| Kerala         | 6.6                                | 20.7                                            | 2.0                  | 1.4                               |
| Tamil Nadu     | 6.2                                | 20.9                                            | 4.1                  | 1.0                               |
| Telangana      | 8.2                                | 8.0                                             | 2.1                  | 2.1                               |

**Resources of the Budget (2022-23 to 2024-25):** For the year 2024-25, while the budget assumes a nominal GSDP growth of 9.41percent (as per Overview 2024-25) over 2023-24(RE), the increase in the size of the budget is about 16.84 percent for the same reference period. The Budget size in the current year is about Rs 3.71 lakh crore. In terms of resources for the budget, a large part of the increase (Rs.31824.50 crore) is in state own resources in 2024-25(BE) when compared to 2023-24(RE). There is slight increase(Rs.2294.70 crore) in central assistance for the same reference period.

In terms of financing the budget, there is a sharp increase in state's own resources between 2023-24(RE) and 2024-25(BE) from 2.19 lakh crore to 2.51 lakh crore. With expected increase in own revenue in 2024-25, the overall borrowings of the state in 2024-25 could be less than the budgeted level of Rs.105246.00 crores (**Table 2.16 & 2.17**)

\*excluding GST compensation as it included under state own resources

**Inter-sectoral Outlays of the Budget (2023-24 and 2024-25):** The expenditure proposals of the state could depend on the needs as well as growth and development priorities. For the year 2024-25, as there is recovery in the economic activities, Karnataka has reprioritized the economic sectors that could help reviving the growth as well as employment opportunities in the state. Some of the crucial departments that the state has focused in this year's Budget on capital expenditure are Irrigation (Water Resources & Minor Irrigation), PWD, Infrastructure, Planning & Statistics etc., (**Table 2.18**). All these expenditures will help in uplift the growth potential of the state as well as support the state's efforts in achieving the development of the State.

In 2024-25 budget, State Govt. continuing the five Guarantees announced last year, namely, 1) Shakti Scheme for Women (Transport Department): Allows women domiciled in Karnataka to travel within State free of cost. An amount of Rs.5015.00 crore is provided. 2) Under Anna Bhagya Scheme (Food & Civil Supplies Department), in addition to 5 KGs of food grains provided by GoI, the State Government is committed to provide an additional 5 KGs of Food Grains totaling to 10 KGs of Food Grains to every beneficiaries every month. An amount of Rs.8079.00 crore is provided. 3) Under GruhaJyothi (Energy Department), every house hold in Karnataka will be exempted to pay electricity bill upto 200 units. An amount of Rs.9657.00 crore is provided. 4) Under Gruha Lakshmi Scheme (Women & Child Development Department), all women who are the heads of their households will be paid Rs.2000 per month. An amount of Rs.28608.40 crore is provided. 5) Under YuvaNidhi scheme (Skill Development Department), Unemployment allowance of Rs.3000 per month will be paid to unemployed graduates and Rs.1500 per month will be paid to unemployed diploma pass outs. These unemployment allowances will be paid maximum two years or till they get job, whichever is early. An amount of Rs.650.00 crore is provided. All these guarantees amounts to Rs.52009.40 crore which is about 14% of the State Budget. An average of Rs. 50000 to Rs.55000 is transferred to every family every year through this guarantees.

## 2.7 SCHEMES (H/Acs) IN 2024-25 BUDGET

State has introduced various schemes to address the needs of the regions, sectors, sections, etc., from time to time. However, as most of the schemes lack sunset clauses, they are expected to continue even after achieving the scheme's objectives, thus putting continuous pressure on the state fiscal space. This could also have potential to limit the state's capacity to address some of the emerging challenges that may need substantial resources. It may be noted from **Table 2.19** that there are about 1806 H/Acs in 2024-25(BE). Within that, about 840 H/Acs have allocations up to 10.00 crore. To improve the public delivery mechanism and to ensure resources for other pressing needs of the state, there is an urgent need to rationalize the schemes and bring down the number of schemes substantially. The same has also been recommended by Expenditure Reforms Commission of the state and also the successive Central Finance Commissions. The State Finance Commission, as and when it is formed, may relook at these schemes. Department-wise classification is given in **Table 2.20**.

**Table 2.19: Budget Classification 2024-25(BE)**

| Range               | No. of H/ACs | % to total | Fund Allocation  | % to total Fund Allocation |
|---------------------|--------------|------------|------------------|----------------------------|
| Upto one Crore      | 278          | 15.39      | 97.04            | 0.03                       |
| Upto to 10 Crore    | 554          | 30.68      | 2612.89          | 0.83                       |
| Upto 100 Core       | 636          | 35.22      | 24595.14         | 7.84                       |
| More than 100 Crore | 338          | 18.72      | 286370.53        | 91.30                      |
| <b>Total*</b>       | <b>1806</b>  |            | <b>313675.61</b> |                            |

\*Excluding debt servicing Rs.66207.83 crore Inter account transfers Rs. –8500.64 crore.

## 2.8 DISTRICT SECTOR OUTLAY 2024-25

Karnataka has been forefront in the country in terms of District Level Planning. As district being a major implementing agency with respect to execution of social sector programs, ensuring adequate resources and tracking those resources becomes utmost important for the state as well as for the nation as a whole. In this section, a summary of the allocations made to ZP schemes, TP schemes and GP schemes under different sectors is discussed. More than half of the total district sector outlay is allocated to TP schemes. In 2024-25(BE), about 58 percent of total district sector outlay is allocated to TP schemes, ZP schemes consists of about 32 percent of the district sector outlay and GP schemes consist of about 10 percent of the total district sector outlay (**Table 2.21**).

**Table 2.21: District Sector Outlay for the year 2024-25(B.E)**

## 2.10 HUMAN DEVELOPMENT RATIOS

Analysis of spending on Human Development sectors will be made in terms of four ratios suggested by UNDP. These are (i) Public Expenditure Ratio (PER) (ii) Social Allocation Ratio (SAR) (iii) Social Priority Ratio (SPR) and (iv) Human Expenditure Ratio (HER). PER refers to total budgetary expenditure as a proportion of GSDP. SAR refers to expenditure under social services (includes Education, Health and Rural Development) as a proportion of total budget expenditure. SPR refers to expenditure under human priority areas (Elementary Education / Health (excluding Medical Education) / Rural Development / Nutrition) as a proportion of social sector expenditure. HER is the product of above three ratios. As per UNDP norms, PER should be around 25 percent; SAR should be around 40 percent; SPR should be around 50 percent and HER should be around 5 percent. Human Development ratios computed for 2022-23 to 2024-25 is given in **Table 2.23**.

**Table 2.23 : Human Development Ratios: 2022-23 to 2024-25**

| Human Development Ratios          | 2022-23 (A/Cs) | 2023-24 (BE) | 2023-24 (RE) | 2024-25 (BE) |
|-----------------------------------|----------------|--------------|--------------|--------------|
| PER                               | 13.39          | 17.38        | 12.38        | 13.22        |
| SAR                               | 37.83          | 44.05        | 37.83        | 39.95        |
| SPR                               | 45.87          | 41.83        | 45.87        | 39.76        |
| HER                               | 2.32           | 3.20         | 2.13         | 2.10         |
| Social Sector Expr as a % of GSDP | 5.06           | 7.66         | 4.68         | 5.28         |

## 2.11 FISCAL CHALLENGES OF THE STATE AND WAY FORWARD

**Similar to all India trends:** Fiscal situation even in the state of Karnataka also has come under pressure. However, with some prudent fiscal management, the state could ensure that the fiscal deficit has not crossed 3.5 per cent of GSDP. However, following the trends in outstanding liabilities (which is expected to increase to 27 percent of GSDP by 2025-26), it appears that the medium-term fiscal risk is for real. And this could put pressure on the quality of expenditures in the coming years. In addition to this, there are other challenges that the state is expected to address in the coming years. They are as follows.

**Ensuring quality of expenditure:** As the State that had experienced surplus on revenue account, has started running revenue deficit of about 1 per cent of GSDP for some time. While this is against the FRA, the state needs to undertake hard decision with regard to rationalising of some of the revenue expenditures. This could have implications on the outstanding liabilities in the medium term. Further, as RBI Monetary Policy Report in April 2019 suggest, the size of states' revenue expenditure multiplier is 0.82 compared to its capital expenditure multiplier of 2, it would be prudent for the state to adopt the expenditure switching mechanism to improve the potential GSDP of the state.

**Improving efficiency of public expenditures:** With the hard budget constraints, one way to address this issue is to ensure maximum outcomes of the public expenditures. For this, the state needs to focus on the enhancing public expenditure efficiency.

**Ensuring flow of resources for SDGs:** SDG needs are going to put pressure on the government finances. It is very optimum time to think about sources of SDG financing, its impact on the fiscal conditions, as well as its impact on the other macroeconomic conditions. In a way, the time is very conducive to work on SDG-consistent macro frameworks that take a little longish perspective up to 2030. Without such exercise, the realization of such homogeneous target could be very limited. The State is also localizing SDGs to create awareness about SDGs at GP/TP/ZP level and achieve SDGs by 2030.

**Rationalization of various schemes:** As discussed earlier, Karnataka currently has about 1806 schemes. While allocating resources could be one issue, management of such a large number of schemes could limit the administration capabilities and reduce the efficiency of those expenditures sharply. The Central Government has taken an exercise to bring down the Centrally Sponsored Schemes substantially. As was done by the Centre, rationalization of these schemes and bringing down to manageable level may be an utmost priority.

**Rationalization of subsidies:** Subsidies in Karnataka are higher than any comparable states and within that non-merit component appear to be larger. Quick rationalization of non-merit subsidies is one clear way for freeing more resources for achieving growth and development objectives.

**Ways to improve revenue sources:** With the decline in the share of state in the central government devolution plan and with GST in place, the pressure on state's own tax revenue has increased manifolds. Further, with the uncertainty regarding extension of GST compensation after June 2022 and with decline in the grants-in-aid, the state is in dire need to look for alternative sources of revenues. One way that the state could do is to improve the tax administration through use of IT services to improve the buoyancy.

**Regional Imbalance:** State has suffered with major setback in resource sharing as per 15th Finance Commission recommendations. The devolution has cutdown from 4.74% to 3.64%. This is because of high income per-capita. Largely, it comes from Bangalore and southern Districts of the State. But the state also have severe regional imbalances. The socio economic indicators or Human development indicators are far less than backward states in the Country. State Government is providing funds to the tune of Rs.5000 crore per year for seven districts of the backward region of the State. GoI should supplement the efforts by providing matching contribution for the development of this region.

**Centrally Sponsored Schemes:** (i) there should be clear indication of allocation to each State under various CSS Schemes in the Union Budget Volumes, so that the States can prepare their budget on a realistic basis (ii) In several CSS Schemes, there is a significant gap between approved annual action plan and actual release. This leads to State Government to bear the unreleased portion of GoI. Hence, the entire funds as approved in the annual action plan should be released by GoI. (iii) Release of funds under CSS Schemes should be changed from reimbursement mode to advance release mode.

## Appendix 2.1

### Trends in Revenue and Capital Receipts in Karnataka

(Rs. Crore)

| Year        | State's Own Tax Revenues | Share in Central Taxes | Total Tax Receipts | Total Non-Tax Receipts | Total Revenue Receipts | Total Capital Receipts | Aggregate Receipts |
|-------------|--------------------------|------------------------|--------------------|------------------------|------------------------|------------------------|--------------------|
| 2010-11     | 38473.13                 | 9506.30                | 47979.43           | 3358.28                | 58206.23               | 12215.64               | 70421.86           |
| 2011-12     | 46476.01                 | 11074.99               | 57551.00           | 4086.86                | 69806.27               | 15317.53               | 85123.80           |

### 3.1 INTRODUCTION

Encouraging private investment has been a top priority for the Karnataka government, resulting in a substantial influx of investments in recent years. The state has implemented a well-defined policy framework and established dedicated institutions to streamline approval processes. Offering a diverse range of fiscal and financial incentives, Karnataka is committed to supporting investors while developing essential infrastructure like technical institutions, laboratories, and research centers. Notably, the state has witnessed significant investments in information technology and biotechnology, contributing substantially to the country's exports. Approximately 40% of the Gross State Domestic Product (GSDP) is attributed to exports, with electronic, computer software, and biotechnology playing a crucial role. To further accelerate economic growth, Karnataka aims to maintain its focus on promoting private investment, fostering a business-friendly environment and enhancing industrial competitiveness.

### 3.2 INVESTMENT IN KARNATAKA

Karnataka stands as a trailblazer in introducing pioneering reform initiatives within India, showcasing a proactive approach to attracting private investment. The state consistently formulates lucrative policies to incentivize both domestic and foreign investments, creating a favourable investment climate. Notably, Karnataka has successfully attracted significant private investments, particularly in Information and Communication Technology (ICT), Electronics Semiconductor design & Manufacturing and Biotechnology (BT) sectors.

The Karnataka Innovation and Technology Society (KITS), operates under the Department of IT, BT, and S&T, with a specific focus on promoting and facilitating investments in the state. The state's rich and diverse resource base has positioned it as a reputable global investment destination. Karnataka took the lead by enacting the Industrial Facilitation Act, streamlining processes for investors.

Karnataka boasts a single-window system, serving as a comprehensive hub for investors seeking opportunities in the state. Specific advantages for investors in Karnataka include a conducive law and order situation, the availability of highly skilled manpower, a position among the top 5 industrially developed states in India, excellent logistical support, and connectivity for investors and access to one of the largest and rapidly expanding markets in the country. These factors collectively contribute to Karnataka's standing as an attractive and investor-friendly destination.

Karnataka's investor-friendly and responsive administration has worked towards easing administrative procedures and implementing policy measures for faster and smoother industrial growth. Some of the significant measures are as follows:

- An investor-friendly responsive administration.
- The State-level single window clearance committee and the State high level clearance committee facilitate clearance of proposals in a speedy manner.
- Sector-specific industrial zones and SEZs that match the natural resources and capabilities of a region with the industry requirements.
- Creation of World-class, ready-to-use infrastructure through investments in power, roads, water, warehouse and logistic facilities, connectivity through rails and ports etc.
- The State Government's packages of incentives and concession for new industrial investments announced from time to time.

- Special focus on skill development to enhance generation of technical manpower.
- Excellent telecommunication network and optical fibre connectivity throughout the State.

### 3.3 SCHEMES AND POLICY SUPPORT

#### Karnataka IT Policy 2020-25

The Government has brought out new IT Policy-2020, where in several incentives are being offered to new IT / ITes and other knowledge-based sectors to set up their facility in Tier 2/3 Cities across Karnataka through incentives on land, stamp duty and taxes.

Total 536 IT/ITES companies are registered till date under this Policy. Power tariff Concession certificate has been given to 288 companies, Stamp Duty Exemption Certificates given to 38 Companies, Other incentives like PF/ESI to two companies of Rs. 14.34 lakhs and Rental reimbursement to 7 companies of Rs 20.37 lakhs have been disbursed till date to the registered IT/ITES Companies located beyond Bengaluru.

#### Karnataka Data Center Policy 2022-27

The Government has brought out a dedicated Data Center Policy-2022-27 with a vision to become a 'Destination of Choice' for futuristic data centers and an integral part of the global data center ecosystem, also to create a robust digital infrastructure in Karnataka in line with overarching mission to lead the world in the 'Digital Industrial Revolution' and use of big data, high computing capacity, etc.

The policy has adopted a three-fold strategy to achieve a low carbon footprint renewable energy source-based powering of data centers: a) promote emerging tech clusters, b) ease of doing business for establishment of data centers and c) provide an enabling environment for data management, security, transaction, and storage services to the emerging technology industries.

The Policy offers support through various incentives and offerings to Data Center industry located within the State. The policy targets to develop more than 200 MW capacity Data Center Industry in Karnataka and attract approximately INR 10,000 Crores investments during the policy period.

#### Achievements under Data Center Policy 2022-27

Six Data Center companies are registered till date under this Policy in Bangalore, namely M/s STT Global Data Centre, M/s CTRL S, M/s.Tele India, M/s. Nxtra Data Ltd and M/S. NTT Global Data Centers & Cloud Infrastructure India Pvt. Ltd (2 units). Power Tariff Concession Certificate has been issued to one Data Centers company i.e. STT Global Data Center. Electricity Exemption Concession certificate has been issued to one Date Center company i.e. M/s.Tele India.

#### Engineering Research and Development Policy 2021-26

Government of Karnataka has brought out an Engineering Research and Development Policy 2021-26 to encourage the Engineering Research & Development (ER&D) industry.

The ER&D landscape across the country as well as in Karnataka has been witnessing an accelerated momentum over the last decade. The aim of this policy is not only to attract a higher number of leading ER&D Multinational Companies (MNCs), Global Capability Canters (GCCs) and Engineering Service Providers (ESPs) to the State but also to provide them with a robust and well-connected ecosystem, including an easy access to a skilled talent base and dedicated focus on research mind-set. With this the policy embraces three key focus areas; viz., integrated value chain, focused sectoral approach and emphasis on talent development, this enables Karnataka to spearhead contribution towards India's ER&D economy and encourage leading MNCs to choose Karnataka as their 'preferred ER&D destination'.

### **Karnataka Cybersecurity Policy 2024-29**

The Karnataka Cybersecurity Policy 2024-29 aims to build a secure and resilient digital ecosystem in the state. It focuses on safeguarding critical infrastructure, promoting cyber security awareness and fostering innovation in security technologies. The policy encourages collaboration between the government, industry, and academia, and provides incentives to cybersecurity start-ups. By strengthening data protection and implementing global best practices, Karnataka seeks to become a leading hub for cybersecurity, ensuring the safety and trust of its digital economy.

### **Karnataka Global Capability Centers (GCC) Policy 2024-2029**

The Government has brought out new GCC Policy 2024-29, to encourage the new Global Capability Centers in Karnataka.

The Bengaluru Tech Summit 2024 set a historic milestone with the launch of India's first Global Capability Centers (GCC) Policy. Crafted to position Karnataka as a global epicenter for GCCs, the policy outlines a bold vision: attracting 500 new GCCs, creating 3.5 lakh jobs, and contributing \$50 billion to Karnataka's economy by 2029.

The policy goes beyond job creation. It emphasizes fostering innovation and partnerships, strengthening the state's infrastructure and making Karnataka an attractive destination for global tech giants. From streamlining regulations to offering incentives for sustainable development, the GCC Policy ensures that businesses thrive while contributing to the local economy. The government's focus on skilling programs for GCC-specific roles also highlights its commitment to empowering the workforce for future-ready opportunities.

With its strategic goals, the GCC Policy reaffirms Karnataka's reputation as a pioneer in technological innovation and global collaborations, cementing its place as a hub for business excellence and talent.

### **Nipuna Karnataka (Skill Locally Work Globally)**

The Government of Karnataka has announced the Nipuna Karnataka initiative to enhance local workforce skills for global competitiveness in emerging technologies like Artificial Intelligence, Blockchain, Cybersecurity and Data Science. This program aims to bridge the gap between academia and industry through upskilling, reskilling, and vocational training. It will be executed in collaboration with KEONICS and KDEM, leveraging Public-Private Partnership (PPP) models with up to 40% government participation. The initiative focuses on global employability and local skilling with a global vision, targeting Karnataka's youth to secure positions in MNCs and GCCs globally and locally.

The total estimated budget for Nipuna Karnataka is Rs.100 crores, including Rs.95.75 crores from the state government and potential contributions from the industry and the Central Government. For FY 2024-25, a pilot program has been approved with a budget of Rs.20.58crores. Funding will be sourced through state allocations, CSR funds, and industry contributions. This initiative is expected to modernize training infrastructure and foster economic growth by creating a future-ready workforce aligned with Industry 4.0 requirements.

### **Centers of Excellence (COEs)**

The Government of Karnataka has established 14 Centers of Excellence (CoEs) that are pivotal in advancing emerging technologies. These CoEs are strategically affiliated with prestigious academic institutions and industry associations, positioning them at the forefront of cutting-edge research and innovation. They play a crucial role in driving technological advancement and supporting the state's startup ecosystem.

These CoEs are dedicated to incubating and mentoring startups, providing them with essential funding and resources. Beyond their support for startups, these centers engage in deep collaborative research with industry partners, enhancing their ability to deliver innovative solutions. By fostering a synergy between academia, industry, and startups, the CoEs contribute significantly to Karnataka's growth as a hub for technological excellence and entrepreneurial activity.

### **Some of the Centers of Excellence (CoEs) and focus area are as below**

#### **CySeck - Cyber security**

Centre of Excellence in Cyber Security has the potential to be a transformative force in addressing cybersecurity challenges, fostering innovation, and developing a skilled workforce. By focusing on research, skill development, policy advocacy, and collaboration, the CoE will play a pivotal role in strengthening the cybersecurity landscape locally, nationally, and globally. A structured, phased approach will ensure that the Center achieves long-term success and sustainability while driving meaningful impact.

#### **ARTPARK - Robotics, Autonomous system, Artificial Intelligence**

- Expand fellowship programs to include a broader spectrum of participants across India.
- Scale up testing infrastructure to support larger projects and diverse industries.
- Prioritize commercialization and deployment of mission-mode projects in healthcare, climate, and autonomous systems.
- Strengthen global partnerships to advance equitable and impactful AI solutions

#### **Efficiency Augmentation - Smart Water, Home and Office Automation, Smart Manufacturing, Smart Energy**

The COE in Efficiency Augmentation using emerging technologies represents a strategic investment in the future of organizational productivity and innovation. By embracing AI, ML, IoT, Cyber Security, block chain etc and other advanced tools, organizations can streamline operations, enhance decision-making, and foster a culture of continuous improvement. The way forward involves a phased approach that prioritizes assessment, technology adoption, capacity building, and performance measurement, ensuring that the COE becomes a catalyst for sustainable and transformative growth.

#### **Machine Intelligence and Robotics - Mentorship for Startups, Research projects, PhD Programs, Skill development**

A Centre of Excellence in Machine Learning and Robotics will position organizations at the forefront of technological advancement and innovation. By integrating intelligent automation and adaptive learning systems, organizations can achieve exponential growth, drive operational excellence, and future-proof their operations. The strategic combination of ML and Robotics will pave the way for smarter, faster and more efficient systems, unlocking significant value across industries.

#### **Centre for of Internet Ethical Things (CIET) - Ethical Policy, Framework for ethical software, Security for ethical IoT, Privacy for ethical IoT Test beds**

- The COE's key projects and innovations highlight its role as a leader in ethical IoT solutions, cutting-edge hardware design, and healthcare technology. Moving forward, the COE will focus on:
- Strengthening collaborations with governments, industries, and research bodies.

- Scaling innovations to achieve commercial viability and real-world impact.
- Positioning itself as a global hub for sustainable, inclusive, and accessible technology advancements.
- Through strategic partnerships, continuous innovation, and a focus on societal impact, the COE will pave the way for transformative solutions across technology and healthcare domains.

**Wired and Wireless Technology - R&D in 5G and Wired Broadband Technologies, Encourage Standardization, Support Telecom Start ups**

- Scale pilot projects and R&D efforts.
- Expand training programs to include advanced telecom technologies.
- Strengthen partnerships with global tech leaders and academia.

**Design - Design Awareness and Capabilities, Training Trainers, Awareness and Training in Design and Prototyping, Industry 4.0 Technologies :**

- Expand training cohorts and outreach initiatives.
- Enhance collaborations between industry and academia.
- Scale impactful design solutions across diverse sectors.

**Quantum Research Park, IISc - Quantum Communication, Quantum Materials, Quantum Imaging and Quantum Computing:**

- Expand quantum research and development initiatives.
- Conduct advanced training programs and internships.
- Focus on scaling commercialization efforts for quantum techno

**3.3.1 Karnataka Start-up Policy 2022-27**

- Foster innovation and entrepreneurship through financial and non-financial support mechanisms.
- Promote technology-based startups in sectors like IT, biotechnology, healthcare, clean energy and agriculture.
- Create 25,000 direct startup-related jobs and expand the state's innovation network.
- Facilitate connections between academia, industry, and startups to strengthen the innovation pipeline.

**3.3.2 Budget Para 2024 -25 under Startup Policy**

**3.3.2.1 WEscalate Program**

- Ensure the continuity of incubation program and handhold startups to be investment ready, a dual program with Incubation and acceleration is proposed.
- Upon successful completion of Incubation program, the Incubator/Accelerator will be eligible for funding under acceleration program.
- In the acceleration phase preference has to be given to incubates who have graduated in incubation program. To be eligible for acceleration grant, a minimum of 30% incubates from incubation program should be able to transition into acceleration phase.

- The departments intend to implement 2 sector specific cohorts (support 30 Women led startups) every year with the support from Incubators/Accelerators.
- Incubators and Accelerators will be mapped and selected basis on their capability to execute region specific Incubation/Acceleration programs. The focus sectors are Biotech, AgriTech, MedTech/Healthtech, Cleantech.

### 3.3.2.2 Center of Excellence for Fin-Tech

#### ➤ **Startup Ecosystem Development**

- ❖ Support 20 startups annually with incubation services, including access to infrastructure, mentorship and market connections.
- ❖ Facilitate collaboration with regulatory authorities, private entities, and financial institutions to provide startups with practical tools and resources.

#### ➤ **Skilling and Talent Development**

- ❖ Certify 1,000 students and professionals annually through the structured FinTech Foundation and Advanced Certificate programs.
- ❖ Contribute to the enhancement of financial literacy and inclusion in Karnataka by equipping professionals with cutting-edge FinTech knowledge.

#### ➤ **Economic and Social Impact**

- ❖ Generate employment and entrepreneurial opportunities in the FinTech sector.
- ❖ Enable startups to achieve growth, revenue generation and market expansion, contributing to the state's GDP.

#### ➤ **Innovation Enablement**

- ❖ Create an environment conducive to testing, refining, and scaling FinTech solutions through regulatory sandbox frameworks.
- ❖ Drive the development of innovative products and services addressing gaps in financial access, technology adoption, and user experience.

- Onboard the inaugural cohort of 20 startups into the incubation program, providing them with high-touch and low-touch mentorship over 12 months.

- Convene the Governing and Executive Councils regularly to review outcomes and recommend adjustments.

#### ➤ **Expansion of the activities, including:**

- ❖ FinTech Data Exchange
- ❖ Fin-Tech Research and Innovation
- ❖ Technical assistance, labs, and testing zones
- ❖ Hardware or Capex Support and Infrastructure
- ❖ Hackathons and Awareness programs

### 3.3.2.3 Rajiv Gandhi Entrepreneurship Program

“Rajiv Gandhi Entrepreneurship Program - An early-stage funding program that nurtures ideas and innovations to promote innovative endeavors, startups initiated by students or entrepreneurs.”

- **Awareness and outreach:** Increase awareness about RGEP through targeted outreach campaigns in educational institutions and startup communities to attract a diverse pool of innovative ideas and encourage entrepreneurship as a viable career option.
- **Ecosystem integration and scaling:** Facilitate collaborations between RGEP-supported innovators and the larger entrepreneurial ecosystem, including industry stakeholders, investors and academia.
- **Annual review and feedback loop:** Conduct an annual evaluation of the program to measure its impact, identify areas for improvement and incorporate feedback from stakeholders, ensuring that the program evolves to remain relevant and effective.

## 3.4 START-UP POLICY SCHEMES

### 3.4.1 Elevate

The Department's flagship Grant-in-Aid scheme ELEVATE is a testament to the Government of Karnataka's commitment to nurturing the startup ecosystem within the state and driving innovation across sectors. A one-time grant of up to INR 50 Lakhs is given to encourage startups who may need early-stage funding to develop a prototype, market development, and scale-up. The aim of the initiative is to provide a comprehensive entrepreneurship platform for startups along with giving access to mentors, networking opportunities, funds, idea validation and incubation facilities among others. The Department has set a benchmark of selection of innovative startups under ELEVATE within a period of 100 days from the date of announcement of applications to the final selection.

#### Achievements

| Details                | 2020 | 2021 | 2022 | 2023 | 2024                       |

| Funding (INR, Lakhs)   | 275  | 4729 | 3350 | 2664 | 2500<br>(available Budget) |

### 3.4.2 NAIN 2.0

The New Age Innovation Network 2.0 (NAIN 2.0) scheme, implemented by the Government of Karnataka (GoK) starting 2024-25, aims to foster innovation and entrepreneurial thinking in educational institutions located outside Bengaluru Urban district. This initiative encourages students to identify local problems and address them through frugal innovation, developing appropriate technology-based solutions and working prototypes.

Under this scheme, 50 NAIN 2.0 centers will be established over the Policy period in technology institutions of higher learning, with a focus on government engineering colleges. These centers will be distributed across disciplines, with 35 centers dedicated to IT/Electronics and 15 centers focusing on Biotechnology. The total program cost covers student project expenses, maintenance of labs or incubation spaces and other operational costs.

To ensure successful implementation, the program emphasizes collaboration with ecosystem partners. Each NAIN center will be mapped to a regional Project Monitoring Unit (PMU) or an 'Anchor Institute,' which will provide guidance, mentorship, industry connections, and support for converting student ideas into technology-based solutions. This structured support system aims to create a sustainable innovation

ecosystem in Karnataka's educational institutions, enabling students to address real-world challenges with impactful solutions.

To ensure the success and sustainability of the NAIN 2.0 scheme, focused efforts will be directed toward strengthening the foundational infrastructure and support systems of participating institutions.

- Equipping faculty and mentors with the necessary skills to guide student innovations will remain a priority, supported by regular training programs and access to a network of experts. This will ensure students receive quality mentorship to refine their ideas into impactful solutions.
- A seamless integration with the broader innovation ecosystem will be fostered, emphasizing collaboration with industry leaders and ecosystem partners. Networking opportunities and shared resources will create a bridge between academia and industry, enabling meaningful engagement and co-creation of solutions.
- Innovations emerging from the program will be nurtured through structured guidance, access to funding, and commercialization support. By focusing on milestone-driven progress, student projects will be positioned to scale into impactful and sustainable ventures.
- Efforts will be made to promote balanced participation across regions, ensuring all institutions are supported equitably. Flexibility in program implementation will cater to the unique strengths and challenges of different areas, fostering inclusivity and maximizing impact.
- Maintaining enthusiasm and consistent participation among stakeholders will be achieved through recognition initiatives, showcasing success stories, and encouraging active involvement in the program's activities. Feedback mechanisms will ensure continuous improvement and alignment with participant needs.

### 3.5 GRASSROOT INNOVATION

The Grassroot Innovation Programme is an initiative by the Department of Electronics, IT, BT, and Science & Technology, Government of Karnataka. It aims to identify, promote, and support grassroots-level innovations. The focus is on enhancing these innovations for broader applications and reducing the hardships faced by rural households. Assistance is offered to grassroots innovators such as farmers, artisans, labourers, technicians, and others to refine their technologies and bring their solutions to the market.

A total of 17 grassroot innovators were provided INR 68 Lakhs (INR 4 lakhs per innovator) to commercialize their innovation. Out of the 17 innovators there are 3 women innovators and 10 innovators from beyond Bengaluru districts.

### 3.6 PREFERENTIAL MARKET ACCESS (PMA)

The Preferential Market Access (PMA) initiative is a cornerstone of Karnataka's strategy to empower startups by integrating them into the State's public procurement process. This initiative allows startups to compete for government tenders based on the value they provide, rather than just cost, enabling them to showcase innovative solutions tailored to the needs of the Public Sector. By offering market validation and growth opportunities through public tenders, PMA not only supports the scalability of startups but also ensures that the government benefits from cutting-edge technologies that enhance public services. Additionally, the initiative promotes inclusivity by lowering barriers for diverse and underrepresented startups, aligning their innovative capabilities with the state's strategic priorities, and driving both economic and technological advancements.

9 startups have been empanelled by the Department of E, IT & BT in FY 2024-25.

### 3.7 PROPEL PLATFORM

The Propel initiative is a flagship program designed to accelerate the growth of startups in Karnataka by providing a comprehensive platform that addresses key aspects of their entrepreneurial journey. It facilitates Product Showcases, enabling startups to present their innovative solutions directly to potential customers and industry leaders. By addressing Industry Challenges, Propel encourages startups to develop creative solutions to real-world problems posed by corporate and Government entities. The initiative also incorporates Reverse Pitching, where corporate and government departments outline their specific needs, fostering targeted innovation and collaboration. Additionally, Propel enhances Government Market Access, offering startups unparalleled opportunities to scale their solutions through partnerships and procurements within the public sector.

### 3.8 KARNATAKA ACCELERATION NETWORK (KAN)

The Karnataka Acceleration Network (KAN) is an accelerator program for growth-stage startups. The program entails mentor and mentee accelerators running joint cohorts, through shared network, resources, and pedagogy, of startups from Bengaluru and Beyond Bengaluru.

A total of 302 startups are likely to be benefitted from the program over 06 cohorts in 03 years.

### 3.9 LETSVENTURE PROGRAM

The Dept of E, IT & BT has signed a MoU with LetsVenture, aiming to support startups across the State. This partnership underscores a shared commitment to fostering innovation and entrepreneurship Beyond Bengaluru. LetsVenture will leverage its expertise to provide mentorship, market access, and fundraising support to emerging startups.

### 3.10 THE CENTRE OF EXCELLENCE (CoE)

#### 3.10.1 K-tech Centre of Excellence on Internet of Things (IoT) powered by NASSCOM

The K-Tech Center of Excellence for IoT India, at Bangalore, is a Digital India Initiative to jump start the IoT ecosystem in India taking advantage of India's IT strengths and help country attain a leadership role in the convergent area of hardware and software.

- No. of Start-ups Incubated (inc. graduated) : 202
- No. of Employment Generated by startups : 2819
- No. of IPs created : 28
- Fund raised by startups Rs. Cr : 1135
- Appr Revenue by startups Rs. Cr : 234
- Valuation in \$Mn as declared : 167

#### 3.10.2 K-Tech Innovation Hub powered by Nasscom Startups

The Government of Karnataka in line with its i4 policy has set up a K-Tech Innovation Hub by NASSCOM, which is located in K-Wings, HSR Layout, Bengaluru.

- No of Startups Incubated : 3000+ (virtual and warehouse) – cumulative data as on date
- Investor Connect : 396

### 3.11 KARNATAKA ESDM AND SPACETECH

#### 3.11.1 Budget para of 2024-25

In the budget announcement of Government of Karnataka (GoK), Department of Electronics, IT, BT and S&T (GoK) for FY 2024-25 proposed in para 335

**“Karnataka has been a pioneering state in the field of technology. To further expand the State’s footprint in this sector, a Centre of Excellence (COE) in Fintech, Spacetech and Automotive Tech at a cost of Rs.10 crore will be set up over a period of 5 years in collaboration with entrepreneurs and educational institutions”**

#### 3.11.2 CoE- Automotive

Centre of Excellence (CoE) in Automotive Tech is proposed in order to help the Deep Tech Electronics, specifically in the EV and ADAS domain by cultivating early-stage innovation, enabling right product identification, identify early-stage market access constraints and business validation processes and creating world class prototyping, testing and certification facility in Karnataka and providing opportunities to create commercially viable and sustainable solutions along with developing a best in class workforce.

#### 3.11.3 CoE- Space Tech

The Department proposes establishing a Centre of Excellence in Space Technology to position Karnataka as a leading destination for space-related investments by transforming the development and manufacturing of space technology related products and solutions. A Centre of Excellence would serve as a specialized organizational unit with superior expertise, knowledge, and capabilities.

### 3.12 IMPORTANT SCHEMES AND POLICIES OF THIS YEAR. HIGHLIGHT THE GROWTH / INCREASE IN BENEFICIARIES YEAR ON YEAR.

#### 3.12.1 Karnataka ESDM policy

The Government of Karnataka, through KITS, has announced the new ESDM Policy 2017-22 on 1st December 2017, offering ecosystem support and various incentives/concessions to ESDM companies of the State. ESDM 2017-22 is aimed at by achieving the following goals

- Stimulate the growth of 2000 ESDM start-ups
- Enhance value addition done in Karnataka by 50%.
- Create 20 lakh new jobs in the ESDM industry by 2025
- Effect a quantum jump in the overall revenues of Karnataka’s ESDM companies to USD 40 billion by 2025.
- Significantly grow the ESDM exports from the state to USD 16 billion by 2025.

A total of INR 18.98 crore has been reimbursed to various ESDM companies in Karnataka to date. In the FY 2023-24 the amount disbursed was INR 1.18 crores and in the FY 2024-25 the amount disbursed was INR 1.76 crores.

#### 3.12.2 Special Incentive scheme under ESDM 2020-25

The Government has approved the Special Incentive Scheme under ESDM for providing special incentives for ESDM sector. The incentives include capital investment subsidy, reimbursement of Stamp Duty and registration fee, Power Tariff Concession, Production Linked Incentive and Electricity Duty. Under this scheme

the Government has provided incentive to the tune of Rs 10 crores to M/s Applied Materials in the FY 2022-23 and INR 16.57 crores for M/s Tata Power Solar Systems Ltd in the FY 2023-24.

In the FY 2024-25 the following amount is reimbursed to M/s Tata Power Solar Systems Ltd:

- INR 2,37,48,868.00 as Production Linked Incentive.
- INR 1,33,63,080.00 as Power Tariff Concession.

### 3.13 SUCCESS STORIES AND ACHIEVEMENTS

Karnataka has announced a Special Incentive Scheme for ESDM aimed at attracting investments and increasing competitiveness in the Electronic System Design and Manufacturing (ESDM) sector, the Government of Karnataka provides 25 percent capital investment subsidy on land (excluding Bangalore City and Bangalore Rural) under the Capital Investment Subsidy exclusively for the ESDM sector and 20% incentive on plant and machinery, reimbursement of stamp duty and registration fees, reimbursement on land conversion fee, reimbursement on power tariff, exemption from electricity duty and Production Linked incentive (for new investments and expansions). The Government has sanctioned a capital subsidy amount of Rs.16.57 crore to M/s Tata Power Solar Systems Ltd. Rs.1.34 crore as power tariff reimbursement and Rs.2.37 crore as Production linked incentive, it has sanctioned Rs.10 crore for stamp duty and registration charges to M/s Applied Materials.

Rs.18.98 crore incentives have been given to ESDM companies under Karnataka's ESDM policy so far.

Semiconductor Fabless Acceleration Lab is recognized as the premier fabless semiconductor acceleration lab in the country with significant ecosystem partnerships and global alliances (50+ industry mentors, alliance partners). 90+ beneficiary companies (direct + indirect) and 45 companies have been selected under this scheme. Fabless has a significant impact on the semiconductor ecosystem with 6+ IPR filings and products. M/s CALLIGO TECHNOLOGIES, Incubator at SFAL Taped out world's first POSIT numbering system-based silicon. SFALs M/s Morphing Machines Company has raised an investment of 2.6 million dollars.

Memorandum of Understanding (MoU) signed between the Defence Research and Development organization (DRDO) and the Department of Information Technology (DIT), Government of Karnataka to foster the growth of Karnataka's innovation ecosystem through cooperation and knowledge sharing. The primary objective of this MoU is to establish a collaborative framework where DRDO acts as a knowledge partner to support the growth of Karnataka's innovation ecosystem. By leveraging DRDO's knowledge and resources, the collaboration aims to provide substantial support to start-ups, MSMEs, and other industries, fostering a conducive environment for innovation and growth in the state.

### Biotechnology

Karnataka has consistently led advancements in biotechnology through a series of policies, starting with the Millennium Biotech Policy in 2001, followed by the revised Millennium Biotechnology Policy – II, Karnataka Biotechnology Policy 2017-2022, and the Karnataka Biotechnology Policy 2024-2029. These initiatives reflect the state's ongoing commitment to developing a thriving biotech ecosystem. The recently launched Biotech Policy outlines a roadmap for sustainable growth, innovation, and regulation in the sector.

### Karnataka Biotechnology Policy 2024-2029

The Karnataka Biotechnology Policy 2024-2029 sets a forward-looking vision to position Karnataka as a global leader in biotechnology, focusing on sustainable and inclusive growth. Building upon its existing ecosystem, the policy aims to leverage the state's rich talent pool, advanced infrastructure, and favorable government support to accelerate growth in key biotech areas.

## **Institutional Infrastructure and Promotion of Entrepreneurship**

The Bengaluru Helix Biotech Park was conceptualized with the following components: Institutional Area to carry out cutting edge R&D, Innovation Area for start-ups to create disruptive products and innovations in the sector and Industrial Area for enterprises/MNCs to facilitate biotechnology industry. The first two components have successfully developed with an investment of over INR 180+crores for the last 14 years to build, develop and support institutional and innovation areas in the Bengaluru Helix Biotech Park.

The institutional area of 20 acres houses Institute of Bioinformatics and Applied Biotechnology and Centre for Human Genetics. The innovation area of about 10 acres has a state-of-the-art Incubation Facility at Bangalore Bioinnovation Centre setting up of incubation and common instrumentation facilities across Karnataka to accelerate innovation and supporting the infrastructure facility for the institutes.

### **Bangalore Bioinnovation Centre (BBC), Bengaluru**

K-tech Innovation Hub - Bangalore Bioinnovation Centre is an initiative of Karnataka Innovation Technology Society (KITS), Department of Electronics, IT, BT and S&T, Government of Karnataka with funding support from Department of Biotechnology (DBT), Government of India. It is located within Bengaluru Helix Biotech Park at Electronic City in a 10 Acre campus with a total built up area of above 75,000 sqft. It provides incubation, mentoring support, funding opportunities, branding support and networking support besides laboratories and equipment. BBC caters to the broad areas of Life Sciences i.e., Healthcare, MedTech, Pharma/Bio-Pharma, Agriculture, Agritech, Food/Nutrition, Industrial Biotechnology, Environmental Biotechnology, Blue Economy, Bio-IT, BioSAAS, Bioelectronics etc. Within a short span of time BBC has emerged as the largest Life Sciences start up hub in the country. Currently, BBC supports over 316 startups, having 72 startups inhouse in its campus with 61 startups already been graduated. Around 50 products developed under the nurturing support of BBC have been launched and around 71 patents have been filed. The start-ups at BBC have attracted Rs. 500 Cr+ worth of investments and the combined valuation of start-ups has reached Rs. 1500 Cr. The MoU between the BBC and La Trobe University (LTU) establishes the Karnataka-Victoria Corridor to foster innovation and research collaboration between India and Australia. BBC, supported by the Startup India Seed Fund and BIRAC Seed Fund, is launching a call for applications for startups in various sectors. Along with funding, BBC offers Bootcamps, skill development program, entrepreneurship program, training programs, internships, mentorship, and networking opportunities, along with the chance for co-investment from over 60 external investors to help startups scale and grow. The Bangalore Bioinnovation Center was honored with several prestigious awards, including the Pride of the Nation Award for Best Startup Ecosystem Advisor at the Pride of the Nation Award 2024 by Asia Today, the National HR Excellence Award at the National HR Excellence Summit 2024, and the Key Ecosystem Enabler Award at the Bengaluru Tech Summit 2024.

### **Institute for Bioinformatics and Applied Biotechnology (IBAB), Bengaluru**

IBAB is a non-profit autonomous institute set up by the Department of Electronics, IT, BT and S&T, Government of Karnataka. IBAB is established to undertake research and development in advanced areas of Biotechnology including Bioinformatics, Cancer Biology, Synthetic Biology, Structural Biology, etc., also to produce skilled manpower in these areas for the benefit of growing Biotechnology industry in the state.

IBAB while continuing to offer PG Diploma, M.Sc and Doctoral programs in the areas of Bioinformatics and applied Biotechnology. An amount of Rs. 600 lakhs annual grant was sanctioned and released for FY 2024-25 towards maintenance and academic activities. As part of capacity building of resources in emerging areas of biotechnology, two separate projects Synthetic Biology and Bio-IT Centre are being implemented by IBAB with the support of the State Government. IBAB has received funding from various agencies like DBT, ICMR, DST, SERB etc for the R&D Projects worth of Rs.18 Crores.

### **Synthetic Biology Group at IBAB**

Government had approved the establishment of Synthetic Biology Group with a total budget of Rs. 9.85 Crores for a period of 5 years. The main objectives of the project are a) creation of tools and technologies for translational research b) performing translational research to develop products and technology with applications in areas of high socio-economic impact suitable for licensing and c) creation of a pool of skilled and trained manpower in synthetic biology through workshops.

Dedicated functional laboratory facilities for genome engineering, yeast genetics and cell culture (BSL2) fully equipped with specialized instruments have been established. A bioanalytical instrumentation facility for downstream processing activities is being established. Multiple translational research projects with socio-economic impact are ongoing. Established multiple collaborative industry-academia research programs including Merck Germany-Syngene Intl. Ltd, Biocon Ltd., Biocon Biologics, FFBioworks, TojoVikas Ltd, IISc. Planning to initiate a Post-Graduate Diploma course in Synthetic Biology & Bioengineering (PGDSBB) with a goal to convert into a Master's program in the future.

### **Bio-IT Centre**

Bio-IT Centre established at IBAB for undertaking training and collaborative research in the area of Genomics by utilizing the Next Generation Sequencing facilities at the Centre at total project cost of Rs. 1433.52 Lakhs with Government of Karnataka supporting Rs. 946.02 Lakhs over a 5 year period.

The Centre has procured 10X genomics (single cell sequencing) and tape station equipment from DST-Infrastructure grant (FIST) and Bio-IT grant. Collaborations have been established related to genomics and transcriptomics with AIIMS-Delhi, JIPMER-Puducherry, and the University of Kashmir Etc. The center offered services to scientists from academic institutions across the country, such as IISc, InStem, JIPMER, and companies such as Nkure Therapeutics. The Bio-IT Centre at IBAB has conducted 7 workshops on single-cell library preparation, RNA-seq, whole exome sequencing, and genome sequencing, with over 135 participants from various academic and professional backgrounds. These workshops resulted in 14 research articles in peer-reviewed journals. The Centre has sequenced approximately 500 samples, generating 25 TB of data, including samples from normal individuals, various cancers, and rare diseases like Huntington's, retinitis pigmentosa, and congenital heart defects.

### **Centre for Human Genetics (CHG), Bengaluru**

CHG is a non-profit autonomous center engaged in advanced research, teaching and training in areas which lie at the interface of modern genetics and medicine. CHG is a pioneer in research, diagnosis, and management of rare genetic disorders. CHG along with IGICH was named as one of the first 8 Centers of Excellence in the country for rare diseases.

Besides research and teaching, the Centre provides clinical comprehensive services with evaluation of patients with rare diseases, diagnosis, counselling and treatment with enzyme replacement and medical diets where available.

CHG is affiliated to Bangalore University for awarding the M.Sc (Human Disease Genetics) and Manipal Academy of Higher Education for awarding Ph.D. degree (Human Genetics). The Paediatric Genetics Fellowship programme is conducted under the aegis of RGUHS jointly by faculty from CHG and IGICH. An amount of Rs. 600 lakhs annual grant was sanctioned and released for FY 2024-25 towards maintenance and academic activities. CHG has received funding from various agencies like BLDE, MSRC, Lady Tata Memorial, Centre of Excellence for Rare Diseases, ICMR, Sanofi – Healthcare India support etc for the R&D Projects worth of Rs. 12 Crores approximately.

### **Bengaluru Lifesciences Park (Industry Zone), Bengaluru**

Bengaluru Lifesciences Park is being developed in 52 acres 27 guntas of land in PPP mode is an integrated Industry zone with total built-up area of about 60 lakhs sq. ft when fully developed to have best-in-class laboratory infrastructure to support a host of R&D activities to have 60% of the area reserved for biotech/life sciences companies. It is estimated that the industry zone with 150+ biotech/life sciences companies and over 50000+ employees will be the growth engine of the biotech sector in the State.

The Park will have a dedicated incubation space with shared instrumentation lab facilities and customizable fully fitted lab and office suites. It will also house laboratory building for mid-sized companies with modular lab suite options and shared conference rooms, training rooms and cafeteria. This Park will provide the much-needed space for the biotechnology companies to expand and grow in the State.

### **Karnataka Startup Advancement Program (K-SAP)**

K-SAP is an integrated, comprehensive program initiated by the Centre for Cellular and Molecular Platforms (C-CAMP), Bengaluru and is supported by the Department of Electronics, IT, BT and S&T, Government of Karnataka at a total cost of Rs. 652.39 lakhs targeting 85 startups during the five years of project period. The objective of K-SAP is to provide necessary impetus to life sciences startups early on in their entrepreneurial journey by identifying gaps and providing the required mentorship, knowledge, and network in a structured format to increase the chances of success of biotech startups. This program is aimed at increasing the chances of success of startups by providing one-to-one mentoring sessions, performance assessment sessions, workshops, training programmes, seminars and networking events. So far, 60+ startups are benefited from the program.

The launch of the first cohort of 17 startups under K-SAP Phase II was announced in BTS-2024. The selected startups will be supported by K-SAP's mentorship and resources, by accelerating their journey, driving growth, creating impact, and enriching Karnataka's startup ecosystem. 17 innovative startups of Cohort-1, K-SAP tackling real-world challenges in skin health, drug discovery, dental care, mosquito control, bioplastics, waste management and more

### **K-tech Centre for Excellence (COE) by C-CAMP, Bengaluru**

A Centre of Excellence for Agri Innovation has been established at Centre for Cellular & Molecular Platforms (C-CAMP) to promote deep-science/technology driven entrepreneurship in the agri sector, leading to innovation, economic development and job creation in the agricultural domain. Mandate of the Centre is to identify gaps in agriculture through an immersion program in different regions in the country, bring innovators together to develop solutions for these issues through a Grand Challenges Program and support and nurture the innovators through incubation, funding and mentorship to bring their solutions to the market. The project has a total budget of Rs. 15.00 Crores for a period of 7 years with Department of Electronics, IT, BT and S&T and Agriculture Department sharing in 25:75 ratios. An amount of Rs. 10.27 Crores has been released. COE-C-CAMP has entered into an MOU with Israel, Basel (Switzerland) and Netherlands to support Bio-agri startups for mentoring and product development. Over 50 agri start-ups have received support, resulting in the commercialization of more than 15+ products.

In support to promote Agri-Startups in the State, the Government of Karnataka has allocated five acres of land for the establishment of the C-Camp Agri Innovation Park. This provision was announced in Budget Para 334 for the year 2024-2025. This expansion will offer vital grow-out space to the start-ups for expansion and scaling-up operations.

### **Venom institute for Snakebite Health and Advance Medicine (VISHAM), Bengaluru**

Venom institute for Snakebite Health and Advance Medicine (VISHAM), formerly known as Anti-Venom Research and Development Centre (AVRDC) a first-of-its-kind national center for snakebite research in India is a collaborative initiative between Karnataka Innovation and Technology Society(KITS), GoK, Institute of Bioinformatics and Advanced Biotechnology (IBAB) and Evolutionary Venomics Lab, Centre for Ecological Sciences, Indian Institute of Science(IISc) at IBAB campus, with a built-up area of about 16,000 sq ft. VISHAM is dedicated to the scientific investigation of animal venoms, including those of snakes, spiders and scorpions. The center will not only spearhead research on snakebites in the state and the country but will also house a diversity of snake species from distinct biogeographic zones of India. For the first time, this serpentarium will provide access to the venoms of distinct regional snake populations, crucial for the formulation and testing of regional antivenoms. This center will play a major role in developing advanced snakebite interventions and biodiscovery research from venoms. Additionally, VISHAM will offer essential services for the manufacture of life-saving antivenoms, including venom quality assessment for the Irula Snake Catchers' Industrial Cooperative Society and evaluations of commercial antivenoms for leading Indian antivenom manufacturers. The serpentarium will also serve as an educational hub, hosting outreach programmes aimed at promoting awareness of venomous organisms and the importance of a sustainable ecosystem. Furthermore, VISHAM will assist Forest Departments with wildlife forensics analyses of venoms, and will be instrumental in snakebite education and community outreach.

### **Institute of Advanced Genome Editing and Gene Therapy, Bengaluru**

The Government of Karnataka is establishing the Institute of Advanced Genome Editing and Gene Therapy at the CHG campus in Bengaluru to promote genomic research and become a hub for advancements in human health and life sciences. The institute will focus on genome editing, gene therapy, and their applications in health, agriculture, and life sciences. It aims to train future scientists and foster collaboration among researchers, clinicians, and industry experts. The Institute of Advanced Genome Editing and Gene Therapy will feature advanced facilities for CRISPR-Cas9, gene delivery systems, bioinformatics, animal research, and clinical trials, including research collaboration, interdisciplinary partnerships, training programs, expert meetings and public outreach activities.

### **Agri/Farm Innovation Centre at Bangalore Bioinnovation Centre, Bengaluru**

The prime objective of the center is to offer budding agri start-ups sufficient knowledge, experience, infrastructure and networking support to become successful agri enterprise and further facilitate in the creation and expansion of business among entrepreneurs and technology developers. The center supports prototype facility for product development, pilot-testing, validation and upscaling of product or technology for agri biotechnology, plant tissue culture, pesticide analysis, food processing etc. all of which can be better utilized by agripreneurs for their concept development and further promote overall modernization of primary production, industrialization, marketing and development of rural areas. The center is envisaged as a platform to nurture innovation and entrepreneurship in the field of agri and allied sector

- To provide infrastructural, mentorship, branding, technical, funding, IPR, and networking support to agriculture and allied sector start-ups.
- To increase the competitiveness of the agri-startups in regional, national and global scale.
- To create employment opportunities for the youth in the field of agriculture.
- To bring about transformational changes in the field of agriculture by boosting food production, farmer's income, maintain supply chain management, create more subsidiary agri-enterprises, and help the rural population by adding value to their agricultural resources.

### BioBank, Bengaluru

A Biobank is being established at the Bangalore Bioinnovation Centre, located in Bengaluru Helix Biotech Park, with a total investment of Rs. 5.00 Crores over the first three years of operation. It is a repository of human biological samples required for undertaking R&D for development of new technologies or therapy.

### Centre of Excellence in Healthtech and Medtech (CoE in HT MT)

Centre aims to identify barriers and bridge gaps within the Health and Medical Technology ecosystem, which encompasses startups, industries, academic institutions, hospitals, and government bodies. It also aims to catalyze research and innovation by bridging the gap between educational institutions and industry, to promote awareness of regulatory compliance and related activities, to assist startups in scaling up and accelerating their growth stage, to enable market access for startups, to develop a skilled talent pool while ensuring the availability of high-quality manpower to support startups. This CoE will be housed within the premises of Karnataka Institute of Endocrinology and Research (KIER), a premier medical facility, strategically located in the bustling heart of Bengaluru. A budget of Rs. 50 crore has been allocated for the establishment of a Centre of Excellence in Health-Tech and Med-Tech, with a grant of Rs. 10 crores earmarked for the current year, 2024.

### Centre of Excellence in Aqua-Marine Innovation (CoE in AMI), Mangaluru

The Department of Electronics, IT, BT and S&T is setting up the Centre of Excellence in Aqua-Marine Innovation in Mangaluru with a budget of Rs. 741.98 lakhs for three years to boost Aqua marine biotech research, aiming to enhance production and create new Aqua marine bioactive products, with a focus on seaweed bioprospecting. An Aqua Marine Biotech Cluster, including several institutions and industries, will be established to provide training in Aqua marine agriculture, seaweed farming, and genetic improvement programs.

### KITVEN Fund-3 (Biotech)

In compliance with the Government of Karnataka rules and regulations, an exclusive Bio Venture Capital fund of the size of Rs. 50.00 Cr has been registered with SEBI to partner with the Government of Karnataka and launched. This offered equity-based funding to the biotech companies in need of mid-to late-stage funding.

The fund has been invested in companies catering to Biotechnology and such other allied sectors within the State of Karnataka. The investments are in companies in the nature of equity, preference capital (convertible/redeemable), debentures OR combination of any of the above instruments adhering to the guidelines issued by the Securities & Exchange Board of India (SEBI) from time-to-time. The typical investment horizon would be 3-5 years although lower periods would also be considered.

Name of the subscribers, and their investment in the Fund are as under

| Name of the Subscriber                                                | Committed (in Rs. Crores)                                        |
|-----------------------------------------------------------------------|------------------------------------------------------------------|
| KITS<br>(including investment from Agriculture Department, GoK, KITS) | 18.00<br>(including Rs. 5.0 Cr from Agriculture Department, GoK) |
| KSIIDC, Govt. of Karnataka                                            | 5.00                                                             |
| SIDBI<br>(Managers of Fund-of-Funds for Startups, Govt. of India)     | 3.55                                                             |
| BIRAC, Govt of India                                                  | 4.00                                                             |
| KSFC, Govt. of Karnataka                                              | 5.00                                                             |
| <b>Total</b>                                                          | <b>35.55</b>                                                     |

## Status of Investments from the Fund

| Company name                  | Amount (in Rs. Crores) |
|-------------------------------|------------------------|
| Pandorum Technologies Pvt Ltd | 4.50                   |

| Alepa Dairy Foods Pvt. Ltd.   | 5.00                   |
| NESA Medtech Pvt. Ltd.        | 4.50                   |
| <b>TOTAL</b>                  | <b>32.20</b>           |

## Technology Business Incubator

In order to foster strong partnership between R&D institutions and industry, Department had envisaged for supporting establishment of TBI for promoting Innovations in thrust areas such as ICT/IOT/Software Products, ESDM, Robotics, 3D Printing, Healthcare and Biopharma, Agriculture & Allied Fields, Clean Tech, Energy, Water & its recycling, Education, Nanotechnology & Composites etc. The strategy under Karnataka Startup Policy 2022-2027 is to establish new TBIs in institutions of higher learning in regions outside Bengaluru Urban District to forge a strong link between R&D and commercialization of technologies.

Through TBIs, it is intended to bring academia, industries, and financial institutions all to one platform and promote/nurture novel technology/innovation coming out of such association. Also, the startups will have Infrastructure, equipment, mentoring, branding, networking, and legal, financial, technical, intellectual property related services all in one roof to build a vibrant startup ecosystem within the academic setup.

Government of Karnataka has already established the following TBIs

- 1) Ramaiah-GoK Business Incubator, Bengaluru
- 2) MedTech&Geriatric Healthcare TBI at Centre for Product Design & Manufacturing, IISc, Bengaluru
- 3) Nano-Science TBI at Centre for Nanoscience and Engineering, IISc, Bengaluru
- 4) Manipal-GoKBioIncubator, MAHE, Manipal, Udupi

## Bengaluru Tech Summit 2024 - Biotechnology Track

The Bengaluru Tech Summit (BTS) 2024, the Asia's Largest Tech Fest event, organized by the Department of Electronics, IT, BT and S&T, Govt. of Karnataka. Bengaluru Tech Summit attracts the world's foremost leaders, innovators, and disruptors, drawing over 50,000 tech enthusiasts from India as well as delegations from more than 40 nations. With 85+ Conference Sessions featuring more than 450 diverse Speakers and multi-pavilion Exhibition halls, BTS 2024 presented a vital opportunity for stakeholders to connect and build cross-sectoral, cross-border, and cross-community partnerships that can drive innovation and progress. With BTS 2024, we solidified our commitment to sustainability with a meticulously crafted roadmap. Anchored by robust policies and clear targets, we strived for greener horizons. Our agenda included championing circular economy principles, pursuing carbon neutrality, and implementing rigorous environmental monitoring.

| Award Category                 | Name of Company                                        |
|--------------------------------|--------------------------------------------------------|
| Startup of the Year            | Anabio Technologies                                    |
| Innovator of the Year          | KoshKey Sciences Pvt Ltd                               |
| Women Entrepreneur of the Year | Ms. Divya Chandradhara (BioAgile Therapeutics Pvt Ltd) |

| Award Category                         | Name of Company                                                                |
|----------------------------------------|--------------------------------------------------------------------------------|
| Best Social Enterprise / Institute     | TeOra                                                                          |
| Best Campus Company of the Year        | AppachiiiiPvt Ltd                                                              |
| Best Business Mentor of the Year       | Dr. Manesh Thomas, Manipal-Government of Karnataka Bioincubator, MAHE, Manipal |
| Startup of the Year (Beyond Bengaluru) | Plotnew Bio Innovations Pvt Ltd                                                |

#### KITVEN Fund-4 (AVGC)

KITVEN Fund-4 (AVGC), initiated by KITS and managed by Karnataka Asset Management Company (KAMCO), aims to promote innovation and entrepreneurship in the Animation, Visual Effects, Gaming, and Comics (AVGC) sector. The fund supports startups, early-stage enterprises, and small & medium-sized businesses by investing in equity and equity-linked instruments, adhering to SEBI guidelines. A SEBI-registered venture capital fund of Rs.20 crore has been established with contributions from:

- KITS (Sponsor): Rs.10 crore
- KSIIDC: Rs.5 crore
- KEONICS: Rs.5 crore

#### Growth in Beneficiaries

Year-on-year, the fund has supported innovative enterprises in the AVGC sector, demonstrating a steady increase in the number of beneficiaries and investments.

#### Impact of the Scheme

- Empowerment of startups to scale their operations.
- Expansion of AVGC-related businesses in Karnataka.
- Increased employment opportunities and skill development.
- PlayShifu (Mobilizer Technologies): A global leader in AR-based educational toys and games, successfully supported through KITVEN Fund-4.
- MetaShot (GillidandaPvt Ltd): A promising venture focusing on immersive gaming technologies, poised for significant growth.

#### KITVEN Fund-5

- Investment in pioneering DeepTech startups to boost innovation.
- Development of cutting-edge technologies in Karnataka.
- Encouragement of entrepreneurship and job creation in the DeepTech space.

#### Status and Progress

KITVEN Fund-5 received its SEBI certification in March 2023 with a target corpus of Rs.100 crore.

- **Nodal Agency & Sponsor:** Karnataka Innovation & Technology Society (KITS).
- **Commitment Received:** Rs.30 crore (Rs.25 crore from KITS and Rs.5 crore from KSIIDC).

- **Investment Size:** Rs.2 crore to Rs.5 crore, capped at 10% of the investable corpus.
- **Operationalization:** The fund is operational, with Rs.20 crore committed per SEBI guidelines.
- **Investment Committee (IC):** Formed to oversee investments.

### Growth in Beneficiaries Year on Year

KITVEN Fund-5 is poised to increase the number of startups and enterprises benefiting from investments in DeepTech, contributing to the rapid growth of this sector.

### Impact of the Scheme

- Acceleration of technological innovation in AI, ML, MedTech, and Robotics.
- Creation of high-quality jobs and strengthening of Karnataka's position as a technology hub.
- Empowering startups to scale operations and achieve global competitiveness.
- HRS Navigation: Innovating in healthcare navigation solutions.
- Sociograph Solution (DaveAI): Driving personalized AI-powered sales experiences.
- Immunito AI: Revolutionizing healthcare with AI-driven immunology solutions.

### Bengaluru Tech Summit 2024

The Bengaluru Tech Summit 2024 (BTS 2024) aims to foster innovation and collaboration under the theme "UNBOUND". The event serves as a platform for global leaders, tech innovators, policymakers, and industry experts to converge and discuss advancements in key areas such as AI, quantum computing, space tech, sustainable data centers, and other emerging technologies.

## Expected Outcomes

- **Showcasing Innovations:** Highlighting cutting-edge solutions across diverse tech sectors.
- **Global Collaboration:** Forging partnerships and driving investments in Karnataka's tech ecosystem.
- **Sustainability Initiatives:** Promoting green practices and sustainable technologies.
- **Startups Empowerment:** Creating opportunities for startups through investor and mentor connect programs.

## Key Features

- **Global Innovation Alliance (GIA):** Connected Karnataka with over 50 partner countries.
- **Dedicated Startup Tracks:** Empowering early-stage companies with mentorship and investor programs.
- **World Stage Sessions:** Curated by global leaders, with contributions from 16+ countries and sessions by ambassadors, ministers, and tech experts.

## Growth and Increase in Beneficiaries Year on Year

BTS 2024 has witnessed significant growth in participation across stakeholders, including startups, investors, and global leaders, reaffirming Karnataka's position as a tech and innovation hub. The event saw a marked increase in attendee numbers and global representation compared to previous years.

## Impact of the Summit

1. **Sustainability:** Achieved a 10% year-on-year reduction in carbon emissions through initiatives like EV buses, waste recycling, and sustainability awards.
2. **Startup Empowerment:** Over 185 startups connected with 68+ investors, with a significant focus on ideation and early-stage growth.
3. **Global Collaboration:** Strengthened partnerships through events like the India-US Tech Conclave and GIA sessions, enhancing Karnataka's global footprint.

## Awards and Recognitions

- **STPI IT Export Awards:** Infosys was conferred the IT Ratna of Karnataka.
- **Smart Bio Awards:** Honored startups, innovators, and social enterprises, with notable winners like Anabio Technologies and KoshKey Sciences Pvt. Ltd.
- **Assistive Technology (AT) Awards:** Recognized startups like InfihealHealthTech and enablers such as VIT Technology Business Incubator.

## New Initiatives:

- **Uber Shuttle:** Launched to ease urban commuting, promoting tech-driven transit solutions.
- **Blockchain Certificates:** Over 30,000 certificates issued, enhancing transparency and accessibility.
- **Green BTS:** Implemented zero waste-to-landfill initiatives and promoted sustainable practices among exhibitors.

### Key Programs:

- **Startup Springboard Investor Connect:** Empowered startups with access to investors, fostering a dynamic entrepreneurial ecosystem.
- **Mentor Connect:** Brought together 18 mentors to guide over 120 budding startups.

Bengaluru Tech Summit 2024 stands as a testament to Karnataka's leadership in technology and innovation, setting new benchmarks in sustainability, global collaboration, and entrepreneurship.

### TiE Global Summit 2024

The TiE Global Summit 2024 (TGS 2024) aims to provide a platform for entrepreneurs, investors, and thought leaders to celebrate entrepreneurial journeys, foster innovation, and explore opportunities across sectors and geographies. With Bengaluru as the host city, the summit showcases Karnataka's vibrant entrepreneurial ecosystem and its pivotal role in India's tech-driven growth.

### Expected Outcomes

- **Knowledge Sharing:** Deliver thought-provoking sessions on emerging trends, challenges, and opportunities in entrepreneurship.
- **Startup Empowerment:** Provide emerging startups with access to funding, mentorship, and global networking opportunities.
- **Sectoral Insights:** Promote discussions and collaborations through industry-focused tracks.
- **Global Partnerships:** Facilitate international market entry and partnerships for Indian entrepreneurs.

### Features

1. Keynotes and Panel Discussions:
  - ❖ Delivered by global leaders and industry pioneers on themes such as deep tech, AI, sustainability, fintech, and social impact.
2. Startup Showcase and Pitch Sessions:
  - ❖ Provided startups a platform to present innovations to global investors, gaining funding and mentorship opportunities.
3. Sector-Specific Tracks:
  - ❖ Covered diverse industries, including blockchain, space tech, agritech, edtech, and cybersecurity.
4. Networking:
  - ❖ Dedicated sessions connecting startups with angel investors, VCs, and corporate leaders.
5. Workshops and Masterclasses:
  - ❖ Focused on scaling businesses, leadership, fundraising, and leveraging technology for growth.
6. Recognition and Awards:
  - ❖ Honored entrepreneurial achievements with prestigious awards for innovation, leadership, and impact.

## 7. Global Collaborations:

- ❖ Hosted delegations from 30+ countries, fostering international partnerships.

### Growth and Increase in Beneficiaries Year on Year

With over 13,000 startups, 50+ unicorns, and gazelles in Bengaluru, TGS 2024 highlights significant growth in Karnataka's entrepreneurial ecosystem. The event's increasing scale reflects its role in connecting startups to funding, mentorship, and international collaborations.

### Impact of TGS 2024

#### 1. Startup Empowerment:

- ❖ Startups gained access to global investors and mentors, ensuring significant support for scaling and innovation.

#### 2. Global Collaboration:

- ❖ Enabled partnerships between local entrepreneurs and global stakeholders, expanding market reach.

#### 3. Sector-Specific Impact:

- ❖ Fostered innovation in deep tech, AI, agritech, and healthcare, aligning with global trends.

#### 4. Inclusive Innovation:

- ❖ Reinforced initiatives like Elevate, WeScalate, RGEP, and Beyond Bengaluru, ensuring innovation reaches tier-2 and tier-3 cities.
- ❖ **Startup Empowerment:** Emerging ventures showcased groundbreaking solutions, some securing funding during pitch sessions.
- ❖ **Global Collaborations:** Partnerships with delegations from 30+ countries created pathways for international market access.
- ❖ **Recognitions:** Entrepreneurs and organizations were celebrated for innovation and impact, inspiring the next generation of startups.

The TiE Global Summit 2024 serves as a landmark in fostering innovation, empowering entrepreneurs, and driving global investments, reinforcing Karnataka's leadership in building a sustainable and inclusive entrepreneurial ecosystem.

### AVGC – Centre of Excellence

The AVGC Centre of Excellence (COE) has state-of-the-art facilities that will give the Creative Production a holistic technological boost. The CoE has the most highly equipped AVGC Post-production infrastructure, providing the audio-visual industry with talent and tools to produce high quality content that was hitherto not possible to automate.

The COE has a Digital Production and Post-production lab with technologies such as Motion Capture, Body Scan, Green Screen and high-speed rendering, which is available on an affordable pay-per-use basis.

The COE also has a Skilling program that will provide valuable production and technology experience to upskill fresh graduates via masterclasses, hands-on tasks, and interventions by industry veterans improving the productivity and production readiness of the graduates.

## EVENTS, DELEGATION, PROMOTIONS & SEMINARS

### BENGALURU GAFX

Bengaluru GAFX Conference is India's most prominent & largest annual event for Games, Animation & Visual Effects Industry hosted by Government of Karnataka and organized by ABAI.

The event is a congregation of animation, VFX & games studios, production houses, industry veterans, professionals, students, academia and technology partners. The event strives to attract top subject matter experts, studios, production houses, game developers and the best content & projects from all over the world to provide exposure and know to the professionals, artists and students.

Bengaluru GAFX 2024, focused on "Augmented Intelligence: Powering AVGC." It brought together industry, academia, and government to discuss trends, challenges, and the future of animation, VFX, games, and comics (AVGC) in India.

Bengaluru - B2B forum has flourished into a dynamic community, bolstered by the steadfast support of the Karnataka Government, solidifying the city's stature as a hub where creativity seamlessly intertwines with commerce. Bengaluru's unwavering dedication to nurturing local intellectual property (IP) and driving innovation and technology into the animation, gaming, and VFX domains is the cornerstone of this event.

The Bengaluru GAFX B2B event stands as a unique platform, meticulously crafted to connect IP owners, developers, content creators, and production houses keen on producing innovative content. This event serves as an exclusive interface, drawing in selected international and national studios, producers, broadcasters, distributors, and financiers. It's a "mini marketplace" initiative aimed at bolstering local IP creation, bridging locally cultivated concepts with the demands of global and local buyers.

### Launch of AVGC – XR Policy @ GAFX 2024

- Karnataka is the only state in India releasing its third five-year AVGC-XR policy, with the first policy having been initiated in 2012. The latest AVGC-XR Policy of Karnataka has been carefully designed to be futuristic, extending its vision beyond the immediate five-year window. The objective is to build a resilient and sustainable ecosystem that can adapt to future technological disruptions while continuing to foster creativity,
- Economic growth, and social equity.

### AVGC COE – 2.0

The IT-BT department signed a Memorandum of Agreement (MoA) with ABAI to establish the AVGC Centre of Excellence (CoE) 2.0, a three-year partnership to advance the AVGC sector with cutting-edge technology and facilities.

### Bengaluru GAFX – 6th Edition – Imagination Next

The state government, in collaboration with the ABAI, unveiled the 6th edition of GAFX 2025 during a curtain raiser event on Monday. Scheduled from February 27 to March 1, 2025, the event is anticipated to be one of India's largest gatherings in the gaming, digital media, and entertainment spaces.

During the launch, IT/BT Minister, announced significant initiatives, including the establishment of an Animation, Visual Effects, Gaming and Comics and Extended Reality (AVGC-XR) in Bengaluru, as well as the creation of a new skill advisory council on emerging technologies, to drive innovation and support the industry's growth and introduced the poster for GAFX 2025, centred around the theme, 'GAFX 2025 - Imagination Next'. The event aims to encourage exploration beyond current technological and creative boundaries within the AVGC industry.

## Annecy 2024 - India Pavilion Supported by Government of Karnataka

The India Pavilion at Annecy\MIFA and the Namaste MIFA Pitch panel supported by Govt. of Karnataka\Ktech and Animela showcasing Indian Creative startups pitching their ideas to buyers was a big success.

### Government of Karnataka Pavilion at MIPCOM 2024

Karnataka's recent Animation, Visual Effects, Gaming, and Comics (AVGC) delegation to MIPCOM, Cannes, France, between 21st-24th October 2024, led by ABAI with the support of IT/BT department of Government of Karnataka & K-tech, achieved significant milestones, further cementing the state's reputation as a leader in India's AVGC industry. Known as the AVGC capital of India, Karnataka has actively fostered this industry through initiatives aimed at boosting talent, attracting investment, and creating a robust ecosystem. The success of this delegation reflects Karnataka's strategic vision to expand its AVGC sector on a global scale.

### Key Highlights of the AVGC Delegation's Success

**Securing Global Investments:** The delegation engaged with international AVGC companies and investors, resulting in substantial commitments to partner with studios, innovation & development centers, and training programs in Karnataka. These investments will bring jobs and training opportunities to local talent, elevating the state's AVGC ecosystem to international standards.

**Promoting Karnataka as a Hub for Creative Content:** Through showcases, presentations, and networking, Karnataka positioned itself as a creative hotspot ideal for AVGC projects. International companies were introduced to the state's favorable policies, tax incentives, and existing infrastructure, making it an attractive location for studios looking to expand in Asia. Impact and the Road Ahead. The delegation's success is expected to accelerate Karnataka's AVGC industry by increasing job opportunities, fostering skill development, and promoting international partnerships. With new investments, collaborative opportunities, and global exposure, Karnataka is poised to become a premier destination for AVGC development, benefiting both local creators and the state's economy.

### Highlights of Karnataka's Success at the India Pavilion

- Promotion of AVGC XR Policy, COE, GAFX & B2B 2025
- Launch of Local Ips
- Attracting Global Attention
- Empowering Local Creators
- Highlighting Karnataka's AVGC Infrastructure
- Strengthening India's Soft Power

### Karnataka Startup participation list -

- Asoleoid Studios
- Broadvision
- Encore films
- Innovative Colors Pvt Ltd
- Mountain Flower Animation Pvt Ltd
- Prashanth Raj Films
- Rolling Frames Pvt. Ltd.

- Tin Tan
- Viga entertainment technology Pvt. Ltd.

### **CII AVGC Summit FX 2024 - Global AVGC and Immersive Media summit 2024**

Karnataka's AVGC (Animation, Visual Effects, Gaming, and Comics) sector has shown significant success and potential at CII Summit FX, held in New Delhi. This annual conference organized by the Confederation of Indian Industry (CII) brings together key players and thought leaders from the AVGC sector across India. Karnataka's participation is noteworthy as the state has established itself as a hub for the AVGC industry, particularly in Bengaluru, which hosts numerous animation studios, gaming companies, and VFX firms.

Karnataka was the sole state partner at the event, highlighting government initiatives, including the AVGC Centre of Excellence, and presenting Bengaluru GAFX—Asia's largest Animation, Visual Effects, Gaming, and Comics event—scheduled for 27th-29th February and 1st March 2025.

### **India Joy – Hyderabad - Date - 16th& 17th November 2024**

The Karnataka pavilion at India Joy, held on 16th and 17th November 2024, served as a prominent platform to showcase the state's leadership in the AVGC-XR sector.

- Karnataka's progressive AVGC XR Policy, which emphasizes innovation and growth in the industry, the state-of-the-art AVGC Centre of Excellence aimed at fostering talent and technological advancements,
- A preview of the highly anticipated Bengaluru GAFX 2025—Asia's largest event for Animation, Visual Effects, Gaming, and Comics.
- These initiatives underscore Karnataka's commitment to driving the AVGC ecosystem forward and positioning the state as a global hub for creative and technological excellence.

### **Bengaluru Tech Summit – 19th to 21st November**

- The ABAI AVGC COE booth received an exceptional response at the Bengaluru Tech Summit, highlighting how AI in storytelling can shape the future of the Media & Entertainment industry. The event showed the summit's dedication to supporting the next generation of innovators and leaders.

### **55th International Film Festival of India, IFFI – Goa - 20th- 24th November, 2024**

The Karnataka pavilion at IFFI Film Bazaar supported by Technicolor group, held on 20th to 24th November 2024, served as a prominent platform to showcase the state's leadership in the AVGC-XR sector.

- Karnataka's progressive AVGC XR Policy promoting industry innovation and growth.
- The AVGC Centre of Excellence fostering talent and technological advancements.
- A preview of Bengaluru GAFX 2025, Asia's largest AVGC event.

### **ACGC – XR Policy Promotion @ Bengaluru**

- ABAI, in collaboration with the Government of Karnataka, organized the AVGCXR 3.0 Policy Promotion Seminar on August 13, 2024, at the ABAI AVGC Centre of Excellence, Bengaluru.
- The primary focus was on discussing key policy offering to the state, provisions, Incentives and sharing success stories within the AVGC-XR sector.

- The event attracted over 80 participants, including key stakeholders from the Animation, Visual Effects, Gaming, Comics, and Extended Reality (AVGC-XR) industries, as well as representatives from the education and technology sectors.
- This seminar provided a platform for a successful gathering of industry professionals, studios, startups, government officials, and enthusiasts.

### ACGC – XR Policy Promotion @ Mysuru

- ABAI, in collaboration with the Government of Karnataka, organized the AVGC-XR 3.0 Policy Promotion Seminar on September 18th, 2024, at the Vidyavardhaka College of Engineering, Mysuru
- Riding on the success of the Beyond Bengaluru, Hubballi Policy promotion event, this seminar provided a platform for a successful gathering of industry professionals, studios, startups, College management, Students, government officials, and enthusiasts.
- The primary focus was on discussing key policy offering to the state, provisions, Incentives and sharing success stories within the AVGC-XR sector.
- The event attracted over 120 plus participants (27 Startups\Companies\ Studios, 5 professionals & Faculty, 88 students) including key stakeholders from the Animation, Visual Effects, Gaming, Comics, and Extended Reality (AVGC-XR) industries, as well as representatives from the education and technology sectors.

### COE Revenue

| AVGC COE REVENUE |               |
|------------------|---------------|
| Period           | Total Revenue |
| JAN to DEC 2024  | 63,30,551     |

### Recognitions

- Recognised as Authorised Adobe Training partner / Centre
- Recognised as Authorised Wacom Training partner / Centre and plans to launch the WACOM Experience Center
- Recognised as Authorised Unreal Training partner / Centre

### Key Awards and Accolades

- Zebu Animation Studios incubated at COE has been nominated for two Collision Awards, for its work on a Lego Ninjago x Dreamzzz video. (The Collision Awards is the first global and holistic platform solely dedicated to honouring excellence in Animation and Motion Design in all its forms)

## 3.14 EXPORTS OF KARNATAKA

Karnataka has a long tradition of overseas trade. Historically, Karnataka has been a major exporter of commodities like coffee, spices, silk, cashew nuts, handicrafts and Agarbattis. In the last two decades, the State has emerged as a major player in the export of Electronic and Computer Software, Engineering goods, Readymade Garments, Petrochemical, Agro and Food Processing products, Chemicals, Minerals and Ores, Marine products, etc.

Karnataka has carved out a niche for itself in the global market place as the knowledge and technology capital of the Country. The State has made rapid and spectacular strides in the new economy. Information technology,

biotechnology and research and development institutions have enhanced Karnataka's achievements at national and global levels. Karnataka accounts for more than one third of electronics and computer software exports from the country. It is also a leader in exports of Coffee and Spices, Petrochemicals and Engineering commodities from Southern Region.

### Export performance of Karnataka

Karnataka ranks 1st in Software/ Service exports and stands 4th in Merchandise exports in the National export basket. The State stands first in the overall exports which includes both Merchandise and Service exports. Visvesvaraya Trade Promotion Centre (VTPC), under the aegis of Department of Industries and Commerce, Government of Karnataka is the Nodal Agency for promotion of exports from the State. The analysis of export data is being carried out based on the data provided by the Directorate General of Commercial Intelligence and Statistics (DGCIS), Kolkata.

Karnataka's overall exports have increased by 5.25% during 2023-24 as compared to the year 2022-23. Karnataka's exports in terms of value in 2021-22, 2022-23 and 2023-24 and 2024-25 (April to September 2024) are shown in **Table 3.1**.

Karnataka's exports amounted to about Rs.1378959.77Crores in 2023-24 which constituted about 20.50% of the Country's exports in the year. The share of Merchandise exports in the National exports constitutes around 6.09% and Software/ Service exports around 41 % for the year 2023-24. Exports of electronics and computer software and other service sector constitute the largest share in the State's exports. The other commodities which registered good increase in share of Karnataka's exports in 2023-24 as compared to 2022-23 are Organic Chemicals, Pharmaceuticals, Automobile Sector, Iron Ore, Aerospace, Spices and Silk Products. Decline in exports in 2023-24 comparison to 2022-23 were witnessed in the case of Engineering, Petroleum Products, Readymade Garments, Agriculture & Processed Food and Marine Products. All other sectors recorded increase in State export performance.

Merchandise Exports during the period April to September 2024-25 as compared to April to September 2023-24 have shown a positive growth of 10.98%. Services Exports during the year April to September 2024-25 as compared to April to September 2023-24 registered 11.13% growth.

**Table 3.1: Export Performance of Karnataka**

### Policy support for exports

Foreign trade is in the Central List of the Indian Constitution. The Government of India is empowered to formulate all rules and regulations for foreign trade applicable for the country as a whole. The role of the State Government is complementary by way of providing supportive and special promotional measures for promoting foreign trade, especially in regard to exports of goods and services.

The State has been providing various incentives & concessions to the MSME sector to compete in the international market. The State Government has announced various initiatives along with incentives and concessions for the promotion of exports in the New Industrial Policy 2020-25.

### Promotional Activities Organized by VTPC

In order to encourage growth and development of exports from the State, VTPC conducts various capacity building programs and facilitates key areas like market intelligence, export documentation, export marketing and more to the exporting community. VTPC also conducts awareness programs, export management training programs for both prospective and existing exporters at district/potential destinations. VTPC has established Export Facilitation Centres at Dharwad, Mysuru, Kalaburagi and Mangaluru to facilitate exporters of the State. The promotional activities of VTPC for exports are as follow:

- Export Awareness Programs.
- Export Training Programs.
- Export Management Training Programs.
- Seminars, Workshops & Conferences.
- Interaction and Open House Meetings.
- Participation in National/International Exhibitions & Trade Fairs.
- Conferring State Export Awards for Excellence in Exports.
- Market Development Assistance to Micro and Small manufacturing exporters for their Overseas Visits for business promotion.
- State Nodal Agency for TIES Scheme.
- WTO and IPR Relay Cell.
- Export Facilitation Cell.
- Assistance to the traders/exporters in certification for the export/ import of commodities.
- Secretariat services for promotion of SEZs and EOUs in the State
- Implementation of measures announced in the State Geographical Indications Policy 2019

### Capacity Building programmes

As part of capacity building initiatives, VTPC in association with DGFT / DIC's/ Chambers of Commerce/ Industry Associations/ Exim Bank etc., conducts Export Awareness Programs (EAP), Export Management Training Programs (EMTP), Seminars/ Workshops and Interaction meetings at District/ Taluk level on a regular basis. VTPC also conducts IPR/GI Awareness Programs through its IPR initiatives. Between the period April

2024 to November 24, VTPC conducted a total of 5 EMTP programs, 6 Export Awareness Programs/ EDP/ Seminars/ Workshops/ Stakeholders Outreach, representation at 6 export programs, organised by likeminded institutions and 18 IPR Awareness and GI programs.

### Geographical Indications Policy

Government of Karnataka, vide G.O. No. CI 65 SSI 2018, Bengaluru, dated 18-5-2019 announced the Geographical Indications (GI) Policy which aims to protect the traditional legacies of the State and assist and support infrastructure development required to strengthen the GI clusters in the State.

Karnataka is home to a total of 48 Registered GIs as on date. Through the Authorised User drive undertaken by VTPC, the Authorised User base across GI products in Karnataka currently stands at 3258. GI artisans are being provided impetus and a platform through various Trade Fairs and Exhibitions like India International Trade Fair (IITF), India GI Fair (IGIF), etc. VTPC on behalf of the State has filed one new GI tagged product in the food stuff segment, namely Gokak Karadant from Belagavi district which is undergoing the examination process. Further, the Hearing and Consultative Committee Meeting/Examination for 'PattedaAnchuSarees and Fabrics a GI textile weave filed in the year 2022, was conducted by the GI Registry, Chennai and awaiting GI tag/grant. GI sensitisation and awareness is being disseminated through IP Programs conducted by VTPC across the state. This besides, GI's have been identified for promotion under the ODOP and District as Export Hubs scheme.

### SEZs in Karnataka

State has 38 operational SEZ's with an investment of Rs.1,09,980.58 Crores & generating employment for 427518 persons. There are 492 SEZ units working in these SEZ's.

### Imports from Karnataka

Top 30 importing commodities from the following Airport/ Ports / ICDs of Karnataka State for the year 2023-24 is given in the below table.

| Sl. No | Commodity                        | Airport/Port/ICD | Value in Mn USD |
|--------|----------------------------------|------------------|-----------------|
| 1      | Electronics Components           | BIAL             | 2249.67         |

### 3.15 KARNATAKA UDYOGA MITRA

SLSWCC meetings were held during 2024-25, 78 projects with an investment of Rs.5795.78crores were approved. These projects are likely to create employment for 16752 people.

#### Ease of Doing Business initiatives in Karnataka and Way Forward

Under Ease of Doing Business, Karnataka has achieved the following:

- Karnataka recognized as “Top Achiever” under Ease of Doing Business-Business Reform Action Plan 2022 which has been secured by implementing 352 reform recommendations for businesses and citizens.
- PAN has been adopted as Single Business ID wherein PAN is being tagged for all business centric approvals/compliances.
- More than 67 services are notified under the SAKALA (Public Service Guarantee Act) in past 1 year while the state has identified more services for ensuring time-bound service delivery to businesses, especially district level approvals.
- All major Business-centric services are now made “time bound” to save cost to businesses.
- Government of Karnataka has undertaken initiatives to simplify rationalize and digitize Government procedures and interfaces. Out of the total 1551 identified compliances under “Regulatory Compliance Burden”, Karnataka reduced over 1418 (92%) burdensome compliances.
- More than 514 Business centric compliances across 20 Departments have been reduced while under “decriminalization”, 80 imprisonment clauses have been amended/repealed or compounding options have been introduced as found feasible under State Rules.
- Business-centric services with more than 20 days have been identified for Government Process Re-engineering and rationalization of timelines, documents and number of steps involved in the existing service procedure.
- Government Process Re-engineering (GPR) has been undertaken for the following:

- ❖ Common Application Form for In-principle approval for projects (KUM)
  - ❖ Consent for Establishment
  - ❖ Consent for Operation
  - ❖ Authorization under Hazardous and Other Wastes Rules
  - ❖ Registration and Renewal under E-Waste (Management and Handling) Rules
  - ❖ Registration and Renewal under Plastic Waste (Management and Handling) Rules
  - ❖ Authorization under Bio-Medical Waste Management Rules
  - ❖ Authorization under Solid Waste Management Rules
  - ❖ Authorization under Construction and Demolition Waste Management Rules
  - ❖ Trade License - BBMP, RDPR, DMA
  - ❖ Approval of Factory Plan
  - ❖ Registration of Factories and Issue of License
  - ❖ Registration of Boilers, Economizers and Steam Pipelines
  - ❖ Certificate of Recognition as Boiler Manufacturer
  - ❖ Drugs Manufacturing License
  - ❖ Retail and Wholesale Drugs License
  - ❖ Issue of new Manufacturer/Dealer/Repairer License under the Legal Metrology Act 2009
  - ❖ Registration under the Legal Metrology Act 2009
  - ❖ Issue of Verification Certificate under the Legal Metrology Act 2009
- As an Ease of Doing Business initiative, “Unified Land Management System” is being developed which may reduce the interfaces between Government and businesses/citizens and ensure transparency by assigning a unique identification number to each land parcel(unique Land Parcel Identification Number, ULPIN) and subsequent procedures related to land/property and related encumbrances.
- The ULMS is being implemented by the DPAR (e-Governance) may also be considered as one of the leading practices in this domain. The system/portal will record all the transactions and mutations related to the land/property and provide information about the ownership/type of land/ conversion. Moreover, it will simplify the process of obtaining encumbrance certificates for selling land or applying for loans.
- **In addition, other key initiatives include:**
- ❖ Plug and play facility in selected KIADB industrial parks/areas with pre-approved clearances aligned with sectoral/manufacturing requirements have been introduced.
  - ❖ Integration of state portals with Central Portals such as NSWS and India Industrial Land Bank of DPIIT has been completed.
  - ❖ Reduction of service delivery timelines for key business services such as Factory Plan approval, factory license, CFE, CFO, Labour Licenses and Building Plan Approval by ULBs and KIADB.

- ❖ Introduction of “deemed approval” mechanism for Licenses under Contract Labour (R&E) Act 1970, ISMW Act 1979 and BOCW Act 1996 and electronically issue of license in case of breach of timelines i.e., 10 working days.
- ❖ Digitization of all Urban and Rural property records for 20 years as well as transaction deeds at all Sub-Registrar Offices.

### Way Forward

- Government Process Re-engineering of business-centric approvals will be focused by analyzing the existing processes and bringing out reforms w.r.t reduction of time, cost, documents and procedures involved in the service delivery processes.
- In addition to 287 reforms shared under BRAP 2024, DPIIT, GoI has shared 167 additional reforms which will be implemented by or before 15th February 2025.
- Karnataka will be working towards reduction of compliance requirements under the identified 23 acts under RCB+. This will help to simplify processes and eliminate redundancy, which are key areas of the proposed reforms.
- Further, the imprisonment clauses identified for “decriminalisation” will be duly consulted with Law Commission of Karnataka and stakeholder departments to take it forward for necessary amendments (subject to approval).
- “Know your Approvals, Compliances and Incentives” wizard is being developed for investors to understand applicable clearances and incentives under different sectoral policies notified by the State.
- Development of State-of-the-Art Single Window System is in process which will be enabled with Artificial Intelligence for auto-scrutiny of DPRs, Power BI based analytical dashboards and Chat bots for query resolution etc. has been envisioned to facilitate Ease of Access to information.

## **4.1 INTRODUCTION**

Rural Development and Panchayath Raj is the process of improving the quality of life and economic well-being of people living in rural areas. An emphasis on Rural Development is essential given the fact that the majority of the population (61% of Karnataka's population) continue to live in rural area. The proportion of rural population to total population is declining over the time. The decline is faster in Karnataka as compared to India. With economic development, the shift of labor from agriculture to other sectors has gathered momentum in last two decades. However, India and Karnataka are still largely rural agrarian economies. Therefore, the focused approach to promote rural development is the real path to achieve the desired goals in economic as well as human development.

Decentralized planning for the economic development and effective implementation of Rural Development Programmes is crucial, as it results in achieving improved service delivery. At present the state has 5949 Grama Panchayats, 239 Taluk Panchayats and 31 Zilla Panchayats.

After the 73rd Amendment to the Constitution, Karnataka was the first State to pass a new legislation in 1993, viz., The Karnataka Grama Swaraj Panchayat Raj Act, 1993. With the 73rd Constitutional Amendment, the Panchayat Raj Institutions have acquired a statutory status, become integral part of our policy and more importantly, they have been recognized as 'institutions of self-government'. They have been given the important responsibilities of preparation and implementation of Plans to ensure economic development in rural areas and to ensure social justice in the distribution of benefits of such development process.

## **4.2 RURAL DEVELOPMENT PROGRAMMES**

The Important basic requirements for any village Panchayath for healthy living are, clean drinking water, cleaning and lighting of roads, medical facilities, primary education for children and roads for transportation etc. Development of rural areas has a bearing on improving agricultural production and related economic activities, availability of natural and financial resources and their development. The rural development programmes focus on providing quality life to the rural people through provision of housing, drinking water, sanitation, roads and connectivity and employment.

The limitations of Panchayats are scarcity of resources, lack of active participation by the youth, Women and interference of the political class.

The panchayats can be strengthened, if efforts have been made to devolve funds, functions and functionaries to panchayats, by the government, then panchayats can plan for economic development and social justice schemes. The Panchayats can be strengthened by giving more powers in the areas of fuel and fodder, non-conventional energy sources, rural electrification including distribution of electricity, non-formal education, small scale industries including processing industries, technical training, and vocational education.

Proper monitoring is a must in release of the Finance Commission Grants released from Government to Panchayats, in turn to be used to support and strengthen the delivery of various basic services like water supply, sanitation, sewage and solid waste management etc. Local auditing of Panchayats have to be regularly carried out for ensuring of the funds utilized. Panchayats are to be strengthened by giving capacity building and training in preparation of Grama Panchayat Development Plan. Recruitment and appointment of support and technical staff to be made for smooth functioning of panchayats.

### Budget for the year 2024-25

An amount of Rs. 21616.52 crore is provided in the budget. Rs. 10749.09 crore has been released and Rs. 10886.65 crore (by utilising opening balance funds) is spent upto end of December -2024 under various programmes.

For the development of rural areas, Rural Development and Panchayat Raj Department is implementing various Programme as mentioned in **Table 4.1**.

**Table 4.1 : Details of Schemes of Rural Development and Panchayat Raj Department**

(Rs in Crores)

### Challenges of the Department

- Lack of basic amenities like proper road connectivity, transportation facilities and healthcare etc hinder rural development.
- Dependence on traditional farming practices and lack of technological advancements, natural disasters like floods/ droughts affecting agricultural productivity.
- Lack of non-agricultural employment opportunities, under employment/unemployment etc, leads to migration to urban areas.
- Persistent poverty and income inequality in rural areas.

- As there is very little devolution of fund and authority, Panchayat Raj Institutions faces challenges with regard to functions related to governance.

### **Reimagining Growth: Innovative Strategies in Karnataka's Gram Panchayats:**

The Rural Development and Panchayat Raj (RDPR) Department of Karnataka has undertaken several innovative programs to enhance rural well-being. Among these, three flagship initiatives stand out: Rural Libraries (Arivu Kendras), Solid Waste Management (SWM) through Self-Help Group (SHG) convergence, and Rural Crèches (Koosina Mane). These programs focus on education, environmental sustainability, and child welfare, respectively, contributing to holistic rural development.

#### **Rural Libraries (Arivu Kendras)**

Arivu Kendras, or rural libraries, aim to bridge the educational divide in Karnataka's villages. These knowledge centers provide access to books, newspapers, and digital resources, fostering a culture of reading and continuous learning among rural children, youth and adults. The initiative provides a participatory, interactive, and inclusive space for all ages by:

- Providing books and digital learning materials on diverse subjects, including competitive exams, children's stories, agriculture, nature, science and entrepreneurship.
- Facilitating skill development, and digital and financial literacy programs to enhance employability.
- Encouraging community participation through reading clubs and discussion forums.
- Equipping libraries with special devices for the differently abled to access the libraries' resources
- Programs for children on arts and crafts, nature and science, aimed at all round development

Currently, there are nearly 6000 such Arivu Kendras in Karnataka's Gram Panchayats, with a further 6600 being rolled out this year in secondary villages of the Gram Panchayats. Over 5 million children have been enrolled free of cost as members of their libraries. By promoting a knowledge-driven rural ecosystem, Arivu Kendras support the state's broader goal of sustainable development and informed citizenry.

#### **Rural Creches (Koosina Mane)**

Recognizing the need for quality childcare in rural areas, the Koosina Mane program provides crèches for children of working mothers, particularly those working on MGNREGA work sites. Children between 6 months and 3 years are eligible to enrol in their Gram Panchayat's Koosina Mane. These crèches offer:

- Safe and Stimulating Environments: Well-equipped spaces where children receive early childhood care and education.
- Nutrition and Health Support: Regular health check-ups, nutritious meals, including a hot meal prepared on the premises, and immunization services to ensure holistic child development.
- Empowerment of Rural Women: By offering reliable childcare, Koosina Mane enables women to pursue employment and economic activities without concern for their children's well-being. Women chosen from within the Gram Panchayat are trained as caretakers and paid MGNREGS wages.
- Convergence with Women and Child Department (WCD) ensures that children's health is monitored.

There are currently 3852 operational crèches (Koosina Mane) in the state, with more than 55,000 children enrolled, and nearly 30,000 caretakers identified and trained. Overall, the crèches are recording 64% attendance (of those enrolled), which is substantial for a new scheme. By investing in early childhood care, Karnataka is strengthening its rural workforce participation among women, while securing a better future

for the next generation. Gram Panchayats take ownership for providing this critical service to the youngest citizens of their Panchayat.

### **Solid Waste Management (SWM) through SHG Convergence**

Solid Waste Management (SWM) in rural Karnataka has been strengthened through convergence with Self-Help Groups (SHGs), enabling economic opportunities while improving sanitation. Through this initiative:

- **Community-Led Waste Collection:** SHGs are trained and engaged in door-to-door waste collection, segregation, and composting activities. So far, 5279 women have been trained as drivers of waste collection vehicles and, over 15,000 women have been trained in green livelihoods.
- **Decentralized Waste Processing:** Organic waste is converted into compost, while recyclable waste is systematically processed and sold to minimize environmental impact.
- **Livelihood Generation:** Women-led SHGs earn income through waste management activities, user fee collection, sale of segregated waste, thereby creating a self-sustaining model that promotes hygiene and economic independence.

This initiative focuses on building sustainable SWM services based on a social enterprise model, empowering women to take charge of a critical service in their Gram Panchayats.

### **Conclusion**

Karnataka's RDPR department, through its various programs—Arivu Kendras, SWM through SHG convergence, and Koosina Mane—demonstrates a commitment to rural empowerment and growth. These initiatives address critical needs in education, sanitation, and childcare, creating sustainable and inclusive growth opportunities. By integrating education, livelihood, and social welfare, Karnataka sets a benchmark for holistic rural development in India.

## **4.3 HOUSING**

Housing is a basic and very important need for every citizen. Housing not only provides social security to human beings but it also provides status in the society. Housing is one of the important and most basic needs of the people. Housing has evolved as a prime component over the period of time not only in providing shelter but also for providing employment opportunities and in development of localities. To meet the growing demand for housing, the State Government has been pro-active in its housing policies. Housing for the poor and down-trodden assumes greater importance in the State. Every successive Government has given greater attention to the problem of housing scarcity and increased the budgetary allocation year after year.

### **Rajiv Gandhi Housing Corporation Limited.**

This Corporation has been established by the State Government on 20.04.2000, to implement all the State and Central Government sponsored housing schemes for economically and socially weaker sections of the Society both in rural and urban areas. The main objectives of the Company are:

- To provide houses to the Socially and Economically Weaker sections of the society.
- Speedy implementation of schemes.
- Transparency in implementation.
- Smooth flow of funds to ensure that the funds reach the ultimate beneficiaries in time.
- To encourage cost effective technology in construction through District Nirmithi Kendras.

➤ Strengthening of Nirmithi Kendras.

From 2000-01 to 2024-25 (up to end of January-2025) in rural Karnataka the Company has built 46,77,216 houses under various housing schemes and 2.30,402 sites have been distributed. The details of scheme-wise houses completed and sites distributed are as below:

#### New initiatives

- “Spandan” –Call Center.
- Developed the new website to ensure the transparency in the implementation and beneficiary-wise information made available to the public in the Company’s website <http://ashraya.karnataka.gov.in>.

- Letters and Files are maintained in E-office.
- Usage of 'Ashraya' mobile app used under Housing Schemes.
- Usage of 'Vasathi Vigil' mobile app used under Housing Schemes.
- According to GPS based physical progress the fund will be released through Adhar based account.
- Aadhar linking, Ration card & cast and Income certificate are made mandatory to avoid bogus/duplication.
- The documents of various department are verified through web service.
- The beneficiary list is approved through online using Digital Signature.
- The SMS is sent to the Implementing Officers and beneficiaries at every stage i.e. after approval of the list, Opening of bank account, release of funds etc.
- Using Fast tract Technology in Housing Projects.

#### 4.4 RURAL INFRASTRUCTURE

##### Karnataka Rural Infrastructure Development Ltd. (KRIDL)

The Karnataka Rural Infrastructure Development Limited (Formerly known as Karnataka Land Army Corporation Limited) is having an objective to undertake and carry out all types of rural development work either entrusted to it by Government, Government Departments, Local Bodies, Undertakings, Institutions, Individuals etc., or on its own, and to provide assistance, advice and services therefor, including capital resource and technical, managerial and other services.

The Company's Vision, Mission, Objective and Quality Policy are as below:

##### Vision

- To be the best and most efficient Public Sector Company in Karnataka.
- To be leader in construction management.
- Quality and economical deliverables.
- Overall superior service.

##### Mission

- To avoid cost and time overrun.
- Quick response to consumer needs.
- Credibility in everything KRIDL does and to be winners in the field.
- Committed manpower.

##### Objective

To concentrate on labour intensive infrastructure works which are vital for development by providing employment opportunities to rural unemployed and under employed to improve their economic conditions.

To undertake all rural development construction works directly by eliminating middlemen i.e., Contractors, to avoid exploitation of the rural poor, thereby passing on the full worth of money to the people.

## Quality Policy

KRIDL is committed for enhancing its success with services and responsiveness that set industry standards for not only quality and value, but for efficiency as well. The Company relentlessly strive to be the best in every aspect of the Company's business, fostering a culture of high expectations and accurate delivery-at quick turn-around times. Credibility is everything, trust is inherent and responsibility lies with each individual. Transparent processes guarantee progression and efficient delivery controls reputation.

To attain the main object of the Company, the Company undertakes civil construction of tanks, irrigation works, low-cost housing, roads, culverts and buildings etc., in rural areas employing rural youth. The works are being executed directly at Government Scheduled Rates without the involvement of contractors. The Organization is a designed agency of the State Government for the purpose of departmental execution of works.

The subscribed Share Capital of the Company is Rs.14.69 Crores. During the financial year 2023-24, the Company has recorded a turnover of Rs.2450.82 Crores with a net profit of Rs.197.88 Crores. The Company has achieved a progress of Rs.1800.00 Crores during the period April, 2024 to December, 2024 and expected a net profit of Rs.180.00 Crores up to end of December-2024.

## 4.5 15<sup>th</sup> FINANCE COMMISSION GRANTS

The 15th Finance Commission has allocated a grant of Rs. 2637.00 crore for rural local bodies for the year 2024-25, out of which Rs. 2241.45 crore (85%), Rs. 263.70 crore (10%) and Rs. 131.85 crore (5%) have been allocated to Gram Panchayats, Taluk Panchayats and Zilla Panchayats respectively. Rs. 448.29 crore has been released to Gram Panchayats for the year 2024-25.

## 4.6 RURAL WATER SUPPLY

The central government has an ambitious project, Jal Jeevan Mission, titled 'Har Ghar Jal', to provide clean water to all households in the country. The Jal Jeevan Mission Project is being implemented with the great objective of providing safe drinking water to all households in rural India by 2024 by providing Functional Household Tap Connection (FHTC). In addition to maintaining water sources, grey water management, water conservation, rain water harvesting and water source replenishment are also part of the project. Effective information, education and communication are the highlights of the project, which include a community-based approach to aquatic life. The Water Life Mission will create a nationwide movement for water and this is everyone's priority. The Department of Rural Drinking Water and Sanitation in Karnataka is working on providing safe and adequate drinking water to rural areas.

Out of a total of 101,32,359 households in rural areas of the State, access to drinking water at households is 24,51,220 before the implementation of the Jal Jeevan Mission and 59,02,690 households have been provided with water supply after the implementation of the Jal Jeevan Mission. 82.45 % of households in the state have water connection. Each of the 6637 villages in the State has the distinction of being 100% FHTC-enabled villages with water connections under the Jal Jeevan Mission.

In rural areas, the water system is considered to be the responsibility of the women in addition to maintaining the households. Village Water and Sanitation Committees have been set up in more than 28,000 villages across the State, with over 1.5 lakh women taking a leadership role in managing their community water resources, to make them self-sufficient and empowered.

Women in rural areas may have greater responsibilities with managing water at home. Water quality surveillance from the local community of women enlightened citizens is essential for the delivery of service, training at least five women in each village to test the quality of potable water using Field Testing Kits (FTK) to test the quality of drinking water, and to understand the effects of water-based chemical or bacterial

contamination. Their ability to conduct hygiene checks is being developed. Information from women's inspection is being given priority to take appropriate remedial measures to improve or protect drinking water sources and supply systems. Mason, plumber, electrician, motor mechanic and pump operator are being trained by the department to ensure long-term sustainability of water supply systems.

The success story of the Jal Jeevan Mission can be summed up in one sentence, "Empowerment of women leads to nation building." The Jal Jeevan Mission attracts women from rural areas for several reasons. Most importantly, ensuring safe and clean drinking water for their families helps save time wasted on bringing water. The Jal Jeevan Mission has provided important changes in the lives of women in rural communities.

For 2024-25, it is targeted to provide 15.00 lakh FHTCs, 6.88 lakh FHTCs are provided by incurring an expenditure of Rs. 1407.20 crore up to the end of December 2024.

### **Water Quality Monitoring and Surveillance Programme (WQM&SP)**

Under Jal Jeevan Mission (JJM), water quality monitoring has been given utmost importance, as the water quality needs to be monitored on a regular basis to ensure potable water gets supplied to the rural households. There are about 2,20,000 rural public drinking water sources established in the State.

At present, there are 31 District level water quality testing laboratories and 48 Sub-divisional/Taluka level water quality testing laboratories in the state. These laboratories undertake analysis of totally 13 physio-chemical parameters for the drinking water sources.

Field water testing kits have been distributed to all the 5954 Gram Panchayaths to test the water during pre- and post-monsoon seasons. Training is also imparted to village water and sanitation committee (VWSC) for testing water quality using the kits.

#### **i. Multi Village Scheme**

Drinking water supply schemes under Jal Jeevan Mission (JJM) have been formulated in rural areas with surface water as source to tackle water quality problem. Habitations having ground water chemical contamination like Arsenic, Fluoride, TDS, Nitrate and Iron, the drinking water, will be supplied from nearest sustainable surface source after treatment. A total of 160 MVS schemes are taken up with an estimated cost of Rs. 37,561.36 Crores, in which 135 MVS schemes are under progress with an estimated cost of Rs. 35,797.75 Crores and 2 MVS schemes are yet to be awarded, remaining 23 MVS schemes are under administrative approval.

### **Recommendations**

- (i) Scheduled water quality check
- (ii) Recharge defunct bore wells
- (iii) Automation of water supply
- (iv) Introduce incremental block tariff for bulk water supply and
- (v) Develop a ToT team and synchronization of water supply.

## **4.7 RURAL SANITATION**

### **Swachh Bharat Mission (SBM)-Gramin**

Aim of SBM (G): As per the baseline survey conducted during the year 2012, it was reported that there were 70.26 lakh households, out of which 24.84 lakhs households had toilets and 45.42 lakh households were

without toilets. Individual Household Latrines (IHHLs) were constructed for all the households that were reported to be without toilets by 19th November 2018 and Rural Karnataka was declared Open Defecation Free on 19th November 2018 on the eve of World Toilet Day.

1. **Project period: SBM (G) Phase II, 2020-21 to 2024-25.**
2. **Project outlay: Rs.368.04 Crores (2024-25).**

### **Objectives of SBM (G) Phase II**

The key objective of SBM (G) Phase II is to sustain the ODF status of villages and to improve the levels of cleanliness in rural areas through solid and liquid waste management activities, making villages ODF Plus. The above objective is to be achieved through continued Behaviour Change Communication and Capacity Strengthening at all levels.

The biggest challenge of the SBM-G Program is to sustain the Open Defecation Free Status. In this regard, to sustain the Open Defecation Free Status, and to work on ODF-Plus activities, the Ministry of Jal Shakti, Department of Drinking Water and Sanitation has obtained approval from the Union Cabinet for implementation of Swachh Bharat Mission-Gramin (SBM-G) Phase II from 2020-21 to 2024-25. The detailed guidelines have been issued vide letter no. S-11011/2/2020-SBM-DDWS dated: 08-04-2020 and 22-05-2020, by the Additional Secretary to the Government of India, Ministry of Jal Shakti, Department of Drinking Water and Sanitation.

As per the guidelines, the following ODF-S (Sustainability) and ODF-Plus activities are being undertaken.

1. Construction and usage of Individual Household Latrines (IHHL)
2. Construction of Community Sanitary Complex (CSC)
3. Solid and Liquid Waste Management (SLWM)
4. Material Recovery Facility (MRF)
5. Construction of Faecal Sludge Management (FSM) Unit.
6. Construction of GOBARDHAN Unit
7. ODF-S and ODF-Plus centric Information, Education and Communication, and Training activities.

**Implementation Methodology:** The responsibility of implementation of SBM(G) programmes and activities fully vests with the Gram Panchayat institutions.

Details of physical and Financial progress achieved from the year 2020-21 to 2024-25 under SBM (G) (by the end of December-2024) is furnished below:

Action taken on the effective implementation of Swachh Bharat Mission (Gramin) and evaluation study report.

1. State has taken up several programs to maintain Open Defecation Free (ODF) status.

Two days Divisional level ODF-Sustainability training cum workshop have been held with Executive Officers to discuss on various components like ODF sustainability, Solid and Liquid Waste Management, GOBAR-Dhan, Information Education and Communication activities and appointment of Swachhagrahis.

2. IEC cell has been established at State level to effectively implement Information, Education and Communication activities.

3. Various Information Education and Communication programs have been organized in all Gram Panchayats of the state to educate the public on cleanliness, usage of toilet and its maintenance, solid and waste management, menstrual hygiene management.
4. As per the 2012 baseline survey it was targeted to construct 2.10 lakh IHHL for the year 2024-25, out of which 0.63 lakh IHHL has been constructed.
5. Solid Waste Management units are operational in 5213 Gram Panchayats. The mission aimed to construct 100 community/public toilets in the current year and 33 community/public toilets are being constructed to meet demand.
6. Under Grey Water Management, out of 26292 villages, 26292 DPRs are prepared and works started in 5228 villages.
7. Approval has been given for the construction of 400 community toilet complexes in the Kalyan Karnataka region at a cost of Rs. 25 lakh each, of which 09 units have been completed. Work on 210 units is in progress.
8. The mission aims to construction of four model material recovery facility (MRF) units for scientifically disposal of solid waste collected in Grama Panchayats. Detailed project reports have been approved for 04 units (Ramanagara, Bellary, Dakshina Kannada, and Udupi). 04 units is completed.
9. To achieve ODF sustainability in rural areas through the Faecal Sludge Management (FSM), the project aims to establish 121 model FSM units for scientific treatment and management of faecal sludge, for which Detailed Project Reports have been approved. Out of which 33 units are completed, 88 units are under progress.
10. With the objective of producing bio gas from raw waste, currently 65 Detailed Project Reports have been approved for the construction of bio gas units, of which 48 units have been completed, and the work on pending units is in progress.
11. A total of 5,069 villages have been declared as ODF Plus Model under the Swachh Bharat Mission (G) scheme. These villages have achieved full progress in open defecation-free sustainability, solid waste management, and liquid waste management in accordance with the scheme guidelines.
12. For the year 2024-25, Rs.368.04 Crores has been allocated in the budget for implementation of SBM-G scheme. During this financial year Release Rs.174.79 available fund, Rs.76.05 crores has been spent at the end of Dec-2024.

## 4.8 RURAL ENERGY PROGRAMMES

### Biofuel Programmes in the State

#### A) The Karnataka State Bioenergy Development Board (KSBDB)

##### Objectives

- 1) Implementation of Karnataka State Biofuel Policy - 2009' for the development of biofuel resources for consistent supply chain and environment protection.
- 2) Identification of various suitable species and lands for different geo-climatic conditions to develop block plantations.
- 3) Motivation to farmers to grow various type of biofuel species an agro forestry model and generating rural employment.

- 4) Design technologies and value additions for the development of biofuels.
- 5) Invite private investors, formation of partnerships, taxation on trading, simplify in use of bio-ethanol and biodiesel blended fuel.

### 1. Implementation of Bioenergy Development Programme

- **Biofuel Plantation:** Under the Mahatma Gandhi National Rural Employment Guarantee Scheme and other forestry schemes biofuel plantation activities were taken up forest, common and farmers lands. During 2023-24 about 12.35 lakhs biofuel seedlings planted under the above scheme by Forest Department.
- **Bioenergy Research Information and Demonstration Centers(BRIDCs) :** The KSBDB has set up 34 BRIDCs in all the district across the State. These centers collect seeds from farmers, processing, value addition, marketing, training, awareness, R&D activities on bioenergy. During the year 2024-25, total 10,756 liter biodiesel produced and utilized.
- **Biofuel Parks:** 04 biofuel parks are established at Madenur, Hassan, (UAS, Bengaluru), Tinthini, Yadgiri dist, (UAS, Raichur), Dharawad (UAS, Dharwad) and Keladhi Shivappa Nayaka Agriculture and Horticulture University, Shivamogga (KSA&HUS). These parks are providing the training, processing, formation of farmers groups, development of high oil yield seedlings, R&D works etc.,.
- **Clonal Orchards :** 9 Clonal Orchards have been established in association with the State Forest Department (Research and Utilization wing) for the development of high quality yielding biofuel seedlings.
- **Bioenergy Research and Quality Assurance Laboratory :** KSBDB established the Laboratory at University of Agriculture Sciences, Bengaluru. This Laboratory has taken up research activities, testing of the quality parameters of raw material, finished and other value added products. This Laboratory is Accredited by National Accreditation Board for Testing and Calibration Laboratories (NABL).
- **Non Government Organisations (NGOs):** The Biofuel programme in Karnataka is designed to bring about total participation of the farming community, landless laborers, Self Help Groups. The board involved 12 NGOs in 12 Districts to create awareness and increase their participation in all bioenergy I activities.
- **Research & Development:** Encouraged Engineering Colleges, Universities and Premier Institutions for taking up research projects under Students Projects Programme (SPP) in association with Karnataka State Council for Science & Technology (KSCST).

### Budget Expenditure

For the Financial year 2024-25, budget available of Rs. 486.69 lakhs {Rs. 300.00 lakhs Grant sanctioned by GoK + Opening balance of Rs. 186.69 lakhs (pre-audit)}, the total expenditure up to December 2024, is Rs. 235.00 lakhs.

### Board's Biofuel's continued and Proposed activities

- **Seed collection campaign to create feedstock supply chain:** Creation of enabling environment for procurement of non-edible oil seeds collection, storage, marketing and to increase biodiesel production. Scaling-up and commercialization activities and mobilization of various biofuel resources and to create a conducive atmosphere to attract investors.
- **Developing a New Karnataka State Bioenergy Policy :** 2025 and conversion of Karnataka State Bioenergy Development Board into 'Karnataka State Bioenergy Development and Regulatory Authority', incorporating Bio-briquettes, Biodiesel, Ethanol, Biogas CBG / LPG, Bio-pilets and Green Hydrogen. The consultation process with Project Management Consultants, Experts, other Departments and Policy makers. Also study and analysis of bioenergy policies announced by the other States (Gujarat, Rajasthan, Uttar Pradesh, Bihar, Punjab, Haryana and Andhra Pradesh).

- Bioenergy Research, Information and Demonstration Centre and Bioenergy Research and Quality Assurance Laboratory established at Bengaluru Agriculture University to up-grade as a Centre of Excellence.

## B) Institutional support for Rural Energy Development

### Mahatma Gandhi Institute of Rural Energy and Development (MGIRED)

Mahatma Gandhi Institute of Rural Energy and development primarily providing awareness / training to elected representatives of rural local bodies, officers of RDPR & other related departments, School & College students, teachers, NGO, SHGs, General Public etc., on renewable energy and related subjects such as Energy Conservation, Environment Protection, Rain Water Harvesting, Improved Cook Stoves, Forestry and Leadership etc.

During 2023-24, 25 programs of 3 days residential training for GPLF / SHGs on Operation and Maintenance of Solid Waste Management Unit at GP, 30 programs of 3 days Leadership training conducted for PDO's and 348 other Trainings / Skill Development programmes were held covering 20267 participants. An amount of Rs. 481.00 lakhs has been spent towards administrative & training expenses. For 2024-25, an allocation Rs.615.00 lakhs (Including OB) is provided, of which Rs. 390.00 lakhs have been released (including OB Rs.165.00 lakhs). 244 trainings conducted covering 11953 participants by incurring an expenditure of Training & Administration Rs. 323.13 lakhs upto the end of December 2024.

## 4.9 RURAL COMMUNICATIONS

The total length of rural roads in Karnataka as on 31.12.2024 is 1,98,496 kms. Improvements of rural roads and their maintenance are being taken up under Pradhana Manthri Gram Sadak yojana (PMGSY), Namma Grama Namma Raste Yojane (NGNRY) and Mukhya Mantri Gramina Raste Abhivruddi Yojane (CMGSY).

- 1) **Pradhana Manthri Gram Sadak Yojana (PMGSY)** : PMGSY was launched with an objective to provide rural connectivity by way of all weather roads to eligible habitations having a population of 500 and above. Under this programme for the FY 2024-25 Rs 250.00 crore has been allocated, of which Rs. 105.00 crore has been spent towards 138.874 kms of road works. For the maintenance of roads Rs. 50.00 crore has been allocated, of which Rs.16.33 crore has been spent for maintaining of 4982.00 kms of road length up to the end of December 2024.
- 2) **Mukhya Mantri Gramina Raste Abhivruddi Yojane ( 5054):** During 2024-25, an amount of Rs.700.00 crore has been allocated of which Rs.522.00 crore has been released. An expenditure of Rs 340.80 crores has been incurred up to the end of December- 2024.
- 3) **Kalyana Patha:** The Hon'ble Chief Minister has announced in the State Budget Speech for the year 2024-25, in Section No. 233 regarding the Kalyan Path Scheme, "Under the Kalyan Path Scheme, a total of 1150.00 km of roads will be developed in 38 rural assembly constituencies of Kalyan Karnataka under the Pradhan Mantri Gram Sadak Yojana model at a cost of Rs. 1000.00 crores."

Accordingly, the Cabinet has approved the implementation of the Kalyan Path Scheme under the grant allocated to the Kalyan Karnataka Regional Development Board, and the Government has given administrative approval on 02.09.2024. Brief details are as follows:

1. 1150.00 km of rural roads will be implemented in the Kalyan-Karnataka areas of Bidar, Kalaburagi, Yadgir, Koppal, Raichur, Bellary and Vijayanagara at a cost of Rs. 1000.00 crores.
2. As per PMGSY norms, the Kalyan Path project works will be undertaken with a 3-stage quality control system to develop good quality roads, and the annual maintenance of the said works for 5 years and the re-asphalting work in the 6th year will be carried out by the original contractor.

3. The details of the grant for the Kalyan Path project are as follows:
  - ❖ Length of the road: 1150.00 km
  - ❖ Estimated cost: 1000.00 crores
  - ❖ Total cost required for development of the road (Rs. 66.957 lakhs/km): Rs.770.00 crores
  - ❖ Maintenance cost (08.00 lakhs/km): 92.00 crores
  - ❖ Re-asphalting cost (Rs.12 lakhs/km): 138.00 crores
2. Through the Karnataka Rural Road Development Agency, the works have been grouped into packages of appropriate amounts as per the local needs in the respective assembly constituencies.

### Pragathi Patha

The Hon'ble Chief Minister in his State Budget Speech for the year 2024-25, in Section No. 232 has announced that "The Pragathi Path Scheme will be launched with external assistance to develop the road connectivity network in the rural areas systematically and qualitatively. Under this scheme, a total road connectivity network of 7110.00 km in 189 rural assembly constituencies, each with a length of 50 km, will be developed at a cost of Rs. 5,190.00 crore."

Accordingly, the Cabinet has approved the implementation of the Pragathi Path Scheme with external assistance and the Government has given administrative approval on 02.07.2024. The brief details are as follows:

1. Roads constructed under PMGSY and NGNRY schemes and having completed the design period of 10 years will be taken up under the Pragathi Path Scheme.
2. The details of the grant for the Pragathi Path project are as follows:
  - ❖ Length of the road: 7110.00 km
  - ❖ Estimated amount: Rs. 5190.00 crore
  - ❖ External Aid (70%): Rs. 3633.00 crore
  - ❖ State Share (30%): Rs. 1557.00 crore
  - ❖ Total amount required for the development of the road (65.00 lakh/km): Rs.4621.20 crore
  - ❖ Maintenance amount for 05 years (08.00 lakh/km):Rs. 568.80 crore
  - ❖ Total cost / km: Rs. 0.73 crore
3. Currently, the said project has been approved by NITI Aayog on 11.11.2024 and approval is awaited from the Department of Economic Affairs (DEA) of the Central Government.

### Hombelaku

In order to reduce electricity consumption in Gram Panchayats, under the "Hombelaku" program, it is proposed to install about 16,666 units of solar street lights in 50 Gram Panchayats at an estimated cost of Rs. 25.00 crores at an estimated cost of Rs. 15,000/- per unit. The proposal was approved in the Cabinet meeting dated 22.08.2024.

Then, the quotations received from various organizations/manufacturers for the installation of solar streets in rural areas by the Panchayat Raj Engineering Department at a cost of Rs. 25.00 crores were compared, and

the lowest estimate received of Rs. 21,500/- was finally considered. According to the said amount, about 11,000 units can be installed, and the revised approval of the Cabinet is to be obtained.

#### 4.10 WAGE EMPLOYMENT PROGRAMMES

##### **Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS)**

Mahatma Gandhi National Rural Employment Guarantee Act is being implemented in all the districts with an objective to enhance livelihood security in rural areas by providing 100 days of guaranteed wage employment in a financial year to every household whose adult members volunteered to do unskilled manual work as per demand, resulting in evaluation of productive assets of prescribed quality and durability, Strengthening the livelihood resource base of the poor, Pro actively ensuring social inclusion and strengthening of PRIs. Funds will be shared between the GoI & GoK in the ratio of 90:10 Labour and material ratio shall be maintained at 60:40.

For FY-2024-25, an amount of Rs. 5879.65 Crores have been released against an outlay of Rs.8015.37 crores (including wage component), out of which Rs.5404.54 crores have been utilized to generate 1014.50 lakhs man days up to December-2024. A total of 45.53 lakh workers of belonging to 25.83 lakhs families have availed employment under the scheme till 31.12.2024.

14.23 lakh works have been taken up, out of which 7.67 lakh works are completed and the remaining 6.56 lakhs works are under progress.

#### 4.11 RURAL GOVERNANCE

##### **Rajiv Gandhi Panchayat Raj Fellowship**

To address the socio-economic disparities and to improve the functioning of Gram Panchayats in the 07 districts under Kalyana Karnataka Region, the Rural Development and Panchayat Raj Department has rolled out the Rajiv Gandhi Panchayat Raj Fellowship programme.

The main objectives of the Fellowship are:

- 1) To provide educated, trained and motivated young professionals to the Taluks (one per Taluk) to bring a fresh set of perspectives, ideas and thinking to aid the local administration in implementing major development programmes of the Government. They will assist in tackling the persistent socio-economic issues in the area, strengthening local democracy and increasing citizen participation in local governance.
- 2) To develop a set of young public policy professionals who are adept at gathering and acting on field insights and learnings related to local governance and implementation of initiatives, based on in-depth immersion at the District, Taluk and Gram Panchayat levels.

A fellow is placed at Taluk level and will oversee 10 Gram Panchayats to carry out Fellowship duties. Regular monitoring of the fellows and fellowship's progress is done by a Program Management Unit situated at the Karnataka Panchayat Raj Commissionerate.

The Fellowship will be for a period of 02 years from the start of the programme and each fellow is entitled to a stipend of 60,000 rupees per month along with a maximum Travel allowance of 1,500 rupees per month.

Currently, there is a fellow each in 43 Taluks actively fulfilling the Fellowship duties in their assigned Gram Panchayats. Through another round of recruitment, Fellows were selected for the vacant 08 Taluks and are currently undergoing intensive Orientation and Training.

## Responsibility Mapping

By scientifically formulating the responsibility mapping, files have been sent to the concerned departments regarding the transfer of functions allocated to the Gram Panchayats under the 73rd Amendment to the Constitution to the Gram Panchayats. Out of these, notification has been issued for the responsibility maps related to the Health and Family Welfare Department, Scheduled Tribes Welfare Department, Agriculture Department, Agriculture Department - Watershed development activities, Horticulture Department Sericulture Department. Follow up steps have been taken to issue the responsibility maps of the remaining departments.

## Vision Plan and Integrated Participatory Annual Action Plan (IPAAP)

The 73rd Amendment to the Constitution has transferred 29 functions to the Panchayat Raj Institutions and Karnataka has made significant progress in strengthening these institutions along with empowering the community. The provisions of the Karnataka Gram Swaraj and Panchayat Raj Act have provided a good opportunity in this direction. An important provision as per Section 309 (8) of this Act relates to the preparation of vision plans by the Gram Panchayats after the elections. It should be prepared keeping in mind the state and local goals besides involving the community through participatory rural appraisal.

The state has considered the local sustainable development goals in the preparation of the vision plan and among the Panchayat Raj institutions, especially the Gram Panchayats are the focal points for these achievements. The state had identified the following areas for preparing the Gram Panchayat Vision Plan.

- Poverty, Livelihood and Skill Development
- Health
- Education
- Women and Child Development
- Environment and Natural Resources
- Socially Secure Panchayats
- Infrastructure Self-reliant Gram Panchayats
- Good Governance

For each of the above areas, indicators were also identified for the purpose of setting targets and the Gram Panchayats have collected the relevant data with the support of officers from other development departments.

The following process was adopted for preparing the plan at the Gram Panchayat level:

- Stage – 1 : Formation of Gram Panchayat and Village Planning Teams,
- Stage – 2 : Second stage data collection.
- Stage – 3 : Focus group discussions and participatory rural assessment
- Stage – 4 : Situation analysis.
- Stage – 5 : Preparation of draft vision plan
- Stage–6 : Organizing meeting of Gram Panchayat Standing Committee on Accounts, Audit and Projects.
- Stage – 7 : Gram Panchayat Meeting (Standing Committee to discuss the proposed draft vision plan)
- Stage – 8 : Organizing meetings of settlements, ward meetings and village meetings.

Stage – 9 : Discussion and consolidation by Gram Panchayat General Meeting.

Stage –10 : Consolidation of Gram Panchayat Vision Plan and indexing of information in Panchatantra 2.0 portal.

All the Gram Panchayats have their perspective plan. The Integrated Participatory Annual Action Plan-Grama Panchayat Development Plan is prepared on the basis of GP Perspective Plan.

## **e-governance**

### **Mojini Services available in Bapuji Seva Kendra**

People in rural areas can apply for the services of “11e Map”, “Application for Tatkal Payment of Land”, “Application for Land Conversion” and “Application for Haddu basthu” at the Bapuji Seva Kendras of Gram Panchayats.

### **Promotion of digital payments in Gram Panchayats**

Android PoS machines have been provided by the government to all 5951 Gram Panchayats of the State. Property tax collection of Rs.1,013/- crore has been done through the said machines.

For the first time in the country, the public has been enabled to pay the property tax of Gram Panchayats through Phone Pe, Google Pay, Paytm and other media. The public can pay the property tax without visiting the Gram Panchayats. Rs.16.94/- crore property tax has been collected through the said devices.

### **Services of Atalji Janasnehi Kendras**

Along with the important services of AtaljiJanasnehi Kendra (Nadakcheri) such as “Income Certificate”, “Caste and Income Certificate” and “Residence Certificate”, a total of 44 AtaljiJanasnehi Kendra (Nadakcheri) services have been provided at the Bapuji Seva Kendras of the Gram Panchayats.

### **Panchmitra Portal**

A single platform called “Panchamitra” has been developed and implemented by the Department of Rural Development and Panchayat Raj to provide information and details of all the Gram Panchayats in the state under the Department of Rural Development and Panchayat Raj, to apply online for services related to Gram Panchayats, to check the status of applications submitted, and to register grievances related to Gram Panchayats.

### **Panchamitra Whatsapp Chatbot**

Whatsapp Chatbot is developed and implemented for the first time in the country to get various information and details of all the Gram Panchayats of the state, to apply the services related to Gram Panchayats online, to check the status of applications and to register grievances related to Gram Panchayats. So far, 1,70,659 users have used PanchamitraWhatsapp Chatbot and 7,136 grievances have been registered through Panchamitra Whatsapp Chatbot.

### **Various Meetings in Gram Panchayats**

With the aim of bringing transparency in the Gram Panchayats, attendance and preparation of proceedings of meetings of Gram Panchayats like Gram Sabha, Ward Sabha, Standing Committee Sabha etc., Meeting Management module has been developed and implemented in Panchatantra 2.0 software. Till now, 1,10,369 various meetings of Gram Panchayats have been organized.

## INTRODUCTION

### 5.1 URBANIZATION

Urbanization is an index of transformation from traditional rural economies to modern industrial one. It is a long-term integral process of economic growth.

Karnataka is the seventh largest state in India with 38.67 % of urban population as per 2011 census. Karnataka exhibits a fluctuating trend of urbanization with a high regional variation and a high urban primacy. Disparities exists in urban growth with Bangalore being the most urbanized district (90.94 %) and Kodagu the least (14.61 %). Udupi and Dakshina Kannada districts are urbanizing faster while Uttara Kannada, Raichur and Gadag have registered very slow growth. Total 70 percent of urban population lives in 10 % of towns /urban agglomeration, with Bangalore being the primate city. There is a positive association between city-size and growth rate during 2001-2011. Thus, urbanization in Karnataka reflects lopsided economic development across the state and needs special attention.

Under Urban Development sector the State aims at creating and fostering democratically vibrant urban local bodies and providing policy framework for achieving sustainable, efficient and equitable urban areas of the state through inclusive urban growth by working collaboratively with Urban Local Bodies (ULB's) and other stakeholders. It also ensures smart, efficient affordable and sustainable towns and cities that meet developmental needs of all.

The State Government has various interventions targeted towards improving the various urban sectors as outlined below:

For the year 2024-25, an amount of Rs.15056.89 crore has been allocated in budget for the implementation of various programs of which Rs.12875.56 crore has been spent up to end of December 2024.

### 5.2 URBAN HOUSING

Growth of Urban area has led to growing demand for housing. Keeping this in view, housing is emerging as a prime component over the period not only in providing shelter but also in providing employment opportunities and in development of new residential agglomeration. To meet the growing demand of housing, the State has been pro-active in the implementation of its housing policies. Further, housing for the poor and downtrodden assumes greater importance both in rural and urban areas of the State. Allocation for the housing sector is being increased over the years along with formulation of facilitating policies and guidelines.

**5.2.1 Karnataka Housing Board (KHB)** caters to housing needs of low income, middle income and high-income groups. The Karnataka Slum Development Board (KSDB) is responsible for improvement of slums and resettlement of slum dwellers.

Karnataka Government is implementing many schemes like “Vajpayee Urban Housing Scheme”, Dr.B.R. Ambedkar Nivasa Yojane, Pradhan Mantri Awas Yojana- Housing for All (PMAY-U), Devraj Urs Housing Scheme etc., to caters to need of urban poor and distribution of sites to site less persons through Vajpayee Urban Site Scheme in urban areas for EWS site-less families in the state. These schemes are implemented through Rajiv Gandhi Housing Corporation Limited.

During 2024-25, Totally 17228 houses have been constructed in urban areas under different housing schemes up to end of December 2024, of which 4148 houses under Vajpayee Housing Scheme, 103 houses under Devaraj urs Housing scheme 2049 houses under Dr. B.R. Ambedkar Nivasa Yojane and 10928 houses have been constructed under PMAY (U). Number of Houses constructed under various housing schemes from 2021-22 to 2024-25 are mentioned in the table given below.

**Number of Houses constructed under various housing schemes (urban) from 2021-22 to 2024-25**

| Year      | Name of the Housing Scheme     |             |                            |             |                                 |             |          |             | Total  |             | House sites distributed |             |
|-----------|--------------------------------|-------------|----------------------------|-------------|---------------------------------|-------------|----------|-------------|--------|-------------|-------------------------|-------------|
|           | Vajapeyee Urban Housing Scheme |             | Devaraj Urs Housing Scheme |             | Dr. B.R. Ambedkar Nivasa Yojane |             | PMAY (U) |             |        |             |                         |             |
|           | Target                         | Achievement | Target                     | Achievement | Target                          | Achievement | Target   | Achievement | Target | Achievement | Target                  | Achievement |
| 2020-21   | 12500                          | 5266        | 0                          | 221         | 10000                           | 3503        | 9000     | 8296        | 31500  | 17286       | 502                     | 866         |
| 2021-22   | 9000                           | 3368        | 0                          | 297         | 3000                            | 2755        | 80000    | 22325       | 92000  | 28745       | 11058                   | 12426       |

\*\* Upto end of Dec. 2024

### 5.2.2 One Lakh Multi Storey Bengaluru Housing Programme

The “1 Lakh Multi Storey Bengaluru Housing Programme” has been formulated based on a Self-Sustaining model for construction of “1 Lakh multi-Storey Houses” in and around Bengaluru for the EWS and other eligible poor on the Government land provided by Revenue Department by mobilizing the funds under State Schemes viz., Dr. Ambedkar Nivas Yojana and Vajpayee Urban Housing etc., in convergence with the “Pradhan Manthri Awas Yojana (Urban) -Housing for all (HFA)” scheme of the Government of India along with beneficiary contribution and cross-subsidy by leveraging suitable Government lands wherever possible under PPP models.

Construction of 48,950 (G+3 to S+14) Multi Storied buildings including infrastructure have been taken up in 5 Taluks of Bangalore Urban District in the first and second phases. About 4561 houses have been completed. 4030 Houses are under completion Stage and remaining houses are under different stages of construction by incurring an expenditure of Rs.2074.68 Crore up to the end of December 2024.

**5.2.3 The Karnataka Slum Development Board** was constituted in July 1975 as per Karnataka Slum Areas (Improvement and Clearance) Act, 1973 for the welfare and development of slums. This was re-designated as Karnataka Slum Development Board during 2010. The main objective of the Board is to provide Basic amenities to the slum dwellers and to provide shelter to the needy beneficiaries in the slums.

|                                               |        |
|-----------------------------------------------|--------|
| Total Urban Population (2011 Census) in lakhs | 217.97 |
| Total Slum Identified                         | 3008   |
| Total Number of Notified slums (as per Act)   | 2866   |
| Total Number of Non-Notified Slums            | 142    |

As per the survey conducted by Board there are 3008 slum areas in state as at the end December 2024. Out of which 413 slum areas are in Bangalore City. Totally 2866 slums are notified in the State under the Karnataka Slum Areas (Improvement and Clearance) Act 1973, and 142 non-notified slums are there. During 2024-25, an amount of Rs. 30 Crore has been provided in the budget and Rs.22.50 Crore has been spent up to end of December 2024 (By utilizing opening balance funds) towards providing basic amenities in slums.

#### 5.2.4 Prime Minister Awas Yojana – “Housing for All”

It is a centrally sponsored programme implemented in Slum Areas in the State at the cost of Rs.10975 crores to construct 1,80,253 houses along with Infrastructure facilities approved by Central and State government 76632 houses are under completion stage and remaining are under progress up to end of December 2024 Central govt. share of Rs.1402.82 crores, State Govt. Share of Rs.1498.24 crores and Rs.1975.84 crores have been collected from Beneficiaries and different sources in its shares at the end of December -2024.

#### 5.2.5 Urban Infrastructure

Urban infrastructure consists of drinking water, sanitation, sewage systems, electricity and gas distribution, urban transport, primary health services, and environmental regulation in order to keep up with the demands of economic development and population growth. This infrastructure is necessary to continue to progress societies and improve living standards.

#### 5.2.6 Water Supply and Sanitation

Karnataka (the State) is one of India's most water-stressed states. With approximately 38% of the state's population living in urban areas, against 28% for the country as a whole. However, without effective management of available resources, water will become the main constraint on economic development.

The Karnataka Urban Water Supply and Drainage Board (KUWS & DB) is one of the implementing authorities for providing Water Supply and Sewerage in 316 urban areas of Karnataka except Bruhath Bangalore Mahanagara Palike. The 253 urban areas are provided with safe drinking water from surface source, and 63 Urban Local Bodies are being supplied drinking water from Sub-Surface source.

During the year 2024-25, Board is implementing the total of 60 Water Supply Schemes & new proposed 26 water Supply schemes with a budget allocation of Rs.300.00 Crores. Among these 17 on-going (category B & C) Drinking Water Supply Schemes. During the current year, Board aims to commission 9 water supply schemes. So far 2 No. of Water Supply scheme are commissioned viz., Ramanagara & Ullala and the remaining are in progress. Also implementing 97 Under Ground Drainage schemes including 72 new Under Ground Drainage schemes with a budget allocation of Rs.300.00 Crores. Among these 51 on-going (category B & C) Schemes, Board aims to commission 23 Under Ground Drainage schemes during the current year. So far 4 Under Ground Drainage schemes are commissioned viz., Shikaripura, Sagar, MK Hubli & Ainapura and the remaining Under Ground Drainage schemes are in progress.

The Karnataka Integrated Urban Water Management Investment Program (KIUWMIP) aims to improve water resource management in urban areas in a holistic and sustainable manner. Investment support will be provided to modernize and expand urban water supply and sanitation (UWSS) while strengthening relevant institutions to enhance efficiency, productivity, and sustainability in water use.

**The Karnataka Integrated Urban Water Management Investment Program:** KIUWMIP is implementing ADB assisted programme to provide Under Ground Drainage (UGD) facility and continuous water supply to selected towns/cities and reforms in Urban Local Bodies. The cost of the project is Rs.2584.00 crore which includes Rs.975 Cr of ADB share. This project covers 377 square Km area and benefits 1.3 million populations. During the current year Rs.50.00 crore is allocated, of which Rs.70.92 crores (incl. ULB contribution) were spent up to end of the December 2024.

Total 27 works are taken up under KIUWMIP. Four (04) UGD works & Eight (08) Water Supply works are taken up in Davanagere, Harihara, Ranebennur and Byadgi towns under Tranche-1 and Eight (08) UGD & Seven (07) Water Supply works are taken up in Mangaluru, Puttur, Udupi and Kundapura towns under Tranche-2. Total 17 works (Ten (10) work in Tranche-1 and seven (07) works in tranche-2) are completed. Total project cost for

Tranche-1 and Tranche-2 is Rs.1238.82 Cr & Rs.1345.18 Cr and expenditure is Rs.1145.82 Cr & Rs.1110.13 Cr respectively up to the end of December 2024.

**KUWSMP**, based on the success of 24x7 water supply in Demonstration Project, World Bank Assisted “Karnataka Urban Water Supply and Modernization Project” 24x7 water supply system is being implementing in Hubli-Dharwad, Belagavi and Kalburagi entire corporation areas. The cost of the project is Rs.3740.80 crore which includes Rs.1881.10 Cr of World Bank share.

This project covers entire Corporation areas and benefits 9.44 lakh population in Hubballi-Dharwad, 4.90 lakh population in Belagavi and 5.43 lakh population in Kalburagi cities. The scheme period is 5 years Design Built period and 7 years Operation & Maintenance. It is expected to complete by June 2025. During the current year Rs.150.00 crore is allocated, of which Rs.226.52 crores were spent (by utilizing the opening balance amount) up to end of the December 2024.

### 5.2.7 Jalashuddi Mission (Used Water Management)

KUIDFC is implementing Used Water Management (UWM) in the ULBs as nodal agency under Swatch Bharat Mission (Urban)-2.0 and Hon’ble National Green Tribunal (NGT) Environment Compensation Fund. A grant of Rs.3277.28 crore has been approved for the selected cities. The progress of the project is mentioned below.

1. 110 cities/towns have been selected under NGT. A grant of Rs.400.24 crore is approved for construction of Sewage Treatment Plants (FSTPs) and works are under implementation in 57 cities. The tender has been approved and work order has been issued for 17 cities. The tenders process for the remaining 36 cities is under progress.
2. A grant of Rs.1518.00 crore for 54 cities/towns have been selected to take up construction/upgradation of sewerage system. Work orders have been issued for 5 works in two cities. The remaining works are under different stages of implementation.
3. Under Swatch Bharat Mission (Urban)-2.0, 268 cities/towns have been selected and Rs.1359.04 crore has been approved for undertaking construction/upgradation works of Waste Treatment Plants (STPs). The progress of the project is under different stages of implementation.

### 5.2.8 Bangalore Water Supply and Sewerage Board:

Bangalore Water Supply and Sewerage Board is an autonomous body formed by the State legislature under Bangalore Water supply and Sewerage Board Act to provide Water Supply & Sewage disposal. It is one of the first Water supply & Sanitation Utilities in India with jurisdiction of entire Bruhat Bengaluru Mahanagara Palike covering an area of 800 Sqkm.

It has the following mandates: Adequate water supply to meet demand; creation of sewerage network & safe disposal of sewage; Preparation, implementation of plans & schemes for augmenting water supply & safe disposal of sewage; Levy and collection of water charges on ‘no loss no profit basis’s for sustainability of the system.

Since its inception in the year 1964, BWSSB has executed several water supply and sewage schemes for the city, including the prestigious Cauvery Water Supply Scheme (CWSS) Stages I, II, III & Stage IV Phase - I, Phase - II and sewerage system improvement projects concentrating on sewage collection, conveyance and treatment works. Under the sewerage components, the project involves the construction of 14 Sewerage Treatment Plants (STPs) with a total capacity of 124 MLD, installation of 8 Intermediate Sewage Pumping Systems (ISPS), covering 110 villages and laying of 214 Kms of Trunk sewers network is in progress.

### 5.2.9 Initiatives taken in 2024-25

The project cost of Cauvery Water Supply Scheme Stage - V is Rs.5550crores funded by JICA brings 775 MLD of additional water to Bengaluru, benefiting 110 newly added villages and water-scarce zones. Water supply infrastructure spanning 2770 km and 1480 km of UGD laterals for 110 villages is ready, with a project cost of Rs. 2500 crores. Upgrading 20 existing STPs at Rs. 1400 crores to meet KSPCB standards, focusing on water reuse for non-potable purposes and inter-district supply. To address the 268 MLD sewage treatment gap, 150 MLD STP under AMRUT is progressing. Rs.441 crores approved for seven projects to enhance sewage management is under progress.

### 5.2.10 Sanitation

Proper sanitation promotes health, improves the quality of the environment and thus, the quality of life in a community. Sanitation refers to the safe collection, transportation, treatment and disposal of human wastes.

Sanitation is one of the most important aspects of community well-being because it protects human health, extends life spans, and is documented to provide benefits to the economy.

### 5.2.11 Swachh Bharat Mission

Swachh Bharath Mission (SBM) was launched on 2nd October 2014. The Mission has the following components viz,. Household toilets, Community toilets, Public toilets, Solid Waste Management (SWM), IEC & Public Awareness and Capacity building and Administrative & Office Expenses (A&OE).

The main Objective of Swachh Bharat Mission is to eliminate open defecation and to ensure scientific Management of Municipal Solid Waste. Under the said programme, State has envisaged construction of 3.21 lakhs of Individual Household Latrines (IHHLs), 11033 Community Toilet Seats, 5407 Public Toilet Seats. 3.20 lakhs Individual Household Latrines (IHHLs) have been constructed up to the end of December 2024. Administrative approvals have been accorded to 219 DPRs to establish scientific SWM processing and disposal facilities with a total estimated cost of Rs. 1501.31crores.

In the last one-year 1321 IHHL's have been constructed and 203 ULB's have been certified as ODF, 97 ULB's have been certified as ODF (+) and 10 ULB's have been certified as ODF (++) by Third party inspection Agency. And also 8 ULBs have been certified as GFC and 2 ULBs have been certified as Water+. In the State Current Source segregation progress is 77% and MSW Processing and Disposal progress is 73%. Rs. 98.68crs amount has been released to newly upgraded ULBs for implementation of SWM component. In Swachh Survekshan 2023, Mysore and Hosadurga Urban local bodies of Karnataka have bagged the awards.

### Swachh Bharat Mission-2.0

The main objective of SBM 2.0 is to convert all Cities to Garbage Free City, to sustain Open Defecation Free status and awareness creation through IEC activities along with large scale citizen outreach to intensify Jan Andolan and to provide training to all stakeholders. Eligible components of SBM-U 2.0 are: Sustainable Solid Waste Management, Sustainable sanitation, Used water management, IEC and Capacity Building.

Action plan has been prepared as per the Mission Guidelines and obtained the approval from High Powered Committee for all the components. Accordingly, the overall project cost is Rs 5098.00 crores and the scheme will be implemented in all the ULBs of the State as per the scheme guidelines. The execution of approved works is under different stages of implementation.

### 5.2.12 Atal Mission for Rejuvenation and Urban Transformation (AMRUT)

The Central Government has launched this scheme with a 50:50 ratio during 2015 and under these 27 cities of the state with a population of one lakh and above are selected under this scheme. Govt. of India has approved

Rs.4952.87 crore for the entire mission period of 5 years. Of this, about 4531.42 crores are earmarked for Water Supply and UGD schemes. The cumulative expenditure under the scheme is Rs.4571.57crore up to December 2024. The expenditure during 2024-25 Rs.518.52 crore and 14 works have been completed up to end of December 2024.

## AMRUT 2.0

This is a Centrally Sponsored Scheme with the mission period from 2021-22 to 2025-26. AMRUT 2.0 is a step towards Aatma Nirbhar Bharat with the aim of making city's water secure and functional water tap connections to all households.

Government order has been issued to implement the Water supply project under AMRUT 2.0 in 287 cities/towns having less than one lakh population and Rejuvenation of Water bodies and development of green spaces and parks in all cities for total amount of Rs.9256.00 Crore and including Central Assistance of Rs.4628.00Crore. Out of this total amount Rs.539.28 Crores has been earmarked. The remaining amount of Rs.8716.72 Crore for universal coverage of water supply in all selected towns. Total grant of Rs.1687.21 crore has been released for implementation of the project.

Out of total 703 projects, DPR is prepared for 226 Projects, for 216 DPRs administrative approval has been obtained from SHPSC. Tender has been awarded to 170 projects and the remaining 477 Projects are under the DPRs preparation stage. Expenditure of Rs. 1411.04crore is incurred up to end of November 2024.

### 5.2.13 Smart City Mission

Government of India has launched Smart City Mission during 2015 and has contemplated to cover in five years with an objective to provide a fillip to the development of innovative smart solutions that directly impact the needs of the cities. In Karnataka 7 cities have been selected under Smart City Mission and Rs.6817.76 crore (Rs.3372.88 crore from GoI and Rs.3444.88 crores from GoK) have been released and Rs. 6439.97 crore has been spent up to end of December 2024.

### 5.2.14 Urban Transport

The Directorate of Urban Land Transport has implemented several initiatives including service level benchmarking in Bengaluru; preparation of policies on parking, preparation of comprehensive mobility plans for 16 cities; feasibility studies for mass transit systems (Suburban Rail Projects) etc. It is also working in tandem with BBMP and other city corporations on Non-Motorized Transport (NMT) initiatives. The Bus Rapid Transit (BRT) system between the twin cities of Hubballi and Dharwad, taken up by Directorate of Urban Land Transport has been completed and commissioned for public use. DULT is also spearheading the implementation of Suburban Rail Projects in Bengaluru through K-RIDE. To improvise Public Transport in the State, DULT has closely collaborated with state transport undertakings for the development of infrastructure like terminals, workshops, depots etc.

### 5.2.15 Bengaluru Sub-Urban Rail Project

Bengaluru Sub-Urban Rail Project at a completion cost of Rs. 15,767 Crores has been taken up for implementation through a joint venture company K-RIDE. Under the project a total rail route of 148.17 kms will be constructed in four Sub-Urban Rail Corridors as detailed below;

| Corridors   | Section                        | Length in Kms. |
|-------------|--------------------------------|----------------|
| Corridor -1 | Bengaluru – Devanahalli        | 41.40          |
| Corridor -2 | Byappanahalli – Chikkabanavara | 25.01          |

| Corridors   | Section                      | Length in Kms. |
|-------------|------------------------------|----------------|
| Corridor -3 | Kengeri-Bengaluru Cantonment | 35.52          |
| Corridor -4 | Heelalige – Rajanukunte      | 46.24          |
|             | <b>Total</b>                 | <b>148.17</b>  |

The project's implementation will be completed in 6 years and is expected to provide affordable and sustainable transport to around 8.9 lakh commuters daily and boost transit-oriented development.

Civil work for corridor-2 of 25 km from Byappanahalli to Chikkabanavara has been awarded to L&T with a completion period of 27 months and the civil works are in progress. Civil work for Corridor-4 of 46.2 kms from Heelalige to Rajanukunte also awarded to L&T with a completion period of 30 months and the preliminary civil works are in progress. Tenders have been floated for the construction of station building work in corridor-2 and corridor-4 and track laying works in corridor-2.

Necessary approval has been accorded by GoI for borrowing external loan assistance from KFW and EIB for 800 million Euro and loan agreement with KFW for 500 million Euros has been signed.

### 5.2.16 State Urban Transport Fund

Government of Karnataka has set up the State Urban Transport Fund (SUTF) on 26.11.2010. The fund is primarily mobilised through levy of 1% cess on motor vehicle tax (MVT) and 2% cess on property tax which were supplemented with some budgetary support from Government of Karnataka during some years.

The State Urban Transport Fund has been leveraged to promote DULT's mandate across cities in Karnataka. The fund has been used to provide assistance for introduction of Public Transport System in cities of Karnataka, assistance for construction of Transit Infrastructure in cities, implementation of Non-Motorised Transport systems and development of projects/feasibility study reports etc. An Empowered Committee constituted by the Government under the Chairmanship of Commissioner, DULT is responsible for the management and oversight of SUTF.

Over a period of 12 years from 2012 to 2024, 93 projects have been completed. The completed projects include projects such as construction of bus terminals, bus depots, tyre re-treading workshops, bus-only flyovers, introduction of public transport in the 16 cities for the first time and in 8 cities augmentation of city bus services enhancing the existing Public Transport services by the agencies (BMTC, KSRTC, NEKRTC, NWKRTC).

All the completed projects have been commissioned for public use. About Rs.837.31 Cr. have been provided as financial assistance under SUTF over these years. During the year 2024-25, Rs 81.01 crore has been spent up to end of December 2024.

### 5.2.17 Advance Traffic Information and Management System (ATIMS)

The Directorate of Urban Land Transport with financial grant from the Government of Japan is implementing the ATIMS system at 28 junctions in core parts of Bengaluru. Japanese government has provided grant of about Rs.78 Crores for implementation of this project. The State Government will provide a grant of Rs.34.43 crore over a period of five years for post-implementation operation and maintenance. The following are the two main works implemented under this project.

- B-TIC (Bengaluru Traffic Information Center) will be set up to enable collation and analysis of mobility data and for dynamic traffic information provision to various stakeholders.
- ATCS (Area Traffic Signal Control System) Japan's ultra-modern traffic signal technology MODERATO is implemented at 28 junctions for optimal signal control.

The project has been completed in all respects, test checking the signal system has also been completed and it is planned to commission for public use by the end of December 2024.

### 5.2.18 Bus Priority Lanes

#### 1) 'Kalyana Marg' - Kalburagi Bus Priority Lanes

BPL plan for Kalburagi city comprising a total length of 13.68 kms was developed by DULT in-house at an estimated cost of Rs.19.07 crore. This project is taken up for implementation by Kalburagi City Corporation and KKRTC. The funding support is provided under SUTF by DULT. Three works have been awarded and work is in progress.

#### 2) Research & Innovation

The DULT has formulated the Research & Innovation Policy to provide the necessary impetus to support research initiatives and accelerate innovation in sustainable urban mobility. The Centre for Research & Innovation (CERI) has been set up under the Directorate of Urban Land Transport to promote and engage in research initiatives and to leverage the existing innovation system in urban mobility.

#### 3) CLP Bangalore

Bengaluru's City Logistics Plan (CLP) has been prepared with technical support from GIZ and is approved by the CLCC Committee. The supervision of the implementation of this CLP will be entrusted to the sub committees of CLCC being formed. In respect of other cities of the state such as Mysore, Hubballi-Dharwad and Tumkur where preparation of CLP's are undertaken, the data collection work is in progress. Rapid assessment of various urban freight sectors in Bengaluru was done by DULT to map the freight infrastructure and to identify the major stakeholders and data gaps. Sectoral analysis has been carried out for 3 sectors in Bengaluru, that is, Perishables (fruits, vegetables etc.,) Readymade Garments and Construction Industry.

### 5.2.19 BMRCL

In order to augment to the public transportation in Bengaluru and also to reduce the pressure of traffic, Metro Rail has come up in Bengaluru. It is a vital component of the transformation of the urban transport scenario. With urban population continuously growing, there is a need for green solutions. Mass Rapid Transit Systems are fast, safe and comfortable to travel. This alone will encourage people to switch over from personalized vehicles to public transport.

- I) **Bangalore Metro Rail Project Phase-1:** having a total track length of 42.3 Kms, is already running from past several years. East to West from Byaippanahalli to Mysore Road (18.10 Kms) and North to South from Nagasandra to Yelachenahalli (24.20 kms).
- II) **Bangalore Metro Rail Project Phase-2:** consists of Extensions to 4 existing lines and 2 New Lines. The total length of Phase-2 is 75.06 Kms with 61 stations (49 Elevated and 12 Underground). The estimated project cost is Rs. 30695 Cr. Presently, 34.65 Kms is completed and commissioned, Phase-2, R5 New Line from R.V. Road to Bommasandra having a length of 19.15 Kms is programme to commissioned by March 2025. Phase-2, R6 New Line from Kalena Agrahara to Tavarekere (Elevated) having a length of 7.50 Kms is programme to commissioned by December 2025. Tavarekere to Nagawara (Underground) having a length of 13.76 Kms is programme to commissioned by December 2026.

#### III) Bangalore Metro Rail Project Phase-2A and 2B

The construction of 58.19 Kms long Outer Ring Road - Airport Metro, Phase-2A Central Silk Board junction to Krishnarajapura and Phase-2B Krishnarajapura to Bengaluru International Airport via Hebbal at an estimated

cost of Rs. 14,788.10 Cr. is in progress. Physical and Financial progress are 45.00% & 47.90% respectively up to end of December-2024. Civil works are under progress and details are as below:

- **Phase-2A:** Land Acquisition has been completed. Utility Shifting is nearing to completion. Civil works are in progress.
- **Phase-2B:** 98% Land Acquisition has been completed. 86% Utility Shifting are completed. Civil works are in progress.
- **Phase -2A & 2B:** are programmed to complete by June-2026 & Dec-2026 respectively.

## New Project

### Bangalore Metro Rail Project Phase-3

- Bangalore metro Rail Project Phase-3 having a length of 44.65 Kms with 31 stations and having Two Elevated Corridors:
  - ❖ **Corridor-1:** J.P. Nagar 4th Phase to Kempapura along ORR West for 32.15 Kms and 22 stations.
  - ❖ **Corridor-2:** Hosahalli to Kadabagere along Magadi road for 12.50 Kms and 9 stations.
- Corridor-1 completes the network on ORR as a continuous ring with direct connectivity to the Airport.
- The estimated Project cost is Rs. 15,611 Cr.
- The project is proposed to be implemented through equity sharing model.
- The project has been approved by GoK on 29.10.2022 and GoI on 13.09.2024. Presently, preliminary works like Land Acquisition, Utility Shifting and Soil Investigation are under progress.

## Proposed Project

### Bangalore Metro Rail Project Phase-3A

- Bangalore Metro Rail Project Phase-3A having a length of 36.59 Kms from Sarjapur to Hebbal. The project consists of 22.14 Kms of Elevated and 14.45 Kms of Underground sections with 28 stations. Depot is planned at Sarjapura. Government of Karnataka has approved the DPR and submitted to Government of India for its approval.

## 5.2.20 Bruhat Bengaluru Mahanagara Palike (BBMP)

The Bengaluru Mahanagara Palike (Bengaluru City Corporation) was established in 1949 by merging two separate municipalities, which were in charge of the administration of the “City Area” and the Cantonment Area of the city and the Population of Bengaluru at that time was about 0.75 million. The municipal corporation started with 7 divisions with as many elected councilors. This was subsequently increased to 50 divisions. The area of the city was expanded to include 87 wards in 1991, 100 wards in 1995 and 198 wards in 2007. Prior to the formation of Greater Bengaluru, the city had an area of 224 Sq.km and 100 wards represented by councilors in the city corporation. 7 CMCs, 1 TMC and 110 villages were added to BBMP.

Presently BBMP comprises of 8 zones viz, R.R. Nagar, Bommanahalli, Dasarahalli, Mahadevapura, Yelahanka, Bangalore East, Bangalore South and Bangalore West. BBMP has taken up many infrastructure projects like Flyovers, Underpasses, comprehensive development of arterial and sub arterial roads, Grade separators, Signal free roads, White topping, road widening which smoothened the traffic flow of Bengaluru. During the year 2024-25 a sum of Rs. 3000.00 crores have been allocated by the State Government to BBMP, of which a

sum of Rs.2000.00 crores have been spent for special infrastructure projects. A separate company by name Bangalore Solid Waste Management Limited which is formed by collaboration of the State Government and BBMP is effectively managing the Solid Waste Management in the City.

### 5.2.21 Bengaluru Development Authority (BDA)

Bengaluru Development Authority has undertaken the formation of a new layout viz. Nada Prabhu Kempegowda Layout. The Scheme involves acquiring of farmers land, compensating them in developed layout under 60:40 ratio. Instead of land compensation, 40% of the developed sites will be given to the land owners as compensation. About 25324 sites of different dimensions of intermediate sites have been formed and 8680 sites have been allotted to the general public, 11527 sites to the land losers, 1433 sites as alternative to the allottees of Arkavathi layout and 1131 sites to the land losers of the Major Arterial Road.

#### Arkavathi Layout

In an extent of 567 acres 04 guntas different dimensions of 8286 no's intermediate sites formed and allotted to the general public and among 889 corner sites 260 no's of site is in e-auction process. An amount of Rs.150.00 crores has been deposited to BWSSB for supply of water supply and UGD to the layout and accordingly, BWSSB has taken up the work and is in progress.

#### Dr. Shivarama Karanth Layout

In the notified extent of 3837 acres 5.25 guntas of land, about 2800 acres of land has been handed over to engineering section. The draft plan is prepared by allocating the provision of parks, open spaces and CA sites as per the zonal regulations of RMP 2015. Accordingly, approval is obtained for the scheme plan. In the estimated cost of Rs.5337.00 crores, the basic infrastructures like water supply (ground level reservoir, overhead tank, bore well) for drinking water, drainage facilities (machine hole pumping station and sewage treatment plant) electrification (substation, receiving station, construction of transformer, providing street light lamps) storm water drains, construction of roads, culvert, layout is divided into nine sectors and the work is in progress. As per the request of the contractors, mobilization advance amounting to Rs.117.00 crores have been paid to the contractors and Rs.93.25 crores have been recovered. An amount of Rs.1483.2 (Including GST) crores have been paid to the contractors. Out of Rs.69.98 crores, Rs.34.99 crores have been deposited to BESCOM department.

#### Peripheral Ring Road Project

The amount required for the Peripheral Ring Road Project is planned to obtain from HUDCO organization and in turn the State Government has accepted to produce the Bank Guarantee accordingly. Total extent of land required is 2565 acres out of which final notification is done for an extent of 1810 Acres 18.50 guntas land acquisition process for the remaining extent is under progress. Preliminary notification for the said remaining land is issued and final notification is under progress.

#### Hebbal flyover works

BDA has taken up the widening of the existing flyover on National Highway-44 at Hebbal Junction on Outer Ring Road. Partial two/ three/four lane widening of the road from Bangalore International Airport towards Bangalore city is under progress. Out of 37 piers, flyover from Baptist Hospital towards the airport, pile foundation for 27 pier and 23 pier construction is completed. out of which Installation of Girders for 7 spans is completed.

## 5.2.22 Municipal Finance and ULBs in Karnataka

### Directorate of Municipal Administration (DMA)

#### Role & Responsibilities

- Nodal Agency for regulating day to day governance of 315 ULBs including Corporations in the State (except BBMP)
- Supervising administration in Corporations & ULBs as mandated in Corporations Act, Municipal Acts and its interpretation.
- Facilitating implementation and monitoring of schemes of State and Central Government.
- Formulating recruitment and service rules for corporations, municipal employees and officers.
- Regulating service delivery in Corporations & ULBs.
- The Directorate of Municipal Administration is the Nodal Agency to monitor the Administrative, Developmental and Financial Activities of the Corporations & ULBs coming under its jurisdiction.

### 5.2.23 Chief Minister Amrutha Nagarothana (Municipality) Phase-4:

This project is implemented in 302 ULBs with an allocation of Rs.3885 crore. Drinking Water Supply works, road improvement, road side drains, footpath and traffic Management, Storm water drains, improvement and construction of office building, community and public toilets, modern bus stand and market complex have been prioritized. Accordingly, the action plan got approved by the Government.

Budgetary amount of Rs. 400.00 cr allocated for the year 2024-25. An expenditure of Rs.369.68 crore has been incurred including opening balance of Rs.102.87 crore against the released amount of Rs.400.00 crore up to the end of December 2024.

Many initiatives have been taken up by DMA in order to make the provide hassel free and citizen friendly services to people of the state. Some of them are as follows:

- Bharat Bill Pay System is integrated with e-Sweekruthi software to enable online payment in all urban local bodies of the state.
- Point of Sale (POS) device and Payment Gateway (PG) system is being processed for integration with e-Sweekruthi software.
- Development of Aasthi Kanaja (Computerization of Assets) software for computerization of KMF-24, implemented in all urban local bodies of the state and action taken for further processes.
- Urban local bodies are trained on Aasthi Kanaja.
- The latest information is made available for viewing on the websites of urban local bodies and in district urban development Cell websites.
- It is decided to implement 3D drone technology in GIS based property survey carried out in urban local bodies on a practical basis.
- Training has been given on the process of mapping the assets of urban local bodies on KGIS Portal and steps are being taken to implement it.

- Steps taken to implement trade license and mobile app.
- In e-Aasthi application, provision has been created for the Citizen to register properties and apply for mutation through online, auto forward option is enabled if official fails to attend applications within stipulated time and First in First out (FIFO) in processing applications is enabled.
- In the Utilities Management (OFC & Mobile Tower) application, auto forward and deemed approval option has been enabled if an official fails to attend applications within stipulated time.

#### 5.2.24 15th Finance commission Grants:

The 15th Finance Commission has allocated grants of Rs.870.00 crore to the Urban Local Bodies of the State (excluding BBMP). The grants have been divided into 2 parts – 60% Tied Grants should be compulsorily used equally for drinking water supply and solid waste management and the remaining 40% grants is Untied and can be used for other basic infrastructure facilities enshrined in the 12th Schedule. The grants allocated to the State have been allocated to 315 ULBs as per the 4th SFC recommendation.

During the current year, the ULBs have spent Rs.480.49 crore up to December 2024 and have completed 6045 basic infrastructure works.

#### 5.2.25 Solid Waste Management

Solid Waste Management is one of the basic functions of the Municipalities. Rapid urbanization, heterogeneous nature of waste, lack of awareness among the public and various other stake holders, lack of appropriate infrastructure, disintegrated & unscientific approach of waste management has made the waste management into an unmanageable situation.

There are totally 315 Urban Local Bodies (ULBs) in the State including BBMP. ULBS generates 11085 tons of municipal solid waste every day. As per the Solid Waste Management Rules, 2016 of Ministry of Environment, Forest and Climate Change, all the ULBs are responsible for development of necessary infrastructure for collection, storage, segregation, transportation, processing and disposal of municipal solid wastes.

Karnataka has formulated a policy on Integrated Solid Waste Management and the main objective of this policy are

- a) Providing directions for carrying out waste management activities in a manner which is not just environmentally and financially sustainable but also economically viable;
- b) Establishing an integrated and self-contained operating system for Municipal Solid Waste Management (MSWM) which would include the development of appropriate means and technologies to handle various waste management activities.
- c) Enhancing the ability of ULB's to provide waste management services to their citizens.

#### 5.2.26 Unbalanced Growth, Inclusive Development

Regional disparities have been a prominent feature of Karnataka's economy. Economic concentration and regional disparities are global phenomenon. Economic growth has been unbalanced in developing countries and so has been urbanization. This continues to be so in spite of State policies of providing incentives to attract private investments to backward areas. Hence, it is required to raise the living standards of people residing in backward areas by focusing on Human Development – Education, Health, Nutrition, Sanitation and improving connectivity or reducing distance.

## 5.3 OTHER ISSUES

### 5.3.1 E-waste

E-waste poses the huge risk to humans, animals, and the environment. E-waste typically consists of plastics, metals, cathode ray tubes (CRTs), printed cables, circuit boards, and so on. The valuable metals like copper, silver, gold, and platinum can be reused from e-wastes once they are scientifically processed. The presence of toxic substances like liquid crystal, lithium, mercury, nickel, selenium, polychlorinated biphenyls (PCBs), arsenic, barium, brominated flame retardants, cadmium, chrome, cobalt, copper, and lead makes it very hazardous, in case e-waste get dismantled and processed in a crude manner with the rudimentary techniques.

The computers, mainframes, servers, monitors, printers, scanners, compact discs (CDs), copiers, calculators, battery cells, cellular phones, fax machines, transceivers, TVs, medical apparatus, iPods, refrigerators, washing machines, and air conditioners are examples of e-waste when they become unfit for its use. The presence of highly toxic substances and heavy metals like mercury, lead, beryllium, and cadmium pose a significant threat to an environment even in minute quantities.

**5.3.2 E-waste management** is a great challenge for governments of many developing countries. It is becoming a huge public health issue and is exponentially increasing by the day. It has to be collected separately, treated effectively, and disposed of e-waste. It is also a diversion from conventional landfills and opens burning. It is essential to integrate an informal sector with the formal sector. The competent authorities need to establish mechanisms for handling and treating e-waste safely and sustainable manner.

In this regard, Ministry of Environment, Forest and Climate Change, Government of India has framed draft rules, namely the E-Waste (Management) Rules, 2022.

### 5.3.3 E-Mobility

According to Bureau of Energy Efficiency, Ministry of Energy, Government of India, the transport sector accounts for 18% of total energy consumption in India. This translates to an estimated 94 million tons of oil equivalent (MTOE) energy. If India were to follow the current trends of energy consumption, it would require an estimated 200 MTOE of energy supply annually, by the year 2030 to meet the demand of this sector. At the moment, this demand is being met mostly through imported crude oil, which therefore makes this sector vulnerable to the volatile International crude oil prices. Moreover, the sector also contributes estimated 142 million tons of CO<sub>2</sub> emissions annually, out of which 123 million tones is contributed by the road transport segment alone.

Keeping in view the climate change commitments made by Government of India during the COP21 Summit held at Paris to reduce emission intensity by 33- 35% by 2030 from 2005 levels, it is pertinent to introduce alternative means in the transport sector which can be coupled with India's rapid economic growth, rising urbanization, travel demand and country's energy security. Electric mobility presents a viable alternative in addressing these challenges, when packaged with innovative pricing solutions, appropriate technology and support infrastructure and thus, has been on the radar of Government of India. Electric mobility will also contribute to balancing energy demand, energy storage and environmental sustainability.

Shifting to electric mobility will help India save nearly one giga tons of carbon dioxide emissions by 2030. Each electric car on the road helps in reducing the harmful air pollution for the younger generations to come.

### 5.3.4 Waste to Resource

Waste-resources means all those materials managed by or on behalf of the Municipality as recyclable, compostable, household hazardous waste, or residual waste.

The waste-to-resource approach promotes a paradigm shift in the management of solid waste. Under this approach, rather than view waste as a problem and burden, it is seen as a valuable resource, one that can be managed to produce sustainable benefits.

Energy from waste can be used to produce heat or electricity, which might then replace the energy, produced using coal or other fuels. Energy recovery of waste can thus help reduce greenhouse gas emissions. Recycling can help even more to lower greenhouse gas emissions and other emissions

Recycling is the process of converting waste materials into new materials and objects. The recyclability of a material depends on its ability to reacquire the properties it had in its virgin state. It is an alternative to “conventional” waste disposal that can save material and help lower greenhouse gas emissions.

### 5.3.5 Green Bonds

Green bonds are bonds issued by any sovereign entity, inter-governmental groups or alliances and corporates with the aim that the proceeds of the bonds are utilized for projects classified as environmentally sustainable. The framework for the sovereign green bond was issued by the government on November 9, 2022.

Over the last few years, Green Bonds have emerged as an important financial instrument to deal with the threats of climate change and related challenges. According to the International Finance Corporation (IFC), a World Bank Group’s institution, climate change threatens communities and economies, and it poses risks for agriculture, food, and water supplies.

A lot of financing is needed to address these challenges. It’s critical to connect environmental projects with capital markets and investors and channel capital towards sustainable development and Green Bonds are a way to make that connection.

Green Bonds provide a means to hedge against climate change risks while achieving at least similar, if not better, returns on their investment. In this way, the growth in Green Bonds and green finance also indirectly works to disincentivize high carbon-emitting projects.

## 5.4 CHALLENGES TO URBANIZATION

Despite the various interventions, support and schemes for Urban development, there exists challenges.

Low performance in SDG Urban India Index in following parameters:

1. Percentage of houses completed against sanctioned under PMAY (Urban).
2. Total case notification rate of Tuberculosis per 1,00,000 population.
3. Percentage value of smart city projects completed against tendered.
4. Percentage of schools having ramp with hand rails.
5. Rate of crimes against women per 1,00,000 female population.
6. Coverage of stormwater drainage network (per km X 100).
7. Percentage of schools having CWSN friendly toilet.
8. Number of urban poor provided credit facilities per 10,000 population.
9. Data Maturity Assessment Framework Score.
10. Percentage of households with any usual member covered by any health scheme or health insurance.

### 5.4.1 Unbalanced Urbanization

As in the case of economic and human development, there are serious regional imbalances in urban development in Karnataka. Much of the imbalance is caused by huge gap due to Bangalore centric development w.r.t the size and economic role of Bangalore and the next largest cities in the state. The enormous advantages Bangalore enjoys pull migrants and investors to the capital city, which in turn exerts pressure on Bangalore's infrastructure and services. How to accelerate the urban development in other regions of the state without sacrificing the interest of Bangalore constitutes a formidable challenge.

### 5.4.2 Urban Land Management

Supply of serviced land is critical to urban development. The absence of a well-developed urban land market and the increasing demand for serviced land has resulted in rising land prices, speculations and growth of informal settlements. Poor land management is a serious problem in all urban areas which is reflected in violation of land use regulations.

### 5.4.3 Urban Housing

Housing is recognized as a basic human right. The population living in urban slums in Karnataka has increased from 14.02 lakh (2001) to 32.91 lakh (2011) an increase 18.89 lakhs in a decade. In other words, the slum population which was 7.8 % to the total urban population in 2001 census has been increased to 13.9 % during 2011 census. Bengaluru district has 21.94 per cent of the total slum population.

### 5.4.4 Infrastructure Gap:

In spite of many initiations and programmes taken up by state government and central assisted programmes, there is a growing demand for urban infrastructure like water supply, sanitation and energy. Due to inordinate growth in urban population, sustainability of the primary source supply of safe drinking water as well as sanitation and drainage in cities and towns is posing a serious challenge.

### 5.4.5 Roads Infrastructure

Roads constitute the arteries of cities and are critical to rapid urban development. Urban Karnataka suffers from serious deficiencies in road infrastructure like inadequate road capacity, poor quality of roads, impediments on roads such as potholes, depressions etc which hinder free movement of vehicles and leads to traffic congestion and also cause accidents.

### 5.4.6 Environmental Sustainability

Sustainable urban development is not a choice but a necessity if cities are meet the needs of their citizen. Some of the most critical problems facing our cities concern the health impacts of urban pollution generated by inadequate water, sanitation, drainage, poor waste management and air pollution. This set of problems known as 'Brown Agenda' combined with "Green Issues" such as depletion of water and forest resources, upgradation of environmentally fragile lands, areas prone to flooding, landslides etc and the carbon emissions from energy use, industry and transport known as "Climate Change Issues" all poses serious challenges to the health of the eco system of a city and its people. To tackle these issues, an Urban Environmental Management Action Plan needs to be formulated. A city specific plan would be required for large cities like Bangalore, Hubli-Dharwad, and Mangalore, Mysore and a common strategy for other towns/cities in the state.

## 5.5 WAY FORWARD

- Bengaluru has the potential to become e-waste hub due to IT capital of India. E Waste Management is a great change maker in the Circular economy of this State. The E Waste Management itself can produce an estimated turnover of 2900 crores p.a. in Karnataka. e-Waste Generation is the tune of 292,846 MT/annum amounting to Rs. 2886 Crores. Out of the total 292,846 MT/annum, recovered Rs.317 Crores and loss is estimated to the tune of Rs. 2569 Crores. KSPCB has set up around 200 e-waste collection bins across the city and have tied up with the RWAs. There is a need of ULBs to increase segregation at the source level so that e-waste, biomedical waste, sanitary waste, and every other kind is separated during collection.
- Currently only 32% Installed sewage treatment capacity as a Percentage of sewage generated in urban areas. Increasing Sewage segregation and treatment through PPP.
- Curbing air pollution: Government cannot rely solely on central subsidies for promoting e-mobility, and hence need to attract more private investment to the State. R & D for retrofitting & petrol and diesel vehicles can be a good option. All future purchases of government vehicles and hiring of government vehicles should be EVs.
- Huge quantities of plastics were seen dumped at the sites without recovering the plastic for channelisation to recyclers. Hence, compulsory segregation at all levels (specifically at source) collecting and selling points will be implemented using incentivizing and disincentivizing policy options. A good example is collecting extra deposit and returns that extra deposit when plastic bottles are provided back by the shops (Deposit Refund Scheme).
- Most of the plastic waste is recycled by the informal sector, waste-pickers, however, suffer from price volatility and lack of transparency in the supply chain. Hence initiatives on institutionalizing and strengthening value chains required.
- Slum dwelling should be eradicated by providing eco-friendly affordable housing.
- Climate change should be compensated by enhancing Green Building
- Proper and efficient Solid Waste Management (SWM) and optimum utilization of SWM resources
- Targeted Credit & financing for the urban poor should be implemented (similar to SIDBI's initiative for street vendors)
- Ensure that every citizen should have social security and health insurance
- Proper planning for Bengaluru – with vision 2047 by ensuring Preparation, Implementation and enforcement of laws
- Fiscal responsibility and decentralizing finance in ULB management
- Karnataka needs to work on achieving the goals set by United Nations under SDG-11 (Sustainable Cities) to be achieved by 2030.
- Need for Comprehensive State urban plan for effective and timely implementation of policies and schemes.
- Ensure access for all through adequate, safe and affordable housing and basic services and upgrade slums, transport systems for all, improving road safety, notably by expanding public transport.
- Give special attention to the needs of those in vulnerable situations, women and children, persons with disabilities and older persons.
- Reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.

- Provide universal access to safe, inclusive and accessible, green and public spaces.
- Support positive economic, social and environmental links between urban, peri-urban and rural areas by strengthening national and regional development planning.
- Cities are living ecosystems. They need to be managed accordingly. Rather than going by populist measures or sticking to the original master plans, local solutions to local problems, innovative, in situ and tailor-made solutions should be evolved, adapted and adhered to. Authorities need to be willing to learn, evolve and discard if necessary. The flawed perception of Engines of Growth are tied to big cities must be shed. Secondary cities and the rural areas should be developed to reduce the lopsided spatial development currently happening in India.
- Urban flooding is significantly different from rural flooding as urbanization leads to developed catchments, which increases the flood peaks from 1.8 to 8 times and flood volumes by up to 6 times. Interdepartmental coordination UDD, water resources and KSNDMC is crucial for preparedness and control. High use of Digital technologies should be made available as well by way infrastructure development using PPP. Further effective coordination between BWSSB and BBMP is required to control floods.
- Implementation of strong regulatory framework to stop encroachments of government lands and get back the encroached lands swiftly as well.
- Special emphasis to be given for lift irrigation projects for supplying treated water from Bengaluru to neighboring dry districts through state/centre/private investments.
- Providing slums all entitlements through development of vertical slums under PPP and remaining land to be brought under asset monetization for generating revenues.
- City Comprehensive Mobility plans (CMP) to be completed for all cities and ULBs, prioritizing areas witnessing heavy traffic congestions.
- Implement water management and accounting measures across ULBs.
- Decongestion of using establishing townships on PPP
- Resource mobilization measures are waste to resource, timely tax collection, increasing value of land considering the market value, clean and green initiatives, private partnerships.

## 6.1 AGRICULTURE

The Department of Agriculture implements various schemes and programmes of the Central and State Government for overall welfare of the farming community and ensures timely supply of essential inputs i.e. seeds, fertilizers, plant protection chemicals, farm equipments, micro irrigation units along with effective transfer of technology through demonstrations to achieve maximum output from the available natural resources viz. soil, water etc. This in turn leads to improvement in the economic status of the farming community and food grain needs of the people. Though the contribution of agricultural sector in the Gross State Domestic Product is less, agriculture continues to be the largest employment generating activity.

### Budget for Agriculture

For the year 2024-25, an amount of Rs.3894.17 crores have been earmarked for agriculture department schemes. In view of comprehensive development of agriculture, thrust has been given on department flagship programmes viz., “Supply of quality Seeds”, “Farm Mechanization”, “Crop Survey”, “Krishi Bhagya”, “Crop Insurance”, “Soil Health Mission” and “Micro-irrigation”. In addition to this, more emphasis is given for millet production and processing aspects.

In the current year thrust has been given for the following schemes:

- i. **‘Karnataka Raitha Samruddhi Yojane’** scheme in order to promote integrated agriculture by integrating various farmer friendly schemes to make the agriculture sector sustainable and profitable.
- ii. **“Community Seed Bank”**- a programme to preserve locally bred seeds on the verge of extinction.
- iii. **“Namma Millet”**- with the support of agri-tech companies and retail chains processed millets and value-added millets will be made available at affordable prices.
- iv. Development of R. K. Shala Agricultural Farm in Bengaluru as a “Knowledge Centre” under public-private partnership disseminating agricultural techniques.
- v. **“e-SAP”**- to provide timely pest/disease and nutrient management advice to farmers through mobile software.
- vi. **“Promoting Agricultural Start-ups through Agri Accelerator Platform”** - Agri Accelerator Platform will be created to impart supplementary training and provide guidance and support to farmer produce organizations (FPO) to strengthen their capacity and improve their performance.
- vii. **“Agriculture Development Authority”**- Agriculture Development Authority will be created under the chairmanship of Hon’ble Chief Minister to facilitate effective implementation of policies related to agriculture & allied activities and also to achieve better co-ordination between Department of Agriculture, Horticulture, Sericulture, Fisheries, Co-operation, & Animal Husbandry.
- viii. **“Database development to forecast crop productivity through advanced techniques”**- a programme wherein database will be prepared to forecast crop productivity using modern technologies like satellite pictures, sensors, and machine learning algorithm.

## Monsoon in 2024

### Pre-monsoon Rainfall

Pre-monsoon rainfall during March-May was favorable for normal coverage of early Kharif crops in parts of Mysuru, Chamarajnagar, Mandya, Chikkamagalur, Chitradurga, Hassan, Koppal, Ramanagara and Tumakuru districts. The actual average rainfall was 151 mm as against a normal of 115 mm (31%). Up to the end of May-2024, the sowing was 2.95 lakh hectares as against normal sowing 2.36 lakh hectares.

### Southwest Monsoon

During South-West season 2024 the State as a whole recorded an actual amount of 978 mm of rainfall as against the Normal rainfall of 852 mm with percentage departure from Normal being (+) 15%. Thus, the State as whole is classified under Normal Category. Out of 236 taluks, 134 taluks received normal rainfall and 21 taluks received less than normal rainfall. The percentage departure of rainfall from normal during 1st June to 30th September 2024 is (+) 15% which is good when compared to the corresponding period of last year. South-West Monsoon rainfall over South-Interior Karnataka (+)11%, North-Interior Karnataka (+)12%, Malnad (+)13% and Coastal regions (+)20% of their long term Normal.

### Northeast Monsoon

Northeast wind rains in the month of October there is (+)41% rainfall. In the month of November (-)42% with lack of rain. In the month of December there is (+)196% rainfall. Cumulative rainfall during the northeast monsoon period from 1st October to 31st December was 238 mm as against a normal of 182 mm with percentage departure from Normal being (+)30%. Thus, the State as whole is classified under Excess Category.

### Crop Loss

According to the joint survey report, 1.14 lakh hectares of agricultural crops were damaged due to flood/Heavy rains during the southwest monsoon 2024 and 1.53 lakh hectares of agricultural crops were damaged due to flood/Heavy rains during the northeast monsoon 2024. Hence, a total of 2.67 lakh hectares of agricultural crops have been damaged due to heavy rains in the year 2024.

Major crops are maize (112631.06 ha), cotton (33593.71 ha), sugarcane (32371.88 ha) and paddy (30794.85 ha) are affected. The damage caused was mainly in Haveri (63682.61 Ha.), Dharwad (63266.62 Ha.), Belagavi (38714.72 Ha.) and Kalaburagi (19656.00 ha.) districts. The revenue department distributed the input Subsidy amount to the farmers for the damaged crops.

## Land Utilization and Operational Holdings

### Land Utilization

As per the report 2020-21, the details of the Land Utilization are presented in **Table 6.1**

**Table 6.1: Classification of Total Geographical Area 2020-21**

(Area in lakh hectares)

| Classification                 | Area   |
|--------------------------------|--------|
| Total Geographical Area        | 190.50 |
| Forest                         | 30.73  |
| Not available for cultivation: |        |
| Land put to non-agri. Uses     | 15.16  |

| Classification                           | Area   |
|------------------------------------------|--------|
| Barren & uncultivable land               | 7.43   |
| Cultivable waste                         | 3.93   |
| Uncultivated land excluding fallow land: |        |
| Permanent pastures & other grazing land  | 8.72   |
| Misc. Tree crops, Groves                 | 2.12   |
| Fallow Land                              |        |
| Current fallow                           | 4.76   |
| Other fallow land                        | 3.11   |
| Net Area Sown                            | 114.53 |
| Total (Gross) Cropped Area               | 149.09 |
| Area sown more than once                 | 34.56  |
| Cropping Intensity - %                   | 130    |

Source: Karnataka at a Glance 2021-22 of DE&S, Bengaluru.

Year wise classification of geographical area is given in **Appendix 6.1**.

District-wise percentage cultivable waste to Geographical area is in **Appendix 6.2**.

### Agriculture Land Holdings

As per Agriculture Census 2015-16, there are 86.81 lakh farm holdings operating an area of 118.05 lakh hectares. The average size of holding is 1.36 hectare. Small and marginal holdings account for 80% of total holdings and operate 44% of the total operated area, while semi-medium, medium and large holdings account for 20% of the total holdings and their operational land holding is 56% out of the total operational area. Details of Agricultural Land Holdings in Karnataka is given in **Table 6.2**.

**Table 6.2: Land Holdings in Karnataka**

| Size Class                                                  | 1995- 96     | 2000-01      | 2005-06      | 2010-11      | 2015-16      |
|-------------------------------------------------------------|--------------|--------------|--------------|--------------|--------------|
| <b>I .Number of Operational Holdings ('000)</b>             |              |              |              |              |              |
| Marginal (Below 1 ha.)                                      | 2610         | 3252         | 3655         | 3849         | 4767         |
| Small (1 to 2 ha.)                                          | 1707         | 1909         | 2014         | 2138         | 2214         |
| Semi Medium (2 to 4 ha.)                                    | 1204         | 1259         | 1278         | 1267         | 1193         |
| Medium (4 to 10 ha.)                                        | 594          | 569          | 555          | 511          | 451          |

### Agricultural Production- Performance and Prospects

The First advance estimates of production for 2024-25 arrived based on area coverage under various crops during Kharif and Rabi seasons, anticipated coverage during Summer and loss of crops due to excess rains/floods in some parts indicate likely production of 88.52 lakh tonnes of Cereals and 13.82 lakh tonnes of Pulses against the target of 97.32 lakh tonnes and 14.71 lakh tonnes respectively. Oilseeds production is estimated to be 7.67 lakh tonnes against the target of 9.87 lakh tonnes. Production of cotton is likely to be 20.84 lakh bales against the target of 24.34 lakh bales.

The Final advance estimates of production for 2023-24 arrived based on area coverage under various crops during Kharif ,Rabi and Summer seasons and crop loss due to excess rains/floods in some parts indicate production of 111.64 lakh tonnes of Cereals and 16.67 lakh tonnes of Pulses against the target of 125.15 lakh tonnes and 23.01 lakh tonnes respectively. Oilseeds production is estimated to be 7.52 lakh tonnes against the target of 13.84 lakh tonnes. Production of cotton is 23.09 lakh bales against the target of 24.47 lakh bales. Area and Production of Major crops are given in **Table 6.3**.

**Table 6.3: Area and Production of Major Crops in the State** (Area in lakh hectares, Production in lakh tonnes)

| Crop / Group      | 2022-23 |        | 2023-24 |        | Average growth over the previous year (%) |        |
|-------------------|---------|--------|---------|--------|-------------------------------------------|--------|
|                   | Area    | Prod.  | Area    | Prod.  | Area                                      | Prod.  |
| Cereals           | 50.17   | 125.05 | 50.08   | 111.64 | 0.18                                      | -12.01 |
| Pulses            | 28.91   | 18.38  | 26.65   | 16.67  | -8.48                                     | -10.26 |
| Total food grains | 79.08   | 143.43 | 76.73   | 128.31 | -3.06                                     | -11.78 |
| Oilseeds          | 12.83   | 14.31  | 8.98    | 7.52   | -42.87                                    | -90.29 |
| Cotton #          | 9.69    | 30.39  | 7.58    | 23.09  | -27.84                                    | -31.62 |

### Cropping Pattern

Karnataka State falls in Zone X (Southern Plateau and Hilly region) and Zone XII (West Coast Plains and Ghats region) as per the Agro-climatic Regional Planning of Planning Commission, Gol. The State is divided into 10 Agro-climatic zones on the bases of distribution and percentage of Rainfall, soil quality, height from the sea and based on major crops.

On account of this varied agro-climatic features, almost all cereals, pulses, oilseeds and commercial crops are cultivated in different parts of the State. Farmers in Karnataka are very innovative and take lead in diversification as per the market trends. The average area (2019-20 to 2023-24) of agriculture crops grown

in three seasons' viz. Kharif (81.54 lakh ha.), Rabi (23.65 lakh ha.) & summer (6.20 lakh ha.) is 111.38 lakh hectares. Cereals, Pulses, Oilseeds, Cotton, Sugarcane and Tobacco account for 46%, 27%, 10%, 7%, 9% and 1% respectively of the total agricultural cropped area. Maize, Tur, Green gram, Soyabean and Sugarcane are witnessing a higher trend in recent years, whereas crops like Paddy, Jowar, Bajra, Groundnut, Sunflower and Cotton are witnessing a declining trend.

**Appendix 6.3** provide details of Crop wise area coverage(Cropping pattern) for last 5years.

The average yield of selected crops in India and Karnataka is given in **Appendix 6.4**.

Area irrigated by various sources in the State is given in **Appendix 6.5**.

District-wise potential area for irrigation is given in **Appendix 6.6**.

## Distribution of inputs

### 1) Fertilizers

- a. **Distribution of Fertilizers:** Based on the projected requirement of different grades of fertilizers for Kharif 2024, Govt. of India had allocated 26.80 lakh tonnes of different grades of fertilizers consisting DAP-3.90 lakh tonnes, MOP-1.30 lakh tonnes, Complex-9.90 lakh tonnes, Urea-10.75 lakh tonnes and SSP-0.95 lakh tonnes. The State has received 25.95 lakh tonnes of different grades of fertilizers by the end of Kharif 2024 consisting DAP-2.73 lakh tonnes, MOP-1.42 lakh tonnes, Complexes-11.68 lakh tonnes, Urea-9.72 lakh tonnes, SSP and others 0.38 lakh tonnes (13.13 tonne of opening balance as on 01.04.2024).

Based on the projected requirement of different grades of fertilizers for Rabi/summer 2024-25, Govt. of India has allocated 15.69 lakh tonnes of different grades of fertilizers consisting DAP-1.74 lakh tonnes, MOP- 0.65 lakh tonnes, Complex-6.30 lakh tonnes, Urea-6.50 lakh tonnes and SSP- 0.50 lakh tonnes. The State has received 5.18 lakh tonnes of different grades of fertilizer by the end of November 2024 consisting DAP-0.51 lakh tonnes MOP-0.43 lakh tonnes, Complex-1.78 lakh tonnes, Urea-2.34 lakh tonnes, SSP and others-0.01 lakh tonnes (9.89 tonne of Opening balance as on 01.10.2024).

Trends in fertilizer consumption in terms of NPK nutrients from 2017-18 to 2024-25 (till December 24) is furnished in **Table 6.4**.

**Table 6.4: Consumption of Nitrogen (N), Phosphorus (P) & Potash (K)in Karnataka State** (Quantity in Tonnes)

| Years            | Nitrogen (N) | Phosphorus (P) | Potash (K) | Total (N+P+K) |
|------------------|--------------|----------------|------------|---------------|
| 2017-18          | 878217       | 459306         | 257777     | 1595300       |
| 2018-19          | 936448       | 536280         | 307056     | 1779784       |
| 2019-20          | 1045699      | 555220         | 288032     | 1888951       |
| 2020-21          | 1179561      | 688203         | 355432     | 2223197       |
| 2021-22          | 1237601      | 649490         | 305940     | 2193031       |
| 2022-23          | 1241105      | 624072         | 195404     | 2060580       |
| 2023-24          | 1109262      | 617928         | 218369     | 1945558       |
| 2024-25 (Dec-24) | 1069766      | 563946         | 226864     | 1860577       |

Source: <https://ifms.dbtfert.nic.in/portal/IFMSportal>

Fertilizer Consumption and HYV/HB Coverage in Karnataka is given in **Appendix 6.7**.

- b. Buffer Stock of Fertilizer for Kharif 2024:** To overcome the scarcity of fertilizers at a critical period, during the Kharif season, the State Government has decided to operate the Buffer Stocking of Fertilizers. The scheme of buffer stocking has been continued for Kharif 2024. During summer and pre-monsoon season itself Department has instructed KSCMF and KSSC to stock various fertilizers at district and taluk levels. As on 30.12.2024 under the scheme, at KSCMF and KSSC branches, DAP – 745 tonnes, MOP- 1,900 tonnes, Complexes –14459 tonnes, Urea – 6321 tonnes, totally 23425 tonnes of fertilizer have been stocked. This arrangement, in turn, helped to manage the supply of fertilizers in demand situation smoothly in the State and there was no problem regarding the availability of fertilizers.

## 2) Seeds

- a. Production and distribution of Seeds:** The Seed Replacement Rates (SRR) for different Agricultural Crops in Karnataka during the year 2024-25 is Cereals-33 to 40%, Pulses-33 to 50%, Oilseeds-33 to 89%, Cotton-33%, All Hybrids-100%.

Production and supply of Breeder Seeds of different crops are being done by the State Agricultural Universities and Indian Council of Agricultural Research Institute (ICAR). These organizations produce and supply Breeder Seeds required for the State based on the advance indents placed by the Department of Agriculture. The National Seed Association of India is the Nodal agency for the supply of breeder seeds to the private seed producing agencies. Certified Seed production and distribution in the State is being done by Karnataka State Seeds Corporation, National Seeds Corporation, Karnataka Co-operative Oilseed Growers' Federation, State Agricultural Universities and private seed supplying agencies.

Seed producing and supplying agencies fix the procurement and selling rates of various seeds taking into account, procurement rates, production costs, certification, processing, packaging and other overhead charges.

- b) Distribution of seeds at subsidized rates to Farmers during 2024-25:** Seeds are distributed at subsidized rates under 'Seed supply program' of State Sector scheme "Agriculture inputs and Quality control". This scheme is being implemented since 2004-05. Under this scheme, both Certified and Truthfully Labelled seeds including Private hybrids are distributed to an extent of 2.00 hectares per farmer or his land holding whichever is less to farmers through the Department's Raitha Samparka Kendras situated at Hobli headquarters and identified additional sale points of Govt. Institutions. Paddy, Ragi, Jowar, Maize, Bajra, Navane, Cowpea, Greengram, Blackgram, Red gram, Groundnut, Wheat, Sunflower and Soybean seeds are being distributed through Primary Agricultural Co-operative Societies at Hobli level thereby helping the farmers in getting the required seeds almost at their doorsteps. Distribution of seeds at subsidised rates is helping the farming community to use good quality seeds and the Seed Replacement Rate is increasing considerably.

During Kharif 2024 about 3.98 lakh quintals seeds have been distributed and Rs.97.13 crore subsidy amount is utilized for this purpose and 9.62 lakh farmers have been benefited. During 2024-25 Rabi/ Summer as on 18.12.2024, 2.87 lakh quintals of seeds have been distributed and Rs.80.71 crore subsidy amount is utilized for this purpose and 4.33 lakh farmers have been benefited.

- c. Sub-Mission on Seeds and Planting material (SMSP) under Centrally sponsored scheme Krishonnati yojana:** The basic objective of this scheme is to strengthen the seed production sector of the state through government owned institutions, to strengthen seed testing laboratories, to support seed quality institutions, to support agricultural universities.

### 3. Plant Protection

Necessary plant protection programs are undertaken to effectively control the pest/disease/weed infestations affecting agricultural crops grown in the state. The following programs are undertaken with the provision of necessary technology/ technologies for effective protection of agricultural crops from pests and diseases. The total outlay for the year 2024-25 is Rs. 298.00 lakhs out of which Rs.279.89 lakhs of expenditure is done up to December 2024.

- **Distribution of Bio pesticides:** Distribution of bio pesticides to farmers at subsidized rates to encourage use of bio pesticides and prevent environmental pollution.
- **Seed treatment campaign and training on use of safe pesticides:** To create awareness among farmers and dealers about seed treatment with recommended pesticides before sowing to protect crops from seed and soil borne diseases and pests and also on safe pesticide use and integrated pest management.
- **Quality Control:** To carry out and supervise quality control program for collection of samples and effective enforcement of legal measures under Pesticides Act and Rules.
- **Distribution of Pesticides at 50 % subsidy as per the requirement:** Survey by district level pest surveillance team on pests and diseases, which repeatedly affect main crops or sudden attacks due to various reasons in different agricultural zones of the state, accurately identify the pests and diseases found and recommend pesticides required for taking emergency plant protection measures based on the extent of damage.

#### Establishment of Mobile Plant Health Clinics

Improved agricultural production technology, supply of quality agricultural implements and adequate use of recommended fertilizers, pesticides, providing information to farmers about nutrients available in the soil and encouraging them to grow appropriate crops. The aim of the mobile plant health clinic (Krishi Sanjeevini) Scheme is to provide guidance on management practices regarding pest, disease and weed infestation and soil nutrient deficiency and adequate management to farmers at their fields by the departmental officers along with diploma technical staff.

**Expenditure Details:** A total of 224 Mobile Plant Health Clinics have been established in the State. Annual maintenance for these established clinics is allowed to meet under the service charges collected at Raitha Samparka Kendra's. (No grant is released from the government for the said scheme in current year)

#### e-SAP (Electronic Solutions against Agricultural Pests)

##### Objectives

- To continuously train, evaluate, and on board qualified extension workers
- To set up a process for creating and managing crop content, and to provide expert support to the field extension workers
- Full roll-out of eSAP services: farmer registration, diagnosis, damage estimation, management plans, and follow up
- To generate spatial maps and graphical reports on the field situations, and continuous monitoring of field data
- To explore options for livelihood generation through digitally-enabled extension services

The total outlay of the scheme for the year 2024-25 is Rs.200.00 lakhs and the expenditure as on December 2024 is Rs.74.87 lakhs.

### Scope / Outcome of scheme

- 23 DATCs and 7 JDA offices are actively involved in the on boarding process.
- 35 KVKs have been individually trained in using the 'eSAP Expert App' and are Live. Each KVK is mapped with the extension workers of the respective district.
- Around 1800 extension workers are on boarded to eSAP. As on 15.12.2024, 2, 94,320 Crop Health Services have been provided to 1,12,713 farmers.
- 49 crops covering nearly 1000 crop health problems have been released through mobile application so far.

## 4. Agricultural Implements

**Farm Mechanization:** Mechanization of Farm Operations helps to reduce the drudgery of farm operations, saves time, and improves efficiency and farm productivity. The high machinery cost presents a significant barrier for promoting farm mechanisation among small and marginal farmers. To encourage high tech implements usage in the State, Farm Mechanization Programme is being implemented both under State and Central Sector. The general farmers are provided with a subsidy of 50% and 90% subsidy is provided to the farmers belonging to Schedule Caste/Schedule Tribe limited to Rs.1.00 lakh. The target for the year 2024-25 is Rs. 12439.50 lakhs with release of Rs.7258.47 lakhs and expenditure of Rs. 5794.19 lakhs up to December 2024. The number of farmers benefitted is 21305.

**Sub Mission on Agricultural Mechanization (SMAM):** The scheme is being implemented to promote the usage of farm mechanization and increase the ratio of farm power to a cultivable unit area up to 2.5 kW/ha. The target for the year 2024-25 is Rs. 20833.00 lakhs with release of Rs.10420.00 lakhs and expenditure of Rs.9224.16 lakhs up to December 2024. The number of farmers benefitted is 35413.

- A. Agro-Processing:** To protect the agriculture, produce/ food grains from rain, wind and other unnatural weather conditions and to maintain quality, 8mx6m. size tarpaulin is distributed to the farmers at 50% subsidy for General Category farmers and 90% subsidy to farmers belongs Scheduled Caste and Scheduled Tribes limited to Rs. 1.00 Lakh and Small Automated Oil Machines are distributed at 75% subsidy for general category farmers and 90% subsidy limited to Rs. 1.00 Lakh is provided for farmers belongs Scheduled Caste and Scheduled Tribes to facilitate better agro-processing and distribution of agricultural produce grown by farmers. The target for the year 2024-25 is Rs.3500.00 lakhs with release of Rs.2028.26 lakhs and expenditure of Rs. 1345.51 lakhs up to December 2024. The number of farmers benefitted is 4050.
- B. Hi-tech Harvester Hub:** To facilitate provision of Farm Machineries on rental basis to farmers by strengthening the existing Custom Hiring Service Centres through establishment of Hi-tech Harvester hubs in a phased manner, subsidy is provided @ 40% to 70% limited Rs. 100.00 Lakh to the Agencies/ Organization (including FPOs) and Individual Beneficiaries. The target for the year 2024-25 is Rs.4500.00 lakhs with release of Rs.2075.00 lakhs and expenditure of Rs.318.00 lakhs up to December 2024. The number of farmers benefitted is 33.

## Programme and Schemes implemented by the State Government

### Centrally Sponsored Schemes

- 1) **Food and Nutrition Security (FNS):** National Food Security Mission is renamed as Food and Nutrition Security from 2022-23. Food and Nutrition Security, which was started during the 11th Five Year Plan has been continued for the 12th Five-year plan also, in which FNS-Rice, FNS-Pulses, FNS-Coarse Cereals, FNS-Nutri Cereals, FNS-Commercial Crops (Cotton & Sugarcane) programmes and National Mission on Edible Oil (NMEO)-Oilseed programmes are being implemented. Further, to utilize available residual moisture in paddy fallows and to get higher production in oilseeds and pulses Targeting Rice fallow areas-oilseeds (TRFA-oilseeds) and Targeting Rice fallow areas-pulses (TRFA-Pulses) are being implemented.

The subsidy pattern is 60% central and 40% State share. The target for the year 2024-25 is Rs.38767.849 lakhs with release of Rs.22819.327 lakhs and expenditure of Rs.12890.948lakhs up to December 2024.

- 2) **Rashtriya Krishi Vikas Yojana (RKVY):** Special Additional Central Assistance Scheme of Government of India being implemented from 2007-08. The main objective of the scheme is to reorient the Agriculture Development strategies for the rejuvenation of agriculture to meet the needs/demands of farmers.

It incentivizes the States to increase public investment in Agriculture and allied sectors and aims at achieving the goal of reducing the yield gaps in important crops and thus maximizes returns to the farmers. The agriculture department is the nodal department in the State.

Department of Agriculture and Farmers Welfare, Government of India has restructured the scheme in 2022-23 where in Annual Action Plan (AAP) based scheme have also been brought under RKVY umbrella.

Agriculture Department is implementing RKVY DPR component where in projects of Agriculture & Allied Sectors are brought under this component. For the year 2024-25 an amount of Rs.138.15 crore (Central share +State share) has been sanctioned for implementation of various projects. The State Level Sanctioning Committee has approved 25% of additional action plan over the original allocation amounting Rs.172.69 crore. In 2024-25, up to December-2024 end Rs.69.10 crore has been released and Rs.44.25 crore has been utilised.

- 3) **Micro Irrigation:** Micro Irrigation programme is being implemented since 2003-04 with the main objective to promote efficient use of water in the agriculture production. Under this programme subsidy/assistance is provided for installation of drip and sprinkler irrigation units to all categories of farmers. Government of India is also providing funds for Micro Irrigation programme since, 2005-06. During 2024-25, the Micro Irrigation programme is implemented under Prime Minister's Krishi Sinchayee Yojana (PMKSY). The target for the year 2024-25 is Rs.62701.07 lakhs with release of Rs.35685.83 lakhs and expenditure of Rs.33859.04 lakhs up to December 2024. The area covered under micro irrigation is 148637 hectares.
- 4) **Support to State Extension Programmes for Extension Reforms (ATMA Scheme):** The 12th Plan Approach Paper by Ministry of Agriculture and Cooperation, Government of India identified several challenges faced by the Agricultural Extension and also gave suggestions to deal with the same. Some of these include integrating Krishi Vigyan Kendra's (KVKs), problem solving skills and the feed-back they provide to State Agriculture Universities (SAUs) and National Agriculture Research System (NARS) with Agriculture Technology Management Agency (ATMA Scheme) and there by strengthening the district plans and schemes.

The aim of the Mission is capacity building and institution strengthening to promote mechanization, make available of quality seeds, plant protection etc. And encourage the aggregation of farmers into Interest Groups (FIGs) thereby to go for formation of Farmer Producer Organizations (FPOs).

Use of interactive and innovative methods of information innovative technology dissemination component in which the extension personnel can make use of Hand-Held Devices, Pico-projector, Kalajathas, Display boards etc for the benefit of farm information extension to ensure convergence under different programmes and schemes at village level through the institution of ATMA (Agriculture Technology Management Agency) and Block Technology Teams (BTTs) laid out as per the guidelines. The target for the year 2024-25 is Rs.4375.00 lakhs with release of Rs.1831.00 lakhs (including old balance amount) and expenditure of Rs.1687.27 lakhs up to December 2024.

#### 5) **Crop Insurance Scheme:** Karnataka Raitha Suraksha Pradhan Mantri Fasal Bima Yojana -

- ❖ The Scheme is being implemented in the State as per GOI guidelines since 2016-17 with an objective to provide insurance coverage and financial support to the farmers in the event of failure due to natural calamities of any of the notified crop due to adverse climatic conditions, to help stabilize farm income, particularly in disaster years. The scheme operates on the principle of “Area Approach” in the selected defined areas Called Insurance Units.
- ❖ For Kharif 2024, 36 crops are notified in all 31 districts under KRS-PMFBY. For 2024-25 Rabi season, 22 crops are notified in 28 districts (excluding Bangalore (Rural), Bangalore (Urban) and Kodagu districts) and for 2024-25 Summer season 06 crops are notified in 26 districts (excluding Udupi, Bidar, Bengaluru Urban, Bengaluru Rural and Kodagu) covering food and oil seeds crops as well as Annual Commercial & Annual Crops under KRS-PMFBY. Taluka-wise major crops are notified at Grama Panchayath level and other crops are notified at Hobli level. Since Kharif 2023.
- ❖ FRUITS ID has been made compulsory for enrolment under KRS-PMFBY. The farmers shall enrol through Financial Institutions/Bank/Grama-One Centres/Common Service Centres. After deducting farmer's share of premium from the gross premium, the remaining share of premium amount is equally shared between the State and Central Government in the ratio of 50:50.
- ❖ The Insurance Companies implementing PMFBY during 2024-25 Kharif, Rabi and summer season are-Agriculture Insurance Company of India Ltd., Oriental General Insurance Company, IFFCO Tokio General Insurance Company, Universal Sampo GIC and TATA-AIG GIC.
- ❖ Totally 2521310 farmers have enrolled up to December 2024, and the insured area is 21.31 lakh hectares and the total premium paid by farmers is Rs.22983.41 lakhs. For Kharif 2024 Claims shall be calculated after receiving the Crop Cutting Experiments yield data and for Rabi season, Enrolment is under progress. The Claim settlement is made through Samrakshane portal.

#### 6) **Soil Health**

- a) **State Sector Soil Health Mission:** The scheme aims at promoting soil test based and balanced use of fertilizers to enable farmers to realize higher yields at lower cost. Soil health card provides information to farmers on nutrient status of their soil along with recommendation on appropriate dosage of nutrients to be applied for improving soil health and its fertility. In Karnataka, 86.81 lakh farm holdings exist. At present, 30 Soil testing laboratories (29 static & 1 mobile soil testing lab) of the Agriculture Department are catering to the needs of farmers in respect of soil testing. In addition to this, 291 village-level soil testing labs have been established by providing subsidy to selected

beneficiaries under National Mission on Sustainable Agriculture (NMSA) Soil Health Management Programme.

The target for the year 2024-25 is Rs.556.95 lakhs with release of Rs.387.71 lakhs and expenditure of Rs.330.146 lakhs up to December 2024.

The pay for the outsourced staff of soil testing labs and Data Entry Operators, building and electricity cost, purchase of equipment/filter paper/chemicals and cost for maintenance of soil health centres are borne under this programme.

- b) Progress under Soil Health Fertility component of RKVY:** During 2024-25, Government of India has approved the annual action plan for Rs.1552.50 lakhs and has released Rs. 519.99 lakhs as first instalment. Sharing pattern between central and state government is 60:40.

A mobile application and web application developed by Karnataka State Remote Sensing application Centre, Bangalore is being used for farm holding wise soil sample collection and test result entry and monitoring of Soil sample collection. Action has been taken to strengthen the 3 Departmental Soil Testing Laboratory at Vijayapura, Kalburgi and Uttarakannada district. NABL (National Accreditation Board for Testing and Calibration Laboratories) recognition has been obtained for 27 Department Soil testing.

During 2024-25, 32 central government schools (12 EMRS, 5 KVS & 15 JNV) and 10 state government schools total 42 schools have been selected for implementation of school soil health programmes with total target of 2100 soil samples (50 soil samples for each selected school). A mini soil laboratory has been provided to the selected schools by the central government. The soil samples are analyzed and soil health cards are printed. Grama sabhas are organized to distribute soil health cards to the farmers, and create awareness about the use of Soil health card recommendations. 2100 soil samples were collected as per the target allocation and 1649 soil samples were analyzed and soil health cards were distributed under the guidance of Agriculture department officers, KVK scientists and ATMA staff.

## Thrust Programmes

### 1) Krishi Bhagya

As, Karnataka is highly dependent on rain-fed agriculture, the State is prone to be seriously affected by climate change. Rainfed agriculture remains precarious due to increasing moderate droughts and floods during the cropping seasons in the state. To transform rainfed agriculture into sustainable agriculture and thereby improving the standard of living of farmers, Krishi Bhagya scheme (Phase I) was implemented as per Rainfed Agriculture Policy, 2014 from 2014-15 to 2020-21. Under the Krishi Bhagya scheme (Phase I) 2,89,827 farm ponds have been constructed from 2014-15 to 2020-21 which have the capacity to store about 1472.32 lakh cum. of water.

Krishi Bhagya scheme was re-launched in 2023-24 and was implemented in 106 taluks of 24 rain-fed districts of 5 agro-climatic dry zones of the State (Rainfed Agriculture Policy-2014). In 2024-25 as per the Government order AGRI/76/ASC/2024 Bengaluru, Date: 20.05.2024 & 26.07.2024 the scheme has been extended to all taluks of all districts of the State (including command areas).

Implementation of 5310 Krishi Bhagya package components in all over the State with a grant of Rs. 100.00 crores with releases of Rs.50.00 crores and expenditure of 27.99 crores up to December 2024. The number of farm ponds constructed are 2023.

Apart from this, under Krishi Bhagya, State Disaster Mitigation Fund (SDMF) an additional grant of Rs. 100.00 crores have been provided to implement 7905 Krishi Bhagya package components in 223 drought prone taluks of the State. The implementation of this is monitored by agriculture department and fund release is by Revenue Department.

## 2) Organic farming promotional activities

At present, the following schemes under the promotion of Organic Farming are being implemented in the State.

**A. Raithasiri Yojane :** In order to increase the area under millets cultivation in the state, encouragement is being given for the cultivation of organically and traditionally grown minor millets/nutri cereals viz., foxtail millet, little millet, Indian barnyard millet, kodo millet, brown top millet and proso millet based on the crop survey by providing an incentive of Rs. 10,000/- per hectare is directly transferred to the bank accounts of farmers growing minor millets through DBT. To promote Processing, Grading, Value addition, Packing and Branding of Minor millets, assistance of 50% or maximum of Rs.10.00 lakhs subsidy are being provided to the millet processing machineries. Interested Farmers/Farmer Groups/Farmer Producer Groups/Innovators/Public Enterprises can submit proposal and avail the benefit of the scheme.

The Central Government has awarded a Certificate of Appreciation to the Agriculture Department, Government of Karnataka in response to Karnataka's exceptional efforts in promoting millets, state's initiatives and celebration of the International Year of millets 2023.

**B. Conservation and Promotion of landraces:** The program is announced in 2024-25 budget with the main objective of identifying, collecting, conserving and developing seeds of indigenous varieties that are disappearing and suitable for the respective local area.

## 3) Central sector scheme of financing Facility under Agriculture Infrastructure Fund

Ministry of Agriculture and Farmers Welfare, Government of India has launched the "Agricultural Infrastructure Fund" scheme for the financial year 2020-21. This scheme will be in force from 2020-21 to 2032-33. Under this scheme, medium and long-term credit facilities are provided for investment in agricultural assets for creation of post-harvest infrastructure and collective farm assets through commercial banks, cooperative banks and other financial institutions. Under the said scheme, interest subsidy of 3% per annum is available for a maximum tenure of 7 years up to a maximum loan amount of Rs. 2.00 crore and CGTMSE guarantee coverage is available for loans up to Rs. 2.00 crore. This guarantee fee is reimbursed by the Government.

Karnataka received 4th best performing State award under Agriculture Infrastructure Fund for the year 2022-23.

## 4) Organic Carbon Mission

The scheme was introduced in the year -2021-22. Under this programme, a maximum subsidy of Rs.2500/- per hectare will be given to the beneficiary farmers for organizing demonstrations in their fields in order to sensitize the farmers about the benefits of organic carbon enhancement in the soil. Green manure seeds like mainly Diancha and sunhemp are being distributed to all categories of farmers at 75% subsidy or maximum of Rs.3000/- per hectare to encourage the usage of green manures in the soil. The subsidy is limited to a maximum of 2.0 hectares per farmer. An amount of Rs.1800 lakhs is allocated for 2024-25 against which Rs.300 lakhs is released and progress upto end of December 2024 is Rs.297.59 lakhs.

## 5) Raitha Samparka Kendra

The Department of Agriculture under “Raitha Mitra Yojana” established 742 Raitha Samparka Kendra’s (RSKs), one per Hobli to provide services and information at a single point required by the farmers. To strengthen the Raitha Samparka Kendras for effective implementation of Department programmes and technology transfer, the students graduating from Agriculture and Horticulture Universities are deputed at least for 3 months to Raitha Samparka Kendras for acquiring minimum practical skills, field experience and knowledge. An amount of Rs.100 lakhs is allocated for 2024-25 against which Rs.50.00 lakhs is released and progress upto end of December 2024 is Rs.50.00 lakhs.

## 6) Training in Agricultural Technology

Training programmes (3/5/6 days) are being conducted for Farmers/Farm Women and Extension workers to empower them in advanced Agricultural Technology adoption and Agricultural Extension Skills. A farmers’ study tour is also being conducted for Farmers and Farm Women at the DATCs. Funds are also provided for strengthening basic infrastructure and up-gradations of DATCs. An amount of Rs.150.00 lakhs is allocated for 2024-25 against which Rs.111.45 lakhs is released and progress upto end of December 2024 is Rs.87.06 lakhs. The total number of trainings conducted is 1220.

## 7) Karnataka Agriculture Price Commission

Karnataka Agriculture Price Commission (KAPC) came into existence in June 2014. The tenure of the Commission was three years and it has been extended three times. Presently, the Commission has been continued for the fourth term from 26 June 2023 to 25 June 2026. During the tenure Commission has given various useful suggestions and advises to the Government and also has submitted several Reports. In current year, the Commission is in the Stage of preparation of the report- ‘Cost of Cultivation of major Agriculture and horticulture Crops’. A total Budget of Rs.117.33 lakhs is provided to the Commission for the year 2024-25. Up to the end of December 2024, Rs.43.67 lakh grants released out of which Rs.36.10 lakhs have been utilized.

## Other initiatives by the department of agriculture

- a) **Raitha Sahayavani Kendra (Farmers helpline centre):** The State Department of Agriculture has farmers’ helpline called “Raitha Sahayavani Kendra” “1800-425-3553” inaugurated on 17.08.2023, to provide information to the farmers about the problems arising at the field level, the benefits extended for the welfare of the farmers through various schemes/programmes implemented in the Department of Agriculture. About 300-400 calls are attended daily and so far a total of 42,000 calls have been received.
- b) **The e-Governance initiatives undertaken by the Department:** Department has taken steps to strengthen the extension system by greater use of modern Information and Communication Technology (ICT) applications to meet the core functions of the Department viz., service delivery, information dissemination, public grievances and redressal, schemes/ programme implementation and to have interfaces with other Departments through the implementation of K-KISAN (Karnataka – Krishi Information Services and Networking) Project. The Department has developed application modules through NIC for implementation of schemes such as Farm Mechanization, Micro Irrigation, Krishi Bhagya, Agro Processing, Agriculture Input Supply, Demonstrations etc. Also, many of the schemes such as PM KISSAN, Chief Minister Raitha Vidhyanidhi, Raithasiri, and Integrated Farming System under RKVY are brought under Direct Benefit Transfer platform. Further, all licensing services of Agriculture Department are on-line. e-governance Department is extending KSWAN-2 (Karnataka State Wide Area Network) connectivity to all offices of the Department of Agriculture.

- c) **Telemetric Rain gauge Stations:** Rainfall is the most important indicator for the determination of Drought. The spatial and temporal variability of rainfall is very high in the semi-arid and arid areas like Karnataka. Hence, to capture the spatial and temporal distribution and variability of rainfall and weather parameters like Relative Humidity, Temperature, and Wind Velocity & Direction etc. and to assess the impact of the varying weather condition on Agricultural and Horticultural crops, the State has taken up the establishment of Telemetric Rain Gauges and Telemetric Weather stations network since 2007. Agriculture Department has allotted grants under RKVY to Karnataka State Natural Disaster Monitoring Centre (KSNDMC) for establishing GPRS enabled and solar-powered Telemetric Rain Gauges (TRG) at Grama Panchayath level and Telemetric Weather Stations (TWS) at Hobli level. KSNDMC has successfully installed and maintaining 6506 Telemetric Rain Gauges which include Pattana Panchayaths, Hobli headquarters and all the Gram Panchayaths in the State. Telemetric Weather Stations have been installed in all the 929 Hobli headquarters and 173 micro watersheds. The dense network of weather monitoring stations is unique and first of its kind in the Country. The Grama Panchayath level weather data and the weather forecast is being used to generate and disseminate weather-related Alerts, Early warnings and Agro-Met advisories directly to the officers and farmers through a 24x7 interactive help desk “VARUNA MITRA”.
- d) **Agro-met Advisories through Mobile SMS:** Agriculture Department in coordination with Karnataka State Natural Disaster Monitoring Centre (KSNDMC) has been providing weather and crop advisories in Kannada directly to the farming community through SMS to their mobile phones. At present weather and crop advisories are disseminated to about 30 lakh farmers in the State. This information is helping the Farming Community for planning and taking up their agricultural activities and also minimizes the loss due to any weather aberrations.
- e) **Pradhan Mantri Kisan Samman Nidhi (PMKISAN):** Under the “Pradhan Mantri Kisan Samman Nidhi” scheme of Government of India, each eligible farmer family is provided with the financial assistance of Rs. 6000/- in 3 installments of Rs. 2000/- each. So far, 6568792 farmers in the State have registered by giving self-declarations under this scheme; 6179410 farmers information (Aadhaar number and bank account number) has been sent to Government of India. After registration under various verification processes 8.94 lakh farmers are made ineligible. In addition, 3.18 lakh beneficiaries’ payment has been stopped temporarily for land mutation verification process. The Government of India has transferred the financial assistance of Rs. 16773.23 crore to farmers through DBT mode.
- f) **Mukhya Mantri Raitha Vidya Nidhi Programme:** With the objective of promoting higher and advanced education among children of farmers who are pursuing studies, the Chief Minister’s Raitha Vidyanidhi program has been implemented from the financial year 2021-22. Due to changes in the program implementation guidelines from the 2023-24 year (students receiving scholarships under other department programs are not eligible for the Raitha Vidya Nidhi program), no scholarships were paid out in the year 2023-24. The Raitha Vidya Nidhi program is being continued in the year 2024-25, as per the new guidelines.
- g) **Integrated Farming System (IFS) replication and Popularization under Rashtriya Krishi Vikasa Yojane (RKVY) during 2024-25:** The main aim of Integrated Farming System (IFS) replication and Popularization programme under RKVY is to increase the income of the farmer through “Integrated Farming”. Encouraging integrated farming system covering crops, livestock & fishery, plantation and pasture based composite farming for enhancing livelihood opportunities, ensuring food security and minimizing risks from crop failure through supplementary/ residual production systems.

For the year 2024-25 target of Rs. 12.00 crore has been allocated to all districts to implement 2400 Integrated Farming System models. In the present year (2024-25) 1113 beneficiaries have implemented Integrated Farming System (IFS) models, out of which 375 beneficiaries have been provided subsidy of Rs. 1.63 crores through Direct Benefit Transfer.

- f) **Karnataka Raitha Samruddhi Yojana:** Under Agriculture Department, Krishi Bhagya scheme currently being implemented in the state, to make these beneficiaries of the scheme sustainable and profitable through the convergence of ongoing schemes, capacity building and creation of awareness for farmers and farmer groups on quality production, processing, value addition, marketing and export, guidance to farmers on which crops to be grown based on soil testing and market demand, etc. with a view to increasing food production and farmers income.

Under the Karnataka Raitha Samruddhi Yojana, a total fund of Rs. 1000.00 lakhs have been approved for implementation.

- g) **Crop Survey:** In Karnataka, estimation of Crop Area statistics was earlier done manually. The manual survey at times did not give accurate picture. Therefore, there was need to bring in a system for effective capture of survey/ sub survey number wise crop information. During the year 2017, to alleviate the problems of data collection and to ensure accurate data availability, the State Government decided to take up Crop survey work using GPS based mobile software application developed by the DPAR (e-Governance) with the help of officials of the Revenue, Agriculture, Horticulture and Sericulture departments. Later in the 2018-19, the crop survey was conducted during Kharif season using educated youth (private residents-PR) of the village using the mobile application. From the year 2020-21 farmers were themselves allowed to upload the crop details of their farm in the Farmers App. Currently, Crop Survey is being carried out in 4 seasons a year namely Early Kharif, Kharif, Rabi and Summer season with the help of both Farmers App and PR App.

Bele Darshak App has been developed to allow the farmers to view the details of the crop survey of his plot and raise their objections if any about the crop survey. The objections raised by farmers about Crop survey are disposed of by the Departmental Officers appropriately.

#### **Crop Survey data can be used for the following activities**

- I. Crop survey data can be used in crop area estimation by Statistics, Agriculture, Sericulture and Horticulture departments
- II. For the selection of survey numbers in conducting Crop Cutting Experiments (with the approval of NSSO and Government of India wherever possible).
- III. To prepare crop loss report caused due to natural calamity, to identify eligible beneficiaries and to provide input subsidy under NDRF/ SDRF.
- IV. Crop Insurance Scheme –For plot level crop inspection.
- V. Fixation of Minimum Support Price and identification of eligible beneficiaries under the scheme.
- VI. For implementation of beneficiary-oriented schemes of Agriculture, Horticulture and Sericulture departments as per crop criteria.
- VII. For recording crop details in RTC.
- VIII. Used by national and rural banks to sanction crop loans to farmers.

**Achievement during 2024-25:** During 2024-25 Kharif season, out of a total of 266.82 lakh plots, 1.56 lakh plots were surveyed through the farmers' mobile app and 254.89 lakh plots through the private residents' app. Total 256.45 lakh plots surveyed which is 96.12% progress.

- h) 1% interest subsidy to the Crop loan:** This scheme was launched during 2009-10 to provide 1 % interest subsidy for short term agricultural crop loans through commercial banks and Regional Rural Banks up to Rs. 1, 00,000/- for the farmers who repay the crop loan amount before the due date fixed by the banks.

A budget provision of Rs. 400.00 lakhs have been made during 2024-25. An amount of Rs.300.00 lakhs has been released. As of December 2024, an amount of Rs. 300.00 lakhs have been released to SLBC.

### Major constraints confronting agriculture sector

- Predominantly rainfed agriculture,
- Sub-division and fragmentation of landholdings,
- Inadequate and injudicious use of irrigation facilities,
- Low level of public investment,
- Exhaustion of the yield potential of new high yielding varieties,
- Technological & Extension Constraints,
- Environmental degradation and impaired soil fertility,
- Depleting water resources,
- Adverse impacts of climate change,
- The rising cost of production,
- Diminishing agricultural labour availability,
- Inadequate post-harvest value addition,
- Inadequate infrastructure facilities (lack of proper storage and transportation facilities warehouses, cold and dry storage facilities for perishable goods)
- Farmers' reduced interest in agriculture.

## 6.2 WATERSHED DEVELOPMENT DEPARTMENT

Watershed development is being given importance in the State, because nearly 75% of the cropped area in Karnataka depends upon low and uncertain rainfall. The geographical area of the State is 190.50 lakh ha., of which 129.70 lakh ha. is available for watershed interventions. Up to the end of March 2024, an area of 74.15 lakh ha has been developed with watershed interventions (treated) and 55.55 lakh ha. (Out of which 3.86 is under treatment) is yet to be treated.

Water harvesting structures are being constructed under various watershed development schemes, mainly with the objective of improving ground water recharge through harvest of rain water. Water harvesting structures are constructed with the grants under the Watershed Development Department schemes- "Watershed Development Component of Pradhan Mantri Krishi Sinchayee Yojana-2.0, NABARD-RIDF Tranche-27, World Bank Assisted REWARD Project" and also under the watershed development activities of other nodal departments "Pradhan Mantri Krishi Sinchayee Yojana-Other Interventions, RKVY-Check Dam Construction & Water Harvesting Structures and Atal Bhooj programme". In the current year, 2101 different

water harvesting structures (check dam, vented dam, nala bund, gokatte, percolation tank, farm pond) are constructed and estimated to cover 3151 ha area under protective irrigation.

For the year 2024-25, Rs. 402.07 crore is provided in the budget. Out of the releases Rs.284.43 crore, Rs.188.87 crore expenditure has been incurred till December 2024.

### **Watershed Development component of Pradhana Mantri Krishi Sinchayee Yojane 2.0 (WDC-PMKSY 2.0)**

The vision of PMKSY-WDC 2.0 is to accelerate the economic growth rate of Rainfed area agriculture. At watershed level, the aim of the project is to achieve higher income for farmers, expanded livelihood options for landless persons, equity in distribution of programme benefits, community ownership and management.

From the year 2021-22, it has been planned under the scheme to develop 63 watershed projects in 63 taluks of the State with an area of 2.90 lakh ha with average project size of 4800-5000 hectares area, in saturation approach and also in convergence with MGNREGA, PMKSY-PDMC and other Central and State Government programmes for a period of 5 years. The Central and State Governments approved the total project cost of Rs.680.38 Crores with the sharing pattern 60:40. The unit cost for the plain areas is Rs.22, 000/- per hectare and hilly/difficulty areas is Rs. 28,000/- per hectare.

During 2024-25, Rs.145.00 crore is earmarked in State budget. Totally Rs.71.61 crore has been released including OB of which Rs.48.41 crore is utilized till December 2024. Under this programme, along with construction of 161 different water harvesting structures, 21707 ha rainfed area is treated with different watershed activities and 9574 farmers are benefited.

### **Rainfed Area Development (RAD) - RKVY RAFTAAR**

The Centrally Sponsored Scheme Rainfed Area Development Programme is being implemented in the State since 2014-15 to increase the agriculture productivity in rainfed areas. The scheme is being implemented in the State with the sharing pattern of 60:40 between Central and State Government and this programme is brought under RKVY in the year 2022-23

The Rainfed Area Development (RAD) scheme's main objective of enhancing the productivity of agriculture is achieved by promoting Integrated Farming System (IFS) with emphasis on Crops (Millets Crops / Oilseed/ Pulses/Vegetables/fodder) + Trees (Horticulture/ Agro Forestry) + Livestock {Milch cows/ Buffaloes/small ruminants (10 animals (Sheep or Goat or Pigs) / 50 birds (Duck/ Poultry) and value addition activities such as Fishery (Fingerlings) Units, Apiculture (Bee Keeping), Silage making Vermicompost Units to be converged with the other schemes.

For the year 2024-25 an amount of Rs.15.00 crore has been allocated and with a target to implement IFS activities in an area of 4385 ha. Out of the releases Rs.18.35 crore (including OB), Rs.14.10 crore expenditure has been incurred till December 2024 and IFS activities are being implemented in an area of 3582 ha, covering 6026 beneficiaries.

### **World Bank Assisted REWARD Project (Rejuvenating Watersheds for Agricultural Resilience through Innovative Development)**

In the year 2020-21 Budget the State Government announced the World Bank funded new REWARD program in the lines of Sujala-III and accorded approval for implementation of the program in 25 districts with an outlay of Rs.600.00 crores (State Share: 30% and World Bank loan: 70%). The programme is a multi-State watershed

development program wherein Karnataka will be the Light house State and provide technical guidance to other participating States.

**Program Objective:** To strengthen capacities of national and State institutions to adopt improved watershed management for increasing farmers' resilience and support value chains in selected watersheds of participating States.

**Major activities:** Land resource inventory (LRI) in 25 lakh hectares rain-fed area of 25 project districts; Watershed treatment on saturation mode in 1.0 lakh ha (20 sub-watersheds) based on LRI recommendations; 28 FPOs and Value chain development; providing improved Agro-met advisories to farmers; establishment of Centre of Excellence on science-based watershed management at UAS Bengaluru to provide 900 trainings to State and other States officials and technical staff.

**Program technical partners:** National Bureau of Soil Survey and Land Use Planning (ICAR-NBSSLUP), Indian Institute of Science (IISc), State Agricultural and Horticultural Universities, Karnataka State Remote Sensing and Applications Centre (KRSAC), Karnataka State Natural Disaster Monitoring Cell (KSNDMC) and Vishweshwara Institute of Technology (VTU).

In 598 micro-watershed areas, LRI has been completed at 7.6 lakhs ha area during this year and Hydrology studies has been started.

As part of the saturation watershed management, the implementation of the Detailed Project Report (DPR) based on Land Resource Inventory in 191 micro-basins of 20 districts started after getting approval from PEC for an amount of Rs.239.03 Crore. Till now, saturation watershed management activities have been undertaken in an area of 23000 ha and the implementation is in progress.

In the budget estimate for the year 2024-25, an amount of Rs.150.00 crore has been allocated for the project. So far, Rs.75.00 crore has been released till now and available budget is Rs.131.45 crore available amount including opening balance. The total expenditure incurred till December 2024 is Rs.70.43 crore.

### Farmer Producer Organizations (FPO)

The Formation & Promotion of Farmer Producers Organizations (FPO) are expected to address the many challenges faced by individual small and marginal farmers especially in marketing the agriculture produce. It aims to achieve this through a collective process, by providing direct market support to the farmers, it is to avoid the menace of middlemen and get the right price to their crops produce in the market, at the right time. These organizations are created depending upon the needs of the producers considering the demand potential to adopt a value chain approach to enhance producer's economic and social benefits.

### Formation and promotion of farmer producer organizations is implemented under 2 schemes

- a) **Central Sector Scheme-** Formation and promotion of 10000 FPOs: Under centrally sponsored scheme, 100 Farmer Producer Organizations are formed in the State and are promoted. During 2024-25 an amount of Rs.3.00 Cr. has been released and incurred an expenditure of Rs.0.99 Cr.
- b) **Formation & Promotion of Amrith FPOs:** On the occasion of 75th Independence Day celebration, the formation & promotion of Farmers/Fishermen/Weavers Organization was announced to increase their productivity and also to create proper marketing system for the produce produced by them. The Formation and promotion of Amrit FPOs was started from the year 2021-22. As per revised target, 486

Amrith Famers Producer Organizations have been created by the concerned implementing departments in agriculture, horticulture, Sericulture, animal husbandry and textile & handloom sectors.

For the year 2024-25, Rs.1.16 crore grant allocation has been made. Till December 2024, Rs.0.769 Cr. has been released out of which Rs.0.66 crore expenditure is incurred.

### **Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS)**

With the objective of creating job opportunities for the small, marginal farmers and landless labourers, soil and water conservation activities were taken up in convergence with MGNREGS. Action plan for the year 2024-25 to implement Watershed development activities in convergence with MGNREGS, involves generation of 82.00 lakh Man days with the financial target of Rs. 268.63 Crore. 35664 Ha of bunding, 3314 Step farm pond, 163 water harvesting structures, have been constructed by generating 57.55 lakh Man days with the financial progress of Rs. 208.39 Crore upto end of Dec-2024.

### **Achievement for the year 2024-25**

1. 48277 hectare has been treated through watershed activities under the scheme Watershed Development Component of Pradhan Mantri Krishi sinchayee yojana – 2.0 (WDC of PMKSY- 2.0) and REWARD project. Apart from this forestry-5210 ha, dryland horticulture-4081 ha and 54 mini forests has been developed.
2. The LRI based studies under the World Bank assisted REWARD program enhances the production and productivity of crops by adopting recommended activities/dosage of fertilizer application based on LRI card recommendation. During the year, LRI information is collected in an area of 7.6 lakh ha area and LRI cards are issued for 1.60 lakh farmers.
3. 2101 WHS has been created Water harvesting structures are being constructed under various watershed development schemes and an area of 3151 ha is brought under protective irrigation.
4. Under the scheme Formation and Promotion of Amrith Farmer Producer Organisations and 10000 FPOs, 586 FPOs are supported.

By implementing the above watershed programme following measurable outcomes can be achieved at the end of the programme.

1. The implementation of integrated watershed activities will ensure sustainability of rainfed farming and the rainfed watershed shall be developed for drought proofing the dryland farming.
2. Improving ground water recharge through harvest of rain water through various watershed projects.
3. The LRI based studies under the World Bank assisted REWARD program enhances the production and productivity of crops by adopting recommended activities/ dosage of fertilizer application based on LRI card recommendation.
4. Increase in the productivity potential of the project area through the implementation of various soil and water conservation activities compared to the non-project areas.
5. The moisture availability for rainfed farming shall be improved through the in-situ and ex-situ soil and water conservation measures like field bunds, trench cum bunds and boulder/rubble/vegetative checks, Farm ponds, Check dams and Nala bunds activities implemented in the arable and non-arable lands.

6. Assured protective irrigation in the project area through the utilization of rain water harvested through water harvesting structures.
7. Conversion of degraded and barren land into a cultivable land and thereby increases in the agriculture area and productivity in the Dry land horticulture, Agro forestry and as well as increase in Fodder production in the watershed area.
8. Upliftment of Small, Marginal, SC and ST population through the implementation of watershed activities in participation with community for more sustainable benefits and towards doubling of the farmer income
9. Farmer Producer Organization Should be able to unleash the economic community and empower the farmers financially through enhanced negotiation power and business partnerships.

### 6.3 AGRICULTURAL MARKETING

The State has 171 Agricultural Produce Market Committees (APMC's) to facilitate and regulate the marketing of agricultural commodities. Since the Department has provided infrastructure facilities for better marketing of the commodities; the arrival of agricultural commodities to the market yard is increasing year by year.

The Department of Agricultural Marketing is working under the Karnataka Agricultural Produce Marketing (Regulation and Development) Act, 1966 and Rules 1968. The Department of Agricultural Marketing supervises and guides the working of Agricultural Produce Market Committees (APMCs) to implement the provisions of the Act and Rules. The APMCs are managed by an elected Managing Committee and the Secretary and supporting staff working are Government servants.

The main objective of the department is to develop and encourage a dynamic and self-sustaining agricultural marketing system in the State through adequate infrastructure and user-friendly electronic system and to achieve partnership and equitable social and economic development of farmers and all marketing stakeholders by developing a transparent, scientific agricultural produce marketing system.

The challenges of the Department are to provide the additional required infrastructure for trade in the markets, to ensure transparency in the markets, to modernize the markets, and to ensure competitive price to the farmers produce. In this regard, action has been taken to implement an online trading system in all the APMCs of the State in a phased manner. Till date 160 APMCs have been linked to Unified Market Platform of Rashtriya e-Market Services and the Kalaburagi & Chincholi APMCs have been linked to the e-NAM platform of the GoI. In addition to this, action has also been taken to link 3 more APMCs to the e-NAM platform.

#### The budgetary allocation for the year 2024-25: (Rs in lakhs)

1. **Minimum Support Price scheme:** Total budget allocated is Rs.50.00 crores, Government has released first instalment of Rs.12.50 crores and the same has been transferred to the revolving fund. Government has also released 2nd and 3rd instalment of Rs.25.00crores, action has been taken to draw the same from the treasury and transfer to the revolving fund
2. **Development of Rural Markets - NABARD works:** Budget outlay is 113.65 crores. Government has released 1st and 2nd instalment of Rs.56.83 crores and the same has been transferred to the APMCs who have taken works under this scheme. Government has also released 3 instalment of Rs.28.41crores. Action has been taken to transfer the same to the APMCs to complete the works taken under this scheme.

### 3. Block Grants (District sector scheme): Rs.4.35.crores is the total outlay.

- a) **Rashtriya e-Market Services Limited (ReMSL):** The Agricultural Marketing Reforms Committee appointed by the State Government Department of Co-operation under the Chairmanship of Additional Secretary to Government in March 2013 submitted its report in May 2013 to improve the agricultural marketing system in the State. The State Government has accepted the recommendations of the Reforms Committee and came out with the "Karnataka State Agricultural Marketing Policy- 2013" on September 4th, 2013. An SPV (Special Purpose Vehicle) has been established on 20-1-2014 for the implementation of reforms measures. The Policy implementation will help the farmers to get competitive prices for their commodities, bring transparency in the system and facilitate simplification of various activities in the market yards.

On line trading system is being implemented to sell the agricultural produce of the farmers in the markets through the electronic trading system. Actions are being taken to ensure transparency, simplify the marketing procedures, and ensure a competitive price for farmers' produce by introducing technology in all market activities including auction system, price discovery and payment of sale proceeds to farmers on line. The technology measures are taken to link different markets in the State for facilitating the traders of different markets in the State to participate in buying of commodities online from any of the markets of the State where the farmers have offered for sale. So far, 160 markets are brought under Unified Market Platform. The Unified Market Platform has transacted 10.75 Crore MTs of agricultural commodities worth Rs.3, 54,507.38 Crore.

- b) **Minimum Floor Price scheme:** To ensure sustainable development and stability in the agricultural sector and to protect the interest of the farmers against distress sale of agricultural commodities, whenever the rates of such commodities go down, the Floor Price Scheme for Agricultural/ Horticultural commodities in Karnataka is being implemented. The scheme applies to all the notified Agricultural & Horticultural commodities as per Karnataka Agricultural Produce Marketing (Regulation & Development) Act 1966. In addition to this Scheme, the Price Support Scheme of Government of India is also being implemented. This helps to stabilize the agricultural prices in the markets and ensure a better price for farmers produce by avoiding the distress sale of commodities.

The Scheme has come into effect from 24.11.1999. For the successful implementation of the said scheme, a corpus of Revolving Fund was created. The Karnataka State Agricultural Marketing Board is authorized to operate the Revolving Fund as per Karnataka Agricultural Produce Marketing (Regulation & Development) act 1966, and the decision taken by the Cabinet Sub-Committee for Price Stabilization of Agriculture/Horticulture Commodities. In the current financial year, approximately 3809 MTs of sunflower, 26,755 MTs of green gram, 18282 MTs of soybean and 1,90,502 MTs of cotton have been procured upto the end of December under the Minimum Support Price Scheme, benefiting a total of 1,32,459 farmers.

#### Procurement of various agricultural commodities for the year 2024-25 (Upto 31-12-2024)

| Commodity  | Quantity procured in MTs | Value in Rs Crore | Farmers benefited |
|------------|--------------------------|-------------------|-------------------|
| Ragi       | 55,607.2                 | 213.86            | 25,533            |
| Jowar      | 1,87,178.4               | 595.00            | 22,247            |
| Sun flower | 3,278.3                  | 24.00             | 3,520             |
| Green gram | 26,752.7                 | 232.00            | 34,862            |

| Commodity    | Quantity procured in MTs | Value in Rs Crore | Farmers benefited |
|--------------|--------------------------|-------------------|-------------------|
| Soyabean     | 14,405.2                 | 70.00             | 11,754            |
| Cotton       | 1,39,407.6               | 976.00            | 56,918            |
| <b>Total</b> | <b>4,26,629.4</b>        | <b>2110.86</b>    | <b>1,54,834</b>   |

- c) **Rural Infrastructure Development Fund (RIDF):** To provide basic amenities in the rural markets, the Department of Agricultural Marketing, prepares the project proposal based on the requirements of different APMCs, submits the proposal to NABARD and on approval, the project is implemented under the supervision of the Department. The facilities provided in the rural markets like godowns, roads, sanitary, auction platforms, drinking water, etc will help the sellers and buyers.

During 2024-25, budgetary provision of Rs.113.65.crores has been made under this scheme. An amount of Rs.56.83 crores has been released as 1stand 2nd instalment. The same has been utilized for the works taken under RIDF-28 and RIDF-29.

Under RIDF-28, select 18 number of works have been with as estimated cost of Rs. 179.13 crore. 4 works are completed. Out of remaing works, 13 works are under progress and one work has been dropped. Under RIDF-29, select 70 number of works have been with as estimated cost of Rs. 210.00 crore. 22 works are completed. Out of remaining works, 47 works are under progress and tender process is under progress for the one work. Under RIDF-30, Government has accorded administrative approval to take up 10 number of works at an estimated cost of Rs.144.75 crore. Action has been taken to invite the tender.

- d) **KayakaNidhi:** Implementation of KayakaNidhi Scheme will benefit around 20,000 licensed hamals working in the APMCs who are under below poverty line.

The amount under this scheme is being utilized to meet the medical expenses of licensed hamals for surgical operation upto Rs.1.00 lakh & amount given for the final rites of deceased Hamals working in APMCs has been enhanced from Rs. 10,000 to Rs. 25,000.During 2024-25, upto the end of December, Rs.5.50 lakh has been spent for medical expenses and for funeral assistance for Hamals. This has benefited 22hamals.

- e) **RaithaSanjeevini:** This is an insurance scheme for farmers being implemented by the Karnataka State Agricultural Marketing Board. Under this scheme, farmers who meet with an accidental death or permanently disabled while being involved in farming/marketing activities are provided with compensation ranging from Rs.10,000/- to Rs.1,00,000/-. During 2024-25, up to December, 03 farmers were given compensation of Rs.1.10 lakh.

- f) **Group Term Insurance Scheme:** A group term insurance scheme has been implemented in association with Life Insurance Corporation of India for the year 2023-24 for registered hamlas who were obtained the license and working in the APMCs of the State. A compensation of Rs.1.00 lakh will be given by the Life Insurance Corporation of India to the heirs of the deceased hamals registered under the scheme.

### Other Achievements of the Department

- The amendment to the farmer friendly Karnataka Agricultural Produce Marketing (Regulation and Development) Act has been withdrawn and re-inStated the earlier one.

- Steps have been taken to develop comprehensive ERP (Enterprise Resource Planning) with the help of Centre for Smart Governance to digitize the daily working activities in the APMCs. Out of 11 modules, 02 modules have been completed and the remaining modules will be completed at the earliest
- Enforcement cells have been created in all the 4 revenue divisions of the State to control unauthorized sale of agricultural produce and thereby increase market fee collection.
- In order to avoid farmers selling agricultural produce under pressure and lower price, steps have been taken to set up cold storages in the selected 13 Agricultural Product Marketing Committees under RIDF-29 and RIDF 30. This will benefit farmers who grow dry chillies and pulses.
- To convert the APMCs into zero waste vegetable markets by scientifically processing the waste generated in the premises, action has been taken to establish Bio CNG Plant under PPP mode in the APMCs of Bangalore, Mysore and Kolar.
- Administrative approval has been obtained as per the order dated: 10.12.2024 for the installation of weigh bridges near all the sugar mills by APMCs, to protect the interest of sugarcane growers of the State against fraud weighment, tenders are invited for installation of weighing machine at select 14 places.
- To encourage the use of electric vehicles in the State to minimize air pollution, steps have been taken to set up electric vehicle charging stations in all the APMCs of the State in collaboration with the electricity supply boards.

## Challenges

The collection of the market fee is reduced to 0.60%, and there will be a drastic reduction in the collection of market fee. Hence, it is a big challenge to the Department for giving necessary infrastructural facilities like necessary hardware/peripherals for online trading, and establishment of assaying and grading labs, pure drinking water facility, and toilet facility in the markets for Integration of Unified Market Platform with e-NAM out of the revenue collection.

## 6.4 HORTICULTURE

Horticulture sector has emerged as an important component of the economy of our State and has contributed more than one third share to the economy of agriculture and allied sectors. In many dry regions of the State, Horticultural crops have evolved as an alternative crop to agricultural crops. In 2023-24 Horticulture crop covers an area of 24.92 lakh hectares and the annual production is 188.69 lakh Metric Tons. The average productivity of horticultural crops in the State is 7.53 Metric Tons per hectare. The share of Horticultural produce in total GSDP of the state was 3.90%.

The government is implementing various programs for the development of horticulture sector, during the year 2024-25 Rs. 1351.04 crores of budget is allocated, an amount of Rs. 1001.75 crores were released and Rs. 1012.45 crores (Including OB) have been spent till the end of December, 2024. The State has undertaken several initiatives to boost the growth in this sector. The major initiatives include Area expansion programme, providing micro irrigation under Pradhana Mantri Krishi Sinchayi Yojane, Horticulture extension and training Disease and pest management, Rashtriya Krishi Vikas Yojane (RKVY), Comprehensive Horticulture Development, Assistance to Horticulture Boards and Corporations, Biotechnology, Apiculture and Paramparagath Krishi Vikas Yojana.

**Table 6.5: Schemes being implemented during 2024-25 and financial progress achieved up to end of December 2024 to increase the growth in this sector are as mentioned below.** (Rs. in Crores)

| Scheme Name                                                                     | Total Allocation | Total Release  | Total Expenditure |
|---------------------------------------------------------------------------------|------------------|----------------|-------------------|
| CSS-Central Share-Paramparagat Krishi Vikas Yojane                              | 9.87             | 9.74           | 8.32              |

**Table 6.6: Category wise Area under Horticultural crops****(in lakh Ha.)**

| Year    | Fruits | Vegetables | Spice Crops | Garden Plantation | Commercial Flowers | Medicinal Plants | Aromatic Plants | Total |
|---------|--------|------------|-------------|-------------------|--------------------|------------------|-----------------|-------|
| 2022-23 | 3.76   | 4.50       | 4.11        | 14.60             | 0.42               | 0.01             | 0.02            | 27.43 |
| 2023-24 | 2.95   | 4.12       | 4.28        | 13.13             | 0.41               | 0.01             | 0.02            | 24.92 |

Source: Directorate of Horticulture

24.92 lakh hectares of area was under Horticulture crops during 2023-24 as against the area of 27.43 lakh hectares in 2022-23, which indicates that 2.51 lakh hectares of area was decreased during 2023-24.

The department has under taken several schemes is as below

#### **(i) National Mission on Edible Oil - Oil Palm**

India imports around 140.70 lakh tones of edible oils costing around 1,40,000 crore. Therefore, in order to achieve self-sufficiency in edible oil production, both Central and State Govt. are encouraging oil palm cultivation. As per the reassessment by Indian Institute for Oil Palm Research in 2020, Karnataka has the potential to grow Oil palm in an area of about 72642 ha. Since, Oil Palm is a water loving crop, its cultivation is mainly taken up in 19 districts which come under command areas of Cauvery, Bhadra, Thungabhadra, Krishna, Malaprabha and Ghattaprabha and in 5 districts in non-command areas through PPP module.

In order to protect the interest of oil palm farmers, oil palm entrepreneurs and oil palm industry as a whole, the State Government has passed the “Oil Palm Cultivation, Production and Processing regulation Bill” during the year 2013. Currently in the State, around 7367 farmers are cultivating oil palm in an area of 10944 ha. out of which 3504 ha. is yielding. The annual production of oil palm FFBs is about 19446.43 M.T, from which 3348.67 M.T of Crude Palm Oil (CPO) is being extracted. During 2024-25 (up to the end of October-2024), 55,950 seedlings have been distributed to the farmers for area expansion under oil palm. Further Government of India has deposited Rs.2.52 crores towards Viability Gap Price for FFB procured from 1st Nov 2022 to 31st Oct, 2023 directly to oil palm growers.

#### **(ii) Pradhan Mantri Krishi Sinchayee Yojana (PMKSY)**

Water is the most important input in Agriculture sector, especially for Horticulture crops. Micro Irrigation system not only increases the water use efficiency, it also helps in improving yield, quality of produce, reduced dependency on labour and in reducing weed menace. Karnataka is one of the pioneering states in recognizing the advantages of Micro-Irrigation (Drip Irrigation & Sprinkler Irrigation), from the year 2023-24 PDMC is brought under RKVY Umbrella scheme and is being continued in the current year as well. Rs.608.15 Crores (Including unspent amount in SNA account) has been allocated to the Department of Horticulture.

During the year 2024-25, (up to December-2024) an area of 29,007.49 hectares has been brought under Micro Irrigation by providing subsidy of Rs.20795.60 lakh for 32003 farmers who have installed Drip/ Sprinkler for Horticulture.

#### **(iii) National Horticulture Mission (NHM)**

Adoption of protected cultivation method, rejuvenation of the unproductive orchards, rainwater harvesting, organic farming, induction of Integrated Nutrition Management (INM) and Integrated Pest Management (IPM), providing post harvest support, improving marketing, enhancing the technical knowledge and skills of farmers, extension officials and entrepreneurs through an array of training programmes.

Under the National Horticulture Mission Scheme, for the year 2024-25 Rs. 129.75 crores target has been approved. Out of which, a total of Rs. 72.77 crore has been released till the December 2024. Out of the total grants released, the progress of Rs. 61.20 crore has been incurred up to December 2024 benefitting 18754 beneficiaries under the scheme. For the year 2024-25, 2 cold storages have been installed out of the total target of 10 units of cold storages.

#### **(iv) Bio Centre**

The Department of Horticulture has developed 06 Bio Centers and all of them are functioning actively. At the Bio Center activities such as tissue culture-based plant propagation, mushroom development, production of organic fertilizers, biocontrol agents and analysis of nutrients in soil, leaves and water are being carried out. Propagation of horticulture crops including medicinal and aromatic plants and production of fruit grafts/seedlings is also an important activity of the center.

During 2024-25, under the KSHDA + departmental of developmental lab schemes, a budget of Rs. 185.50 lakh has been used to produce 11.43 lakh of tissue culture banana plants, Rs. 176.14 lakh to produce 409 tons of organic fertilizers/biocontrol agents/ manure and 34899 litres of liquid organic fertilizers. Additionally, with a grant of Rs. 89.40 lakh, 44702 soil, water and leaf analysis has been carried out. Furthermore with a budget of Rs. 14.40 lakh, 72000 numbers of mushroom spawn (250 grams per packet) has produced and a total of 1353 seed samples have been analyzed at a cost of Rs. 16.67 lakh by the end of December 2024.

#### **(v) Paramparagath Krishi Vikas Yojana (PKVY)**

To promote natural resource based integrated and climate resilient sustainable farming systems that ensure maintenance and increase of soil fertility, natural resource conservation, on-farm nutrient and minimize dependence of farmers on external inputs. The main objective will be to validate, value add where necessary and create a marketing system. A total of 10000 ha in three years, aims to convert agriculture/horticulture area to organic and provide market linkages. During the year 2024-25 till the end of December 2024 Rs. 1386.43 lakhs out of the available grant release Rs. 3290.51 lakhs have been spent. Overall, 11630 beneficiaries have been benefited till date since inception of the scheme (2020-21).

#### **(vi) Comprehensive Horticulture Development Plan**

Under the Comprehensive Horticulture Development Scheme, to increase the production and productivity of horticulture crops in the state, farmers are being provided with new technology to adopt new technologies, area expansion and management of selected crops. Also, training on new technologies/innovations, distribution of vegetable seeds (hybrid and improved varieties), subsidy for innovative technology and machinery in horticulture, a new program for research on Geographical Indication (GI) crops such as Mysore jasmine, Nanjangud Rasa banana & Mysore betel leaf to promote marketing & brand, there are 22 supplementary sub-projects that will help in the comprehensive development of the horticulture sector by providing marketing for horticulture products are being implemented.

Under the Comprehensive Horticulture Development scheme 40% subsidy will be provided to all categories of farmers as per the guidelines of the Comprehensive Horticulture Development Sub-scheme as per the unit cost fixed under the NHM and other schemes of the department / MGNREGA scheme for the area expansion program of various horticulture crops. For the year 2024-25, a grant of Rs. 7875.33 lakh has been allocated for which Rs. 5756.50 lakh has been released and by the end of December-2024, a progress of Rs. 4167.39 lakh has been achieved, 7977 beneficiaries have received the facilities.

### **(vii) Apiculture Development Programme**

Apiculture being beneficial to mankind, is emerging as a profitable industry providing export opportunity. Apiculture plays a major role in providing financial independence to the bee keepers. As Honey bees help cross-pollination in Horticulture and Agriculture crops, high and good quality yield can be obtained. Having many medicinal properties, Honey is the gift of nature to the humankind and beekeeping can be practiced without much investment by landless small and marginal farmers, women and handicapped. Under this scheme 1606 beneficiaries have received scientific beekeeping training and a total of 2069 honey boxes have been distributed.

A total grant of Rs.200.00 lakhs under the State sector scheme and Rs.326.50 lakhs under the District sector scheme has been allotted for the implementation of the beekeeping development scheme in the year 2024-25 and Rs.200.00 lakhs under the State sector scheme and Rs. 246.18 lakhs under the District sector scheme have been released till the end of December-2024 and financial progress of Rs.115.54 lakhs under State sector scheme and Rs.196.58 lakhs under District sector scheme has been achieved by the end of December-2024.

### **(viii) Horticulture Training Programme**

11 training centers are functioning in the department. Every year 400-450 farmers children are being trained.

### **(ix) Horti-clinic Activities**

At present one State level and 28 district level horticultinics are functioning to create awareness among the farmers about the new technologies developed for horticulture, various horticulture schemes and to conduct training programmes and study tours to farmers.

### **(x) Integrated Pest and Disease Management in Horticultural Crops**

It is implemented to increase the yield of Horticultural crops by protecting them from pests and diseases. During 2024-25, an amount of Rs.500.00 lakhs has been allocated for subsidy for purchase of plant protection chemicals and goniozus parasite production and distribution to farmers. As on December- 2024, Rs.500 lakhs have been released, out of which Rs. 419.85 lakhs have been spent. There are 23 parasite laboratories in the department wherein, 83.00 lakh Goniozus parasites were produced and distributed to 950 farmer beneficiaries during 2024-25 (up to December 2024).

### **(xi) Sub Mission on Agricultural Mechanization (SMAM)-Mechanization in Horticulture**

Agricultural lands are becoming fragmented, area in world is limited, but the demand for food is increasing due to population growth. To increase productivity per unit area, to meet the growing demand arising from increased population growth as well as improving the income of farmers is at most importance of the scheme.

To increase productivity, timely and precise field operations is very essential to but the lack of adequate labour and timely availability hinders the farming activities in agriculture. Intervention of specialized machinery in agriculture make significant changes in agriculture production in order to promote the mechanization.

During the year 2024-25, including the opening balance, (total of Rs. 738.43 lakhs from the year 2023-24) for the current year, Rs. 2709.93 lakhs have been released and Rs. 209.93 lakhs was spent at the end of December-2024. Assistance is being provided to 2304 Number of beneficiaries.

➤ **Assistance to Power Tiller program purchased by Scheduled Castes and Scheduled Tribes under Scheduled Castes and Tribal Utilization Act 2013**

To enable farmers to prepare land for growing horticultural crops, planting, seedlings and spraying, maximum assistance of Rs.1.00 lakhs at the rate of 90 % of the unit cost is being provided to Farmers for purchase of Power Tiller/Power Weeder.

During the year 2024-25, Rs.220.60 lakhs was released and Rs.184.35 lakhs was spent at the end of December-2024. Assistance is being provided to 236 Number of beneficiaries.

**(xii) The programmes implemented under RKVY are,**

**Incentives for Post-Harvest Management Activities in Horticulture**

Horticultural crops such as flowers, fruits and vegetables have low shelf life resulting in rapid spoilage and crop loss. Therefore, the main objectives of this programme are, to give greater impetus to Post Harvest handling, Processing and Value addition of Horticultural crops, to encourage farmers groups and entrepreneurs to establish horticultural crop based processing and value addition units suiting to the requirements of the region and the needs of the consumer.

During the year 2024-25, out of approved amount of Rs.900.00 lakhs, Rs.390.00 lakhs was released and the entire amount was spent. In the year 2024-25, revalidated amount (2023-24) of Rs.36.42 lakhs was released and the entire amount was spent at the end of December-2024.

**(xiii) Farmer Producers Organisation (FPO)**

To address the issues being faced by the small and marginal farmers pertaining to crop production, technology, supply of inputs, marketing, investments etc., the farmers are being collectivized to form Farmer Producer Organizations that are owned and governed by the farmers itself as per the Producer Company act 2013. The scheme supports horticulture farmers to increase their productivity level and also income resulting in livelihood security. Department has so far registered 205 FPOs under company act 2013.

**FPO Progress since inception**

- Rs. 20.05 crores subsidy has been provided to 95 FPOs to establish Custom Hiring Centre (CHC) (maximum limit of Rs.22.50 lakhs per FPO).
- Rs.2.73 crores subsidy has been provided to 31 FIGs to establish Machinery Bank (maximum limit of Rs.9.00 lakhs per FIG).
- Rs.16.99 crores working capital assistance to 98 FPOs (@ 15 or 10 lakhs per FPO)
- Rs.4.21 crores subsidy has been provided to 14 FPOs for establishing infrastructure.

During the year 2024-25, the Department organised three buyer - seller meets at different locations namely Bangalore, Bagalkote and Koppal. The objective of these meets was to connect the buyers with FPOs and thereby facilitate direct market linkages for the farmers produce. An amount of Rs. 40 lakhs was released to this programme. Department of Horticulture was awarded for best PPP-IHD documentary in the category regional Language Film at Agri Film Festival-2023, Hyderabad. (link to the documentary [https://youtu.be/0UmKNKfDVF8?si=y5ctT2jERqg\\_fQdn](https://youtu.be/0UmKNKfDVF8?si=y5ctT2jERqg_fQdn))

So far, total of 205 FPOs have been formed through Horticulture Department. No new FPOs were formed during the year 2024-25. In the current financial year, Rs. 86.39 (December 2024) lakhs have been spent on the said FPOs under these activities:

- For office maintenance and operational expenses of Amrutha FPOs.
- For collection and processing expenses in FPOs under the Comprehensive Horticulture Development (CHD) scheme for the value addition unit.

#### **(xiv) Karnataka State Mango Development and Marketing Corporation**

There are two Mango Development Centres comes under the corporation, namely Hogalagere Horticulture Farm, Srinivasapur taluk in Kolar district and Madikere, Chintamani taluk in Chikkaballapur district. During the year 2024-25 and an amount of Rs.70.00 lakhs has been earmarked of which, Rs. 50.87 lakhs have been spent up to December 2024. Mango growers are being educated and trained about pre-harvest and post-harvest through demonstrations and technology dissemination.

#### **(xv) Karnataka Grape & Wine Board**

To take up the developmental activities of the Wine Board, budgetary provision has been made under Comprehensive Horticulture Development. During the year 2024-25 an amount of Rs.50.00 lakhs has been earmarked of which, Rs. 35.00 lakhs have been spent up to December 2024.

#### **(xvi) Karnataka State Co-operative Horticulture Marketing Federation (L) (KHF)**

District HOPCOMS purchases fruits & vegetables from its farmer members and sells fresh fruits & vegetables to consumers at reasonable prices. KHF is the apex body for the 26 district HOPCOMS established in the state. The budget provided for the development of HOPCOMS are released to district HOPCOMS through KHF. During the year 2024-25 a sum of Rs. 40.00 lakhs has been provided for taking up the development activities of HOPCOMS and sum of Rs. 24.03 lakhs has been spent till the end of December 2024.

#### **(xvii) Karnataka State Spices Development Board**

Karnataka is one of the prominent spice growing states in India. There is need to have a greater attention in increasing the area of spices, improvement in production, productivity and market infrastructure and to encourage production of export quality spices and value addition, "KARNATAKA STATE SPICES DEVELOPMENT BOARD" is established. For the year 2024-25 Rs. 50.00 lakhs of budget has been allocated and entire amount is spent.

#### **(xviii) Under Integrated Farming in Coconut for Productivity Improvement Programme**

Laying out of New Demonstration plots: During 2024-25 the annual physical target is 6047(Ha.) under laying out of demonstration plots maintenance in farmers field, an amount of Rs. 1058.00 lakhs have been spent up to December 2024.

#### **(xix) Karnataka State Horticulture Development Agency (KSHDA)**

Among 413 horticulture farms/nurseries across the state, grafts/seedlings of various horticultural crops are produced in most of the farms/nurseries and provided to farmers at a rate fixed by the department. During 2024-25 as against the target of 68.50 lakhs of grafts/seedlings, 21.26 lakhs of grafts/seedlings have been

produced till December-2024. 24.00 lakh grafts/seedlings are left over in previous years. At present, a total of 45.26 lakh grafts/seedlings are available for sale by the end of December 2024.

### **(xx) Sasyasiri (e-Portal)**

A new website has been developed to facilitate farmers and general public to provide information regarding availability of grafts/seedlings and various farm inputs like bio-fertilizers and bio agents etc., that are produced in Departmental farms and nurseries. This helps in facilitating the public and farmers to get information online about the plants and inputs available for sale in the departmental farms and nurseries.

### **Achievements**

- To enhance the efficiency in implementation of the programmes, department has developed an IT application HASIRU (Horticulture Application for Scheme Implementation and Regulating Utilization of Funds) for handling all the beneficiary-oriented schemes.
- The importance of horticulture has increased significantly over the last few decades. As it provides a range of economic, environmental benefits as well as employment opportunities. In 2024-2025, an area of 16,673 hectares is brought under diverse Horticultural crop species.
- The importance of the horticulture sector cannot be overstated. The government focus on developing sustainable horticulture models that emphasize the production and distribution of bio-inputs. These bio-inputs are essential in promoting organic farming, as well as integrated nutrient, pest and disease management. In 2024-25 has distributed 314 tonnes and 24,045 liters of bio-inputs to farming communities at affordable rates, which has been able to make a significant impact on the Horticulture sector.
- As the demand for fresh Horticulture produce continues to rise, best horticulture practices such as adoption of micro irrigation system and water storage structures contribute to sustainable farming and improved long-term prospects for farmers. In 2024-25, an area of 22,225 hectares is irrigated with drip irrigation units and 279 no. Water storage structures have been constructed.
- The focus is on establishment of primary processing units, cold chains and marketing infrastructure to reduce post-harvest losses in Horticultural products and fetch better market prices. In the year 2024-25, 2 Cold storage units were constructed and 779 beneficiaries were subsidized for various post-harvest management activities of Horticultural products.
- Hi-tech Horticulture activities such as precision farming, protected cultivation and mechanization have been adopted. In 2024-25, 2747 No.s machineries have been distributed to alleviate the shortage of manual labour and time.
- Market interventions through Farmer Producer Organization (FPO) is being facilitated.
- Applications of 5.74 lakh farmers have been registered under the “Restructured Weather-Based Crop Insurance scheme” since 2023 and a total insurance compensation of Rs 695.48 crore has been paid by the concerned crop insurance companies to eligible beneficiaries.

### **Challenges & Way forward**

- The state produces significant quantities of diverse Horticultural products, of which less than two percent are processed. There is a great opportunity to utilize the fresh Horticulture produce for processing/value addition and thus minimize post-harvest losses.

- In the realm of Horticulture, there is a constant need to manage novel and unforeseen pests and diseases impacting food security.
- Providing field-level market chain opportunities for producers to obtain better prices.
- To facilitate global trade for the Horticultural produce and Geographical Indicated Horticultural produce of the state.
- Mechanization plays an imperative part in securing of Horticulture farmers. Hence, it will be prioritized.
- Marketing and forecasting cell will be established.
- Providing branding and marketing for organically produced locally produced honey, geographical indication products and Farmer Producer Organization Horticulture related products on global and national platforms.
- To minimize the wastage of fresh Horticultural produce crops, it is essential to establish expansive cold Storages and primary processing facilities at massive scale.
- Horticulture activities such as area expansion, strengthening of departmental horticulture farms, processing and value addition and provision of appropriate marketing opportunities in collaboration with the Ministry of Mines and Geology to revitalize mine-affected areas.

## 6.5 ANIMAL HUSBANDRY

The Livestock sector plays vital role in development of rural economy of the State. In Karnataka majority of the population is dependent on Agriculture and allied activities. As per the 20th Livestock Census, Karnataka has 3.03 crores of livestock and 5.95 crores of poultry population and its share in all India was 5.41% and 6.98% respectively.

The share of Animal Husbandry in total Gross State Domestic Product (GSDP) of the state was 3.62%. During 2023-24, in Cow and Buffalos milk production, India ranks first in the world. During 2023-24, Karnataka state stands 8th rank among the States. The production of milk in the state was 13.46 million metric tones during the year 2023-24.

### 6.5.1 Animal Health and Veterinary Services

The Department of Animal Husbandry and Veterinary provide services through its institutional network. During 2024-25, the livestock and poultry are rendered health services through a network of 4252 Veterinary Institutions, comprising of 01 Super Specialty hospital, 4 Speciality Hospitals, 27 District Polyclinics, 663 Taluk/Hobli level Veterinary Hospitals, 2176 Hobli/Village Veterinary Dispensaries, 1205 Primary Veterinary Centers and 176 Mobile Veterinary Clinics. Further other Veterinary Institutions are also rendering services.

During the year 2024-25, an amount of Rs.324011.00 lakhs allocation is Rs.231076.00 lakhs have been released and Rs.211485.00 lakhs have been spent by the end of December -2024.

**Table 6.7: During 2024-25, the major schemes financial progress shown in below**

**(Rs.in Crores)**

| Scheme Name                                          | 2024-25 (up to December 2024 ) |                |                   |
|------------------------------------------------------|--------------------------------|----------------|-------------------|
|                                                      | Total Allocation               | Total Released | Total Expenditure |
| Director Animal Husbandry & Veterinary Services      | 227.46                         | 190.11         | 144.21            |
| Unspent SCP-TSP amount as per the SCSP-TSP act 2013. | 4.33                           | 3.25           | 2.23              |

| Scheme Name                                                                                | 2024-25 (up to December 2024 ) |                |                   |

\* Includes Poultry Meat. # Estimate Production.(Provisional)

The production of Milk and Meat during 2023-24 was 134.63 and 4.54 lakh tones respectively. The Wool production is 659 tones and 945.91 crores Eggs were produced. During 2024-25 (up to November 2024) 94.05 lakh tones of Milk, 3.26 lakh tones of Meat, 350 tones of Wool and 673.06 crores Eggs are produced.

The department has undertaken several schemes as below.

**(i) Performance under Artificial Insemination (AI) Programme:** Artificial Insemination (AI) facility has been provided through 4252 institutions. Sperm stations are located at Bengaluru and Dharwad. During 2023-24, 7.67 lakhs calves were born, out of 38.60 lakhs cattles inseminated. During 2024-25 (up to December 2024), 6.16 lakhs calves are born, out of 29.53 lakhs cattles are inseminated. During the year 2023-24, for the target of 41.20 lakhs Artificial Insemination, 94% progress has been achieved. During 2024-25, for the target 30.39 lakhs Artificial Insemination, 29.53 lakhs has been achieved, 97% progress has been achieved till the end of December 2024.

**(ii) National Livestock Mission (NLM)**

- **Livestock Insurance:** On the eventuality of loss of the animals due to accidental death or other causes, the cattle are covered under the Livestock Insurance Scheme. Maximum of 5 cattle (Cows/buffaloes/bulls etc) or 50 sheep/goat/pig/rabbits per beneficiary can be insured according to the guidelines. Premium subsidy of 50% to APL families and 70% to BPL and SC, ST beneficiaries is made available under this scheme. Rs 133.34 lakh has been released during January 2024 to insure the animals and A total of 18,379 animals have been insured under this scheme till December -2024.
- **Assistance for fodder seed production under National Livestock Mission (NLM) (A centrally sponsored scheme with 100% GOI share)**

**Objectives**

1. To encourage fodder production
2. To make availability of fodder during lean period
3. To Provide Nutritive and qualitative fodder to enhance milk & meat production.

- **National Livestock Mission (NLM) - Entrepreneurship Development Programme:** The Government of India has approved a new centrally sponsored scheme National Livestock Mission for the period 2021-22 to 2025-26. The objective of the scheme is to support rural poultry, sheep and goat, pig, fodder industry development.

**Eligible Entities:** Farmers Producer Organizations, Self Help Group, Joint Liability Group, Section 8 companies.

The following projects can be taken up under EDP

- ❖ Rural Poultry Entrepreneurship Model for establishment of Parent Farm of 1000 birds of Low Input Technology (Desi birds), Hatchery for production of chicks and brooder mother unit for brooding and rearing of the chicks-Subsidy up to Rs 25.00 lakhs
- ❖ Breeder Farm of sheep and goat of 500 females and 25 male for production of kids /lamb- Subsidy up to Rs 50.00 lakhs
- ❖ Piggery Breeder farm of 100 sows and 10 boars for production of piglets and fattening of piglets-Subsidy up to Rs 30.00 lakhs
- ❖ Feed and Fodder entrepreneurship for establishment of silage making unit, fodder block making unit and TMR plant- Subsidy up to Rs 50.00 lakhs

Till date 832 applicants are eligible for release of subsidy and among these first instalment of subsidy has been released to 340 applicants.

- (iii) **Assistance to States for Control of Animal Diseases (ASCAD):** Under this programme, financial assistance is provided for systematic control of livestock diseases of national importance. During 2024-25 (up to December 2024) Livestock vaccinated are as mentioned below.

- ❖ 67,67,959 of cattle, buffaloes, sheep and goat were vaccinated against Haemorrhagic Septicemia.
- ❖ Preventive vaccination against Enterotoxaemia (ET) was done for 1,73,18,335 sheep and goats.
- ❖ Vaccination against Bluetongue was done for 18,93,461 for sheep and goats. 4,51,011 cattle, buffaloes, sheep and goat were vaccinated for Anthrax.
- ❖ As a part of surveillance work 185 No's of brain samples from clinically suspected animals and were collected and forwarded to the IAH & VB laboratory and ascertained that BSE is not present in our state.
- ❖ In order to keep vigilance on the presence of Avian Influenza, 5147 serum samples, 4736 cloacal/tracheal and 1080 environmental samples collected from all the districts and forwarded to the laboratories for examination.
- ❖ Under NADCP-Brucellosis, 3,06,000 female calves (cattle & buffaloes) were vaccinated.

- **National Animal Disease Control Programme Scheme (Foot and Mouth Disease Vaccination Programme):** Foot and mouth disease is a rapidly spreading disease in animals and has a major impact on the economy. This disease has a serious socio-economic impact. Therefore, for the control of the said diseases, a mass vaccination programme is being conducted every six months. In each round, before vaccination (day 0) and on the 28th day after vaccination, serum samples are collected from the animals

and sent to the laboratory to measure the immunity produced by the vaccine. In the state, 6 rounds of vaccination programme have already been completed.

The foot and mouth disease vaccination programme is being conducted under the National Livestock Disease Control Scheme. In the said program, it is mandatory to identify each livestock (cattle, buffalo, sheep, goat and pig) by inserting a 12-digit unique ear tag and enter the details of the vaccination in the Bharath Pashudhan Portal.

A grant of Rs. 8559.87 lakh has been requested for the FMD, Brucellosis, PPR & CSF vaccination program and equipments with 100% Central Government grant in the year 2024-25. The state Government has received administrative approval for Rs. 7940.87 lakh, and an amount of Rs. 12.00 crore has been released as the first installment of the approved action plan for the implementation of the NADCP, FMD, BCP, PPR, CSF and CADCP vaccination programs.

In 2024-25, under 5th and 6th round of FMD vaccination, 97.64 lakh doses and 96.67 lakh doses of foot-and-mouth disease vaccine have been administered to cattle and buffaloes respectively. In the vaccinated cattle, details of 85.00 lakh in the 5th round and 88.33 lakh in the 6th round have been entered in the Bharath Pashudhan portal and the information record of the remaining cattle and buffaloes is in progress.

- (iv) **National Animal Disease Reporting System (NADRS):** This programme envisages periodical online reporting of outbreaks of diseases from the field veterinarians. All the 236 block and 31 districts and one centre at state level have been provided with the hardware, software and internet facility. The state monitoring unit located in Bangalore consolidates the reports at state level and forwards to the state Govt and GOI.
- (v) **Mobile Veterinary Unit Vehicles:** For the year 2024-25, for the allocated budget Rs. 5483.33 lakhs, Rs. 1370.83 lakhs was released and Rs. 1370.83 lakhs expenditure during 2024-25 upto the end of December 2024, 448528 calls have been received to Helpline No.1962 from Livestock owners . A total of 263874 animals have been treated through 275 well equipped mobile veterinary unit vehicles.
- (vi) **Feed and Fodder Development:** To mitigate the shortage of green fodder in the State livestock farms, fodder production, fodder seed production and training of farmers are being undertaken with the assistance of State disaster relief fund, RKVY Centrally sponsored scheme and Calamity Relief funds. During 2024-25 (up to December 2024), 1211129 fodder seed minikits have been procured at a cost of Rs.42.00 crore, resulting in production of 30 lakh tonnes of green fodder. 79500 lakhs Root slips were distributed in farms.
- (vii) **Karnataka Sheep and Wool Development Corporation Ltd. (KSWDCL):** Karnataka Sheep and Wool Development Corporation Limited has established 4 sheep breeding centers and 2 goat breeding center in the state. During the year 2024-25 (up to end of December 2024) 375 sheep/goat have been distributed from breeding centers to interested shepherds for upgrading native sheep and goat. During 2024-25 (up to end of December 2024), 117 SC/ST beneficiaries (members) of sheep and wool producers' Co-operative societies are provided with 10+1 sheep/ goat component at a unit cost of Rs.66000/- out of which loan/beneficiary contribution is Rs.6000/- (10%) and subsidy amount of Rs.60000/- (90%) to each beneficiary.
  - ❖ **Digital marketing system for sheep and goats:** The Karnataka Sheep and Wool Development Corporation has become a member of e-Markets Limited (NeML) and has entered into an agreement with it. This will provide e-marketing for sheep/goat and their products and provide

accurate details about the breed and number of sheep/goats sold in the markets, prevailing market rate and number of shepherds benefited.

The shepherds in the state can get a scientific and competitive price for their sheep/goats based on the live weight. Also, the money can be deposited in the bank savings accounts of the farmers very soon and the menace of middlemen can be controlled. It helps sheep and goat producers' cooperative societies and farmer producer organizations (FPOs) to become financially empowered.

To implement digital marketing system for sheep/goats with the grant of National Gokul Mission (RGM) – National Digital Livestock Mission Government of India, Government of India in collaboration with Karnataka Sheep and Wool Development Corporation Limited and NeML on pilot basis in three different Agriculture Produce Marketing Committee (APMC) involving seven Sheep and Wool Producers' Co-operative Society/Farmer Producers' Organizations in the State temporarily as per Government order.

- ❖ **Shepherds Suraksha Yojane/Anugraha Koduge for Shepherds:** According to the 20th livestock census, there are about 110.51 lakh sheep and 61.69 lakh goats in the state. In case of accidental death of sheep/goats compensation of Rs.5000/- per sheep/goat will be paid in case of death of sheep and goat of above 6 months of age and Rs.3500/- for sheep and goat between the age group of 6 months. The scheme continued for the financial year 2024-25 under the Calamity Fund for accidental death of small animals. Compensation distributed accidental death of 35456 sheep/goats from a total of 25943 beneficiaries in the months of December 2024.
- ❖ **Goat Milk Project:** Goat milk project is being established for the first time in the state at Madalapur (Kudige sub-centre) in Kodagu district. The project aims to encourage goat milk production by establishing milk producing goat rearing unit and also training the farmers on rearing of milk producing goats. Equipped with equipment capacity of processing 500 liters of milk per hour.

**(viii) Piggery Development:** In the State, there are 9 pig breeding stations, which are located in Hesaraghatta in Bengaluru Urban District, Kalasa and Birur in Chickmagluru, Koila in Dakshina kannada, Kudige in Kodagu District, Bangarapet in Kolar District, Bargi in Chamarajanagara, Teguru in Dharawad, Bidare in Hassan, These stations are engaged in production and distribution of purebred piglets & also in training and extension services in modern pig rearing to various socio-economic beneficiaries. In the state, most of the unemployed educated youths and farmers are interested in modern pig rearing as a result of which, production of good quality of pork and the lifestyle of the pig rearers are being improved. 2752 piglets are distributed to pig rearing farmers as against the target of 3110 during 2024-25 (up to December 2024).

**(ix) Poultry Development:** There are 07 poultry farms functioning under the Department of AH&VS for development of poultry in the State. The major developmental activities are breeding and rearing of Giriraja parent stock and supply of day old chicks to the farmers. During 2024-25 upto the end December -2024, 744 farmers were trained in poultry rearing and 208611 eggs and 207664 chicks were produced.

**(x) Encouragement of women in dairy farming:** 2024-25 to encourage dairy farming among women farmers, interest subsidy of 6% is being given by the state government to the women who repay the loan in time for purchase of cow/buffalo. Under Incentive to Milk Producers (106 - Assistance) an amount of Rs.100.00 lakhs is allocated and is Rs.25.00 lakhs have been released. Till December -2024, Rs.2.39 lakhs have been spent.

### 6.5.2 Karnataka Cooperative Milk Producer's Federation (KMF)

With the cooperation of the World Bank, in 1974, the state's first-ever dairy development project, "Operation Flood-1," was initiated. It involved the establishment of 4 dairy cooperatives at the district level in 8 districts based on cooperative principles, leading to the creation of the Karnataka Dairy Development Corporation (KDDC). Following the formation of the Karnataka Milk Federation (KMF) in 1984, activities under "Operation Flood-2" and "Operation Flood-3" expanded dairy development operations across the state.

Karnataka Cooperative Milk Federation is designed based on cooperative principles, and the organization is structured in the following three levels:

1. State level – Karnataka Cooperative Milk Producer's Federation.
2. District level – 16 District Cooperative Milk Producers Unions.
3. Village level– 15,885 Primary Dairy Producer's Cooperative Societies.

The Karnataka Milk Federation (KMF) has successfully managed the responsibility of providing rural dairy farmers with remunerative prices and a continuous market, while ensuring that consumers are supplied with pure milk and high-quality dairy products in a timely manner, in line with global market demands.

Currently, within the Karnataka Milk Federation (KMF's) jurisdiction, 15,885 primary dairy producer cooperative societies (including 4,644 women's dairy producer cooperative societies) operate across 16 district milk unions, covering 24,384 villages.

A total of 26.79 Lakhs dairy producer members are registered, and milk is being collected from 9.04 Lakh producers. On average, 90.00 lakh liters of milk are gathered daily, with a daily payout of Rs. 28.00 crore directly to the producers' bank accounts.

### 6.5.3 Milk Collection

Milk collection is carried out daily in two shifts throughout the year at primary milk producer's cooperative societies. On 28th June 2024, a record was set by collecting 100.90 lakh kg of milk, which marked an all-time high. The cooperative dairy sector ranks second in the country and first in the southern states.

In the KMF District Dairy Union area, there are 2,235 BMC units and 12,676 AMCU's operational, with the capacity to process and chill 93.00 lakh liters of milk daily. Additionally, units producing 369 metric tons of milk powder and various other dairy products are in operation.

### 6.5.4 Market

KMF markets more than 175 varieties of milk and dairy products, processes 50 lakh liters of milk, and sells 8.00 lakh kg of curds in line with demand within the state, outside the state, and internationally. Furthermore, 2.25 lakh liters of UHT tetra pack/flexi milk are supplied daily under the Balasanjeevini scheme to Anganwadi children in Andhra Pradesh through APDDCF. KMF operates 210 Nandini outlets, and Nandini products are sold in Kerala and Dubai through Kafe Moo. Recently, Nandini milk is also being sold in Delhi, with 15,000 liters being sold daily following the launch by Chief Minister Shri Siddaramaiah.

### 6.5.5 Karnataka Milk Federation Activities

- 1) **Training:** The Karnataka Milk Federation (KMF) operates 4 training centers (in Bengaluru, Mysuru, Dharwad, and Kalburgi) that provide training to milk producers in cooperative societies and KMF/Union staff. Annually, about 25,000 various training sessions are conducted.

- 2) **Animal Feed:** KMF operates 8 animal feed units (3 of which are under the PPP model in KR Pete, Arakalagudu, and Sadali), producing a minimum of 75,000 metric tons of animal feed and 550 metric tons of mineral mixture, which are supplied to the societies based on demand at minimum cost.
- 3) **Nandini Semen Station:** KMF collects and processes bull semen from superior bulls at its Nandini semen centers, distributing it through 2,855 artificial insemination centers across districts. Annually, about 34.99 lakh artificial inseminations result in approximately 10.14 lakh calves being born.
- 4) **Building Construction for Societies:** KMF, district unions, and Shri Kshetra Dharmasthala Rural Development Project (SKDRDP) collaborate to provide grants for the construction of 250 primary milk producers' cooperative society buildings annually.
- 5) **Veterinary Services:** KMF and district unions offer continuous veterinary services to milk producers, including health camps, emergency services, group insurance for animals, medicines, vaccines, and more. They also provide various livestock seeds, residential facilities for dairy farmers' daughters, and health insurance for milk producers.
- 6) **Kamadhenu Scheme:** Under the Rotary Kamadhenu Scheme, 1,043 cows have been distributed. In the first phase, 100 cows are being provided to milk producers through 4 dairy unions (Shimoga, Chamarajanagar, Ballari, and Dakshina Kannada).
- 7) **Ksheera Sanjeevini:** In collaboration with the Karnataka State Rural Livelihood Promotion Society (KSRLPS), KMF is implementing the Ksheera Sanjeevini Phase-3 scheme, which has allocated Rs. 857.00 lakh to benefit 6,000 women dairy producers through social and economic development programs. The Ksheera Sanjeevini Phase-4 scheme is also ongoing, with Rs. 2061.38 lakh being allocated for the implementation of programs in 250 women's dairy cooperative societies across 16 district dairy unions.
- 8) **Progressive Dairy Farmers Technical Meet:** On 26th November 2024, a technical meet for progressive dairy farmers was held, focusing on promoting innovation, collaboration, and growth within the dairy farming community. 1,377 farmers who supply more than 80 liters of milk daily were recognized and awarded for their dedication, hard work, and significant contributions to the dairy sector.
- 9) **AMCS Software:** KMF is implementing the AMCS software developed by NDDP in all cooperative societies under the jurisdiction of 16 district dairy unions in the 2024-25 financial year. This software will allow farmers to receive immediate details about the milk quality and payment information, ensuring transparency at various stages of the supply process.

#### 6.5.6 Central Sponsored Dairy Development Scheme (N.P.D.D.)

Under this central government scheme, grants are provided for activities such as the production of pure milk, basic infrastructure for dairies, milk processing/refrigeration, obtaining certification, Information and Communication Technology (I.C.T.), training, research and development activities. The Karnataka Milk Federation (KMF) and district milk unions have received central government grants for the purchase of BMC, A.M.C.U., I-MAT and other machinery and the implementation process is underway. The Karnataka Milk Federation has a state-of-the-art central quality assurance laboratory, which was established under the central government's N.P.D.D. scheme. This laboratory conducts 361 different tests.

#### 6.5.7 Ksheerabhagya Scheme

The state government launched the "Ksheerabhagya" scheme on 01.08.2013. This scheme provides free milk to children in government schools from 1st to 10th grade and to children in anganwadis. Milk is supplied

through 16 district milk cooperatives under KMF. Over 1 crore children benefit from this scheme. In total, 64,000 anganwadis and 55,683 government schools in Karnataka receive milk powder every day as part of this ambitious Ksheerabhagya project.

#### 6.5.8 Conservation of Local Cattle Breeds in Bidar and Haveri Districts

For the year 2022-23, the state government allocated 2,000 local cattle (1,000 each for Bidar and Haveri districts) to preserve and increase the population of indigenous cattle breeds. Of the 1,000 cattle allocated to the Kalburgi Milk Cooperative (for Bidar district), 620 cattle were purchased. Similarly, in Haveri district, 784 out of 1,000 cattle were purchased. The program is ongoing.

#### 6.5.9 Sex-Sorted Semen Supply Scheme

To promote dairy farming by obtaining female calves from cattle, under the central government's A.B.I.P.S.S. scheme, the Karnataka Livestock Development Corporation, through KMF, is providing 50,000 sexed semen straws. These will be used by artificial insemination workers of Dairy Farmer's Cooperatives under the jurisdiction of the Dairy Milk Union to inseminate the cattle of farmers. By using sexed semen straws, it is expected that up to 92% female calves can be obtained.

#### 6.5.10 Fodder and Fodder Seeds

During 2023-24, GOI with association with NDDB so using KMF for implementing NLM Project, through FPO for distributing fodder seeds to overcome scarcity of green fodder for cattles. At present under NLM Project 13,000 qtl seed production has undertaken & distributed to approximate 3.0 lakhs milk producer in free of cost. Under the National Dairy Development Board (NDDB) collaboration, the Central Government's NLM Scheme aims to address the shortage of green fodder for dairy cattle. This program will be implemented in 10 dairy cooperatives in collaboration with the NDDB. To strengthen the Fodder Plus – FPOs (Fodder Production Organization) financially and alleviate the shortage of green fodder, the scheme will increase milk production by producing green fodder silage. This will help ensure the timely availability of green fodder, improving milk production and enabling a consistent supply of quality milk to dairy unions.

#### Achievements of Karnataka Milk Federation (KMF)

- Sales of Nandini sachet milk and curd have been extended to major neighbouring cities, including Hyderabad, Chennai, Mumbai, Pune, Solapur, Coimbatore, Kerala, and Goa.
- From 21st November 2024, 15,000 liters of milk and curd are being sold daily in New Delhi. Additionally, other Nandini milk products are also being marketed.
- Efforts are underway to expand the market network of Nandini milk and milk products to states like Mumbai, Chennai, Hyderabad, Vijayawada, Goa, Pune, Solapur, Vidarbha, Nilgiris, and Malappuram through the modern Nandini Café Moo. For the first time, a Nandini Café Moo has been opened in Dubai, exporting Nandini ice cream and PET bottle products.
- KMF supplies 100 lakh liters of UHT milk, 162 MT of ghee, 316 MT of butter and 570 MT of milk powder annually to the Indian Army, generating a turnover of Rs.126 crore.
- In April, the highest-ever daily sales of 37,472 liters of milk were recorded. Nandini ice cream sales have been expanded to Mumbai, Kerala, Andaman & Nicobar and Lakshadweep regions.
- KMF has supplied 1,220 MT of Nandini ghee for the preparation of laddus (prasadam) at the renowned Tirumala Tirupati temple.

- During festivals like Dasara and Deepavali, 725 MT of Nandini sweet products were sold through KMF outlets and district milk unions, achieving record sales volumes.
- From 26th December 2024, idli and dosa batter was launched in Bengaluru at Rs.40 for 450g and Rs.90 for 900g, enhancing the popularity of Nandini products. Plans are in place to expand this initiative across the state.

### Challenges and Way Forward of KMF

- Current average milk storage stands at 90 lakh kg, with plans to increase it to 1 crore kg in the coming days.
- Ensuring a year-round market for milk produced by state dairy farmers and offering competitive prices.
- Delivering high-quality milk and milk products to meet the demands of state, interstate and international customers.
- Supporting the holistic development of rural dairy farmers by implementing transparent and modern technologies.
- Competing with private and multinational companies by producing superior quality milk and milk products and initiating programs for the all-round development of milk producers and milk unions.

### Department Achievements

- **Incentives to Milk Producers:** In the state to provide on Incentives of Rs.5 per liter to the milk pourers of MPCS to encourage milk production. Incentives amounting to Rs.1124.15 crores to 8.95 lakh milk producers in the state have been deposited to the bank accounts of the beneficiaries through Direct Beneficiary Transfer (DBT).
- Under the ASCAD scheme, During the year 2024-25 from up to December 2024, 103,50,782 cattle have been vaccinated against Lumpy skin disease.
- Rs: 10,000/- compensation has been released to the owners of Cattle, Buffaloes, Oxen, Bullocks and Cows to cover the financial loss caused to the farmers due to accidental death of cows and by the end of December 2024, 22,528 heifers have died and Rs. 10,24,19,500 compensation has been released.
- Actions have been taken to distribute 20+1 sheep/goat units to 10000 beneficiaries under Amrita Swabhimani Kurigahi Yojana and till date total grant of Rs.136.60 crore has been distributed to 7806 beneficiaries.
- A grant of Rs.14.41 crore has been released at the end of December 2024, out of which compensation has been disbursed to 35,456 sheep/goats of 25,943 beneficiaries.
- Artificial insemination has been carried out for 29.53 lakhs cattle in the state.
- 7.64 crore cattle have been vaccinated in the state as a precautionary measure against various infectious diseases.
- **Maintenance of Cattle in Government Gaushalas :** During the year 2024-25, in 20 districts of the state, there are a total of 1038 cattle in Government Gushalas and for their maintenance a total grant of Rs.100.00 Lakh has been released and Rs.75.00 Lakhs has been spent till December 2024.
- **Pinjrapole and Gaushala :** During the year 2024-25, total grant of Rs.308.25 Lakhs has been released till December 2024. From this grant of Rs.212.05 Lakhs has been spent for the maintenance of cattle in 131 Pinjrapole and Private Gaushalas in 24 districts.

## Department Challenges and Way Forward

- To promote export of animal products by creating disease free zones by controlling livestock/ poultry diseases of economic importance and contagious animal diseases.
- Creation of awareness about communicable animal diseases.
- Preparedness for control of Avian Influenza / Equine influenza.
- Health coverage of livestock in remote villages.
- Conservation and development of indigenous breeds of cattle like Krishna Valley, Amruth mahal, Khillar, Deoni and breeds of Sheep and goat.
- Genetic characterization of these native breeds and establishing milk traits.
- Providing clean and hygienic milk, healthy and wholesome meat and meat products to consumers.
- Selective breeding for sustainability of cross breeding programmes.
- Developing permanent pasture land for zero input management system, a system that was traditionally followed.
- Reducing the gap between availability and requirement of cattle feed, fodder and essential nutrients.
- Correcting low productivity by addressing the problem on animal reproduction, infertility, low fat and SNF etc.
- Encouraging biomass fuel and organic farming practices.
- Providing effective delivery systems for adopting new and innovative technologies.

## 6.6. FISHERIES

Fisheries is an important sector in the state contributes to fish production besides, source of foreign exchange earner. Fish being one of the source so quality protein, use of fish as food helps in eradication of malnutrition among rural population. Fisheries Sector contributes to production of quality animal protein for human being and also provides ample employment opportunities. The vast marine, brackish water and inland water resources are the source of fish production in the state. Karnataka is in 1st position in marine fish production, 7th position in inland fish production and 3rd position in total (including marine and inland) fish production in the country during 2022-23. The total fish production during 2023-24, is 11.31 lakh metric tonnes. The share of fisheries sector to GSDP of the state is 0.52%.

Karnataka State has 320 Km long coastline long with 27000 Sq.km continental shelf area, 5.83 lakh hectares of various inland water resources and has vast scope for fisheries development. The brackish water area of 8000 hectares also provides good scope for shrimp/fish culture. There are about 9.84 lakh fishermen involved in various fisheries activities in the state of which 3.31 lakh are in marine sector and 6.53 lakh are in inland sector.

It is a matter of pride that the Central Government has recognized Karnataka state as the “best coastal state” during the year 2022-23. So far, 62 FFPO (Fish Farmer Producer Organization) have been set up in the state to encourage entrepreneurship in the sector. Kisan credit cards have been distributed to 14,613 fishermen up to December-2024.

### 6.6.1 Fish Production

The annual fish production in Karnataka has shown a considerable increase from 5.27 lakh metric tonnes in 2010-11 to 11.31 lakh metric tones in 2023-24 with an annual average growth rate of 7.72%. During the year 2024-25 (up to December 2024) 7 .50 lakh MTs fish was produced.

With respect to Marine fisheries a total of 24820 fishing boats are involved fishing activities in the state, which includes 4767 Mechanized boats, 11250 Motorized boats, 8793 traditional boats and 10 Deep Sea Fishing Vassels. With respect to Inland fisheries, the state has 16 fish seed production centers. Fish seed production during the year 2023-24 was 7660.00 lakhs (Size: Fry fish seeds). During the year 2024-25 (up to December 2024) 8311.36 lakhs fish seed (size: Fry fish seeds) is produced as against the target of 10,000.00 lakhs.

During the year 2024-25, the budget allocation for the department is Rs.29,612.00 lakhs, out of which Rs.12,316.84 lakhs have been released and Rs. 9294.23 lakh is the expenditure up to the end of December 2024.

**Table 6.9: During 2024-25, the major schemes and financial progress shown is as below**

**(Rs. in Crores)**

| Scheme Name                                                                                                    | Total Allocation | Total Release | Total Expenditure<br>(Upto end of Dec.2024) |
|----------------------------------------------------------------------------------------------------------------|------------------|---------------|---------------------------------------------|
| <b>State Sector and CSS</b>                                                                                    |                  |               |                                             |
| Direction and Administration                                                                                   | 40.95            | 32.11         | 25.70                                       |
| Assistance for development of inland fisheries                                                                 | 13.70            | 9.35          | 7.11                                        |

The schemes implemented by the department are as below:

### 6.6.2 Centrally Sponsered Schemes and works

- 1) **Pradhan Manthri Matsya Sampada Yojana - Integrated Development and Management of Fisheries:** Central government has implemented a flagship programme called Pradhan Mantri Matsya Sampada Yojana during the period 2020-21 to 2024-25 to bring about a significant growth in the fisheries sector. All aspects of the fisheries sector are included in the scheme and the beneficiaries can take up components in culture, capture, value addition, marketing and infrastructure development. SC/ ST/ women and general categories are given the financial assistance of 60% and 40% respectively. The assistance is shared by the central and state government on a 60:40 basis. From the year 2020-21 to 2024-25 (up to December 2024) under the said scheme, a total of Rs.414.02 Crores expenditure was incurred and a total of 3948 beneficiaries have received assistance under this scheme.
- 2) **Construction of fishing harbours:** Under this scheme, the expansion of major fishing harbours and landing centres and development of infrastructure facility will be taken up in these harbours and landing centers. Apart from this, the preference will be given for construction of new harbours and jetties for the movement of mechanised boats. In the year 2024-25 budget is not released till December 2024.
- 3) **Savings-cum-relief scheme for marine fishermen:** Under this scheme, a total amount of Rs.1500 will be collected from each fisherman during fishing period and a matching contribution of Rs. 1500 from Central Government and Rs. 3000 from state government is given. Rs.6000 thus collected will be distributed during 2 lean months (June and July). A budget of Rs. 612.00 lakh has been allocated During 2024-25.
- 4) **Group Accident Insurance Scheme:** Under this Centrally Sponsored Scheme, fishers which include fishermen, fish farmers and any persons directly involved in fishing and fisheries related activities can avail death cum accident insurance. During 2024-25 a premium of Rs. 26.91 lakh (State share) has been paid to National Fisheries Development Board (NFDB) to cover the insurance of 80,099 registered fishers.

### 6.6.3 State Sector Schemes

#### a) Marine Fisheries Sector

- 1) **Subsidy on the electricity used by ice plants:** Under this scheme provision was made to provide subsidy at Rs.1.75 per unit of the electricity consumed by the Ice plants subjected to a maximum of Rs.3.50 lakh per ice plant. During 2024-25 an allocation of Rs.400.00 lakhs has been released and an expenditure of Rs.400.00 lakhs has been incurred and subsidy was distributed to 180 Ice plants up to end of December 2024.
- 2) **Reimbursement of sales tax on diesel used by fishing boats:** During 2024-25 under this scheme 2,00,000 KL of state sales tax exempted Diesel was allocated, of which 1,13,300 KL Diesel is distributed to mechanized fishing boats through the designated diesel bunks up to December 2024.
- 3) **Supply of Kerosene to traditional boats:** In Karnataka coast many traditional boats have been adopting outboard engines to their boats which will enable them to go for fishing too far off from the seashore in short time. Traditional boats fitted with outboard engines are called motorized boats. 8030 motorized boats in the state are being supplied with kerosene under this scheme and a quota of 300 liters of kerosene per month is being provided to each boat at Public Distribution System (PDS) rate. During 2024-25 (up to December 2024), an amount of Rs.2200.00 lakh expenditure has been incurred against there lease of Rs.2250.00 lakhs.

**b) Inland Fisheries Sector**

During the year 2024-25, 2732 departmental tanks and 2876 Gram Panchayat tanks have been developed by stocking 2464.62 lakh fingerlings and 704.82 lakh fingerlings respectively up to December 2024. It is estimated that around 2.65 lakh Metric Tonnes of fish have been produced from the inland resources of the state up to December 2024.

**Assistance for Inland fisheries development**

The following programmes are being implemented under this scheme.

- 1) Distribution of fisheries requisite kits.
- 2) Fish seed stocking in reservoirs.
- 3) Distribution of subsidy for purchase of fish seeds.
- 4) Distribution of subsidy for construction of fish ponds on the edge of tanks/reservoirs.
- 5) Encouragement for shrimp and brackish water fish farming.
- 6) Stocking of fish seeds in Gram Panchayat tanks.

During the year 2024-25, under this scheme for the above programmes Rs.1370.00 lakh budget has been released and incurred an expenditure of Rs. 710.82 lakh up to December 2024.

- c) Reimbursement of differential interest to commercial banks:** Provision has been made to the fisherwomen to avail loan up to Rs.50,000/-at 0% interest from Commercial Banks and Regional Rural Banks. Under this scheme the difference of interest will be reimbursed to the banks which extend the loans to fisherwomen. Fisherwomen of both marine and inland sector are eligible to avail this facility under this scheme. An allocation of Rs. 50.00 lakh has been released during 2024-25 and Rs.50.00 lakh expenditure has been incurred up to end of December 2024.
- d) Fishermen's Distress Relief Fund:** In case of death/disability while engaged in fishing and for loss of fishing boats/nets, financial relief is provided to their dependents/fishermen from the Fishermen's Distress Relief Fund. For death cases of fishermen, a maximum of Rs. 8,00,000/-, for disability cases a maximum of Rs. 4,00,000/-, for medical reimbursement cases up to a maximum of Rs.3,00,000/- and for fishing boat/net loss cases up to a maximum of Rs. 10,00,000/- will be provided as relief. In the year 2024-25, Rs.5.30 crores relief is given for 198 cases from the Fishermen's Distress Relief Fund up to the end of December 2024.

**6.6.4 District Sector Schemes**

- 1) Assistance for development of inland fisheries:** Expenditure incurred towards the operation cost for production and rearing of fish seeds in production centers and rearing centers are covered under this scheme. During the year 2024-25, an allocation of Rs.756.71 lakh has been released and Rs. 410.37 lakh expenditure has been incurred up to December 2024.
- 2) Assistance to re-construction of fish markets and fish marketing:** In order to help fisherfolk, to sell and transport the harvested fish in fresh and hygienic condition, financial assistance is being provided under this scheme for the purchase of different vehicles at a subsidy of 40%. For purchase of Bicycle with insulated box, two wheeler with insulated box, three wheeler (goods vehicle) and four wheeler (goods vehicle) a subsidy maximum up to Rs.4000/-, Rs.30,000/-, Rs. 1,20,000/- and

Rs. 2,40,000/- will be given respectively. Owners of the non-motorized boats (Paathi doni and Rampani) can avail a subsidy of 50% maximum up to Rs.5000/- for purchase of fishing nets/other fishing material.

During 2024-25, an allocation of Rs. 343.17 lakh has been released and Rs. 343.17 lakh expenditure is incurred up to end of December 2024.

### Achievements

- Over all improvement in the socio-economic status of fishermen.
- In the year 2024-25, Rs.5.30 crores relief is given to 198 cases from fishermen Distress Relief Fund scheme.
- During 2024-25 an Rs.400.00 lakhs subsidy is distributed to 180 Ice plants up to end of December 2024.
- Under PMMSY Scheme, “Matsyavahini” programme 142 e-Auto Rickshaws have been approved and out of which upto December 2024, 62 e-Auto Rickshaws have been handed over to the beneficiaries in the state.

### Challenges and Way Forward

- Inadequate availability of inputs including fish seeds.
- To improve the Broodstock both in quality and quantity to keep the hatcheries to be functioning continuously as the breeding season is short.
- Establishing more number of new hatcheries in the production centers.
- High Cost of feed and non-availability of feed locally is affecting the feed based aquaculture.
- Encouraging the establishment of fish feed mills by giving financial assistance.
- Non-availability of alternative fast growing candidates pieces to diversify the aquaculture practices.
- Support and incentives/ subsidies to be given for culture of new candidate species like Pungasius, genetically improved farmed tilapia and local varieties of carps.
- Diversification of aquaculture practices.
- Introduction of high yielding and eco friendly culture systems.
- To reduce the cost of production, subsidy on use of electricity for incorporation of innovative aquaculture techniques like RAS/Bio-floc may be given.
- To promote open sea cage culture as an alternative to capture fishery.
- Paradigm shift towards new opportunities in the sector to achieve the intended objectives of “BLUEREVOLUTION”.
- Strengthening Inland fish marketing infrastructure and cold chain.
- Lack of field functionaries to take up effective extension.
- Need based trainings/IEC programmes to be conducted to the fish farmers/fish processors.
- Up-gradation of existing fisheries training centers.

## 6.7 FOOD SECURITY

### 6.7.1 Provision of Food to the Poor through Public Distribution System

Food, Civil Supplies and Consumer Affair Department is one of the major government departments involved in providing food security to the poor through Public Distribution System (PDS). Fixed quantity of food grains are being distributed to eligible households under Public Distribution System free of cost. The intention of implementing this system is to provide food security to eligible households and achieve hunger free state. Under this Act the Central Government has specified percentage of population coverage under priority household as 76.04 % in rural area and in 49.36% urban area. Under National Food Security Act (NFSA) Antyodaya Anna Yojana (AAY) and Priority Household (PHH) are covered for food grain allocation. 35 kg food grain per AAY household and 5 kg food grain per PHH beneficiary is allotted every month.

| Ration Card category        | Rice/Ragi/Jowar          |                       |
|-----------------------------|--------------------------|-----------------------|
|                             | Distribution Qty (in Kg) | Price per kg (in Rs.) |
| Antyodaya Anna Yojane (AAY) | 35 kg                    | Free                  |
| Priority Household (PHH)    | 5 kg per member          | Free                  |

Computerisation of PDS has been adopted by the State under which Aadhaar details of every PDS beneficiary is linked to the ration card and data base of PDS beneficiary has been created. Also online allotment and stock management has also been implemented successfully. Out of totally allotted quantity 20,08,886.59 MT, 16,07,434.15 MT Rice, 2,29,266.04 MT Ragi and 1,72,186.40 MT Jowar were distributed till December 2024.

### 6.7.2 Food grains distribution to PDS beneficiaries

- i) **Anthyodaya Anna Yojane (AAY):** The Central Government has implemented Anthyodaya Anna Yojane (AAY) which is in force w.e.f. August-2002 in the State. It considers the poorest of the poor and the concept has been evolved for those who are not able to afford two square meals per day. They are the poorest segment of the population such as landless agricultural labourers, households headed by widows, terminally-ill, persons affected by HIV, households headed by old age persons with meagre income or no-income etc. Such beneficiaries are identified in the Grama Sabha by the concerned Grama Panchayath. As stated above, 35 kgs food grain is being distributed to each AAY household. Accordingly, during 2024 December 10,80,549 AAY cardholders have been allotted 35 kgs food grains (per card) free of cost under NFSA.
- ii) **Priority Household Ration Cards (PHH):** Priority Household Ration Card is being distributed to each beneficiary under the Central Govt. Sponsored Pradhan Manthri Garib Kalyan Anna Yojana, 5 kg of rice per month is being distributed free of cost to each beneficiary and under the State Govt. Sponsored Annabhagya (Guarantee) Yojana, 5 kg of rice per month is being distributed to each beneficiary of the priority family instead of at Rs. 34 per kg, a total of Rs. 170 through DBT. Accordingly, during 2024 December 1,17,67,309 PHH cardholders have been allotted food grains.

### 6.7.3 National Food Security Act 2013 (NFSA)

- Presently Anna Bhagya Scheme is being implemented in the state. The Central Government is releasing 2,17,403 MT rice to the State under NFSA for distribution to Central NFSA beneficiaries.
- The additional rice required for distribution to State NFSA beneficiaries was being purchased under Open Market Sale Scheme (OMSS) from Food Corporation of India. This scheme has been discontinued from July 2023. Hence, the required rice quantity is being purchased from agencies like Kendriya Bhandar, National Co-operative Consumer' Federation of India Limited (NCCF) and National Agricultural Cooperative Marketing Federation of India Ltd. (NAFED). Since OMSS scheme was reintroduced by GOI from October 2024, State is purchasing Rice required for allotment to State NFSA beneficiaries and GOK Welfare Institutions inmates from November 2024.
- Karnataka under takes purchase of Paddy, Ragi and Jowar under minimum support price as per Government of India guidelines. As and when the procured quantity of Custom Milled Rice (CMR), Ragi and Jowar becomes available, the same is distributed under Public Distribution System as part of NFSA allocation. During 2024-25, MSP Ragi and Jowar procured during KMS 2023-24 has been distributed to State NFSA beneficiaries as well.
- GOI has approved distribution of Fortified NFSA Rice under Public Distribution System. GOI has identified 14 districts in the State of Karnataka as high burden and aspirational districts for implementation of the

same. These 14 districts are Bagalkote, Ballary, Bidar, Vijayapura, Chikkaballapura, Davanagere, Gadag, Kalaburgi, Haveri, Koppal, Raichur, Shivamogga, Uttara Kannada and Yadgir. From April 2023 onwards, allocation of fortified rice under NFSA by GOI has been extended to all the districts of the state.

#### 6.7.4 Anna Bhagya DBT Yojane (Guarantee)

Karnataka government introduced Anna Bhagya DBT scheme for AAY and PHH cardholders from July 2023. An amount equivalent to Rice i.e. Rs.34/- per k.g of Rice multiplied to 5 k.g's. i.e. Rs.170/- per member is credited to head of the family.

| Ration Card category         | Details of the amount distributed instead of Food grains                                                                                                                                                   |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anthyodaya Anna Yojane (AAY) | If there are more than 3 members, each additional beneficiary is being distributed through DBT at Rs. 34 per kg of Rice multiplied to 5 k.g's. i.e. Rs.170/- per member instead of 5 kg of rice per month. |
| Priority Household (PHH)     | Instead of 5 kg of rice per month, each beneficiary of the family is being distributed a total of Rs. 170 through DBT at Rs. 34 per kg.                                                                    |

**Table 6.11: Last 5 years Category wise Ration card details**

| Year     | Number of Ration Cards |          |        |             |
|----------|------------------------|----------|--------|-------------|
|          | AAY                    | PHH      | NPHH   | Total Cards |

\* December 2024 card figures updated

#### 6.7.5 PDS Kerosene Distribution

Presently, in all taluks of Uttara Kannada District, 3 litres of kerosene is being distributed to Non-LPG cardholders. In all taluks of Chamarajnagar and Uttara Kannada Districts and in 11 select taluks of Hassan, Mandya and Mysore districts, 1 litre kerosene is being distributed for illumination purposes. There has been substantial reduction in kerosene allocation from GOI and the present quarterly allocation of kerosene from GOI is 888 KL (296 KL per month). As per the availability, kerosene is being distributed at Rs.35/- per litre every month.

#### 6.7.6. Fisheries Kerosene Distribution

300 liters per boat for 8,030 fishing boats (1345 Dakshina Kannada, 4896 Udupi and 1789 Uttara Kannada) in Runaway State. As such, 2409 KL of non-subsidized ration kerosene has to be distributed every month. But since 732 KL of non-subsidized kerosene has been released by the central government for the year 2024-25, the allocation will be given till the month of May-2024. After that, due to non-allocation of kerosene by the central government, non-subsidized kerosene will not be allocated to fishing boats from the month of June 2024.

#### 6.7.7 Details of Fair Price Shops in the State

There are currently 20,469 Fair Price Shops operating in the State. Out of these, 48 Fair Price Shops belong to KFCSC, 10,717 Fair Price Shops belong to Cooperative Societies and 9704 individual Fair Price Shops are functioning.

**Table 6.12: The current retail profit margin given to Fair Price Shops are as follows:****(Rs. per quintal)**

| Fair Price Shop Margin | POS Margin | State retail and POS profit incentives | Total FPS Margin |
|------------------------|------------|----------------------------------------|------------------|
| 90                     | 21         | 13+26                                  | 150              |

### 6.7.8 Minimum Support Price Scheme (MSP)

As per the GOI order every year the State is purchasing Paddy, Ragi and Jowar from farmers under Minimum Support Price at the quantity and rate fixed by the GOI and the same is distributed under PDS. The Central Government has set a limit for procurement of 2.24 LMT Paddy, 4.30 LMT Ragi and 1.00 LMT Jowar during KMS in 2024-25.

### 6.7.9 “DASOHA” Scheme

The food grain allocation received from central government under welfare institutions and hostel scheme is being distributed free of cost to state run/aided welfare institutes such as Nariniketans, Old Age Homes, Orphanages, Hostels, Homeless/Beggar rehabilitation Centres, Swadhar homes, Hostels for blind children, Remand homes, Hostels providing free accommodation and food run by religious institutions etc. Accordingly, 10 Kg rice and 5 kg wheat total 15Kg per inmate is being distributed to the welfare institutes in the state. As per December 2024 allotment, 166 institutions run by GOI with 10,467 beneficiaries have been allotted 104.67 MT Rice, 52.34 MT Wheat. Similarly, 268 Institutions run by GOK with 31568 beneficiaries have been allotted 473.52 MT Rice.

### Achievements

- Among the total 1,36,22,726 of ration cards existing in the state, 10,80,549 of ration cards (covering 43.83 Lakhs of members) under AAY, 1,17,67,309 of Ration cards (covering 4.23 crores members) under PHH and 7,74,868 non-priority ration cards have been distributed to families.
- Under the National Security Act, the Karnataka Government is an amount equivalent to Rice i.e. Rs.34/- per k.g of Rice multiplied to 5 k.g's. i.e. Rs.170/- per member is credited to Head of the Family Bank Account.
- From April 2024 to Aug-2024 Rs. 3348.99 crores amount has been credited to beneficiaries Bank Account and Rs.671.92 crore grant has been released for the month of sept-2024 and the process of transferring it to the beneficiary accounts is in progress.
- 1,16,85,041 AAY and PHH ration cards and 4,24,61,411 members have completed e-KYC so far. According to this, 93.42% of the ration cards and 97.49% of the members have completed the e-KYC.
- 8564 ineligible Antyodaya Anna and PHH cards have been identified and have the cancelled/converted to NPHH from 01.04.2024 to 31.12.2024.
- A total of Rs. 76,21,576 fine has been levied from Ineligible ration card holders.
- There are 20,469 Fair Price Shops in the State and 20,419 Fair Price Shops are distributing ration through bio-authentication.
- Any ration cardholder of the State and other States are allowed to avail ration at any Fair Price Shops in any part of the State under the One Nation One Ration scheme.
- Various cases have also been registered across the state under the Essential Commodities Act 1955. At present total of 242 cases have been FIR Booked from 01.04.2024 to 31.12.2024. In these booked

cases 6977.6 Qt. Rice, 341.48 Qt. Wheat, 32.94 Qt. Ragi, 222.05 Qt. Pulse, 22ltr. Diesel, 2660 LPG and 106 Vehicles have been registered. Approximate Value Rs. 6,28,44,354 (Essential Commodity and Others estimated value Rs. 46,61,816, Vehicle estimated value Rs. 2,92,19,325) has been confiscated.

- **Annasuvidha - Home Delivery Mobile app:** To provide doorstep ration delivery to the most vulnerable sections ie., Senior citizens above 90 years, single member PHH and AAY ration card holders. By targeting single- member PHH (Priority Household) cardholders and single-member AAY (Antyodaya Anna Yojana) cardholders, the app ensures that the neediest get their due share.
- “State Consumer Helpline” Toll free No.1967, 1800 425 9339 and 14445 facility has been provided to receive complaints with regard to the distribution of food grains in “ANNABHAGYA YOJANE”. Also, online facility in the department website has been provided to lodge the complaint.
- The Integrated Public Grievnace Redressal System (IPGRS) in the state is functioning from 1st November 2021 in the State. Up to Dec-2024, 3658 applications/requests have been received and 3635 applications have been disposed.
- Under the Transformation of Fair Price Shops, in order to increase the income of Fair Price Shop owners, Govt. of Karnataka has initiated the following programmes such as Common Service Center (CSC) services at FPS, IPPB Business Correspondent (BC) / financial services at FPS, retail sale of 5 kg LPG cylinders at FPS, PM-WANI services at FPS and Sale of non-PDS commodities.
- The department is sharing public distribution system data with other departments of the state Government and Government of India as well.

### Challenges and way forward

- At present Rice, Ragi and Jowar are distributed under Public Distribution System to the AAY and PHH cardholders. There is an idea of distributing dietary rice fiber food grains such as Navane, saave, Haaraka, Sajje, Baragu to be worked upon in the future.
- In case these rate millets can also be distributed to the AAY and PHH cardholders along with rice it will improve the health conditions of the beneficiaries and will promote rate millets as well in common public.

# NATURAL RESOURCE MANAGEMENT AND ENVIRONMENT

## 7.1. FORESTS

Forests are vital components of both natural resources and environmental ecosystems. Karnataka boasts a significant portion of the Western Ghats, encompassing approximately 60% of this ecologically critical region within the state. To safeguard and enhance biodiversity, the State has established 6554 Biodiversity Management Committees at the Gram Panchayat level. Furthermore, the conservation and development of unique genetic diversities are prioritized through the establishment of biodiversity heritage sites, such as the renowned 400-year-old tamarind groves in Nallur, Devanahalli taluk.

The Western Ghats, a global biodiversity hotspot, has faced significant threats in recent years due to a combination of underlying and proximate factors. While deforestation rates have been largely curtailed and forest cover has increased quantitatively, the quality of the natural forest stock remains a concern. Continued forest degradation and the decline of environmental resources have severe consequences for ecosystem productivity and resilience. The loss of forest cover poses a serious threat to the environment, sustainable development, and the livelihoods of millions of people within the state.

Forests are a vital asset to the state's economy, significantly contributing to the Gross Domestic Product (GDP) through timber production, medicinal plants, non-timber forest products (NTFPs), grazing, recreation, carbon sequestration, and watershed services. However, rapid population growth has placed immense pressure on these vital resources. Balancing development needs, such as agricultural, industrial, and livelihood demands, with the imperative of forest conservation for both productive and ecological services presents a major challenge. Major threats to forest resources include deforestation for agriculture, unsustainable timber harvesting, mining activities, infrastructure development, forest fires, overgrazing, and poaching. These factors often interact, leading to a significant decline in forest cover and biodiversity.

The Karnataka Forest Department has successfully halted the quantitative decline of forest cover through afforestation programs and improved conservation efforts. However, the sustainability of forests, and consequently, the well-being of both humans and wildlife, remains under threat due to persistent anthropogenic pressures.

### 7.1.1 Area under forests

Karnataka, India's seventh-largest state, spans 1,91,791 square kilometers, constituting 5.83% of the country's land area. Its diverse climate, topography, and soils have fostered rich biodiversity. The diverse ecological niches support unique flora and fauna. The evergreen forests of the Western Ghats, covering approximately 60% of the state's forest area, are recognized as one of the world's 35 biodiversity hotspots and one of the 4 biodiversity hotspots of India. According to the Champion and Seth classification of 1968, Karnataka's forests fall into eight major groups, further subdivided into 21 distinct forest types. The State Forest Department prioritizes community involvement in protecting and managing degraded forests, alongside biodiversity conservation and ecotourism.

The major tree species found in the state's forests include teak (*Tectona grandis*), sandalwood (*Santalum album*), rosewood (*Dalbergia latifolia*), various *Terminalia* and *Pterocarpus* species, and others. Scrub and thorny forests are characterized by the presence of *Balanites roxburghii*, *Cordia myxa*, *Capparis*, *Acacia*, and *Prosopis* species.

The total area of forest in Karnataka is 40,678.23 sq.km. which includes Reserved Forests, Protected Forests, Village Forests, Private Forests and Sec-4 Notified Forests, Unclassed Forests and Forests as per statutory provisions.

The details of Classification of the total forest area in Karnataka are given in **Table 7.1** and **Figure 7.1**.

**Table 7.1: Classification of forest areas in Karnataka**

| Legal Status               | Area (Sq. Km.)   | % of geographical area |
|----------------------------|------------------|------------------------|
| Reserved Forests           | 30,849.45        | 16.08                  |
| Protected Forests          | 2001.03          | 1.04                   |
| Village Forests            | 87.95            | 0.05                   |
| Private Forests            | 52.47            | 0.03                   |
| Notified u/s 4 of KFA 1963 | 2318.50          | 1.21                   |

\* Unclassed Forests: Includes Forest areas which are not notified, but categorized as Forests as per statutory provisions and Deemed Forests.

In the previous forest classification, Deemed Forest, Statutory Forest, Reserved Forest as per Section 4 of the Karnataka Forest Act-1963 and all forest areas identified in government documents were considered as Unclassified Forest.

**Figure 7.1: Classification of Total Forest Area (Percentage to geographical area) in Karnataka**

The Forest Cover inside and outside Recorded Forest Area (RFA) has been analysed in different categories and presented in **Table 7.2 and Figure 7.2**.

Figure 7.3: Forest Cover Change Matrix (Sq.K.M) as per Forest Survey of India 2023

Forest Cover as per Forest survey of India 2023.

### A. Comparison with Southern States

Forest cover in Karnataka is 20.47% to total geographical area of the state as per Forest Survey of India, whereas, in southern states Kerala has highest proportion of forest cover to its total area. The comparison with neighboring states is given in **Table 7.6** and **Figure 7.4**.

**Table 7.6 Comparison with Southern States**

(Sq. Km)

| State                   | Geographical area | Total Forest cover | Percentage of Geographical area % |
|-------------------------|-------------------|--------------------|-----------------------------------|
| Maharashtra             | 307713            | 50859              | 16.53                             |

### 7.1.2 National parks and wildlife sanctuaries

The forests of Karnataka support a wide range of flora and fauna (biodiversity) through a network of well-connected and protected wildlife sanctuaries and national parks. The state has 5 national parks and 36 sanctuaries (including 5 Tiger Reserves) covering an area of 11,004.74 Sq. km (A+B). Apart from the National Parks and Sanctuaries, the state has 18 Conservation Reserves and 1 Community Reserve, comprising 306.10 Sq.km (C+D). as presented in **Table.7.9, Table 7.10 and Table 7.11.**

|                                       | <b>GRAND TOTAL(A+B+C+D)</b> |                                                                        | <b>11,310.84</b>  |

The state has 25% of the country's elephant population. As per the 2023 population estimation, there are 6395 elephants in the state. The state has 5 Tiger Reserves. As per 2022 tiger estimation, the State is now ranked as number two Tiger State in the country with an estimated population of 563 Tigers.

In the 18th state board for wildlife meeting chaired by the Hon'ble Chief Minister held on 07.10.2024, the Board approved the proposal to declare a total area of 5010 acres of Hesaraghatta grassland as "Greater Hesaraghatta Grassland Conservation Reserve".

### 7.1.3 Eco-tourism Activities

#### (A) Information of visitors to National Parks/Wildlife Sanctuaries

1. Among the visitors to the sanctuaries, 99.25% are Indians and 0.75% is foreigners.
2. The maximum number of foreigners visited Mysore Wildlife Area During- 2023-24 & 2024-25.

Information on visitors to National Parks/Wildlife sanctuaries are shown in the **Table 7.12**

**Table 7.12: Information on visitors to National Parks/Wildlife sanctuaries**

| Year                          | No. of Visitors |            |
|-------------------------------|-----------------|------------|
|                               | Indians         | Foreigners |
| 2023-24                       | 17,17,446       | 12,803     |
| 2024-25 (up to December-2024) | 13,45,296       | 5,067      |

3. From this analysis, it is clear that some of the protected areas are experiencing high pressure from eco-tourism while others are underutilized. Therefore, to reduce the pressure on the protected areas like Bandipura, Nagarahole and Kudremukh, it is necessary that the less visited protected areas like BRT, Bhadra, Dandeli and some other protected areas may be provided with better eco-tourism facilities.

### (B) Death of wild animals

The details of death of wild animals (due to natural and unnatural causes) during 2023-24 and 2024-25 (upto end of December) is given in **Table 7.13**.

**Table 7.13: Death of wild animals during 2023-24 and 2024-25**

| Name of the animal | No. of deaths |                              |
|--------------------|---------------|------------------------------|
|                    | 2023-24       | 2024-25 (Upto December-2024) |
| Elephants          | 102           | 81                           |
| Tiger              | 14            | 8                            |
| Cheetha            | 57            | 61                           |
| Other animals      | 269           | 128                          |
| <b>Total</b>       | <b>442</b>    | <b>278</b>                   |

### (C) The scale of ex-gratia payments for the damages caused by wild animals

The government provides ex-gratia payments as given below to individuals and families who have suffered losses due to wild animal attacks.

| Case details                                                                                                                                                                                                                                    | Prescribed Amount                    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|
| Cases of human-life loss due to wild animal attacks                                                                                                                                                                                             | Rs. 15.00 Lakhs (Fifteen Lakhs only) |
| Cases of permanent disability caused by wild animals                                                                                                                                                                                            | Rs. 10.00 Lakhs (Ten Lakhs only)     |
| Cases of partial permanent disability caused by wild animals                                                                                                                                                                                    | Rs. 5.00 Lakhs (Five Lakhs only)     |
| cases per person injured by wild animals                                                                                                                                                                                                        | Rs. 60,000/- (Sixty Thousand only)   |
| Property loss caused by wild elephant attacks per case                                                                                                                                                                                          | Rs. 20,000/- (Twenty Thousand only)  |
| Monthly Pension: In addition to the compassionate allowance given to the families of deceased persons and persons permanently disabled in cases of human loss due to wild animal attacks/trauma, monthly pension is provided for up to 5 years. | Rs. 4,000/- (Four Thousand only)     |

Further a medical expenditure as per the Central Government Health Scheme (CGHS) rates are also provided.

Compensation for crop damage caused by wild animals has been doubled and the list of covered crops now includes mango, sapota, seebe, jackfruit, pomegranate, custard apple and mulberry. For livestock losses,

compensation for cows, ox and buffalo has increased from Rs. 10,000 to Rs. 30,000. Compensation is also provided for the loss of other domestic animals, such as chickens, horses, and donkeys, at rates determined by the State Disaster Response Fund (SDRF).

During 2024-25 up to end of December 2024, due to attack by wildlife's, 31 people were killed. Ex-gratia of Rs 15.00 lakh per person was paid to the victims, totaling of Rs. 420.31 lakh. Details of Man -Animal conflict - Loss of Human Life & Compensation paid are given in the **Table 7.14**.

**Table 7.14: Man – Animal conflict – Loss of Human Life & Compensation paid**

| Loss of Human Life and Ex-gratia paid              | Year    |                               |
|----------------------------------------------------|---------|-------------------------------|
|                                                    | 2023-24 | 2024-25 (Up to December-2024) |
| No. of persons killed due to wild animals' attack. | 57      | 31                            |
| Total Compensation paid (Rs. in lakhs)             | 500.00  | 420.31                        |

#### **(D) Expenditure on wildlife development activities in National parks and wild life sanctuaries**

Among the schemes of the Forest Department concerning wildlife and national parks, Mitigation Measures to mitigate Man-Animal Conflict incurred an expenditure of 88%, Project Tiger 100%, Integrated Development of Wildlife Habitats 100%, and Project Elephant 100%, and the amount of Rs.1000.00 lakhs has been allocated for the year 2024-25 to Kudremukha wildlife division for the rehabilitation people from protected areas.

**Railway Barricade to Prevent Man-Animal Conflict:** Loss of human lives, crop damages are on increase. This scheme envisages construction of 120.78 km of used rail track barriers.Rs.6000.00 lakh is provided for the year 2024-25 to prevent Man-Animal conflict.

#### **(E) Revenue Realized from Forestry**

The State has realized revenue to the tune of Rs.35815.05 lakh during 2024-25 (upto December- 2024) from the marketing of forest products such as timber, firewood, sandalwood, bamboos, canes and other non-timber forest products. Details are given in **Table 7.15**.

**Table 7.15: Revenue Realized from Forest Produce-2024-25 (upto Dec 2024)**

| Forest Produce                               | Revenue Realized (Rs. in lakh) |
|----------------------------------------------|--------------------------------|
| Timber                                       | 12642.09                       |
| Firewood and Charcoal                        | 3651.31                        |
| Bamboos                                      | 21.07                          |
| Receipts from Sandalwood                     | 37.49                          |
| Minor Forest Produce                         | 407.87                         |
| Other Sources of Revenue                     | 19055.22                       |
| <b>Non-taxable Revenue of the Department</b> | <b>35,815.05</b>               |
| <b>Forest Development Tax(FDF)</b>           | <b>491.30</b>                  |

#### 7.1.4 State Sector schemes

**Special Component Sub Plan:** The LPG gas connection and the distribution of solar lamps are given to the beneficiaries of schedule caste families, bee-hive boxes are distributed to improve their economic conditions and maintenance of avenue plantations along the roads that lead to Scheduled Caste colonies is carried out.

In 2024-25, an amount of Rs.250 lakhs was earmarked out of which Rs.250 lakhs is provided for refilling of 2 cylinders to 15,528 Schedule Caste beneficiaries and Rs.1.04 lakh for free distribution of 50 nos bamboos to each Scheduled Caste family. Rs. 250.00 lakh was released out of which 218.30 lakh was utilized upto December 2024 utilized for 2 free cylinder refills to 14,709 Scheduled Caste beneficiaries.

**Tribal Sub-Plan:** To relieve pressure on the forest, LPG gas connections, gas cylinder refilling, solar water heaters and solar lamp distribution were provided to Schedule Tribe beneficiaries. In addition to this, bee hive boxes are also given them to improve their economic conditions. An initiative has been taken to maintain raised avenue plantations along the roads leading to the colonies inhabited by the Schedule Tribe population.

In 2024-25, an amount of Rs.250 lakhs was earmarked out of which Rs.250 lakhs is provided for refilling of 2 cylinders to 15,528 schedule tribe beneficiaries and Rs.0.87 lakh for free distribution of 50 nos bamboos to each Scheduled Tribe family. Rs.250.00 lakh was released out of which Rs.218.64 lakh was utilized upto December 2024 for 2 free cylinder refills to 14,561 Scheduled Caste beneficiaries.

**Siri Chandana Vana:** The area of sandalwood plantation and naturally grown sandalwood trees is protected and maintained through the installation of chain link mesh, watch and ward, soil working, cultural operations and other protective measures.

An amount of Rs.370.56 lakh has been provided for the year 2024-25, out of this, Rs.185.116 lakh has been spent upto the end of December-2024 for maintenance of 613 ha naturally growing sandalwood plantation, recruitment and maintenance of 60 watchmen, maintenance of 11 dogs, maintenance of 1670 ha of old plantation-83.80 km. Inspection route maintenance 165 km. Fire line maintenance works.

**Development of degraded forests:** Under this scheme, degraded forests are rejuvenated through afforestation and soil and water conservation measures. Where there is adequate rootstock, such areas are protected from biotic pressure, thereby encouraging natural regeneration. Alternatively, plantations are raised in other areas based on the requirement for small timber, fuel wood, and fodder.

An amount of Rs. 15,083.07 lakhs has been allocated during the year 2024-25. By the end of December-2024, Rs.6641.76 lakh for 15,734 ha. raising of plantation, 19,362 ha. advance work, 7479 ha. maintenance of plantation.

#### Raising of Seedlings for Public Distribution

**(a) Raising of Seedlings for Public Distribution:** Under this scheme, the department, seedlings are being raised for distribution to the public, farmers, and organizations at subsidized rates to plant on their lands. For this purpose, seedlings of suitable local species as per demand are raised in 6" x 9" and 8" x 12" sized bags every year.

During the year 2024-25, a grant of Rs.904.35 lakh has been allocated for the implementation of the scheme for raising saplings for public distribution, in which Rs.339.871 lakh was spent on the maintenance of 65.97 lakh saplings and 41.84 lakh on raising of seedlings upto the end of December 2024.

**(b) "Krishi Aranya ProtsahaYojane"(KAPY) programme:** In the year 2024-25, a total of Rs.1000.00 lakh has been allocated for the disbursement of incentive funds to farmers under the Agricultural Forestry Incentive Scheme program. The said grant will be allocated to the pending cases of payment of incentive

funds to farmers in the years 2021-22 and 2022-23 and for payment of service amounts as per rules. Out of this Rs.693.07 lakh has been spent upto end of December 2024.

**Roadside Plantation Scheme:** Karnataka State has an area of about 4000 km of national highway, 21,000 km of state highway and 38,000 km of district roads under various afforestation programmes. In the year 2024-25 a grant of Rs.3800.00 lakh has been allocated, of which Rs.1873.45 lakh spent on carrying out plantation maintenance work of 1087.26 km, 19000 seedlings maintenance and raising of plantation of 1273.88 km by the end of December 2024.

**Greening of Urban Areas:** The main objective of this scheme is to reduce the effects of pollution caused by the high concentration of people, vehicles and industries in urban areas by planting ornamental, shade-giving and fruit-bearing trees. Tree parks, wood lots and avenue plantations are also established in towns and cities to improve aesthetics.

In the year 2024-25, a grant of Rs.1789.66 lakh has been provided and expenditure upto the end of December-2024 is of Rs.1022.27 for maintenance of 643.6 kms plantation, maintenance of 6.76 lakh seedlings, raising of 254 kms plantation has been undertaken.

**Hasiru Karnataka:** With more emphasis on social forestry, indigenous species of trees will be extensively planted on government lands around small hills, mangroves and lakes. In this regard, it has been announced to implement the “Green Karnataka” program in the budget of 2018-19 with an expenditure of Rs. 10.00 crore to grow a tree for every house, a forest for a village, a small forest for a taluk, and a forest for a district, with the active involvement of school and college students and environmental organizations.

An amount of Rs.186.36 lakh is allocated for the year 2024-25 under the Green Karnataka scheme. Out of which Rs.87.25 lakh was spent upto the end of December-2024, for maintenance of 1.82 lakh seedlings and raising of 1.82 lakh seedlings.

**Afforestation in Other Areas:** During road widening on state and National highways, trees across the road are felled. For planting saplings in place of the said trees, deposit the prescribed amount from the utility companies like K-Ship, KPTCL, KRDCL and other utility companies to the HOA 0406-01-800-0-08-000. The government will release funds under Account Head 2406-01-101-2-21-AOA-139 to carry out the works as per the amount deposited.

In the year 2024-25, a grant of Rs.1522.84 lakh has been allocated and Rs. 1522.84 lakh is released out of which Rs.821.13 lakh was spent upto December-2024, to carry out afforestation works such as advance work, Raising and maintenance of plantations etc.,

**Tree Park Scheme:** The Scheme is to provide better environment to public in urban areas. Under this scheme, it was envisaged to set up tree parks near each of district and talukas head-quarters and forest or non-forest land or any other community land, wherever there is more population and these Tree parks may be useful to the public, in each taluk place.

An amount of Rs.2000.00 lakh is provided during 2024-25, out of which Rs.1500.00 lakh have been released. Rs.675.78 lakhs expenditure was incurred upto the end of December 2024, out of total 185 Tree-parks, maintenance of 160 Tree-parks and Creation and development of 2 New Tree-parks were undertaken.

**Development and Preservation of Devarakadu (Daivivana):** The Devarakadu Forests are very unique and significant from religious and ecological points of view. This scheme has been introduced to conserve the valuable eco-systems in their pristine conditions as sacred groves, allowing them to have their natural evolutionary process continue without any disturbance. This scheme has been started to construct and develop one Daivivana in each district.

In 2024-25, Rs.430.03 lakhs has been provided and Rs.322.51 lakhs was released, out of which Rs.105.48 lakhs has been spent upto December 2024. Out of total 105 Devarakadus, Maintenance of 42 Devarakadus and Development of 15 New Devarakadus are being carried out.

### **Medicinal Plants Conservation Areas & Medicinal Plants Development Areas (MPCA & MPDA)**

In this project, medicinal plant protected areas and Medicinal Plant Development Areas in the forest areas have been identified and Maintenance and development works have been carried out by revitalizing the Medicinal Plant Development Areas.

During the year 2024-25, Rs.129.96 lakhs has been provided and Rs.97.48 lakhs have been released. Out of which Rs.70.88 lakhs was spent upto December-2024.

### **Forest Protection, Natural Re-generation and Cultural Operations-140-Minor Works**

In the year 2024-25, an amount of Rs.1000.00 lakh has been allocated to carried out fire protection works and Engaging Fire Watchers, Creation of New Fire lines, Maintenance of existing fire lines, Procurement of Fire Fighting Equipment's, to create Awareness Programme, SMC Works etc. Accordingly, Rs.249.99 lakhs has been released to the unit offices and Rs.182.66 lakhs has been spent up to end of December-2024.

### **Land & Building**

In the year 2024-25, a budget provision of Rs.1000.00 lakh has been provided and released for construction of new office building and residential houses under the budget head 4406-01-070-0-02-Capital Expenditure on Forests and Wildlife, Forestry - Infrastructure Development - Land and Buildings-147. Upto end of December-2024 Rs.750.00 lakh has been released to various divisions and spent Rs.484.20 lakh for executing the works.

### **Building Maintenance**

In the year 2024-25, a budget provision of Rs.1650.00 lakh has been provided and released towards maintenance of existing office building and residential houses under the budget head 2406-01-070-0-01-Connectivity and Buildings, Road, Bridges and Buildings (Maintenance) - Maintenance Expenditure-200. Upto end of December-2024 Rs.825.00 lakh has been released to various divisions and spent Rs.711.51 lakh for executing the works.

## **7.1.5 Centrally Sponsored Schemes**

### **Project Tiger**

The Project Tiger scheme was launched in India in 1973 with the aim of conserving tiger populations and their habitats. The government of India provides financial assistance of a 60% share and the State government provides a 40 % share. In Karnataka, Project Tiger is implemented in five tiger reserves: Bandipur, Rajiv Gandhi (Nagarahole), Bhadra, BRT, and Anshi-Dandeli. Key activities under the scheme include:

- **Anti-poaching measures:** Establishing a Tiger Protection Force, organizing anti-poaching camps, and conducting regular patrols.
- **Habitat improvement:** Construction and maintenance of staff quarters, roads, and waterholes, as well as fire protection measures.
- **Public awareness:** Conducting public awareness campaigns and eco-development activities.

According to the 2022 Tiger estimation, Karnataka ranks second in India in terms of tiger population, with an estimated 563 tigers.

### Project Elephant

The Central Government merged the Central Elephant Scheme with the Central Tiger Scheme in the 2023-24 financial year. This integrated scheme focuses on protecting and developing elephant habitats within national parks and sanctuaries. In Karnataka, the scheme's coverage includes Bengaluru Urban, Bengaluru Rural, Kolar, Ramanagar, Mandya, Mysore, Hunsur, Chamarajnagar, Kodagu, Virajpet, Hassan, Bhadravathi, Shimoga, Chikmagalur, and Uttara Kannada districts. Key activities under this scheme include:

- Construction and maintenance of elephant-proof trenches and solar fences.
- Establishment of Rapid Response Teams for swift intervention.
- Conducting anti-poaching and anti-depredation camps.
- Capturing and translocating problematic elephants.
- Providing necessary equipment, drugs, and training for staff and veterinarians.
- Implementing awareness programs for local communities.

As per the 2023 elephant estimation conducted by the direct count method, Karnataka boasts the highest elephant population in India, with an estimated 6,395 elephants. The 2024-25 budget allocated Rs. 25 Crores from the Central government and Rs. 16.33 Crores from the State government towards Project Tiger and Project Elephant. Up to the end of December-2024 Central Share of Rs. 783.07 lakhs and State Share of Rs.721.60 lakhs has been released.

### National Bamboo Mission

The Government of India launched the National Bamboo Mission in 2018-19 under the Department of Agriculture and Cooperation. This centrally sponsored scheme, with a 60:40 central-state funding pattern, aims to foster bamboo development.

The main objective of the Scheme is to develop bamboo in:

- **Forest Areas:** Bamboo cultivation in forest lands is facilitated by Forest Development Agencies (FDAs) in collaboration with Joint Forest Management Committees (JFMCs).
- **Non-Forest Areas:** Bamboo Development Agencies (BDAs) oversee the development of bamboo resources in non-forest areas.

By promoting the cultivation and utilization of bamboo, the National Bamboo Mission seeks to contribute to sustainable development, enhance rural livelihoods, and protect the environment.

In the year 2024-25, a sum of Rs.500.00 lakhs has been provided in the State Budget for implementing National Bamboo Mission schemes. The Government of India has approved an annual action plan for Rs. 2429.35 lakhs for the current year's implementation of the scheme, adhering to the 60:40 central-state funding ratio and mother sanction of Rs. 450.0 lakhs as first instalment, Intern the State Government has released Rs.300.00 lakh to the department. Out of this Rs.620.04 lakh has been released to the various implementing officers to execute the works through SNA-SPARSH module.

## Conservation and Management of Mangroves

The main objective of the scheme is to check and prevent sea erosion in the coastal region. Under this scheme, activities like raising of mangrove plantations, maintenance of older mangrove plantations in coastal Divisions, besides creating awareness, training and publicity among the local population are being undertaken. This Programme is being implemented in Honnavara, Mangalore, Karwar and Kundapur Divisions.

In the year 2024-25 a budget of Rs.50.00 lakh has been provided under the budget head 2406-01-101-2-32 Conservation and Management of Mangroves-140-Minor works.

## Green India Mission

The Green India Mission, a centrally sponsored scheme, is being implemented by the Ministry of Environment, Forest and Climate Change, Government of India. It recognizes the impact of forest cover on environmental improvement, apart from climate mitigation, food security, water security, biodiversity conservation and livelihood security of forest-dependent communities.

The main objective of the scheme is

1. To Increase forest/tree cover in five million hectares of forest/non-forest land and improve the quality of forest cover in five million hectares of forest/non-forest land (total 10 million hectares)
2. To provide multiple enhanced ecosystem services including biodiversity, water conservation services, carbon sequestration in 10 million hectares of forest/non-forest land.
3. To increase forest-based livelihood income of about three million people living around forests.

This programme is under implementation in Kalburgi, Hassan and Sirsi forest divisions since 2015-16. In the 2024-25 financial year, a total budget of Rs. 933.00 lakhs were allocated for implementing Green India Mission schemes. This allocation includes a state share of Rs. 369.27 lakhs and a central share of Rs. 563.73 lakhs.

Government of India Released of Rs.499.12 lakh to the state Government as 2nd installment of Rs.178.00 lakh for 2023-24 and the balance amount of Rs.321.12 lakh of 2022-23. In turn the State Government has released Rs.825.39 lakh to the department including it's share of Rs.326.27 lakh. This amount has been released to the various implementing officers to execute the works through K2(PFMS) system.

## CSS Intensification of Forest Management Scheme

The Forest Fire Prevention and Management scheme is a Centrally Sponsored program with 60% central and 40% state funding, aimed at comprehensive forest fire protection. Key activities include fireline creation and maintenance, water storage infrastructure development, modern firefighting equipment procurement, and public awareness campaigns. By the end of December 2024, Rs. 194.51 lakhs has been released, consisting of Rs. 116.71 lakhs from the central government and Rs. 77.80 lakhs from the state. Expenditure during this period reached Rs. 80.14 lakhs.

## Nagaravana Scheme

In recent days due to modernization pollution is being increased drastically in towns and cities. This results in health hazards and great impact on daily activities of human. In order to control and to provide eco-friendly environment, to increase green cover and to develop bio-diversity Department of Forest and climate change, Government of India has proposed to implement a scheme titled Nagaravana in towns and cities.

In 2024-25, Government of India has approved the work programme for Rs. 2283.78 lakh for implementing the scheme at Bagalakote, Bengaluru Urban, Bidar, BRT Tiger Reserve, Chitradurga, Dharwad, Haliyala, Hunsur, Kolar, Kundapura and Sagara Divisions (19 Projects) and released Rs. 1598.65 lakh as 1st installment. Out of this Rs.985.29 lakh has been released to the various implementing officers for incurring the expenditure.

#### 7.1.6 Developmental Programs Afforestation

Afforestation works are being carried out from time to time. By the end of December 2024, 263.44 lakh saplings have been planted in an area of 53,015 hectares by carrying out afforestation works. Under agroforestry, 99.18 lakh saplings have been distributed to farmers and public for planting in their private lands

#### 7.1.7 District Sector schemes

##### Social Forestry

During 2024-25, Target has been fixed to raise 3274.11 ha. plantations, maintenance of 9549 ha older plantations and 807.83 ha advance works, raising of 9.88 lakh seedlings, maintenance of 9.96 lakh seedlings and 80 other works. Rs.10881.52 lakhs financial target was provided. Out of which, 3,271.11 ha. raising of plantations, maintenance of 9549 ha older plantation, 169 ha. advance works, raising of 9.94 lakh seedlings, maintenance of 9.96 lakh seedlings and 59 other works have been carried out. Rs. 8081.06 lakhs have been released, out of which, Rs.6639.77 lakh spent upto December-2024.

##### Buildings

During 2024-25, Target has been fixed to construct 65 number of staff / officer's quarters / office buildings and maintenance of 183 number of older buildings and Rs. 1,462.00 lakh of financial target has been fixed. Building construction / repair work is being entrusted to PRED / KRIDL / Nirmithi Kendra by the Zilla Panchayats which is under progress. Out of this, 3 new buildings have been constructed and maintenance carried out for 44 older buildings. By the end of December-2024, Rs.708.25 lakh has been released and Rs.142.78 lakh was spent.

#### Agroforestry under the Umbrella Scheme of RKVY

During 2023-24, new scheme under the Department of Agriculture, Agroforestry Component Rashtriya Krishi Vikas Yojane (RKVY Umbrella Scheme) was being implemented. During 2024-25, an annual action plan of Rs.20.00 crores has been sanctioned for Establishment / development of 26 new nurseries, upgradation of 1 tissue culture lab, maintenance of 38.38 lakh saplings and raising of 17.58 lakh Quality Planting Material (QPM) saplings in nurseries and 35 number of skill development and capacity building training programs are being undertaken. 1st instalment and 2nd instalment total funds, Central Share of Rs.600.00 and State Share of Rs.400.00 Lakhs totalling Rs.1000.00 lakhs has been released (1st instalment Rs.500.00 Lakh in Khajane-2 PFMS and 2nd instalment Rs.500.00 Lakh in SNA SPARSH module), an expenditure of Rs.661.52 Lakhs was incurred by the end of the December-2024.

#### 7.1.8 Revenue and Expenditure

The Forest Resource Management (FRM) wing of Karnataka is primarily responsible for the management of forests from the point of production as well as overall protection. Revenue is realized by the sale of forest products such as timber, firewood, bamboo, sandalwood and non-timber forest products as well as revenue realized from sanctuaries and other miscellaneous revenue items. The expenditure includes the establishment cost as well as the cost of afforestation and other departmental programmes. The detail of Revenue and Expenditure over the years is as shown in **Table 7.16**.

Table 7.16: Revenue and Expenditure from Forest Department

(Rs. in crore)

| Year                         | Revenue | Expenditure |
|------------------------------|---------|-------------|
| 2017-18                      | 310.62  | 1425.31     |
| 2018-19                      | 280.11  | 1536.22     |
| 2019-20                      | 245.34  | 1759.78     |
| 2020-21                      | 255.36  | 1774.63     |
| 2021-22                      | 260.35  | 2101.26     |
| 2022-23                      | 319.66  | 2280.58     |
| 2023-24                      | 417.84  | 2325.58     |
| 2024-25<br>(upto 30.12.2024) | 364.49  | 1241.40     |
| 2024-25 (A)                  | 400.00  | 1578.23     |

### 7.1.9 Achievements and Challenges

- Karnataka Forest Department dealing with eviction of encroachment in forest lands, mutation of forest lands in revenue records, Forest Rights Act and Boundary consolidation works.
- During 2024-25 no fresh encroachment has been reported in the State. Out of encroachment of 2,15,393.53 acres in 1,22,201 cases 1,981.15 acres of encroachment in 274 cases has been evicted and taken back to the department. Final orders have been passed in 130 cases under Section 64(A) of the Karnataka Forest Act, 1963 during this period.
- The state has a total of 40,67,823.00 hectares of forest land, out of which 30,10,336.49 hectare is mutated. 10,57,486.51 hectares of forest area is pending for mutation and 74 percent progress has been achieved.
- The Karnataka Forest Department is responsible for the protection and management of 5 National Parks, 36 Wildlife Sanctuaries (including 5 tiger reserves), 18 Conservation Reserves, and Community Reserves. The total area covered by these protected areas is 11,310.84 square kilometres, which constitutes 26.08% of the total forest area in the state. As a result of effective protection and conservation measures, the number of elephants, tigers, and leopards has increased. According to the 2022 tiger census, Karnataka ranks second in the country with 563 tigers. Similarly, the 2023 elephant census revealed that the state has 6,395 elephants, ranking first in the country.
- To mitigate human-elephant conflicts, 78.91 kilometres of railway barricades have been constructed using railway tracks.
- The state wildlife board has approved the declaration of the Hesarghatta Grassland in the Bengaluru urban division as a Conservation Reserve during the 18th meeting.
- A new project has been launched in 2024-25 to address elephant attacks by forming a Bandipur Elephant Task Force.
- A budget of Rs. 20.00 crores have been allocated for constructing physical barriers such as elephant-proof trenches, solar fencing, and tentacle fencing along forest boundaries to reduce human-animal conflicts.

- 2.63 crore seedlings have been used for planting 53,015 hectares of new green cover in the year 2024-25 and 0.99 crore saplings have been distributed for planting in agricultural and private lands.
- Under the Umbrella National Agricultural Development Program, the Agriculture Department is producing and supplying high-quality seedlings to farmers under the Agroforestry scheme.
- Under State Sector Tree Park Scheme, provided natural environment to the Urban dwellers and play areas for children which provides recreation, aesthetics, good air, well-being of communities.
- A total revenue collection target of 5.00 lakhs has been fixed for the year 2024-25 for forest research and utilisation, and 24.00 lakhs will be collected by the end of December- 2024
- Steps have been taken to collect 136.17 tonnes of high-quality seeds and distribute them to the research circle and various zones, divisions and units of the Forest Department.
- The Information Communication technology Centre of the Forest department is involved in ushering in transparency, accountability in its administration and services of the department. In this regard the ICT center has developed and deployed various IT solutions in order to bring business reforms and process automation in its core functioning. Major IT systems including the below mentioned applications are developed and deployed:
  1. **e-Parihara:** Online system for processing of ex-gratia sanctions to the aggrieved in case of man-wild animal conflict cases
  2. **e-Timber:** Management of timber depot stocks in Government Timber depots across the State and e-auctioning of timber and other forest produce through online platform.
  3. **Sawmill Management System:** Online system for renewal of Sawmill licenses across the State and management of wood consumption.
  4. **Forest Produce Tracking System:** Monitoring of transit of mineral ore from forest leases, from source to sink. Issuance of online transit permits for transportation of ore.
  5. **e-Sasyakshetra:** Online portal for management of seedling stock across forest nurseries. Provision for query on seedling availability and its subsequent disposal to public and departmental plantations.
  6. **e-Felling and Transit Permission System:** Online system for according permission for obtaining permission to fell trees grown on private lands and subsequent approvals for removal of such felled material.
  7. **Compendium of HR Database:** Exhaustive database of Forest frontline staff. Transfer and Counselling Management System for frontline staff. Application for “Aranya Keerti” system for processing applications for Chief Minister’s medal for meritorious service.
  8. **e-Evaluation:** Online system for evaluating various departmental works implemented under various schemes. Valuating the success of implementation of schemes and models and their effectiveness.
  9. **Forest Geospatial Information System:** Compendium of all forest notifications and cadastral level geospatial database of all forest lands.
  10. **Forest Fire Management and Analysis Portal:** GIS, Remote sensing and MIS based system for dissemination of forest fire alerts and end to end system for capturing mitigation measures and with an forest fire forecasting model.
  11. **Forest Cover Change Alert System:** AI, GIS, Remote Sensing and Machine learning based system to identify changes in forest cover over a period of approximately 3 weeks cycle. Repository on action taken and feedback on the same.

Further, during the Year of 2024-25, the following applications are developed and deployed:

1. **Aranya vihaara:** Online application for booking of ecotourism activities in a user friendly, transparent online mechanism, was developed and deployed for booking of treks.
2. **Garudakshi:** Development and pilot deployment of Garudakshi for booking of forest offence cases through online mechanism.

### 7.1.10 Karnataka Biodiversity Board

Karnataka Biodiversity Board was established vide section 22 of Biological Diversity Act, 2002, by Government of Karnataka on 01.08.2003.

#### Objectives of the Board

1. The conservation of biological diversity.
2. The sustainable use of the components of biological diversity.
3. The fair and equitable sharing of the benefits arising out of the utilization of biological resources.

#### Achievements of the Board

(From January 2024 to December 31, 2024)

| Programmes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Numbers |

### 4. Declaration of Bio-diversity Heritage Sites

Declared 1,494.38 Acres Forest areas at Mamadapura, Vijayapura District as Sri. Siddeshwara Swamiji Biodiversity Heritage Site on 16-10-2024.

## 5. Survey of Bio industries and Utilization of bio resources

The amount has been collected from the companies are as below

| Applications                                                         | No.of Applications | Amount Received (In Rs.) |
|----------------------------------------------------------------------|--------------------|--------------------------|
| Received Form-1 Applications and collected Amount from the Companies | 101                | 1,01,000/-               |
| Amount Collected towards Access benefit Sharing                      | -                  | 52,86,358/               |

## 6. Special Programmes

### Celebration of International Biodiversity Day and World Environment Day 2024

Karnataka Biodiversity Board celebrated on 22-05-2024 as International Day for Biological Diversity 2024 on the theme of "Be part of the plan" in collaboration with Local Biodiversity Management Committees, Environmentalists, Vrikshalaksha Andolana Committee and Officers of Forests Department and Rural Development and Panchayath Raj. In the rich Biodiversity districts conducted Jatha and several meetings at Uttara Kannada and Shimoga Districts.

In the meanwhile Officers and Technical Staff visited Shankarahonda source of Aganashini river, Sirsi, Bedthi river Yallapur Taluk, Botanical Garden at Sonda Swarnavalli Mahasamsthana, Sahastra Linga at Shalmala River, Andavalli and Vardashramada Sacred water at Vardha river, Kumdvathi Nadimula, Ambutheertha at Sharavathi river, Thirtha halli taluk.

### International Bio-diversity day programme at Vishakapatnam

On the occasion of International Day for Biological Diversity- 2024 (IDB), the National Biodiversity Authority (NBA) in collaboration with Andhra Pradesh State Biodiversity Board (APSBB) had hosted a program on 22nd, 23rd & 24th of May, 2024 at Visakhapatnam Deputy Conservator of Forests, along with Research Associate (Zoology) and Technical Executive represented the Karnataka Biodiversity Board (KBB) in the program. The Board had setup a stall in the exhibition of the program. In the exhibition, banners of activities & achievements of the Board with respect to ABS, BMC, BHS & banners which included information of some RET species and GI tagged products of Karnataka were displayed.

## 7. Biodiversity Award

Karnataka Biodiversity Board awarded the eminent persons who served their services for conservation of Biodiversity under the programme of World Environment Day 2024 and Vanamahotsava 2024 on 03/07/2024 at Kanteerva Stadium, Bengaluru. Chaired by Hon'ble Chief Minister and Minister for Forests, Ecology and Environment. The details are below.

| Categories of award                    | Selected persons/organization for biodiversity award                         | Amount   |
|----------------------------------------|------------------------------------------------------------------------------|----------|
| Conservation of Biodiversity           | Riyaz Pasha, Kollura, Aurad Taluk, Bidar District                            | 50,000/- |
| Best Biodiversity Management Committee | Sagar Taluk Panchayath Biodiversity Management Committee                     | 50,000/- |
| Organic-Traditional Agriculture System | Sri. Hanamanthappa Malleshappa Belagumpi, Afzalpur taluk, Kalburgi district. | 50,000/- |

## 8. Publications

Annual Report for the year 2023-24 and Audit Report for the year 2022-23.

## 9. Expenditure and Budget

|                                                              |        |
|--------------------------------------------------------------|--------|
| Total Budget for the year 2024-25 (Rs. In lakhs)             | 354.34 |
| Budget released from the Government till date (Rs. In lakhs) | 217.15 |
| Budget expenditure till date (Rs. In lakhs)                  | 159.19 |

### Karnataka Biodiversity Board Challenges for the year 2024-25

1. Reconstitution and Strengthening of Biodiversity Management Committees.
2. Updation of 6554 People's Biodiversity Registers (E-PBR) at different level of administration blocks across the state as per NBA guidelines.
3. Identification, Declaration and Conservation of Biodiversity Heritage Sites.
4. Research Projects and Special Studies on Biodiversity.
5. Implementation of amended Biological Diversity Act, 2023
6. Enactment of Access and Benefit Sharing of Biological Resources and preparation of standard of operations for the Biodiversity Management Committees.

### 7.1.11 Coastal Regulation Zone Management

The coastal stretches up to 500 metres from the HTL towards the landward side all along the coast, area up to 12 nautical miles in the sea, river, creeks, bays, estuaries and backwaters up to a point till the tidal influence is felt and the land on either side of these tidally influenced water bodies up to a maximum of 100 metres is declared as "Coastal Regulation Zone" as per the MoEF Notification No. S.O. 19 (E) dated 6th January 2011 which was issued in supersession of Notification No.S.O.114(E) dated 18.2.1991. The coastal stretches so declared as CRZ have been classified into 4 zones, viz., CRZ-I, CRZ-II, CRZ-III and CRZ-IV based on the ecological sensitivity and the land use pattern. Norms for regulation of activities in these zones and the institutional mechanism for enforcement of the provisions of this notification have also been built in.

Karnataka State Coastal Zone Management Authority has been constituted under the chairmanship of the Additional Chief Secretary to Government, Department of Forest, Ecology and Environment for ensuring compliance to the provisions of CRZ Notification.

Earlier, Karnataka State Coastal Zone Management Plan (CZMP) was prepared in accordance with the provisions of CRZ Notification, 1991. Then the job of preparation of CZMPs for Karnataka as per CRZ Notification, 2011 was entrusted to the National Centre for Sustainable Coastal Management, Chennai. The revised CZMP has been approved by the MoEF & CC, GoI on 07.08.2018.

Further, the MoEF & CC, has issued CRZ Notification 2019 vide No. G.S.R 37 (E) dated 18.01.2019. As per this said notification, all coastal states and union territories need to revise or update their respective Coastal Zone Management Plan (CZMP) and submit the same to the Ministry of Environment, Forest and Climate Change for approval and till the CZMP is revised or updated, provisions of the said notification would not apply and the earlier CZMP as per provisions of CRZ Notification, 2011 shall continue to be followed for the purpose of appraisal and CRZ clearance.

Pursuant to the Orders of the Hon'ble NGT in O A No. 04/2013 dated 11.04.2022, Government of Karnataka in co-ordination with the Karnataka State Coastal Zone Management Authority (KSCZMA) had requested National Centre for Sustainable Coastal Management (NCSCM), Chennai to "Prepare Shoreline Change and Shoreline Management Plan" for the Coast of Karnataka.

Accordingly, the Shoreline Management Plan (SMP) for 320 kms of Karnataka has been submitted by National Centre for Sustainable Coastal Management (NCSCM), Chennai on 07.11.2024.

## 7.2 WATER RESOURCES

The Water Resources Department (Major and Medium Irrigation) is one of the major Department in the Government of Karnataka. Irrigation is an important source of raising productivity in agricultural sector.

Annual rainfall of the State is 1,220 mm. More than 73% of this rainfall is received due to the South – West monsoon. Expansion of both the groundwater and surface water resources has helped to increase the cultivated area under irrigation in the state over time. Around 80% of fresh water is used for irrigation purpose and remaining for domestic, industry purposes.

### 7.2.1 River Basins of Karnataka And Allocation of Water

There are 7 River Basin Systems in Karnataka. The details are given in the **Table 7.17**.

**Table 7.17: 7 River Basin Systems in Karnataka**

| River Systems       | Drainage Area        |        |           |
|---------------------|----------------------|--------|-----------|
|                     | 1000 Km <sup>2</sup> | %      | Yield TMC |
| Godavari            | 4.43                 | 2.31   | 50        |
| Krishna             | 113.01               | 58.93  | 970       |
| Cauvery             | 36.13                | 18.84  | 388       |
| North Pennar        | 6.94                 | 3.62   | 32        |
| South Pennar        | 3.76                 | 1.96   |           |
| Palar               | 2.97                 | 1.55   |           |
| West Flowing Rivers | 24.53                | 12.79  | 2000      |
| Total               | 191.70               | 100.00 | 3440      |

### 7.2.2 Objective of Water Resources Department (WRD)

The objective of WRD is to harnesses Surface Water for Irrigation and providing water for Drinking/Industrial use and the ultimate goal of Department is to achieve targeted Ultimate Irrigation Potential of 40.66 Lakh Hectare through implementation of Major & Medium Irrigation Projects.

#### Major category of implementation of Projects / activities in WRD include

- Implantation of Irrigation Projects (Conventional Flow Irrigation, Lift Irrigation & Drip Irrigation) for providing irrigation facilities to the farmers of Command Areas.
- Land Acquisition for Projects and providing Rehabilitation & Resettlement for Project Displaced families (PDF's).
- Modernization of Old Canal Networks including SCADA Based Automation for ensuring improvement of Water Use Efficiency.

- Dam Rehabilitation & Improvement Projects (DRIP) under World Bank Assistance.
- Command Area Development Works (CADA) involving construction of FIC's, Land Leveling activities, stabilization of water logged areas etc.,
- Tank filling Schemes to provide Drinking water and for augmentation of Ground water recharge.
- Operation and Maintenance of the Projects, etc.,

### 7.2.3 Irrigation Potential Created through Major & Medium Irrigation Projects

The cultivable command area of the State is 1,40,598 Sq. Km. The Ultimate Irrigation Potential under Major and Medium Irrigation Projects has been estimated as 42.08 Lakh Hectare. So far to end of December 2024, Irrigation Potential of 30.85 Lakh Hectare is achieved and balance of 11.23 Lakh Hectare is yet to be achieved. Irrigation Potential Created Cumulative Area details are given in the **Table 7.18**.

**Table 7.18: Irrigation Potential Created – Cumulative Area**

(In Lakh Ha.)

| Source                    | 2020-21 | 2021-22 | 2022-23 | 2023-24 | 2024-25<br>(Anticipated) |
|---------------------------|---------|---------|---------|---------|--------------------------|
| Major & Medium Irrigation | 29.81   | 30.15   | 30.45   | 30.66   | 31.16                    |

Details of trends in Irrigated Area for the past years are given in **Table 7.18(a)**.

**Table 7.18(a): Trends in Irrigated Area in Karnataka**

(Area in lakh hectares)

| Year    | Gross Cultivated Area | Gross Irrigated Area | Net Irrigated Area | Gross Irrigated Area as a % of Gross Cultivated Area |
|---------|-----------------------|----------------------|--------------------|------------------------------------------------------|
| 1980-81 | 106.60                | 16.76                | 13.62              | 16                                                   |
| 1990-91 | 117.59                | 25.98                | 21.13              | 22                                                   |
| 2000-01 | 122.84                | 32.71                | 26.43              | 27                                                   |
| 2010-11 | 130.62                | 42.79                | 34.90              | 33                                                   |
| 2020-21 | 149.10                | 60.64                | 49.31              | 41                                                   |
| 2021-22 | 147.48                | 60.85                | 49.20              | 41                                                   |
| 2022-23 | 148.16                | 62.71                | 50.38              | 42                                                   |
| 2023-24 | 134.64                | 58.36                | 48.09              | 43                                                   |

Source: Directorate of Economics & Statistics.

Water for irrigation purpose comes from various sources such as wells, ponds, canals, rivers, dams, reservoirs, rainfall etc. Source-wise irrigation developed during 2023-24 is given in **Table 7.19**. Among all the sources of irrigation, the net area irrigated from the tube-wells is highest (i.e.59.74%). The second important source is canals covering 18.86% and 7.82% area are covered by wells. Historically, though tanks have been considered the principal source of irrigation, their contribution is very minute (i.e.1.58%).

Table 7.19: Source-wise Irrigation during 2023-24

(Area in lakh hectares)

| Source         | Irrigated Area |              | % share to Net Irrigated Area |
|----------------|----------------|--------------|-------------------------------|
|                | Gross          | Net          |                               |
| Canals         | 10.34          | 9.07         | 18.86                         |
| Tanks          | 0.82           | 0.76         | 1.58                          |
| Wells          | 4.70           | 3.76         | 7.82                          |
| Tube/BoreWells | 35.31          | 28.73        | 59.74                         |

#### 7.2.4 Year wise allocation/expenditure on Major & Medium Irrigation Projects

The State Government provides Budget to Water Resources Department under Capital/IEBR for Project Works apart from Budgetary support for Debt Servicing towards re-payment of Loans/borrowed funds by Nigam. There is also funding for the Schemes in WRD by NABARD, under PMKSY-AIBP GoI Assistance, World Bank & ADB assistance.

Expenditure on Major & Medium Irrigation Projects during 2023-24 was Rs. 18,198.84 Crore. The Budgeted Expenditure for Financial Year 2024-25 is Rs. 16,834.66 Crore and the expenditure incurred to end of December 2024 is Rs. 9854.98 Crore. The **Table 7.20** highlights investment in irrigation projects.

Table 7.20: Year wise Allocation and Expenditure of Irrigation Sector

(Rs. In Crores)

| Year         | Allocation       | Expenditure (*)            | Expenditure to Allocation ratio |
|--------------|------------------|----------------------------|---------------------------------|
| 2019-20      | 16984.25         | 17277.69                   | 100                             |
| 2020-21      | 18936.13         | 19212.46                   | 100                             |
| 2021-22      | 19960.98         | 19820.19                   | 99.29                           |
| 2022-23      | 23393.65         | 23351.91                   | 99.82                           |
| 2023-24      | 16735.49         | 18198.84                   | 100                             |
| 2024-25      | 16834.66         | 9854.98<br>(December 2024) | 58.54                           |
| <b>TOTAL</b> | <b>112845.16</b> | <b>107716.07</b>           | <b>95.45</b>                    |

(\*) Expenditure Including Opening Balance.

#### 7.2.5 Establishments of Nigam in Water Resources Department

The Water Resources Department has established following four Nigam as under the Companies Act of 1956, for speedy implementation of irrigation projects and to enable the Government to borrow funds from external sources.

- Krishna Bhagya Jala Nigam Limited (KBJNL-1996)
- Karnataka Neeravari Nigam Limited (KNNL-1998)

- c) Cauvery Neeravari Nigam Limited (CNNL-2003) and
- d) Visvesvaraya Jala Nigam Limited (VJNL-2016)

### 7.2.6 Krishna Bhagya Jala Nigam (KBJNL)

The Krishna Bhagya Jala Nigam was established by the Govt. of Karnataka vide G.O. Dtd:06.05.1994 under Companies Act 1956 to accelerate the implementation of Upper Krishna Project and to enable the Govt. to borrow funds from external sources. This Nigam started functioning from 19.08.1994.

### 7.2.7 Implementation of Upper Krishna Project

#### (a) Upper Krishna Project Stage – I & II

The Upper Krishna Project Stage I & II (UKP Stage-I&II) was envisaged for utilization of 173 TMC allocated under Krishna Water Dispute Tribunal Award-I (KWDT-I) to provide irrigation for 6.22 Lakh Hectare in Yadgiri, Kalaburagi, Vijayapur, Bagalkote & Raichur Districts of Northern Karnataka. UKP Stage-I & II are completed in 2012-13 and Irrigation Potential of 6.20 Lakh Hectare has been created and completion report of the projects submitted to Central Water Commission (CWC).

#### (b) Upper Krishna Project Stage – III

The Krishna Water Disputes Tribunal-II (KWDT-II) has passed an award in December, 2010 and Further Report in 2013 allocating 173 TMC of water to the Karnataka State. Out of this, 130 TMC is the share of Upper Krishna Stage-III (UKP Stage-III). The KWDT-II Award is yet to be Gazetted by Govt. of India

The utilization of allocated 130 TMC under UKP Stage-III involves raising the storage at Almatti Reservoir from RL:519.60 Mt to RL:524.256 Mt. (additional storage of 100 TMC) and it is contemplated to provide irrigation for 5.94 lakh Hectares of command area in Vijayapura, Bagalkote, Kalaburagi, Yadgiri, Raichur, Koppal and Gadag districts of Northern Karnataka.

The Govt. of Karnataka had accorded administrative approval to the Revised Estimated cost of UKP Stage-III for Rs.51,148.94 Crore (2014-15 price level) vide GO Dtd:09.10.2017. The cost of LAQ and R&R of UKP Stage-III is Rs.30,143.17 Crore.

Under UKP Stage-III, the works under 9 Project Sub components, viz; Mulwad, Chimmalgi, Mallabad, Herkal, Koppal LIS, Indi & Rampur LIS Extension, Narayanpur Right Bank Canal Extension and Bhima Flank are in various stage of progress.

The implementation of UKP Stage-III also involves Acquisition of 1,33,867 Acres of Land and Rehabilitation and Resettlement of 20 Villages to be submerged under backwaters of Almatti Reservoir including R&R of part of Bagalkote Town. Details of Land Acquisition under UKP Stage-III are given in the **Table 7.21**.

**Table 7.21: Details of Land Acquisition under UKP Stage-III**

| Particulars             | Land Acquisition Extent (in Acres) |
|-------------------------|------------------------------------|
| Submergence             | 75,563                             |
| Formation of RC Centres | 6,467                              |
| Canal Network           | 51,837                             |
| <b>Total</b>            | <b>1,33,867</b>                    |

Land Acquisition and R&R is being implemented as per “Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013”. So far, 28,904 Acres of Land has been acquired and Awards have been passed.

Govt. vide GO Dtd:25.01.2023 has approved Consent Award for payment of Land compensation at Rs.5.00 Lakh / Acre for Dry Lands and Rs.6.00 Lakhs / Per Acre for Wet / Bagayat Lands (payable at 4 Times).

As part of Rehabilitation & Resettlement under UKP Stage-III, the activities for Rehabilitation of 20 Villages and Part of Bagalkote Town coming under submergence in backwater of Almatti Reservoir (from RL 519.60 Mt to RL 524.256 Mt) are in various stages of progress.

Under UKP Stage-III, Cumulative Outlet Irrigation Potential of 1,37,000 Hectare has been achieved so far. Total cumulative expenditure of Rs.18,861.00 Crore (including LAQ & R&R Expenditure) has been incurred up to the end of December, 2024.

### 7.2.8 Other Projects under implementation under KBJNL

In addition to the Upper Krishna Project (UKP Stage-I, II & III), KBJNL is implementing other (1) Irrigation Projects, (2) Canal Modernisation, (3) Tank Filling Schemes, (4) Bridge-cum-Barrages & (5) Dam Rehabilitation & Improvement Project (DRIP-II) of Almatti & Narayanpur Dams, in accordance with the Administrative approvals accorded by Government from time to time. The Financial & Physical progress details are given in the **Table 7.22**.

**Table 7.22: Financial & Physical progress details of Other Projects (Excluding UKP Stage-I, II & III)**

| Project Details                                     | No. of Projects | Estimated Cost (Rs. In Crore) | Cumulative Expenditure upto December 2024 (Rs. In Crore) | Contemplated irrigation Potential (In Hectare) | Cumulative Potential created upto December 2024 (In Hectare) | No. of completed Projects |
|-----------------------------------------------------|-----------------|-------------------------------|----------------------------------------------------------|------------------------------------------------|--------------------------------------------------------------|---------------------------|
| Other Irrigation Projects (Excluding UKP Stage-III) | 15              | 13054.32                      | 6843.72                                                  | 242157                                         | 93009                                                        | 3                         |

### 7.2.9 Projects under KBJNL announced in Budget of 2024-25 for completion during current year

#### (a) Completion of On-going Projects

In the Budget 2024-25, under KBJNL it has been announced for completion of ongoing Budhihal-Peerapur Lift Irrigation Project and Devadurga and Gurmitkal Tank Filling Schemes. These projects are planned for completion during current year. The financial and Physical progress of these projects is given in the Table 7.23.

**Table 7.23 : Details of Progress of Projects under KBJNL announced in Budget of 2024-25 (February 2024) for completion during current year**

| Project Details                                                               | Estimated Cost<br>(Rs. In Crore) | Cumulative Expenditure upto<br>November 2024<br>(Rs. ### 7.2.10 Financial Progress under KBJNL

Year wise allocation and expenditure on major irrigation and other projects by KBJNL is given in the Table 7.24.

**Table 7.24 Year wise Allocation and Expenditure on major irrigation projects by KBJNL** (Rs. In Crores)

| Year    | Allocation | Expenditure*                     | Expenditure to Allocation ratio |
|---------|------------|----------------------------------|---------------------------------|
| 2019-20 | 3736.75    | 4244.36                          | 100                             |
| 2020-21 | 5201.42    | 6328.11                          | 100                             |
| 2021-22 | 6086.72    | 5834.61                          | 95.85                           |
| 2022-23 | 7049.59    | 6744.15                          | 95.66                           |
| 2023-24 | 5062.61    | 6276.23                          | 100                             |
| 2024-25 | 4632.05    | 2484.70<br>(Up to December 2024) | 53.64                           |

(\*) Expenditure Including Opening Balance.

### 7.2.11 Karnataka Neeravari Nigam Limited (KNNL)

The Karnataka Neeravari Nigam Limited (KNNL) was established by Govt. of Karnataka on 26.11.1998 under Companies Act 1956 to accelerate the implementation of Krishna Basin Projects except Upper Krishna Project.

### 7.2.12 Implementation of Projects under KNNL

KNNL has taken up numerous Irrigation, Tank filling, Modernization & Other Projects for implementation.

Under KNNL 80 Tank Filling Schemes were taken for filling up of 2,683 Tanks with an estimated cost of Rs.13,607.58 Crore. So far 51 Schemes have been completed and 1639 Tanks have been filled up. 26 Tank Filling Schemes are in progress and Tenders in process for 4 Schemes. Cumulative expenditure incurred upto November 2024 is Rs.9212.44 Crore.

To increase the irrigation efficiency KNNL has taken up 10 Modernization Projects with an estimated cost of Rs.8,572.82 Crore incurring cumulative expenditure of Rs.8176.80 Crore upto December 2024.

Apart from Tank filling & Modernization Projects presently KNNL is implementing 88 No. of Projects with Plan to create irrigation potential of 17,88,495 Hectare. Since inception, upto December 2024 the cumulated potential created was 14,92,954 Hectare with an expenditure of Rs.34,075.12 Crore.

### 7.2.13 Projects under KNNL announced in Budget of 2024-25 for completion during current year

#### (a) Completion of On-going Projects

In the Budget of 2024-25, it is announced for completion of ongoing Projects viz; Sri Venkateshwara and Kempwad Basaveshwara Lift Irrigation Schemes and Mundgod, Tuparihalla & Sasivehalli Tank Filling Schemes. These projects are planned for completion during current year. The financial and Physical progress of these projects is given in the **Table 7.25**.

**Table 7.25: Details of Progress of Projects under KNNL announced in Budget of 2024-25 for completion during current year**

| Project Details                             | Estimated Cost (Rs. In Crore) | Cumulative Expenditure upto December 2024 (Rs. In Crore) | Contemplated irrigation Potential (In Hectare) | Cumulative Potential created upto December 2024 (In Hectare) | Present Status                                                                                                                                                |
|---------------------------------------------|-------------------------------|----------------------------------------------------------|------------------------------------------------|--------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Sri. Venkateshwara Lift Irrigation Scheme   | 151.22                        | 113.72                                                   | 7,200 Ha.                                      | -                                                            | Project work almost nearing completion                                                                                                                        |
| Kempwad Basaveshwara Lift Irrigation Scheme | 1287.36                       | 1103.66                                                  | 27,462 Ha.                                     | 2,485 Ha.                                                    | Head work completed and Canal network in progress.                                                                                                            |
| Mundgod Tank Filling Scheme                 | 289.10 + 225.00 = 514.10      | 397.80                                                   | 129 + 84.00 = 213 Tanks                        |                                                              | Mundgod 84 Tank Filling Scheme almost completed and water filled up to tanks on trial basis. Further, Mundgod 129 Tanks Filling project work is 60% completed |

| Project Details                 | Estimated Cost (Rs. In Crore) | Cumulative Expenditure upto December 2024 (Rs. In Crore) | Contemplated irrigation Potential (In Hectare) | Cumulative Potential created upto December 2024 (In Hectare) | Present Status                                             |
|---------------------------------|-------------------------------|----------------------------------------------------------|------------------------------------------------|--------------------------------------------------------------|------------------------------------------------------------|

| <b>Total</b>                    |                               | <b>2421.36</b>                                           | <b>2059.76</b>                                 |                                                              |                                                            |

#### 7.2.14 Financial and Physical Progress under KNNL during 2024-25

During 2024-25 FY Budget allocated is Rs.4830.95 Crore. Expenditure incurred upto end of December 2024 is Rs.2,775.86 Crore. During current year it is planned for creation of 25,000 Hectare irrigation Potential. To end of December Irrigation Potential of 697 Hectare is achieved.

#### 7.2.15 Visvesvaraya Jala Nigam Limited (VJNL)

Government of Karnataka vide its Order Dtd:20.08.2016 has accorded approval for creation of new corporation namely M/s Visvesvaraya Jala Nigam Limited, Bengaluru, formed under Companies Act 1956 as a wholly owned Govt. of Karnataka undertaking under Water Resources Department. Accordingly, VJNL has been registered under Companies Act 2013 on 20.10.2016.

The Government has also transferred the projects namely Upper Bhadra Project, Yettinahole Project, Gayathri and Vani Vilasa Sagar Projects and its related offices along with officers/staff to VJNL.

#### 7.2.16 Implementation of Flagship Projects under VJNL

##### (a) Upper Bhadra Project

Upper Bhadra Project envisage providing irrigation for 2,25,515 Hectares (5,57,022 Acres) of land in drought-prone areas of Chitradurga, Chikkamagaluru, Davanagere, and Tumakuru districts of Central Karnataka through a Micro-Irrigation system and to fill 367 tanks in these districts to their 50% capacity.

Govt. of Karnataka has accorded the administrative approval to the Re-revised DPR of the Bhadra Upper Project amounting to Rs. 21,473.67 Crore.

The Project in the first stage involve lifting of water from the Tunga River to the Bhadra Reservoir (Package 1) and is in progress. Further, the works involving the lifting of water from the Bhadra Reservoir to the Ajjampur Tunnel (Package-2) and the construction of the Ajjampur Tunnel (Package-3) have been physically completed and water has been released into the Vani Vilasa Sagar Reservoir since the year 2019–20.

Under Stage 2 of the Project works under Tarikere Lift Scheme, Chitradurga Branch Canal, Tumakuru Branch Canal works are in various stage of progress. Further, the Micro-irrigation works taken up under Chitradurga, Tumakuru and Jagalur Branch are also in various stages of progress. Tank filling works in Hosadurga, Holalkere, Jagaluru, Challakere, Molakalmuru and Pavagada taluks under Chitradurga Branch Canal and Sira, Hiriya & Chikkanayakanahalli taluks under Tumakuru Branch Canal are in various stages of progress.

The Central Government in the Budget Speech of 2023-24, announced a grant of Rs.5,300.00 Crore for the Upper Bhadra Project. Govt. of Karnataka has requested Govt. of India for early release of grants to UBP under the PMKSY-AIBP Scheme.

Financial progress achieved for Upper Bhadra Project since its inception till December 2024 is Rs.10,121.75 Crore.

### (b) Yettinahole Drinking Water Project

To mitigate the problem of acute drinking water in drought prone areas especially in Chikkaballapur, Kolar Districts and other needy areas of Hassan, Chitradurga, Tumakuru, Ramanagar and Bengaluru Rural Districts, the Govt. of Karnataka has accorded administrative approval to re-revised DPR of Yettinahole Drinking Water Project amounting to Rs.23,251.66 Crore vide G.O. Dtd:10.01.2023 for diverting 24.01 TMC of water to cater the drinking water needs and filling up of 527 MI Tanks to its 50% capacity for ground water recharge.

Under Stage-I of the project lift component works taken up in 7 packages were completed (except power line work in weir-3) and scheme is inaugurated by the Hon'ble Chief Minister and Hon'ble Deputy Minister on 06.09.2024. 79.50 Cumecs of water has been lifted and from Escape at 32.50 Km of Gravity Canal water has been temporarily let out through Veda valley to Vani Vilasa Sagar.

Stage II of the project consists of the construction of 261.69 Km of a Gravity Canal, out of which works in 252.61 Km has been taken up and 174.78 Km of the work is completed. 25.69 Km Gravity Canal construction is in progress.

The construction works have been taken up for T.G. Halli–Ramanagara, Madhugiri & Gauribidanur off-taking from canal before the balancing reservoir and so far 231.73 Km of pipeline work is completed out of 256.81 Km and the remaining works are in various stages of progress.

Further, as per the revised project report, after the Lakkenahalli Balancing Reservoir, the lift work to Delivery Chamber-5 and after DC-5, the gravity pipeline work up to Km. 36.965 is in progress to supply water to Kolar, Chikkaballapur and Bengaluru Rural districts after the Lakkenahalli balancing reservoir. The work of the Kolar and Srinivasapura feeder branching from 36.965 Km. has been contracted and is yet to be started. Presently, the land acquisition process is in progress.

Financial progress achieved since inception of the project till December 2024 is Rs.16,612.66 Crore.

### 7.2.17 Physical & Financial Progress under VJNL

Expenditure incurred and Irrigation Potential created under Major Irrigation Projects by VJNL is given in the **Table 7.26**.

**Table 7.26: Estimated Cost, Expenditure incurred and Irrigation Potential created on major projects by VJNL**

| Name of the Project               | Financial (Rs. In Crore) |                                           | Potential (In Hectare)                  |                                      |
|-----------------------------------|--------------------------|-------------------------------------------|-----------------------------------------|--------------------------------------|

### 7.2.18 Cauvery Neeravari Nigam Limited (CNNL)

The Cauvery Neeravari Nigam Limited (CNNL) was established by the Government of Karnataka on 03.06.2003 under Companies Act 1956 to accelerate the implementation of Cauvery Basin Projects in Karnataka.

The Cauvery basin in Karnataka is 34,273 Sq. Kms which constitutes about 17.99 % of the geographical area of 1,91,791 Sq. Km in Karnataka. Major Rivers flowing in this basin are Harangi (50 KM), Hemavathy (245 KM), Lakshmanatheertha (131 KM), Kabini (230 KM), Shimsha (221 KM), Suvarnavathi (88 KM), Arkavathy (161 KM) and the main river Cauvery (381 KM). The Cauvery Basin is spread across 11 districts.

### 7.2.19 Progress of Projects under CNNL

There are totally 29 potential oriented schemes taken up under the jurisdiction of CNNL, out of which 4 are Major Projects, 18 are Medium irrigation Projects and 7 allied LIS which are completed. Presently, the works under Yagachi Project and Kachenahalli Lift Irrigation Schemes are in progress.

#### (a) Yagachi Project

The project envisages the construction of a composite Dam across Yagachi River a tributary of Hemavathy near Chikkabyadagere village in Belur taluk of Hassan district.

The planned utilisation under the project is 5.74 TMC to create an ultimate irrigation potential of 15,575 Hectare including Kyathanahalli LIS. The taluk benefitted by this project are Hassan, Belur and Alur of Hassan District.

Kyathanahalli LIS is a part of Yagachi Project and is completed. Kamasamudra Branch Canal under Yagachi Project is under progress. The irrigation potential created under Yagachi project (including Kyathanahalli LIS) since inception to the end of December 2024 is 10,148 Ha.

#### (b) Kachenahally LIS

The project envisages to lift 0.73 TMC of water in 3 Stages from Hemavathy River near Kachenahalli Village in Channarayapatna taluk of Hassan District. The ultimate potential to be created is 5,100 Hectare. 1st Stage works are completed. In The 2nd Stage Main Canal is completed and Distributary Network are under progress. Irrigation potential created under Kachenahally since inception to the end of December 2024 is 2,428 Ha.

#### (c) Modernisation of Anicut Canals

Under the jurisdiction of CNNL, it is proposed to take up modernisation of anicut canals under 23 Anicuts. Accordingly, 29 Anicut Canals/ Branch Canal modernization are taken up in phases with the total estimated cost of Rs.2,133.29 Crore. Among these, 25 works are completed. Three works is under progress. The cumulative expenditure incurred up to end of December-2024 is Rs.2,301.54 Crore.

**(d) Improvements of Canal System**

Total 52 modernization works at a cost of Rs.6,486.00 Crore have been taken up in CNNL out of which 31 works are completed, 16 works are under progress and Tender in under process for 5 works. Cumulative expenditure incurred up to end of December, 2024 is Rs.6,095.00 Crore.

**(e) Drinking Water Supply schemes (Tank Filling Schemes)**

To alleviate the severe drinking water problems in the drought prone areas, 81 drinking water schemes at an estimated cost of Rs.5,290.38 Crore has been taken up under the jurisdiction of CNNL.

It is proposed to fill 1,820 Tanks (81 Schemes) coming under Mysuru, Mandya, Kodagu, Tumakuru, Hassan, & Ramanagara, Chamarajanagara district. 41 Tank Filling Schemes are completed & commissioned. 39 Tank Filling Schemes are under progress. Tender is under process for 1 Scheme. Cumulative expenditure incurred up to end of December, 2024 is Rs.3,650.43 Crore.

**7.2.20 Physical & Financial Progress under CNNL for FY 2024-25**

Total grant of Rs.3105.01 Crore has been allocated for the year 2024-25. Expenditure incurred upto end of December, 2024 is Rs.1869.53 Crore. It is programmed to create a physical potential of 1,494 Ha in the current year.

**7.2.21 Externally Aided Projects (EAP) under Water Resource Department****(a) Implementation of National Hydrology Project**

National Hydrology Project (NHP) is taken up in the State with World Bank Assistance (100% Central funded). The project is proposed for implementation over a period of 8 years (2016-24). Total Project Cost is Rs.110.00 Crore. The implementation of the project is effective from May 2017. The project implementation extend upto March 2025.

The National Hydrology Project (NHP) aims at Establishment/modernization of new & existing hydro met observation networks to automated, real time monitoring systems for both surface water and ground water. Under this project, the works of establishment of Telemetric rain gauge stations, Automatic weather stations, Digital Water Level Recorder, Hydrological observations stations are being taken up. Also, the works of SCADA for reservoirs & Bathymetric Survey for reservoirs are being carried out.

The Annual Work Plan for 2024-25 approved for Rs.29.03 Crore by MoWR and expenditure incurred upto December 2024 is Rs.12.71 crore. The total grant released from Central Government since inception of the project is Rs.47.74 Crore against which the cumulative expenditure incurred is Rs.45.48 Crore.

**(b) Dam Rehabilitation & Improvement Project (DRIP)****(i) DRIP Phase-I**

Karnataka State ranks 5<sup>th</sup> Place in the Country with 231 number of Dams. Karnataka State was included in DRIP-I as 5<sup>th</sup> State during 2014 at Total Cost of Rs.483.32 Crore for Rehabilitation & Improvement of 178 Dams with World Bank Loan Aid of Rs.386.66 Crore.

Rehabilitation works of 22 Dams of the State were taken up with an allocation of Rs.541.00 Crore under World Bank Loan assisted Dam Rehabilitation & Improvement Project (DRIP). Out of 43 Packages of 22 Dams, the works of 42 Packages are completed. Remaining 1 package work (KRS Dam Package II) at cost of Rs.58.46 Crore is under progress.

## (ii) DRIP Phase-II & Phase-III

Govt. of Karnataka has accorded approval for the Implementation of Dam Rehabilitation & Improvement Project (DRIP) Phase-II and Phase-III for 58 Dams (41 New Dams & Additional Works in 17 Dams already taken up under DRIP-I), to be implemented with Loan Assistance from the World Bank at a total cost of Rs.1,500.00 Crore (with Central Share of loan of Rs.1050.00 Crore-70 % & State Share of Rs. 450.00 Crore-30 %) vide G.O. Dtd:06.07.2021. The duration of project is 10 years for its implementation in two phases.

No Objection letter from CWC/World Bank has been received for Project Screening Templates (PSTs) of 08 Dams (Gayathri, Tungabhadra, KRS, Narayanpur, Almatti, Taraka, Votehole & Hemavathy). The 15 package works (including 2 works of DRIP-I) of these 8 dams amounting to Rs.314.23 Crore are awarded on tender basis and are under progress. For 5 package works tenders being invited.

Estimated proposals for 14 Dams including Yagachi, Suvarnavathi, Teetha, Thonnur, Hidkal, Muthurayanakere, Mangala, Vani Vilas Sagar, Nugu, Uduthorehalla, Gundal, Bhadra, Karanja and K. Honnamachanahalli have been submitted to the Central Water Commission and are under review.

Karnataka State has established “Dam Safety Organisation” (DSO) in January 2022 in accordance with the Dam Safety Act-2021.

Financial Progress of Rs.154.93 Crore was achieved up to March 2024 and Re-imbursement of Rs.108.35 Crore (70 % of loan component) has been received from World Bank. During the Financial year 2024-25 upto end of December, 2024 expenditure incurred is Rs.61.94 Crore. Thus, cumulative expenditure incurred for DRIP Phase-II is Rs.216.87 Crore.

## (c) Pradhan Mantri Krishi Sinchayi Yojana-Accelerated Irrigation Benefit Programme (PMKSY-AIBP) including CADWM

Govt. of India in 2015 has prioritized 99 projects under AIBP of PMKSY scheme for central assistance. Under PMKSY-AIBP Five Projects of Karnataka namely, Upper Tunga Project, Sri Rameshwar LIS, Bhima LIS, Karanja Project & Modernisation of Narayanpur Left Banal Canal System (NLBC-ERM) Projects are included.

For the 5 PMKSY-AIBP Projects of the State total Central Assistance received from 2015-16 is Rs.1,190.05 Crore. Except Upper Tunga Project the other 4 Projects of the State under PMKSY-AIBP are completed.

Further, under PMKSY-CADWM of Upper Tunga Project, Sri Rameshwar LIS, Bhima LIS and Karanja Project total Central Assistance received so far is Rs.78.26 Crore. Sri. Rameshwara LIS and Bhima LIS CADWM components are completed.

Among the 22 new projects proposed by the Central Government under PMKSY-AIBP for the period 2021-26, steps are being taken from the Karnataka State Government to submit DPRs for Sonthi Lift Irrigation Project and Extension of Upper Krishna Project Phase-1 & 2.

## 7.2.22 New Policies Under Water Resources Department

### (a) State Water Policy

The State of Karnataka has brought in “State Water Policy, 2022” in August-2022. The policy is framed to address the new challenges and to make it more comprehensively Integrated Water Resource Management (IWRM) oriented in order to address the growing inter-sectoral demands of water and ensure water, food and economic security of the State.

A 'High Level Water Policy Committee' under the Chairmanship of Chief Secretary to Government and an 'Inter-Departmental State Water Resources Authority' under the Chairmanship of Hon'ble Minister for Water Resources were constituted.

The High Level Water Policy Committee has conducted 2 meetings on 15.02.2023 and 06.11.2023 under the Chairmanship of Chief Secretary wherein the role and responsibilities of the stakeholder Departments have been framed and directed to submit their action plans.

### **(b) Operation & Maintenance Policy for Lift Irrigation Schemes under Water Resources Department**

The significance of the Lift Irrigation Schemes has increased in the State over last few years, towards supply of water for Irrigation and Tank filling Schemes.

The State Water Resources Department has come up with a comprehensive Operation & Maintenance (O&M) Policy in November 2022 with Guidelines for effective O&M of Pump Houses of the LI Schemes.

The objective of the O&M Policy is to assess the existing system and suggest ways for improving the operational efficiency of the system.

O&M Policy primarily focus on the following areas:

- Water usage and pumping efficiencies
- Power quality improvement involving Power factor management, transformer loading, power quality tests, lighting load, electrical metering and various other auxiliaries installed in the premises.

The Standard Bid Document for tendering the O & M of LI Schemes is also finalised.

### **7.2.23 Achievements of the Department**

**Financial and Physical Progress of the Department:** A total grant of Rs.16,834.66 crore has been provided to the Water Resources Department (Major and Medium Irrigation) in the Budget 2024-25. By the end of December 2024, a financial progress of Rs.9894.49 crore has been achieved and 35,025 Acres (14174 Hectare) of irrigation potential has been created.

**Yettinahole Integrated Drinking Water Project:** The Yettinahole Integrated Drinking Water Project is an ambitious project of the State Government. The government has resolved various obstacles to the work that started in 2013-14. Currently, the lifting works and power supply works of the First Phase of the Yettinahole Project have been completed (except for the power works of Weir-3) and were inaugurated by the Hon'ble Chief Minister and Hon'ble Deputy Chief Minister on 06.09.2024. Water is temporarily released from the escape located at 32.50 Km of the gravity canal through Veda Valley to the Vani Vilas Sagar Dam.

**Installation of Spillway gate No.19 of Tungabhadra Reservoir:** Due to an unexpected emergency situation at the beginning of the monsoon season, Spillway gate No.19 of Tungabhadra Reservoir was washed away due to mechanical failure on 10.08.2024. To temporarily stop the outflow of water from the reservoir, a new stop log gate was fabricated and successfully installed on 17.08.2024. The outflow of water from Tungabhadra Reservoir to the river has been successfully stopped. Since then, the due to expected inflows to the reservoir, currently, there is good water storage in the reservoir.

**Karnataka Irrigation (Amendment) Bill, 2024:** The Karnataka Irrigation (Amendment) Bill, 2024, as a reform measure in the management of irrigation which is the ultimate function of the Water Resources Department and has been officially notified in the Karnataka Gazette on 16.08.2024. The said amendment bill contains

amendments to prevent illegal laying of water pipes to the Canal networks in the catchment area of irrigation projects and accordingly ensure that water reaches the tail end beneficiaries.

**Budget Announcement for the Year 2024-25:** In the Budget Announcement for the Year 2024-25, 6 new projects have been announced for the Water Resources Department, out of which the Govt. Orders have been issued for the following 5 projects / schemes.

- (i) Project to upgrade the Brindavan Park of the prestigious Krishnarajasagar Dam into a world-class tourism attraction in Public-Private Partnership.
- (ii) Upgradation of Water and Land Management Institute (WALMI) in Dharwad as a Centre of Excellence in Water Management in the current year.
- (iii) Undertaking of Projects to establish suitable solar parks on the land owned by the Water Resources Department and in the backwaters of reservoirs on the model of Pavagad Solar Park in Public-Private Partnership.
- (iv) Project under the State Disaster Mitigation Fund (SDMF) to construct a protection wall for flood-affected villages from Bennehalla in Dharwad district.
- (v) To connect the Mantralaya, construction of a Bridge-cum-Barrage by the Public Works Department at a cost of Rs. 158 Crore near Chikkamanchali village in Raichur.

#### Other Major Achievements during current year

- The Budihal-Pirapur Project Lift Irrigation Project, which provides irrigation facilities to about 20,243 Hectare of Command area under Devarahippuragi constituency (Muddebihal and Sindagi taluk) of Vijayapura district by lifting water from the backwater of Narayanpur reservoir through a pipeline, has been completed and water has been let out on an trail basis.
- The project to fill 35 Tanks in Yadgiri district by lifting water from the Bhima river has been completed and water has been let out on trail basis.
- The project to provide irrigation facilities to the affected Command Area (Suffering Atchkat) of the Thimmapur Lift Irrigation Project has been inaugurated on 30.12.2023.
- The project to fill water from Gugal Bridge-cum-Barrage to Ganekal Balancing Reservoir has been inaugurated on 14.03.2024.
- The project to fill water from the Cauvery River near Muttinamulusoge village in Periyapatna taluk to 150 Tanks in 79 villages was inaugurated on 24.01.2024.
- The foundation stone for the commencement of Kottalagi Ammajeshwari Lift Irrigation Project laid on 06.03.2024.

#### 7.2.24 Challenges of the Department

- The progress of the projects is hampered due to the delay caused in the land acquisition process and in some cases the obstacles caused by the resistance of the farmers.
- The total balance cost of projects being implemented under the department is about Rs.1.00 lakh crore. The annual grant provided to the department is subject to a limit, which is a reason for the slow progress of projects.
- Due to delay / non-release of Central Assistance from Govt. of India for the ongoing projects undertaken for implementation under CSS, has led to the slow progress of the projects.

- Due to non-regular payment of water dues by the beneficiary farmers as prescribed in Govt. Orders for WRD/ Nigamas, collection of water dues is lagging behind.
- Due to pending cases in Tribunals/Hon'ble Supreme Court, related to many Inter-State Water Disputes, implementation of the projects is being delayed.

### 7.2.25 Way Forward

- (i) **Adoption of Supervisory Control and Data Acquisition (SCADA) Based Automation & GIS Technology under Irrigation Projects for improvement of Water Use Efficiency (WUE):** The implementation of new technology i.e., Supervisory Control and Data Acquisition (SCADA) Based Automation & GIS under irrigation system will facilitate proper water management through equitable distribution of water and ensure water reaching tail end farmers. Ultimately there will be improvement in Water User Efficiency. Already, the SCADA Based Automation has been successfully implemented under Modernisation of Narayanpur Left Bank Canal System (NLBC-ERM) of UKP which is first of its kind in the State of Karnataka.

It is proposed for adoption of SCADA System under all major irrigation projects in the State in phased manner for ensuring improvement of Water User Efficiency.

- (ii) **Implementation of Kalasa and Bandura Nala Diversion Projects under Mahadayi Basin :** The Mahadayi Water Disputes Tribunal has given its verdict on 14.08.2018, allocating a total of 13.42 TMC of water to the State of Karnataka, out of which 1.78 TMC and 2.18 TMC of water have been allocated to Kalasa Nala and Bandura Nala Diversion Projects respectively, which are planned to divert water from the Mahadayi River Valley to the Malaprabha River Valley.

Already, the Central Water Commission (CWC) has approved the Detailed Project Reports of Kalasa and Bandura Nala Diversion (Lift Project) Projects on 29.12.2022. Proposals for acquisition of Forest Land of 26.925 Hectare and 28.4427 Hectare respectively for Kalasa Nala and Bandura Nala Diversion Projects have already been uploaded on the Parivesh Portal of MOEF & CC and necessary clearance from the Central Govt. are awaited. In addition, Wildlife clearance of 10.685 Hectare is required for Kalasa Nala Diversion Project and a proposal has been submitted to the National Board for Wildlife (NBWL) of the Central Govt. for approval.

The project works will be started after obtaining necessary Forest and Wildlife clearance/approval from the Central Government for the projects.

- (iii) **Priority for safety of Major Reservoirs of the State (including Gates):** The Repair and Rehabilitation of all major reservoirs of the State including maintenance of gates, will be inspected by the newly constituted Dam Safety Review Panel (DSRP) as per the Government order dated: 16.08.2024 and priority measures will be taken for the safety of the dams.

### 7.2.26 Minor Irrigation (Surface water)

Projects having atchkat up to 2,000 Ha. are classified as Minor Irrigation schemes. Projects having atchkat between 40 Ha to 2,000 Ha are under the jurisdiction of the Minor Irrigation Department. These include tanks, pickup, Bhandaras, Barrages and Lift Irrigation Schemes. These Minor Irrigation projects are widely spread all over the state. Presently, there are 11,252 minor irrigation projects in existence under the jurisdiction of this Department with a cultivable command area of 8,90,843 hectares. In addition to these projects, this Department is looking after the operation and maintenance of 7 Medium Irrigation projects having a command area of 8,342 hectares.

Minor Irrigation Department is having 3,239 Irrigation tanks and 534 Percolation tanks. These tanks are being inspected twice in a year by the concerned Executive Engineers and Assistant Executive Engineer. The defects

noticed during inspection will be recorded in the inspection report. Necessary repair works will be taken up from the grants made available during the year on priority. The minor irrigation scheme progress from the year 2020-21 to 2024-25 (Upto end of the December 2024) is provided in the **Table 7.27**.

**Table 7.27: Statement showing progress under Minor Irrigation (Surface water) Schemes**

| Year                                  | Expenditure (Rs.in Crore) | Potential created (in Ha). |
|---------------------------------------|---------------------------|----------------------------|
| 2020-21                               | 2,782.77                  | 33,138.05                  |
| 2021-22                               | 2,746.02                  | 23,388.42                  |
| 2022-23                               | 3,239.31                  | 18403.72                   |
| 2023-24                               | 2155.60                   | 17723.61                   |
| 2024-25<br>(Upto the end Of Dec 2024) | 1559.61                   | 5847.06                    |

### 7.2.27 State Schemes

**Construction of new tanks:** Under this head of account, new tanks are constructed and water is being stored during rainy season to supplement the deficit of water to the crops during non rainy period or scarce rainfall period. Earthen bunds are constructed across the rivers, streams etc and the water is being stored during rainy season which will be utilized for irrigation during deficit rainfall period. The Minor Irrigation Department is involved in proper distribution of stored water to the fields for irrigation by gravity flow. Construction of new tank is being carried out from state fund and also from NABARD loan assistance. Construction of the Percolation tanks are also being done under this head of account which are mainly intended to recharge the Ground Water table and help in raising the water level in the bore wells and open wells in the surrounding area which will be used for irrigation.

**Modernization of tank:** Under this head of account, Department is taking up modernization of tanks under which the works such as strengthening of bund, repair of waste weirs, canals including lining of canals are being taken up.

**Construction of Barrage, Anicut, Etc.** Under this head of account, Department is taking up the construction of barrages, bridge cum barrages, vented dams, salt water exclusion dams, anecut and pick ups across rivers and streams to store water. Permission is being given to the farmers to lift water from these storage structures for irrigation by using their own pumps. As a result, there will be increase in ground water table in the surrounding area and water will be available in the open wells and bore wells. Thereby, farmers will get water for irrigation and also drinking purposes.

**Lift Irrigation Schemes:** Under this head of account, Department is implementing the lift irrigation schemes to lift water from the rivers, streams, and other surface water sources to an elevated area and to provide irrigation to the farmers lands.

Apart from this water is lifted and pumped to tanks under tank filling schemes. Also, the secondary treated water of Bengaluru City is pumped to tanks in Bengaluru Rural, Bengaluru urban, Ramanagar, Kolar, Chikkaballapur and Tumakuru Districts under Tank filling Schemes.

**Special Component Sub Plan -** Under this head of account, department has taken up MI Schemes such as construction of new tanks, anecut / pickup bhandars, modernization of tanks and lift irrigation schemes etc., to create irrigation facility to the lands belonging to scheduled caste beneficiaries.

An expenditure of Rs.179.02 Crore is incurred against the grant of Rs 224.67 Crore during 2024-25 (End of December 2024). Irrigation facility of 309.55 Ha is created against the target of 619.66 Ha. during 2024-25 (End of December 2024). These schemes are being handed over to respective beneficiaries after construction.

**Tribal Sub Plan:** Under this head of account department has taken up MI schemes such as construction of new tanks, anicut / pickup bhandars, modernization of tanks and lift irrigation schemes etc., to create irrigation facility to the lands belonging to scheduled tribe beneficiaries.

An expenditure of Rs.41.70 Crore is incurred against the grant of Rs.73.77 Crore during 2024-25 (End of December 2024). Irrigation facility of 155.39 Ha is created against the target of 709.83 Ha. 2023-24 (End of December 2024). These schemes are being handed over to respective beneficiaries after construction.

**Pashchima Vahini:** Vented dams are constructed under “PaschimaVahini” project to collect and store water flowing in west-flowing rivers of coastal districts. A total of 280 works have been approved under the scheme, with an estimated cost of Rs.104.36 crore. An expenditure of Rs.83.27 crore is incurred against the grant of Rs.104.36 crore during 2024-25 (End of December 2024)

**Land Acquisition/charges & settlement of claims :** Under this head of account,an expenditure of Rs.52.34 crore is incurred against the grant of 52.34 crore during 2024-25 (End of December 2024). Mainly this grant has been utilized to make payments to land acquisition cases involving enhancement of land values including the interest as per the court orders.

**Accelerated Irrigation Benefit Programme (AIBP) Major works :** Government of India is giving approval for taking up of the new minor irrigation works involving the creation of fresh irrigation facility since 2009-10, in the Drought Prone Area Development Programme (DPAP) taluks under Accelerated Irrigation Benefit Programme (AIBP).

Minor irrigation department is implementing 1,273 minor irrigation works with an estimated cost of Rs.955.08 crore after obtaining approval to these works in 10 batches since 2009-10. So far 1,157 works are completed and the new irrigation facility is created in 10,255.00 Ha.

**State Schemes Flood Control Works:** The Minor Irrigation Department is implementing River bank protection works to prevent damages due to floods. The river banks are being protected by the construction of retaining wall to the river banks for the prevention of loss of lives and properties due to the erosion of the banks during the floods in rivers and streams.

**Karnataka Tank Conservation and Development Authority:** The Authority started functioning from December 2017. The functions of Karnataka Tank Conservation and Development Authority include Conservation of Lakes/Tanks, rejuvenation, Ground Water Development, Environmental Protection, Wet Land Development, Water Management, Agriculture and Horticulture Development, Development of Agriculture based Industries etc., either directly or through Departments/Agencies.

## 7.2.28 Atal Bhujal Yojana

Atal Bhujal Yojana is a community-led sustainable groundwater management program being implemented in 1,199 water stressed Gram Panchayats across 41 taluks of 14 districts. The central sector scheme (The Government of India (GoI) and World Bank) is being implemented over a period of five years (FY 2020-21 – FY 2024-25). The Financial Progress of the Atal Bhujal Yojana is given in the **Table 7.28**.

**Table 7.28 Financial Progress of the Atal Bhujal Yojana****(Rs.in Crore)**

| Component                                                 | Allocation | Releases | Expenditure |
|-----------------------------------------------------------|------------|----------|-------------|
| Institutional Strengthening and Capacity Building – IS&CB | 194.51     | 88.40    | 88.33       |
| Incentive Component                                       | 1007.01    | 731.11   | 631.76      |

### 7.2.29 Way Forward

Promote sustainable agri-practices by creating awareness of the existing schemes around subsidizing micro-irrigation (Per Drop More Crop, Micro-Irrigation Fund), preserving soil health (Paramparagat Krishi Vikas Yojana, Soil Health Card) and host of initiatives under National Mission for Sustainable Agriculture. Prioritize districts like Belagavi, Raichur, Vijayapura, Bagalkot which have high potential for micro irrigation.

A holistic approach including precision farming, protective cultivation, automation in irrigation, fertigation, use of treated waste water for irrigation and collective farming are some of the methods suggested to address major concern of water scarcity in the state. A marked shift from traditional method of irrigation to innovative micro irrigation system is the solution to conserve water and thus increase the availability of water for various other purposes. Adoption of poly houses, net houses, green houses will not only save water, energy and labour costs but also will increase crop productivity and quality of the produce. Converting more and more areas of canal based and tank based flood irrigated land into drip irrigation leading to substantial reduction in the usage of fresh water. These key measures are expected reduce water scarcity to a large extent in the state.

## 7.3 GEOLOGY AND MINING SECTOR

### Introduction

The Department of Mines and Geology is one of the leading scientific and technical departments of the State with a long history of 130 years. Major functional activities of the department include mineral exploration, assessment of mineral wealth, quality analysis, sanctioning of mining leases and quarrying leases through the minerals administration which also include collection of royalty and regulation of unauthorized mining activities. The contribution of the department is immense in sustainable development of the State by promoting environment friendly and scientific mining.

### 7.3.1 Revenue collection and operational expenditure of the department

The annual target of revenue collection for the Department of Mines and Geology in the year 2024-25 is Rs.9000.00 crores. The revenue target till December-2024 was Rs.6480.00 crores and the achieved revenue collection is Rs. 5404.88 crores. The details of revenue collections from 2020-21 to 2024-25 (up to December-2024) are provided in the **Table 7.29**.

**Table 7.29: Details of revenue target and achievement in the last five years****(Rs. in crores)**

| Year    | Annual Target | Achievement | Major Mineral | Minor Mineral |
|---------|---------------|-------------|---------------|---------------|
| 2020-21 | 3750.00       | 3893.44     | 1974.66       | 1918.78       |
| 2021-22 | 4357.00       | 6308.31     | 4243.58       | 2064.73       |
| 2022-23 | 6500.00       | 5945.77     | 3841.55       | 2104.22       |
| 2023-24 | 9000.00       | 7321.59     | 5317.61       | 2003.98       |

| Year                      | Annual Target                                           | Achievement | Major Mineral | Minor Mineral |
|---------------------------|---------------------------------------------------------|-------------|---------------|---------------|
| 2024-25<br>(up to Dec 24) | 9000.00<br>(Rs.6480.00 crores target<br>up to Dec-2024) | 5404.88     | 4230.18       | 1174.70       |

Royalty collection in the table is as per reconciled figures

Source: Demand-Collection-Balance Section, Department of Mines & Geology.

Further, the compounded annual growth rate of 15.07% has been achieved in the royalty collection over the last five years. Compared to the last 5 years, revenue collection of the Department of Mines & Geology with the plan and non-plan expenditure, the ratio is just 0.01 which is very negligible. The detailed information is provided along with graph and in the **Table 7.30**.

**Table 7.30: Details of the Department's royalty collection, plan & non-plan expenditure And their ratio over the past five years**  
(Rs. in lakhs)

| Year      | Royalty   | Expenditure | Royalty and expenditure ratio |
|-----------|-----------|-------------|-------------------------------|
| 2019-2020 | 362902.00 | 7840.78     | 0.02                          |
| 2020-2021 | 389344.00 | 6905.56     | 0.02                          |
| 2021-2022 | 630831.00 | 6618.25     | 0.01                          |
| 2022-2023 | 594577.00 | 6541.14     | 0.01                          |
| 2023-2024 | 732159.00 | 7399.46     | 0.01                          |

**Figure 7.5: Royalty collection, expenditure and their ratio of the department for the past five years**

### 7.3.2 Major Achievements of the department

- To supervise all mineral transportation vehicles movement from the centralised tracking platform of Department of Mines & Geology and to regulate illegal mineral transportation One State One GPS application has been introduced. Presently 56,500 vehicles have been registered is one state one GPS using this application Rs. 6.40 crores fine has been collected from the rules violating vehicles.
- Karnataka State Remote Sensing Application Center has been awarded to carry out drone/DGPS survey in the quarry leased areas in all the districts of the state to freeze the existing ground level (Reduced Level). At present drone/DGPS survey work has been completed in 24 districts and survey work is in progress in the 07 districts.
- In compliance with the budget announcement for the year 2024-25, as per new Sand Policy 2020 Provision has been made for allotment of some sand blocks for sand mining from government organizations through e-tendering for supply of sand at fixed rates to public and government works. Accordingly Uniform sand rate of Rs.850/- per ton has been fixed and guidelines and tender documents have been issued.
- Action have been taken to implement new ILMS with modern technology and innovative facilities, stone crusher units weigh bridges are being integrated in ILMS software to prevent leakage of royalties.
- Under National Mineral Exploration Trust (NMET) approved projects, mineral exploration wing of the Department has completed and submitted a report on G3 level of Limestone mineral exploration in an area of 10.6 Sq.Km in Itaga Village of Chittapur Taluk, Kalaburagi District, Similarly, G3 stage of Gold mineral exploration project is in progress in an area of 25 sq km in Sirigere village of Siraguppa taluk of Ballari district.

### 7.3.3 Major Mineral Administration

Since the Inception of Mines and Minerals (Development and Regulation) Amendment Act, 2015 by Central Government, grant of mining leases through first come first serve basis had been replaced with transparent e-auction process, leading to an increased flow of revenue generation to the state exchequer. Further, a comparison between the revenue collection from the auctioned Iron ore mining leases and non-auctioned mining leases shown in the **Table 7.31** illustrates the economic impact after adopting new regime of granting the mining leases through e-auction.

**Table 7.31: Royalty collection from mining leases granted through auction And non-auction over the past four years**  
(Rs. in crores)

| Type of grant of mining lease and their number and present status                 | 2021-22        | 2022-23        | 2023-24        | 2024-25<br>(Till end of Dec 2024) |
|-----------------------------------------------------------------------------------|----------------|----------------|----------------|-----------------------------------|
| Non auction: Out of 225 mines 73 are working mines                                | 2275.21        | 2085.97        | 2467.66        | 2025.80                           |
| Auction: Out of 20 mines 13 are working mines                                     | 243.30         | 181.71         | 250.12         | 220.90                            |
| ** Percentage of value of Mineral Dispatched paid to government (auction premium) | 1725.07        | 1573.87        | 2599.83        | 1983.48                           |
| <b>Total</b>                                                                      | <b>4243.58</b> | <b>3841.55</b> | <b>5317.61</b> | <b>4230.18</b>                    |

**\*\* Percentage of value of mineral dispatched (auction premium) is equal to or above the reserve price and the successful bidder shall pay to the State Government, an amount equal to the product of percentage so quoted and value of mineral dispatched.**

A total of 98 iron ore & manganese mining leases have been sanctioned in the State over an extent of 7813.90 hectares, 116 limestone mining leases have been sanctioned over an extent of 15022.24 hectares and 31 other major minerals mining leases have been sanctioned over an extent of 7709.20 hectares.

### 7.3.4 Auction of Mineral blocks

Including the cancelled 'C' category mining leases as per order of Hon'ble Supreme Court, Expired mining leases and mining blocks received from Geological Survey of India (GSI), Totally 44 mineral blocks have been successfully auctioned from 2016-17 to 2024-25 (till December-24), among these 17 'C' category iron ore mines, 07 expired iron ore mines, 05 fresh Iron Ore blocks, 04 Gold blocks, 09 limestone blocks and 2 Bauxite blocks.

Out of these blocks, mining lease deeds has been executed for 20 blocks and Composite License deed has been executed for 5 blocks. For remaining 19 cases bidders are yet to comply with the statutory requirements for execution of lease deed.

**Table 7.32: Details of successfully auctioned blocks in the year 2023-24**

| Block Name                       | Extent (Ha) | Mineral                    | Resources (MMT) | VMD considered for VER (in Crores) | Auction Date | LoI holder                         | Final Price offer (in %) |
|----------------------------------|-------------|----------------------------|-----------------|------------------------------------|--------------|------------------------------------|--------------------------|

### 7.3.5 National Mineral Exploration Trust

As per the section 9(C) of Mines and Minerals (Development and Regulation) Amendment Act, 2015, all the major mineral lease holders are required to pay 2% of the royalty to the National Mineral Exploration Trust (NMET) constituted by the Government of India. This fund is managed by the Central Government and by utilizing these funds upon taking the concurrence of respective State DMG's and within the approval of NMET the agencies notified by the Central Government like GSI, MECL and KIOCL etc., and also through the concerned State Mines and Geology Departments, exploration activities of major minerals is being carried out.

During the period 2015-16 to 2024-25 (up to December 2024) an amount of Rs.33999.74 lakhs has been collected and transferred to the NMET account by the State Government. The details are given in the following **Table 7.37.**

### 7.3.6 Mineral Exploration programmes taken in the State under NMET fund

Mineral exploration is being carried out under the NMET fund through Exploration Agencies notified by the Central Government, Notified Private Exploration Agencies and State DMG by identifying mineral potential blocks in various districts of the state.

From the year 2016-17 to 2024-25 (till December-24), NMET has approved 34 mineral exploration projects out of these, 23 projects have been completed and 11 projects are in progress.

In the current year 2024-25, NMET has approved 04 exploration projects with an estimated cost of Rs.7.51 crores. Out of these, 03 projects have been taken by Notified Private Exploration agency (M/s Ecomen Laboratories Pvt. M/s Geo Marine Solution, M/s Mining Tech Consultancy Services Ltd) and 01 Project have been taken by Notified Exploration agency MECL, all exploration projects are in progress.

### 7.3.8 Minor Mineral Administration

724 specified minor mineral quarry leases (including ornamental granite) over an extent of 3254 acres and 3283 non-specified minor mineral quarry leases (excluding ordinary sand) over an extent of 12322 acres have been granted in the State of Karnataka. In this year, till December 2024, the department has granted/executed 126 non-specified and 37 specified minor mineral quarry leases.

As per Karnataka Minor Mineral Concession (Amendment) Rules, 2016, presently 43 sand blocks with an extent of 322.81 acres have been granted through tender cum auction, 17 sand blocks with an extent of 399.32 acres have been granted to Hutti gold company, and 142 sand blocks with an extent of 1136.62 acres have been granted in patta lands and 110 sand blocks available in the I, II & III order streams at Gram Panchayat level Sand mining is being carried out in the state.

### 7.3.9 Amendment Karnataka Minor Mineral Concession Rules, 1994

The Government of Karnataka has implemented the Karnataka Minor Mineral Concession (Amendment) Rules, 2023 on 17.03.2023, The salient features of the Amendments are as follows.

- Provision has been made to consider all the applications seeking grant of quarrying lease prior to 12-08-2016 and dispose of the same within two years after obtaining No Objection Certificates from the Revenue and Forest Departments.
- Provision has been made that all the quarry lease holders who have been granted Quarrying Lease areas in Government lands before and after 12-08-2016 shall pay royalty and an additional amount of 40% of royalty and also 10% of royalty towards District Mineral Foundation Fund.
- Provision has been made under Rule 31-ZC of Karnataka Minor Mineral Concession (Amendment) Rules, 2016 for the grant of Quarrying Lease (for a period of one year) by continuing to receive applications from the persons who have established/will establish M-Sand Unit through non auction.
- Provision has been made to grant quarrying leases for a period of 50 Years in case of Specified minor minerals and 30 years in case of non-specified minor minerals.
- Rules have been framed for Registration of Mineral Based Industry.
- Provision has been made to grant Quarrying Leases without auction to the Schedule Caste, Schedule Tribes and for the persons who are solely dependent on quarrying for their livelihood by considering the persons/organizations from the above category at Taluk level.
- Provision has been made to grant quarrying leases at a safer distance of 50 meters from the public structures like road, school, temple, railway line, residential areas etc. for quarrying without blasting and 100 meters safe distance for quarrying using control blasting techniques and 200 meters safe distance in cases where quarrying is being conducted by using blasting.

- Provision has been made to scientifically conduct Drone Survey of the Quarrying lease areas by KRSAC and to prepare Detailed Surface Plan of the leased/applied area and to freeze the present ground level by recording Reference Level/Reduced Level.
- Rules have been framed to rectify once for all the displaced sketch of the minor mineral quarrying lease area.
- Rules have been framed to grant Quarrying License for specified and non-specified minor minerals in Patta Land by the Jurisdiction Deputy Director or Senior Geologists after obtaining approval from the District Taskforce (Mines) Committee.
- Rules have been framed for exemption of submitting the performance guarantee deposit / bank guarantee while granting quarrying license in Patta Lands.
- Rules have been framed for exemption of additional payment while granting quarrying license in Patta Lands.
- Rules have been framed to grant license for quarrying of sand in Patta Lands at a distance of 50 meters from the river bank or 10% of the width of the existing river, whichever is higher.
- Rules have been framed to dispose the Sand seized from the unauthorized sand quarrying for low income residential construction schemes and to distribute /dispose of the remaining sand to the public after obtaining the prescribed rate by the District Sand Committee.
- Rules have been framed to collect additional amount apart from royalty for disposal of sand dunes from the lease holders in the Coastal Regulation Zone.
- A minimum extent of 2-00 Acres has been prescribed for conducting Systematic and Scientific Quarrying activities of all minor minerals.
- Rules have been framed to transport minor minerals by remitting the prescribed royalty and other charges stored in the quarrying lease area within 6 months from the expiry of the lease period.
- Rules have been framed to reduce the rate of interest from 15% to 12%.
- Rules have been framed to grant deemed extension for the expired quarrying leases considered for re-registration after collecting penalty of Rs.2.00 lakh levied.

### 7.3.10 Implementation of New Sand Policy-2020

Towards ensuring the availability of sand to the common people at an affordable price, the Government has formulated the new Sand Policy -2020. In this respect, the Karnataka Minor Mineral Concession Rules, 1994 has been amended on 01.12.2021, and as per Karnataka Minor Mineral Concession (Amendment) Rules, 2021 amended rule has been initiated to implement. The details are as follows;

- A total of 374 sand blocks identified in the I, II & III order streams in the year 2024-25 upto end of December-2024, out of which 337 sand blocks have been notified and work order has been issued for extraction of sand in 336 sand blocks. 110 sand blocks are in operational.
- 80 sand blocks identified in higher order streams and river course out of which 43 sand blocks has been given to Hutti Gold Mine Limited (HGML) and 37 sand blocks has been given to Karnataka State Mineral Corporation Limited (KSMCL). So far, 22 sand blocks have received environmental clearance, Out of these 17 sand blocks are in operational and sand has been supplied to the public.
- Accordingly, in the state for the year 2024-25 up to the end of December, 43 sand blocks have been auctioned through tender cum auction as per Karnataka Minor Mineral Concession (Amendment) Rules 2016, 17 sand blocks have been granted to HGML to remove the sand available in the river bed as per new sand policy-2020, 110 sand blocks available in the I, II & III order streams at Gram Panchayat

level and issuing of 142 sand license in patta lands, altogether totally 21.44 lakh MT of sand have been removed and transported. Overall Rs.29.30 crores has been collected which includes Royalty, additional periodical payment, average additional periodical payment and District Mineral Foundation Fund.

- Further, as per Karnataka Minor Mineral Concession (Amendment) Rules, 2023 dated 17.03.2023, provision has been made for government organization to dispose certain available sand block through public e tender along with regular sand mining. Accordingly, the Government has issued guidelines and tender documents on Date: 03.12.2024.

To maintain the ecological balance and adverse effect on groundwater, Government has taken the measures to promote/increase the M-Sand production and utilization as an alternate to river sand. Presently, 809 Crusher M-sand units is being produced in the 31 districts of the state. By end of December-2024, 13.33 million MT of M-Sand has been produced against annual target of 30 million MT.

### 7.3.11 District Mineral Foundation Trust

Government of India has amended the MMDR Act w.e.f 12.01.2015 wherein under Section 9(B) a provision has been made to establish a trust called the “District Mineral Foundation” which is a non-profit body to formulate and implement programs for the development of the people living in the mine-affected area and supplemented by the guidelines of Pradhan Mantri Khanija Kshetra Kalyana Yojana issued on 16.09.2015.

The State Government vide G.O. dated 05.11.2015 notified the establishment of District Mineral Foundation (DMF) in each of the district of Karnataka. Further, the State Government, in exercise of the powers conferred by Section 15(4) of MMDR Act, framed the Rules of District Mineral Foundation (DMF) on 11.01.2016 under the guidelines of Pradhan Mantri Khanija Kshethra Kalyan Yojana (PMKKKY) and same has been amended on 25.07.2016, 08.03.2018 and 06.05.2020.

In respect of major mineral, Government of India vide Notification dated: 17.09.2015 has directed to collect the DMF from;

- (i) Mining lease granted after 12.01.2015, Collection of DMF amount at the rate of 10% on royalty.
- (ii) Collection of DMF amount for Mining lease granted on or before 12.01.2015 at the rate of 30% on royalty. As per order dated: 13.10.2017 passed by the Hon’ble Supreme Court in Transfer Case (Civil) No: 43/2016 FIMI v/s Union of India and others, collection of royalty as per the DMF rules with effect from dtd: 17.09.2015. Accordingly, DMF amount is being collected from the mining lease holders from 17.09.2015.

With respect to minor minerals as per the KMMC (amendment) Rules, 2016, which is applicable from 12.08.2016, 30% of royalty is collected as DMF from the quarry lease holders which were granted prior to 2016 and 10% of royalty is collected as DMF from the leases granted through auction for which the lessees are paying average additional periodic payments/additional periodic payments.

As per the Karnataka Minor Mineral Concession (Amendment) Rules, 2023, an amount equivalent to 10% of the royalty is being collected from minor mineral leases approved on government land, and an amount equivalent to 30% of the royalty is being collected from licenses approved for minor mineral mining on patta (private) land.

Table 7.40 : District wise DMF Approved Action Plan details from 2015-16 to 2024-25 (Upto December 2024)

(Rs.in Crores)

| District                                 | DMF Collection | 85 % Available Amount | Approved Action plan Amount | Amount Spent   | Total No. of Projects | No. of on going projects | No. of projects completed | No. of project yet to start | No. of projects scrapped/ cancelled |

### 7.3.12 Rule 18 of DMF Amendment Rules 2018

- 10% of the fund is earmarked for endowments purpose (as amended on 08.03.2018) after closure of mining activity in the affected areas.
- 5% of the funds from DMF is earmarked for administrative purpose, out of which 4% is to be utilized for the administrative purpose at the District level and remaining 1% is to be transferred to the Director, Mines and Geology Department for the maintenance of the State Level Monitoring and Evaluation Cell and to meet the administrative expenses.
- Remaining 85% shall be utilized for implementation of projects and schemes prescribed under Pradhan Mantri Khanija Kshethra Kalyan Yojana (PMKKKY) in the ratio of 60:40, for high priority areas and other priority areas, respectively.

The following are the high priority areas (60%) for utilization of funds:

- Drinking Water Supply
- Environment preservation and pollution control measures
- Health Care
- Education
- Welfare of Women and Children
- Welfare of old aged and differently abled persons
- Skill development
- Sanitation

The following are other priority areas (40%):

1. Physical infrastructures
2. Irrigation
3. Energy and Watersheds developments
4. Other measures for enhancing environmental quality in mining area

### 7.3.13 Combating Covid – 19

Government of India order dated:28.03.2020 and 25.08.2021, provision has been made for purchase of necessary medical equipment, medicine and oxygen machine and cylinder etc. to prevent the spread of Covid-19 . Accordingly, letter dated 28.03.2020 and 31.03.2021, 30% of the balance amount of DMF fund can be utilized for prevention of Covid-19.

Details of the schemes undertaken as per Pradhan Mantri Kshethra Kalyan Yojana Guidelines and Rule 18 (3) of DMF T 2016 are given in the **Table 7.42**.

**Table 7.42 : Details of schemes implemented under Pradhan Mantri Kshethra KalyanYojana from 2015-16 to 2024-25 (up to December-2024)**  
(Rs. in Crores)

| Details of projects under implementation                | Number of Projects | No. of projects completed | No. of ongoing projects | No. of project yet to start | No. of projects scrapped/ cancelled | Action Plan Approved Amount | Amount spent |
|---------------------------------------------------------|--------------------|---------------------------|-------------------------|-----------------------------|-------------------------------------|-----------------------------|--------------|
| Drinking water Supply                                   | 1694               | 781                       | 293                     | 288                         | 332                                 | 583.21                      | 165.57       |
| Environment preservation and pollution Control Measures | 276                | 82                        | 122                     | 23                          | 49                                  | 102.38                      | 58.67        |

### 7.3.14 Comprehensive Computerization of Mineral Administration

The mineral administration of the Department of Mines and Geology is computerized through the ILMS software. To track all mineral transport vehicles from the centralized tracking platform, government has given permission to develop the One State One GPS software. GPS based software “One State One GPS” system for tracking of all mineral transport vehicles from centralized tracking platform including mobile application. The vehicle registration process is going on, live tracking of vehicles equipped with GPS, information on vehicles that have one MDP and traveled several times, and fines are collected on vehicles that have not reached their destination. 56,500 vehicles have been registered till December 2024

Steps have been taken to integrate weigh bridges of stone crusher units in ILMS software to prevent leakage of royalties and to implement ILMS-2.0 with modern technology and innovative facilities.

The Integrated Lease Management System registration details for the year 2023-24 and 2024-25 up to December are as follows.

**Table 7.43: The ILMS Registration details of Major Mineral**

| Particulars                                    | 2023-24 | 2024-25<br>(Upto 5th December 2024) |
|------------------------------------------------|---------|-------------------------------------|
| Total no. of Leases                            | 11      | 7                                   |
| Total no. of Beneficiation plant               | 4       | 1                                   |
| Total no. of integrated Weighbridge            | 58      | 10                                  |
| Total no. of integrated weighbridge with RFID  | 64      | 17                                  |
| Total no. of buyers                            | 492     | 321                                 |
| The ILMS Registration details of Minor Mineral |         |                                     |
| Total no. of Leases                            | 1322    | 526                                 |
| Total no. of Crushers                          | 138     | 101                                 |

### 7.3.15 Ongoing schemes of the department

The following table shows the allocation, release, revised, re-appropriation and expenditure of the budget earmarked for the ongoing schemes in 2023-24 and 2024-25 (Upto December 2024) of the Department of Mines and Geology\*\* Percentage of value of mineral dispatched (auction premium) is equal to or above the reserve price and the successful bidder shall pay to the State Government, an amount equal to the product of percentage so quoted and value of mineral dispatched.

**Table 7.44: Details of the grant and expenditure of the on-going schemes of the department of Mines & Geology for the year 2023-24 and 2024-25** (Rs. In lakhs)

| Name of the Scheme & Head of Account                   | Budget allocation 2023-24 | Revised/re-appropriated Budget | Budget Released 2023-24 | Expenditure 2023-24 | Budget allocation 2024-25                                                                                                                                                  | Budget Released till December 2024-25 | Expenditure Up to end of Dec-2024 |

### 7.3.16 Challenges of the Department

- As per rule 8(5) of KMMCR-1994, it is mandated to get the No Objection Letter (NOC) from Revenue and Forest Department and Environmental Clearance from State Environmental Impact Assessment Authority (SEIAA) for grant of quarry lease in Government land within the stipulated time.
- Obtaining forest clearance within the stipulated time from the Forest Department for exploration of mineral blocks and also for the mining activities in auctioned mining lease blocks falling within forest area.

### 7.3.17 Way Forward

- Department is aiming to have full-fledged exploration wing with qualified Officers/ staff and have a NABL accredited Laboratory with modern instruments. Similarly, have plans for internal resource capacity

building in association with National and International Organizations and to take up technology driven mineral exploration.

- More Exploration programmes will be taken up with the help of Government and Private Exploration Agencies by best utilizing the National Mineral Exploration Trust Funds and efforts will be made to optimally utilize the mineral resource of our State.
- Latest Technologies like Filament, PHP, Laravel Framework, MySQL will be used to develop new ILMS 2.0 software with the help of Centre for Smart Governance. This will support seamless scaling with new modules and functionalities.
- Revenue leakage will be prevented by regularly carrying out Drone Survey of all minor mineral quarries in the State to scientifically estimate the Quantity of mineral consumed every year.

## 7.4 CLIMATE CHANGE AND MITIGATION MEASURES

### 7.4.1 Mainstreaming the Karnataka State Action Plan on Climate Change

To address the climate change impacts, Karnataka State Action Plan on Climate Change Version-2 (KSAPCC V.2) was prepared by Environmental Management and Policy Research Institute (EMPRI) according to the guidelines stipulated by the Ministry of Environment Forest and Climate Change (MoEF&CC) on “Common framework for revision of State Action Plan on Climate Change”. The KSAPCC V.2 has been approved by the National Steering Committee on Climate Change (NSCCC), MoEF&CC, Government of India, on 16.02.2024.

Policy briefs for ten major sectors viz., Agriculture, Forestry, Water, Livestock, Coastal & Fisheries, Energy, Health, Transport, Urban and Waste Management were prepared for stakeholder departments.

For implementing the action plan, pertaining to scheme/program’s objectives concerning the climate change adaptation and mitigation aspects the stakeholder departments have identified the key performance indicators (KPIs) with clear and measurable targets for the next five years, supported by robust baseline data.

In order to strengthen the monitoring strategies of Karnataka climate action, Centre for Environment Education (CEE) in partnership with Environmental Management & Policy Research Institute (EMPRI) and Hanns Seidel Stiftung (HSS), a German Foundation working in India, developed a training module, and conducted trainings/workshops.

#### KSAPCC Monitoring Dashboard (In progress)

A dashboard for monitoring the departmental KPIs was developed by EMPRI-CEE and was launched by the Hon’ble Minister for Forest Ecology and Environment.

### 7.4.2 Karnataka Voluntary disclosure of Green House Gas (GHG) emission Scheme

EMPRI has been sanctioned with the scheme on Karnataka Voluntary disclosure of GHG emission as per the GO no. FEE 203 EPC 2023 Dated: 16.09.2023. The objectives of the scheme are 1) To enable and encourage government and non-government agencies, including companies and other establishments and institutions, to estimate and declare carbon (GHG) emissions annually and report the total carbon footprint, 2) To enable companies to have voluntary targets for reducing GHG emissions through increased energy efficiency, shift to renewable sources of energy, recycling, and efficient resource use and 3) To create public awareness about GHG emissions and the need for reducing GHG emissions. The target agencies are hotels, malls, hospitals, industries, educational institutes, government departments etc. The expected outcome would be monitoring of emission reduction, higher energy efficiency, better environmental, social, and governance(ESG), decarbonisation of economy, higher SDG attainment, and energy-efficient economy.

### 7.4.3 Development of Green Index Portal for evaluation of Environmental compatibility of public spending

EMPRI has developed a green index portal (<https://greenindex.karnataka.gov.in>) to evaluate the departmental schemes/programs to promote the adoption of greening practices and to ensure environmental balances (GO No. FEE 202 EPC 2023 Dated: 16.09.2023). Based on the following six indicators, the schemes will be evaluated.

1. Energy Efficiency and Renewable Energy Systems
2. Water Conservation and Recycling
3. Waste Treatment/Processing and Recycling and Air Pollution Control Measures
4. Biodiversity Conservation
5. Carbon Dioxide (CO<sub>2</sub>) Emission Reduction or Carbon Sequestration
6. Adaptation to Disasters and Climate Change

#### Applications of Green Index

- Green Index would enable policy makers or government departments to minimize the damage to environment & promote conservation and sustainable use of resources.
- Enforce use of renewable resources, conservation of resources, minimization of pollution, treatment of wastes & implications of the program on the environment and sustainability.
- Meet climate change and Sustainable Developmental Goals.
- Facilitate enhanced financial allocations and rewards to green and environmental friendly programs and projects.

### 7.4.4 Karnataka State Climate Change Strategic Knowledge Portal

To disseminate knowledge on climate change, EMPRI has developed a portal [www.karccc.com](http://www.karccc.com) under DST Phase II project - Strengthening the State Climate Change Centre in the state of Karnataka sanctioned by Gol. Monthly newsletters on various environmental and climate change topics were prepared and uploaded.

### 7.4.5 Research Projects during 2024-25

1. Inventorisation of short-lived climate pollutants (SLCP) in Karnataka.
2. Emission Reduction and Energy economy by electric vehicle on Indian Roads- Driving cycle-based study
3. Urban Karnataka Sustainability Monitoring Project Phase I – Development of a framework and approach for sustainability monitoring report.
4. Cost-Effective and Sustainable Approach for Converting Plastic Waste into Carbon Dots: Lab-scale studies.
5. Sustainable green synthesis of TiO<sub>2</sub> nano catalyst for visible light driven degradation of primary microplastics: Lab to scale-up studies.

#### Way forward

Mainstreaming a State Action Plan on Climate Change across line departments requires the seamless integration of climate considerations into their day-to-day functions, policies, and practices. The first

crucial phase entails initiating capacity-building programs through targeted training initiatives for personnel spanning various hierarchies. This ensures a comprehensive understanding of climate change impacts and the significance of the State Action Plan. Subsequently, trained individuals within each department should be designated as climate focal points (nodal officers), providing ongoing focus and expertise specific to their respective departments. Thirdly, the process involves monitoring identified key performance indicators within each department to gauge the effectiveness of climate mainstreaming efforts. The fourth step emphasizes engaging stakeholders relevant to each department, ensuring their valuable perspectives are taken into account during climate mainstreaming initiatives. In order to build the capacity of stakeholders District level training programmes are planned in coordination with the District Science Centres/District Training Institutes. Lastly to disseminate information to the public about climate-resilient practices within each department, fostering awareness and understanding, a radio programme is planned through Prasara Bharathi (All India Radio).

## 7.5 KARNATAKA STATE NATURAL DISASTER MONITORING CENTRE

Karnataka is the first state to take the initiative to establish the Drought Monitoring Cell (DMC) in 1988, a pioneering move in the field of disaster management. The primary objective is assisting various stakeholders in taking timely and proactive steps to mitigate the effects of drought. The DMC was renamed as Karnataka State Natural Disaster Monitoring Centre (KSNDMC) in 2007.

It is estimated that one rupee spent on early warning and preparedness helps in reducing the cost on rescue, relief and rehabilitation by 7-10 rupees. The investment made on early warning and preparedness has high cost-benefit ratio. It comprises installation of field monitoring sensors - Weather, Geological, Hydrological; collection of data on real time, transmission of the same to a central computational/analysis centre; data processing; analysis; alert recognition; simulation through appropriate mathematical models; customized report generation; dissemination of the alerts/reports/advisories to the users. The main objectives of the centre are:

- Hazard mapping and Vulnerability Studies
- Strengthening of Information Technology for Natural Disasters Management
- Monitoring and impact assessment of Natural Hazards
- Human Resource Development mainly by imparting training
- Natural Disaster Early Warning System

The State of the Art innovative approach & methodology adopted by KSNDMC using ICT Tools & Technology is a unique model in the country for monitoring and disseminating timely Alerts, Early Warnings & Advisories to various response players in the state.

### Weather Monitoring Network

Karnataka, the 8th largest state in the country in terms of geographical area (19.1 M. sq.km) is one of the states having largest rainfed agriculture area in the country (about 7.01 M. Ha out of the net cultivated area of 10.5 M Ha). As only about 26% of the total sown area is under irrigation, the agriculture in Karnataka is heavily dependent on monsoon rainfall, while the spatial and temporal distribution of rainfall varies significantly within the state. Therefore, for implementing sustainable agriculture practices and protect the livelihood of the farmers, the reliable weather data observed on the ground and weather forecast with a high spatial and temporal resolution are very important. Thus, in order to capture the variation in the rainfall distribution and to cater to the needs of weather information to different sectors, including the farming sector, a unique

model of Weather Monitoring Network has been designed, developed and operationalised in the state by Karnataka State Natural Disaster Monitoring Centre (KSNDMC).

Karnataka State Natural Disaster Monitoring Centre (KSNDMC) has taken up pioneering and path-breaking initiatives towards monitoring natural disasters and risk reduction. KSNDMC has established a network of GPRS enabled and solar-powered Telemetric Rain Gauges (TRG) in all the Gram Panchayats at every 25 sq. km. and Telemetric Weather Stations (TWS) in all the Hoblis at every 250 sq. km. in the state. The weather data comprising Temperature (°C), Relative Humidity (%), Wind Speed (m/s), Wind Direction (Degrees), Rainfall amount (mm) and intensity (mm/hr) data is being collected every 15 minutes through these weather monitoring stations. The density of weather monitoring stations network is the highest and first of its kind in the country. The temporal resolution of the data collected (96 data points a day/station) achieved through this network of stations is also a need of the hour for the researchers to develop simulations and related advisories.

The monitoring network can capture the highly erratic distribution of rainfall and weather parameters, both in terms of space & time, in turn helping the decision makers to take a timely decision at the micro level. High spatial and temporal resolution of the data collected has been of great help for the policy makers and Government executives to plan and implement programs and schemes, researchers to develop simulations and related advisories for the benefit of the user community, especially the farming community.

The Centre has established a state-of-the-art facility to collect data at a very high spatial and temporal resolution, data analysis, information and advisory generation and dissemination to the stakeholders at a near-real-time. Necessary computer/web applications have been indigenously developed to collect, store, analyse and transmit reliable, accurate and seamless data with least manual intervention. As a result, the time interval between data collection to decision making is almost at a near-real-time. Based on the near real-time data collected, the centre identifies and maps the hazard vulnerable areas, prepares reports with advisories and disseminate to various stakeholders.

### Weather Forecast System

Weather forecast at very high temporal and spatial resolution is yet another critical factor, especially for the Agriculture and allied sector. So, the KSNDMC generates Rainfall / Weather Forecast for Karnataka every day in collaboration with national agencies like Space Applications Centre (SAC), Ahmedabad, Satish Dhawan Space Centre (SDSC-SHAR), Sriharikota, Indian Space Research Organization (ISRO) and India Meteorological Department (IMD), MoES, Govt. of India.

**Short Range Weather Forecast:** It provides detailed information about expected weather conditions such as rainfall, temperature, cloud cover, wind speed and direction at Gram Panchayat level for the entire state at 12 hrs format. It covers a period 1 to 3 days ahead and is revised daily.

**Medium-Range Weather Forecast:** It provides detailed weather forecast at GP level in 24 hour format for the up coming 10 days and forecast is generated daily.

**Long Range Weather Forecast:** KSNDMC provides a 5-day weather forecast generated by IMD and weekly cumulative rainfall outlook for two weeks generated by National Environmental Prediction Centre (NCEP). In addition, the long-range weather outlook generated by IMD is also made available

**Data Dissemination in Weather Forecast Model:** The weather data observed on the ground is also ingested into some of these weather forecasting models and it has been useful in correcting and improving the Model output over the years

KSNDMC has made MoU's with various organizations like SAC – ISRO, Ahmedabad and IMD to get diversified weather forecast from Nowcasting to Long Range / seasonal forecast at different levels (sub block to GP level) for the State through file transfer protocol (FTP) mode on daily basis.

| Type of Forecast      | Source of Information            |
|-----------------------|----------------------------------|
| Nowcast & Short Range | IMD, SAC & SDSC-SHAR - ISRO      |
| Medium & Long Range   | IMD, SDSC- SHAR, ISRO, NCEP-NCAR |
| Seasonal Outlook      | IMD-IITM, MoES                   |
| Short & Seasonal      | IMD, MoES                        |

### Drought Monitoring

Karnataka is prone to droughts and has faced severe drought conditions over the past two decades. The state has recorded 16 years of drought since 2001 to 2023, characterized by below-average precipitation (a deficit of 25% or more from normal levels), leading to prolonged water shortages.

The near-real-time data collected through the network of station is being used for monitoring and assessing drought indicators at Hobli level in the state on a weekly basis.

KSNDMC plays a crucial role in monitoring and guiding state executives and farming communities in Karnataka. Their efforts are focused on reducing the impact of natural disasters, such as droughts and floods, and planning and implementing long-term mitigation measures. By providing timely and accurate data, KSNDMC helps in making informed decisions to safeguard the livelihoods of people and ensure sustainable development. The centre is also assessing the impact of drought using various parameters such as weather data, soil moisture, agricultural crop status, satellite products and surface and groundwater status on a standard weekly basis during each season. This comprehensive approach helps in providing accurate and timely information to mitigate the effects of drought. In December 2016, the Ministry of Agriculture & Farmers Welfare, Government of India, released a manual for Drought Management. This manual prescribes several science and technology-based indices to be used by respective states to assess drought conditions. These indices include:

### Rainfall Related Drought Indicators

- **Rainfall Deficiency:** In Karnataka the rainfall data collected from TRGs at every Gram Panchayath every 15 minutes is being used to calculate the rainfall deficiency at Hobli / Taluk level across the state on daily / weekly / monthly basis.
- **Dry Spell:** The seamless rainfall data obtained from the TRGs network established in the state is computed against the normal rainfall to determine the extent of dry spell at hobli level on weekly basis. It is also used to determine the break-monsoon condition and temporal and spatial distribution of rainfall in the state. Both rainfall deficiency and extent of dry spell parameters is used to assess the occurrence, intensity and spread of drought condition at hobli / taluk level in the state.
- **Standard Precipitation Index (SPI):** In Karnataka, the historical rainfall data upto Taluk level, available for more than last 100 years (since 1902), and present year rainfall data is being used to determine the SPI by calculating the rainfall departure with respect to rainfall probability distribution function and the index is used as a drought indicator.
- **Moisture Adequacy Index (MAI):** Soil moisture is also an indicator of drought, especially in rainfed regions. Crop water requirement is the amount of water needed by various crops to grow optimally. Crop water requirement mainly depends on the climate, duration of the growth stages and crop factors. The database of observed weather parameters collected through the network is used to calculate Potential evapotranspiration (PET) and Actual Evapotranspiration (AET), Moisture Availability Index (MAI).

The above mentioned rainfall parameters and Moisture Adequacy Index (MAI) are being used in conjunction with Crop Based (Sown Area Progression & Extent of crop affected), Remote Sensing based Vegetation Indices (NDVI, NDWI & VCI) and Hydrological Indices (Reservoir Storage Index (RSI), Ground Water Drought Index (GWDI) and Stream-Flow Drought Index (SFDI)) to determine and map the spread and intensity of drought at Taluk (Block) level in the State. Subsequently, those taluks will be notified by the State Government as drought affected.

Based on observed weather data and forecasts at the Hobli/Taluk level, the State Department of Agriculture reviews drought conditions weekly. These assessment reports are then made available to all line departments to plan and implement appropriate measures both individually and collectively. The Weekly Weather Watch Committee, headed by the Additional Chief Secretary (ACS) and Development Commissioner, along with Principal Secretaries/Secretaries of all line departments, reviews the drought condition based on the drought assessment report and weather forecasts. This committee guides the implementation of mitigation measures by the concerned departments, ensuring a coordinated and effective response to drought conditions. Additionally, the Cabinet Sub-Committee on Drought headed by the Revenue Minister (with Cabinet Ministers of Agriculture, Horticulture, Animal Husbandry, Rural Development, Water Resources and Food & Civil Supplies and Law as members) periodically reviews the drought condition and guides the implementation of mitigation measures. The results of science & technology based assessment of drought conditions at Hobli / Taluk level on daily / weekly basis are used by the State Government to identify and notify areas affected by drought and rollout mitigation measures in time. The data is also used to prepare and submit memorandums to seek financial assistance under NDRF from Govt. of India.

A Drought Monitoring Cell has been constituted with a group of officers entrusted to scientifically review all the drought indices and indicators viz., spatial and temporal distribution of rainfall, crop sown area, vegetation condition, soil moisture condition and reservoir, groundwater status on a weekly basis and provide technical input to the Government. The schematic Drought monitoring mechanism is narrated in given figure below.

**Drought Monitoring Mechanism**

## Flood Monitoring

Flood is one of the most common and recurring natural disasters in Karnataka, in the last decades. Large parts of North Interior Karnataka, which lie under Krishna River basin are particularly prone to severe floods. Similarly, the Malnad region and parts of South Interior Karnataka, which are in the Cauvery river basin, are also prone to floods and associated with landslides/mudflows. Heavy and high-intensity rainfall during the monsoon season has been causing floods in one or the other parts of the state resulting in loss of life, livelihood, property, enormous damage to the standing crops, destroying critical infrastructure.

To address the severity of floods in the state, a Flood Forecast Cell was created at the KSNDMC. This cell, comprising a group of officials, facilitates stakeholders in taking appropriate measures to mitigate the impact of floods by providing flood forecasts, alerts, and early warnings. The Flood Forecast Cell is responsible for analyzing weather conditions and issuing customized weather forecasts, alerts, and early warnings as necessary to inform concerned authorities about impending severe weather conditions and potential floods in the state.

The cell also updates regular inflow and outflow information of reservoirs and rainfall forecasts issued by the India Meteorological Department (IMD) and the Central Water Commission (CWC) to estimate the inflow to each reservoir. Technical input is provided to concerned authorities regarding rainfall forecasts, alerts, early warnings, water levels and basin-wise heavy rainfall/high-intensity messages. The functions of Flood Forecast Cell alert dissemination is given in figure below.

## Urban Flood Monitoring

The Karnataka State Natural Disaster Monitoring Centre (KSNDMC), in collaboration with the Indian Institute of Science (IISc) Bangalore, has taken up a project titled, “Urban Flood Model for Bangalore” to mitigate and manage floods effectively. This model includes a well-established network of 100 Telemetric Rain Gauge

Sensors, 12 Telemetric Weather Stations, and 26 Water Level Sensors, integrated with a two-dimensional flood model. This system provides crucial information on the spread of floodwater (flood inundation).

To disseminate relevant information to stakeholders, KSNDMC has developed an automated information dissemination web portal and a mobile application named Bengaluru Meghasandesha (BMS). The flood forecasts issued 6-8 hours in advance have been highly beneficial for civic authorities, enabling them to make timely decisions to manage resources, manpower and machinery during adverse situations caused by inundation or flooding. The Traffic Police also use this information and forecasts to manage traffic congestion and accidents due to flooding. This proactive approach helps mitigate the impact of floods and ensures better preparedness and response in Bangalore City.

### Thunderstorm and Lightning Monitoring

Lightning strikes have indeed been causing significant loss of life and property in Karnataka. Apart from loss of life, there is also a substantial loss of livestock and infrastructure due to lightning strikes every year. Moderate thunderstorms can damage thatched huts, kutcha roads, standing crops, orchards, power and communication lines. They can also cause flooding of escape routes, breaking of tree branches, and uprooting of large trees.

To mitigate these losses, KSNDMC has implemented a monitoring and early warning through a network of 11 Lightning Detection Sensor stations across the state. This network provides location-specific early warnings to the government executives and general public about the thunderstorms and lightning strikes. The network has been providing real-time data about the thunderstorms and lightning (Cloud to Cloud & Cloud to Ground) to KSNDMC. Based on this data, the advisories are generated and disseminated to the public.

Alerts are also being disseminated through Common Alert Protocol (CAP) system and alert dissemination system at 104 Gram Panchayat locations initially and plans to extend further to all the vulnerable areas in the state. While the effects of lightning strikes cannot be completely avoided the Lightning Strike Early Warning system developed in Karnataka is intended to effectively minimize the loss of life and property in the state.

KSNDMC disseminates lightning & thunderstorm information through various methods such as area specific SMS, through “VARUNA MITRA” call centre, issuing alerts, advisories and early warnings to all stakeholders in real time. Based on real time lightning data, KSNDMC has developed “SIDILU” app for disseminating the location-specific information about lightning strikes in the state.

“VARUNA MITRA” is a 24x7 Interactive Help Desk service provided by the KSNDMC to offer weather-related information and early warnings to the public in regional language. The database customized to every Gram Panchayat, includes about 28 lakh farmers / general public and is used for disseminating Lightning Strike Early Warning.

### Key features of the ‘SIDILU’ app include

- **Real-time Lightning Data:** Provides information on lightning occurrences around the user’s current location.
- **Early Warnings:** Issues warnings 30 to 45 minutes before a lightning strike, with color-coded alerts indicating the level of danger. Red indicates danger zone with a 90% probability of a lightning strike within 1 km radius of the location; orange indicates occurrence within 5 km radius and yellow within 15 km radius.
- **Safety Advisories:** Provides advisory through Do’s and Don’ts to help users stay safe during lightning activity.
- **Push Notifications:** Alerts users to severe weather occurrences based on their geo-location.

## Seismic Monitoring

Quaking or shaking of the earth is a common phenomenon undoubtedly known to humans from earliest times. It is estimated that around 500,000 earthquakes occur each year, detectable with current instrumentation. About 100,000 of these can be felt and others go unnoticed. Geographically, Karnataka forms a part of peninsular India which is tectonically identified as an intraplate shield region of Indian plate. Due to the convergent movement of the Indian plate towards the Eurasian plate at the rate of 5 cm/year, induces moderate to high deformations in the interior of the Indian plate and therefore, the peninsular India can no longer be considered as a stable landmass with low seismicity.

**Monitoring:** KSNDMC's Master Control Facility (MCF) receives real-time seismic data from 14 remote observatories via VSAT and GPRS modes. This data is continuously monitored by scientific personnel and information on local earthquakes is marked for further analysis.

**Data Analysis:** The seismic data is processed using various techniques to enhance the seismic signal and filter out local noise. The primary, secondary, and surface waves are identified along with the coda wave length to calculate important parameters.

*Epicentral Distance (kms); Epicentre of the Tremor (Co-ordinates); Magnitude; Focal depth (kms); Total duration of the Earthquake waveform in UTC timing.*

Subsequently, the seismic data of each seismic event is organized and stored by categorizing the data into event-specific folders for easy accessibility and future reference.

**Information Dissemination:** Initial alerts are forwarded through SMS to officials at various levels (District, Taluk, Gramapanchayath) and dam authorities followed by a detailed technical report which includes geological details, recorded seismograms with mark of primary & secondary waves, fault mapping, major & minor lineaments in the area and safety measures. The processed information is made available on the Centre's web portal [www.ksndmc.org](http://www.ksndmc.org) and through e-mails. KSNDMC Daily Reports provide earthquake information to the Chief Minister's office and all other line departments. KSNDMC has established a network of 14 VSAT-enabled and solar-powered permanent seismic monitoring stations at vulnerable locations to address the seismicity in the state. Data from these stations is received in real-time at the Master Control Facility in Bengaluru via VSAT and GPRS technologies. The network monitors local, regional, and teleseismic earthquakes.

## Real-Time Decision Support System (RTDSS) for Flood Early Warning System in Krishna Basin

A remarkable initiative to mitigate the impact of severe floods on agriculture, transportation, livestock, life, and properties in North Karnataka. By establishing a fully operational RTDSS, the KSNDMC has enabled area-specific disaster preparedness plans, which are crucial for reducing the impact of floods. The system includes RADAR stream gauges, velocity meters, reservoir level sensors and state-of-the-art modeling tools for flood forecasting and inundation mapping. This comprehensive approach ensures that early warnings and advisories are disseminated to all stakeholders, providing them with the necessary lead time to take appropriate action and better prepare for flood risks.

## Weather Monitoring and Flood Early Warning System for SMART Cities (Belagavi, Mangaluru and Hubballi Dharawada)

Smart weather monitoring system is another impressive initiative of KSNDMC that leverages advanced technology with 75 Telemetric Rain Gauges, 29 Telemetric Weather Sensors and 50 Water Level Sensors to manage urban flood events in the smart cities of Belagavi, Mangaluru and Hubballi-Dharwad.

### Features and Benefits

- **Real-Time Monitoring:** Continuous monitoring of dynamic weather conditions using an ICT-enabled sensors network and hydrological model.
- **Flood Forecasting and Early Warnings:** Provides rainfall, severe weather alerts and flood forecasts to government agencies through SMS, social media platforms and a dedicated web portal.
- **Decision Support for Authorities:** The data helps civic authorities in smart cities to take preventive actions to implement flood impact reduction activities and effectively manage floods.
- **Public Awareness:** Real-time and near real-time weather forecasts help the public plan their activities.
- **Advanced Tools:** Generation of flood hazard and inundation maps, High Intensity Rainfall Alerts (HIRA), advisories to municipal authorities and other departments, and a mobile app for disseminating real-time weather and severe weather warnings.

### Multi-Hazard Early Warning dissemination through Disaster Early Warning System (DEWS)

The Disaster Early Warning System (DEWS) is a comprehensive approach designed to provide early warnings for multiple hazards such as floods, landslides, earthquakes, and severe weather events. The goal is to minimize the impact of these disasters by ensuring timely alerts and enabling effective response measures.

Functions of Broadcasting Information is gathering information from disaster monitoring networks operated by scientific organizations and disseminating the information to the public through efficient and effective mediums. These systems are often termed as multicasting systems to outdoor receivers with loudspeakers in their network.

Effective early warning systems is indeed a critical component of public policy at the highest levels which play a pivotal role in disaster reduction by saving lives and minimizing damage to resources and infrastructure and cuts down the financial burden for rehabilitation.

### Communication of early warning information

An effective early warning system needs an effective communication system. Early warning communication systems are made of two main components:

- Communication infrastructure hardware that must be reliable, robust and failsafe especially during the natural disasters
- Provision for appropriate and effective interactions among the main players of the early warning process such as the scientific community, stakeholders, decision makers, the public and the media

### Early warning dissemination through centralised wireless broadcasting system

A full-bodied Early Warning System with last mile connectivity is being installed in 104 highly disaster vulnerable Gram Panchayaths in Karnataka to ensure that critical information reaches vulnerable communities swiftly and effectively. The state-of-the-art technology driven system is designed for disseminating necessary / precautionary messages through public announcements from central system of the state headquarters directly to the vulnerable Gram Panchayaths. The solution is a 3-tier system where messages can be relayed directly from State or District or Taluk Headquarters to the Gram Panchayaths. The system has features for recording the customized messages, storing, forwarding & broadcasting, which can be scheduled at various timelines along with broadcasting repetitions. The system is also has designed to playback automatic messages using text to speech.

### Types of messages broadcasted through the system

- Weather forecast that include Rainfall, Temperature, Relative Humidity, Wind speed, Wind direction etc.,
- Disaster survival messages on how to safeguard oneself from lightning, Storms, Earthquakes, Fire safety, Floods, Tsunamis, Urban Floods, Landslides, Biological Emergencies etc.,
- Drought Management and information on assistance to community on drought relief system
- Government messages to the local community
- Local customized messages pertaining to the vulnerable GP's or the respective taluks

### Implementing Insurance Schemes

The high-resolution weather data collected from the ground level has been used for the implementation of Crop Insurance Scheme in the state, which is considered as a risk transfer mechanism. The weather data is used at different levels. Firstly, it is used in designing the Term-sheets in case of Restructured Weather Based Crop Insurance Scheme (R-WBCIS), wherein area-specific and crop-specific term sheets are designed by using high-resolution historical weather data by the agencies. Similarly, the ground-level weather data is also being used by the public for claiming insurance for the damage/loss of property incurred due to weather aberration.

Incidences of damage to industrial sheds or the chimneys due to high wind activity are being established and assessed using the weather data collected from the TWS station network. Likewise, damages to the poly-houses installed for floriculture and/or cash crop cultivation are also assessed using the weather data. The observed data from the nearby TWS or TRG station is used to corroborate the incidence of weather aberration beyond a threshold, and accordingly, insurance claims are being settled between the parties.

### Water Resource Management

High-resolution weather data and forecasts is used in the state for efficient water resource management. This provides information of ongoing and expected rainfall activities in the catchment areas, the current water storage levels in reservoirs, minor irrigation tanks, and groundwater levels and this approach ensures that water is allocated wisely, especially during critical periods. Drinking water needs are given the highest priority, particularly during years of water scarcity and then decisions are made on the quantity and timing of water releases for irrigation and industrial uses. The consolidated reservoir levels, minor irrigation tank storage status, and groundwater level data is monitored and shared with state stakeholders to facilitate informed decision-making for various purposes.

### Information Dissemination mechanism

KSNDMC has deployed various dissemination systems to communicate disaster-related information through Alerts, Advisories, and Early Warnings essential for disaster risk reduction. High-resolution spatial and temporal data is used to generate customized weather advisories and disseminate them in real-time to government executives and communities at the last mile. This has helped the stakeholders to take appropriate decisions on the key factors viz., Drought Monitoring & Management, Crop Assessment Survey Mechanism, Water Resource Management. Implementing Insurance Schemes and Power generation and Grid load management.

The weather-related information and advisories helps the end-users to plan and implement appropriate measures to minimise the adverse impact of extreme weather conditions and especially beneficial to farmers to make mid-course corrections aiding to improve the efficacy of their operations and enhance productivity by timing critical field activities leading to significant financial savings and returns.

The financial gain for the farmer can be assessed as an aggregate of the following factors:

- Improving the efficacy of the operations and enhancing productivity by advancing or postponing critical field level operations
- Minimizing wastage of valuable seeds, labour, and time due to informed choices about the time and acreage of sowing, based on impending rainfall data; and
- Securing the produce against rain damage by hastening harvesting operations
- The advisories to farmers in crop management and farming activity have far reaching benefits which are difficult to be analysed comprehensively

#### Information Dissemination Mechanism by KSNDMC

#### 24x7 Interactive Help Desk “VARUNA MITRA”

The weather information and forecast services are of great importance in planning and managing the activities of various other sectors including Industries, Urban Development, Disaster Management, etc. A accurate weather information and related advisories with high spatial and temporal resolution can result in improved decision-making and management of agricultural risks by farmers. Such services help in developing sustainable and economically viable agricultural systems, decrease in use of plant protection chemicals, reduced input costs, losses and risks, improved production and quality, increased use efficiency of water, labour and energy and conservation of natural resources. Weather information plays a major role in the entire crop cycle right from selecting suitable crop/variety up to post-harvest operations and marketing. Precise Weather information is useful for farmers in two different ways.

### Varuna Mitra Interactive Helpdesk

- **Weather-based strategic agronomic planning resulting in improving yield:** For optimal productivity at a given location, crops and cropping practices must be such that their cardinal phased weather requirements match the temporal march of the relevant weather elements, and at the same time endemic periods of pests, diseases and hazardous weather are avoided. In such strategic planning of crops and cropping patterns, short period weather data, both routine and processed (such as initial and conditional probabilities), have a vital role to play.
- **Minimizing Crop loss due to occurrences of erratic and adverse weather:** Agronomic strategies have to be devised to cope with the effects of erratic and adverse weather on agricultural production. For example, delay in the start of crop season can be countered by using short duration varieties of crops and thicker sowings and the effects of frosts can be prevented by resorting to irrigation or lighting trash fires. Medium range weather forecasts with a validity period that enable farmers to organise and carry out appropriate cultural operations to cope with, are clearly useful.

In order to capture the variation in the weather condition and in turn to cater to the needs of weather information to different sectors, including the farming sector, a unique model of Meteorological Advisory Services has been designed, developed and operationalised in the state by KSNDMC. This model is unique in many ways and addresses all the aspects of lab to land concept and caters to the real needs of different communities across the state. One of the important component of the system is information dissemination System VARUNA MITRA.

To disseminate the Agro-Met information, forecast and advisories directly to the farmers, a 24x7 Interactive Help Desk VARUNA MITRA has been functioning in Karnataka at KSNDMC since 2011. Some of the unique features of this dissemination model are,

- The farmers can get the information on what they need and when they need
- Provides Agro-Met Advisories directly to the farmers through interactive telephony in the language and frequency a farmer can comprehend
- Information on rainfall, temperature, humidity, cloud cover, wind speed and weather forecast is made available at Grama Panchayat level (highest spatial resolution in the country at present)

- The information and advisories are based on high spatial and temporal resolution ground level weather observation and same resolution weather forecast
- Alerts on extreme weather events, information on reservoir status, stream flow etc., are also made available to the users
- Voice recording of each call help improve service quality and address the complaints effectively.

The farmers have been calling VARUNA MITRA and collecting customized information pertinent to their respective Gram Panchayats and using the information and advisories for planning their agricultural activities starting from land preparation, sowing, inter-crop cultivation, application of fertilizers, spraying pesticides and harvesting. Despite not being a Toll-Free service, the number of calls is increasing each year, demonstrating the value and trust farmers place in this service. VARUNA MITRA virtually guides the farmer to make better decisions to carry out necessary activity in the field. Some of the examples are as follows.

**Sowing:** Timely and accurate weather forecasts are vital for farmers, especially when it comes to sowing. The ability to adapt based on medium-term forecasts like those provided by VARUNA MITRA can make a significant difference in agricultural success.

**Pest Control chemical (PCC) Application:** Pest and insect attacks pose significant challenges for farmers during the growing season. Effective pest control is crucial for protecting crops and ensuring a good harvest. Proper application of Pest Control Chemicals (PCC) is essential for their effectiveness and weather conditions play a significant role in this process. Farmers consult VARUNA MITRA before applying PCCs to get the advice on the best time for application.

**Irrigation:** By leveraging weather forecasts, farmers can make decisions about whether to irrigate their crops, which ultimately helps conserve water and save on energy costs. VARUNA MITRA is a valuable resource for farmers to ensure they make the best choices based on accurate weather predictions.

**Harvesting:** Harvesting is a critical and vulnerable phase for farmers. The success of their entire season's efforts hinges on the timing and conditions during this period. VARUNA MITRA services is aiding farmers to harvest their crops at the optimal moment accurately based on weather predictions This not only safeguards their yield but also their livelihood and investment.

**Figure 7.6: Year wise call details registered by the VARUNA MITRA Help Desk**

**Sujala Reward Project:** The Sujala-2 reward project focuses on providing weather-based agro-advisories to farmers through an interactive call center. This initiative aims to enhance crop yield and productivity while minimizing losses due to adverse weather conditions and potential disasters.

### Technical support to the State Government

KSNDMC is supporting Karnataka State Disaster Management Authority (KSDMA), Govt. of Karnataka through providing technical support in the following:

- **Action Plans on DM:** Under the National Disaster Management Act, 2005, several comprehensive action plans and District Disaster Management Plans (DDMP) have been developed and periodically updated for various types of disasters. Action plans on Heat Wave, Flood Risk Management, earthquake, Landslides are developed defining the institutional framework, SOP's, roles & responsibilities, building awareness among the community and providing guidelines (Do's & Don'ts) along with necessary templates.
- **Aero India DM Plan:** An offsite Geospatial enabled Disaster Management Plan during the recent AERO INDIA 2024 based on all possible conceivable hazards during the Aero India event, wherein responsibility matrix has been drawn to ensure unambiguous area of responsibility and also at the same time maintaining synergy in response by putting in place an Incident Command System during the event with department specific SOPs and guidelines.
- **Event based Memorandum Preparation:** KSNDMC through the existing dense Weather Monitoring Network has supported KSNDMA in preparing the event based memorandums on floods, drought, hailstorms and landslides.
- **Review Meetings at State & National level:** KSNDMC has been providing detailed information to the weekly Crop Weather Watch Group on Drought Management (CWWGDM) and Video Conference with State Governments to monitor Drought parameters by the Govt. of India.

**Modification of Drought Management Manual:** The Drought Management Manual introduced by the Ministry of Agriculture & Farmer's Welfare in December 2016 initially set stringent parameters for drought declaration. KSNDMC made a in-depth analysis of these parameters revealed practical challenges in their implementation. Their subsequent technical report highlighted these difficulties, leading to discussions with officials from the Government of India. As a result, the prescribed parameters were successfully revised, resulting in a new set of guidelines making it easier to manage drought conditions effectively.

### Capacity Building / Training

As a part of capacity building, KSNDMC scientific personnel have been the resource persons for several training programmes on "Disaster Monitoring and Management" and also conducting workshops at the centre to the students of school, college, universities and officers of various departments of GoK. Scientific Personnel of KSNDMC are participating in the UN Conventions and other NDMA meetings and presenting the details of Drought Monitoring and Mitigation system in Karnataka. Awareness programmes are conducted and assisted various schools in Bangalore to evaluate their school safety from disaster management perspective and helped them to develop their School Safety Management Plan according to NDMA School Safety Guidelines, 2017.

### Internship Program

KSNDMC provides internship for students/researchers of academics/research/ training institutions every year. Internship/Dissertation programme is designed for the students of reputed educational institutions to pursue their project work. The interns should analyze various data and information available in the centre and deduce their findings. Some of the valuable and implementable ideas generated by interns can be added

to disaster management strategies and they gain familiarity with the applications of Remote Sensing (RS) and Geographic Information Systems (GIS) in natural disaster management.

### Way Forward

1. To benefit the agricultural and allied sectors in the state, Karnataka State Natural Disaster Monitoring Center is establishing and maintaining a unique network of automated, solar based, remote weather and rainfall measuring instruments in the state to understand the accuracy of variations in climate and rainfall distribution.
2. Attempt has been made to collect information regarding temperature (0 C), humidity (percent), wind speed (m/cm) and wind direction (0) from meteorological stations and also rainfall (mm) and intensity (mm/hour) from all rain gauge stations are collected for every 15 minutes / day.
3. Innovative measure has been taken to speed up the network of weather/rain gauge stations in the state which is first of its kind in the country.
4. In order to take up appropriate decisions on real-time variations in climatic condition and rainfall distribution measures have been taken up on related research, development of forecasting, warning messages and advisory notices.
5. Innovative measures have been taken up to provide real-time weather information, maps, reports, warning messages, weather-based agricultural advisory notices to the officials of the relevant government departments the public and the farming community to help them take necessary precautionary measures and decisions.
6. To provide weather forecast at Gram Panchayat level Karnataka State Natural Disaster Management Center in collaboration with Indian Space Research Organization Satellite Application Center (SAC), Ahmedabad and Satish Dhawan Satellite Center, Sriharikota developed models to provide 24/48/72 hour rainfall and weather forecast at Gram Panchayat level. Efforts are being made to strengthen accurate weather forecasting by analyzing weather forecasts from India Meteorological Department and other sources.
7. In order to achieve accuracy in the regional level weather forecast of the state, the real-time data of rain and weather forecasting system models are being given to the concerned department and officials to take appropriate decisions for planning and to make weather based advice and instructions available to the public use.
8. To determine drought conditions, the Ministry of Agriculture, Ministry of Cooperation and Farmers Welfare, Government of India has brought out the revised Drought Management Manual 2016 which includes scientific criteria for drought determination and aspects of drought management in order to accurately identify drought conditions and take timely remedial measures.
9. In order to determine area drought situation, based on Moisture Deficit Index measures have been taken to give the accurate rainfall and whether data.
10. Measures have been taken to use Satellite based indices to improve the accuracy of drought conditions, sown area, crop growth and crop status etc.

## 7.6 WASTE MANAGEMENT IN KARNATAKA - REALITIES AND OPPORTUNITIES

### 7.6.1 Solid Waste Management in Karnataka

#### Introduction

Karnataka is one of the major contributors to solid waste in India, primarily due to its urban centers like Bengaluru, Mysuru, and Hubli-Dharwad. Bengaluru, the state's capital and IT hub, generates the most significant amount of solid waste, followed by other cities and towns.

According to reports, Bengaluru alone generates around 5,000 to 6,000 metric tons of solid waste per day. This number increases as the population grows and urban sprawl continues. Karnataka's waste generation is largely a result of:

- Residential waste
- Commercial and industrial waste
- Waste from street cleaning
- Construction and demolition waste

Karnataka has implemented several measures to handle the growing waste management challenge. These efforts include waste collection, segregation, processing, and disposal mechanisms. The state government, along with municipal corporations, has developed waste management policies and has been actively pursuing solutions to improve the situation.

#### a. Waste Segregation

Waste segregation at source is one of the key components of Karnataka's solid waste management strategy. The state has pushed for awareness campaigns to encourage citizens and businesses to segregate their waste into:

- Wet waste (organic waste)
- Dry waste (recyclable materials like paper, plastics, glass, etc.)
- Hazardous waste (e-waste, batteries, etc.)

Many urban local bodies (ULBs) in Karnataka have made source segregation mandatory and are working towards improving compliance through penalties for non-compliance.

#### b. Door-to-Door Collection

Door-to-door waste collection has been implemented in several urban areas, especially in Bengaluru, Mysuru, and Hubli-Dharwad. This practice aims to ensure that waste is collected regularly and in an organized manner. Municipalities have set up dedicated waste collection teams and have introduced waste bins to aid in the segregation process.

#### c. Waste Processing

Processing of waste is another area where Karnataka has made improvements. The state is increasingly focusing on converting waste into resources, such as:

- **Composting:** Organic waste is composted to produce bio-fertilizer. Many local bodies run composting facilities or encourage citizens to compost their kitchen waste at home.

- **Waste-to-Energy Plants:** Waste-to-energy (WTE) projects is initiated to convert non-recyclable waste into energy. For instance, the KCDC (Karnataka Compost Development Corporation) has been working on setting up bio-methanation plants to treat organic waste.
- **Material Recovery Facilities (MRFs):** Several cities in Karnataka have established MRFs where dry recyclable waste is processed, sorted, and sold to recyclers.

#### d. Recycling

Karnataka has seen an increased focus on recycling with various initiatives encouraging citizens and businesses to segregate dry waste that can be recycled. The state government has also introduced several programs to promote the recycling of plastic and other non-biodegradable waste materials. Bengaluru, for example, has a plastic ban in place, which helps to reduce plastic waste generation.

#### e. Landfills and Disposal

While waste processing and recycling are being encouraged, Karnataka still relies on landfills for the disposal of a significant portion of its waste. However, landfill management is a major concern due to limited space and environmental issues. The state has been working on improving landfill sites by implementing scientific landfilling practices, which include leachate management and methane gas capture.

Bengaluru, which was once struggling with overflowing landfills, has now started the process of creating sanitary landfills that meet modern environmental standards.

### Current status of Solid Waste Management in Karnataka

**Table 7.45: Status of implementation of the Solid Waste Management Rules, 2016**

| Local Body                           | Total Numbers |
|--------------------------------------|---------------|
| Metropolitan City Corporation (BBMP) | 1             |
| City corporations                    | 10            |
| City Municipal Corporations          | 61            |
| Town Municipal Corporations          | 124           |
| Town Panchayaths                     | 116           |
| Notified Area Committee              | 4             |
| <b>Total</b>                         | <b>316</b>    |

Quantity of waste Generated in Urban Local Bodies (ULBs) of Karnataka : 12140 TPD

Quantity of waste Collected in ULBs of Karnataka : 12123 TPD

Quantity of waste Segregated and transported in ULBs of Karnataka : 9475 TPD

Quantity of waste Processed in ULBs of Karnataka : 7694 TPD

Quantity of waste Disposed in secured landfill in ULBs of Karnataka : 3048 TPD

#### Solid waste processing facilities operational

Composting : 226

Biogas : 13

### Disposal of solid waste

|                            |       |
|----------------------------|-------|
| Land fill sites identified | : 283 |
| Landfill operational       | : 158 |

### Solid waste dumpsite

|                                     |       |
|-------------------------------------|-------|
| Total number of existing dump sites | : 201 |
|-------------------------------------|-------|

### Way Forward

The future of solid waste management in Karnataka looks promising, with continued focus on:

- **Waste Minimization:** Reducing waste generation through awareness campaigns, encouraging the use of eco-friendly products and promoting waste-to-resource solutions.
- **Technological Integration:** The use of smart waste management technologies including sensors in bins for real-time data monitoring can help optimize waste collection processes.
- **Community Involvement:** Increased participation of local communities in waste management efforts will be critical for success. Training and motivating citizens to segregate waste at source will go a long way in reducing waste going to landfills.
- **Circular Economy:** Karnataka could further embrace the concept of a circular economy, where waste is seen as a resource to be reused, recycled or repurposed rather than discarded.

## 7.6.2 SEWAGE MANAGEMENT IN KARNATAKA

### Introduction

Sewage management is a critical component of urban planning and environmental health. In Karnataka, as in other states of India, the growing urban population, rapid industrialization, and expanding infrastructure have led to increased pressure on sewage management systems. Proper treatment and disposal of sewage are necessary to protect water bodies, public health and the environment.

Karnataka has a number of urban centers, including Bengaluru, Mysuru, Hubli-Dharwad and Mangaluru, where sewage management is a significant challenge. These cities are experiencing rapid urbanization, which puts pressure on the existing sewage infrastructure.

Sewage management in Karnataka is handled by several agencies, including:

- **Bangalore Water Supply and Sewerage Board (BWSSB):** Manages sewage from domestic establishments in Bengaluru
- **Directorate of Municipal Administration (DMA):** Manages sewage from other ULBs
- **Karnataka Urban Water Supply & Drainage Board (KUWS&DB):** Develops infrastructure for sewage treatment plants (STPs)
- **Karnataka Urban Infrastructure Development and Finance Corporation (KUIDFC):** Develops infrastructure for STPs

### Current Status of Sewage Management In Karnataka

There are 316 Urban Local Bodies in Karnataka (including BBMP), out of which 27 are Atal Mission for Rejuvenation and Urban Transformation (AMRUT) towns and 289 are non-AMRUT towns in the State of

Karnataka. In the State, out of 314 local bodies, sewage treatment plant is provided in 132 local bodies to treat sewage & sullage generated from domestic activities. In addition, the Board has granted consent to establish Sewage Treatment Plants at 18 local bodies. The remaining local bodies are in the process of establishing the STP's. Government of Karnataka has accorded approval for establishing these STPs.

### Waste Water Management in Bengaluru city

The urban population of Bengaluru is 1.5 crore and it was estimated that 1480 MLD of sewage is generated from the Bengalurucity.

In Bengaluru, there are 34 Sewage Treatment Plants (STPs) with a combined treatment capacity of 1348.5 MLD and currently treating about 1062.9 MLD of sewage.

The details of existing waste water treatment plants in Bengaluru and utilization of treated water is mentioned in **Table 7.46** below:

**Table 7.46: Detail of Existing BWSSB STPs in Bengaluru**

| Name                    | Capacity in MLD | Location near to                    | Types of process for treating sewage                  | Inflow | Drainage Zone       |
|-------------------------|-----------------|-------------------------------------|-------------------------------------------------------|--------|---------------------|
| K&C valley              | 218             | BelurNagasandra (near Challaghatta) | Activated Sludge Process (ASP)                        | 107.22 | Challaghatta valley |
| K&C valley              | 30              | BelurNagasandra (near Challaghatta) | Activated Sludge Process (ASP)                        | 32.07  |                     |
| K&C Valley              | 60              | BelurNagasandra (near Challaghatta) | ASP with power generation                             | 61.64  |                     |
| K&C Valley              | 150             | B.Nagasandra                        | Secondary -Activated Sludge Process (ASP)             | 151.03 |                     |
| Lalbagh                 | 1.5             | Lalbaghkere                         | Activated aeration + plate settlers + UV disinfection | 1.481  |                     |
| Cubbon Park             | 4               | Cubbon Park (upgraded)              | Membrane Bio Reactor                                  | 3.913  |                     |
| K.R.Puram               | 20              | Tambuchettipalya Road               | Sequential Batch Reactor                              | 20.79  |                     |

## Way Forward

To improve sewage management in Karnataka, a multi-pronged approach is required:

- **Expanding Coverage:** Expanding the sewage network in rural and peri-urban areas is essential. The government should work to ensure that every household has access to sewage systems and proper sanitation facilities.
- **Improved Treatment Capacity:** Upgrading and expanding the sewage treatment plants, particularly in large cities like Bengaluru, is necessary to meet the increasing demand. Creating new STPs in underserved areas is also a priority.
- **Community Participation:** Public awareness campaigns is necessary to educate citizens about the importance of proper sanitation and waste disposal particularly in rural areas.
- **Financial Investment:** Increased investment from both the state and central governments, as well as international funding is essential to enhance sewage infrastructure and treatment capacity.

- **Policy and Regulation:** Stricter regulations for industries and municipalities to treat and reuse wastewater can help reduce pollution and water scarcity.

### 7.6.3 Polluted River Stretches in Karnataka

#### Introduction

Urbanization adversely affects physical, chemical, biological aspects and life support system of river ecosystem beside landscape changes. Chemical and physical properties of the urban rivers alter due to municipal and industrial discharges. Direct dumping of sewage and MSW into the river and addition of harmful chemicals from agricultural runoff contributes to river pollution and eutrophication. Urban rivers are commonly characterized by presence of organic pollutants, high Total Suspended Solid (TSS), Nitrate, and Eutrophication, high Biological Oxygen Demand (BOD), Chemical Oxygen Demand (COD).

#### Current status of Polluted River Stretches in Karnataka

Based on the Biological Oxygen Demand (BOD) value at the water quality monitoring locations along the river stretches, CPCB has identified 311 Polluted River Stretches (PRS) throughout India wherein BOD exceeds 03 mg/L.

In the financial year 2016-17, based on water quality, the Central Pollution Control Board (CPCB) has identified the 17 polluted river stretches namely, Arakavati, Lakshmanateertha, Malaprabha, Tungabhadra, Bhadra, Kaveri, Kabini, Kagin, Kali, Krishna, Asangi-Krishna, Shimsha, Bhima, Netravati, Kumaradhara, Tunga, and Yagachi.

To rejuvenate the polluted rivers a time-bound action plan has been formulated and with the approval of the Central Pollution Control Board the plan has been implemented since 2019-2020.

An effective action plan for the installation of sewage treatment plants (STPs) and wastewater treatment units is prepared for rejuvenation and restoration of polluted rivers.

In the year 2022, the Central Pollution Control Board, due to improvements in the water quality of these rivers, the river basins of Yagachi, Asangi-Krishna, Kumaradhara, Kali, and Malaprabha are removed from the list of polluted rivers. Further, the Central Pollution Control Board in the said 2022 report included the following additional rivers from Karnataka to the list of polluted rivers namely, Tenpennai, Gangavalli, Aghanashini, Sharavathi, and Dakshina Pinakini.

The river Tenpennai is not in Karnataka and hence requested the CPCB to exclude from the list of Karnataka PRD and the 3 PRS namely, Aghanashini, Sharavathi and Gangavalli where the BOD is observed to be <3mg/l since 2020 and hence, the CPCB has been requested to delete the same.

Presently, 12 PRS namely, Arakavati, Lakshmanateertha, Tungabhadra, Bhadra, Tunga, Kaveri, Kabini, Kagin, Krishna, Shimsha, Bhima, and Netravati are in Karnataka under the catchment of 40 ULB.

Among the 12 Polluted River Stretches (PRS) in Karnataka, 1 PRS, namely Arkavathi is classified as priority I (BOD in the range of >30 mg/L), 3 PRS namely, Bhadra, Shimsha and Tungabhadra are classified as priority IV (BOD in the range of 6 to 10 mg/L) and the remaining 8 PRS namely, Lakshmantheertha, Cauvery, Kabini, Kagina, Krishna, Bhima, Nethravathi and Tunga are classified as Priority-V (BOD in the range of 3 to 6 mg/L).

A basic inventory to identify the pollution source reveals that the 40 ULBs cumulatively generate 817.31 MLD of sewage. Available total sewage treatment (STP) capacity in these ULBs is 657.69 MLD. Of the generated

sewage, 532.4 MLD is treated in the STPs, while 159.62 MLD sewage is untreated which eventually enters the rivers making them highly polluted.

Karnataka has taken special interest in rejuvenation of the 12 Polluted River Stretches (PRS) and facilitating the preparation of River Rejuvenation Action Plans for individual PRS along with complying timelines. The water quality is monitored on a regular basis by analysing the parameters such as pH, dissolved oxygen (DO), BOD, faecal coliform (FC) and total coliform (TC). Under the River Rejuvenation programme, 15 STPs with a capacity of 53.28 MLD have been proposed and 16 STPs of capacity 195.75 MLD are under construction.

### Way Forward

- It is high time that sewage management issues become top priority of ULBs act for continued relevance of the hymn we prayed over thousands of years.
- The pollution load should not cross the carrying capacity of rivers. The river rejuvenation programme of 12 polluted river stretches in Karnataka is aimed at improving river water quality so that benefit of life support system of sacred rivers is continuously available for future.

### 7.6.4 Industrial Effluent Management

Karnataka is a home to a vast number of industries, totaling to 50,420 category wise details (Red, Orange Green and White) is listed below. Out of the total, 4,069 industries are water-intensive and generate trade effluent.

**Table 7.47: Details of Industries in Karnataka as on 31.03.2024**

| Category of Industries | Total No. of Industries | Operating    | Closed       | YTC         |

The Common Effluent Treatment Plants (CETPs) are facilities designed to treat industrial waste water from multiple industries before it is discharged into the environment. These are cost effective and meant for collective treatment of industrial effluent generated from small scale industries. The concept of CETP was introduced in the early 1990s to help small and medium sized industries.

Currently, there are 14 CETPs established in the Karnataka State. Out of these, 10 CETP's are operating.

The CETP facilities are designed to treat different types of effluent viz., organic & inorganic effluent separately with similar characteristics. The Board stipulates the quality of treated water based on CPCB directions.

After treatment, the water from CETPs are being reused & utilized for gardening and secondary applications viz., boiler feed, cooling and washing.

Thus, applying the insights from the Economic survey to CETPs to optimise the potential recovery of waste water by different treatment methods and giving way to reuse treated water in industrial ecosystem, reducing waste generation by creating close loop system where treated effluent is recycled and reused in industrial process wherever possible by reducing fresh water consumption.

The list of CETPs operating in Karnataka State are listed in **Table 7.50**.

**Table 7.50: List of Operating Compliance status of Common Effluent Treatment Plant (CETPs) in Karnataka**

| Name & Address of the CETP                                                                                                                                    | Designed capacity (MLD) | Operational capacity (MLD) |

### 7.6.5 Electronic-Waste (E-Waste) Management

#### Introduction

E-waste, or electronic waste, is a term used to describe discarded electrical and electronic equipment that is no longer useful. E-waste can include items like computers, mobile phones, large household appliances and medical equipment. Computers, laptops, servers, mainframes, monitors, compact discs, printers, scanners, copiers, calculators, fax machines, battery cells, cellular and mobile phones, transceivers, televisions, radio, pod, medical apparatus, washing machines, refrigerators, air conditioners, speakers and home theatre system, Xbox, Play Station and other gaming equipment and solar panels, un interrupted power supplies (UPS) etc., comprise common e-waste beyond their usable life.

The Ministry of Environment, Forest and Climate Change, Govt. of India has notified E-waste (Management) Rules, 2022 vide notification No. GSR 801 (E) dated November 02, 2022. The rules are effective from April 01, 2023 and have superseded E-waste (Management) Rules, 2016. The rules intend to manage e-waste in an environmentally sound manner (ESM) and also promote Circular Economy through the regime of Extended Producer Responsibility (EPR).

The E-waste (Management) Rules, 2022 stipulate EPR framework [Rule 4(1)] for implementation of these rules. The EPR frame work provides for the following four types of entities namely:

- Manufacture
- Producer
- Refurbisher and
- Recycler

The above entities are required to register on the portal which is defined vide Rule 3(1) (S) as an online system developed by Central Pollution Control Board for the purposes of these rules. No entity will carry out any business without registration. The entities registered on the portal shall not deal with any unregistered Manufacturer, Producer, Recycler and Refurbisher. All the applications for registration has to be made online through the designated portal available at URL: <https://eprewastecpcb.in>

As per the E-waste (Management) Rules, 2022,

Responsibilities of the manufacturer.— All manufacturers shall have to,-

- 1) register on the portal;
- 2) collect e-waste generated during the manufacture of any electrical and electronic equipment and ensure its recycling or disposal;
- 3) file annual and quarterly returns in the laid down form on the portal on or before end of the month succeeding the quarter or year, as the case may be, to which the return relates.

**Responsibilities of the producer** - The producer of electrical and electronic equipment listed in **Schedule-I** shall be responsible for –

1. registration on the portal;
2. obtaining and implementing extended producer responsibility targets as per Schedule-III and Schedule-IV through the portal;
3. Provided that the producer having extended producer responsibility plan under the provisions of the erstwhile E-Waste (Management) Rules, 2016 shall migrate under these rules as per the procedure laid down by the Central Pollution Control Board with approval of Steering Committee;
4. creating awareness through media, publications, advertisements, posters or by any other means of communication;
5. File annual and quarterly returns in the laid down form on the portal on or before the end of the month succeeding the quarter or year, as the case may be, to which the return relates.

As per the new E-waste (Management) Rules, 2022, the CPCB has created a Portal for the registration of the producers, manufacturers, recyclers and refurbishers in the Extended Producer Responsibility (EPR) portal under E-waste (M) Rules, 2022.

Extended producer responsibility (EPR) is a policy that holds producers responsible for the environmental impact of their products throughout their lifecycle. EPR policies can take different forms, including:

- **Mandatory targets and penalties:** Producers must meet certain targets or pay penalties.
- **Mandating targeted collection and recycling:** The certificate makes targeted collection and recycling of e-waste mandatory.
- The extended producer responsibility for each product shall be decided on the basis of the information provided by the producers on the portal and the individual product's life period as laid down by the Central Pollution Control Board in this regard and the targets specified in **Schedule-III** and **Schedule-IV** of the E-waste (Management) Rules, 2022.

#### SCHEDULE-III

[See rules 3(m), 6(2), 13(1), 13(2)]

| Year (Y)  | E-Waste Recycling Target (by weight)                                                                          |
|-----------|---------------------------------------------------------------------------------------------------------------|
| 2023-2024 | 60% of the quantity of an EEE placed in the market in year Y-X, where 'X' is the average life of that product |
| 2024-2025 | 60% of the quantity of an EEE placed in the market in year Y-X, where 'X' is the average life of that product |

| Year (Y)          | E-Waste Recycling Target (by weight)                                                                          |
|-------------------|---------------------------------------------------------------------------------------------------------------|
| 2025-2026         | 70% of the quantity of an EEE placed in the market in year Y-X, where 'X' is the average life of that product |
| 2026-2027         | 70% of the quantity of an EEE placed in the market in year Y-X, where 'X' is the average life of that product |
| 2027-2028         | 80% of the quantity of an EEE placed in the market in year Y-X, where 'X' is the average life of that product |
| 2028-2029 onwards | 80% of the quantity of an EEE placed in the market in year Y-X, where 'X' is the average life of that product |

**SCHEDULE - IV****[Seerules 3(m), 6(2), 13(1), 13(2)]**

| Year              | E-Waste Recycling Target (by weight)                         |
|-------------------|--------------------------------------------------------------|
| 2023-2024         | 15% of the sales figure of financial year 2021-22            |
| 2024-2025         | 20% of the sales figure of financial year 2022-23            |
| 2025-2026 onwards | 20% of the sales figure of the financial year two years back |

- The producer shall fulfill their extended producer responsibility through online purchase of extended producer responsibility certificate from registered recyclers only and submit it online by filing quarterly return.
- The details provided by producer and registered recycler shall be cross - checked on the portal.
- In case of any difference, the lower figure shall be considered towards fulfilment of extended producer responsibility obligation of the producer.
- The certificates shall be subject to environmental audit by the Central Pollution Control Board or any other agencies authorized by the Central Pollution Control Board in this regard.

For obtaining an EPR certificate, manufacturers and producers take responsibility of managing the waste generated by their product. This includes setting up collection centers for waste, ensuring its proper segregation and recycling, and adhering to all necessary compliances.

The EPR certificate promotes the recycling and reuse of e-waste, which reduces the cost of raw materials for manufacturers. It also ensures that e-waste is managed in an environmental friendly manner.

**E-Waste Management in Karnataka: Embracing Circular Economy Principles**

Karnataka, particularly its capital Bengaluru, stands as a prominent technology hub in India. This status has led to a substantial increase in electronic waste (e-waste) generation, necessitating effective management strategies. The state has been proactive in adopting circular economy principles to address this challenge, focusing on resource efficiency, waste reduction, and environmental sustainability.

**Circular Economy Initiatives**

Adopting a circular economy approach involves designing products for longer use, promoting reuse and refurbishment, and ensuring materials are recycled at the end of their life cycle. Karnataka has been encouraging manufacturers to register under Extended Producer Responsibility (EPR), mandating them to manage the end-of-life disposal of their electronic products. This initiative aims to reduce the environmental impact of e-waste and promote sustainable production and consumption patterns.

## Challenges and Opportunities

Despite these efforts, challenges persist. A significant portion of e-waste recycling is managed by the informal sector, which accounts for approximately 90% to 95% of the activity. This sector often lacks the necessary infrastructure and knowledge to handle e-waste safely, leading to environmental and health risks. Additionally, data on the quantity of Electrical and Electronic Equipment (EEE) introduced into the market is limited, complicating the assessment of e-waste generation and management.

## E-waste Management in Karnataka

In Karnataka, 104 E-waste Recycling units are operational (i) 30 dismantling units are operational with a capacity of 23436 TPA (ii) 34 recycler units with a capacity of 28712.04 TPA (iii) 8 dismantling and recyclers units with a capacity of 4560 TPA (iv) 12 refurbisher units of capacity 5088 TPA (v) 2 dismantler, refurbisher & recyclers units with a capacity of 4239.6 TPA (vi) 9 dismantlers and refurbisher units of capacity 13098 TPA and (vi) 20 refurbisher and recycler units with a capacity of 81635.92 MT.

- 45 E-waste Recyclers in Karnataka have obtained the EPR from the centralized CPCB E-waste Portal during 2024- 25
- 22 E-waste Refurbishers in Karnataka have obtained the EPR from the centralized CPCB E-waste Portal during 2024- 25
- 713 E-waste producers in Karnataka have obtained the EPR from the centralized CPCB E-waste Portal during 2024- 25

## Future Directions

To enhance e-waste management, Karnataka is focusing on:

- **Formalizing the Recycling Sector:** Integrating informal recyclers into the formal economy through training and certification programs to ensure safe and efficient e-waste processing.
- **Public Awareness Campaigns:** Educating consumers about the importance of proper e-waste disposal and the benefits of participating in take-back and recycling programs.
- **Policy Enhancement:** Drawing inspiration from international best practices such as the European Union's stringent e-waste regulations to strengthen local policies and enforcement mechanisms.

Karnataka's commitment to adopt circular economy principles in e-waste management reflects a forward-thinking approach to environmental sustainability. By addressing existing challenges and leveraging opportunities for improvement, the state aims to set a benchmark in responsible e-waste management, contributing to broader national and global sustainability goals.

## 7.6.6 Plastic Waste Management in Karnataka: Circular Economy Approach

Plastic products are integral to daily life and economic activity, being produced at massive scales worldwide. However, managing plastic waste is a growing concern due to its environmental and societal impacts. Karnataka, like many regions, is striving to address this issue through innovative strategies that focus on reducing, recycling, and repurposing plastic materials, moving toward a sustainable circular economy.

## Current Scenario of Plastic Waste Management in Karnataka

During 2023-24, Karnataka generated 3,45,308 tonnes of plastic waste. The state has 112 registered recycling units with a combined authorized processing capacity of 1,98,577 tonnes, reflecting significant progress in creating a recycling infrastructure.

To curb illegal plastic use, the Karnataka State Pollution Control Board (KSPCB), in collaboration with local bodies, has conducted 18,111 inspections/raids during 2024-25. These efforts led to the seizure of 223.09 metric tonnes of plastic and the imposition of penalties amounting to Rs.63.787 lakh, showcasing the state's commitment to enforcing regulations.

### Circular Economy in Plastic Waste Management

A circular economy emphasizes extending the life cycle of materials by reusing, recycling, and repurposing them, reducing the dependency on virgin plastic and minimizing waste. In this system, the traditional “take-make-dispose” model is replaced by a “close-the-loop” approach, which focuses on designing materials for recyclability and encouraging sustainable manufacturing practices.

#### Key aspects of the circular economy include

- **Recycling and Repurposing:** Converting plastic waste into secondary products like plastic lumber, packaging materials, and textiles.
- **Innovation:** Developing eco-friendly alternatives to traditional plastics, such as biodegradable or plant-based plastics.
- **Policy and Regulations:** Enforcing Extended Producer Responsibility (EPR) and supporting the production of recycled and upcycled products.

### Extended Producer Responsibility (EPR) System

Under the EPR framework, producers of plastic products are held accountable for the entire life cycle of their products, including waste management. This incentivizes the design of recyclable products and fosters investments in recycling infrastructure.

In Karnataka, KSPCB has registered 1,018 PIBOs (Producers, Importers, and Brand Owners) on the CPCB's centralized EPR portal during 2024-25. The details are as follows:

|                            |                          |     |
|----------------------------|--------------------------|-----|
| Number of registered PIBOs | Brand Owners             | 114 |
|                            | Producers                | 328 |
|                            | Importers                | 576 |
| Number of registered PWPs  | Plastic waste Processors | 112 |

Additionally, 112 plastic waste processors (PWPs) are registered, demonstrating a growing commitment to sustainable plastic waste management.

**Table 7.51: EPR targets for 2022-23 highlight the focus on managing various plastic categories:**

| Category     | Cat-I<br>(Rigid Plastic)<br>in TPA | Cat-II<br>(Flexible Plastic)<br>in TPA | Cat-III<br>(MLP)<br>in TPA | Cat-IV<br>(Compostable<br>Plastic) in TPA | Sub-Total in TPA   |
|--------------|------------------------------------|----------------------------------------|----------------------------|-------------------------------------------|--------------------|
| Brand Owner  | 16828.5329                         | 25581.7366                             | 3390.9352                  | 1091.4299                                 | 46892.6347         |
| Importer     | 5015.3463                          | 24101.8011                             | 1814.8886                  | 7.4076                                    | 30939.4436         |
| Producer     | 47923.6266                         | 173247.231                             | 19192.9659                 | 2991.968                                  | 243355.7912        |
| <b>Total</b> | <b>69767.5058</b>                  | <b>222930.768</b>                      | <b>24398.7897</b>          | <b>4090.8055</b>                          | <b>321187.8695</b> |

## K-Shore Project: A Coastal Initiative

To address plastic waste in Karnataka's coastal districts (Mangaluru, Karwar, and Udupi), the Government of Karnataka, with World Bank support, has launched the K-Shore project. This initiative aims to design a sustainable **"Blue Economy"** model for plastic waste management, with implementation planned over five years under the State Project Management Unit (S.P.M.U).

## Opportunities in Secondary Plastic Products

The manufacturing of secondary products from recycled plastics presents significant economic and environmental benefits. Common applications include:

- **Construction Materials:** Plastic lumber and insulation.
- **Consumer Goods:** Packaging materials, textiles, and eco-friendly alternatives like reusable bags and containers.
- **Industrial Applications:** Automotive components and fashion accessories.

By fostering innovation and supporting sustainable manufacturing, Karnataka can reduce its plastic waste footprint while creating new economic opportunities.

## Way Forward

To enhance plastic waste management in Karnataka and establish a robust circular economy, the following steps are recommended:

### 1. Policy Enhancements

- Implement comprehensive policies promoting the use of secondary plastic products.
- Strengthen bans on single-use plastics and provide incentives for biodegradable alternatives.

### 2. Infrastructure Development

- Expand recycling and processing facilities to cover the gap between waste generation and recycling capacity.
- Encourage public-private partnerships for investments in advanced recycling technologies.

### 3. Public Awareness and Education

- Conduct awareness campaigns on reducing plastic consumption and proper waste segregation.
- Promote the benefits of eco-friendly and upcycled products.

### 4. Strengthen EPR Mechanism

- Ensure strict compliance with EPR regulations to hold PIBOs accountable.
- Facilitate easy registration and reporting for PIBOs and PWPs.

### 5. Research and Innovation:

- Support R&D in biodegradable plastics, upcycling technologies, and alternative materials.
- Promote innovations for reusing plastic waste in sectors like construction, automotive and fashion.

By adopting these strategies, Karnataka can lead the way in achieving sustainable plastic waste management while creating a circular economy that benefits both the environment and the economy.

### 7.6.7 The important action points implemented by the Board

1. The Board is permitting co-processing of Municipal Solid Waste, Alternate Fuel & Raw Material (AFR) and incinerable hazardous wastes in the cement kilns. This will not only solve the waste disposal problem, but also reduce the waste reaching the landfills. The cement plants are also benefited as the consumption of fuel (coal/coke) is reduced in turn reducing the carbon foot print of the industry. At present, 10 cement units in Karnataka area permitted for co-processing of wastes.
2. The Board is insisting the cement plants, sugar industries etc., to install Water Heat Recovery Systems (WHRS) to produce power by recovering the waste heat from kiln / boiler exhaust. This will reduce the power generation using conventional fossil fuel sources thereby reducing the carbon foot print.
3. Compulsory Zero Liquid Discharge (ZLD) system is being enforced for managing the effluent from distillery and pharmaceutical industries thereby mitigating the effluent disposal problems.
4. Online Continuous Effluent / Emission Monitoring System (OCEMS), online flow meters, cameras are made mandatory for all 17 category of industries which enables the Board to exercise continuous vigilance on the industries.

### Green Company Rating System (GreenCo)

The Green Company Rating System (GreenCo), is the 'first of its kind in the world' framework, developed by CII in 2013 following extensive stakeholder consultation. GreenCo Rating makes a holistic assessment of a company's environmental performance at a unit level and guides the company towards improvement to facilitate world class competitiveness through green strategies. The GreenCo rating system is acknowledged by the Indian Government in its Nationally Determined Contribution (NDC) as an industry contributor to environmental performance improvement. The United Nations Industrial Development Organization (UNIDO) has recognized GreenCo as one of the top 50 global best practices facilitating green growth of industries, in its 50th anniversary publication. The GreenCo Rating is also listed as a Voluntary Sustainable Standard in the International Trade Centre (ITC)'s Sustainability map that promotes sustainable trade and consumption across the globe.

At present, the GreenCo Rating has been widely adopted by several leading public sector companies, private sector companies and SMEs from 20 different industry sectors. In this context, the KSPCB has signed a MoU with CII for promoting adoption of GreenCo in industries. So far 20 industries in Karnataka have obtained GreenCo certification and many others are in line. The scheme is greatly contributing to the sustainable growth of the state's economy.

Estimated Losses as per KSDMA and SDRF Norms due to Natural Calamities in the state from 2013 to 2023 listed in the **Table 7.52**

**Table 7.52: Estimated of losses due to Natural Calamities in the State from 2013 to 2023**

(Rs. Crores)

| Year of Natural Calamities | Estimated Loss as per KSDMA | As per SDRF Norms |
|----------------------------|-----------------------------|-------------------|
| <b>Due to Droughts</b>     |                             |                   |
| Kharif 2023                | 35,162.05                   | 18,171.44         |
| Kharif 2018                | 16,662.48                   | 2,434.00          |
| Rabi 2018                  | 11,384.47                   | 2,064.30          |
| Kharif 2016                | 17,193.00                   | 4,702.54          |

| Year of Natural Calamities | Estimated Loss as per KSDMA | As per SDRF Norms |
|----------------------------|-----------------------------|-------------------|
| Rabi 2016                  | 7,097.89                    | 3,310.83          |

## 8.1 INTRODUCTION

Karnataka has been spearheading the growth of Indian industry, particularly in terms of high-technology industries in the areas of electrical and electronics, information & communication technology (ICT), biotechnology and more recently, nanotechnology. The industrial structure of Karnataka presents a blend of modern high-tech capital goods and knowledge intensive industries on the one hand and traditional consumer goods industries on the other.

As per SDG India Index 2023-24 of NITI Aayog, Karnataka has stood at 7th place among states with respect to SDG 9 on Industry, Innovation and Infrastructure with a score of 62 out of 100. The states which are above Karnataka with score are Delhi, Haryana, Kerala, Punjab, Tamil Nadu and West Bengal. Performance of Karnataka vs India and performer States-Industry, Innovation and Infrastructure (SDG 9) is given **Table 8.1**.

**Table 8.1: Performance of Karnataka vs India and performer States-Industry, Innovation and Infrastructure (SDG 9) as per SDG India Index Report 2023-24**

| Indicators/States                                                                                                | Delhi | Haryana | Kerala | Punjab | Tamil Nadu | West Bengal | Karnataka | India | Target |
|------------------------------------------------------------------------------------------------------------------|-------|---------|--------|--------|------------|-------------|-----------|-------|--------|
| Percentage of targeted habitations connected by all-weather roads under Pradhan Mantri Gram Sadak Yojana (PMGSY) | NULL  | 100     | 99.50  | 100    | 100        | 100         | 100.00    | 99.70 | 100    |
| Percentage Share of GVA in manufacturing to total GVA (current prices)                                           | 4.94  | 19.94   | 9.51   | 16.82  | 20.43      | 14.40       | 13.06     | 14.34 | 25     |
| Manufacturing employment as a Percentage of total employment                                                     | 23.52 | 16.09   | 10.91  | 17.75  | 16.77      | 18.75       | 10.36     | 11.42 | 10.66  |
| % Share of GVA in Services to total GVA(current prices)                                                          | 85.20 | 51.09   | 64.12  | 45.56  | 53.05      | 55.13       | 65.41     | 64.18 | 63.26  |

Source : SDG India Index Report 2023-24.

Several initiatives have been taken by the State Government to improve the SDG indicators which has boosted the industrial growth. Industrial sector GSDP was Rs. 4,85,163 crore with the growth rate of 8.9% in 2023-24 which has increased to Rs. 5,29,575 crore with a growth rate of 9.20% in 2024-25. The contribution of the Industry Sector to the state GDP is 20.15% (Manufacturing Sector: 12.34%).

## 8.2 QUICK ESTIMATES OF INDEX OF INDUSTRIAL PRODUCTION

Quick Estimates of Index of Industrial Production (IIP) with base 2011-12 stands at 172.9 for the month of December 2024. The Indices of Industrial Production for the Mining, Manufacturing and Electricity sectors for the month December 2024 stand at 326.9, 162.5 and 154.6 respectively. Quick Estimates of Index of Industrial Production and Use-Based Index for the month of December 2024 with base year 2011-12 are presented in **Table 8.2 and 8.3**.

**Table 8.2: Index of Industrial Production—Sectoral**

**(Base: 2011-12=100)**

| Month                                                         | Mining     |         | Manufacturing |         | Electricity |         | General |         |
|---------------------------------------------------------------|------------|---------|---------------|---------|-------------|---------|---------|---------|
| Weight                                                        | (057.0100) |         | (801.0800)    |         | (141.9000)  |         | (100)   |         |
| Year                                                          | 2023-24    | 2024-25 | 2023-24       | 2024-25 | 2023-24     | 2024-25 | 2023-24 | 2024-25 |
| April                                                         | 259.3      | 270.3   | 144.8         | 146.6   | 145.0       | 160.1   | 151.3   | 155.5   |

As per Use-based classification, the indices stand at 115.0 for Primary Goods, 117.0 for Capital Goods, 197.9 for Intermediate Goods and 78.9 for Infrastructure/Construction Goods for the month of December 2024. Further, the indices for Consumer durables and Consumer non-durables stand at 141.4 and 309.2 respectively for the month of December 2024.

### 8.3 Organized Manufacturing Sector

The Annual Survey of Industries (ASI) provides detailed statistics on the manufacturing sector within the organized industrial sector. According to **Table 8.4**, which presents ASI statistics for registered factories in Karnataka for the years 2021-22 and 2022-23. In 2022-23, Karnataka accounted for 5.73% of the total registered factories in the country. The contribution of Karnataka's registered factories stood at 6.10% of total fixed capital, 6.17% of total output, 7.04% of Gross Value Added (GVA) and 7.13% of Net Value Added (NVA) in 2022-23. While the total number of registered factories in Karnataka showed a marginal increase in 2022-23 compared to the previous year, the state's relative contribution to national industrial performance in terms of total input and output, working capital, fixed capital, gross and net value added, and profits has seen a slight decrease during the same period.

**Table 8.4: Selected Key indicators of Registered Factories: Karnataka& All-India**

(Rs. Crore)

According to ASI 2022-23 with NIC-2008, the major industrial groups in the registered factory sector of Karnataka in terms of value of output are:

- (i) Manufacture of Basic Metals –14.83%
- (ii) Manufacture of Food Products -14.07%
- (iii) Manufacture of Coke and refined petroleum products –12.94%
- (iv) Manufacture of Motor vehicle, trailers & semi-trailers-8.18%
- (v) Manufacture of Machinery and equipment-7.10%
- (vi) Manufacture of Electrical equipment – 4.71% and
- (vii) Manufacture of Computer, electronic & optical products – 4.49%
- (viii) Manufacture of Chemical and Chemical products –4.03%
- (ix) Manufacture of Wearing Apparels –3.74%.

These nine industry groups together accounted for more than 74.09% of the total value of output of registered factories in Karnataka in 2022-23. Details are presented in **Appendix 8.1**.

Important indicators from registered factories, based on ASI results for 2021-22 and 2022-23, are presented in **Table 8.5**. Karnataka performs favorably compared to the all-India average across all indicators, including per factory employment, output, and gross value added. While registered factories in Karnataka are, on average, more capital-intensive than the national average, they are also more employment-intensive, generating higher value addition and output.

**Table 8.5: Important Indicators per Factory**

| Indicator                   | Unit     | 2021-22   |        | 2022-23   |        |
|-----------------------------|----------|-----------|--------|-----------|--------|
|                             |          | Karnataka | India  | Karnataka | India  |
| Investment in fixed capital | Rs. Lakh | 1739.8    | 1490.6 | 1732.4    | 1627.0 |
| Employment                  | No.      | 75.5      | 68.9   | 83.8      | 73.0   |
| Value of output             | Rs. Lakh | 5278.3    | 4771.1 | 6161.7    | 5718.4 |
| Gross Value Added           | Rs. Lakh | 1084.9    | 819.2  | 1066.3    | 867.3  |

**Table 8.6** presents selected economic indicators per worker for Karnataka and All-India. The data shows that annual wages per worker in Karnataka were higher than the all-India average. However, the state lagged behind the national average in terms of total output, input per worker, and net value added in 2022-23.

**Table 8.6: Selected Economic Indicators of Industries (2015-16 to 2022-23)**

| Year    | Labour productivity<br>(Net value added per<br>rupee in wages) |       | Total input per worker<br>(Rs. Lakh) |       | Total output per worker<br>(Rs. Lakh) |       | Annual wages per<br>worker (Rs.Lakh)<br>Annual wages per<br>worker (Rs.Lakh) |          |
|---------|----------------------------------------------------------------|-------|--------------------------------------|-------|---------------------------------------|-------|------------------------------------------------------------------------------|----------|
|         | Karnataka                                                      | India | Karnataka                            | India | Karnataka                             | India | Karnataka                                                                    | India    |

## 8.4 Micro, Small & Medium Enterprises

- Micro, Small, and Medium Enterprises (MSMEs) have long been recognized as critical engines of economic growth, especially in promoting sustainable development. These enterprises play an essential role in Karnataka's industrial sector, contributing significantly to the state's economy.
- As of December 2024, a total of 17.48 lakh MSME units have been registered on the Udyam portal, comprising 17.09 lakh Micro Enterprises, 35,906 Small Enterprises, and 2,941 Medium Enterprises. These registrations have collectively generated employment opportunities for 167.73 lakh individuals.
- During the year, under central sector scheme, Rs. 48.25 crore was provided as a subsidy to 1,548 beneficiaries through the Prime Minister's Employment Generation Programme (PMEGP) with bank loan assistance.
- During the year, under centrally sponsored scheme of Micro Small Enterprises- Cluster Development Programme (MSE-CDP) 3 clusters have been implemented in Belagavi and Uttarakannada districts.
- Till December 2024, a total of 29,60,732 applications have been registered under the PM Vishwakarma scheme.

### 8.4.1 MSME Registration

The Udyam Registration portal is a key initiative by the Government of India to facilitate the registration of Micro, Small, and Medium Enterprises (MSMEs). This system has been designed to streamline the process of MSME registration, adhering to the updated definition of MSMEs and promoting the Ease of Doing Business. The details of district wise Registered Micro, Small and Medium Enterprises and employment upto 30th December 2024 as per Udyam registration is given in below **Table 8.7** and the district wise information is depicted in the Maps.

**Table 8.7: District wise MSMEs registered units and Employment as per Udyam registration (up to December 2024)**

| Districts         | Micro          |                 | Small        |                | Medium      |               | Total Enterprises | Total Employment |
|-------------------|----------------|-----------------|--------------|----------------|-------------|---------------|-------------------|------------------|
|                   | Units          | Employment      | Units        | Employment     | Units       | Employment    |                   |                  |

## District wise Geographical MSME's Registered (up to December 2024)

## Year-wise Registration Trends

The year-wise breakdown of industries registered on the Udyam portal offers valuable insights into the growth and expansion of the MSME sector over time. This data serves as a tool to evaluate the effectiveness of government policies, track the growth trajectory of MSMEs, and identify regions with significant increases in MSME registrations. Details of MSME registration and employment from July 2020 to December 2024, as recorded on the Udyam portal, are presented in **Table 8.8**.

**Table 8.8: Details of MSME Registration and Employment from July 2020 to December 2024 as per Udyam Portal**

| Year                         | Units          | Employment      |

## 8.4.2 Important Schemes/Programmes

- 1. Micro Small Enterprises – Cluster Development Programme (MSE-CDP):** The Cluster Development Programme (MSE-CDP), initiated by the Ministry of Micro, Small, and Medium Enterprises (MSME), Government of India, aims to enhance the productivity, competitiveness, and capacity building of Micro and Small Enterprises (MSEs) through a cluster-based approach. For the year 2024-25, till December 2024, three clusters have been implemented with a project cost of Rs. 3,334.13 lakh and are functioning in Belagavi and Uttara Kannada districts, with the state contribution of Rs. 666.84 lakh.

Additionally, seven more clusters have been approved from Government of India with a project cost of Rs. 8,792.5 lakh. These clusters are located in the Belagavi, Davanagere, Gadag, Bagalkote, and Bengaluru districts. The cluster approach aims to create synergy among local MSMEs to enhance their competitiveness and strengthen their collective growth.

- 2. Rebate on Khadi Products:** During the year 2024-25, up to December 2024, a total of Rs. 1125.00 lakh was disbursed to 155 Khadi associations and institutions as Market Development Assistance (MDA) through the Khadi and Village Industries Board. Additionally, wage incentives totaling Rs. 1450.00 lakh were provided to support 114 societies Khadi workers engaged in spinning, weaving, and other artisanal activities, including staff at production centers and Khadi warehouses.

- 3. Schemes for Scheduled Castes (SC) and Scheduled Tribes (ST) Entrepreneurs**

- Entrepreneurs from SC/ST communities can avail of a 75% subsidy on plots or sheds allotted by KIADB/KSSIDC, with a maximum subsidy is for 2 acre per plot/shed.
- The government offers a 60% subsidy for SC/ST beneficiaries with a maximum of Rs. 5.00 lakh who wish to establish micro units, promoting business development and economic inclusion. Project cost not to exceed Rs. 10.00 lakh.
- The Soft Seed Capital Assistance scheme supports SC/ST enterprises by providing financial resources as interest free loan to help them establish new micro and small units, addressing financial constraints and facilitating business expansion.
- To enhance the skills, technical knowledge, and marketing capabilities of SC/ST entrepreneurs, the government provides financial support for study tours to other states or even countries.

- Processing fees, legal fees, one-time loan disbursement fees, and other charges are reimbursed when SC/ST entrepreneurs avail loans from institutions like Karnataka State Financial Corporation (KSFC) and other financial bodies.
  - A Power Subsidy scheme has been introduced to support new micro and small units owned by SC/ST entrepreneurs, aiming to reduce operational costs, especially the high electricity expenses, which are a significant challenge for new businesses.
- 4. Coir Sector Schemes in Karnataka:** The Government of Karnataka has introduced several schemes to support and promote the Coir sector, benefiting coir artisans, coir-based industries, and cooperatives. These initiatives include:
- **Marketing Development Assistance (MDA) Scheme:** This scheme aims to assist coir-based organizations in expanding their marketability, enhancing the competitiveness of coir products, and making them more accessible to broader markets.
  - **Wage Incentive Scheme:** To promote the coir industry at the Micro and Small Scale level, the government has implemented an additional wage incentive scheme to support coir artisans working in MSMEs, encouraging their participation and growth in the sector.
- 5. Prime Minister's Employment Generation Programme (PMEGP) :** Under this scheme, loans of up to Rs. 50 lakh for the manufacturing sector and up to Rs. 20 lakh for the service sector are provided through various banks. The government offers margin money assistance based on the applicant's category and location. For the general category, the assistance is up to 15% in urban areas and up to 25% in rural areas. For Scheduled Caste/Scheduled Tribe/OBC/Minorities/Women/Ex-Servicemen/ physically Handicapped, the assistance is up to 25% in urban areas and up to 35% in rural areas. This support aims to promote entrepreneurship and economic development across different sectors and regions. As part of the PM Self-Employment Scheme, a target has been fixed to support 3,379 projects with a total outlay of Rs. 9,257.19 lakh, aiming to generate 37,169 employment opportunities. So far, 17,028 persons have been employed, and 3,810 people have received training, with a total expenditure of Rs. 4,825.11 lakh.
- 6. PM Vishwakarma Scheme:** The PM Vishwakarma Scheme is a flagship initiative scheme to provide end to end support/assistance to the traditional artisans/crafts persons covering 18 activities. Under scheme-ID card, skill development, equipment incentives, credit facilities, incentives for digital transactions and marketing support facilities will be provided to the artisans. The initiative is fully financed by the central government and is expected to provide a financial outlay of Rs. 13,000 crore over a period of 5 years (until 2027-28), benefiting 30 lakh artisans.
- **Applications Registered:** A total of 29,60,732 applications have been registered under the scheme till December 2024.
  - **Training:** 3,96,717 artisans have been trained under the scheme to upgrade their skills.
  - **Loan Sanctions:** 29,922 artisans have been sanctioned loans to support their businesses and expand their operations.
  - **Verification and Ongoing Training:** Applications are at various stages of verification, and training is being provided to qualified artisans who have been successfully verified.

#### 8.4.3 Financial Achievements under MSME sector

During the year 2024-25 a total of Rs. 68,738.37 lakh allocation has been provided in the Budget to the MSMEs sector, out of which Rs. 24,473.35 lakh spent up to December 2024. Important scheme wise achievements are as follows:

1. **Capital Investment Subsidy:** Rs. 7,746.85 lakh has been released to 647 Micro, Small, and medium industries. Year-wise financial assistance provided to these industries from 2020-21 to 2024-25 (up to December 2024) are presented in **Table 8.9**.
2. **Interest Subsidy:** Rs. 1,151.25 lakh has been released to Micro and Small industries that have taken loans from KSFC.
3. **Plot Subsidy:** Rs. 10,000.00 lakh has been released through KIADB under the Special Component Plan and Tribal Sub Plan.
4. **Wage Incentive:** Rs. 1,125.00 lakh has been disbursed to 155 workers in the Khadi sector and Market Development Assistance (MDA) of Rs. 1450.00 lakh has been released to 114 Khadi associations/ organizations.

**Table 8.9: Financial Assistance provided to MSME from 2020-21 to 2024-25 upto December 2024**

| Year                     | Units | Subsidy released to the units<br>(Rs. in Lakh) |
|--------------------------|-------|------------------------------------------------|
| 2020-21                  | 735   | 9520.72                                        |

#### 8.4.4 Financial Achievement under Large & Mega sector

During the year 2024-25, a total budget allocation of Rs. 1,12,271.31 lakh has been provided for the Large & Medium sector, of which Rs. 70902.39 lakh has been spent up to December 2024. Important scheme-wise achievements are as follows:

1. **Loan against VAT Payment:** Rs. 58,675.92 lakh has been released to 8 large and mega industries.
2. **Incentives and Concessions:** Rs. 6,000.00 lakh has been released to 17 large industries.
3. **Vishweswaraiah Trade Promotion Centre (VTPC):**
  - Conducted 5 Export Management Training Programs (EMTP).
  - Organized 6 Export Awareness Programs/EDP/Seminars/Workshops/Stakeholders Outreach sessions.
  - Represented at 6 export programs organized by like-minded institutions.
  - Conducted 18 Intellectual Property Rights (IPR) Awareness and Geographical Indication (GI) programs.
  - Market Development Assistance (MDA): VTPC provided MDA to 3 enterprises to participate in international exhibitions to promote exports and trade.
  - Participation in IITF of Delhi (India International Trade Fair): VTPC participated in the event to facilitate market opportunities for 60 MSMEs and artisans.

#### 8.4.5 Karnataka Udyoga Mitra

Karnataka Udyoga Mitra is a key initiative by the Government of Karnataka, established to promote industrial development and facilitate ease of doing business in the state. 02 SLSWCC (State Level Single Window

Clearance Committee) meetings were held during 2024-25, 78 projects with an investment of Rs. 5,795.78 crores were approved. These projects are likely to create employment for 16,752 people.

#### 8.4.6 Invest Karnataka Forum

Government has constituted a Strategic Investment Committee (SIC) comprising professionals from diverse fields such as equity firms, venture capital firms, start-ups, philanthropist organizations.

The Government of Karnataka, through the Invest Karnataka Forum (IKF), hosted the prestigious 'Global Investors Meet - Invest Karnataka 2025' from 12th to 14th February 2025 at Bangalore Palace, Bengaluru. This landmark event aims to showcase Karnataka as a premier investment destination, attract significant foreign investments, and fostering economic growth in the state.

#### Global Investors Meet – Invest Karnataka 2025

##### Investment Summary

Total investments committed to Karnataka as part of GIM is INR 10.27 lakh crore with employment generation of over 6 lakh. The following table captures the summary of investments.

| Category                                    | Amount (in INR crore) |
|---------------------------------------------|-----------------------|
| Investment commitments recognised/announced | 4,03,533              |
| MoUs signed                                 | 6,23,845              |
| <b>Total</b>                                | <b>10,27,378</b>      |

~75% of these investments are outside Bengaluru district.

More than 45% of these investments are in North Karnataka. In Bijapur specifically, INR 42k crore Investment (~80% confirmed, others evaluating investment in Bijapur within Karnataka)

##### Sector-wise investments

**Table 8.10** summarizes the investments across different sectors. The major share is contributed by Renewable Energy (41% of total investments), followed by Manufacturing – Core (15%), Sunrise sectors (14%), Infrastructure & Industrial/ Logistics Parks (11%), General manufacturing (10%) and Startup capital (9%).

**Table 8.10: Summary of investments across different sectors**

|                                                                                                                      | Investment commitments recognised/announced | MoUs signed     | Total            |
|----------------------------------------------------------------------------------------------------------------------|---------------------------------------------|-----------------|------------------|
| Manufacturing - Sunrise Sectors (A&D, Auto/ EV, ESDM, R&D/GCC)                                                       | 75,274                                      | 63,719          | 1,38,993         |
| Manufacturing - General (Food and Agri, Textiles, pharma, machine tools, FMCG, etc)                                  | 52,400                                      | 52,619          | 1,05,019         |
| Manufacturing - Core (Steel, Cement, etc)                                                                            | 16,143                                      | 1,43,700        | 1,59,843         |
| Renewable Energy                                                                                                     | 81,356                                      | 3,44,425        | 4,25,781         |
| Infrastructure & Industrial/ Logistics (City Gas Distribution, Telecom, Airports, Skilling infra, Data Centres, etc) | 88,492                                      | 19,382          | 1,07,874         |
| Startup capital                                                                                                      | 89,868                                      |                 | 89,868           |
| <b>Total</b>                                                                                                         | <b>4,03,533</b>                             | <b>6,23,845</b> | <b>10,27,378</b> |

Source: Invest Karnataka Forum

Of the projects from the industries department, ~70% of the projects are greenfield projects.

**List of key investment announcements during Global Investors Meet include**

1. **JSW Group**— INR 1,20,000 crore across renewable energy, cement, steel and affiliate businesses.
2. **Baldota Steel & Power Limited** – INR 54,000 crore investment for an integrated steel plant.
3. **Lam Research** - INR 10,000 crore investment for semiconductor equipment manufacturing and R&D.
4. **Volvo** – INR 1,400 crore for manufacturing of EV trucks.
5. **SamvardhanaMotherson** – INR 3,700 crore for manufacturing, engineering and assembly facilities.
6. **Safran** – INR 225 crore for manufacturing of avionics.
7. **Honda** – INR 600 crore For manufacturing of EV 2 Wheelers.
8. **Emmvee Energy Private Limited** – INR 15,000 crore investment for manufacturing solar photovoltaic cells and modules.
9. **RSOLEC** – INR 5000 crore towards manufacturing of solar ingot wafers.
10. **International Battery Company** – INR 390 crore for Li-Ion Cell manufacturing.
11. **Krones** – INR 315 crore for bottling machine manufacturing.
12. **NIDEC** – INR 600 crore for manufacturing of motors.
13. **TASL** – INR 1,530 crore for Helicopter Final Assembly Line (FAL) for Airbus' H125, Gun manufacturing & other projects.
14. **Wings Viterra** – INR 350 crore for multi pulse processing plant.
15. **Balaji wafers** – INR 550 crore for manufacturing and distribution of salty snacks and wafers.
16. **Mahindra Susten Pvt Ltd.** – INR 36,000 crore across renewable energy projects and tourism.
17. **Hero Future Energies** – INR 22,200 crore investment for projects in renewable energy, green hydrogen and its derivatives.
18. **Epsilon Group** – INR 15,350 crore investment for manufacturing anode and cathode materials.
19. **Shree Cement Limited** – INR 8,350 crore Investment for integrated plant and clinker grinding unit.
20. **Schneider Electric** – INR 2,247 crore for manufacturing of electrical products and related Research and Development (R&D) activities.
21. **Hitachi Energy** – INR 1,000 crore across manufacturing and R&D.
22. **Havells** – INR 710 crore For expansion of existing manufacturing at Tumkur and also new R&D facility in Bangalore.
23. **Suzlon Energy Ltd.** – INR 21,950 crore investment for wind power projects and wind turbine generator manufacturing.
24. **ESR Advisers** – INR 2,500 crore for setting up industrial parks and data centres.
25. **TVS Motor Company** – INR 2,000 crore to establish a state-of-art R&D facility.

In addition, there were 10 KWIN MoUs signed with both domestic and international universities including MoU signed with St.John's University from New York, United States of America.

In the lead up to GIM, MoU also signed with University of Liverpool for enhanced collaboration between Liverpool and Govt. of Karnataka

## 8.5 SELECTED INDUSTRIAL SECTORS

### 8.5.1 Food Karnataka Limited

#### I. Status of Implementation of Food parks

The Food Karnataka Limited (FKL) is a special purpose vehicle to provide state of art infrastructure to food parks. Under the administrative control of Karnataka State Agricultural Produce Processing and Export Corporation Limited (KAPPEC). Since it started functioning, FKL has been liaising with the line departments such as Agriculture, Horticulture, Animal Husbandry, Fisheries, Food Processing and Commerce & Industries Departments, towards attracting investments into agribusiness and food processing sector. Government of Karnataka and the Union Governments have been giving special focus and thrust on the agribusiness and food processing activities in order to provide an effective market linkage and value addition to the farm produce so that farming community at large reap the benefits of getting a reasonable return for their produce.

Food Karnataka Ltd. is the nodal agency looking at food parks in the state. Four food parks are currently operating in the state. Details of the food parks are as follows:

1. **M/s. Innova Agri Bio Tech Park Limited, Malur:** Under this food park, 14 food processing units are operating, and Rs. 400 lakh each has been released by state and central government.
2. **M/s. Green Food Park Limited, Bagalkote:** Under this food park, 06 food processing units are operating, and Rs. 700 lakh has been released by state and central government.
3. **M/s. Akshaya Food Park Limited, Hiriya:** Under this food park, 08 food processing units are operating, and Rs. 400 lakh each has been released by state and central government.
4. **M/s. Jewargi Agro Food Park Limited, Jewargi:** Under this food park, 07 food processing units are operating, and Rs. 796 lakh has been released by state and central government.

#### II. Status of establishment of Mega Food Parks in the State

##### India Food Park, Tumakur

This food park has been developed on 110 acres of land at Vasanthanarsapura Industrial Area, Kora Hobli, Tumakuru District, with a total investment of Rs. 218.48 crore. Approximately 31.96 acres of land have been allocated for common infrastructure facilities, while 40 acres have been allotted to food processing entrepreneurs. The food park is functional.

##### Favorich Mega Food Park

This food park is being developed on 60 acres of land at KR Pet Taluk, Mandya District, with an investment of Rs. 113.83 crore. Around 29.43 acres are earmarked for common infrastructure facilities. Construction of the food park is under progress.

#### III. Food Parks under the State Scheme

To promote processing, value addition and export of agricultural and horticultural produce, food parks are being established near Airports under Public-Private Partnership.

Two Food Parks will be established on 75 acres of land in Ittangihala village, Vijayapura district and 97.36 acres in Sogane village, Shivamogga district, both owned by Food Karnataka Corporation. The preparation of detailed project reports by NABCONS is underway and the food parks will be set up by availing loans from NABARD under the Food Processing Fund. Common infrastructure facilities will be developed, and industrial

sites for food processing units will be prepared and allotted to eligible entrepreneurs on a rent/lease-cum-sale basis for setting up their units.

### 8.5.2 Handloom & Textile Department

The budget Allocation of Rs. 408.64 crore was made in the budget for 2023-24. An amount of Rs. 408.64 crore has been released and incurred expenditure of Rs. 408.48 crore for implementation of various schemes.

The Budget allotment for the year 2024-25 is Rs. 37,300.00 lakh, an amount of Rs. 10,561 lakh has been released and expenditure of Rs. 9,020.42 lakh has been incurred upto December 2024 for implementation of various schemes.

Providing subsidy for establishment of small and micro units SCSP/TSP Scheme: Under SCSP/TSP scheme, a subsidy of Rs. 27.59 crore has been provided for the establishment of 35 Scheduled Caste beneficiary units, while Rs. 16.81 crore has been provided for 27 Scheduled Tribe beneficiary units.

Under Weavers' Package KHDC: Rs. 12.00 crore was released to the Karnataka Handloom Development Corporation in 2023-24 under the Weavers' Package for implementing general programs.

Details of Handloom Weavers and Looms in the State, Registered Weavers Co-op. Societies and Particulars of co-operative Spinning mills in the State are presented in **Appendix 8.2, 8.3 and 8.4** respectively.

### 8.5.3 Sericulture

Sericulture is one of the major employment generating sectors in the State and its growth has immense employment generation potential, particularly in rural Karnataka. A total of Rs. 399.08 crore provided to the department in the 2024-25 budget (includes both State Sector and District Sector schemes). Rs. 61.51 crore has been provided under the Central Sector Silk Samagra scheme, Rs. 38.57 crore under the Central Sponsored Pradhan Mantri Krishi Sinchayi Yojane (PMKSY) and the overall allocation of Rs. 499.16 crore provided during the year.

Financial assistance provided to the Sericulturists is Rs. 5700.88 lakh and for reelers is Rs. 230.23 lakh during 2024-25 up to December. The State's raw silk production stands at 9698.725 MTs till December 2024, while India's raw silk imports till October 2024 stands at 1,193 MTs. During 2023-24 mulberry silk production in Karnataka was 12,462.669 MTs.

During 2024-25 following new programmes has been announced

1. Ramanagara and Shidlaghatta are known as the largest cocoon markets in Asia. In the first phase, Rs. 150 crore has been allocated to develop as hi-tech markets. Phase-1 will be completed shortly and Phase-2 will be subsequently taken up at a cost of Rs. 250 crore
2. Raw silk reelers will be provided an incentive of Rs. 6 crore annually
3. An incentive of Rs. 10/- per kilo is being currently provided to bivoltine silk cocoon. This will be enhanced to Rs. 30/-per Kilo.

### 8.5.4 Karnataka Information Technology and Biotechnology Services

Karnataka's IT revolution began in 1984, with a significant milestone achieved in 1992 when the Software Technology Parks of India established its first Earth station in Bengaluru. One of the top sectors in Karnataka, the Information Technology and Biotechnology (IT & BT) sector, has consistently shown an upward trend since its inception. Achievements in the IT and BT sectors from 2021-22 to 2024-25 up to December 2024 are presented in **Table 8.11**.

**Table 8.11: Achievements in IT & BT Sector for the year 2021-22 to 2024-25 (up to December 2024)**

| Particulars                            | Units       | 2021-22   | 2022-23   | 2023-24   | 2024-25<br>(up to Dec 24) |
|----------------------------------------|-------------|-----------|-----------|-----------|---------------------------|
| Software Exports                       | Rs.in crore | 266263.00 | 355169.00 | 404165.00 | 260733.00                 |
| No STP Units Approved                  | Number      | 169       | 205       | 212       | 181                       |
| Investment from STP Units Approved     | Rs.in crore | 569.35    | 874.07    | 1665.87   | 793.04                    |

Source: Software Technology Parks of India, Bengaluru

Note: 1) The Software Export details provided from FY 2016-17 onwards includes the details of STP units and Unit registered for Softex Certification. 2) BPO Export from FY 2019-20 onwards includes only BPO and Call center services. 3) \*BPO export for FY 2024-25 will be provided after submission of APR.

### 8.5.5 Geology and Mining Sector

The Department of Mines and Geology is one of the leading scientific and technical departments of the State. The contribution of the department is immense in sustainable development of the State by promoting environment friendly and scientific mining. The annual target of revenue collection for the Department of Mines and Geology in the year 2024-25 is Rs. 9000.00 crore. The revenue target till December 2024 was Rs. 6480.00 crore and the achieved revenue collection is Rs. 5404.88 crore.

## 8.6 STATUS OF PUBLIC ENTERPRISES IN KARNATAKA

### 8.6.1 Karnataka State Small Industries Development Corporation (KSSIDC)

Karnataka State Small Industries Development Corporation Limited (KSSIDC) promotes the development of Small Scale Industry (SSI) sector by developing Industrial Estate. Thereby, the department provides industrial plots and sheds to entrepreneurs, for production and for procurement and distribution of raw materials. The amount of Royalty collected is Rs. 0.54 crore till December 2024. 6628 number of sheds and 10646 industrial plots are established till December 2024.

- To support the development of small-scale industries and meet the demands of prospective entrepreneurs in the MSME sector, the Corporation plans to establish seven new industrial estates across the state. The Corporation has already acquired 47.06 acres of government land at Kodkani, Malalavalli in Sirasi Taluk, Uttara Kannada District, 30.33 acres of KIADB land at Chittapur, Kalburgi District, 25 acres of KIADB land at Kanagala, Belagavi District, 25 acres of KIADB land at Badnaguppe, Chamarajnagar District, and 19.38 acres of government land at Indi, Vijayapura District. Actions are in progress to establish these industrial estates.

- Recently, the Revenue Department sanctioned 48 acres of government land at Halisagar village, Shahapur. Action will be taken to issue tenders for the establishment of an industrial estate on this land.
- To establish new industrial estates, the Corporation has submitted proposals to KIADB for the allotment of land in the following locations: 50 acres in Adinarayana Hosahalli, Bengaluru Rural District, 25 acres in Bhavana Halli, Vemgal Taluk, Kolar District, 25 acres in Harohalli, Kanakapura Taluk, Ramanagara District, 100 acres in Nandur Kesaratagi, Kalburgi District, 100 acres in Metikurki, Hiriur Taluk, Chitradurga District and 100 acres in the Dharwad Industrial Area.
- Additionally, the Corporation has submitted proposals to the concerned Deputy Commissioners for the allotment of 25 to 50 acres of government land in the districts of Bagalkote, Ramanagara, Kalburgi, Dakshina Kannada, and Belagavi, as well as 100 acres of government land in Kolar District, for the establishment of industrial estates.
- After receiving a positive response from the Government and KIADB regarding the allotment of lands, the Corporation will proceed with the necessary actions for land demand assessment and feasibility studies to establish new Industrial Estates.
- K.S.S.I.D.C. has been continuing to serve the M.S.M.E. units in the State by procuring and distributing various Industrial Raw materials required by them like Iron & Steel etc., through its raw material depots. But due to central Government Policy regarding de-control of raw materials like Iron and Steel and inadequate staff strength in KSSIDC, the supply of raw material activity has been stopped from 2024-25.

### 8.6.2 Karnataka State Industrial Area Development Board (KIADB)

KIADB has so far acquired and developed 215 Industrial Areas in 31 Districts of the State covering an extent of 86850 acres providing infrastructural facilities viz. Roads, Electricity, water supply etc. In order to facilitate land acquisition activities for industrial development, State has introduced a land-sharing scheme. KIADB acquired lands, wherein about 10781.00 sq.ft. of developed land will be provided to the land owner in lieu of land compensation fixed for one acre of land acquired. The performance of KIADB for the last five years is presented in **Appendix 8.5**.

### 8.6.3 Karnataka State Electronics Development Corporation Limited (KEONICS)

KEONICS has undertaken numerous projects for providing and programming IT software and e-governance solutions to various government departments of Karnataka and other states. The company also markets computer hardware, software, e-tendering services, electronic and IT equipment's, surveillance cameras, manpower, and other related services to government departments and organizations across Karnataka and other states.

KEONICS has established Electronics City on a sprawling 332 acres of land on Hosur Road, Bengaluru, which has become a major hub for information technology activities. The Government of Karnataka has also established other IT parks across the state, including:

- An IT Park in Hubballi with state-of-the-art infrastructure with total investment of Rs. 43.00 crore.
- An IT SEZ in Nidige-Machenahalli, Shivamogga, covering 25 acres.
- An IT Park in Shivamogga spanning 5 acres, developed at a cost of Rs. 16.10 crore.
- An IT Park in Kalburagi, built in 1.72 acres at a cost of Rs. 11.24 crore.
- A 75,000 sq. ft. IT Park (K-Wings) complex at HSR Layout, Bengaluru, constructed at a cost of Rs. 33.71 crore.
- A 453.9 sq. mtr. building at Peenya 1st Stage, Bengaluru, constructed at a cost of Rs. 5.04 crore.

### New Initiatives

- It is proposed to establish an IT park in a 3.25 acre land in Mangaluru, with a built-up area of 3.43 lakh sq. ft., under the PPP model.
- Another IT Park annex, Phase-II, is proposed on 2.5 acres of land adjacent to the existing IT park at Machenahalli Industrial Area, Shivamogga, with a built-up area of 1.80 lakh sq. ft., also under the PPP model.
- DPR & Feasibility report prepared on PPP model to set up Hardware / Software IT Park in 12 Acres of land at High-tech Defence and Aerospace Park (IT sector), near Kempegowda International Airport, Bengaluru.
- Transaction advisory services for preparing DPR and Feasibility report for renovation of the existing building having 2.77 lakh sq.ft built up area is being called for IT Park Hubballi.
- Transaction advisory services have also been called for the monetization of land parcels in Hubballi (0.85 acres at Technology Park Rayanala Grama) and Mysuru (5 acres at Technology Park Mysuru, Hebbal Industrial Estate).
- As of December 2024, the total turnover achieved is Rs. 35.31 crore with a profit after tax is Rs. 3.68 crore.

### 8.6.4 Department of Factories, Boilers, Industrial Safety and Health

The Department of Factories, Boilers, Industrial Safety, and Health is responsible for ensuring the occupational safety, health, and welfare of workers in registered factories and at construction activities with investments above Rs. 25 crore through effective enforcement.

The State of Karnataka is having 18,823 registered factories employing 18,33,021 workers, with 3,376 active boilers. Considering the volume of hazardous chemicals stored, there are 91 Major Accident Hazardous Factories spread across 21 districts in the state. Additionally, around 1,625 factories are engaged in hazardous manufacturing processes, with regular inspections conducted to prevent potential accidents. The department also provides essential support to factory managements to ensure occupational safety and health in the workplace. A detail of departmental activities is presented in **Table 8.12** and a list of registered factories by industry for 2024-25 is available in **Appendix 8.6**.

**Table 8.12: The details of the departmental activities in 2024-25 (up to December 2024)**

| Particulars                            | 2024-25   |
|----------------------------------------|-----------|
| Registered Factories                   | 708       |
| Total Registered Factories             | 18,823    |
| Total Workers                          | 18,33,021 |
| Inspections of Factories               | 7959      |
| Prosecution (court Cases)              | 123       |
| No. of cases in which fines is imposed | 55        |
| Compliance reports received            | 5973      |
| Registered Boilers                     | 154       |
| Total Working Boilers                  | 3376      |
| Inspections of Boilers                 | 1520      |

### 8.6.5 Karnataka State Financial Corporation (KSFC)

KSFC takes pride in being a pioneer institution, providing financial assistance to MSMEs in both the industrial and service segments in the state for the past 65 years. For the year 2023-24, the Corporation Sanctioned 827.13 crore, disbursed 613.04 crore & recovered 820.85 crore. The Corporation earned profit before tax of Rs. 143.28 crore and profit after tax of 115.58 crore.

#### New Schemes Introduced in Financial Year 2023-24:

- Implementation of Interest Subsidy loan scheme upto Rs. 10.00 crore for Backward Classes (Category-I and Category-2 Caste) entrepreneurs.
- Implementation of Interest Subsidy loan scheme upto Rs. 10.00 crore for the entrepreneurs belonging to Minority Community.
- Enhancement of eligible Interest Subsidy loan from Rs. 2.00 crore to Rs. 5.00 crore in Interest Subvention Scheme for new and existing Micro & Small enterprises in service sector promoted by women entrepreneurs.

During the year 2024-25 up to December 2024, the Corporation has sanctioned 420 unit cases to an extent of Rs. 542.22 crore, disbursed Rs. 465.69 crore and recovered Rs. 588.24 crore. Beneficiaries under Self Employment Schemes are summarized in **Appendix 8.7**.

### 8.6.6 Karnataka State Industrial Investment & Development Corporation (KSIIDC)

KSIIDC is the nodal agency of the State Government for the development of industrial investment and infrastructure in Karnataka. The Corporation has initiated activities for the development of the following projects.

- Kempegowda International Airport, Bengaluru
- Aviation Development including development of Airports & Heliports
- Assisting Government regarding PPP Projects
- Tadadi Eco Tourism Project
- Development of Dash Board (Project Monitoring Software)
- Bengaluru Signature Bussiness Park
- Access Flyover
- Development of Balepura Land
- Development of Land situated at Hubballi-Dharwad

In addition to the above activities in the infrastructure sector, the corporation is also responsible for Settlement of remaining loan accounts under the proposed new OTS policy and Sale of primary assets taken over under section 29 and recovery of advances through legal recourse under SFC & other Acts. Department target & achievements are given in **Appendix 8.8**.

### 8.6.7 Public Enterprises

1. Government of Karnataka had established the Karnataka State Bureau of Public Enterprises in the year 1981. In the year 2002, this Bureau was converted into Department of Disinvestment and Public Enterprises Reforms. Thereafter, in the year 2005 Government of Karnataka had accorded independent status to this department and re-named it as the Department of Public Enterprises with vested responsibility of

monitoring, regulatory, evaluator and advisory function for the betterment and effective functioning of the state owned PSU's.

2. Subsequently, during 2022, the Department of Public Enterprises was abolished and the function of the said department were transferred to the Finance Department. Since then, Finance Department has been functioning as an overseeing, co-ordinating and monitoring authority in respect of matters relating to functioning of State PSE's Enterprises/Boards/ Corporations/ Societies under the State Government. Since the time of merger of the Department of Public Enterprises with Finance Department, the Finance Department has been actively working towards restructuring and strengthening the PSU's.
3. A Government Company is defined in Section 2 (45) of the Companies Act, 2013 as a company in which not less than 51 per cent of the paid-up share capital is held by Government. In Karnataka, PSUs consist of State Government Companies and Statutory Corporations. SPSUs are established to carry out activities of commercial nature keeping in view the welfare of people and occupy an important place in the State economy. As on 31 March 2023, there are 125 SPSUs in Karnataka, including six Statutory Corporations.
4. Numerous effective and credible measures have been taken by the Finance Department from time to time to ensure effective and efficient functioning of the PSUs. With a view to assess the financial and administrative performance of the organizations; regular review meetings of the PSUs are convened and the companies are briefed on prudent and efficient administrative, legal, operational and financial practices with respect to the issues listed below, so as to steer the Companies towards efficiency and good governance;
  - i. Every financial year, the companies have been advised to conduct minimum four quarterly Audit and Accounts Committee meetings, four Board meetings, two Nominations and Remuneration Committee meetings (as applicable) & quarterly Investment Committee meetings (as applicable). The Board meetings shall be preceded by the Audit and Accounts Committee meetings to ensure that the Board receives and acts upon the recommendations based on the audited financials as provided by the Audit and Accounts Committee.
  - ii. CSR fund allocation and disbursement, as notified under the Companies Act, 2013.
  - iii. Stressing on compliance to Circular No. FD 55 INV 2024 dated 25.06.2024 issued on prudent financial management in state PSEs, Boards, Corporations.
  - iv. The companies to on-board independent directors with financial and domain expertise to provide unbiased objective opinion and guidance, with added prominence given to roping in women directors.
  - v. Implement business parameters in day-to-day operations including cost benefit ratio, cost effective ratio and incremental capital output ratio and other ratios / business metrics relevant to the business undertaking.
  - vi. PSEs to mandatorily use the e-office system of file and receipt management, as in practice in other Government organizations and offices.
  - vii. Evaluate profits, revenue and expenditure for every full-time / part-time employee to rationalize and re-structure the administrative, technical and other related wings for effective functioning of the company.
  - viii. Cadre and Recruitment rules to be evaluated and amended from time to time, to make it forward looking and equitable

- ix. A registry of term deposits to be strictly maintained and physical review and reconciliation of the term deposits (FDRs) by the concerned officials should be carried out monthly without fail and the same be recorded.
  - x. To pay regular dividend of 30% on PAT to GoK. In case the dividends are already paid and lesser than the recommended percentage, the organizations are advised to remit the difference dividend with the remittance in the coming financial year. Additional dividend, if specified by the Finance Department, to also be remitted without fail, in the FY specified.
  - xi. The option of converting the bank accounts to flexi accounts to be exercised on priority.
5. Further, in line with the ongoing efforts, a recent development was the approval accorded by the Cabinet for the initialization of Inter Corporate Deposits (ICDs) to foster a strong financial support system within the PSUs. ICD presents opportunity for the PSUs with surplus funds to achieve higher returns by deploying the surplus capital at competitive interest rates compared to bank deposits. Simultaneously, borrowing entities benefit from accessing funds at interest rates lower than those typically offered by commercial banks or other financial institutions. To begin with, vide GO No. FD 134 INV 2024, dated 06.01.2025, ICD is introduced restricting the transaction to Energy and Transport sector aiming to promote financial prudence in the sector and mutual benefits across Karnataka's PSUs.
  6. To streamline the functioning of the PSUs, several circulars/guidelines have been issued directing the State PSE's on matters of corporate governance such as annual general meetings with in due date, appointment of independent directors, replies to pending audit paras, constitution of audit committee etc., some of them are listed here for ready reference.

| Subjects                                                                                                                                                                        | Order Number and Date                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|
| <b>Regarding payment of Minimum Dividend by PSUs</b>                                                                                                                            | <b>GO No. FD 50 INV 2020; Dated: 19.10.2022</b> |
| Appointment of Independent Directors                                                                                                                                            | Circular No: FD 91 INV 2023; Dated: 12.09.2023  |
| Preparation of quarterly financial results by Gok-Owned Companies                                                                                                               | Circular No. FD 101 INV 2023; Dated: 07.11.2023 |
| Government Guarantee Policy                                                                                                                                                     | Circular No. FD 106 INV 2023; Dated: 06.06.2024 |
| Dematerialization of Share Certificates issued in the name of Governor                                                                                                          | Circular No. FD 10 BSD 2023; Dated: 14.06.2024  |
| Prudent financial management in State PSUs, Boards, Corporations, Local Bodies, Universities and Medical Colleges etc.                                                          | Circular No. FD 55 INV 2024; Dated: 25.06.2024  |
| Payment of Special Dividend – reg.                                                                                                                                              | GO. No. FD 51 INV 2024; Dated: 15.07.2024       |
| Reminder to pay Special Dividend                                                                                                                                                | Circular No. FD 51 INV 2024; Dated: 29.10.2024  |
| Borrowing Powers of the Board of Directors                                                                                                                                      | FD 106 INV 2024; Dated: 20.11.2024              |
| Adoption of Pay scales as recommended by the 7th Pay Commission in the State PSUs, Boards, Corporations, etc.                                                                   | FD 131 INV 2024, Dated: 25.11.2024              |
| Implementation of Inter Corporate Deposits (ICDs) by select State-owned Public Sector Undertakings(PSUs)                                                                        | Approved by Cabinet Note                        |
| Compliance with the provisions of the sexual Harassment of women at workplace (Prevention, Prohibition & Redressal) Act, 2013 and constitution of Internal Complaints Committee | Circular No: FD 172 INV 2024, Dated: 06.01.2025 |

7. It is noticed, that the non-working SPSUs have investment of Rs. 160.21 crore towards capital and Rs. 449.39 crore towards long term loans. This is a matter of serious concern, as the investments in non-working PSUs do not contribute to the economic growth of the State. Therefore, as advised in SFAR 2023 and with the concurrence of the Cabinet, the Administrative Department are advised to conduct a thorough evaluation of all the companies under its administrative expanse as per the provisions of the Companies Act, 2013, the Insolvency and Bankruptcy Code, 2016, Income Tax Act, 1961 and the financial conditions of the company/properties owned by such company and other relevant matters. Based on the findings, the Administrative Department is advised to explore strategic options such as amalgamating/merging the company with another financially stable company where there are evident and justified. This corrective measure will result in ensuring prudent financial management-better capital asset benefits being harnessed, and substantial reduction in running expenditure.
8. Due to the various supporting efforts by the Government, 20% of the PSUs are in profit and substantially contributing to the revenues of the State through regular payment of Dividends. Details of such top 10 profit-making State PSE's are given in the following **Table 8.13**.

**Table 8.13: Top 10 Profit-making State Public Enterprises in Karnataka****(Rs. in crore)**

| Name of the Enterprises                                    | Enterprises Status As on 31.03.2024 |                         |              |                                     | Enterprises Status as on 30.11.2024 |                      |

Source: Finance Department

9. To further support and strengthen the PSU's, based on their financial forte and debt servicing health, financial assistance in the form of grants, loans, equity, government guarantees are extended as and when required for efficient and continued functioning based on the requirement of the services of the State PSU's.
10. In the competitive and rapidly changing environment, to improve the efficiency, productivity and to systemize the "system & structure" of the State PSE's, Evaluation and study of enterprises are performed by professional organizations and individuals. In this regard, efforts to employ a Financial Consultant is under process in Finance department to exclusively co-ordinate between the State PSUs and the administrative department and monitor over the functioning of the PSUs.
11. As a measure of learning and development initiatives, capacity building, training and orientation programs for Managing Directors/CEOs/CFO's and senior officers at Secretary level of the Administration Departments are being organized by Finance Department from reputed institutions such as ICSI, ICSA at regular intervals.
12. By all the actions above, it has become easy to understand the challenges faced by PSUs and monitor/guide them in essential ways to overcome the difficulties faced in implementing the Government Directions and effectively running the PSUs.

## 8.7 INDUSTRIAL POLICY INITIATIVES AND INDUSTRIAL INVESTMENT

Proposed industrial investments, as reflected through the filing of Industrial Entrepreneurs Memorandums (IEMs) and the issuance of Industrial Licenses (ILs), from 2022 to current year up to July 2024 are presented in **Table 8.14**.

**Table 8.14: Details of Industrial Memorandum filed for Karnataka**

| Particulars                                      | January - December |        |                        |
|--------------------------------------------------|--------------------|--------|------------------------|
|                                                  | 2022               | 2023   | 2024 (up to July 2024) |

### 8.7.2 Major Industrial Initiatives to drive the growth of Industry and Service Sectors

**Industrial Policy 2025-30:** The Government of Karnataka is pleased to announce the Karnataka Industrial Policy 2025-30 to enhance its stature as one of the leading high-tech industrialized states in the country and is at the forefront of attracting investments from across the country and abroad. To position Karnataka as the #1 destination for High-technology manufacturing investments in Asia through equitable and sustainable development. To establish an investor-friendly ecosystem in Karnataka by fostering a conducive manufacturing environment through collaboration with the industry and developing human capital to meet the industry's demands.

The Government of Karnataka envisions attracting investments of INR 7,50,000 Crore across the sectors, generating approximately 20,00,000 new jobs during the Policy Period, and attaining leadership in sunrise sectors in the State.

The policy objectives are as follows:

- Achieve an accelerated annual growth rate of 12% for the manufacturing sector with an investment target of INR 7,50,000 crore.
- Provide flexibility in incentives to stimulate interest from players across the sectors targeted by Industrial Policy.
- Create employment opportunities for 20,00,000 people by 2030.
- Become a pioneer in sustainability by incentivizing green and sustainable initiatives by investors Offer sustainability-linked incentives to promote green measures by the existing and new investors while also promoting green industrial areas.
- Balanced and Inclusive Regional Development of Karnataka

- Differential incentives for different regions of Karnataka based on the level of industrial growth
- Rationalization of minimum employment threshold with employment booster and additional incentives for women participation in the workforce.
- Attain Leadership in sunrise and new age sectors: Focus on innovation driver sectors like ESDM, Advanced Manufacturing, Aerospace and Defence, Future Mobility, Augmented Reality/Virtual Reality etc.
- Create a seamless experience for investors by digital enablement of Single Window System and dedicated Nodal Officers
  - Dedicated Nodal officers to support investors in their end-to-end investment journey in Karnataka.
  - Enhanced digital system powered by AI/ML-based vernacular chatbots.
  - Rationalization of SLAs for approvals and setting up cadence for LACs, SHLCC/ SLSWCC.
  - Incentive calculator tool for investors.

**Karnataka Clean Mobility Policy 2025-30:** The Government of Karnataka is pleased to announce the Karnataka Clean Mobility Policy 2025-30, to position Karnataka as the premier destination for clean mobility vehicle manufacturing by leveraging strategic advantages and nurturing a skilled workforce to support sustainable growth and create a comprehensive clean mobility vehicle eco-system in the State.

The Government of Karnataka envisions attracting investments of Rs 50,000 Crore across the entire clean mobility vehicle value chain, generating approximately 100,000 new jobs during the Policy Period and establishing a comprehensive and supportive Clean Mobility vehicle ecosystem in the State.

The policy objectives are as follows:

- Making Karnataka #1 in Asia in Future Clean Mobility, fueled by Equitable and Sustainable Development
- Accelerating Clean Mobility Vehicle Adoption in Karnataka through a Robust Charging Infrastructure Network or hydrogen stations
- Create a Clean Mobility Vehicle ecosystem that fosters innovation in the State of Karnataka

**Tourism Policy 2024-29:** The Karnataka Tourism Policy 2024-29 has been formulated with the objective to achieve the vision of Government of Karnataka. The successes, failures and learning's from the previous Karnataka Tourism Policy 2015-20 and Karnataka tourism policy 2020-26 have provided guidance in the drafting of this policy. The Policy proposes strategic interventions in the incentives and requisite regulatory reforms to facilitate investment in the tourism sector. Continuously striving towards creating a comfortable and sustainable tourism eco system, the policy lays emphasis on providing a safe and high-quality experience for tourists and greater prosperity and happiness for the people of Karnataka.

**Special Incentives Scheme ESDM 2020–2025:** The Karnataka has announced the “Special Incentives Scheme” for Electronics System Design and Manufacturing (ESDM) sector in the state, through which it expects investment of over Rs. 5,000 crore and 43,000 direct employment in 5 years. The incentives announced for investment in the ESDM sector includes capital investment subsidy of 25 per cent on land only in areas other than Bengaluru Urban & Bengaluru Rural districts upto an extent of 50 acres on actual procurement cost, 20 per cent on plant and machinery, 100 per cent reimbursement of stamp duty and registration charges and also 100 per cent reimbursement of land conversion fees. This initiative underscores the state's commitment to fostering growth and innovation in the ESDM sector.

**Aerospace & Defence Policy 2022-27:** The Karnataka has announced Aerospace & Defence Policy 2022-27 aims to attract more investments and to establish Karnataka as the preferred investment destination for Aerospace & Defence manufacturing sector. Promote development of indigenous and advanced technologies,

encourage manufacturing for space-related applications, develop world class skilled manpower and support MSMEs in the supply chain with increased technological access for global competitiveness. The policy offers a range of incentives and concessions, including Capital Investment Subsidy, Exemption/ Reimbursement of Stamp Duty, Concessional Registration Charges, Reimbursement of Land Conversion Fee, Subsidy for ETP (Effluent Treatment Plant), Power Tariff Reimbursement, Exemption from Electricity Duty and also Production Linked Incentive etc. This policy is designed to foster innovation, strengthen the ecosystem, and position Karnataka as a global hub for Aerospace and Defence manufacturing.

**IT Policy 2020-2025:** Karnataka's IT Policy for the period 2020-2025 aims to establish the state as India's leading technology hub, driving innovation and economic growth. The policy focuses on the strengthening infrastructure and markets to support IT sector expansion, building a robust ecosystem to foster innovation and collaboration, enhancing talent development to meet industry demands and ensuring ease of doing business to attract investments and encourage growth. Through these initiatives, the policy seeks to sustain Karnataka's leadership in the IT industry and promote long-term economic development.

**Karnataka Biotechnology Policy 2024-2029:** The Karnataka Biotechnology Policy 2024-2029 sets a forward-looking vision to position Karnataka as a global leader in biotechnology, focusing on sustainable and inclusive growth. Building upon its existing ecosystem, the policy aims to leverage the state's rich talent pool, advanced infrastructure, and favorable government support to accelerate growth in key biotech areas. These initiatives reflect the state's ongoing commitment to developing a thriving biotech ecosystem. Biotech Policy outlines a roadmap for sustainable growth, innovation, and regulation in the sector.

**Karnataka Start-up Policy 2022-2027:** The Karnataka Start up Policy serves as a blueprint to position Karnataka as a global hub for innovation and entrepreneurship. The policy focuses on nurturing start ups across sectors by creating an enabling ecosystem, offering financial support, and facilitating market access. Foster innovation and entrepreneurship through financial and non-financial support mechanisms. Promote technology-based start ups in sectors like IT, biotechnology, healthcare, clean energy, and agriculture. Create 25,000 direct start up-related jobs and expand the state's innovation network. Facilitate connections between academia, industry, and start ups to strengthen the innovation pipeline.

**SEZs in Karnataka:** The state has 38 operational Special Economic Zones (SEZs) with a total investment of Rs. 1,09,980.58 crore, generating employment for 427,518 persons. A total of 492 units are currently operating within these SEZs.

## 8.8 KARNATAKA TOURISM

Department of Tourism as ventured upon following activities in order to develop basic Tourism Infrastructure to facilitate the tourist visiting the destination.

1. Last mile connectivity to tourist destinations
2. Development of Yattrinivas and Dormitory
3. Publicity material providing
4. Toilet facilities
5. Measures for tourists' safety
6. Drinking water
7. Providing Signages and Hoardings

Karnataka Department of Tourism has taken up infrastructure development on top priority and has taken several concrete steps to enhance facilities at tourist destinations. As a result, the state ranks 4th in the country for attracting domestic tourists. Tourist arrival data is provided in **Table 8.16**.

Table 8.16: Tourist's Arrival from 2020 to 2024

(No. in lakh)

| Year                  | Domestic Tourist | Foreign Tourist | Total          |
|-----------------------|------------------|-----------------|----------------|
| 2020                  | 774.53           | 1.65            | 776.19         |

### 8.8.1 Tourism as an Economic Activity

For integrated development of tourism in the state, the Department of Tourism has introduced the revised "2024-29" Tourism Policy (for five years). The Government of Karnataka acknowledges the crucial role of tourism in our developmental blueprint. A priority sector of the State, tourism has an important role to play in Karnataka becoming a USD 1 trillion economy by 2032. Karnataka has seen immense growth in domestic tourist visits, growing from 36.7 million in 2006 to 283.5 million in 2023. The State attracts nearly 10% of overall domestic tourist visits in India, placing it fourth among Indian states. Karnataka also saw over 4.01 lakh foreign tourist arrivals in 2024, signaling a strong recovery from the COVID-19 pandemic.

### 8.8.2 Income from Revenue Earnings

Tourism earns foreign exchange. The revenue generated by the Tourism is both by direct and indirect. As per WTTC's Economic Impact 2018 – India report, travel and tourism contributes to 9.2% of India's total GDP, positioning the country as 3rd among 185 countries in terms of the sector's overall contribution to the economy.

The budget allotment for the year 2024-25 is Rs. 307.52 crore, with an expenditure of Rs. 219.98 crore incurred up to December 2024 for the implementation of various schemes. Rs. 131.45 crore has been released by the Ministry of Tourism, Government of India, under the Special Assistance to State for Capital Investment – Development of Iconic Tourist Centres at a Global Scale Scheme.

### 8.8.3 Promotion Publicity

This Financial Year 2024-25 has been celebrated as the Year of Adventure 'Script Your Adventure' Theme. In this regard, attractive advertisements have been given throughout the year in print media and electronic media. In fairs participated by the department at the national and international level, the stalls have been attractively decorated and promoted with the designs of the state's heritage tourist spots and the theme of the adventure year. Several tourism promotion and promotion programs have been undertaken by the department.

In the 2024 edition of the "Best Tourism Village Competition" organized by the Union Ministry of Tourism to recognize villages achieving sustainable development through cultural heritage and tourism, the village of "Kuthluru" in Dakshina Kannada district of Karnataka has been awarded the Best Tourism Village Award under the 'Adventure Tourism Category'.

### 8.8.4 Beneficiary Oriented Programmes

For the year 2024-25, an amount of Rs. 1,842.97 lakh has been sanctioned under the SCSP scheme and Rs. 1,228.67 lakh under the TSP scheme. The following programs have been implemented:

- The Karnataka Darshana Tour Programme for 11,152 SCSP and 8,621 TSP students (including Scouts and Guides) studying in Class 8 at Government Preschools, Morarji Desai, and Crisis Residential Schools across 30 districts.
- A one-month skill development training program for 170 SCSP and 105 TSP candidates to promote small entrepreneurship in the tourism and hospitality sectors.
- Subsidy support of 70% of the unit cost, up to a maximum of Rs. 5.00 lakh, will be provided to each candidate for the purchase of mobile canteens at tourist spots, benefiting 170 SCSP and 105 TSP small entrepreneurs.
- Skill development training for 292 SCSP and 162 TSP candidates in the Tourism/Hospitality sector.
- A one-month tourist guide training program for 100 SCSP and 60 TSP candidates, with jackets and sports shoes provided to the trained candidates.

### 8.8.5 Tourist Mitra Programme

To ensure the safety and protection of tourists at important destinations, 559 home guards, including 102 women, have been trained and deputed as “Pravasi Mitra” (Tourist Police) at important tourist spots. Their role is to assist tourists and enhance security at these locations.

### Way Forward

- Government Process Re-engineering of business-centric approvals will be focused by analysing the existing processes and bringing out reforms w.r.t reduction of time, cost, documents, and procedures involved in the service delivery processes.
- In addition to 287 reforms shared under BRAP 2024, DPIIT, GoI has shared 167 additional reforms which will be implemented by or before 15th Feb’2025.
- Karnataka will be working towards reduction of compliance requirements under the identified 23 acts under RCB+. This will help to simplify processes and eliminate redundancy, which are key areas of the proposed reforms.
- Further, the imprisonment clauses identified for “decriminalisation” will be duly consulted with Law Commission of Karnataka and stakeholder departments to take it forward for necessary amendments (subject to approval).
- “Know your Approvals, Compliances and Incentives” wizard is being developed for investors to understand applicable clearances and incentives under different sectoral policies notified by the State.
- Development of State-of-the-Art Single Window System is in process which will be enabled with Artificial Intelligence for auto-scrutiny of DPRs, Power BI based analytical dashboards, Chatbots for query resolution etc. has been envisioned to facilitate Ease of Access to information.
- Anjanadri hill and surrounding areas of Koppal district hold mythological and historical importance, Rs. 100 crores will be provided to develop tourism in these areas.
- Water sports and adventure tourism will be developed in the backwaters of major reservoirs and beaches of coastal areas under public-private-partnership in the State.
- In order to encourage adventure tourism, cable car/ rope way facility will be developed in ten major tourist spots of the State under public-private-partnership.

- Improved tourist amenities will be provided in Gokak falls to attract more tourists.
- 530 protected monuments of the State are digitally documented using 3D laser scanning. The credit goes to our State for being first in the Country for undertaking this work. This digital data will be further developed to provide an interactive and immersive digital experience.
- As believed by the localities, first university of Karnataka was established at Nagavi of Chittapur taluka of Kalaburagi district during the times of Rashtrakutas. Archaeological survey of India (ASI) will be requested to take up research and restoration of these archaeological monuments and remains.
- Well-furnished hotel will be constructed in Eihole of Bagalakot district by K.S.T.D.C and tourist infrastructure facilities will be developed in Roerich and Devikarani Estate area.
- The Ancient water supply system popularly known as 'karez' in Bidar and Vijayapur districts will be revived at a total grant of Rs. 15 crore.
- In order to promote eco-tourism in the State, interpretation centres will be established at Bandipur, Dandeli and Kabini by Jungle Lodges and Resorts at a cost of Rs. 25 crore.
- Eco-tourism will be promoted in Kappatagudda of Gadag district.
- A notification is issued constituting Sri Renuka Yellamma Tourism Development Board to conserve and develop areas in and around Srikrishna Renuka Yellamma Temple.

## Appendix 8.1

## Two Digit Level (NIC-2008) Industrial Composition based on Annual Survey of Industries 2022-23

| Industrial Group (NIC-2008)                                                   | Value of Output (Rs. lakh) | Percentage    |
|-------------------------------------------------------------------------------|----------------------------|---------------|
| Agriculture and Related activities (01)                                       | 695460                     | 0.78          |

## 9.1 SKILL DEVELOPMENT, ENTREPRENEURSHIP AND LIVELIHOOD

### 9.1.1 Introduction

The demographic advantage provides a window of opportunity for the next 25 years. It gives the State a developmental edge with a potential to leverage as a global leader, provided this large youth population is channelized, skilled and equipped adequately. The Government of Karnataka has set up the Department of Skill Development, Entrepreneurship and Livelihood (SDEL) in 2016 to enable the state's youth to acquire necessary skills for decent employment and to promote sustainable livelihood. Simultaneously, industries need for skilled human resource will be satisfactorily met resulting in enhanced productivity and growth in all the three sectors of economy.

Skills and knowledge are the driving forces of economic growth and social development for any country. Karnataka has always been known as a pioneer in innovations. This has enabled the state to bring to its foray a wide range of National and multi-national corporates and organizations. Over the years, it has been observed that there is a huge gap between the demand of Skilled Labour by these corporates and organizations and the supply of the same.

The number of youths requiring vocational education by 2030 is projected at 1.88 crores, consist of informal workers in agriculture and non- agriculture, school dropouts, those completing secondary and higher secondary education and young homemakers (women). Those completing higher education and formal vocational training are excluded.

### 9.1.2 Koushalya Mission:

State, District and Taluka Kaushalya Missions have been constituted under Skill Development, Entrepreneurship and Livelihood Department to undertake Skill Development on Mission Mode. Skill Mission Unit at the State level and District Skill Development offices at district level have been created to achieve output and outcomes by undertaking implementation of Skill Development, Entrepreneurship and Livelihood activities through Mission Mode.

#### Registration of job seekers under kaushalkar.com

The candidates registered under [www.kaushalkar.com](http://www.kaushalkar.com) for various job roles of the sectors having potential job opportunities will be imparted skill training as per their aspirations. The information of district and categorywise aspirants registered is given in the **Appendix 9.1**.

#### Selection of Beneficiary

Any aspiring trainee is self selected if registered in the website- [www.kaushalkar.com](http://www.kaushalkar.com). If more trainees register than the available training slots, priority will be based on reservation, Educational qualification and age. The target segments and priority social groups are given in **Table 9.1**

**Table 9.1: Target segments and Priority social groups**

| Target Segment                   | Priority social groups and reservation (%) |
|----------------------------------|--------------------------------------------|
| School dropout                   | SC:17                                      |
| Under employed workers           | ST:7                                       |
| Out of workforce                 | Minority:15                                |
| Women                            | Women:33                                   |
| Workers without technical skills | Physically challenged:3                    |

**Long-term Targets: Vision 2030**

Skill Development, Entrepreneurship and Livelihood department has following long term targets:

- Ensuring all children Complete 10 years of schooling by 2025 compared to the present ratio of only 80.64% (KJA report 2016).
- Completely availing existing capacity of Formal Vocational Training infrastructures in the State and make sure that the proportion of children availing training to increase from 14.62% to 60%.
- Extensively utilizing and amplify existing capacity of higher education in the state and ensuring increase of Gross Enrolment Ratio (GER) from 29% (KJA report, 2016) to 70%.
- Provide equal opportunity for Vocational Education & Training (3-6 months) to every child in the State who is unable to pursue Formal Vocational Training or Higher education.

**Organisations of Skill Development, Entrepreneurship and Livelihood**

The organisations undertaking Skill Development, Entrepreneurship and Livelihood activities are brought under this department are given below:

- a. Department of Industrial Training and Employment.
- b. Karnataka Skill Development Corporation and International Migration Centre (which is Recruitment Agency of Karnataka for Overseas Employment).
- c. Karnataka Skill Development Authority.
- d. Centre for Entrepreneurship Development of Karnataka.
- e. Government Tool Room & Training Centre (GTTC).
- f. Karnataka German Multi Skill Development Corporation (KGTTI).
- g. Bharat Ratna Mokshagundam Visvesvaraya National Training Facility for skill for All Society.
- h. National Livelihood Mission (Rural and Urban).

## DEPARTMENT OF INDUSTRIAL TRAINING AND EMPLOYMENT:

### Yuvanidhi Scheme:

Yuvanidhi is one of the five guarantee schemes of the Government of Karnataka which aims to support the youth through unemployment allowance of Rs.3000/- per month for those who have completed Graduation/ Post Graduation and Rs 1500/- per month to the Diploma pass outs in the year 2023 and 2024 and remain unemployed for a period of 180 days from the date of declaration of the result. This allowance is for a period of 2 years or till they get employment whichever is earlier.

The scheme was launched on 26.12.2023 and DBT launched on 12.01.2023. Under this scheme, 1.81 lakh candidates have registered in Sevasindhu portal as on 31.12.2024, out of which 1,48,231 candidates are benefitted. The category wise and Gender wise number of beneficiaries benefitted is given in **Appendix-2**.

**Impact of the Scheme:** The unemployment allowance received under this scheme is used by the eligible beneficiaries for filling up the application forms for various Job notifications, attend interviews, purchase books for competitive exams and attend coaching and skill training classes. This scheme not only provides financial assistance but also supports the candidates for a successful career through skilling by Skill Connect Portal under Yuvanidhi Plus scheme implemented by Karnataka Skill Development Corporation.

**TATA Udyoga Project:** In the year 2021-22, 150 Government Industrial Training Institutes in the state have been upgraded in collaboration with Tata Technologies Limited and 20 of its consortium companies. 06 long-term and 23 short-term training courses of Industry 4.0 are being offered in these upgraded ITIs. The capacity to impart short-term and long-term training to 1.20 lakh candidates is being provided in the upgraded ITIs every year.

From 2021, training is being provided in these institutions in 06 new industry 4.0 courses in one and two year courses. In 2021, 4453 trainees were trained, in 2022, 5519 trainees were trained, in 2023, 5858 trainees were trained and in 2024, 4723 candidates training is in progress.

### ITI Admissions in the State:

The Department of Employment and Training is conducting online admissions in the State for 270 Govt. and 192 GIA industrial training institutions since 2012 as per the DGT, New Delhi and norms. Candidates can apply for 51 Technical & non-technical courses. Out of the 51 Courses, Qualification for 05 Courses are SSLC failed/8th passed for remaining courses SSLC pass. The Govt and GIA candidates selected as such are required to pay the tuition fees as fixed by the government from time to time. Classes Commence in the month of

August every year under semester system. December 2024 Admission details of Govt. and Private ITI's (759 out of 1031 affiliated ITIs were functional) are provided in **Table 9.3**.

**Table 9.3: Admission details of Govt., and Private ITI's**

| ITI Type       | No. of ITI's | Available Seats | Admitted     | Vacant Seats | Percentage of Admissions (%) |
|----------------|--------------|-----------------|--------------|--------------|------------------------------|
| Govt (NCVT)    | 270          | 39872           | 28026        | 11846        | 70                           |

| <b>Total</b>   | <b>1493</b>  | <b>94204</b>    | <b>71129</b> | <b>23075</b> | <b>76</b>                    |

### Apprenticeship Training:

As per the Apprenticeship Act 1961, Apprenticeship training has been imparted in 750 Establishments and 53205 apprentices are undergoing training by the end of December 2024. The Central Government has amended the Act 1961, which is establishment friendly. The establishments may engage 2.5% to 15% of total manpower as apprentice. Apprenticeship Registration shall be done in DGT website: [www.ncvt.gov.in/apprenticeship.portal](http://www.ncvt.gov.in/apprenticeship.portal) and shall provide training as per Apprenticeship act.

In order to attract more apprentices, the respective enterprises should pay at least Rs.6,000/- to Rs.7,000/- as apprentice wages. In this the Central Government will reimburse the enterprises at the rate of 25% or a maximum of Rs.1500/- per student per month under National Apprenticeship Promotional Scheme (NAPS) implemented from 19-08-2016.

Apprenticeship training includes 262 Designated and 476 Optional trades. The implementing agencies of Apprenticeship Training are Department of Industrial Training and employment, Board of Apprenticeship Training, Regional Directorate of Skill Development and Entrepreneurship and National Skill Development Corporation. The progress of Apprenticeship training is given in **Table 9.4**.

**Table 9.4: Apprenticeship Training in Karnataka 2024-25**

**(Up to December 2024)**

| Implementing Agencies                                          | Target        | Achievement  | Balance      |

### New initiatives as announced in Budget Speech by Hon'ble Chief Minister:

- To facilitate placement of ITI and GTTC students -> an amount of Rs.5.00 crores has been earmarked for **English and communication skills** training up to December 2024, 40,000 apprentices will be benefitted from this initiative.
- To promote entrepreneurship, Dual System of Training (DST) will be extended in all ITIs of the State in a phased manner in collaboration with local industries and enterprises. Presently, the department has tied up with 48 industries and the project is being implemented in 51 institutions. 2076 students are undergoing training.

### Karnataka Skill Development Corporation (KSDC):

On the recommendations of the National Skill Mission/ State Skill Mission in accordance with the Skill Development Policy, According to Government Order No: SDEL 79 SSM 2019 Bengaluru, on 10.01.2020, the Skill Development, Entrepreneurship and Livelihood Department was reconstituted. Accordingly, the Institution was renamed as Karnataka Skill Development Corporation.

### Chief Minister's Kaushalya Karnataka Yojane: (CMKKY)

Market driven skilling, re-skilling and up-skilling of youth in the age group of 18-35 years, recognizing their prior learning and provide them higher skills and make them capable of getting decent employment. Impart quality training by building capacity of the training institutions and trainers and providing effective incentives. Issue certificates by evaluating on par with international standards. Imparting training to eligible beneficiaries in the trade of their choice at least once by avoiding duplication in the selection of beneficiaries.

Providing training by enforcing uniform curriculum, standards and certification etc., by aligning with National Skill Qualification Framework and consolidating training programmes of all the departments. To provide career counselling and placement services to all. To ensure every trainee has a gainful wage or self-employment with decent work. Institutionalize effective monitoring.

Under the CMKKY Scheme, 1309618 candidates have registered, out of which 246348 candidates have been trained at free of cost in 125 different job roles and so far, 31118 candidates are placed. 492 training institutes and 1562 training centers are accredited. The details of short-term training under CMKKY provided year-wise is as follows:

| Year         | SC           | ST           | Others        | Minorities  | Total         |
|--------------|--------------|--------------|---------------|-------------|---------------|
| 2017-18      | 4495         | 1031         | 13152         | 16          | 18694         |
| 2018-19      | 3732         | 949          | 10291         | 5           | 14977         |
| 2019-20      | 5473         | 1664         | 16955         | 8           | 24100         |
| 2020-21      | 11116        | 6538         | 10470         | 149         | 28273         |
| 2021-22      | 11012        | 4756         | 34321         | 856         | 50945         |
| 2022-23      | 15949        | 6321         | 38565         | 2912        | 63747         |
| 2023-24      | 3367         | 1267         | 14218         | 5265        | 24117         |
| 2024-25      | 1427         | 512          | 19306         | 250         | 21495         |
| <b>Total</b> | <b>56571</b> | <b>23038</b> | <b>157278</b> | <b>9461</b> | <b>246348</b> |

**Pradhan Mantri Kaushal Vikas Yojana:** Under the PMKVY Scheme, 34146 candidates have been trained free of cost in 117 Job roles across 121 Training Providers across the state. This training has been provided by private training providers, 11408 candidates were trained.

**Recognition of Prior Learning (RPL):** Under the RPL a test is conducted and they are awarded with a certificate. Under this program a target of certifying 6000 candidates was kept with 5572 candidates being trained, tested and certified thus far.

**Training of Trainers:** Under the SANKALP Scheme, 500 beneficiaries are selected from Samagra Shikshana Karnataka in Delivery Skills. Training has been started from 9th December 2024.

**English Language Labs:** Six English Language labs has been established in ITI Mysore, ITI Hassan, GTTC Kalburgi, GTTC Bagalkote, GTTC Bengaluru and Government First Grade College, Vijayapura and 3 Foreign language labs (English, German and Japan) in KGTTI, Bengaluru, IMC-K Bengaluru and KGTTI, Kalburgi.

Distributed 3300 Toolkits to Trainees who has opted for Self-Employment Tailor and Assistant Electrician Job role in 19 districts (Bagalkote, Mysore, Belagavi, Davanagere, Dharwad, Gadag, Haveri, Kalburgi, Raichur, Udupi, Vijayapura, Bengaluru Rural, Bengaluru Urban, Chikballapura, Chitradurga, Hassan, Kodagu, Mandya and Ramanagar).

**Skill Connect Portal:** Skill Connect Portal was developed in December 2022. This brings employers (Industry) and job seekers under one roof and conducts Psychometric tests for job seekers and places them. So far, 100480 aspirants, 1130 industries, 68 universities have registered on the portal and 1380 aspirants have been placed.

**Industry Connect (Demand Driven Training):** Through the Industry Connect program, the setting up of Industry Linkage Cell, in a bid to empanel industries as a training partner to provide demand-based, employment linked skill training programs in their existing facilities and then absorbing them into the industry post training. The empaneled industries thus far are, Flipkart, Sansera Technologies. Wipro GE, Kaynes Technologies, ELCIA, and Mysore Industrial Association. 44 Industries are empaneled under ILC and for 19 industries issue of work order is in progress.

### Kalike Jothe Kaushalya

In July Budget Speech 2023-24, Hon'ble Chief Minister announced that skill training which was earlier imparted through the private institutions will now be imparted through our ITI, GITC, Polytechnic Institutions. Skill training would be institutionalized and systematized by coordinating with industry and academy. Accordingly, in collaboration with Higher Education department, 28 various industrial demand oriented short term training will be imparted for approximately 36000 students to those who are studying in 5th & 6th semester in BA/ B.Com/ BBA/ BSc/ Degree in selected 62 colleges of the State. It is intended to provide employment opportunities directly through the issuance of certificates by industries/enterprises. Also, it is intended to impart training of 50 hours duration to the students studying in 102 Government Polytechnic Colleges using the facilities available in 150 Upgraded Government ITIs, 32 GTTCs and 8 KGTTIs.

The scheme is taken on pilot basis in 4 Universities viz., Tumkur, Davangere, Raichur and Kalaburgi. So far, 29,850 candidates have been trained in 89 Government colleges of these Universities for degree and polytechnic colleges.

### Karnataka Career Planning Programme

In Collaborating with Samagra Shikshana Karnataka, the Department of School Education and Literacy and the Department of Pre-University Education, Government of Karnataka, the Karnataka Skill Development Corporation (KSDC) is set to launch the "Karnataka Career Planning Program: **"Nanna Vrutti, Nanna Ayke"** program. The main objective is to empower Government school students from Class 8 to Class 12 with personalized counselling sessions, mentor-led sector orientations and an extensive online portal encompassing information on over 25 sectors and 500 job roles, academic institutions mapping, scholarships and apprenticeship opportunities. The target is fixed to impart training to 1.5 lakh candidates.

### International Migration Centre - Karnataka (IMC-K)

The International Migration Centre has been instituted under the Department. Under this program, Karnataka Skill Development Corporation has been identified as a Recruitment Agency and registered with the Ministry

of External Affairs, Government of India. Karnataka Skill Development Corporation identifies candidates for suitable employment opportunities abroad and thus so far has provided overseas employment opportunities to 897 candidates. Under the program, IMCK provides Pre Departure Orientation Training (PDOT) to candidates and thus so far has provided training to 1012 candidates. Recruitment to UAE has been completed for 26 candidates and visa is awaited. This training includes awareness and information about the host nation, legal and rules, grievance redressal mechanism and embassy assistance.

Migrant Resource Centres and Migrant Information Centres have been set up in 8 Districts Ballari, Kalaburagi, Tumakuru, Ramanagara, Huballi, Dakshina Kannada, Udupi and Vijayapura and Pre Departure Orientation Training Centres to aid the candidates are being planned. Karnataka Skill Development Corporation has signed an MoU with the National Health Services (NHS), United Kingdom, to provide training in International English Language Testing System (IELTS) for Nurses and 60 candidates are being trained under this program. In the current year, the Corporation has captured the demand for various sectors from potential employers from the Middle East. The recruitment procedure is currently underway.

### Skills and Job Fairs

Job fairs for professionals through skill training are organized on a large scale at the state level and short job fairs are organized at the district level, about 2,35,510 candidates have been employed by these fairs till 2024-25 (up to December 2024). The details are given in **Table 9.5**

**Table 9.5: Details of Mega Job fairs conducted by Skill Department**

| Year                          | No. of Job melas | Selected Candidates |
|-------------------------------|------------------|---------------------|
| 2008-09                       | 5                | 28919               |

### New Initiatives as per 2024 Budget Speech by Hon'ble Chief Minister:

- Draft State Skill Policy is being prepared for effective utilization of human resources of the State and equip the youngster with necessary skills for meaningful employment and also to help them explore entrepreneurial opportunities.

- **Yuvanidhi Plus:** Targeted to impart skill training to Yuvanidhi registered candidates from KSDC in ILC, Future skills and EDP. List of Yuvanidhi registered candidates have been obtained from Commissioner, DITE. KSDC is co-ordinating the training from GTTC, KGTTI, Mokshagundam Institute and ITIs. Training will commence under Industry Linkage cell and Future skills.
- State Skill Olympics will be organized to provide benchmarks for excellence and prepare young trainees for international skill competitions.
- The Skill Connect Summit will be organized in Global Investors Meet to create a high-quality industry-responsive skilling ecosystem which complements industrial demand in the State.

### GOVERNMENT TOOL ROOM AND TRAINING CENTRE (GTTC)

Government Tool Room and Training Centre (GTTC) Bengaluru, was established in the year 1972 with Danish assistance on a modest scale has today grown into major Tool Room in the country. GTTC offers training programmes at various levels with a view to address the ever-growing requirement of qualitative technical manpower for diverse manufacturing environments.

#### Objectives

- Conducting Skill Development Courses to youth with employable skills to make them industry ready
- Focus on guiding trainees especially from backward, rural and economically weaker sections of the society for improving employment potential including self-employment
- To conduct short-term and upskilling courses for technical staff of small-scale industries putting emphasis on advanced technologies such as CNC Programming & Machining with CAD/CAM applications.
- To manufacture small and medium-size tools such as press tools, jigs & fixtures, moulds, dies, Fabrication of Precision Components and special purpose tools.
- GTTC has the most advanced and sophisticated facilities for varieties of manufacturing activities and has also been recognized as SIRO (Scientific & Industrial Research Organization) by Government of India, Ministry of Science & Technology for carrying out research activities in Tooling, Design & Manufacturing.
- Considering the importance of the training offered by GTTC in creating a pool of highly skilled technicians for the tooling and manufacturing sector in the State and to create employment opportunities in the expanding industrial sector, the proactive policies of the GoK resulted in establishing 33 more centres in the various districts of the state. Karnataka is now recognized as an important player at the national level in providing high quality training in the field of Tool & Die making and Precision Manufacturing.

#### Establishment of Centres of Excellence

- Centre of Excellence has been established in association with Siemens Industry Software and Design Tech Systems Ltd., at Bengaluru, Mysuru, Dandeli and Kalaburgi GTTC centres. At present upto December 2024, 1403 candidates are trained.
- Centre of Excellence has been established in association with Dassault Systemes at Humnabad, Lingasugur, Hospet and Yadgir GTTC centres located at Kalyana Karnataka Region. At present upto December 2024, 291 candidates are trained in these Centres.

- Centre of Excellence has been established in association with Parametric Technology Corporation (PTC) at Belagavi, Hubballi, Mangaluru, Shivamogga, Hassan, Tumakuru and Harihar GTTC centres. At present upto December 2024, 1472 candidates are trained in these Centres.
- GTTC has the most advanced and sophisticated facilities for varieties of manufacturing activities and has also been recognized as SIRO (Scientific & Industrial Research Organization).
- Karnataka is now recognized as an important player at the national level in providing high quality training in the field of Tool & Die making and Precision Manufacturing.

### **New Initiatives as per 2024 Budget Speech by Hon'ble Chief Minister:**

- Skill academy/Park will be established in Sandur of Ballari districts to address the need for skill workforce in Industrial and emerging sectors from CEPMIZ funds.
- GTTC Multi-Skill Development Centres will be established in Kalaburagi, Talakal of Koppal district and Varuna of Mysuru district in collaboration with Visvesvaraya Technological University crore. The State Cabinet has been approved for all MSDCs.
- New GTTCs will be set up in Ballari and Chitradurga and in Ron of Gadag. The State Cabinet has approved New GTTC at Ron of Gadag district.
- Additional diploma courses such as Electronics & Communication, Megatronics, Electrical & Electronics Engineering, Robotics etc., will be introduced in various GTTC centres in a phased manner. This will benefit 15,000 students additionally. Presently, courses has been introduced in 27 GTTC centres.

### **Social Impact**

GTTC has 33 training centres across the state of Karnataka. This facilitates the candidates (both urban and rural) to get the industrial skill training. According to Dr. D. M. Nanjundappa's report, GTTC is providing skill training programs to the youth with industry ready skills to cater the manpower requirements of industries.

GTTC trained candidates are well accepted by the industry. GTTC candidates are working in various industries from local to Global Industries. Some of the students have become entrepreneurs. The passed-out trainees are eligible for higher education.

So far, 7190 candidates have been trained under long term training and 38567 candidates trained under short term and 7478 candidates were placed.

### **CENTRE FOR ENTREPRENEURSHIP DEVELOPMENT OF KARNATAKA (CEDOK)**

Centre for Entrepreneurship Development of Karnataka (CEDOK), Dharwad, is a Government of Karnataka promoted organisation created by Department of Industries and Commerce. The centre was registered under Karnataka Society Act 1960 No. 2/92-93 on 15th May 1992. Now it is transferred to Department of Skill Development, Entrepreneurship and Livelihood, Government of Karnataka.

CEDOK is widely recognised that education can be a very effective instrument to bring-out latent resources and capabilities of people. Based on this belief, the main objective of CEDOK is

- To augment the supply of entrepreneurs through education and training.
- To produce multiplier effect on opportunities for self-employment.

- To improve the managerial capabilities of stake holders.
- To contribute to the dispersal of entrepreneurship and thus expand the social base of the entrepreneurial class in urban and rural areas.
- Entrepreneurship Development Programmes covering target groups of unemployed youths, women, SHG members and beneficiaries of various Governments sponsored schemes.
- Trainers Training Programmes covering target group of trainers & motivators in the field of entrepreneurship development.
- Target group for Management Development Programmes are different stake-holders of the programmes.

### Programmes Conducted by CEDOK During the year 2024-25:

1. One day Entrepreneurship Awareness/Motivational Camp
2. Three days Entrepreneurship Awareness Programme for Final year Government Degree College Students
3. Ten days Entrepreneurship Development Programme.
4. Ten days Entrepreneurship Development Programme for SCP candidates.
5. Ten days Entrepreneurship Development Programme for TSP candidates.
6. Three days Entrepreneurship Motivational Programme for candidates trained under CMKKY.
7. Six days Entrepreneurship Development Programme for ITI students.
8. Ten days Entrepreneurship Development Programme for Unemployed Youths and Prospective Entrepreneurs.
9. Three days Entrepreneurship Development Programme for the SHG groups who are selected under Amrut Sahaya Kiru Uddime Yojane.
10. Six days Entrepreneurship Development Programme for Sanjeevini KSRLPS SHG members
11. Ten days Entrepreneurship Development Programmes for SC ST Candidates under Social Welfare Department.
12. Fifteen days Sector Specific EDP under Agriculture Department.

Number of persons trained from 2021-22 to 2024-25 up to December 2024 are shown in **Table 9.6**

**Table 9.6: Trained for Self-Employment from 2021-22 to 2024-25 (up to December 2024)**

## Institution Building and Capacity Building

NRLM has been implemented in Karnataka since 2014, following a three-tier structure of GPLF-WLF-SHG. As on 31st December 2024, the program has covered 5,953 GPLFs, 28,771 WLFs, and 2,79,415 SHGs, bringing 29,75,336 households under its fold, achieving 92% of the SECC target. A social mobilization campaign will be organized starting 1st January 2025 to include all eligible rural households under NRLM, ensuring no one is left out. This initiative aims to provide comprehensive socio-economic support to all rural households for their well-being.

**Local Operating System (LokOS):** Sanjeevini KSRLPS transitioned to LokOS in 2023-2024 to update SHG profiles and transaction details, achieving 99% profile verification by December 2024, placing Karnataka 7th nationally. Training sessions and workshops were held at various levels to support staff and ensure progress. As of 2024-2025, 30% of GPLFs have started transaction entries, with a target to achieve 100% by March 2025.

**Nal Jal Mitra:** Sanjeevini - KSRLPS has planned to train 11,904 local SHG women in multiple skills across plumbing, electrical works and machinery. The course duration is 510 hours and the training include soft skills & employability skills and they will be deployed as multi skill worker and trained through Karnataka Skill Development Corporation. The training cost of candidates shall be borne by respective Gram Panchayat at Rs.24790/ per Candidates. So far out of 5953 Gram Panchayats 1250 Gram Panchayats have paid for 2500 candidates. Through six GTTCs 281 candidates have been trained, 150 members training ongoing and are undergoing OJT under the supervision of PWD/RWS Engineers, So far, 143 experts from GTTCs and ITI's have completed training of trainers Program.

## Social Development and Gender:

Sanjeevini-KSRLPS conducts gender focused initiatives to combat discrimination and promote equality in rural Karnataka. Gender Point Persons and CRPs have been trained, Social Action Committees formed, and Gender Forums established at CLF and Block levels. A state wide campaign against gender-based violence was held from November 25 to December 23, 2024, featuring rallies, plays and workshops. Additionally, PoSH and ICC training was provided to all staff and community cadres, with cascading ToT sessions on 17 Gender and FNHW modules.

## Common Work Shed

Stree Shakthi Federations to undertake their activities. 5279 worksheds will be constructed additionally in the year 2023-24 with an estimated cost of Rs.17.50 lakhs per unit. So far, 365 works are completed and 308 works are under progress.

## Financial Inclusion

Door-to-door banking services are being provided to meet the financial needs of self help groups in rural areas through Business Correspondence (BC). One BC Sakhi is working per gram panchayat, during 2023-24, 3433 BC sakhis are active at gram panchayat level. A total of 846 Digi Pay Sakhis are active in the current financial year.

## BC Sakhi/Digi Pay Sakhi Intervention

Incorporating SHG members as BC agents will be a leap ahead in ensuring financial inclusion, timely capitalization and overall development of the community. This will strengthen the core objective of KSRLPS by kindling entrepreneurial abilities in the women. KSRLPS trained and IIBF certified 5256 BC Sakhis / Digi

Pay Sakhis under this mission BC Sakhi to facilitate the door step Banking services, insurance and pension services. 3433 are active BC Sakhis out of 4339 allocated BC Sakhis.

Financial assistance are provided under Pradhan Manthri Jeevan Jyothi Bima Yojane (PMJJBY) to such families in case of health problems, unexpected accidents, unexpected death etc. of family members of Self Help Group, So far, 24.00 lakhs (60%) members covered and under Pradhan Manthri Suraksha Bima Yojane and under Pradhan Mantri Jeevan Jyoti Bima Yojana 26.31 lakh (70%) SHG members are covered.

### **Community Investment Fund (CIF)**

Community Investment Fund (CIF) is provided as a resource in perpetuity to capitalize the institutions of the poor. SHGs will prepare micro investment/micro credit plan to pursue income generating activities by poorest of the poor women in the SHGs. CIF disbursed amount of Rs.218.61 crores to 14574 beneficiaries.

### **Farm and non-farm livelihood promotion**

Agriculture, the primary economic activity, provides livelihoods for a significant portion of the population, supported by the formation of Self-Help Groups (SHGs) under Sanjeevini-KSRLPS. These groups focus on empowering Mahila Kisans (women farmers) by promoting agro-ecological practices, integrated farming systems, and livestock management. Sanjeevini-KSRLPS collaborates with departments like Rural Development, Panchayat Raj, Agriculture and Horticulture to offer assistance, with a special focus on the Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGA) for women's empowerment.

#### **Key Initiatives:**

- MGNREGA convergence enables the creation of livelihood assets for SHG women, including farm ponds, animal sheds, poultry sheds, compost pits, and agri-nutrition gardens. It also supports infrastructure development, such as sheds for poultry, milk collection and storage units for agricultural interventions.
- Sanjeevini-KSRLPS has been empanelled as a CBBO for forming 60 Farmer Producer Organizations (FPOs) under the 10K FPO scheme, with 60,000 shareholders and a share collection of Rs.7.43 crores.
- 100 Value-Added Village Knowledge Centers (VDVKCs) have been established in select taluks, benefiting 30,000 individuals. Data for 29,013 Self-Help Group Gatherers has been updated on the TRIFED portal, and Rs.7.5 crore in grants has been distributed.
- 3054 Producer Groups (PGs) have been formed, benefiting 1,84,840 Mahila Kisans with Rs.27.4 crore allocated as start-up funds for these groups.

### **Non- Farm/ Enterprises Promotion**

- Sanjeevini KSRLPS has conducted a State Level Belagavi SARAS Mela and 150 SHGs participated from Karnataka and generated income of Rs.1.53 crores.
- Sanjeevini – KSRLPS have installed stalls at 102 railway stations under One Station – One Product (OSOP). Planning to cover all major railway stations in Karnataka.
- Avasar Stall Placed SHG products at Belagavi airport. Planning to set up stalls at Kempegowda International Airport Limited, Bengaluru.
- Deepa Sanjeevini across the State with Two stall per district with a total of 137 stalls across Karnataka where the Deepas were manufactured. The total sales received from the sale of Deepas across the State are more than Rs.20.00 lakhs.

- Sanjeevini KSRLPS has proposed and started an initiative for bringing out a unique platform of online marketing initiative to promote SHG products, with 200 products on board and made available for online sales.

### National Rural Economic Transformation Project (NRETP)

One-Stop facility (OSF) 13 centers have been established in NRETP District of Gadag, Tumkur and Uttara Kannada districts in the previous year. In the current financial year, 2072 entrepreneurs have been promoted. And 16 One-Stop facility (OSF) centers have been established in NRLM District of Mysore, Chikkaballapura, Shivmogga, Koppal and Ballari districts in the financial year of 2024-25.

### Start-up Village Entrepreneurship Project (SVEP)

Start-up Village Entrepreneurship Project (SVEP) aims to support rural poor come out of poverty by helping them set up enterprises and provide support till the enterprise stabilizes. It provides financial support through Community Enterprise Fund to the Entrepreneurs and links them to bank for MUDRA loan and other financial services. The total project cost for implementation of project in a taluk for duration of four years is Rs.5.97 crore per block, supporting at least 28,800 enterprises owned and managed by SHG women

### Rural Self Employment Training Institutes (RSETIs)

RSETIs are providing training to rural youths on self-employment in different trades. In Karnataka State, 31 RSETIs are working in 29 districts with well-established infrastructure and human resources. Training is imparted in 64 different trades to the selected candidates. 21254 candidates are trained against the target of 31000.

### Deen Dayal Upadhyaya Grameena Koushalya Yojane (DDUGKY)

DDUGKY a skill programme of MoRD earlier known as Aajeevika Skills Yojane renamed as a Deen Dayal Upadhyaya Grameena Koushalya Yojane envisages providing jobs after trained by training partners. State has developed action plan 60927 Candidates training in Skill Development, Entrepreneurship and Livelihood. The physical progress is given in **Table 9.8**

**Table 9.8: Progress under PIAs approved by MoRD from 2019 to 2024**

| PIAs                        | Target | Trained and placed up to December 2024 |                    |                    | % placement |

### NATIONAL URBAN LIVELIHOOD MISSION

Deen Dayal Anthyodaya Yojana - National Urban Livelihoods Mission (DAY- NULM)-2022-23 Swarna Jayanthi Shahari Rozgar Yojana (SJSRY) was restructured and renamed as National Urban Livelihood Mission (NULM) which was approved by the GoI on 24th September 2013. GoI for implementation in 277 Urban local bodies. This scheme is implemented with the support of Central and State Government and the sharing pattern of 60:40.

The State Urban Livelihoods Mission is aimed “to reduce poverty and vulnerability of the urban poor households by enabling them to access gainful self-employment & skilled wage employment opportunities, resulting in appreciable improvements in the livelihood on a sustainable basis, through building strong grassroots level institutions of the poor”.

NULM adopt's the following strategy.

DAY-NULM programme has the following 4 components.

- 1) Social Mobilisation & Institution Development (SM&ID)
- 2) Self Employment Programme (SEP)
- 3) Support to Street Vendor (SSV) and
- 4) Scheme of Shelter for Urban Homeless (SUH)

As per the guidelines issued by Ministry of Housing and Urban Poverty Alleviation GoI, DAY-NULM programme is being implemented in 311 cities in the state i.e 11 City Corporations, 61 CMCs, 126 TMCs and 114TPs.

The progress achieved under DAY-NULM up to December 2024 is given in **Appendix 3**.

### **PM Street Vendor's AtmaNirbhar Nidhi (PM SVANidhi)-A Special Micro Credit Facility for Street Vendors**

The scheme is implemented from July 01, 2020 to March-2022. 50 lakhs beneficiaries will be covered under this scheme at national level. This scheme is fully 100% sponsored by the central Govt. Scheduled Commercial Banks, Regional Rural Banks (RRBs), Small Finance Banks (SFBs), Cooperative Banks, Non-Banking Finance Companies (NBFCs), Micro Finance Institutions (MFIs) & SHG Banks etc., can lend. The Scheme will have the management structure at the Central, State and ULB level for effective implementation and monitoring of the scheme. The PMSVA Nidhi scheme is implemented in all the Urban Local Bodies in this state of Karnataka. Till the end of December 2024, out of 4,66,327 eligible applications, loan has been sanctioned for 4,09,387 beneficiaries amounting Rs.409.02 crores and Rs.393.75 crores have been disbursed to 3,97,715 street vendors. Karnataka Stood 4th place in the country.

### **New Initiatives of National Livelihood Mission as announced in Budget Speech by Hon'ble Chief Minister:**

- Accorded priority to women's social and economic empowerment. Towards this end, 50,000 women SHG-owned micro-enterprises will be developed over two years. 19150 enterprises under manufacturing has been developed.
- District Level Incubation Centres (DLICs) will be established in a phased manner in all 31 districts in collaboration with IIM-B. They will serve as hubs for nurturing and empowering local-specific women's enterprises.
- One lakh women SHG will be supported in fisheries, beekeeping, poultry, sheep and goat rearing with forward linkages for marketing. 1,16,292 small enterprises developed for women under marine and inland fisheries.
- 50 women-run cafes with the name of Cafe Sanjeevini will be launched across the State. Targetted 50 Akka Café with providing employment to more than 500 women. Established Akka Café at Devanahalli, Bangaluru and Belgaum.

- In collaboration with Coffee Board, one lakh women members of SHGs will be trained as coffee entrepreneurs. Besides, 2,500 Coffee Kiosks managed exclusively by SHG women will be set up.
- Affordable and secure transit hostels will be set up for students and working women for staying overnight in cities. These lodges will be managed in partnership with women's self-help groups and urban local bodies (ULBs). The project will be launched in five cities including Bengaluru
- A GP-SHG convergence policy will be implemented in order to strengthen Gram Panchayat level governance with active participation and leadership of local women SHGs. A Draft SHP convergence policy has been prepared.

### Karnataka German Multi Skill Development Centre (KGMSDC)

KGMSDC has established Two Multi Skill Development Centres (MSDCS) in Bengaluru & Gulbarga of International Standards for training in Advanced Technology areas with the Technical Collaboration of the German Technical Corporation (GIZ-IS), Germany. The objective of these centres is to offer specialised skills training programme on par with international standards and in alignment with the Industry requirement. These Centres are well equipped with latest equipment, machinery, tools with good infrastructure, flexible market driven short and long-term courses, strong interface with industry and trained faculty. It also aims to provide training in high-end technology, self-sustenance after 5 years and linking international placement.

KGMSDC has 50461 trainees have been trained since inception till end of December 2024. Out of which 15846 SC, 2941 ST, 11189 Women and 4791 Minority Candidates have been trained. Placement is provided for 16475 candidates. 151 candidates have been trained under Amrita Munnade Yojane. 2351 candidates are registered for Employability skills training offered by Wadwani Foundation in all KGTTI Centres out of which 762 candidates have been trained.

### New Initiatives of KGTTI as announced in Budget Speech by Hon'ble Chief Minister:

First centre of excellence concentrating on CNC (Computer Numerical Control) technology will be established in KGTTI, Kalburgi.

### Mokshagundam Visvesvaraya Master Training Institute

The Institute has conducted master trainers training programme for 360 candidates in various domains and 142 training of trainers programme (ToT) under NAL JAL Mitra Programme and conducted employment enhancement cum ToT on construction site management and with emphasis on water proofing and insulations for 78 candidates.

The institute has signed MoUs with 5 organisations namely E to E Rail village, Le-Grand and Innovative, SIWIN, Sri Venkateshwara College of Engineering Bengaluru and National Institute of Technology Karnataka in the respective domains/trades.

### Achievements

1. **Yuvanidhi Scheme** - 1,81,000 candidates have been registered and 1,48,231 beneficiaries are covered under this Guarantee Scheme.
2. **India Skill Competition 2024:** Karnataka won 48 medals out of 62 participants in India Skill Competition 2024 held in New Delhi and stood 2nd Place in the country.

3. **World Skill Competition 2024:** From India, out of 60 participants, 9 were participated from Karnataka and won 4 Medallion of Excellence held in Lyon, France.
4. **PM SVAnidhi Scheme** – Karnataka stood 4th Place in the country.
5. Under the innovative program “Kalike Jothe Kaushalya”, in collaboration with Higher Education department, 28 various industrial demand oriented short term training will be imparted for approximately 36000 students to those who are studying in 5th & 6th semester in BA/ B.Com/ BBA/ BSc/ Degree in selected 62 colleges of the State, so far, 29850 candidates are trained.
6. CEDOK-27931 candidates have been imparted Entrepreneurship development training since inception and 5049 candidates are self-employed.
7. Under CMKKY 246348 candidates are trained and 31118 candidates are placed.
8. Under Government Tool Room and Training Centre, 7190 candidates have been trained under long term training and 38567 candidates trained under short term and 7478 candidates were placed.
9. Akka Café with providing employment established Akka Café at Devanahalli, Bengaluru and Belagavi.
10. Karnataka Skill Development Corporation identifies candidates for suitable employment opportunities abroad and thus so far has provided overseas employment opportunities to 897 candidates. Under the program, IMCK provides Pre-Departure Orientation Training (PDOT) to candidates and thus so far has provided training to 1012 candidates. Recruitment to UAE has been completed for 26 candidates and visa is awaited.
11. 235510 candidates were given offer letters from 414 Mega Job Fairs.
12. **Nal Jal Mitra:** Sanjeevini - KSRLPS has planned to train 11,904 local SHG women in multiple skills across plumbing, electrical works and machinery. Through six GTTCs 281 candidates have been trained, 150 members training ongoing and are undergoing OJT under the supervision of PWD/RWS Engineers, So far, 143 experts from GTTCs and ITI's have completed training of trainers Program

## Challenges

The basic challenges are that many programmes like Awareness, Training etc. are implemented in PPP mode involving Self-help groups and NGOs. A suitable mechanism for the monitoring of these NGOs and Self-help groups at District and Taluk level is to be established. The cooperation of the Banks in providing the required loans to the identified, trained entrepreneurs at appropriate time has to be ensured to achieve the objective of the schemes. The shortages of faculties in all wings also need urgent attention. The skill development mission in the State needs support and cooperation from different stakeholders for capacity building of the youths to seek job opportunities in the global job markets and promote self-employment for accomplishing the aspirations of youths and utilization of their talents and capacities. Low enrolment of women in manufacturing related skill development programs.

A nation-wide challenge is building market credibility for NSQF certification. This issue is closely tied to the quality of assessments. Lack of qualified and certified assessors, lack of standardized assessments, lack of stringent monitoring leaves the system vulnerable to malpractice which weakens the market trust and acceptance.

## Way Forward

- A state level committee is setup to integrate internship as part of formal curriculum and enhancing the opportunities collaborating with Industry. In addition, planning to establish skill labs through public private partnership in schools and colleges, for the afternoon sessions, to upskill our population, for generating higher income prospects. Strengthening skilling infrastructure at ITIs and Polytechnics, through partnerships with industry leaders such as Siemens, Dassault, PTC and Tata Technologies, to train the workforce on emerging technologies.
- Skills to be introduced from School level and every school and college to have vocational training centre.
- Strengthening institutions for Skilling/ Re skilling/ Up skilling of workforce.
- **Objective** - All youth to go through Skill training starting from 10th Standard to Graduate; Skill training to have components of Knowledge, Practice and Industry apprenticeship.
- Skill Centres upgraded with TATA Technologies Ltd in 150 ITIs to act as hubs for the educational Institution in the Vicinity.
- **Infrastructure** – “Centre of Skill Excellences” to be built to serve at levels of the skill competency, Competency in collaboration with Industries
- **Human Resource (Trainers)** – Trainers at all these Centres of Skill excellence will have to be trained and should be able to demonstrate skills at the level of India Skills Competition.
- **Financing** – Instituting Human Resource Development Fund (HRDF) will be explored where certain level of contribution comes from industries based on the turnover and manpower strength for Reskilling and Upskilling of their employees.
- To implement new diploma training programs which has been approved by AICTE. In some GTTC centres, long term training has been commenced in advanced technology like Artificial Intelligence, Automation and Robotics.
- A Skill gap studies will be conducted for mapping workforce requirement and supply for each skill sector. International Centre of Skill Excellence need to be established at the State level.
- Youth aspiring for work in other countries should go through mandatory training in Skill Standards of that country/ International Skill Standards, Language training and Cultural Training. IMC-K has been Established for this purpose and 8 Migrant Research Centres and Migrant Information Centres have been established.

## 9.2 LABOUR AND EMPLOYMENT

### 9.2.1 Introduction

As per NITI Aayog SDG India Index Report-2023-24, SDG-8 on Decent Work and Economic Growth, Karnataka State is the 2nd Rank in the country for its good performance.

The Lowest Unemployment Rate 2.9% is recorded in Karnataka among major southern states in the country and also it is below the all India average of 3.5% as per periodic labour force survey 2023-24. Efforts of the government schemes and policies have led to increase in LFPR (15-59 years) from 62.9% in 2022-23 to 63.5% in 2023-24 and also an increase in Worker Population Ratio from 61.2 % in 2022-23 to 61.6% in 2023-24.

For the benefit of the unorganised sector which constitutes more than 83% of workers, the State Government with the objective of mobilizing the necessary resources to provide social security and welfare facilities to private commercial transport and other allied workers among unorganized workers, the Karnataka Motor Transport and Other Allied Workers Social Security and Welfare Bill, 2024 has been enacted and an additional cess of 3% is being levied on private commercial transport vehicles. A separate Board called, “Karnataka State Motor Transport and Other Allied Workers Social Security and Welfare Board” is constituted this year. Accident Benefits, Natural death benefits and funeral assistance, Educational Assistance and Maternity Assistance benefits are being provided to the registered beneficiaries under this scheme. Skilling / up-skilling efforts for unorganised workforce will significantly contribute to the vision of USD1 Trillion GDP by way of increasing employability and income prospects.

### 9.2.2 (a) Labour Welfare Department

To evolve model frameworks in respect of Labour Legislation, Policies, Action Plans, Schemes and Programs by involving all the parties vitally concerned and implementing the same using advanced technologies. So as to achieve efficiency and effectiveness in reaching the target group and thereby ensuring Karnataka's competitiveness in the domestic and global market as a preferred destination for investment and decent quality employment generation.

The Labour Department includes the Labour Welfare Board, Building and other construction Workers Welfare Board, Karnataka State Un-organised Workers Social Security Board, Employees State Insurance Scheme, Factories, Boilers, Industrial Safety and Health. Financial Progress of the department for the year 2024-25 (as of December 2024) is 76.09% to its release. (Expenditure: Rs.407.30 crore to release:Rs.535.31 crore)

#### Implementation and Progress of Various Labour Acts in Karnataka:

In the labour reform sector is to create a situation where work and livelihoods are allowed in the unorganised and informal economic sector. The limitations in the application of key laws and the application of numerical filters in situations where a very large section of workers in the unorganized/ informal economic sector are unable to obtain legal protection in many sectors have created a double-labour market. Labour legislation can be broadly divided into 4 groups based on the contents of employment they hold. They are working conditions, wages and remuneration, job security and industrial relations and social security and workers' welfare. The progress statistics in the implementation of labour laws in the State of Karnataka illustrate that great progress has been made with regard to inspections, prosecutions and penalties conducted by the Department.

Under various Labour Acts, a total of 57,091 inspections have been carried out and 6499 cases were filed against the erring employers who violated the Act. A fine of Rs.1.37 crore has been imposed in a total of 2136 cases disposed off in various courts during the year up to December 2024.

**Report of Industrial disputes Act,1947:** 766 cases have been received upto December 2024 with 04 industrial Disputes at the beginning of the year and all the cases were disposed off during the year.

**Strikes and Lockouts:** The number of strikes and lockouts indicate the level of industrial peace in a State. Karnataka is by and large, a peaceful state as far as the industrial environment is concerned. No strikes, lockouts, layoffs reported during 2024-25.

**Absenteeism** – The absenteeism of workers in industries for the year 2024-25 stood at 7.74% till the end of December. This proportion is 17.3% for the year 2024-25 when it comes to plantation workers (Details are given in **Table 9.9**)

**Table 9.9: Absenteeism of Plantation Labour**

| Particulars | No. of Man days<br>Schedule to Work | No. of Man days<br>Absent | Percentage of<br>Absent |
|-------------|-------------------------------------|---------------------------|-------------------------|
| Industry    | 501440731                           | 38846297.5                | 7.74                    |
| Plantation  | 4725428                             | 820264                    | 17.3                    |

- In case of permanent disability, the compensation upto Rs.2 lakhs to the beneficiary according to the percentage of disability.
- In case of temporary disability/Hospital treatment, the Reimbursement of medical expenses up to Rs. 1.00 lakh.

#### **(b) Natural death benefit and funeral assistance:**

An amount of Rs.25,000/- including funeral expenses to dependents

#### **(c) Educational Assistance:**

##### **(i) For a maximum two children of the registered beneficiary:-**

- Pre-university Class or equivalent - Rs.3,000/- per annum
- Graduate or equivalent – Rs.5,500/- per annum
- Engineering and Medical - Rs.8,000/- per annum
- Post Graduate – Rs.11,000/- per annum

##### **(ii) For a maximum two children of the beneficiary who died due to an accident / total permanent disability:-**

- from 1st std. to Graduation or equivalent – Rs.10,000/- per annum
- Engineering and Medical – Rs.20,000/- per annum
- Post Graduate – Rs.25,000/- per annum

#### (d) Maternity Assistance:

- Rs.10,000/- each is limited to the first two deliveries of the beneficiary only.

#### Department of Factories, Boilers, Industrial Safety and Health

Department of Factories, Boilers, Industrial Safety and Health carries the responsibility of ensuring Occupational Safety, Health and Welfare of all the workers in the registered factories through effective enforcement of,

- The Factories Act, 1948 and the rules made there under.
- The Karnataka Factories Rules, 1969 and the rules made there under.
- The Payment of Wages Act, 1936 and the rules made there under.
- Maternity Benefit Act 1961 and the rules made there under.

For Building and other Construction activities, The Building and Other Construction Workers (Regulation of Employment and Condition of Services) Act-1996 and rules made there under.

The state of Karnataka has 18,823 registered factories with 18,33,021 workers. The description of factories as per the manufacturing process is given in Table: 9.11

**Table: 9.11 Registered Factories by Process from inception**

| Description                                                                                                                              | No.s |
|------------------------------------------------------------------------------------------------------------------------------------------|------|
| Manufacture of Food products                                                                                                             | 2564 |
| Manufacture of beverages                                                                                                                 | 126  |
| Manufacture of Tobacco Products                                                                                                          | 56   |

The Department of Factories, Boilers, Industrial Safety Health is enforcing the Factories and Building and other construction Acts and Rules. 123 cases were filed in the courts and Rs 14.22 lakh fine was imposed in 55 cases.

### Activities of the department

Department of Factories, Boilers, Industrial Safety Health carries the responsibility of ensuring occupational safety, health and welfare of the workers in the registered factories and at construction activities of above 25 crores investment through effective enforcement. The State of Karnataka has 18,823 registered factories with 18,33,021 workers and there are 3,376 working Boilers. Taking into consideration the volume of storage of hazardous chemicals, there are 91 Major Accidents Hazardous Factories in 21 districts in the state. Special and effective importance is given at the time of inspection to avert any possible accidents and disasters. There are 1625 factories having hazardous manufacturing processes and effective inspections are conducted to avoid possible accidents. The main objective of the department is to ensure Safety and Health of the workers. The Department is conducting risk-based inspections of Factories to ensure occupational safety and the Health of workers at workplace. Further, the department is providing all possible assistance to the management to ensure occupational safety & health at work place. The details of the department in brief as given in **Table 9.12.**

**Figure 9.1 : Comparison of Karnataka's WPR, LFPR & UR over the past three years**

The above charts show that the Labour Force Participation Rate for Person is 60.1% in 2021-22 and increasing continuously to 63.5% in 2023-24 and likewise in Worker Population Rate also. LFPR and WPR for Females are also showing an increasing trend in the given years.

### 9.2.3 Achievements

- A separate Board called, “Karnataka State Motor Transport and Other Allied Workers Social Security and Welfare Board” is newly constituted by a bill 2024 in this year to benefit unorganized workers by imposing an additional Cess of 3% on private commercial transport vehicles.
- Efforts of the State Government schemes and policies have led to an increase in LFPR (15-59 years) from 62.9% in 2022-23 to 63.5% in 2023-24 and also an increase in Worker Population Ratio from 61.2% in 2022-23 to 61.6% in 2023-24. During 2023-24, the lowest Unemployment Rate 2.9% is recorded in Karnataka (15-59 years) among major southern states in the country and also it is below the all India average of 3.5% as per Periodic Labour Force Survey 2023-24.
- Karnataka Building and Other Construction Workers Welfare Board has registered 52.71 lakh Building and Other Construction Workers as beneficiaries so far. During the year 2024-25 (Up to December), 82,477 beneficiaries have newly registered.
- Karnataka Building and Other Construction Workers Welfare Board has provided financial assistance to eligible registered beneficiaries amounting to Rs.7548 crores under various welfare and social security schemes so far. During the year 2024-25 (Up to December), 11,94,164 beneficiaries have availed benefits under various schemes amounting to Rs.705.59 crore.
- E.S.I. Scheme is a Premier Social Security Scheme. At present full Medical care is being extended to 37.30 lakhs of Insured Persons and about 180.44 lakhs of their family members through a network of 11 ESI Hospitals.
- Newly under the PIP (Project Implementation Plan) programme, a cervical cancer prevention and vaccination scheme has been established for insured women.
- 11.05 crore person days employment is provided under the MGNREGA scheme as on 06.02.2025 during the year 2024-25 and 11.85 crore person days wage employment generated under state government major programmes as on December 2024. A total of 22.90 crore person days wage employment generated under MGNREGA and State Government major programmes.

### 9.2.4 Challenges

- It is a challenge to implement the Unified State Child Labour Scheme (SCLP in all 31 districts) from available grants. An additional grant is required for the effective implementation of the scheme.
- More than jobs, economic growth is about generating livelihoods. Technological change, geopolitical churn and climate change combine to make this a formidable challenge.
- The employment of workers in the industrial sector is the second largest after the employment of workers in the agriculture sector in the country. Hence, it is very essential to ensure occupational safety and health of workers in the factories.
- Extending full medical facility to all insured persons and their families in the State

### 9.2.5 Way forward

- **To create Awareness about labour acts and schemes:** To Provide information to the public about the schemes implemented by the various Boards/Corporations/Organizational Societies under the Labour Department, identifies the beneficiaries and provides facilities. Providing statutory redressal in respect of grievances received under various Labour Acts.
- **IEC activities to eradicate Child Labour:** To organize public awareness programs and Information, Education and Communication (IEC) activities under the leadership of the District Commissioners of the respective districts in the District Child Labour Scheme Societies of all districts on the elimination of child and adolescent Labour, with the aim of making Karnataka a child and adolescent Labour-free state, and to undertake further publicity in this regard.
- **Menstrual Leave Policy for Karnataka :** Implementation of a Menstrual Leave Policy to grant one day's paid leave on the first day of menstruation to women working in the private sector as implemented in various states is in progress.
- Tie-up arrangements have been required for private Hospitals to extend the medical benefits which are not available at ESI Hospitals.

## 10.1 POWER SECTOR

Power generation in the public sector is managed by the Karnataka Power Corporation Limited (KPCL) whereas the Karnataka Power Transmission Corporation Limited (KPTCL) deals with transmission of power and load despatch functions. As part of the restructuring of the power sector in the State, the erstwhile Karnataka Electricity Board (KEB) was restructured as KPTCL in 1999 by giving it a corporate status. As per the Electricity Act 2003, KPTCL, being the State's transmission utility, is not empowered to trade in electricity. Therefore, the distribution companies directly procure power from power generators, both public and private and ESCOMs own distribution network, and use KPTCL's transmission network to distribute electricity.

### 10.1.1 Power Generation

The total installed generation capacity, both in the public sector and private sector including the State's share in the Central Generation Station (CGS) upto December 2024 is 34,950.90 MW. The installed capacity in the public sector is 13729.15 MW (including CGS allocation) and the private sector's share is 21,221.75 MW. Renewable energy sources in the private sector, (excluding the share of IPP Thermal & Mini Hydel) account for 50.66% of the total installed capacity. The status of power sector in terms of both installed capacity and electricity generation for Karnataka is provided in **Table 10.1**.

**Table 10.1: Progress in Power Sector**

Source: KPCL, KPTCL, KREDL, PCKL & SLDC; Note: MU- Million Unit, MW-Mega watt.

The State has added 637.98 MW of Generating capacity in renewable energy sources during the FY 2024-25 (upto Dec-24). The State is also in the forefront in capacity addition in Renewable Energy Sector & there is constant increase in capacity under this category. The availability factors of most of the generating plants have been found to be relatively high suggesting an efficient preventive maintenance system being in place.

### Plant Load Factors (Capacity Utilisation)

The average cost of power generation is higher in thermal plants as compared to Hydel plants and the State's reliance on thermal plants for power generation has increased over the years. As a result, the average cost of power generated has been increasing.

#### 10.1.2 Purchase of power from other States and energy exchanges

Towards meeting shortages in electricity supply, Karnataka buys power from neighbouring States, other States and from energy exchanges. The details of such purchases during last three years & in 2024-25 (upto Dec-24) are given in **Tables 10.2 and 10.3**.

**Table 10.2: Procurement from other States through Bilateral Trade & purchase through Energy Exchanges**

| Year                  | Energy in MUs | Amount (Rs. in Cr.) | Average Rate Rs/kWh |
|-----------------------|---------------|---------------------|---------------------|

### 10.1.3 Power Transmission: State Transmission Utility (KPTCL)

Karnataka Power Transmission Company Ltd. (KPTCL) is the State Transmission Utility engaged in the business of transmission of electricity in the State. It is the responsibility of the KPTCL to construct power stations & lines and strengthen the system for easing network congestion, power evacuation etc. The status of transmission infrastructure as at the end of Dec-24 is given in **Table 10.4**.

**Table 10.4: Power stations & transmission lines of KPTCL**

(as on 31.12.2024)

| Voltage Level (in kV) | No. of stations | Transmission Line in CKmt. |
|-----------------------|-----------------|----------------------------|
| 400                   | 9               | 3935                       |

**Transmission & Distribution (T&D ) losses and Aggregate Technical & Commercial (AT&C) losses**

The State has taken various measures to reduce T&D and AT&C losses.

**Measures taken for reduction of T&D loss**

- Establishment of new Substations and Transmission Lines.
- Augmentation of Existing Sub Station & Replacement of age old conductors.
- Bifurcation of lengthy High Tension/Low Tension (HT/LT) lines & overloaded 11 kV feeders.
- Re-conductoring of HT/LT lines and reduction of HT/LT ratio.
- Providing additional transformers to release over loaded DTCs.
- 100% Metering and Accuracy in Billing.
- Load balancing and bifurcation of load.
- Strengthening of Vigilance/MT Activities.
- Replacing Electro Mechanical meters by Static/energy meter.
- Encouraging consumers to install energy efficient equipments.

**Measures taken for reduction of AT&C Loss**

- Accuracy and 100% billing of consumer installations.
- 100% collection efficiency.
- Improving vigilance activities.
- Periodical rating of HT & LT Installations.

T&D losses of Karnataka's power sector has been brought down from 16.34% in 2021-22 to 15.78% in 2023-24 (**Fig.10.1**). The utilities in the sector are making planned investment for strengthening and augmenting the network for reduction of technical loss.

**Figure 10.1** also shows the trends in AT&C losses during 2018-19 to 2023-24. The AT&C Loss which was 16.99% in 2020-21 has been brought down to 11.92% in 2023-24. Transmission loss for the year 2023-24 was 2.97%.

**Figure 10.1: Trends in Transmission & Distribution losses and Aggregate Technical & Commercial Losses from 2018-19 to 2023-24.**

#### 10.1.4 Electricity, Demand and Supply Status

The State of Karnataka has achieved near self-sufficiency in power generation to meet the growing demand. The occasional gap due to seasonal variation in demand and supply is met through short term purchases.

Trends in peak demand for power and peak energy supply per day during the years 2019-20 to 2024-25 (Upto Dec-24) are given in **Figure 10.2**. It may be observed that both the peak demand and peak energy supply per day are showing increasing trend. The peak demand met during 2023-24 was 17220 MW and that in 2024-25 (Upto Dec-24) was 16985 MW. The anticipated peak demand to be met during 2024-25 is around 18000 MW.

**Figures 10.3 and 10.4** show the trends in estimated gaps in demand and supply for both power and energy.

**There is no power supply shortage since last 7 years**

### 10.1.5 Vigilance efforts

The vigilance efforts by various authorities of the ESCOMs in reducing theft and pilferages over the years have contributed to the reduction in AT&C losses (**Table 10.7**).

The data suggests that authorities have been actively increasing vigilance efforts, leading to the detection of more cases and imposition of penalties, which may serve as a deterrent against theft and pilferages in the electricity sector.

Table 10.7: Vigilance efforts by various authorities of the ESCOMs in reducing theft and pilferages

| Year                    | No. of Installations Inspected | No. of Cases Detected | Penalty Imposed (Rs. in Cr) |
|-------------------------|--------------------------------|-----------------------|-----------------------------|
| 2019-20                 | 6,23,036                       | 65,154                | 926.75                      |
| 2020-21                 | 2,43,746                       | 14,546                | 63.02                       |
| 2021-22                 | 2,63,915                       | 12,090                | 57.54                       |
| 2022-23                 | 8,41,784                       | 82,375                | 451.81                      |
| 2023-24                 | 13,67,879                      | 99,770                | 309.76                      |
| 2024-25 (Upto Dec-2024) | 6,19,347                       | 52,821                | 111.92                      |

### 10.1.6 Electricity sales

The ESCOMs supply electricity to various category of consumers at different price slabs. Details of revenue realized from the different categories of consumers are given in **Table 10.8**. This shows that during the year 2023-24, the LT category consumers while accounting for about 76.83% of the electricity consumption, contribute only 66.87% to the ESCOMs total revenue. The HT industrial & commercial sector while accounting for only 16.97% of the electricity consumption, contributes 19.78% to the total revenue earned in 2023-24.

Electricity supplied to LT Agriculture including Horticulture nurseries fetches the lowest average revenue of Rs.6.47/kWh whereas the LT commercial category provides highest revenue realisation of Rs.11.47/kWh. Other than temporary installations, commercial LT consumers and HT industrial and commercial consumers pay higher prices for electricity consumed.

**Table 10.8: Electricity sales and revenue realization by categories of consumers**

| Category     | Description                          | Sales (MU) |                         | % of sales |                         | Revenue (Rs. in Cr.) |                         | Average Revenue Realization (Rs./kWh) |                         |
|--------------|--------------------------------------|------------|-------------------------|------------|-------------------------|----------------------|-------------------------|---------------------------------------|-------------------------|

#### 10.10: Financial position of ESCOMs in FY 2023-24

(Rs. in Cr.)

| Name of the Company | Profit/Loss     | Cumulative Profit/Loss |
|---------------------|-----------------|------------------------|
| BESCOM              | -3863.16        | -8343.40               |
| MESCOM              | -203.78         | 59.19                  |
| HESCOM              | -2640.20        | -9898.29               |
| GESCOM              | -1496.62        | -4894.38               |
| CESC                | -346.63         | -3032.68               |
| <b>Total</b>        | <b>-8550.39</b> | <b>-26109.56</b>       |

Source: Energy Department

The above table shows that out of 5 Electricity Distribution Companies only MESCOM has shown profit.

#### 10.1.7 Subsidy in Power Sector

There are a total number of 34,84,741 Irrigation Pump sets upto 10 HP in the State as of Dec-2024. The power supply to IP sets (Upto 10 HP) has been made free with effect from 01.08.2008. The entire cost of supply of free power to agricultural sector (IP set upto 10 HP connected load) has been made good by the State Government through subsidy.

#### Gruha Jyothi Subsidy

Out of the 5 guarantees announced by the Government, the most important guarantee “Gruha Jyothi” scheme has been implemented by Energy Department from 01.07.2023. Under this scheme, every household in the State is provided free electricity supply every month subject to a maximum consumption limit of 200 units per month. Out of 1.72 Cr. registered consumers, presently 1.63 Cr. consumers are getting the benefit under this scheme. The earlier schemes such as “Bhagya Jyothi and “Kuteera Jyothi” and “Amrutha Jyothi” schemes have been subsumed in this Gruha Jyothi Scheme. The subsidy given under Gruha Jyothi scheme from 01.07.2023 to 31.12.2024 is Rs. 12604.19 Crore.

The subsidy provided by the State Government from 2020-21 & upto Dec-2024 is provided in **Table 10.11**.

The data reflects a strategic approach by the government to provide financial aid across sectors, addressing both existing arrears and responding to the challenges posed by the Covid-19 pandemic through targeted relief measures and specific subsidies like GruhaJyothi.

**Table 10.11: Subsidy Released by the State Government**

| Year                  | Subsidy released (Rs. in Cr.) | Remarks                                                                                     |
|-----------------------|-------------------------------|---------------------------------------------------------------------------------------------|
| 2020-21               | 11,250.00                     | -                                                                                           |
| 2021-22               | 16,944.93                     | Includes previous subsidy arrears of Rs.5,500.00 Cr. & Covid relief subsidy of Rs.68.93 Cr. |
| 2022-23               | 14,092.61                     | Includes FAC subsidy of Rs.100.02 Cr. & Covid relief subsidy of Rs.92.59 Cr.                |
| 2023-24               | 23,780.00                     | Includes Gruha Jyothi subsidy of Rs. 5,830 Cr.                                              |
| 2024-25 (Upto Dec-24) | 16,363.30                     | Includes Gruha Jyothi subsidy of Rs.6,774.19 Cr.                                            |

### 10.1.8 Demand Side Management (DSM)

Efforts in Energy Efficiency and Energy Conservation are crucial for India to achieve its Nationally Determined Contribution, which aims to reduce the emission intensity of its GDP by 33-35% by 2030, compared to 2005 levels. The Government of Karnataka has implemented several programmes to conserve energy as part of its DSM initiatives. Some of the important programmes are:

1. Time of Day Tariff Metering is mandatory for industrial consumers and especially for HT consumers having sanction load of 500 kVA and above.
2. Installing Energy efficient street lighting systems and Electronic Time Switches for street light installations for switching "ON" and "OFF".
3. Adoption of High Voltage Distribution System (HVDS) for agricultural loads in rural areas.
4. Encouraging domestic consumers to use solar water heaters.
5. Mandatory use of solar water heating systems for all residential buildings with a built up area of 600Sq.Ft. and above falling within the limits of Municipalities/Corporations and Bangaluru Development Authority etc.
6. Mandatory use of LED in Government buildings/Aided institutions/ Boards /Corporations.
7. Mandatory use of star rated energy efficient irrigation pump sets conforming to standards prescribed by the Bureau of Energy Efficiency (BEE).
8. Promotion of energy efficient building designs.
9. Adoption of Bachat Lamp Yojana launched by Bureau of Energy Efficiency (BEE), Government of India.
10. Implementation of PM-Surya Ghar Muft Bijli Yojana
11. Implementation of Off grid solar pumps under KUSUM-B and feeder level solarization under KUSUM-C
12. Implementation of Vidhyuth Jagruthi Yojana, an awareness programme on DSM activities for students.
13. Implementation of Surya Raitha Scheme, a pilot project for arranging power supply to IP sets through solar under net-metering concept for IP sets.

### 10.1.9 Investment in Power Sector: Planned by KPCL, KPTCL & ESCOMs during 2024-25

The Plan Outlay and expenditure incurred during the last Five years and during 2024-25 (up to Dec-24) are given in **Table 10.12**.

**Table 10.12: Investment in Power Sector**

### 10.1.10 Rural Electrification

Towards meeting the targets stipulated by the National Electricity Policy (NEP), the State Government has planned initiatives for energisation of Villages, Hamlets, Harijan Bastis and Thandas. All the villages of Karnataka have been electrified.

The ESCOMs have planned to energise hamlets and thandas in a phased manner. The details of electrification status in hamlets, Harijan bastis, thandas and IP sets during the last 4 years and in the current financial year are provided in **Table 10.13**.

**Table 10.13: Progress in Rural Electrification**

| Year                  | Irrigation Pump sets<br>Energised (in lakhs) | Hamlets/Harijan<br>Bastis Thandas Electrified (No.) |

### 10.1.11 Karnataka Renewable Energy Development Limited (KREDL)

KREDL is the nodal agency for the development of renewable energy sources in Karnataka. To harness green and clean renewable energy sources in the State for environmental benefits and energy security and to initiate energy conservation & efficiency measures in all the sectors for sustainable development, the Government of Karnataka notified a policy on renewable energy (for the period 2009-14) in 2010, 'Solar Policy 2014-21' in 2014 and 'Karnataka Renewable Energy Policy 2022-27' in 2022.

### Karnataka Renewable Energy Policy 2022-27

State notified 'Karnataka Renewable Energy Policy 2022-27' to facilitate Government of India in meeting the Renewable Energy target of 500 GW by 2030 and to promote new initiatives and emerging energy technologies in the State and to continue Karnataka State's position as a preferred investment destination in the Renewable Energy sector and create an ecosystem for sustainable and green energy development in the State.

KREDL, the nodal agency envisages private sector investment for renewable energy development in the State. The capacity addition under renewable energy during 2023-24 was 1960.27 MW and it is 637.98 MW during 2024-25 (upto Dec-24) (**Table 10.14**).

**Table 10.14: Capacity additions under Renewable Energy (in MW)**

| Sources                          |       | Capacity addition (in MW) |               |                |                          |
|----------------------------------|-------|---------------------------|---------------|----------------|--------------------------|

Source: KREDL

The capacity addition has increased by 1375.66 MW from 2022-23 to 2023-24.

The cumulative progress in installed capacity additions in the renewable energy sector in the State as on 31.12.2024 is shown in **Table 10.15**. Solar energy (including Solar Roof top) accounts for major share in the installed capacity.

**Table 10.15: Cumulative Progress in Renewable Energy (in MW) as on 31.12.2024**

| Sources                          |       | Potential Available | Allotted Capacity | Installed Capacity |
|----------------------------------|-------|---------------------|-------------------|--------------------|
| Wind Power                       |       | 124139              | 35366.45          | 6631.72            |

Source: KREDL & Energy Department

### 10.1.12 New Initiatives

Initiative taken up in 2024-25

- Providing solar water pumps to beneficiaries under KUSUM Component-B through KREDL.
- Solarisation of Agriculture feeders under PM KUSUM-C.
- Upgradation of Distribution Automation System in all Corporation areas.
- The HVDS implemented on pilot basis, will be continued in other sub-divisions of ESCOMs after detailed study of the scheme.
- Smart Grid and Smart Meters scheme will be implemented on pilot basis.
- Implementation of Green Energy Corridor scheme with the assistance of KPTCL and MNRE.
- Augmenting Transmission Capacity to future growth and evacuation.

### 10.1.13 Centrally Sponsored Scheme

#### 1. Atal Bhujal Yojana

Atal Bhujal Yojana is a program of GoI to improve the management of groundwater resources in the water stressed areas of the State. The Scheme has been launched in Dec.2019.

Dept. of Minor Irrigation and Ground Water Development (MI & GWD), GoK is implementing the scheme in 1,199 water stressed Gram Panchayats of the State with a budget of Rs.1,201 Cr. Funding of Rs.10.00 Cr. is sanctioned to Energy Department for Segregation of feeders.

Detailed Project Report (DPR) amounting to Rs.10.50 Cr. has been sanctioned in Dec.2023 for segregation of 17 feeders by creating 10 new feeders in BESCOM. The work of 4 new feeders are completed and the work of remaining 6 feeders are in progress.

#### 2. Pradhan Mantri Janjati Adivasi Nyaya Maha Abhiyan (PM-JANMAN)

GoI has launched the PM-JANMAN scheme in Nov.2023. The scheme aims to provide basic infrastructure for the comprehensive development of Particularly Vulnerable Tribal Groups (PVTG).

DPR for an amount of Rs.4.6 Cr. has been sanctioned to electrify 1,794 PVTG households in 5 districts (Dakshina Kannada, Udupi, Mysore, Chamarajanagar & Kodagu) in the state.

So far, 1197 Households have been electrified (MESCOM-9 & CESC-1188). Grant amount of Rs.1.11 Cr. has been released till date.

#### 3. Dharti Aaba – Janjatiya Gram Utkarsh Abhiyan (DA-JGUA)

Dept of Tribal Welfare, GoI is implementing the scheme. The scheme aims at improving the socio-economic conditions of tribal communities by providing basic facilities to 1089 tribal majority villages in the State. The scheme was launched by GoI in Oct.2024. The scheme period is from 2024-25 to 2028-29.

Energy Department facilitates electrification of Tribal Households. DPR has been submitted to MoP/MNRE to electrify 4,236 tribal households in BESCOM, CESC and MESCOM jurisdiction at a cost of Rs. 31.89 Cr. under the scheme. The DPR submitted by CESC has been approved during Dec.2024, and approval of DPRs of BESCOM and MESCOM is under progress.

#### 10.1.14 Challenges

##### ➤ Subsidy burden

The Number of IP set (Upto 10 HP) installations are increasing over the years resulting in increased consumption. Due to inflationary tendency the cost of supply is increasing over the years. The tariff is getting increased due to increase in input cost of Generation, Transmission and Distribution. Consequently, subsidy burden is also increasing.

##### ➤ Cost of Supply

Due to increased demand for power in the state, the thermal share is increased adding to the cost of supply. The operational cost is also getting increased. The revenue realisation from sales is not matching with the overall cost of supply and there is gap or deficit in revenue every year. In order to bridge this revenue deficit temporarily ESCOMs are resorting to short term borrowings. The State regulators are considering the revenue deficit of the previous years during the Annual Performance Review & trying to bridge the revenue deficit as far as possible.

#### Specific challenges and the future outlook of the department.

- Optimum utilisation of natural resources under renewable energy sector.
- Generation capacity addition to meet the growing demand for achieving self sufficiency.
- Reduction of Transmission & Distribution Loss.
- Reduction of Aggregate Technical & Commercial Loss.
- Making Power Supply Consumer friendly.
- Reduction of Electrical Accidents.

#### 10.1.15 Outcome

- The State Government has published its Solar Policy for 2022-2027 for giving impetus to exploitation of solar energy. The State Govt. is able to harness renewable energy sources and save natural resources like coal.
- Some of the energy conservation programs like Demand Side Management (DSM) and smart grid pilot project have resulted in saving energy.

#### 10.1.16 Achievements of Energy Sector during 2024-25

- Considering the demand for electricity during the summer season, the following measures have been taken to ensure adequate supply of electricity to all categories of consumers in the State.
  - ❖ About 300-600 MW of additional power is being availed under swapping/banking arrangement from the states of Punjab and Uttar Pradesh.
  - ❖ Central Government has allocated 302.36 MW of additional power from unallocated share from Central Generating Stations (CGS).
  - ❖ To maximize production from thermal power stations in the State, additional coal of 2 lakh tonnes per month was availed from Coal India Ltd.
  - ❖ 1x370 MW Yelahanka gas-based plant has been constructed at a cost of about Rs.2300.00 crore and its full capacity was achieved and dedicated to nation in 2024.

- ❖ KPCL, in joint venture with BBMP, has successfully commissioned 11.5MW Waste to Energy plant in Bidadi at a cost of Rs. 280.00 Cr. The said plant will utilise about 600 tonnes of processed solid municipal waste of Bengaluru to generate power and plant has achieved Commercial Operation Declaration (COD).
- Approval has been accorded to systematically connect irrigation pump sets to the distribution network in the State through implementation of stand-alone/off grid Solar pump sets and solarisation of IP feeders to supply electricity to farmers' pump sets during day time.
  - ❖ The Ministry of New and Renewable Energy (MNRE) has sanctioned 40,000 stand-alone solar pumps under KUSUM-B scheme to expedite the Implementation. 38,247 applications have been registered under the scheme and 507 pumps have been installed till date.
  - ❖ In order to ensure day time power supply to Irrigation pump sets of farmers and to enhance their quality of life, solarisation of IP feeders is being undertaken under PM KUSUM-C scheme. This project is being implemented in 2 phases.
  - ❖ In Phase-1, projects with a total capacity of 1302 MW and in Phase-2, projects with a total capacity of 1192 MW are proposed to be implemented. Concerned ESCOMs have been designated as the Implementing agencies. Tendering process is under progress.
- Under Ganga Kalyana Scheme, 10449 IP sets were energised.
- Transmission - To facilitate network strengthening and seamless transmission of power, 28 new stations, 804 Circuit Kilometres of transmission lines and augmentation of 67 existing substations have been completed in the year 2024-25 (upto Dec.2024).
- Energy Sales – Due to failure of monsoon, when there was a power shortage situation in the State, Power to an extent of 3311.28 MU was purchased and 674.01 MU was sold in the power exchanges in a transparent manner during 2023-24 and the demand was efficiently managed. Karnataka has exceeded Renewable Energy Purchase Obligation target every year. By this, an amount of Rs.175.42 Cr. has been realised by sale of RE certificate.
- Gruha Jyothi Scheme - Under Gruha Jyoti Yojana, one of the Government's flagship guarantee schemes, a subsidy of Rs. 12604.19 Cr. has been released till 31.12.2024 since inception for free power supply of up to 200 units per month to 1.63 Cr. households in the state.
- Awards and Recognitions - The KREDL has been awarded BEST NODAL AGENCY for the year 2023-24 during the annual day of Indian Wind Power Association (IWPA) in August 2024 at Coimbatore, 2nd Prize for wind installed capacity during 2023-24 at Global Wind Day-2024 held at New Delhi in June 2024 and 2nd Prize in National Energy Conservation Award 2024 held in February 2024 at New Delhi.

#### 10.1.17 Way Forward

Different strategies are framed in various policies-Karnataka State Renewable Energy Policy, Energy Efficiency and Energy Conservation Policy, for Affordable and Clean Energy for all.

- Karnataka Power Transmission Corporation Limited (KPTCL) is identified as the nodal agency to plan and monitor the SDG-7. There is a need to prepare periodic plans for all ESCOMs, to implement their distribution infrastructure in a coordinated manner, as grid modernization and up-rating of the distribution network for the absorption of power will involve significant capital infusion.
- There is a need to rectify the balance sheet of state power utilities by rate-design reforms, plugging revenue leakage, squaring cumulative losses, and issuance of bonds. Additionally, quality-rated distribution transformers are required to ensure optimum efficiency.

- The utility business model needs to be promoted to shift from solely generating sales to acting as a mediator for sales, ensuring long-term sustainability. This would keep the consumers connected to the distribution networks to transact their surplus energy.
- Timely formulation and implementation of action plans.
- Re-assessment of cross-subsidies by cost-effective tariffs and regulatory innovations for electricity to evolve from a public utility model to a product/commodity model.
- Need for application of IT solutions such as SCADA to augment collection and collation of data and reduce manual interventions to ensure maximum uninterrupted power supply.
- Change management programmes of local power distribution as well as reactivation of the franchisee system to be promoted by involving local youths under Skill India Mission.
- There is a need to regulate farm power by limiting the number of wells per unit area and checking misuse of subsidy. Also, going forward, there is a need for increasing testing labs for solar panels as well as innovation labs such as YESSCALE (aggro tech, clean tech and smart cities) as alternate source of energy.
- Companies need to promote initiatives like internet of things block chain, machine learning, mobile intelligence, mini-grids and micro grids in future.
- To ensure sustainable up take of these technological innovations, there is a need for coherence between institutions and technological processes to ensure satisfactory functioning of electricity infrastructure.
- Network strengthening and using efficient irrigation pump sets.
- Convergence of State's Ganga Kalyana scheme with the Central Government's KUSUM scheme in feasible areas, which will help in promoting solar energy and reduce subsidy burden.

## 10.2 ROADS, TRANSPORT, INFRASTRUCTURE AND COMMUNICATIONS

### 10.2.1 Roads

The road network in the state comprises of National Highways, State Highways, District Main Roads, Municipal Roads, Other District Roads and Village Connecting Roads. Road development in the state is carried out by various departments/agencies of the state government such as Public Works Department, rural and urban local bodies. The details of Karnataka Road length is given in **Table 10.16**.

**Table 10.16**

| Category             | Length in kms as on 2023-24 | Length in kms as on 2024-25 |
|----------------------|-----------------------------|-----------------------------|
| National Highways    | 7332                        | 7652                        |
| State Highways       | 27880                       | 27983                       |
| Major District Roads | 56115                       | 55818                       |
| Municipal Roads*     | 58748                       | 58748                       |
| Rural Roads**        | 197332                      | 198496                      |
| <b>Total</b>         | <b>347407</b>               | <b>348697</b>               |

Source: 1) PRAMC, PWD (as on March 2024),

2) \*Directorate of Municipal Administration (as on March 2023) and

3)\*\* Rural development and Panchayath Raj Department (as on December 2024).

An amount of Rs. 9926.14 crores is allocated to the Public Works Department for the development of roads and construction and maintenance of buildings for 2024-25 of which an amount of Rs.6231.45 crores is released upto December 2024. The expenditure incurred is Rs.5628.51 crores (as per Avalokana).

The road length per 100 sq.kms of geographical area of the state (NH, SH and District Roads) is 47.76 kms during 2024-25. Among the 31 districts in the state, 16 districts are having the road length above the state average. They are Hassan, Mandya, Haveri, Bengaluru Rural, Ramanagara, Bengaluru Urban, Mysuru, Dharwad, Tumakuru, Dakshina Kannada, Belgavi, Udupi, Kolar, Davangere, Bagalkote and Gadag. 15 districts are having the road length less than the state average. They are Bidar (40.35), Yadgir (39.70), Chikkamagaluru (43.29), Chikkaballapura (43.43), Uttara Kannada (45.59), Kodagu (43.39), Koppal (46.13), Raichur (36.38), Shivamogga (47.43) Chitradurga (38.80). Vijayapura (38.21), Vijayanagara (45.13), Ballari(39.80), Kalaburagi (34.91) and Chamarajanagar (31.24) districts. The details of the roads and lanes are given in **Table 10.16(a)**.

**Table 10.16(a)**

| Category             | Length in km | Surface details |       |          | Lane details |              |      |      |     |
|----------------------|--------------|-----------------|-------|----------|--------------|--------------|------|------|-----|
|                      |              | Asphalt and CC  | Metal | Earthern | Single       | Intermediate | Two  | Four | Six |
| National Highways    | 7652         | 7652            | 0     | 0        | 121          | 1333         | 3930 | 2022 | 246 |
| State Highways       | 27983        | 27630           | 92    | 261      | 5355         | 13711        | 7995 | 922  | 0   |

### State Highway Development Plan - SHDP

Under the State Highway Development Plan, the development of state highways and the major district roads with the highest vehicle density are being implemented. It is implemented under 5 phases. Under SHDP-IV, Stage-1, Rs. 4500 crore has been allocated of which an amount of Rs. 4720 crores has been spent for the development of 3452 kms of road. 07 packages are under progress. Under SHDP-IV, Stage-2, an amount of Rs. 3500 crore has been allocated of which an amount of Rs. 3119 crores has been spent for the development of 2120 kms. 50 packages are under progress as on Dec 2024.

Under the State Highway Development Project (SHDP) Phase-V Administrative approval has been given for the development of 2500 kms of roads in 2 phases at a cost of Rs. 9,000 crore. Under Stage-1, it is planned to develop 1467 kms of roads at a cost of Rs. 4,000 crore for which tender process is under progress. Further, under Phase-V, Stage-2, 1033 kms of roads will be developed at a cost of Rs. 5,000 crore.

**Karnataka Road Development Corporation(KRDCL) Works:** A total of 242 bridges amounting to Rs. 1885 crore on turnkey basis are being constructed across the state in 15 packages, of which 190 bridges have been completed and the remaining bridges are in various stages of progress. An amount of Rs. 1734 crore has been spent upto the end of December-2024.

**Roads around Bengaluru:** In order to decongest the traffic in Bengaluru to reduce vehicular congestion it is planned to develop roads around Bengaluru city. It includes ROB/ RUB and grade separator. A total of 155 km long road is being constructed in 10 packages at a cost of Rs. 3336 crore, of which 120 kms road work has been completed and an amount of Rs. 1367 crore has been spent by the end of December 2024.

**Hybrid Annuity model (HAM):** Under the Hybrid Annuity Model, the Raichur-Sindhanur road is being developed at a cost of Rs. 3565 crore for development of 77 kms of roads and by the end of December-2024, an amount of Rs. 56 crore has been spent, and the work is in progress. In addition, under the HAM model, administrative approval has been accorded to develop the 110.40 kms road from Devanahalli-Vijayapura-H. Cross-Vemgal-Maluru-Tamil Nadu border at a cost of Rs.3190 crore.

A total of 1315 kms of road renovation with minor improvement of highways developed by KSHIP, KRDCL and PWD earlier is being implemented at a cost of Rs. 525 crores. Renewal of 606 kms has been completed. An amount of Rs.390 crore has been spent till the end of December-2024. The remaining works are in various stages of progress.

### Karnataka State Highways Development Project

- **Under KSHIP-1**, 2414 kms of state highways have been developed at a cost of Rs. 2389 crores. (Rs. 1635 crore with World Bank Assistance).
- **Under KSHIP-II**: 1800 kms of state highways have been developed in two phases with the assistance of World Bank and Asian Development Bank.
- **Under KSHIP-III**: To develop 418 kms of state highways under 3 packages with the assistance of Asian Development Bank an amount of 346 million US dollars has been received. All the 3 packages are in progress, 96 kms of road length in Package-1, 150 kms in Package-2 and 128 kms in Package-3 have been completed upto Dec 2024.
- **Under the KSHIP-IV**: A proposal has been submitted to the Government of India for approval to develop 875 kms of highways under state's road network concept at a cost of Rs. 5736 crores.

**NABARD RIDF scheme:** Under this scheme, improvement of rural roads and construction of bridges are being taken up to facilitate the movement of agricultural product to the nearest marketing centre, to ensure last mile connectivity. 30426 kms of rural roads have been improved with an expenditure of Rs.4221 crores and 1389 bridges have been constructed incurring an expenditure of Rs.1079 crores.

**RIDF NABARD 27 (2021-22):** Construction of 23 major and minor bridges at an estimated cost of Rs. 143 crore have been taken up, with an expenditure of Rs. 116.47 crore and 18 bridges have been constructed. The remaining 5 works are under progress.

**RIDF NABARD 28 (2022-23):** 73 road works to improve 394 kms of road is sanctioned with an estimated cost of Rs. 326 crores, of which 58 works have been completed and 15 works are under progress. At the end of December 2024, 273 kms of road length has been developed with an expenditure of Rs. 158.76 crores. Further, approval has been accorded for the construction of bridges across Netravati river on Mangalore-Charvattur-Karavali district main road (Kotepura-Bolara) in Mangalore taluk and Construction of bridge across Netravati river between Sajpanadu and Thumbe village in Bantwal taluk of Dakshina Kannada district with an estimated cost of Rs. 200 crores and Rs. 60 crore respectively with the condition that these works are to be included in NABARD assisted projects 2025-26.

**National Highways:** The development and maintenance of National Highways are being carried out by the National Highways Authority of India and the National Highways Zones of Public Works Department. Under the CIRF scheme, administrative approval has been accorded with an estimated cost of Rs. 1385 crores to take up the development of 295 roads covering a length of 2056 km. For the effective implementation of National Highways projects, the National Highways (North) Zonal Office is functioning in Belagavi. Approval has already been accorded to take up construction of 22 railway over bridges to safely cross the railway tracks passing through the state highways. Approval has been accorded for the construction of 6 ROBs and remaining 16 ROBs will be undertaken in a phased manner.

**Mitigation of Black Spots:** Mitigation of black spots on highways is essential to prevent accidents on national and state highways. As per the Karnataka Road Safety Policy, the Road Safety Authority had set a target of reducing road accidents by 25% and fatalities by 30% by 2020. So far, 755 black spots have been mitigated. Mitigation of 187 black spots are under progress.

**Appendix-E Roads and Bridges:** Action Plan has been approved to take up improvement of SHs and MDRs road and construction of bridges amounting to Rs. 4000 crores during 2024-25.

**Building Works:** Dr. B.R. Ambedkar Hostels for Scheduled Castes and Scheduled Tribes students are being constructed at a cost of Rs. 640 crores. Similarly, 11 Residential Schools are also being constructed at a cost of Rs. 198 crores. Out of these, 96 works are in progress and 4 works have been completed. An expenditure

of Rs. 200 crores have been incurred by the end of December-2024. Administrative approval has been given for the construction of 15 hostel buildings for Scheduled Caste students which are running in rented buildings in 2024-25 with an estimated cost of Rs. 105 crores the tender process is underway.

### Construction of foot bridges

In the coastal, Malnad and Western Ghats regions, where there is no proper road connectivity, the construction of footbridges is being undertaken to provide safe pedestrian crossings for the public and especially school children to cross the streams and ravines. In the year 2023-24, construction of 87 footbridges had been undertaken at an estimated cost of Rs. 13.98 crores, of which 49 works have been completed. 37 foot bridges are in progress at various stages. In the year 2024-25, construction of 173 footbridges are in progress at an estimated cost of Rs. 30.94 crores.

### New initiatives

- Karnataka Road Development and Regulatory Authority has been established to attract more capital for the development of highways of the Public Works Department under public-private partnership.
- Public Grievance Redressal System software has been developed for the public to file complaints about the works of the Public Works Department on [www.kpwd.gov.in](http://www.kpwd.gov.in).
- To ensure good quality in road construction, the “defect liability period” has been increased from 1 year to 5 years for the road works costing more than Rs.5 crore.
- Under the annual maintenance contract of the roads of the Public Works Department, one “road operator” has been assigned for every 35 km.

**Plan outlay and Expenditure-PWD:** From 2012-13 to 2024-25 (as on December 2024) an amount of Rs. 101319.03 crore has been spent for Roads, Bridges and Buildings construction development as against the total budget allocation of Rs. 109138.54 crore.

**Rural Roads:** The total length of rural roads in Karnataka as on 31.12.2024 is 1,98,496 kms. Improvements of rural roads and their maintenance are being taken up under Pradhana Manthri Gram Sadak yojana (PMGSY), Namma Grama Namma Raste Yojane (NGNRY) and Mukhya Mantri Gramina Raste Abhivruddi Yojane (CMGSY).

**1) Pradhana Manthri Gram Sadak Yojana (PMGSY) :** PMGSY was launched with an objective to provide rural connectivity by way of all weather roads to eligible habitations having a population of 500 and above. Under this programme, for 2024-25 Rs.250.00 crore has been allocated, of which Rs. 105 crore has been spent towards 138.874 kms of road works. For the maintenance of roads Rs. 50.00 crore has been allocated, of which Rs.16.33 crore has been spent for maintaining of 4982 kms of road length up to the end of December 2024.

**2) Mukhya Mantri Gramina Raste Abhivruddi Yojane:** During 2024-25, an amount of Rs.700.00 crore has been allocated of which Rs.522.00 crore has been released. Rs. 340.80 crores has been incurred as expenditure up to the end of December 2024.

**Upgradation of Roads:** In order to improve the road network of the state, two district main roads with a length of 39.30 kms have been upgraded to state highways and 34 roads with a length of 301.17 km have been upgraded from rural roads to district main roads. A total of 9 proposals ( 8 proposals for 808.50 kms in 2023-24 and 1 proposal for 113.02 kms in 2024-25) with an estimated cost of of Rs.918.52 crores, has been submitted to Government of India for upgrading state and district main roads to national highways. As at the end of December 2024, the total number of vehicles in the state is 3.30 crore as against 3.16 crore vehicles during March 2024 which indicates an increase of 4.43% .Hence the process of widening lanes on the roads is to be carried out in a balanced manner in line with the increase in vehicle density.

## Way Forward

- Last mile connectivity roads throughout state to be implemented.
- Implementing 4 Lane/6 Lane Roads on all National Highways.
- Implementing 2 Lane Roads for State Highways throughout state.
- Implementation of Intermediate lane for Major District roads throughout state.
- About 23% of State Highways and 79% of Major District Roads carriageway width are single Lane. To cater the increasing vehicle traffic, most of the State Highways and some of the Major District Roads needs to be upgraded to two lane width based on the vehicle density (Passenger Car Unit).

### 10.2.2 Transport

Transport Department consists of Transport Commissionerate and four Road transport corporations. An amount of Rs.6534.90 crores is allocated for 2024-25 of which an amount of Rs.4838.42 crores is released upto December 2024. The expenditure incurred is Rs.4781.31 crores (as per Avalokana).

#### Transport and Road Safety

- **Revenue Collection:** For the fiscal year 2024-25, the government has set a revenue collection target of Rs.13,000 crores for the Transport Department. By the end of December 2024, as against the cumulative target of Rs.9,393.24 crores, Rs.8,622.08 crores has been collected. The percentage of achievement is 91.79%.
- **Automated Driving Test Tracks**

The purpose is to scientifically test the driving skills of candidates applying for a driving license using modern technology without human intervention. To achieve this, automated driving test tracks are being constructed within the jurisdiction of all Assistant/Regional Transport Offices across the state. Currently, automated tracks are operational at Jnanabharathi, Electronic City in Bengaluru, Mysuru, Kalaburagi, Shivamogga, Dharwad, and Hassan.

  - ❖ The automated driving test track constructed in Mangalore is ready for inauguration.
  - ❖ The sensor installation work for the automated driving test tracks in Raichur and Belagavi is underway, and these tracks will be inaugurated soon.
  - ❖ The tender process for sensor installation and maintenance for the automated driving test tracks in Athani, Chikkodi, Jamkhandi, Bagalkote, and Haveri is in its final stages.
  - ❖ The civil works for the automated driving test tracks which are being constructed in Devanahalli, Kolar, Vijayapura, Hosapete, Bidar, Ballari, Davangere, Yadgiri, and Gadag are in final stage of completion, and the process for calling tenders for sensor installation and maintenance is being initiated.
  - ❖ Automated test tracks are being constructed in Tumakuru, Yelahanka, Bailhongal, Sakaleshpur, K.G.F., Chintamani, Sagar, Balki, Ranebennur, Sirsi, Dandeli, and Gokak. Except Tumakuru, the construction work on the tracks in all the other locations is in progress.
  - ❖ To undertake construction of automated test tracks in Nelamangala, Chikkaballapur, Madikeri, Hunasuru and Madhugiri during the current year the tender process needs to be initiated.
- **Own Buildings:** The department is taking necessary steps to construct well-equipped, self-owned buildings with basic facilities for all its offices. Currently, 48 offices of the department are functioning in their own buildings.

The construction work for self-owned buildings for the offices in Sirsi, Dandeli, Bidar, Kalaburagi, Balki, Belagavi, Yadgiri, Chandapur, and K.G.F. is in its final stages and in case of Gokak, Sakaleshpur, and Ranebennur it is under progress. Approval has been granted for construction of self-owned buildings for the Assistant Regional Transport Offices in Madhugiri and Honnavar during the current year. The tender process for the construction of the work needs to be initiated.

➤ **Vehicle Inspection and Certification Centers:**

- ❖ A Vehicle Inspection and Certification Center has been established in Nelamangala with the assistance of the Ministry of Road Transport and Highways, Government of India, through A.R.A.I. Pune.
- ❖ Vehicle Inspection and Certification Centers are successfully functioning in Mysuru, Dharwad, and Nelamangala.
- ❖ Civil work for the Vehicle Inspection and Certification Center being constructed at Chokkanahalli (Bengaluru) is under final stage, and the installation of machinery is under progress.
- ❖ Under the PPP (Public-Private Partnership) and BOT (Build-Operate-Transfer) model, ATS (Automated Testing Station) centers are being established at 13 locations across the state, namely, Devanahalli (Bengaluru), Shivamogga, Kolar, Bagalkote, Gadag, Belagavi, Vijayapura, Yadgiri, Ballari, Bidar, Ranebennur (Haveri), Tumakuru, and Davangere.
- ❖ Under the PPP and BOO (Build-Own-Operate) model, ATS centers are planned to be established at 19 locations in the state, including Bengaluru (Central), Bengaluru (West), Bengaluru (East), Bengaluru (South), Chikkaballapur, Ramanagara, Mandya, Chamarajanagar, Hassan, Madikeri, Dakshina Kannada, Udupi, Chitradurga, Chikmagalur, Uttara Kannada, Kalaburagi, Raichur, Koppal, and Hosapete.

➤ **Heavy Vehicle Driver Training Institute**

To produce high-quality and skilled drivers, the Transport Department has established Heavy Vehicle Driver Training Institutes at Singanayakanahalli in Bengaluru and Gamanaghatta in Dharwad, Kalaburagi and Mangalore. In the financial year 2023-24, the construction of a Heavy Vehicle Driver Training Center in Shivamogga has been initiated under the Road Safety Fund. A grant of Rs. 400 crore has been allocated for the said project in the year 2024-25, and by January 2025, Rs. 250 crore has been released. The project is expected to be completed by 2025.

- **Seizing Yard:** To provide place for parking vehicles seized due to violations of the Motor Vehicle Act and Rules during enforcement operations, seizing yards are being constructed in Devanahalli and Tumakuru during the current year for which tender process needs to be initiated.
- **Green Tax:** The amount collected under Green Tax is being used for awareness programs through Theatre, LED vehicles, Radio jingles, Hoardings, Bus Shelters, etc to control air pollution. Under this Fund, Rs.16.66 crore was collected in the year 2023-24, and Rs14.81 crore was collected by January 2025 for the year 2024-25. The total cumulative collection since 2016-17 stands at Rs.73.87 crore. Rs.19.57 crore was used in the year 2023-24, and Rs.0.783 crore was used by the end of January 2025 in 2024-25. Overall, the unspent amount at the end of January 2025 is Rs.68.329 crore.
- **Scrapping Policy 2022:** To encourage the public can make use of these centers to scrap their old unfit vehicles on voluntary basis and can avail the rebate on road tax for their new vehicles at the time of registration against the submission of Certificate of Deposit(COD) issued by the Scrapping facility centres, Government of Karnataka has introduced the Registered Vehicle Scrapping Policy 2022 and given permission to set up Vehicle Scrapping facility Centers in the State as listed below:
  - 1) M/s MAHINDRA MSTC RECYCLING PRIVATE LIMITED, Vijayapura, Devanahalli Taluk, Bengaluru Rural District.

2) SUHAS AUTOMOTIVE PRIVATE LIMITED, Kolala hobli, Vamachihalli village, Koratagere taluk, Tumkur.

- **Computerisation of Transport department & issue of smart card DL and RC :** The Department has completed computerisation of all 67 DCT & Sr.RTO / RTO / ARTOs offices and 15 Check Posts for issuing Smart Card based Registration Certificate and Driving License at all the Transport Offices. Services are being provided to public through web based online Sarathi-4 software for Driving License and Vahan-4 software for Vehicle Registration Certificate. A total of 2.43 crores DL Smart Cards and 3.59 crores RC Smart Cards have been issued as on 31-12-2024.
- **Installation of Vehicle Charging Station:** Karnataka is encouraging the registration of electric vehicles in the state. MoU has been entered with BESCOM at a cost of Rs.4 crores so as to make convenient to the owners of electric by establishing DC and AC charging stations by BESCOM at 70 places of Bruhat Bengaluru Mahanagara Palike limits. These charging stations can be viewed through mobile app and the charging unit fee can be paid. Further, it is proposed to establish such charging units on highways of the state. There are 126 (AC charger-100 and DC Charger-26) electric vehicles charging stations in Bengaluru as on 31-03-2023.
- **AIR-POLLUTION:** Checking is being conducted on polluting vehicles 8,64,968 vehicles were checked, cases were booked against 45,880 vehicles during the year 2024-25 Rs.6.21 crores is collected as fine up to December-2024.
- **NOISE-POLLUTION:** Checking is being conducted against noise polluting vehicles. During the year 2024-25, 8,26,111 vehicles were checked and cases were booked against 29,614 vehicles Rs.7.92 crores is collected as fine up to December-2024.
- **Vehicle Location Tracking Device & Emergency Button Installation Scheme in Public Service Vehicles:** In accordance with the central government's notification and guidelines, the installation of Vehicle Location Tracking Devices and Emergency Buttons in public service vehicles such as minibuses, school buses, private service vehicles, maxi cabs, contract vehicles, motor cabs, and goods transport vehicles operating on national highways has been implemented under the Nirbhaya Scheme for the safety of women and children. The scheme was launched on 19th June 2024. Out of the total of 6,04,863 public service vehicles, 40,848 vehicles have been equipped with Vehicle Location Tracking Devices and Emergency Panic Buttons upto December 2024.
- **High-Security Registration Plates (HSRP) Installation:** During 2023,, it has been made mandatory to install High-Security Registration Plates (HSRP) to all older vehicles registered before 1st April 2019. From 18th August 2023 to 20th December 2024, a total of 57,30,506 vehicles registered before 1st April 2019 have been fitted with High-Security Registration Plates in the state. The Government extended the deadline for installing HSRPs on vehicles to 31st January 2025.
- **Retro Reflective Tape:** To help other drivers quickly recognize the movement of vehicles, even when the tail lamps or indicators are not functioning properly at night, Retro Reflective Tape and rear marking plates are being used to prevent potential accidents. From 5th April 2024, it is mandatory to install Retro Reflective Tape and rear marking plates on transport vehicles to enhance road safety for the public and vehicle owners/drivers.
- **Driver Drowsiness & Attention Warning System:** To enhance road safety and to reduce economic and social losses, Collision Warning System (CWS) and Driver Drowsiness System are being implemented by the Transport Department under the Karnataka State Road Action Plan 2024-25.
- **Vidyanidhi Scheme for Taxi and Auto-Rickshaw Drivers' Children:** To encourage higher education for the children of yellow-board taxi and auto-rickshaw drivers, the Government has launched the "Vidyanidhi" scheme, along with a special health facility program. An allocation of Rs.7 crore has been made for 2024-

25. Out of 1,417 applications received, 1,397 eligible students' applications have been processed with direct cash transfers (DBT) to their Aadhaar-linked bank accounts.

- **Labour Welfare Social Security Scheme 2024:** To provide health facility scheme for drivers of goods transport, auto, taxi, maxi-cab, and private bus vehicles, the Karnataka Motor Transport and Other Related Workers' Social Security Welfare Scheme 2024 has been launched for the first time in the country in collaboration with the Labor Department. This scheme has been implemented from 15th March 2024.

**Vehicle Population:** As on December 2024, Out of 330.14 lakh total vehicles in the state, 34.14 lakh vehicles were transport vehicles and 296 lakh vehicles were non-transport vehicles (From April 2024 to December 2024, 13.77 lakh new vehicles have been registered). The number of vehicle registered from the last 5 years ((2020-21 TO 2024-25) in Bengaluru city and Karnataka is given in the **Table 10.17** and **Figure 10.5**.

Table 10.17

(in crores)

| Year                     | No. of vehicles in Bengaluru city | No. of vehicles in Karnataka State | Percentage Share of Bengaluru vehicles in total |
|--------------------------|-----------------------------------|------------------------------------|-------------------------------------------------|
| 2020-21                  | 1.00                              | 2.72                               | 36.7                                            |
| 2021-22                  | 1.04                              | 2.84                               | 36.6                                            |
| 2022-23                  | 1.09                              | 2.98                               | 36.5                                            |
| 2023-24                  | 1.16                              | 3.16                               | 36.7                                            |
| 2024-25 (As on Dec 2024) | 1.21                              | 3.30                               | 36.8                                            |

## Four Transport Corporations

**Shakthi – Free travel for women:** Government of Karnataka has launched its ambitious scheme called ‘Shakthi – free travel for women’ on 11.06.2023, a flagship programme which is a step towards strengthening women empowerment in the state. The scheme has been hugely successful.

### The salient features of the scheme are:

- All women of the state, including the third gender, having domicile of Karnataka are eligible to avail this scheme.
- Free travel is permitted on producing identity card bearing photograph and residential address issued by Gol/GoK or any other Government Undertaking.
- Free travel facility is permitted in City, Suburban, Ordinary and Express buses within the state and it is not permitted in inter-state and premium services. However free travel has been permitted in some enclave and solitary express routes operated to interstate places.
- Women are issued ‘Zero-value ticket’ after verifying their identity card.
- Necessary changes have been made in the ETM (Electronic Ticketing Machine) application for issue of free ticket.
- In case of technical issues in the ETM, pink tickets are manually issued by the conductor.
- Provision has been made for reservation of seats for women in buses with advance booking facility.
- The cost of travel is reimbursed to the Corporations based on the number of Zero tickets issued.
- A grant of Rs.3199.75 crores has been provided as reimbursement towards the travelling cost of the women passengers under the government’s Shakthi Yojana during 2023-24.
- For the year 2024-25, an amount of Rs.5015 crores has been allocated for this scheme. Amount released upto December-2024 is Rs. 3761.24 crores.

Beneficiary details of the Shakthi scheme from 11.06.2023 to 31.12.2024 is as detailed in **Table 10.18** and details of Passengers travelled details before and after implementation of Shakthi Scheme is furnished in **Table 10.19**.

**Table 10.18**

| Corporation  | No. of beneficiaries (in crore)<br>(from 11.06.2023 to 31-12-2024 ) |                            | Shakthi free travel value<br>(Rs. in crore) |                            | Amount released from Govt.<br>(Rs in crore) |                            |
|--------------|---------------------------------------------------------------------|----------------------------|---------------------------------------------|----------------------------|---------------------------------------------|----------------------------|

### Impact of the Project / Intervention

As per the government instructions “M2M Media Network” conducted survey on Shakti Guarantee Scheme. The highlights of the survey are as detailed below.

- Women’s positive perception of the Shakthi Scheme has grown over time.
- Women’s daily usage surged from 20% to 27%, weekly usage declined from 46% to 38%.
- Overall, the Shakti Scheme is perceived as a positive catalyst for the women’s empowerment and economic contribution.
- Shakti Scheme has encouraged women to travel, seek jobs and to contribute the economy.

### I. Karnataka State Road Transport Corporation

KSRTC with its Corporate office at Bengaluru, has in its jurisdiction seventeen southern districts of Karnataka and provides bus service to 19965 villages out of 21748 villages, the percentage service provided being 91.8%. As on 31.12.2024, it has 17 divisions (16 operating divisions and Kempegowda Bus Station), 83 depots, two Regional Workshops, one Central and four Regional Training Institutes, one printing press and a hospital. As on 31.12.2024, 8100 schedules were operated by utilizing 8980 vehicles, for the cumulative period, the average operation was 28.68 lakh kms/day earning gross revenue of Rs.1361.93 lakh and carrying 34.71 lakh commuters with workforce of 33388 employees.

Thus KSRTC operated 7887.33 lakh effective kms. during the year 2024-25 (up to December 2024) as against 7433.74 lakh effective kms operated during the same period of previous year. The percentage fleet utilization has decreased to 89.7 during the current year as against 90.2 in previous year. During the current year upto Dec 2024, KSRTC has inducted 698 new buses to its fleet and replaced 290 old vehicles which were not fit for operation.

**Financial Performance:** During the year 2023-24, the Corporation incurred a loss of Rs.295.43 crore as against a loss of Rs.42.89 crore incurred during 2022-23. During the current year 2024-25 (up to December -2024) Corporation has incurred a loss of Rs 194.28 Crores as against Rs. 139.85 crores loss sustained during the

corresponding period of previous year. The financial statistics of KSRTC, BMTC, NWKRTC and KKRTC for the year 2023-24 (upto December-2023) and 2024-25 (upto December-2024) is furnished in the **Appendix 10.1**.

During the year 2023-24, the Corporation by utilizing its internal resources and grants released by the Government under KGIDF, has taken 101 works at an approximate cost of Rs.12306.48 lakh. An amount of Rs.6144.56 lakh was spent for 98 civil works during the year.

The details of the works undertaken using the grants released by the State Government under SCSP/TSP Scheme and KGID Fund are as detailed below.

- 3 works taken up under SCSP/TSP Scheme were completed with an expenditure of Rs.723.00 lakhs during the year 2023-24.
- Under KGIDF Scheme, 12 infrastructure development works have been completed and 20 works are in progress with an expenditure of Rs.2554.50 lakhs during the year 2023-24.

During the year 2024-25, the Corporation by utilizing its internal resources and grants released by the Government under KGIDF/ TSP has taken up 21 works at an approximate cost of Rs.21,111.75 lakh and as on 31-12-2024, all the works are under progress. Expenditure incurred is Rs.1518 lakhs. The details are given below.

- During 2024-25, Rs.3036.00 lakh has been allocated under KGID grants for carrying out civil works. 20 works were taken up under the grants provided, out of which 15 works are in progress and 5 works are in tender stage. The expenditure incurred as on 31-12-2024 is Rs.1518 lakhs.
- Out of Rs.278 lakh provided under TSP grants for the year 2024-25, one work was taken up and at present is in tender stage.

### Social Obligations

1. On 11th June 2023, the Government has launched its ambitious scheme 'Shakti – free travel for women', a flagship programme which is a step towards strengthening woman empowerment in the state. All women of Karnataka including transgender and girl students are eligible to avail this scheme to travel throughout the state. Thus 3.5 crore women of the state will be benefitted from this scheme.
2. The financial compensation given to the dependents of the passengers who die in accidents of KSRTC buses has been increased from Rs.3 lakh to Rs.10 lakh.
3. All the four Corporations have been fulfilling its social obligation by providing free/concession passes to several sections of the society namely, students (SC and ST), physically challenged, blind, freedom fighters, senior citizens, Olympians, paraolympians, Arjuna awardees, National Shourya prashasti awardees, goa freedom fighters, Ex- MLAs & Ex-MLCs within state and inter-state in any bus along with a companion, sitting MLAs & MLCs within state and inter-state in any bus with gold pass etc.

**Smoke Emission Checks:** During 2023-24, totally 19294 vehicles were checked for smoke emission levels and no vehicles are above 65 HSU limit and 450 (0.52%) buses were found to be slightly above the prescribed norms (>50HSU). These buses were attended to and put back to operation.

**SAKALA:** About 3.40 lakh applications were received and processed through SAKALA application during the year 2023-24. During 2024-25 upto December-2024, 3.04 lakhs applications received and processed.

**KSTDTC Package Bookings:** KSRTC has entered into an MoU with Karnataka State Tourism Development Corporation (KSTDTC) to make online booking through Awatar for Casual contract and tour package services in order to facilitate the passengers and also to improve the revenue mobilization of the Corporation. KSTDTC package tour booking has been integrated with KSRTC online reservation system and bookings are made available in website for public.

**Accident Insurance scheme:** For the first time in the history of State transport undertakings of the country, an accident insurance scheme of Rs.1.00 crore has been implemented for KSRTC employees. Employees of the Corporation who die in an accident or suffer permanent/temporary disability will get Rs.50 lakh, a non-premium accident indemnity insurance and Rs.50 lakh under employees' family welfare scheme with a minimum premium payment.

**Recruitment:** To ensure transparency in recruitment process, Document Verification Software, Selection list Software and Counseling Software have been developed in-house and are being maintained in-house. These Software are updated from time to time as per the rules. These initiatives have helped KSRTC to shift to transparent recruitment and has gained the confidence of candidates.

**Provident Fund and Voluntary Provident Fund Online Software:** Online Software has been developed and deployed to view the Provident Fund and Voluntary Provident Fund annual information by providing individual login facility for the officers and officials of KSRTC.

**Intelligent Transport System:** Intelligent Transport System has been implemented in all buses of Mysuru City Transport Division. The project scope includes 500 buses, 105 bus shelters and 45 platforms. ITS project is disseminating the bus arrival and departure information in real time through 167 Passenger Information System Boards, 20 small Screens and 16 big screens. The same is also provided through SMS, IVRS and Commuter Portal for public usage.

**Electronic Ticketing Machine (ETM):** KSRTC has introduced smart ETMs in all of its routes, in line with current technology and futuristic requirements, bringing higher level of employee/commuter satisfaction and achieving desired business objectives. Smart Electronic Ticketing Machine is Android based hand held device to capture ticketing information, print tickets and transfer real time ticket data to Central Server through 4G/ Wi-Fi interface.

- The device is inbuilt with QR code and RFID readers supporting UPI and other modes of digital transactions.
- Software has been implemented to calculate GST for each ticket in premier services.
- Daily passes for City Service and Volvo services are issued through ETM machine. Issue of intercity and integrated passes using ETM machine has been developed & deployed.

**Customer Relationship Management (CRM) Tool:** This tool is for receiving public/passengers complaints and suggestions on a single platform and all the departments will be able to monitor and redress the issues on a timely manner. The User Manual is prepared and the Officers were given proper training regarding usage of the tool. A mobile app is also developed and provided for use.

**Corporation's Call Center, Control Room and VTMS Call Center:** On an average 2000 calls per day are being received regarding bookings, bus operations, etc., and action has been taken to solve the problems of the public.

**KSRTC social Media (Facebook and Twitter):** KSRTC is active on the social media sites Facebook (KSRTC. Karnataka) and Twitter (KSRTC Journeys) as a platform for receiving and responding to public/passengers suggestions, complaints and opinions. KSRTC also provides information on bus operations for the convenience of the public, information on various new initiatives, current affairs/news related to the Corporation and social events through social networking sites.

**e-Office implementation:** As per the directions of the Government, e-office application has been implemented in KSRTC.

**Online Employee Grievance Reddressal System in KSRTC:** A Web based Employee Grievance Reddressal System facilitating the staff to register the online complaints regarding service matters/work related

grievances/exploitation or harassment by higher officials has been developed in-house and deployed. Employees may register the complaints by visiting the web link [www.ksrtc.org/oms](http://www.ksrtc.org/oms). Under the system, employees are provided the opportunity to know the status of the complaint and appealing to the authority if the response is not satisfactory.

**Sarige Vidya Chetana scheme for employees:** A scheme aimed at providing enhanced scholarship to eligible children of officers/employees of the Corporation through online application has been implemented.

**Health checkup facility for employees:** MoU between KSRTC and Sri Jayadeva Institute of Cardio-vascular Science and Research Centre has been signed for free Master Cardiac and Health Check-up of employees of above 40 years of the Corporation for a period of five years w.e.f. 02-11-2023 (10 Cardiac tests). Number of employees undergone healthcheck upto Dec 2024 is 12,352.

**Increase in death compensation for employees:** In case of death due to any reason during service, the compensation amount provided to the dependents under the Employees' Family Welfare Scheme has been enhanced from Rs.3 lakh to Rs.10 lakh. Number of beneficiaries upto Dec 2024 is 81.

**Human Resource Management System (HRMS):** HRMS project is developed to manage human resources and related processes throughout the employee life cycle. The HRMS project includes total of 13 modules (Employee, Leave & Attendance, Payroll, User Management, Disciplinary, Training, Employee Exit Management, Transfer, Promotion, Assets and Liabilities, PAR, MIS and Dashboard) with many sub modules pertains to Employee professional life span.

**Business Intelligence Dashboard (BID):** It is a business intelligence tool which helps Management to track, analyze and report on key performance indicators and other metrics, typical visualization of data in charts, graphs and maps which enables Management to understand, share and collaborate on the information. It is implemented from November-2022.

➤ **Achievements:** During the year 2023-24 and 2024-25 (upto December-2024) KSRTC has been recognized for its outstanding performance and bagged more than 100 national and international awards. To list out a few among them: Asia's Best Brand Employer Award- Singapore, PRCI Corporate Collateral Award- Customer Friendly Company of the Year – Diamond Award, SKOCH order of Merit – Welfare Practices, Punjab Leadership Award- Excellence in PSU-HR, Mcube award in 5 categories, Asia's PSU Awards, Madhya Pradesh Leadership Awards, National PSU Awards, National award for excellence- Best service provider in HR and many more.

## Way Forward

- To extend the bus facilities to the public.
- KSRTC has planned to induct 915 buses during the year 2025-26.
- It has also planned to introduce 'Cashless Medical Treatment scheme' to its employees from January-2025.
- KSRTC is in the process of implementing VTMS (Vehicle Tracking and Monitoring System) and Command Center, digitalisation of cash transactions through Mobile App, payment through ATM, Debit/Credit cards), NCMC Cards issuance for the benefit of passengers using Information technology.

## II. Bengaluru Metropolitan Transport Corporation

The Corporation is providing services by scientific fare system. The operational jurisdiction of BMTC went beyond B.B.M.P limits by 25 kms of Bengaluru, thus providing services to commuters in and around sub-urban of Bengaluru city. As on 30.12.2024, the Corporation has operated 5818 Schedules by utilizing 6759 vehicles, it has operated an average schedules of 5443.4 and covers daily 11.24 lakhs kms. and earns an average traffic

revenue of Rs. 590.95 lakh by carrying 40.12 lakh passengers daily. The workforce of the Corporation is 27995. In the year 2024-25 (Upto Dec-2024), the corporation has inducted 674 Electric vehicles (private) which are operating on GCC model and 666 Diesel Layland BS-VI buses and scrapped 639 old vehicles. The percentage fleet utilization stood at 87.1.

**Financial Performance:** During the year 2024-25 upto December-24 the Corporation has operated 30.93 crore effective kms, earned gross revenue of Rs. 1923.36 crores (including Rs. 140.42 crores financial assistance released by Government of Karnataka) and incurred an expenditure of Rs. 2495.11 crore and sustained a loss of Rs.571.75 crore. During 2023-24 the gross revenue is Rs. 2613.80 crores and the loss is Rs. 575.49 crores.

### Achievements and Programmes of 2024-25 (Upto Dec 2024)

- **Shakti Scheme:** About 115.41 crore women passengers have been benefited from Shakti Scheme in BMTC buses with daily average passengers of 21.45 lakhs.
- **Operation of Electric buses:** Under central governments FAME-II scheme through CESL, a contract has been entered into with Tata Motors for the operation of 921 Non A/c electric buses on Gross cost contract (GCC) Model with Rs.41.01 per km. A subsidy of Rs.39.08 lakh per vehicle is provided by the Central Government. As of December 31, 2024, 879 Tata electric buses are in operation. Under the Karnataka State Government's Capital Assistance Scheme, 320 Air-Conditioned Electric Buses have been ordered to be operated in the Corporation on GCC (Gross Cost Contract) model and on 07.12.2024, the prototype bus was accepted.
- **Induction of BS-VI Diesel buses:** First Batch of 100 BS-VI Buses of a total of 840 Buses has been inaugurated by Hon'ble Chief Minister on 12.09.2024 to the BMTC Fleet, at a cost of Rs. 336 crores. As on, 30.12.2024, 666 buses have been added to the fleet.
- **Launch of new transport services:** On 29.12.2023, along with the operation of VayuVajra services from the counters at Terminal-2 of Kempegowda International Airport, other facilities such as two helpline centers (24X7), display of VayuVajra transports' operating schedule (Digital) on PIS boards, Waiting lounge system, etc. have been provided and 5 (Schedule) routes have been introduced on the new VayuVajra route number KIA-18, which has been operationalized from Madavara Nice Road Junction to Kempegowda International Airport with effect from 23.12.2023.
- BMTC has set up a kiosk machine at the airport to help passengers is called the "BMTC's Smart Kiosk". This kiosk provides passengers with information about bus schedules, routes, and other transportation-related services, offering a seamless travel experience for those arriving at or departing from the airport.
- For the convenience of passengers travelling from Sarjapur to International Airport, 14 trips from Sarjapur to Kempegowda International Airport through Route No: KIA-8D is implemented from 4 schedules with effect from 19.02.2024.
- For the convenience of public passengers/metro passengers, a total of 56 schedules have been started from December-2023 to December-2024 through a total of 14 metro feeder routes.
- **Financial assistance from Govt:** GoK has allocated Rs.150 crores under financial assistance/relief - (VGF) in the budget for the year 2024-25 and has released Rs.39.97 crores upto Dec-2024. The said amount is being used for payment of employee salary.

### Labor welfare measures

- On 24.01.2024, as part of National Drivers' Day, the BMTC celebrated Drivers' Day and distributed gold medals to accident-free drivers.
- 106 dependents of the deceased employees have been recruited on compassionate grounds from January-2024 to Dec-2024.

- The recruitment process for 2500 conductor posts is under progress of which a selection list of 212 candidates (8% reserved for Kalyana Karnataka) was published on 03.12.2024.
- A dining hall has been built in a scrap vehicle of the corporation that can be used by employees to have snacks and meals at places like the depots/bus station of BMTC.
- Under the Prayaas scheme of the Regional Provident Fund Office, more than 100 pension payment orders have been distributed on 01.07.2024 to BMTC employees who have completed 58 years.
- An agreement has been signed with Canara Bank, SBI Bank, Union Bank to implement "Accident Insurance Scheme" for the staff of the corporation who are having a salary account with the above banks dies in an accident, the dependents will receive an indemnity of Rs. 1 crore, Rs. 64 lakhs and Rs. 64 lakhs respectively. In the year 2024-25 upto december, a total of 06 dependents of the deceased have been paid compensation.
- From February-2024, the compensation amount of the Departmental Group Insurance Scheme in the Corporation has been revised from Rs.3 lakhs to Rs.10 lakhs for natural death cases and the amount has been paid to 17 dependent beneficiaries of deceased employees in the current year. In case of death due to accident, steps have been taken by the Corporation to pay the insurance compensation amount of Rs.50 lakhs.
- Officers/staff working in the Corporation between the ages of 40 and 60 are being provided free heart check-ups at Sri Jayadeva Hospital. An agreement has been signed with Sri Jayadeva Hospital for a period of 5 years. So far, a total of 12553 employees have benefited from the said scheme.
- Free lung check-ups are being conducted at the Vayu Clinic for the officers/staff working in the Corporation on 06.07.2024. So far, a total of 1927 employees have been benefited from the said scheme.

**Training program for external candidates:** During the year 2024-25, the corporation has planned to impart driving training and also issue driving license from Regional Transport Office 970 candidates belonging to Scheduled Castes and Scheduled Tribes. As on 30.12.2024, 296(SC-238 and ST-58) candidates have been trained. 125 candidates are under training of which 95 are scheduled caste and 30 are scheduled tribe candidates.

### Basic amenities

In the budget of 2024-25, an amount Rs.30.36 crores have been provided to take up the following infrastructure facilities.

- Construction of Depot at Thottagere (Hesaraghatta), Bengaluru.
- Construction of Fire Hydrant drive way in Shantinagar, Yeshwanthpura, Domlur, Kengeri, Banashankari, Koramangala, Vijaynagar, I.T.P.L, Whitefield TTMC's Bengaluru.
- Concreting the Parking area and other Developmental works at Kodathi, Depot-42, Bengaluru.
- Construction of Compound wall / Fencing of Vacant lands at various locations.
- Construction of Staff Quarters at Shanthinagar, Bengaluru
- Additional Development works at Shanthinagar TTMC, Bengaluru.
- Construction of basic amenities and other development works for passengers at K.B.S, Bengaluru.
- Additional Development works at Central workshop-1 Shanthinagar, Bengaluru.
- Additional Development works at Central workshop, TTMC's, Bus Station, Bengaluru.

**Passenger friendly initiatives:** During the year 2024-25 upto Dec 1,61,736 free/concessional bus passes have been issued to students of which 1,27,776 General students, 29,032 scheduled caste students and 4,928 are scheduled tribes students.

**Intelligent Transport System:** The Ministry of Women and Child Development, Government of India has sanctioned a total grant of Rs. 40.92 crore with the sharing pattern of 60% grant from the Central Government and 40% grant from the Government of Karnataka for the implementation of women safety features and surveillance system, mobile application of the BMTC and passenger information system at bus stands, etc., under the Nirbhaya Yojana. Steps have been taken to implement the following programs.

- Mobile App with Women Safety Feature.
- Emergency Response System – Panic Button.
- Automatic Vehicle Location System (AVLS) for 5000 buses.
- Bus Operations and Analytics Platform (BOAP).
- PIS Boards for display of Bus Schedule, ETA at 500 Bus Stops/Stations.
- In-bus Surveillance System for 5000 buses.
- Integration with BMTC's existing ITS.
- Data sharing platform with open protocols for sharing data with third party agencies.
- Maintenance of all installed hardware & Software.

'Namma BMTC' mobile app for women safety with SOS feature has been launched to the public on 25.09.2023. Currently, around 10.30 lakh people have downloaded the app. Automated Vehicle Location System (AVLS) technology has been made Go-Live from 30.12.2023.

### **Awards: BMTC has been conferred with the below enumerated Awards**

During the year 2024-25(upto December-2024) BMTC has been recognized for its outstanding performance and has received many National and International level awards. To list out a few among them: Skoch – 2023 – Order of Merit for 'Digital bus pass system' innovation initiative in the digital economy and digital technology category, ASRTU – Electric bus branding "ASTRA" – Special Jury award, Award of Excellence in Urban Transport in the category of "City with Best Record of Public Involvement in Transport" EV+ Charge India 2024 Excellence Awards-Green Fleet Excellence Award and Excellence in Electric Public Transportation, Smart Automotive Summit Excellence Awards 2024 and many more.

### **Challenges**

- The average diesel price which was Rs.55.80 per litre during the year 2017-18, has been increased to Rs.88.99 as on 14th Jan 2025, due to this there is an increase in fuel cost. This is an additional financial burden to the Corporation.
- There is considerable decline in passengers travelling in BMTC buses due to increase in Ola/Uber/Other 4 wheeler and 2 wheeler taxi services and public commuters opting for personalized mode of transport such as bikes and cars resulted in Revenue loss to BMTC.
- The average passengers travelled per day in BMTC buses during the year 2015-16 was 51 lakh and the same is decreased to 40.12 lakh in the year 2024-25 (up to Dec).

### III. North Western Karnataka Road Transport Corporation

2. **Acquisition of land:** For the year 2024-25 for land acquisition and for the works an amount of Rs.350 crores has been allocated by the state government of which an amount of Rs.327.89 has been released upto December 2024. The expenditure incurred is Rs.327.89 crores upto Dec 2024. Details of progress achieved in land acquisition is furnished in **Table 10.21**.

Table 10.21: Details of Cost Sharing Railway Projects-Acquisition of land

(Rs. in Crores)

| Sl. No. | Name of the project                   | Length of Railway line sanctioned in kms | Land required in acres | Land acquired in Acres | Balance land to be acquired | Amount released by GOK upto Dec 2024 | Expenditure incurred as on Dec 2024 | Length of railway line completed In kms | Status of land acquired |

### 3) Railway Road Over/Under Bridges: K-RIDE-ROB/RUB Project

The State Government has approved the construction of road flyovers/under bridges on a 50:50 cost sharing basis with the Ministry of Railways for the removal of railway LC gates with a traffic count of more than 1 lakh TVUs. 51 works are in progress, with a total estimated cost of Rs.1375.40 crores, of which the State Government's share is Rs. 809.39 crores. So far, Rs.646.32 crores have been released. Out of Rs.50.00 crores provided in the budget for 2024-25, an amount Rs.14.04 crores has been released upto Dec 2024 to construct ROB and RUBs. The expenditure incurred is Rs.14.04 crores.

#### Bengaluru Suburban Railway Project

Bengaluru Suburban Railway Project is being implemented through the joint collaboration of Government of Karnataka and the Ministry of Railways at an estimated cost of Rs.15767.00 crore. It is intended to build a 148 km long railway network with 57 railway stations. BSRP aims for decongesting the road traffic in Bengaluru city to connect Bengaluru city to its suburbs and satellite townships and will carry about 9.84 lakhs passengers per day upon completion. BSRP is the first project in India which is being implemented under National Suburban Rail Policy, 2018. Project sanctioned by the Govt of India through Ministry of Railways on 21st Oct. 2020. With a network length of 148.17 Km at a completion cost of Rs.15,767 crore completion period of 6 years from the date of sanction. Details are given in **Table 10.22**.

Table 10.22: Details of Bengaluru Suburban Railway Projects

(Rs. in Crores)

| Project                                        | Length (in Kms) | Estimated cost | Amount released by GOK | Expenditure upto Jan 2025 | land acquisition | Length of railway line completed |
|------------------------------------------------|-----------------|----------------|------------------------|---------------------------|------------------|----------------------------------|
| Bengaluru - Devanahalli + Airport Connectivity | 41.40           | 4266           | 865.42 Cr              | 1120.21 Cr                | In progress      | Nil                              |

| Kengeri – Whitefield                           | 35.52           | 2561           |                        |                           | Yet to start     |                                  |
| Heelalige – Rajanukunte                        | 46.24           | 4137           |                        |                           | In Progress      |                                  |
| <b>Total</b>                                   | <b>148.17</b>   | <b>15767</b>   |                        |                           |                  |                                  |

Baiyappanahalli-Chikkabanawara corridor civil works are under progress and pre-preparatory works are in progress to call tenders for the rest of the corridors. Loan agreement with KfW for 500 million euro and EIB (European Investment bank for 300 million euro was signed on 15th Dec-23 and 14th June-24 respectively (Total Rs. 7438 Cr). An amount of Rs1365.42 crores (Ministry of Railways and GOK) has been released of which an amount of Rs.1120.21 crores expenditure is incurred upto January 2025.

**Railway Doubling Projects:** Yeshwantpur-Channasandra and Baiyappanahalli-Hosur being single line which is the primary impediment to operate additional sub-urban train services from Yeshwanthpur and Bengaluru railway station. State Government is trying to resolve this by doubling these lines duly sharing the cost of this project with railways on 50:50 ratio. These works are being implemented by K-Ride, a joint venture between the Government of Karnataka and the Indian Railways.

- 1) **Baiyappanahalli-Hosur Doubling Project (42 km):** The estimated cost of the project is Rs.498.73 crore, of which the State Government's share is Rs.249.36 crore. Work is in progress and expected to be completed by the end of Aug-2025. Financial and physical progress of the project as on 31-01-2025 is 87.03% and 88.5%.
- 2) **Yeshwanthpur-Channasandra Doubling Project (22 km):** The estimated cost of the project is Rs.314.10 crore of which the State Government's share of Rs.157.05 crore. Work on the project is in progress and expected to be completed by the end of the year Aug-2025. Financial and physical progress of the project as on 31-01-2025 is 40.68% and 47.5%. The progress of the project is given in **Table 10.23**.

Table 10.23: Progress of Railway Doubling Projects

(Rs. in Crores)

| Sl. No. | Name of the project                        | Length of Railway lines in kms | Estimated cost | Amount released by GOK as on Dec 2024 | Expenditure upto Dec 2024 | Area of land acquisition completed in acres as on Dec 2024 | Length of railway line completed | Status |

### III. Ports and Inland Water Transport

Karnataka has a coastline of 320 km with one major port and 13 minor ports. The New Mangalore Port is the only major port in Karnataka which is under the control of Ministry of Shipping, Government of India and remaining 13 minor ports are under the administrative control of the State Government. Among these 13 minor ports, Karwar and Old Mangalore ports have handled significant volumes of cargo. In the year 2023-24, the state's minor ports handled 8.85 lakh metric tons of cargo and generated a total revenue of Rs.42.46 crore. During the period from April 2024 to December 2024, the state's ports handled 4.02 lakh metric tons of cargo and generated a total revenue of Rs.15.42 crore.

#### Implementation of Port Development and Maritime Infrastructure Policies

The Government of Karnataka has implemented the "Karnataka Minor Ports Development Policy-2014" to establish superior infrastructure facilities at the state's minor ports through public-private partnership initiatives. In alignment with the comprehensive development of the Karnataka coastline, strategic measures have been initiated based on the Karnataka Maritime Perspective Plan prepared by Pricewaterhouse Coopers (PWC). This encompasses minor port development, coastal conservation, and tourism advancement. Furthermore, consultants are being appointed to prepare a detailed report on "Preparation of Master Plan for the development of non-major ports in Karnataka." In this direction, steps have been taken to formulate the Karnataka Maritime Development Policy-2023.

The Karnataka Maritime Board is executing the operation of four berths across the ports of Karwar, Old Mangalore (comprising Bengre and Urban sectors), and Malpe under a 15-year public-private partnership framework. This implementation follows the PPP-ROMT (Renovation, Operation, Maintenance, and Transfer) model. A Transactional Advisor has been appointed, who has submitted the economic feasibility study report, which is currently under review. Additionally, the preparation of draft Request for Proposals (RFPs) and Draft Concession Agreements (DCAs) has been completed and is awaiting approval.

#### Shoreline Management Plan (SMP)

It is mandatory to obtain Coastal Regulation Zone (CRZ) clearance for any development works undertaken in the coastal region. As per the direction of the Honorable National Green Tribunal, Chennai Bench, preparation of a Shoreline Management Plan (SMP) as a prerequisite for obtaining CRZ clearance. In compliance with this directive, the Karnataka State Maritime Board has commissioned the National Centre for Sustainable Coastal Management (NCSCM), Chennai, to formulate the requisite Shoreline Management Plan. The NCSCM has subsequently completed and submitted the SMP report. Moving forward, all coastal development initiatives will be implemented in accordance with the guidelines delineated in the SMP report.

#### Karwar Port Development Initiatives

The port has undertaken comprehensive dredging operations at a cost of Rs.40 crore to achieve a depth of -8.50 meters in the turning circle, basin, and channels. This strategic enhancement aims to ensure the safety of visiting vessels and facilitate increased cargo handling capacity through improved maritime access.

In alignment with safety regulations, a fire-fighting system installation project is currently in progress, with an estimated cost of Rs.19 crore. This implementation adheres to Oil Industry Safety Directorate (OISD)-156 guidelines and will enable the port to handle Class-B petroleum products in compliance with mandated safety protocols.

Furthermore, a three-year operational and maintenance contract for existing oil pollution control equipment, valued at Rs.6.50 crore, is being executed to ensure continued environmental compliance and operational safety. Concurrent with these environmental initiatives, the port has strengthened its maritime operations by

procuring services of two tugboats, each with a 30-ton capacity, on a hire basis at an estimated cost of Rs.32 crore.

### **Honnavar Port Development through Public-Private Partnership**

The Karnataka Maritime Board has entered into a significant public-private partnership by leasing 40,000 square meters of port land on the Kasarkod side to M/s. Honnavar Port Pvt. Ltd. (HPPL) for a period of 30 years. This strategic partnership aims to develop Honnavar Port with a capacity of 4.9 MTPA at an estimated cost of Rs. 613 crore.

To facilitate seamless connectivity to the port development project, the National Highways Authority of India (NHAI) is undertaking the construction of a four-lane connecting road from NH-66 under the Bharatmala Project. In support of this infrastructure development, the Chief Executive Officer has transferred the requisite land to the Project Director, Project Management Unit, NHAI, Honnavar.

The development process is currently in its environmental compliance phase, with M/s HPPL having submitted proposals for obtaining Coastal Regulation Zone (CRZ) clearance and Environmental Clearance (EC). These proposals are presently under review by the State Environmental Impact Assessment Authority (SEIAA)-Karnataka. This comprehensive approach ensures that the port development proceeds in accordance with all necessary environmental regulations while advancing the region's maritime infrastructure capabilities.

### **Development of Keni Port**

The Government has initiated the development of a greenfield port with a capacity of 30 MTPA at Keni in Ankola Taluk, Uttara Kannada District, under a Public-Private Partnership (PPP) model with an estimated investment of Rs.4,118.00 crores. Following the Request for Proposal (RFP), JSW Infrastructure submitted a bid which was subsequently approved. The Letter of Award was issued on November 15, 2023, and the Concession Agreement was executed on November 29, 2023.

### **Development of Pavinakurve Port**

A Public-Private Partnership (PPP) initiative has been proposed for the development of a greenfield port at Pavinakurve with a planned capacity of 14 MTPA (Million Tonnes Per Annum), estimated at Rs.3,047.00 crores. Despite issuing two Requests for Proposal (RFP), no bids have been received thus far. Consequently, procedures are being initiated to issue a third Request for Proposal (RFP) for this strategic infrastructure project. The last date for accepting the RFP is 23.02.2025.

### **Establishment of Karnataka Maritime Board**

The Karnataka Maritime Board (KMB) has been established with effect from 19.03.2018 in order to provide rapid development and management of Ports & Inland Waterways and Coastal region of the state as per the Karnataka Maritime Board Act, 2015.

### **Centrally Sponsored Sagarmala Coastal Berth Scheme**

Government of India has approved revised Central Sector Scheme for providing support to Major/ Non-major Ports/ State Government for creation of infrastructures to promote movement of cargo/ passengers by sea/ National waterways. Ministry of Shipping, GoI has approved 26 Projects in the State of Rs.1016.16 Cr under Sagarmala Scheme. Of the 26 projects, below mentioned 2 projects are under implementation by the KMB. In respect of other works tender process and obtaining the Environmental Clearance (EC) from the Coastal Regulation Zone (CRZ) is under progress.

1. **Construction of Coastal berth at Old Mangalore Port:** 85% of physical progress has been made with an expenditure of Rs. 55.32 Cr. The remaining works are under progress.
2. **Installation of firefighting equipment at Karwar Port:** 85% of physical progress has been made with an expenditure of Rs. 13.86 Cr. The remaining works are under progress

### Coastal Protection Works

During 2023-24, for installation of floating jetties, sea erosion protection walls spanning 1,600 meters were constructed at critical coastal erosion sites across three coastal districts, with an expenditure of Rs. 20.00 crores. For the fiscal year 2024-25, a budget allocation of Rs. 15.00 crores has been provided, and as of December 2024, sea erosion protection walls extending 940 meters have been constructed at a cost of Rs. 11.80 crores.

### Inland Water Transport Ferry Service

There are 111 ferry services in the state, out of which 9 ferries are managed by the department by deploying mechanized vessels, 22 ferries are operated by auction cum lease under the supervision of the department. Remaining 80 ferries are being operated by Zilla/ Taluk/ Gram Panchayat/Tourism/ Forest Department and other private agencies. 6 LCT's and 2 mini LCT's, 4 Mechanized steel boats, 12 fiber glass mechanized boats, 14 fiber glass boats & 4 wooden boats are operating at different ferries of the State.

**Capacity Building:** During 2024-25, totally 453 officers across various departments are trained on the implementation, management and benefits of Public Private Partnership (PPP). Among the PPP projects identified by various administrative departments during the current financial year, the State Level Single Window Agency (SLSWA) Committee has given formal approval to 6 PPP projects and in-principle approval to 44 PPP projects in its three meetings. The "State CGD Policy" has been issued for effective implementation of City Gas Distribution projects in the State.

### Bengaluru Metro Rail Corporation Limited (BMRCL)

In order to augment to the public transportation in Bengaluru and also to reduce the pressure of traffic, Metro Rail has come up in Bengaluru. It is a vital component of the transformation of the urban transport scenario. With urban population continuously growing, there is a need for green solutions. Mass Rapid Transit Systems are fast, safe and comfortable to travel. This alone will encourage people to switch over from personalized vehicles to public transport.

**Bengaluru Metro Rail Project Phase-1** having a total track length of 42.3 Kms, is already running from past several years. East to West from Baiyyappanahalli to Mysuru Road (18.10 Kms) and North to South from Nagasandra to Yelachenahalli (24.20Kms).

**Bengaluru Metro Rail Project Phase-2** consists of Extensions to 4 existing lines and 2 New Lines. The total length of Phase-2 is 75.06 Kms with 61 stations (49 Elevated and 12 Underground). The estimated project cost is Rs. 30, 695 crores. Presently, 34.65 Kms is completed and commissioned, Phase-2, R5 New Line from R.V. Road to Bommasandra having a length of 19.15 Kms is programmed to commissioned by March 2025. Phase-2, R6 New Line from Kalena Agrahara to Tavarekere(Elevated) having a length of 7.50 Kms is programmed to commissioned by December 2025. Tavarekere to Nagawara (Underground) having a length of 13.76 Kms is programmed to commissioned by December 2026. Physical and Financial progress are 93.95% & 89.44% respectively up to end of December-2024.

## Bengaluru Metro Rail Project Phase-2A and 2B

The construction of 58.19 Kms long Outer Ring Road - Airport Metro, Phase-2A Central Silk Board junction to Krishnarajapura and Phase-2B Krishnarajapura to Bengaluru International Airport via Hebbal at an estimated cost of Rs. 14,788.10 Cr. is in progress. Physical and Financial progress are 44% & 47.90% respectively up to end of December-2024. Phase-2A- Land Acquisition has been completed and utility shifting is nearing to completion. Civil works are in progress. Phase-2B: 98% Land Acquisition has been completed and 86% Utility Shifting are completed. Civil works are in progress Phase-2A and Phase-2B are programmed to complete by June 2026 and Dec-2026 respectively.

### New Project

Bengaluru Metro Rail Project Phase-3 is having a length of 44.65 Kms with 31 stations and having Two Elevated Corridors. Corridor-1- J.P. Nagar 4th Phase to Kempapura along ORR West for 32.15 Kms and 22 stations and Corridor-2, Hosahalli to Kadabagere along Magadi road for 12.50 Kms and 9 stations. Corridor-1 completes the network on ORR as a continuous ring with direct connectivity to the Airport. The estimated Project cost is Rs. 15,611 Cr.

- The project is proposed to be implemented through equity sharing model.
- The project has been approved by GoK on 29.10.2022 and GoI on 13.09.2024. Presently, preliminary works like Land Acquisition, Utility Shifting and Soil Investigation are under progress.

### Proposed Project

Bengaluru Metro Rail Project Phase-3A: is having a length of 36.59 Kms from Sarjapur to Hebbal. The project consists of 22.14 Kms of Elevated and 14.45 Kms of Underground sections with 28 stations. Depot is planned at Sarjapura. GoK approved for preparation of DPR on 08th February 2022 and presently, DPR is prepared and submitted to GoK on 15-01-2025 for approval.

## 10.2.4 Telecommunication

The telecommunication system in the State is operated by both private and public sector undertakings. Apart from BSNL, a number of private companies like Vodafone Idea Ltd., Reliance Jio Infocom Ltd., Bharati Airtel Ltd, MTNL etc. are providing the wireless and wireline phones. The teledensity (both BSNL and private cellular operators) in the southern states is presented in **Table 10.24**. Karnataka stands in 1st position among the southern states in Urban tele density.

**Table 10.24: Southern States Teledensity (%)**

| Southern States            | Total Teledensity | Rural Teledensity | Urban Teledensity |
|----------------------------|-------------------|-------------------|-------------------|
| Tamil Nadu (incl. Chennai) | 103.16            | 68.76             | 132.02            |
| Telangana                  | 109.27            | 84.97             | 134.51            |
| Kerala                     | 119.49            | 244.36            | 85.45             |
| Karnataka                  | 103.29            | 68.14             | 145.95            |
| Andhra Pradesh             | 83.53             | 72.91             | 101.28            |
| All India                  | 84.69             | 58.48             | 131.86            |

Source: Indian Telecom Services Performance Indicator Report for Quarter ending Sept, 2024.

The number of Internet subscribers per 100 population in southern states is presented in **Table 10.25**.

**Table 10.25**

| Southern states           | Rural  | Urban  | Total |
|---------------------------|--------|--------|-------|
| Tamil Nadu (incl Chennai) | 49.59  | 108.92 | 81.85 |
| Telangana                 | 67.56  | 123.32 | 94.92 |
| Kerala                    | 227.55 | 63.71  | 98.80 |
| Karnataka                 | 56.65  | 124.98 | 87.52 |
| Andhra Pradesh            | 53.73  | 92.61  | 68.28 |
| All India                 | 44.85  | 112.74 | 69.10 |

Source: Indian Telecom Services Performance Indicator Report for Quarter ending Sept, 2024

The number of landline connections and telephone exchanges has declined significantly. The decline in landlines can be partly attributed due to increased private participation in the mobile telephony sector and switchover to mobile phones.

### 10.3 Banking and Finance Including Cooperatives - 2024-25

#### 10.3.1 Introduction

Karnataka State has a fairly well-developed financial infrastructure. The State has pioneered in establishment of many leading commercial banks and is home to a wide network of commercial bank branches in the country. Currently, Twelve Public Sector Banks, Twenty one Private Commercial Banks, Two Regional Rural Banks, One Apex Co-operative Bank, 21 DCC Banks, One KSCARD Bank, One KSFC, Eight Small Finance Banks, Three Payment's Banks, and One Local Area Bank are operating in the State. Disbursement of credit in rural areas takes place through Co-operative Banks, Commercial Banks, and Regional Rural Banks.

National Bank for Agriculture and Rural Development (NABARD), as an apex level financial institution, plays a lead role in the promotion of agriculture and rural development, by preparing Potential Linked Credit Plans (PLPs) and annual action plans at the grass root level. A major portion of NABARD's refinance and developmental initiatives are channelized through the banking sector.

#### 10.3.2 Karnataka- Banking Scenario

An overview of the position of the banking network and ATM network in Karnataka during the previous years is shown below table 10.26

**Table 10.26: Banking Network across Karnataka**

| Category   | Branch Network |            |            |           | ATM Network |            |            |           |
|------------|----------------|------------|------------|-----------|-------------|------------|------------|-----------|
|            | March 2022     | March 2023 | March 2024 | Sept 2024 | March 2022  | March 2023 | March 2024 | Sept 2024 |
| Rural      | 4242           | 4293       | 4341       | 4375      | 2246        | 2169       | 2117       | 2095      |
| Semi Urban | 2642           | 2731       | 2806       | 2864      | 3116        | 3401       | 3383       | 3404      |
| Urban      | 4770           | 4977       | 5114       | 5155      | 11813       | 11408      | 11562      | 11139     |
| Metro/PT   |                |            |            |           |             |            |            |           |
| Total      | 11654          | 12001      | 12261      | 12394     | 17175       | 16978      | 17062      | 16638     |

Source: SLBC (Agenda Notes of 167th Meeting), Karnataka.

The main reasons for low CD ratio in Uttara Kannada district are 1. Limited Scope for Industrial Activities: CRZ Restrictions and Forest Area Restrictions hindering the Industrial Growth in Uttara Kannada District 2. Out of Total Geographical Area in the district, around 40% area is covered by Forest and 15% areas are under barren or not available for cultivation.

(Source SLBC, Karnataka)

The agriculture crop loan lending exhibited an upward growth of 113.34% during 2023-24 against the target. The overall achievement in agriculture lending as on 31.03.2024 is 103.60% of the target.

### Annual Credit Plan 2024-25 and performance as on 30th September 2024

Considering the projections made by NABARD in the district-wise Potential Linked Credit Plans, budgetary formulations and on the basis of the ground level disbursements, the Annual Credit Plan (ACP) for agriculture for the year 2024-25, for the State has been fixed by SLBC at Rs. 192201 crore. Of the ACP target 2024-25, Crop loan has been fixed at Rs.114625croreand agriculture term loan at Rs. 77576 crore. During the period ended 31 March 2024, Banks had disbursed Rs. 183865 crore under agriculture against annual target of Rs. 177469Crore recording an achievement level of 103.60 % as shown in below **Table 10.35**.

**Table 10.35: Sectorwise performance under Annual Credit Plan as on 31.03.2024**

**A. Refinance Support:** NABARD provides short term refinance to State Cooperative Banks (StCBs), Regional Rural Banks (RRBs) or to any financial institution, approved by NABARD for marketing of crops, inputs for agriculture or rural development, commercial or trade transactions, the production or marketing activities of artisans, micro and small scale industries, industries in the tiny and decentralized sector, village, cottage industries, handicrafts and other rural crafts. The various products through which NABARD extends this refinance is as follows:

NABARD extends refinance to Cooperative Banks and Regional Rural Banks (RRBs) for Seasonal Agricultural Operations (SAO) at 4.5%. It also extends refinance to Scheduled Commercial Banks at the same rate for the ceded PACS. Additional Short Term for Seasonal Agricultural Operations at a competitive rate has been introduced to address severe liquidity problems in cooperative banks.

**B. Short Term Credit for purposes other than crop production:** NABARD extends Short Term (Others) refinance to Cooperative Banks/ RRBs to meet other short term credit requirements of farmers such as marketing of crops, fisheries, industrial cooperatives, working capital loans for economic activities, bonafide commercial and trading activities and also Short Term (Weavers) refinance to Cooperative Banks and RRBs and Scheduled Commercial Banks (SCBs) to meet short term credit requirements of handloom weavers, master craftsmen, Handloom Weavers' Groups, Primary Weavers Coop Societies and Apex Weavers Coop Societies.

**C. Interest Subvention Scheme of the Government of India:** NABARD is the implementing agency for the Interest Subvention Scheme of the GoI for RRBs and Cooperative Banks. GoI provides 1.5% interest

subvention to banks for extending crop loan at 7% p.a. upto Rs. 3.00 lakh per borrower & also provides interest incentive @ 3% to the prompt repaying farmers.

- D. The KCC (Kissan Credit Card) Scheme**, introduced in 1998-99 is a step towards providing hassle free, adequate and timely credit to the farmers from the banking sector. Progress under Kisan Credit Card Scheme in Karnataka is shown in the below **Table 10.36**.

**Table 10.36: Progress under KCC**

| Name of the Bank              | No. of live KCCs as on 30.09.2024 |
|-------------------------------|-----------------------------------|
| Karnataka Gramin Bank         | 1,64,039                          |
| Karnataka Vikas Grameena Bank | 2,29,554                          |
| Total (RRBs)                  | 3,93,593                          |
| Cooperative Banks             | 13,27,035                         |
| <b>Grand Total</b>            | <b>17,20,628</b>                  |

- E.** NABARD is the Nodal Bank for interacting with DFPD (Department of Food and Public Distribution) and managing interest subvention under the scheme for extending financial assistance to project proponents for enhancement of their ethanol distillation capacity or to set up distilleries for producing 1st Generation (1G) ethanol from feed stocks such as cereals (rice, wheat, barley, corn & sorghum), sugarcane, sugar beet, etc.
- F. Investment Credit for Agriculture:** NABARD provides long-term refinance to banks (scheduled commercial banks, RRBs, StCBs, DCCBs, SCARDBs and SFBs) to supplement their resources for providing adequate credit for taking up investment activities by farmers and rural artisans, etc. Activities from both farm sector as well as off-farm sector are covered. NABARD finances institutions supporting capital formation in agriculture, directing credit flow to meet the credit requirement of JLGs and SHGs, institutions that promote alternate employment opportunities in rural areas, for credit linked capital subsidy schemes of Govt. of India.
- G.** Resources for Capital formation / Term Lending in Agriculture; NABARD has been supplementing the resources of banks and other eligible agencies by refinancing the credit extended by them for capital formation in agriculture and allied activities. The agency-wise details of refinance for term loans disbursed in Karnataka during the last 5 years is shown in **Table 10.37**.

**Table 10.37: Agency wise details of refinance for term loan disbursed**

(Amount. in crore)

| Agency/ Year        | 2019-20        | 2020-21        | 2021-22        | 2022-23        | 2023-24        |
|---------------------|----------------|----------------|----------------|----------------|----------------|
| Coop. Banks/KSCARDB | 1,748.62       | 1,745.01       | 1841.83        | 2816.30        | 2954.33        |
| RRBs                | 2,064.79       | 1,916.20       | 1452.83        | 2303.00        | 2322.34        |
| NBFC/NBFC-MFI       | 795.00         | 1078.01        | 1188.73        | 544.06         | 350.00         |
| <b>Total</b>        | <b>4608.41</b> | <b>4739.22</b> | <b>4483.39</b> | <b>5663.36</b> | <b>5626.67</b> |

- H.** Apart from the regular refinance, NABARD formulation of timely policies to rejuvenate the rural economy post covid have also come a long way by touching the life of farmers in many ways.
- i) NABARD extends special refinance facility for transformation of Primary Agricultural Credit Societies (PACS) as Multi-Service Centre (MSC)** – NABARD provides concessional refinance to State Cooperative Banks (StCBs) at 3% to support PACS to create capital assets. Ultimate lending rate to the eligible PACS by DCCBs shall be 4%. In Karnataka, a total of 1117 projects has been sanctioned as on date with a total outlay of Rs. 475.89 crore and NABARD refinance of Rs. 390 crore as on 31.03.2024.

- ii) **World's Largest Grain Storage:** Launched by Gopin Cooperative Sector, it encompasses warehouses, custom hiring centres, processing units, and more. By elevating PACS into multifunctional entities, this strategy aims to reduce food grain wastage through enhanced storage capacity, fortify the nation's food security and empower farmers to command better prices for their produce. As part of the first phase of implementation of the project, Prathmik Krishi Pattina Sahakara Bank Niyamita, Ekamba, Bidar (Ekamba PACS) in Aurad Taluk of Bidar district, was identified in Karnataka as a pilot project.
- iii) **NABARD has introduced Special Refinance Scheme on PM Formalisation of Micro Food Processing Enterprises (PMFME):** This scheme promotes credit flow towards micro-food processing enterprises to address limited credit access, lack of technology, and supply chain integration thereby targeting rural areas, where 66% of units are based. The scheme aims to modernize family-based enterprises and facilitate their transition to the formal sector, fostering sustainable livelihoods and employment especially for women and reverse migrants. The scheme complements the PM-FME scheme under Atmanirbhar Bharat, which envisions Rs. 25,000 crore investment in the sector. NABARD offers concessional long-term refinance at 4% interest under the Automatic Refinance Facility (ARF).
- iv) **Special Refinance Scheme on Aspirational Districts and Credit Starved Districts:** Under this scheme the interest rate is 100 bps less than the prevailing refinance rates. Raichur and Yadgir districts are categorised as Aspirational districts and hence lending in these districts will be eligible for special refinance.
- v) **Special Refinance Scheme on Deendayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM):** Under this scheme the interest rate on refinance is @4% for loans given to all women SHGs upto Rs.3 lakh with maximum interest rate of 7% p.a. and @3% for loans given from Rs.3 lakh to Rs. 5 lakh with maximum interest rate of 10% p.a.
- vi) **Special Refinance Scheme for Rural Home Loans bundled with Solar Roof Top (SRT):** The interest rate under the scheme is 0.5% rebate on interest for prompt repayers. SRS on Aspirational Districts and Credit Starved Districts upto Rs. 1,000/- Crore to RRBs & Cooperative Banks with interest rate @ 100 bps less than the prevailing Refinance rates for RRBs and StCBs.

### 10.3.8 RIDF assistance to Govt. of Karnataka

Rural Infrastructure Development Fund (RIDF) was set up in 1995-96 with an initial corpus of Rs. 2,000 crore & now encompassing 39 activities related to rural infrastructure and categorized into three broad sectors: Agriculture and allied activities, Social Infrastructure, and Rural Connectivity. In Karnataka, under RIDF tranches I to XXIX, a total of 44,144 projects have been sanctioned, amounting to Rs. 22,015.30 crore. Of this, Rs. 17,611.94 crore has been disbursed to the State Government as show in **table 10.38**

**Table 10.38: Sector-wise details of Sanctions and Disbursements**

(Amount in crore)

| Name of the Sector              | No.of projects | Total Financial Outlay | Loan Sanctioned | Amount Disbursed |
|---------------------------------|----------------|------------------------|-----------------|------------------|
| Agriculture and allied projects | 5142           | 2581.30                | 2409.31         | 1641.13          |
| Social sector projects          | 21013          | 10755.82               | 6347.47         | 5009.50          |
| Irrigation projects             | 5348           | 8849.37                | 6453.84         | 4737.02          |
| Rural roads and bridges         | 12641          | 8353.63                | 6804.69         | 6224.29          |
| <b>Total</b>                    | <b>44144</b>   | <b>30540.12</b>        | <b>22015.30</b> | <b>17611.94</b>  |

- Agriculture and allied sectors, rural connectivity have received 40% and 31% of the total sanctions respectively and 29% of RIDF loans to social sector.

- During RIDF XXIX (FY 2023-24), against normative allocation of Rs.2000.00 crore to the State, 282 projects involving RIDF assistance of Rs.2012.51 crore was sanctioned and an amount of Rs.1727.50 crore has been disbursed to the State under RIDF as on 31.03.2024.
  - Under RIDF XXX, as on 20.01.2025, against normative allocation of Rs. 2060.00 crore made to the State, 298 projects involving RIDF assistance of Rs.2056.09crore has been sanctioned.
- i. **Impact of RIDF in the State:**some of the outcomes under RIDF projects in the State are as under:
- **Irrigation:** Increased the irrigation potential of state to 5.56 lakh hectares.
  - **Agriculture and Allied Sectors:** 1755 veterinary institutions, 906 rural market infrastructure projects, 276 Raitha Samparka Kendras, 33 Fish Jetties, 10 Cocoon Quality Testing Labs, 3 Pesticide Residue Labs, 04 high tech cocoon markets and training centers etc.have been constructed.
  - **Social Sector:** Upgradation/ construction of 13,431 rural education infrastructure projects, construction of 7290 Anganwadis, and construction of 341 healthcare infrastructure.
  - **Rural Connectivity:** Expansion/ improvement of 45,474 km of rural road networks and construction of 58,626 metres of rural bridges.
  - **Drinking Water Supply:** Implementation of 12 drinking water supply projects under the Jal Jeevan Mission.
- ii. **Success Story:** Filling up of tanks by lifting water from the Tungabhadra River in Shikaripura taluka of Shivamogga district by Water Resources Department under RIDF Tranche XXVI with a Total financial outlay of Rs. 83,709.00 lakhs&with NABARD's financial support of Rs.50,000.00 lakhs was completed in year 2023.
- iii. **Challenge addressed:** 180 Dry tanks in Hosuru, Uduguni & Talagunda hoblis of Shikaripura taluk in Shivamogga district and 6 tanks in Hirekerur taluk of Haveri district were replenished by lifting water from the Tungabhadra River. 46,035 hectares of agricultural land was brought under irrigation by filling MI tanks, ZP tanks, and bore wells in the project area thereby providing assured drinking water to the rural population and livestock in 123 villages throughout the year.

### 10.3.9 Warehouse Infrastructure Fund (WIF)

NABARD extends financial assistance through the Warehouse Infrastructure Fund (WIF) to State Governments, State-owned agencies, and corporate entities to systematically enhance warehouse capacity, thereby strengthening agricultural value chains. Loan assistance of Rs.1700.44 crore has been sanctioned to State Governments and State Government owned agencies.

### 10.3.10 Micro Irrigation Fund (MIF)

MIF was announced in the Union Budget for FY2020 with initial corpus of Rs.20,000.00 Cr & was extended to FY2024 with an objective to support State Government in mobilising additional resources to expand micro-irrigation coverage and encourage its adoption beyond the provisions of Pradhan Mantri Krishi Sinchayee Yojana-Per Drop More Crop.Loan assistance of Rs.290 crore has been sanctioned to GoK. The Project envisages to benefit 2.63 lakh farmers, out of which 1.97 lakh farmers will be small and marginal farmers (75%).

### 10.3.11 Long-Term Irrigation Fund (LTIF)

LTIFcreated in the Union Budget 2016-17 with an initial corpus of Rs.20,000 crore, for funding of Central and State Shares for the 99 identified medium and major irrigation projects under Pradhan Mantri Krishi Sinchayee Yojana (PMKSY). In Karnataka, 5 irrigation projects viz. Narayanpur Left Bank Canal (ERM), Upper

Tunga Irrigation Project, Bhima LIS, Karanja Irrigation Project and Sri Rameshwar Irrigation project had been prioritized for loan assistance under LTIF. NABARD has sanctioned Rs.1837.34 crore under LTIF towards Central Share and as on 30.11.2024, an amount of Rs.1183.32 crore has been released.

### 10.3.12 NABARD Infrastructure Development Assistance (NIDA)

NIDA a new line of credit support launched by NABARD in 2011 has supported 02 projects with a total committed amount of Rs. 2671.12 crore. The ongoing NIDA project for implementing 4 Rural Drinking Water Supply Projects in four districts (Raichur, Dharwad, Vijayapura & Mandya) is expected to benefit 3636 Habitations with a population of around 71.87 lakh in providing safe and sustainable drinking water at household level. The projects are grounded and an amount of Rs. 2254.15 crore has been released to Govt. of Karnataka as on 26 November 2024 for project implementation work.

### 10.3.13 Direct Refinance Assistance to DCCBs

NABARD has designed a short-term multipurpose credit product for financing directly to DCCBs and StCBs for expanding their lending business under specified activities. During the FY 2023-24, a credit line of Rs.1401.25 crore was sanctioned. Out of this an amount of Rs. 892.08 crore was disbursed. Further, in the current FY 2024-25, a credit line of Rs. 1250.00 crore has been sanctioned and an amount of Rs. 1330.71 crore has been disbursed till 26 November 2024.

### 10.3.14 Other Developmental Initiatives

**Farmers Producers Organizations (FPOs):** Collectivization of agricultural produce through Producer Organizations (POs) is one of the most effective means of linking Small and Marginal farmers / Producers with the agricultural value chain for the purpose of enhancing their net income. Since 2014 -15, NABARD has assisted in promotion of 386 FPOs covering 31 districts of the State through 60+ NGOs / Institutions acting as Producer Organization Promoting Institutions (POPIs)/ Community Based Business Organizations (CBBOs). Around 2,23,002 farmers of the State are members of FPOs promoted by NABARD supported POPIs/ CBBOs involving grant assistance of Rs. 76.23 crore. Out of the 386 FPOs, 381 are registered under various acts thereby mobilizing share capital of Rs. 23.88 crore. The majority of the FPOs are involved in production, procurement and marketing of various agri - horti crops. Some of the FPOs are also taking up the activities of promoting high value crops such as chia seeds, tender coconuts, coffee, mango, turmeric, pepper etc.

**Initiatives of NABARD:** NABARD and ONDC (Open Network for Digital Commerce) have partnered at the national level to establish market linkages for Farmers Producer Organizations (FPOs), promoting e-commerce adoption in agriculture. Currently 64 FPOs supported by NABARD have joined ONDC, and 20 FPOs have commenced e-trading through this platform.

- Two Zonal Review meet cum workshops were conducted at Shivamogga & Mandya on 21st August, 2024 and 12th September, 2024 for FPOs. Further, market linkages were provided through Online Marketing from ONDC and market mirchi and offline marketing through Karnataka Co-operative Oilseeds Growers Federation (KOF). Further, sessions on the export related services of APEDA and facilities available for FPOs, status of warehouse and its relevance to FPOs from KSWC were also facilitated through the zonal meets.
- A three-day farmer training programme was organized at ICAR-Indian Institute of Seed Science, Bengaluru, emphasizing fodder seed production, livestock management, and field visits. One-day buyer-seller meet was held in Mandya to aid 41 FPOs, SHGs, artisans, and over 20 potential buyers.
- NABARD, Karnataka RO, organized TARANG mela celebrating collectivization in partnership with ONDC and SFAC from 01 to 03 March 2024 which also served as a gateway for introducing FPOs/OFPOs to the ONDC platform. During the mela, 13 online orders have been received by FPOs through ONDC platform.

It Created awareness programme with Karnataka State Agricultural Produce Processing & Export Corporation Ltd (KAPPEC) and Federation of Indian Export Organizations (FIEO) Karnataka for farmers, FPOs, manufacturers, entrepreneurs, and exporters regarding the export potential of agri and processed food, agricultural policies & procedures, logistics, standards, and certifications. NABARD promoted 180 FPOs have onboarded to the online digital marketing cum auction platform to enhance bargaining power, secured and transparent price discovery, eliminate pre-trade transportation cost, remote participation, etc.

### 10.3.15 Success Stories

- a) **Story of Golden Spice Farmer Producer Company Limited:** Bagalkot District(Golden Spice FPO): Established on November 24, 2021 in Mugalkhod, Bagalkot, Karnataka with 450 farmers as its members has its turnover surged from Rs. 5.2 lakhs to Rs. 2.01 crore by April 2024, A key achievement has been its turmeric procurement initiative directly from farmers along with secured essential licenses, including for fertilizers, pesticides, seeds, and GSTIN.
- b) **Integrated Tribal Development:** NABARD has been implementing integrated tribal development projects on wadi (small orchard upto one acre) through “Tribal Development Fund” for long term sustainable impact on the tribal families focusing on creating livelihoods rather than mere generation of short term employment. Cumulatively, NABARD has sanctioned 40 projects with a total financial assistance of Rs. 132.67 crores in the State so far under this fund. These projects have transformed the lives of nearly 22,664 tribal families across 14 districts, covering an impressive area of 22,464 acres.
- c) **Watershed Development Fund:** In order to mitigate the vagaries of drought, NABARD has sanctioned 356 Watershed Development Projects in the State, of which 350 are regular Watershed Development Projects (both completed and ongoing), 03 are Springshed Watershed Development Projects, 03 non-watershed based standalone projects and 3 JIVA projects involving grant assistance of Rs.264.42 crore & spread over an area of 3.29 lakh hectares. Out of the 356 projects sanctioned,35 projects are ongoing. It aims to increase the ground water, increase agriculture production, introduction of new commercial crops, adoption of latest agriculture technology, positive impact on livestock population and fodder availability, livelihood support to landless and women and increase in afforestation and horticulture.

During the year (2023-24), 3 new Watershed Development Projects have been sanctioned which included 01 watershed, 01 non watershed project and 01 springshed project and during 2024-25, full implementation phase of 01 watershed project and upscaling and consolidation phase for all 03 JIVA projects have been sanctioned. Under non-watershed activities on completed watershed projects, 03 projects have been sanctioned with financial assistance of Rs. 59.39 lakh.

### 10.3.16 Success story of Shivanagere watershed project in Tumkur district

The project was sanctioned during March 2019 with grant assistance of Rs.211.66 lakh to address soil erosion, increased runoff and poor water retention, poor land management and agricultural operations and low-income level. The project has benefitted around 900 households by treating 1236 ha of land. Through the livelihood intervention, 70 beneficiaries have taken up allied activities like cow/sheep/goat rearing and tailoring business. The project has generated an employment of 11000 labour days and has defied the migration of 40-50 families.

### 10.3.17 Farm sector Promotion Fund

- Under Farm Sector Promotion Fund (FSPF), NABARD has supported, during 2023-24, wide variety of activities and events such as promotion of millet-based interventions, bio-waste management, organic turmeric cultivation, demonstration of Integrated Farming System (IFS) models, conservation of rice germplasm, pilot on agri value chain financing, Krishi melas, Millet melas, Horticulture Fairs, etc. During

FY 2023-24 NABARD has supported a project for developing Standard Operating Protocols (SOPs) for Drone Based Agrochemical Application in transplanted rice.

- NABARD has sanctioned the FSPF project “Accelerator Program for 30 FPOs to Krishi kalpa Foundation to be implemented in multiple districts of the State. The project envisages to increase the revenue of FPOs by 2 to 3 times and profit by 50% through training, handholding, marketing and credit linkages. During FY 2024-25, NABARD sanctioned a project for demonstration and dissemination of protocol for management of nutrient-plankton-microbe interactions in aquaculture ponds for better fish health management to ICAR - Central Institute of Freshwater Aquaculture.
- Overall, an amount of Rs. 1.50 crore was sanctioned, and Rs. 1.50 crore was disbursed during FY 2023-24.

### 10.3.18 Success Story

NABARD has financially supported Rs. 9.33 lakh during 2021-24, under FSPF to KVK, Yadgir for increasing groundnut production in Kalebelagundi, Kakkeri of Yadgir District. The project provided high-yielding groundnut variety K-1812 (Kadiri Lepakshi) to 15 farmers. The results were a 61.90% increase in yield during the kharif season and 64.92% in the rabi season. Cultivation costs were reduced by 26.51%, and net returns increased by 75.93%, with an average income boost of 56%, reaching Rs. 76,680 per acre.

**Climate Change:** NABARD is the National Implementing Entity (NIE) for Green Climate Fund (GCF), National Adaptation Fund for Climate Change (NAFCC) and Adaptation Fund of United Nations Framework for Climate Change (AF-UNFCC) and also is the State nodal agency for implementation of Karnataka State Action Plan for Climate Change for sanction of new projects under National Adaptation Fund for Climate Change (NAFCC), Green Climate Fund and Adaptation Fund.

### 10.3.19 Off-farm Sector Initiatives under Gramya Vikas Nidhi (GVN)

- i. **Marketing Infrastructure- Rural Haats and Marts:** As a step to bring in forward linkage for the farm and off farm producer organisations, SHGs, etc, setting up 55 rural marts and 28 rural haats have been sanctioned in the State since more than six years with a total investment of Rs.507.39 lakh covering 20 districts and has been proven as strong marketing avenue for the rural community based organisations.  
During last six years, Other than marketing infrastructures NABARD has sanctioned around Rs.128.06 lakh to sponsor artisans/weavers/FPOs/SHGs, etc in various national and State level exhibitions, both conducted by NABARD and other agencies. The major exhibitions participated by artisans from the State include Surajkhund Mela, Surajkhund in Haryana and Deccan Haat (Hyderabad), Hasta Shilpotsavas in Bhopal, Jaipur, Kolkata, Assam and Saras Mela. The national fairs helped artisans in reaching out to urban buyers and procure orders on a continuous basis.
- ii. **Skill Development:** With a cumulative investment of Rs.319.85 lakh in this sector since last six years, NABARD has created more than 4250 skilled youth/women in various fields viz., weaving, computer basis skills, repair and maintenance of farm machineries, health care, tailoring, banking, financial services, insurance, para medical services, etc. About 80 per cent of the trainees have been successfully attained wage/self-employment. NABARD skill development interventions in other sectors have resulted in remarkable results like revival of GI tagged for Udupi sarees by conducting skill development programme.
- iii. **Collectivisation- Off Farm Producer Organisations (OFPOs):** In the last 5 years, NABARD has extended grant support of Rs.394.63 lakh for formation of 5 OFPOs covering 1550 artisans in the areas of Handloom, Fabric Weaving and Natural Dye, Handicrafts, Kasuti Work, Channapatna Toys, Kolhapuri Leather Footwear and Aari embroidery in Shimoga, Dharwad, Ramanagara, Belgaum and Dharwad districts, respectively. Out of these five OFPOs three are covering GI tagged products (Channapatna toys, Kasuti and Kolhapurichappals).

- iv. **Infrastructure through DPR (Detailed Project Report) Scheme:** Launched in 2021-22, NABARD has sanctioned two projects under DPR mode scheme with a total financial assistance of Rs. 41.76 lakh in Gulbarga and Uttara Kannada districts.
- v. **Interventions under Geographical Indication (GI):** NABARD has sanctioned Rs.10.25 lakh under GI projects, to create website for GI tagged Udupi sarees for registration of Kari Ishad Mango from Uttara Kannada District and Tiptur coconut from Tumkur district. In addition, NABARD also sanctioned a grant assistance of Rs. 2.47 lakh for registration of 5000 Authorised users (AU) under GI tagged Ilkal Saree and Guledgudd Khana. Under this project, 1287 GI AU certificates are issued and 230 applications for AU registration are sent to the Visvesvaraya Trade Promotion Center (VTPC) Bengaluru. Another 1750 applications will be sent to VTPC shortly.
- vi. **Regional Advisory Committee Meeting:** Considering the prospects in Green Energy Sector, NABARD has conducted an exclusive Regional Advisory Committee Meeting on “Skill Enhancement of Rural Youth in Green energy projects and guided various stakeholders . As a result, NABARD is in process of formulating various skill development projects on Solar Panel technician, electric vehicle repair and maintenance etc.
- vii. **Status of SHG and JLG in Karnataka:** The National Rural Livelihood Mission (NRLM) the poverty reduction programme of Gol, is being implemented as Karnataka State Rural Livelihood Mission (KSRLM) in all the blocks of Karnataka. KSRLM envisages creation of sustainable livelihoods of the rural poor living below the poverty line within a period of 5 to 7 years. As on 31 March 2024, a total no of 9,03,764 SHGs were saving linked with Rs.2024.44 crore. During 2023-24, 6,74,716 SHGs were credit linked in tune of Rs.25253.46 crore.
- viii. **Activities undertaken by NABARD:** Micro Entrepreneurs Development Programme (MEDP) & Livelihood Enterprises Development Programme for SHG members. Grant support to Banks and NGOs for formation and credit linkage of SHGs and JLGs. Two Grama Dukhans were sanctioned in Kalaburgi district for marketing of SHGs & JLG products. Two e-commerce onboarding training were conducted at Dharwad & Udupi.

### 10.3.20 Information Technology in Cooperative Banks

With the assistance and guidance of NABARD, all the Rural Cooperative Banks (RCBs) in the State have implemented the Core Banking Solutions by the end of 2014 and covered all the KCC accounts with RuPay cards. All banks are issuing RuPay debit cards and also are offering services like RTGS/NEFT, NACH, DBT, SMS alerts etc. to their customers. 19 DCCBs and KSCAB are live on PFMS platform, which will enable cooperative Banks to transfer funds to beneficiary account directly from Gol.

- Financial Inclusion Fund (FIF) has been revamped in 2019 with more thrust on Special Focus District (SFD) like Raichur and Yadgir. The special thrust is provided to cooperative Banks for adoption on CBS plus services i.e CKYC, Micro ATM, AUA/KUA, PoS/mPoS and BHIM UPI. Support for obtaining AUA/KUA (Dual Authentication) membership has been sanctioned to KStCB, which will enable bank for Aadhaar enabled transactions.
- The cooperatives are encouraged to set up micro-ATMs in the affiliated PACS, which is a cost effective model. During the current year and last year, sanction is accorded for 878 micro-ATMs & 3000 PoS/mPoS machines with grant support of Rs. 3.36 crore. 34 Demonstration Vans in various districts for doorstep delivery of Banking Technology and awareness creation, for implementation of Positive Pay System, Green PIN facility, on boarding to BHIM UPI, BBPS, CKYCR, capacity building of BC/BFs, etc.
- NABARD has initiated on boarding of all Regional Rural Banks (RRBs) onto the Jan Suraksha portal of DFS through a centralized server to facilitate end to end digital enrollment and claim settlement for the Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY) and Pradhan Mantri Suraksha Bima Yojana (PMSBY).

- A total of 4142 Financial and Digital Literacy programs, involving grant assistance of Rs. 2.00 crore were sanctioned during 2023-24 with a unit cost of upto Rs. 6000 per programme in Special Focus Districts and Rs. 5000 per programme in other districts. During the current year i.e. 2024-25 sanction has been accorded for 363 Financial Literacy programmes already as on 25.11.2024 only in Special Focus Districts.

**Cyber Insurance Scheme:** To enhance the cyber resilience of Rural Cooperative Banks (RCBs) and Regional Rural Banks (RRBs), NABARD, in collaboration with Aon Risk Insurance Broker India Pvt. Ltd. (formerly Global Insurance Broker), has introduced a comprehensive Cyber Risk Insurance Scheme at affordable premiums at 0.62% of the limit of liability, significantly lower than the market average of 0.75% to 1.25%, providing substantial cost savings. The scheme offers robust protection against diverse cyber risks, reinforcing the operational security of rural financial institutions.

### 10.3.21 Institutional Development - Cooperatives

- (i) High-Level Committee (HLC), constituted by NABARD, is convened to review the financial health of all cooperative institutions in the State as well as frauds, governance issues of cooperative institutions. The first meeting of High-Level Committee (HLC) for the year 2024-25 was held under the Chairmanship of Secretary, Department of Cooperation, GoK, on 5th November 2024.
- (ii) District Level Monitoring and Review Committee (DLMRC) meeting is held at quarterly intervals to review the performance of Cooperatives.
- (iii) Support from NABARD for development of Co-operatives:

#### Grant Assistance under Cooperative Development Fund

- NABARD extends diverse assistance to Cooperatives for strengthening their infrastructure, capacity building of the staff, exposure visits, training through institutes such as Bankers' Institute of Rural Development (BIRD).
- PACS as MSC- under this scheme of PACS as Multi-Service Centres (MSC) NABARD apart from refinance, also extends grant assistance for promotional measures. During 2023-24, an amount of Rs. 171.02 lakh was reimbursed to 251 PACS of Dharwad, Vijayapura, Shimoga, Raichur, Mandya, Hassan, Ballari and Belagavi DCCBs. During 2024-25, NABARD has so far reimbursed an amount of Rs.135.00 lakh towards 82 PACS in Raichur, Mysore & Chamarajanagar and Bagalkot DCCBs for various activities covering pre survey, preparation of DPR, technology adoption and capacity building.
- SOFTCOB-Under this Scheme of financial Assistance for Training of Cooperative Banks' Personnel (SOFTCOB), NABARD extends grant assistance to Cooperative Training Institutes (CTIs) like ACSTI, SAHARDA, and NIRB to facilitate capacity building of the staff of PACS/DCCBs/StCB. During 2023-24, 109 training programs were supported across the 3 CTIs for training 3256 staffs of StCB/DCCBs/PACS in the State involving grant assistance of Rs.112.67 lakh. For 2024-25, NABARD has sanctioned 130 programs to 3 CTIs to extend training and capacity building to the staff of PACS, DCCBs and Apex Bank. An amount of Rs.23.63 lakhs has been reimbursed towards conduct of 26 programs in these institutes during 2024-25.
- (iv) **New Initiatives for PACS/Cooperative Sector:** In Karnataka, NABARD has sanctioned Rs. 175.26 crore, of which Rs. 70.10 crore is contributed by the State for computerization of 5491 PACS. Additionally, it has proposed 192 more PACS for computerization in the next phase.

**Establishing New M-PACS/Dairy/Fishery cooperatives in all uncovered panchayats:** NABARD is closely associated with implementation of various schemes through the SCDC (State Cooperative Development Committee) and DCDC (District Cooperative Development Committee). In Karnataka there is a target for formation of 218 new M-PACS, of which 45 M-PACS are to be formed in uncovered GPs and 173 M-PACS are

to be formed after the liquidation of the dormant PACS by 2026. As of November 2024, 8 MPACS have been formed and registered in Mysore, Chamarajanagar and Kalaburagi districts.

### 10.3.22 Institutional Development - Regional Rural Banks (RRBs)

The performance of the RRBs is reviewed on quarterly intervals by the Regional Office of NABARD at half yearly intervals and also reviewed by R.B.I in empowered committee. The first meeting for 2024-25, i.e., 89th Empowered Committee was held on 24th June 2024. NABARD discussed issues pertaining to performance of the two RRBs in terms of achievement under ACP, increasing NPAs, need for improving agri. term lending, financing of SHGs, Government Sponsored schemes, etc. the CRAR(capital-to-risk weighted assets ratio) of KVGB & KaGB stood at 11.52% and 9.88% respectively.

**Supervision of StCB/DCCBs:** The Statutory inspections of State Cooperative Banks (StCBs) and Central Cooperative Banks (CCBs) are conducted by NABARD through CAMELSC Approach (Capital Adequacy, Asset Quality, Management, Earnings, Liquidity, Systems and Compliance) to ensure protection of interests of the present and future depositors, conduct of business according to relevant Acts, Rules and Regulations/ Bye-laws & others.

Process of Supervision involves 1. periodical On-Site inspections 2. supplementary Off-Site Surveillance (OSS) to obtain and analyze critical data to identify any areas of supervisory. 3. Supplementary Appraisal / Portfolio Studies for supplementing on-site inspections / off-site surveillance on specific signals about potential issues 4. Credit Monitoring Arrangement (CMA) for monitoring sector-wise and unit-wise borrower exposure of cooperative banks in specified cases on a continuous basis 5. Monitoring Frauds and Misappropriations/ burglary/dacoity cases in Supervised Entities based on the periodical reports 6. Scrutiny of the complaints and grievances 7. NABARD has introduced a self-assessment tool viz., Fraud Vulnerability Index (VINFRA) for assessment of banks through conducting of workshops / programs to improve the quality and effectiveness of statutory audits and inspections.

As per RBI instructions, StCBs and DCCBs were required to achieve 9% CRAR on a sustainable basis. All banks in Karnataka have achieved mandated CRAR of 9% except for Bidar DCCB (whose CRAR stood at 7.02%). During the year 2024-25, NABARD has planned to conduct statutory inspections of 13 DCCBs & 1 apex bank with reference to their financial position as on

31 March 2024. Of these, statutory inspections of 10 DCCBs and 1 StCB are under enhanced CAMELSC approach. The statutory inspections of banks are under progress.

### 10.3.23 State Term Lending Institutions-Industrial finance

Karnataka State Financial Corporation (KSFC) is a state level financial institution established by the state government in the year 1959 under the provisions of SFCs Act, 1951 to cater to the long term financial needs of Micro, Small & Medium Enterprises (MSMEs) in the state. Details of sanctions and disbursements are shown in the **Table 10.39**.

**Table 10.39: Details of Sanctions and Disbursements made by KSFC**

(Amount.in Cr)

| Particulars   | 2020-21 | 2021-22 | 2022-23 | 2023-24 | 2024-25<br>(April 2024 to Nov.2024) |
|---------------|---------|---------|---------|---------|-------------------------------------|
| Sanction      | 401.66  | 493.25  | 901.10  | 827.13  | 454.13                              |
| Disbursements | 432.96  | 386.46  | 445.81  | 613.04  | 411.91                              |

### 10.3.24 Karnataka State Industrial Infrastructure & Development Corporation (KSIIDC)

KSIIDC, established in 1964, has been greatly instrumental in the industrialization of the State, especially in the large and medium sector. KSIIDC has stopped financial lending activity since October 2002 onwards. At present, recovery of the past lending/advances and loans and disinvestment of Equity are the main activity. However, certain Investments as per the directions of Government of Karnataka are being made from time to time.

KSIIDC continued its proactive role in the promotion of infrastructure projects on Public Private Partnership model and its role as nodal agency for Bangalore International Airport Project. Duly noting the initiatives taken up by KSIIDC in the infrastructure sector, the name was changed to “Karnataka State Industrial and Infrastructure Development Corporation Limited” with effect from November 22, 2010.

#### Vision & Mission of KSIIDC

“To implement industrial infrastructure & civil aviation infrastructure in the State of Karnataka”.

#### Way forward

As the nodal agency of the State Government, KSIIDC has initiated activities for the development of the following projects which will be pursued for completion during next coming years.

#### a) Developmental activities

Major developmental activities undertaken by KSIIDC during the year are as follows:

- KSIIDC is the nodal agency in dealing with important matters of Government for Kempegowda International Airport, Bengaluru(KIAB), which was awarded ‘Best Regional Airport in India and South Asia’ in 2023.
- Government of Karnataka has nominated KSIIDC as the Nodal Agency for Development of Airports, Airstrips, Heliports and Water Aerodromes in the State of Karnataka.

The following aviation projects have been taken up by KSIIDC.

- KSIIDC coordinated and ensured completion and commissioning of Airport at Kalaburagi, Civil enclave at Defence Airport in Bidar. Airport at Kalaburagi & Bidar.GoK is meeting the O&M expenses of Bidar Airport and Kalaburagi Airport.
- Shivamogga airport was completed by PWD GOK in December 2022 & also Vijayapura airport is being developed for operation of Airbus 320 and equivalent type of aircrafts.
- The KSIIDC Obtained License from the DGCA for operation & maintenances for a first time in the country and the commercial flight operations commenced on 31.08.2023.
- Airport being developed by Navy in Sea Bird Project at Karwar for operation of Airbus 320 and equivalent type of aircrafts on land extent 97.10 acres to be taken up under JVC (GoK & AAI) or through PPP.
- Airport is being developed near Bhuvanahalli Village of Hassan Taluk in about 536 acres & designed for operation of ATR-72 equivalent of aircraft at an total estimated cost of Rs.193.65 Cr and is expected to be completed by February-2025. similarly Airport at Raichur taken up by PWD-GoK at an total estimated cost of Rs 219 Cr is expected to be completed by March-2025. Development of airport at Bellary will be taken up under PPP mode by KSIIDC on nearly 892 acres of land.
- Also action has been initiated to take up for the feasibility studies at Chikkamagaluru, Madikere and Hampi for development of heliports & draft feasibility report and DPR has also been received from agency & are being reviewed.

- During the year 2023-24, KSIIDC, through PMU has assisted about 14 Government Departments in preparation of concept notes, RFPs, evaluation, etc. The Company has been working in close coordination with the PPP Cell of IDP & IWTD (Infrastructure Development, Ports & Inland Water Transport Department) the Administrative Department of KSIIDC.
- KSIIDC is the designated nodal agency for development of a Sea port at Tadadi on PPP basis & also "Development and Operation of Tadadi Eco-Tourism Hub at Uttara Kannada District on PPP Model utilizing 1,419 acres of KSIIDC land and 400 acres of KPCL land.
- The Company initiated action for the development of Project Monitoring Software for PPP Projects for Government of Karnataka to develop/configure tracking and reviewing the status of on-going, delayed and completed projects.

**Bengaluru Signature Business Park (BSBP):** As of March 2024, the physical progress of phase-1 project stands at 79.09%, while the financial progress is at 77.20%. Tendering works underway for phase-2 of the project & also construction of access flyover to BSBP crossing existing NH-44 and Railway Line at an estimated cost of Rs.184.16 Cr with Rs. 100 crore allocated from Government funds of Rs. 84.16 crore from KSIIDC's own funds. Development of Airport related activities at Balepura Village (3PL Logistics Park on a PPP model) of Bangalore Rural District and at Rayapura Village of Dharwad Taluk and Dharwad District on PPP mode.

In addition to the above activities in the infrastructure sector, activities like Settlement of remaining loan accounts under the proposed new OTS policy & Sale of primary assets taken over under section 29 & recovery of advances through legal recourse under SFC & other Acts as shown in Annexure-10.2 & Annexure-10.3.

### 10.3.25 Co-operative Credit

The Cooperative credit system in Karnataka has its own place in the credit delivery to rural and urban areas. In Karnataka two types of Cooperative Credit Institutions are functioning, one is looking after short term and medium term credit and another looking after credit needs of long term.

- a. **Short term and Medium term Credit Co-operative Structure (STCCS):** The Karnataka State Cooperative Apex Bank through its affiliated District Central Cooperative Bank (DCCB) and Primary Agriculture Cooperative Societies (PACS) at the village level extends short term credit to the farmers and others. The total number of DCCBs is 21 with 969 branches. There are 6109 PACS functioning in the state.

As on 31-3-2023 the working capital of DCCBs was Rs.40048.60 crore & it had grown to Rs.42870.17 crore indicating a growth of 7.05% per cent. During 2023-24 all the 21 DCCBs in the State have shown current profits. These credit institutions provide Short, Medium and Long term credit to PACS and other societies & individual borrowers also as shown in table 10.40

**Table 10.40: Consolidated Financial Status of DCCB**

(Amount in crore)

| Particulars                    | 2021-22  | 2022-23  | 2023-24  | 2024-25 (Sept) |
|--------------------------------|----------|----------|----------|----------------|
| No of DCCBs                    | 21       | 21       | 21       | 21             |
| Total share capital            | 1902.25  | 2610.34  | 2802.34  | 2697.55        |
| States' share capital          | 32.50    | 33.57    | 33.59    | 33.59          |
| Share of state share capital % | 1.71     | 1.17     | 1.20     | 1.24           |
| Deposits                       | 36993.17 | 40048.60 | 42870.17 | 41469.04       |
| Borrowings                     | 11619.69 | 17615.72 | 17994.18 | 18493.02       |
| Loans & Advances Outstanding   | 33631.44 | 44613.26 | 48011.18 | 50113.86       |
| Banks showing profit           | 21       | 20       | 19       | 17             |

- b. **Long Term Credit Cooperative Credit Structure (LTCCS):** There are 177 Karnataka State Cooperative Agriculture and Rural Development Bank (KASCARD) at the State level and Primary Cooperative Agriculture and Rural Development Bank at taluk level catering to Long Term credit needs. NABARD provides refinance to the KASCARD Bank.
- c. **Loan Disbursement:** the performance under term wise is shown in **Table 10.41**.

**Table 10.41: Performance of Short Term, Medium Term and Long Term Credit****(Amount in Crore)**

| Year                  | Type of Loan | Yearly Target     |                  | Achievement       |                  | Per cent to to Amount |
|-----------------------|--------------|-------------------|------------------|-------------------|------------------|-----------------------|
|                       |              | Number of Farmers | Amount disbursed | Number of Farmers | Amount disbursed |                       |
| 2020-21               | Short term   | 3025788           | 19370            | 2785551           | 19396.24         | 100.14                |

| 2024-25<br>(November) | Short term   | 3510000           | 25000            | 1672099           | 14165.52         | 56.66                 |
|                       | Medium term  | 70000             | 1600             | 13897             | 550.95           | 34.43                 |
|                       | Long term    | 20000             | 400              | 18452             | 405.58           | 101.40                |

- d. **Recovery of Loans:** The Comparative position of recovery of Short, Medium and Long term loans under the Cooperative Credit System in the State for the years from 2021-22 to 2024-25 is presented vide table 10.42. A total of 223 taluks have been declared as drought-prone areas and the government has implemented an interest waiver scheme for arrears on medium and long-term agricultural loans, so loan recovery will be better.

**Table 10.42: Recovery of loans in Karnataka (Percentage of Recovery)**

| Type of loan | 2021-22 | 2022-23 | 2023-24 | 2024-25 (Nov) |
|--------------|---------|---------|---------|---------------|
| Short term   | 96.65   | 96.01   | 95.77   | 93.29         |
| Medium term  | 88.25   | 89.29   | 96.73   | 79.15         |
| Long term    | 58.04   | 58.54   | 74.46   | 30.77         |

- e. **Subsidised Agriculture Loans to farmers @ 0 and 1 per cent :** Agricultural loans were given to the farmers at 6 % rate of interest from 01.04.2004 through Agricultural Cooperative Credit Institutions in the state. During 2013-14 Govt.reduced the interest rate to 0% up to 2.00 lakhs and 1% upto 3 lakhs of short term agricultural loans. The medium term and long-term agricultural loans up to Rs.10.00 lakhs are being disbursed to farmers at 3%. During the year 2014-15, Short Term loan up to Rs.3 lakhs are disbursed at 0% and MT and LT loans up to Rs.10.00 lakhs were disbursed at 3%. The scheme has been continued from year 2015-16 to 2021-22 also. Loan upto Rs. 2 Lakh is being provided to animal husbandry and fishery working capital also during the year 2020-21 to 2022-23. During the year 2023-24 Crop loan up to Rs.5.00 lakh and medium and long term Agri loan up to Rs.15.00 lakhs are being disbursed at 0% and 3% interest rate respectively.

The Government is reimbursing the differential interest to farmers. During the year 2021-22, 24,81,359 farmers were given Rs.1022.90 crore and in 2022-23 Rs. 1078.02 crore was released to 25,67,520 farmers. During the year 2023-24 Rs 1178.22 crore was released to 30.38 lakh farmers. In 2024-25 Rs. 1451.02 crores of budget provision was made and till now, an amount of Rs.1041.16 crores have been released to Co-operative Institutions on behalf of 24.11 lakhs farmers.

- f. Interest subsidy to Self Help Groups:** The scheme of advancing loans to Self Help Groups in Karnataka at 4 % is being implemented from 01-04-2007.

During the year 2017-18 to 2020-21, Women Self Help Groups are lent at the net rate of 0% and Men SHGs at 4% by adopting NRLM/NULM Scheme. During the year 2021-22 Kayaka scheme has been merged with SHG scheme and loans up to Rs. 5 lakhs are being lent to women groups at 0% and to men groups at 4%. Loans from Rs.5 lakhs to Rs.10 lakhs for self employment are being lent at 4% of interest rate & is being continued for 2024-25 also.

In the year 2021-22, 35,256 groups have been provided Rs.1,436.51 Crore of loans with a loan outstanding of Rs.1,970.68 crore from 82,552 groups. Rs.87.30 crore of interest subsidy has been released to 78,075 groups.

In the year 2022-23, 50013 groups have been provided Rs.2,206.96 Crore of loans with a loan outstanding of Rs.2,650.54 crore from 93,201 groups & Rs.96.61 crore of interest subsidy has been released.

During the year 2023-24, 24875 groups have been provided with Rs.1010.05 crore of loan and 99003 groups have Rs 2146.47 crore of loan outstanding. In this year budget provision of Rs. 99.00 crore has been provided and it has been fully utilized.

In 2024-25, till November 11,640 SHG groups have received Rs.512.61 Crores of loan and 90,214 groups have Rs.1881.76 crore loan outstanding. Budget provision of Rs.124.80 crores is made.

- g. Central govt has taken following measures to render services to rural people by strengthening Primary Agricultural Cooperative Societies (PACS).**

- 1. Establishment of Multipurpose PACS in every Panchayat:** This scheme aims at establishing new PACS for each gram panchayats to provide banking services and distribute agricultural inputs to rural population and farmers. Till now 102 new PACS, 376 Milk Societies and 11 Fishery Societies have been formed.
- 2. Computerization of PACS:** Under the Centrally sponsored scheme, it's intended to computerize all 6040 PACS of the State at an amount of Rs.236.00 crore. The Central Government and State Government will share the cost in the ratio of 60:40 and the state share will be Rs.77.00 crore. In the first phase, Hardware (Desktop, Multifunctional device (Printer, scanner, copier), Physical VPN device, Biometric Scanner, UPS) has been supplied to 5491 pacs which have completed audit and tallied their accounts. Till now 4021 PACS data has been captured in the software under digitalisation and 43 PACS have gone live and transaction is online for these PACS.
- 3. Entering Cooperative societies information to National Co-operative Data Base:** 45,925 co-operative societies data including 6164 PACS have been entered in National Co-operative Data Base software developed by Ministry of Co-operation, Central Govt.
- 4. World's largest Decentralized Grain Storage Program in Cooperative sector to ensure food security:** Under this scheme different types of agricultural infrastructure such as godowns, custom hiring centres, processing units, fair price shops, etc. will be created in convergence of various schemes of the Government of India at the PACS level. This scheme will ensure country's food security, reduce wastage of food grains, result in better price for farmers for their produce and meet various agricultural needs at the PACS level itself. Pilot project in Ekamba PACS in Bidar district is being taken

up and out of the target of 5 PACS to be identified in each district, so far 34 PACS have been finalised to sign the agreement with National Consumer Cooperative Federation.

5. **PACS as Jan Aushadhi Kendra for access to generic medicines at rural level:** It was planned to open minimum of 5 Jan Aushadhi Kendras in each district to provide generic drugs to rural population at affordable rates. Till date 213 PACS have come forward to open Jan Aushadhi Kendras. 180 PACS have received initial approval and 22 PACS have started the Jan Aushadhi Kendras.
6. **PACS as Common Service Centers (CSCs) for better access to e-Services:** Central and state services like money transfer, bus and railway ticket booking, Aadhar service etc. and around 300 services are being provided by these centres in GRAMA one model. Till date 2585 PACS have started providing services.
7. **PACS as Fertilizer Distribution Centre (Pradhan Mantri Kissan Samridhi Kendra):** It is planned to start selling organic fertilizer in addition to fertilizers, seeds, pesticides in all eligible PACS. Till date these services are available in 1797 PACS and action has been initiated to start services in remaining 3694 PACS and are undergoing 15 days of training to start the services.
8. **Eligibility of PACS for LPG Distributorship and Petrol retail points:** Till date 11 PACS have applied for petrol dealership and 7 PACS have applied for LPG distribution.
9. **Athma Nirbar Bharath- To convert PACS as Multi Service Centres:** Under the NABARD scheme, refinance is being provided at the rate of 4% to convert PACS as Multi service Centers & under the central scheme of Agri Infra Fund, 3% interest subsidy is being provided by central govt. for loan given to PACS to create post harvest facility at farm gate level such as Godown / Ware house to store agriculture produce, transportation, processing facilities. In Karnataka, both the schemes have been converged and target was fixed to cover 1549 PACS. Till date 1043 PACS have submitted applications and NABARD has sanctioned Rs.302.31 Cr to DCC banks to lend to 873 PACS. Till November end, DCC banks have disbursed Rs.158.00 Cr to 706 PACS.
10. **PACS to register at National Cooperative Export Society, National Bheej Sahakari Samiti, National Organic Cooperative Society :** As on today 91 PACS have registered as Organic Society, 221 have registered as Export Society and 760 PACS have registered under National Bheej Sahakari Samiti and are ready to render service to farmers
11. **Way ahead:** To computerize 5491 PACS for transparency & efficient/more services to farmers. To form new PACS for Gram Panchayats and reviving defunct societies or setting up more societies.

### 11.1 HEALTH AND FAMILY WELFARE

Karnataka has made significant progress in improving the health status of its people in the last few decades. The state has made remarkable progress improving its health infrastructure at different levels in both rural and urban areas. The State has a wide institutional network providing health services both in urban and rural areas. The primary health infrastructure in rural areas has fulfilled the norms required under the “Minimum Needs Programme” at the aggregate level. 14 district hospitals, 10 other hospitals, 43 Autonomous teaching hospital, 147 Taluka /General hospitals, 206 Rural Community health and 9 Urban Community health centers, 2159 Rural Primary health centers and 365 Urban Primary Health Centers, 155 Rural Health Extension Centers & 9160 Sub Centers are providing health care facilities.

Further, 36312 private medical establishments are registered under Karnataka Private Medical Establishment Act for providing quality care according to medical ethics by prescribing service quality of which 9942 (27%) are in Bangalore district alone followed by Dakshina Kannada 2783 (7%) and Dharwad 2402 (6%). During the year 2024-25 the population bed ratio as per number of beds per lakh population is 105. The ratios of nurses and doctors per ten thousand population has been 2 and 1 respectively.

#### Finance

During 2023-24 an amount of Rs.10504.33 crores was allocated in the budget under various schemes to provide health facilities, of which an amount of Rs.11883.93 crores (Including OB) was released and the expenditure incurred was Rs.9788.53 crores. During 2024-25 as against the allocation of Rs.10813.48 crores, an amount of Rs. 11182.76 crores (Including OB) released. The expenditure incurred is Rs.6593.71 crores upto December-2024

Under National Health Mission during 2023-24 the allocation was Rs. 2171.33 crores and expenditure incurred was Rs. 2080.98 crores (95.84%). During 2024-25 (upto Dec 2024) out of total allocation of Rs. 1387.17 crores, an amount of Rs. 1111.81 crores (80.15%) is incurred as expenditure.

The outlines of demographic and health scenario of Karnataka state during the past recent years are depicted given in **Table 11.1**.

**Table 11.1: Demographic and Health Indicators**

| Indicator                                        | 2015             | 2016 | 2017 | 2018             | 2019 | 2020 |
|--------------------------------------------------|------------------|------|------|------------------|------|------|
| Birth Rate<br>(for 1000 Population)              | 17.9             | 17.6 | 17.4 | 17.2             | 16.9 | 16.5 |
| Death Rate<br>(for 1000 Population)              | 6.6              | 6.7  | 6.5  | 6.3              | 6.2  | 6.2  |

|                          | 69.5    | 67.9 | 71.3   | 69.8    | 67.9 | 71.9   |

Source: SRS 2020, NHFS-4 & 5.

The above table reveals that the progress of the health indicators has been encouraging in the state during the last few years. As per SRS 2020, the death rate is already at a lower level and the birth rate is declining gradually. The maternal mortality rate which was 97 in 2015-17 has been decreased to 69 in 2018-20. Similarly the infant mortality rate which was 28 in 2015 has been gradually decreased to 19 in 2020. Attempts have been made to remove intra-regional and regional disparities by improving health services.

### 11.1.1 Maternal and Child Health

In line with the overarching focus of the 12th Five-year Plan (2012-17) and other policy initiatives of the Government of India, Karnataka has aimed at controlling population and reducing infant and maternal mortality through strengthening health services. Consequently, the total fertility rate in the State which was 1.8 in 2015-16 has been decreased to 1.7 in 2019-20. The percentage of institutional deliveries is 97%. The below table shows status of maternal health indicators in state as per NFHS-5 (2019-20).

**Table 11.2: Status of Maternal Health Indicators in Karnataka**

| Health Indicators                                                                                                              | NFHS-5 (2019-20) |
|--------------------------------------------------------------------------------------------------------------------------------|------------------|
| Mothers who had antenatal check-up in the first trimester (%)                                                                  | 71.0             |
| Mothers who had at least 4 antenatal care visits (%)                                                                           | 70.9             |
| Registered pregnancies for which the mother received Mother and Child Protection (MCP) card (%)                                | 97.6             |
| Mothers who received postnatal care from a doctor/ nurse/ LHV/ANM/midwife/other health personnel within 2 days of delivery (%) | 87.4             |
| Institutional births (%)                                                                                                       | 97.0             |
| Total fertility rate (children per woman)                                                                                      | 1.7              |
| All women age 15-49 years who are anemic (%)                                                                                   | 47.8             |
| Current use of Contraception (Any Method)                                                                                      | 68.7             |

**Table 11.3: Details of Infant, Under 5 Mortality, Neonatal Mortality and Early Neonatal Mortality Rate**

| Indicator                                     | 2011 | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 |
|-----------------------------------------------|------|------|------|------|------|------|------|------|------|------|
| Under-Five Mortality Rate (per 1000 children) | 40   | 37   | 35   | 31   | 31   | 29   | 28   | 28   | 26   | 21   |
| Infant Mortality Rate (per 1000 Live births)  | 35   | 32   | 31   | 29   | 28   | 24   | 25   | 23   | 21   | 19   |

| Indicator                                            | 2011 | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 |
|------------------------------------------------------|------|------|------|------|------|------|------|------|------|------|
| Neonatal Mortality Rate (per 1000 Live births)       | 24   | 23   | 22   | 20   | 19   | 18   | 18   | 16   | 16   | 14   |
| Early Neonatal Mortality Rate (per 1000 Live births) | 20   | 20   | 18   | 16   | 15   | 13   | 13   | 12   | 12   | 11   |

\* Data Source: SRS 2020

The **Table 11.3** reveals that as per Sample Registration System Report, the trend in Infant Mortality Rate, Under 5 Mortality Rate, Neonatal Mortality Rate and Early Neonatal Mortality Rate from 2011 to 2020 is in decreasing trend. From 2011-2020 the IMR is decreased from 35 (2011) to 19 (2020), under- Five Mortality Rate is decreased from 40 (2011) to 21 (2020), Neonatal Mortality Rate is decreased from 24 (2011) to 14 (2020) and Early Neonatal Mortality Rate is decreased from 20 (2011) to 11 (2020). Prematurity and Low Birth weight, Birth Asphyxia and trauma, Pneumonia, Diarrhea and Sepsis are major causes of deaths Under 5 mortality. The trends of the above indicators are depicted in the **Figure 11.1**

**Figure 11.1: Child Mortality Trend in Karnataka**

Many initiatives have been taken up to provide preventive, promotive, curative & rehabilitative health care services through evidence-based interventions like facility based Newborn Care services, Pediatric care services. Community based services, Community awareness programme, Capacity building and financial assistance to schemes.

#### a) Janani Shishu Suraksha Karyakrama (JSSK)

Introduced in early 2012 to reduce the out of pocket expenditure of the parents towards the treatment of sick newborn. An amount of Rs. 200/- for Drugs and Consumables, Rs. 100/- for diagnostics and Rs.300/- for Referral Transport was allocated per sick newborn. From 2013-14 the Facility was extended for any sick child below one year of age. During 2024-25 (upto Dec 2024) the number of beneficiaries covered are 1,77,343.

### 11.1.2 Family Welfare

The State offers an excellent family welfare Programmes operating through the existing health infrastructure. The main objective of the Programme is to provide better health services in general and family planning services in particular to check the rapid growth of population. Though sterilization continues to be the main method of family planning the spacing between the births of two children is also equally emphasized.

During 2024-25 (upto December 2024) 1.08 lakhs sterilization conducted as against the target of 2.28 lakhs. The achievement of IUD & PPIUCD is 1.32 lakhs as against the target of 3.71 lakhs. The Couple Protection rate was 51.8 as per NFHS-4 (2015-16) and it is gradually increased to 68.7 in NFHS-5 (2019-20) by implementing various family planning methods like Sterilization (Vasectomy, Tubectomy & IUD insertion etc.)

Ministry of Health and Family Welfare, Government of India expanded the contraceptive basket of choice under National Family Planning Program in March 2023 and introduced two new contraceptives namely Sub-Dermal Single Rod Contraceptive Implants and subcutaneous -MPA Injectable contraceptive. During the First phase Bangalore and Bidar districts have been selected for roll out of Sub-Dermal Single Rod contraceptive implants and Mysore and Yadgir districts have been selected for roll out of subcutaneous -MPA in Karnataka. During 2024-25 a total of 865 Sub-Dermal Single Rod contraceptive implants and 1171 doses of subcutaneous-MPA have been inserted from April - 2024 to December - 2024.

### 11.1.3 Major Health Sector related initiatives

#### a) National Health Mission

The NHM seeks to provide Accessible Affordable and Quality Health Care to the rural population especially the vulnerable sections. 11 programs are RMNCH+A including immunization, National Vector Borne Disease Control Programme (NVBDCP), Revised National Tuberculosis Control Programme (RNTCP), National Leprosy Eradication Programme (NLEP), National Programme for Control of Blindness (NPCB), Integrated Disease Surveillance Project (IDSP), Additional Services to Under National Health Mission, Programme of Pulse Polio, Mission Indradhanush, Health Education Training, Preventive of Deafness and other Programs, Strengthening of public health facilities by providing new constructions, additional alternation and renovation are implemented under National Health Mission.

#### b) National Vector Borne Disease Control Programme (NVBDCP)

State is implementing the activities for prevention and control of Vector Borne Diseases like Malaria, Filariasis, Dengue, Chikungunya and Japanese Encephalitis. During 2024-25 (upto December-2024) 741 cases and 3 death of Malaria, 32886 cases and 20 death of dengue, 2954 cases of Chikungunya, 688 AES & 31 JE cases were reported.

#### c) National Tuberculosis Control Programme (NTCP)

India is the country with the highest burden of TB. World Health Organization's Global TB report in 2023 estimates around 2.8 million TB cases in India for 2022. Under NTEP 70,000 to 80,000 TB patients are diagnosed and treated annually in Karnataka. The main goal of the NTEP program is universal access to treatment and reduce TB mortality to zero. During 2024-25 (up to December 2024) 77,987 TB cases notified in the state. Out of 77,987 TB cases, 28,122 are notified from private sector and 49,865 are notified from public sector. The death rate was 8% in 2009 which has been reduced to 6% for 2024. The success rate of TB treatment has improved to 85 %.

#### d) National Leprosy Eradication Programme (NLEP)

The State Prevalence of Leprosy rate which was 40 per 10,000 population in 1986 has been decreased to 0.40/10000 in 2015-16 and further dropped to 0.30/10000 in December 2024. Currently, leprosy is prevailing in 6 districts namely Bellari, Gadag, Koppal, Uttara Kannada, Yadgir & Vijayanagara. The prevalence rate in these districts is 0.50 to 1 per 10000 population as on December 2024. Currently 2128 Leprosy cases are under treatment in the State. The Leprosy prevalence rate from 2015-16 to 2024-25 (upto December 2024) is depicted in the **Table 11.4** and **Figure 11.2**.

**Table 11.4: Details of Leprosy Prevalence Rate**

| Year/<br>Indicator            | 2015-16 | 2016-17 | 2017-18 | 2018-19 | 2019-20 | 2020-21 | 2021-22 | 2022-23 | 2023-24 | 2024-25 |
|-------------------------------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|
| Leprosy<br>Prevalence<br>Rate | 0.40    | 0.41    | 0.37    | 0.33    | 0.32    | 0.20    | 0.23    | 0.31    | 0.33    | 0.30    |

**Figure 11.2: Leprosy Prevalence Rate**

#### e) National Programme for Control of Blindness

The aim of the National Program for Control of Blindness is to reduce the prevalence of blindness by improving eye care infrastructure, human resources and accessibility to quality of eye care services. As per the National survey of 2015-2019 the level of prevalence of blindness has come down to 0.25%.

To reach the underserved and unreached mobile ophthalmic units are strengthened in 25 districts, namely Tumkur, Belagavi, Kolar, Bangalore Rural, Hassan, Udupi, Bangalore Urban, Bidar, Bellary, Uttarkannada, Dakshina Kannada, Chamarajanagar, Chickmagalur, Haveri, Koppal, Kalaburagi, Dharwad, Davanagere, Mysore, Gadag, Bagalkote, Mandya, Shivamogga, Vijayapura & Yadigiri.

Vision Centers are established at PHC level to provide quality eye care services to rural patients. 501 Vision Centres have been opened till now. 49 Eye Banks registered under the Human Organs Transplantation Act are functioning in the State. During 2024-25 (upto December 2024) totally 5284 eyeballs are collected as against the target of 5,600 (94.36%). And 383196 cataract surgeries are conducted as against the target of 488400 (78.46%).

**Ashakirana:** During 2022-23 in Phase I, 4 Districts, (Chikkaballapura, Chamarajanagra, Haveri, Kalaburgi) a total of 68,21,108 population were primarily screened, and out of them 10,82,023 population under went for secondary screening for eye related problems of them spectacles were advised for 3,20,233 population (Adults & children both) of which 2,55,970 spectacles were distributed and 59,842 patients have underwent cataract surgery till date.

During 2023-24 in Phase II, 4 Districts (Chitradurga, Mandya, Raichur, Uttarkannada) a total of 72,15,426 population were primarily screened and out of them 13,64,867 population underwent for secondary screening for eye related problems of them spectacles were advised for 2,76,727 of which 74122 spectacles were distributed and 33492 patients have underwent cataract surgery till date.

#### **f) The Integrated Disease Surveillance Project (IDSP)**

The program aims at establishing a decentralized state-based system of surveillance for communicable diseases, so that timely and effective public health actions can be initiated in response to health challenges in the country at the state and national level. During 2024-25 an amount of Rs.234.42 Lakh is allocated of which Rs.40.02 Lakh has been utilized upto December 2024.

#### **g) Beneficiaries covered under various Health Programmes during 2024-25 upto December 2024 are as detailed below**

- Janani Suraksha Yojane -2,38,099
- Rashtriya Bal Swasthya Karyakram-92,71,389
- Arogya Kavacha-6,94,831
- Dialysis - 4,21,185
- Telemedicine – 2.31 crores consultations from the day of implementation are conducted through health institutions.
- Janani Suraksha Vahini-40,110
- NaguMagu-31,724
- Ayushman Bharat-Arogya Karnataka – 21,87,682
- Under Arogya Kavacha at present there is one ambulance for every 95000 population with a total of 715 Ambulances.
- Emergency cases-5,48,642 are attended of which 1,16,587 pregnant women have availed the services and 81,889 lives are saved.

#### **11.1.4 Communicable Diseases (CMD)**

Programmes monitored under Communicable Diseases are (1) Gastro Enteritis (2) Cholera (3) Typhoid (4) Viral Hepatitis (5) Kyasanur Forest Disease (6) Leptospirosis (7) H1N1 (Influenza-A). Other Programmes like (1) Dog bite (2) Snake bite (3) Rehabilitation programme of Endosulfan and (4) Handigodu Syndrome are also

mentioned under this programme. Number of cases and deaths reported under the above diseases during 2024-25 (Upto December 2024) are as detailed below.

**Table 11.5: Details of Number of cases and deaths reported under Communicable Diseases**

| Diseases                      | Cases  | Deaths |
|-------------------------------|--------|--------|
| Gastroenteritis and Cholera   | 183777 | 13     |
| Typhoid                       | 77566  | 0      |
| Viral Hepatitis               | 3148   | 0      |
| Kyasanur Forest Disease (KFD) | 303    | 14     |
| Leptospirosis                 | 5088   | 0      |
| H1N1(Influenza-A)             | 3530   | 10     |
| Dog Bites                     | 361522 | 5      |
| Snake Bites                   | 13235  | 101    |

#### 11.1.5 Suvarna Arogya Suraksha Trust (SAST)

##### **“Ayushman Bharat Pradhan Mantri Jan Arogya-Mukhya Mantri Arogya Karnataka” (AB PMJAY CM ARK) Scheme**

In line with the policy goals of the “Karnataka Integrated Public Health Policy 2017” which envisages merging all social health insurance schemes into a single health assurance plan to improve efficiency and outreach and to achieve the goal of Universal, Equitable and Sustainable health care as envisaged in the Vision document-2025, all the existing schemes were merged and “Arogya Karnataka” a Universal Health Care Scheme was launched on 2/3/2018, wherein cashless treatment up to Rs. 2.00 lakh for specified 1516 secondary, tertiary and emergency health care treatments was provided in an Assurance Mode based on eligibility criteria as per the National Food Security Act 2013.

The Government of India came out with its scheme called Ayushman Bharat - National Health Protection Mission, on 25.9.2018, later renamed as Pradhan Mantri Jan Arogya Yojana (PMJAY), to provide health protection to over 10 Crore poor families identified based on the latest Socio-Economic Caste Census (SECC) data. Since both Arogya Karnataka and Ayushman Bharat have the same goal, scope and similar modalities for providing specified treatments to the poor and vulnerable sections of society, they are integrated with a single scheme called “AYUSHMAN BHARAT PRADHAN MANTRI JAN AROGYA-MUKHYA MANTRI AROGYA KARNATAKA SCHEME” which is now being implemented in an Assurance Mode. Under this scheme the enrolment card called AB PMJAY CM ARK Card and a unique ID is generated and provided to the patient at the PHCs enrolment center and also issued at Common service centers, Bangalore One, Karnataka One and Seva Sindhu centers by producing Aadhar and Ration cards.

##### **Cost of Treatment to be borne by the Government**

For “Eligible Patients” the financial assistance up to Rs.5.00 lakh is being provided for specified simple secondary care, complex secondary health care, tertiary health care and emergency health care per annum, for a family.

For General Patients the benefit limit is 30% of Government package rates, with overall annual limit of Rs.1.50 lakh per family on co-payment basis.

## Implementation

To provide treatment to the patients 3555 Hospitals are registered under this scheme of which 591 are private hospitals and 2964 are public hospitals. In all these registered hospitals the beneficiaries of this scheme are treated. A total number of 1.78 crore cards have been registered till date.

During 2024-25 (till December 2024), 21,87,682 beneficiaries have availed benefits and an amount of Rs.1149.56 crores has been paid to the network hospitals for treating these beneficiaries.

### a) Jyothi Sanjeevini Scheme (JSS)

It is launched specifically for the benefit of all State Government Employees and their dependents without any cap on the financial limit and the treatment is totally cashless. During 2024-25 (upto December 2024), 1590 employees have availed benefits and an amount of Rs.1018.16 lakhs has been paid to the network hospitals for treating these beneficiaries.

### b) Organ Transplant Scheme

The 'Organ Transplantation Scheme' for Poor/BPL patient is being implemented in the State from 03-12-2018. During 2024-25 (till December 2024) 97 beneficiaries and 1455 Immunosuppression Medication beneficiaries have availed benefits for an amount of Rs.539.30 lakhs.

### c) Karnataka Arogya Sanjeevini Scheme

Karnataka Health Sanjeevini Scheme (KASS) cashless, seamless, comprehensive health scheme for State Government Employees and their dependent family members as per Karnataka Government Employees Medical Attendance Rules 1963 announced by the State Government in the budget for the year 2021-22 vide Government Order No: DPAR 16 SMR 2020, dated: 17.08.2021. Karnataka Arogya Sanjeevini scheme cell created with 19 posts as per Order No: DPAR 16 SMR 2020 dated: 15.06.2022. Policy guidelines issued as per Government Order No: DPAR 16 SMR 2020, dated: 05.09.2023 and 09.03.2023.

### d) Acid Attack Victims scheme

As per directions issued by the Honorable Court a provision has been made available for treatment under the scheme with the financial cap of Rs. 5 lakhs per annum per victim under the ambit of AB-PMJAY-CM's ArK. The registered hospitals are 28 hospitals of which 18 are Government hospitals and 10 are Private hospitals. Treatment is provided to the beneficiaries of the scheme in all these registered hospitals. During the current financial year 2024-25 from April -2024 till December -2024, a total of 02 employees have availed benefits and an amount of Rs.0.79 lakhs has been paid to the network hospitals for treating these beneficiaries.

### 11.1.6 National Iodine Deficiency Disorders Control Programme (NIDDCP)

National Iodine Deficiency Disorders Control Programme (NIDDCP) is implemented in the State to create awareness about usage of Iodized salt in daily diet to prevent Iodine Deficiency Disorders (IDD) like Cretinism, Deaf autism, Dumbness, Physical and Mental Retardation, Goiter, etc. During 2024-25 (upto December 2024) an amount of Rs.72.35 lakhs has been released of which Rs. 23.53 lakhs expenditure incurred.

### 11.1.7 National Urban Health Mission

National Urban Health Mission aims to improve the health status of the urban poor particularly the slum dwellers and other staged sections by facilitating equitable access to quality health care through a revamped public health system partnerships and with the active involvement of the urban local bodies.

Under National Urban Health Mission 3679 posts are filled up out of 3942 posts sanctioned under different Categories and the remaining 263 posts are vacant.

**Infrastructure:** One urban primary health centre (UPHC) planned for every 50,000-60,000 population under NUHM. Namma Clinics established for every 15000-20000 population which provides comprehensive Primary Health care services to poor, vulnerable and slum population of Urban area and it reduces out of pocket expenditure. It provides 12 service packages like Care of pregnancy and child birth, Family Planning contraceptive and RCH services, Management of communicable diseases, Basic Dental health care etc. So far 817 Namma Clinics are established across the state of which 536 in the Districts and the remaining 281 in Bruhath Bengaluru Mahanagara Palike.

During 2024-25 (Upto December 2024) an amount of Rs.63.03 lakhs expenditure has been incurred as against total budget of Rs.125.60 lakhs allocated.

#### **a) Ayushman Bharath – Ayushman Arogya Mandir**

Ayushman Arogya Mandirs were launched under the Ayushman Bharat – Arogya Karnataka scheme to strengthen Comprehensive Primary Health Care (CPHC) services for the community. The programme aimed at delivering comprehensive primary health care services to the public at their doorsteps in a qualitative manner like free medicine, free diagnostic facilities etc., under 12 package of services. For the financial year 2024-25, a total of Rs.7640.61 lakhs is allocated for the Department & the expenditure incurred up to December 2024 is Rs. 4587.53 lakhs.

#### **11.1.19 Karnataka State Medical Supplies Corporation Limited**

The main objective of Karnataka state Medical Supplies Corporation limited is to cater to the needs of Health Institutions of the State by Procuring Drugs, Equipment, Consumables and management of supply chain.

Essential Need Based Drugs are provided to 2889 Health Institutions in the State. During 2024-25 (upto December 2024) the expenditure incurred for drugs and equipment is Rs. 26,079.72 lakhs.

#### **11.1.20 Department of AYUSH**

Department of AYUSH has the broad mandate of providing Ayush services, regulating Ayush education and drug enforcement in the state. 726 Government Ayush Dispensaries, 168 Government Ayush hospitals are providing medical services through Ayurveda, Unani, Homoeopathy, Nature Cure & Yoga with a total bed strength of 2766.

Under National Ayush Abhiyan Ayush Mobile Medical Unit each in Kodagu and Belgaum districts are started and approval from Government of India to start 03 Ayush Mobile Medical Unit in Dakshina Kannada District and 01 Ayush Mobile Medical Unit in Gadag District During 2023-24.

During 2024-25 (upto December 2024) 38.20 lakhs outpatients and 0.99 lakhs inpatients availed Ayurveda, Unani, Homoeopathy, Yoga and Naturopathy medical facilities.

#### **11.1.21 Current Situation of COVID-19 in Karnataka and Action Taken**

Covid 19 situation in the State is stable from 1st Jan 2024 till date. Out of 1498 & 779 samples tested 52 & 13 have Confirmed positive respectively during November & December 2024.

##### **Action Taken**

The strategy of 5-Ts Testing, Tracing, Tracking, Treatment, & use of Technology is deployed in the State to manage the Covid 19 situation scientifically and effectively. Necessary actions are implemented as per the recommendations of Covid 19 State Technical Advisory Committee.

##### **Covid-19-Testing**

The covid testing capacity of the State has been enhanced. 265 ICMR certified testing facilities are functional to expedite sample testing and ensuring TAT (Turn Around Time) of results declaration within 24 Hrs. Districts and Bangalore City Corporation (BBMP) have made adequate testing teams available, so that symptomatic testing is not missed out.

##### **Preventive Measures undertaken throughout the State**

The State Surveillance Unit (SSU) focuses on early identification & declaration of clusters i.e 5 or more Covid detected within close proximity. This is to ensure that containment measures could be imposed with immediate effect in the area surrounding the cluster and daily visits by health care personnel.

#### **11.2 EDUCATION**

In recent years there is an unimaginable advancement in the field of knowledge and social and national aspirations of the people all over the world. This changes in the field of education have become indispensable for the better. It is the responsibility of education to nurture the all-round development of an individual's personality, thus help him/her become an active member of a knowledge society and a productive citizen of this country. There are significant developments in all fields of education. Education is having both intrinsic and instrumental value and provides useful services for the development of nation and enrichment of an individual's life.

The positive externalities of Education make it a public good, and therefore it needs to be supplied by the State as markets cannot provide it to the socially optimal levels. The human development paradigm recognizes the role of education in the expansion of choices for wellbeing, security and comfort. Therefore, the right to education is recognized as one of the fundamental human rights and, the drive towards universal elementary education aims at ensuring its delivery. Karnataka State is a fast-growing economy and this growth is largely based on the knowledge base of the society. The State has embarked on significant reforms in the education sector with increased public investment to ensure access, equity and quality in education, with community involvement.

### 11.2.1 Literacy In Karnataka

A review of growth of literacy during the 2001–2011 decade shows that Karnataka has achieved significant progress. The literacy rate in the State during 2001 was 66.64 per cent, which increased to 75.60 per cent in 2011 (**Table 11.6**).

**Table 11.6: Literacy rates in Karnataka and India**

|         | Karnataka | India | Karnataka (Rural) | Karnataka (Urban) |
|---------|-----------|-------|-------------------|-------------------|
| Persons | 75.60     | 74.04 | 68.86             | 86.21             |
| Males   | 82.85     | 82.14 | 77.92             | 90.54             |
| Females | 68.13     | 65.46 | 59.60             | 81.71             |

Source: 2011 Census

From the Table it is evident that the overall literacy rate, male and female literacy rates in Karnataka are above the national average. Urban male literacy rate in the State has crossed 90%. However, rural female literacy rate in the State is yet to cross 60%. The literacy rank of the State was 9<sup>th</sup> among 16 major States (States with a population of more than 100 lakh) during 2001 and the same position is maintained in 2011. The overall increase in literacy rate in the State during this decade is 9%.

### 11.2.2 Status of School Education

In the state general education system is divided into different levels such as pre-primary level, primary level, and upper primary, secondary education, under graduate and post-graduate education. School education in Karnataka is imparted through Lower Primary Schools (LPS, class I to V), Higher Primary Schools (HPS, class I to VII / VIII) and High Schools (VIII to X). These schools fall under three categories based on type of management, namely (i) Government schools managed by the Departments of Education, Social Welfare and local self-governments (ii) Government aided schools and (iii) Private unaided schools. There are also a few 'other' schools consisting of mixed categories. In 2023-24 there were 22917 Lower Primary, 30104 Higher Primary and 17989 High Schools in the State (**Table 11.2.2**).

In the total number of schools, the percentage of education department's schools is as high as 88.04% in lower primary schools and 72.18% in higher primary schools. However, Education Department's participation is low in secondary education as only 26.96 % of the high schools are managed by Government. Government schools are mainly located in rural areas, where as private schools are largely urban based. The number of primary & Secondary schools in Karnataka from 2010-11 to 2023-24 **Appendix 11.7**.

**Table 11.7: Schools by Management in Karnataka (2023-24)**

| Category                              |     | Education Department | Social Welfare + Local body | Aided       | Un-Aided     | Others + Central | Total        |
|---------------------------------------|-----|----------------------|-----------------------------|-------------|--------------|------------------|--------------|
| Lower Primary Schools                 | No. | 20176                | 131                         | 172         | 2430         | 8                | 22917        |
|                                       | %   | 88.04                | 0.57                        | 0.75        | 10.60        | 0.03             | 100          |

**Elementary Education**

Article 21 A of the Constitution of India and the Right of Children to Free and Compulsory Elementary Education (RTE) Act 2009 became operative in April 2010. The State Rules under the RTE Act were notified in 2011. These developments have thrown open fresh opportunities for quality schooling for children.

During 2024-25 an amount of Rs. 1678.76 crores is provided in the Budget (State Sector Non Salary) of which Rs.1133.47 crores is released upto December 2024 for Primary Education. The expenditure incurred is Rs.715.87 crores. Scheme wise progress is as mentioned below **Table 11.8**.

**Table: 11.8****(Rs. In Crores)**

- a) **Access:** There has been significant progress in improving access to schools in the State. The State has the policy to start a new primary school within one kilometer in habitations where the population is more than 100 and child population is more than 10. HPS is provided within 3 Kilometer radius and High Schools in 5 Kilometer radius. Feeder schools or transportation facilities are provided in small and sparsely populated habitations. HPS are being upgraded to include class 8, wherever there are no high schools within 3 kilometer.
- b) **Enrolments:** Enrolment of Boys and Girls in Primary, Upper primary and High Schools during 2010-11 to 2023-24 is furnished in **Appendix 11.2**.
- Enrolment during 2023-24 in primary (class I to V) and in upper primary (class VI to VIII) stage was 54.40 lakh and 29.64 lakh respectively (**Appendix 11.2**). It is noted that 84.04% percent of children are studying in rural government schools.
  - Since last years the enrolment has decreased marginally in the class I to V primary stage. This is due to the decline in the growth rate of population and consequent decrease in the School going age group. Even though state is making continued efforts for successful completion of schooling at class V and there is decreasing retention at upper primary stage.
  - Total enrolment in the State in 1 to 10 standards have marginally decreased from 100.29 lakh in 2010-11 to 100.00 lakh in 2023-24. Both gender parity and gender equity are nearing unity in the State. Gender Parity in enrolment at primary and upper primary is 0.99 and 1.02 in Government + Aided schools. Ratio of girls to boys (gender parity index) in primary education is the ratio of the number of female students enrolled at primary level of education to the number of male students in this level.
  - GER and NER lower primary and Upper primary and Secondary school from 2005-06 to 2023-2024 is shown in **Appendix 11.3**.
- c) **Drop-out Rates:** In the year 2023-24, Samagra Shikshana-Karnataka (SSK) had identified 9461 (6 to 14 years) drop-out children in state. Most of the drop-out children were in the districts namely Vijayapura, Bidar, Yadgir, Kalaburagi, Koppal, Ballari, Dharwad, Raichur, Gadag, Haveri, Chikkodi, Chitradurga, Davanagere, Chikkaballapura, Kolar and Chamarajanagar. The RTE Act specifies that drop-out children should be mainstreamed in regular schools.

Every drop-out-child is expected to be enrolled in a nearby school and provided Special Training. Progress of the child is periodically assessed on a learning ladder on the basis of which, the child is admitted to an age-appropriate class (**Table 11.9**).

Table 11.9: Drop-out Rates in Lower Primary and Higher Primary Stages (2023-24)

(in %)

| Stage          | All children | All (Boys) | All (Girls) |
|----------------|--------------|------------|-------------|
| Lower Primary  | 0.09         | 0.11       | 0.07        |
| Higher Primary | 0.49         | 0.55       | 0.44        |

**d) Out of School Children (OOSC)-Strategies for:** As per RTE Act 2009, it is mandatory to provide free and universal education to all children aged between 6 and 14 years. In this context, survey conducted for identifying out of school children was conducted during December 2024. The department planned for 9461 children between the age of 6 years and 14 years which includes children identified in random survey, night survey and migrant children. Among the total 9461 children identified MOE has approved fund of Rs.162.18 lakhs.

The number of never enrolled children is quite low as compared to Dropout children. It showed a decreasing trend over the years. The children in the age group of 6+ below 7 years are enrolled directly during the special enrollment drive (**Table 11.10**).

Table 11.10: Special enrolment drive to out of school children target and achievement 2023-24

#### Details of Children mainstreamed for the year 2023-24

| Particulars                                    | Total Children mainstreamed |
|------------------------------------------------|-----------------------------|
| Special Training (RST/NRST)                    | 607                         |
| HBE (Home Based Education)                     | 4                           |
| School Based Training (SBT) without volunteers | 5992                        |
| Hostel Facility                                | 5                           |

#### e) Steps taken to ensure continuation of mainstreamed children in regular schools

- School dropout period of children out of school is considered to be 7 days instead of 60 days.
- To prevent absenteeism of children and to attend schools regularly Education Coordinator (ECO) is appointed as Attendance Authority. In case absenteeism of more than 7 days is found, ECO is supposed to visit the students' family to persuade the parents to bring their children to schools and this method is being implemented.
- Free uniform, text books, mid-day meals plan, Ksheerabhagya, vitamin tablets etc. are provided to encourage students to attend schools regularly.
- Scholarships and admissions in hostels are provided to coordinate different incentives given by other departments regarding Child Education.
- Under the chairmanship of Honourable Chief Secretary, the Inter departmental Coordination Committee is formed to bring out cooperation and coordination of other departments. Similarly, the Coordination Committee at District and Taluka levels are formed and they are functioning.
- Each school is ordered to maintain the VER (Village Education Register) / WER (Ward Education Register)
- Totally 71 Kasturba Gandhi BalikaVidyalaya(KGBV) schools and 86 KKGVB Hostels are opened in educationally backward blocks so those drops out girl students are admitted to continue their education on priority basis.

#### f) Infrastructure

- i) **Basic facility under Samagra Shikshana Karnataka:** Efforts are made by the state under universalization of Primary Education Scheme to provide building to school, additional room, aid for repair and maintenance of schools. Under RTE Act, the state has put sufficient efforts to provide basic facilities like free admission, sufficient class rooms, and separate toilets for boys and girls, playground, library, compound /fences, drinking water, toilet, kitchens and other facilities. The main five facilities (Pancha Soulabhya) are drinking water, Toilet, Play Ground, Compound Wall and School Building. Significant progress is achieved by the state in providing fundamental facilities as shown below in **Table 11.11** and **11.12**.

**Table 11.11: Details of Fundamental facilities in Primary Schools (Elementary)**

| Year    | Toilets for Boys | Toilets for Girls | Electricity | Play Ground | Ramps | Wall Compound | Drinking Water | Library |
|---------|------------------|-------------------|-------------|-------------|-------|---------------|----------------|---------|
| 2010-11 | 91.97            | 74.26             | 91.89       | 54.41       | 72.95 | 66.61         | 93.59          | 91.86   |
| 2011-12 | 97.91            | 98.81             | 95.49       | 54.34       | 78.27 | 69.21         | 99.55          | 98.66   |
| 2012-13 | 99.72            | 99.90             | 99.56       | 55.74       | 79.83 | 73.48         | 99.92          | 99.35   |

| Year    | Toilets for Boys | Toilets for Girls | Electricity | Play Ground | Ramps | Wall Compound | Drinking Water | Library |

- ii) **School Buildings and Classrooms:** Out of a total of 71010 elementary schools & secondary schools in the State, 46755 schools belong to the DoE. About 98.84% of schools of the department possess own buildings (Elementary & Secondary Schools **Table 11.13**). The remaining 1.16% includes those operating in rent-free or rented buildings and others During 2023-24, there were 303733 classrooms (188941 in 2008-09) in elementary schools indicating an increase of 114792 classrooms in about 13 years. 81.75% of classrooms are in good condition. 8.2% of classrooms need minor repairs, while 10.02% of classrooms require major repairs.

**Table 11.13: Classification of Elementary & Secondary Schools by type of ownership of buildings – Education Department Schools only (2023-24)**

| Category                 | Govt. Building | Rented | Rent Free | No Building | Others | Total |
|--------------------------|----------------|--------|-----------|-------------|--------|-------|
| Secondary Schools        | 46214          | 209    | 272       | 10          | 50     | 46755 |
| Percentage total Schools | 98.84          | 0.44   | 0.58      | 0.04        | 0.10   | 100   |

- g) Teachers :** In 2023-24 in the state, 194585 teachers (79.77%) are working in the LPSs and HPSs against the sanctioned vacancies of 243904. Further, in aided schools at the elementary stage, 11679 were working against the sanctioned posts of 11679. It is observed that 80.33% of the teachers in Government schools at the elementary stage are female teachers. Teacher-Pupil ratio is satisfactory in Government schools; the average PTR being 1: 41.06 at the elementary stage. However, variations are seen across districts, blocks and at school levels. The State has adopted a policy to rationalize teacher deployment to correct such imbalances. However, PTR in private aided and unaided schools is comparatively high at 1:29.9 and 1:41.92 respectively (**Table 11.14**).

**Table 11.14: Teachers in various types of school (2023-24)**

| Teachers (Working) | Education Dept. | SW + LB | Aided | Unaided | Others | Total  |
|--------------------|-----------------|---------|-------|---------|--------|--------|
| Elementary level   | 131378          | 229     | 11679 | 51255   | 44     | 194585 |
| PTR                | 41.06           | 28.3    | 22.9  | 41.92   | 53.3   | 39.2   |
| High Schools       | 44188           | 3722    | 23358 | 124802  | 3626   | 199696 |

### 11.2.3 Quality Improvement Initiatives

Elementary Education: Quality Initiatives are classified based on their focus on distinct stakeholders' groups: Schools, Students, Teachers, Community and Administration. Programmes under these initiatives serve more than one stakeholder groups simultaneously.

- a) Infrastructure:** Provision of infrastructure facilities and adequate classrooms is the basic strategy for quality schooling. In addition, every school is given the following grants: School Grant and Maintenance Grant. They are directly transferred from the district educational office to individual schools and jointly operated by the President of the School Development and Monitoring Committee (SDMC) and the Head Teacher. The school Grant is used for procurement of charts, maps, specimens, newspapers, consumable chemicals, chalk and other sundry items. Maintenance Grant is used for paying electricity, water bills, white-washing, hygienic maintenance of school and similar heads. Major repairs grants are given on the basis of evidence-based demands.
- b) Residential Schools for Specific category of children:** Five residential schools for specific category of children, one each in Bengaluru Urban, Dakshina Kannada, Dharwad, Mysuru and Shivamogga sanctioned under RTE has been established during 2011-12. The intake capacity of each residential school is 100.

Facilities provided in Residential Schools:

- Four posts of teachers are sanctioned to all residential schools.
- Other supporting staffs including D-Group and Watchman have been appointed.

- Arrangements have been made to supply nutritious food to each school.
- Children are provided training in self-defence and vocational skills.
- Adequate measures are taken for the safety and security of the children. Proper medical care is also provided.

c) **Nali Kali:** All Government Kannada and Urdu medium Primary schools in the state have adopted the NALI KALI mode in the learn-and-teach method.

c) **Kasturba Gandhi Balika Vidyalaya:** Efforts have been put by Central and State Govt. to educate girl children. 74 KGBV residential schools in 69 educationally backward blocks for girls of 6th Std to 8th Std. have been established to continue education under SSA of Central Resource Development Department in the view of gender disparity, rural areas, weaker sections of society, SC/ST and economically backward classes. KGBV at Siddapur of Gangavatitaluka, Koppal Dist. and KGBV at Sindhanur of Raichur for girls of Muslim minority are imparting education in Urdu medium.

KGBV (Type-4) hostels are allowed for girls belonging to backward classes. In these hostels, enrollment is open from 9th to 12<sup>th</sup> standard. The responsibility is given to the head teacher of the government school near the hostel.

#### KGBV (Type-1, 3&4) -2023-24

| Interventions                                    | Total Number of sanctioned | Target Enrollment | Total Enrolled | Not Started |
|--------------------------------------------------|----------------------------|-------------------|----------------|-------------|
| KGBV Type-1 (School with Hostel 6 to 8th Class)  | 69                         | 8050              | 7469           | 0           |
| KGBV Type-3 (School with Hostel 6 to 12th Class) | 5                          | 700               | 630            | 0           |
| KGBV Type-4 (Only Hostel 9 to 12th Class)        | 72                         | 7250              | 5919           | 0           |
| <b>Total</b>                                     | <b>146</b>                 | <b>16000</b>      | <b>14018</b>   |             |

#### Facilities at KGBV schools

- Improved school building.
- Supply of good quality nutritious food.
- Computer education and compulsory medical check-up in schools.
- Personality development education including music, yoga, karate and cultural programmes.
- Learning opportunity of vocational skills such as sewing, embroidery, doll making, and repairing electronic items.
- Parallel methods of learning for slow learning children.
- Extension of different departmental programmes, conducting guest lectures and seminars.

d) **Children with Special Needs (CWSN):** There are 62818 children in the state who are identified with special needs group among which 49269 children are enrolled into schools and 13549 children of them need most special needs care and are provided with home based education. Other children of this category are identified in medical camps, enrolled into schools equipped with educational aids.

- e) **Training for in-service teachers and administrators:** During the year 2023-24, a five days subject-wise (Kannada, English, Hindi, Urdu, Mathematics, Science, Social Science) training for high school teachers on learning spaces and classroom processes was organized in 34 Diets of the State. High school teachers of classes 9 to 10 have been trained on FLS, NAS learning outcome based activity book and activity bank. In 2023-24 it was targeted to train 10000 teachers out of which 10051 teachers have been trained. A grant of Rs.250.00 lakhs was released by the SSK State Office for this training, out of which an expenditure of Rs.240.15 lakhs has been spent.

#### 11.2.4 Secondary Education

With significant gains in primary education, the State has set in motion the planning process for universalization of secondary education to achieve the target of 85% enrolment in 14-18 age groups in classes 9 to 12. The State is also committed to strengthening the knowledge base of the society to sustain higher rate of economic growth.

- a) **Institutions/Enrolment/Teachers:** The State has a total of 17989 secondary schools of which 4850 schools are run by the DoE, 492 SW and LB schools, 3705 by aided managements, 8158 by private unaided managements and 784 by others. The concentration of the secondary schools in the private unaided sector may be one of the reasons for the low access of children from marginalized groups to higher education 42.90 percent of girls are enrolled in Govt. schools, and only 57.1 percent of them study in private unaided schools.

According to the available data, in the state, total of 1124802 teachers are working out of 199696 teachers are working in unaided secondary schools (**Table 11.15**). The State has set the goal of making secondary education of good quality available, accessible and affordable to all children in the age group of 14 to 16 years.

**Table 11.15: Schools, Teachers & Enrolment in High Schools (2023-24)**

| Particulars                    | Govt.         | SW+LB       | Aided         | Unaided       | Others       | Total          |
|--------------------------------|---------------|-------------|---------------|---------------|--------------|----------------|
| No. of Schools                 | 4850          | 492         | 3705          | 8158          | 784          | 17989          |

#### b) National Skills Qualification Frame work (NSQF)

1. Ministry of Human Resource Development, GOI has introduced the new scheme of National Skills Qualification Frame work (NSQF) to be implemented under Rashtriya Madhyamika Shiksha Abhiyan (RMSA). The main objective of this programme is to introduce vocational courses along with the regular courses and thus enable the students to gain skills and competencies essential to get employed. This is a continuing programme implemented in 10 different levels starting from classes 9th to 12th and thereafter up to graduation, post-graduation and Ph.D levels.

## 2. Details of schools approved for NSQF activities: Table 11.16

| Year of sanction | No. of schools approved by MHRD/MoE |
|------------------|-------------------------------------|
| 2014-15          | 100                                 |
| 2015-16          | 0                                   |
| 2016-17          | 0                                   |
| 2017-18          | 0                                   |
| 2018-19          | 50                                  |
| 2019-20          | 0                                   |
| 2020-21          | 53                                  |
| 2021-22          | 37                                  |
| 2022-23          | 35                                  |
| 2023-24          | 0                                   |
| <b>Total</b>     | <b>275</b>                          |

- The students of 9th and 10<sup>th</sup> Std who have opted vocational subject under NSQF are exempted in studying 3rd Language and the students of 11th and 12th Std opted vocational subject under NSQF are exempted from in studying either one of the languages.
- “Shikshana Kirana” (Student Achievement Tracking System):** “Shikshana Kirana”, the Students Achievement Tracking System that tracks every child enrolled in school, by unique identity and name, regularity, academic performance, promotions, transfers, identify drop outs etc., has captured student specific data of about 1 crore students studying in all schools of the state. The system is designed for online monitoring of the performance of students, teachers and school managements. This system could already digitize the records of more than one crore students, four lakhs teachers and seventy-nine thousand one hundred and twenty-seven schools in the whole state including private aided and unaided schools. Adhaar, income certificate and caste certificate information of the child is linked with the student detail in SATS. Opportunity is given to the school HM’s to verify the nominal roll, admission ticket through their school login ID. It is made mandatory to take the indent for the text books only through SATS.
- Activities Approved from MHRD for the year 2023-24:** The activities implemented as per guidelines are listed in **Appendix 11.4**.

### 11.2.5 Department of State Educational Research and Training (DSERT)

The Department of State Educational Research and Training, (DSERT) is the academic wing of the Department of School education and Literacy. It aims at providing academic leadership in school education as well as improving the quality of education in primary and secondary schools in the state. It also aims to achieve 100% literacy through mass education programme.

#### I. Aims and Objectives

- Improving the quality of education in primary and secondary schools in the state.
- Monitoring Pre-service and In-service Teacher Education (elementary and secondary).
- Management of Government Colleges of teacher education: District Institutes of Education and Training and other Government teacher training institutions.
- Promoting Science Education in the state.

5. Designing and implementing in service teacher training courses in content, pedagogy, innovative methods like theatre in education, use of low cost and no cost teaching learning materials in schools, etc.
6. Organizing Satellite based training programmes.
7. Enhancing the teaching skills of Primary and Secondary School teachers, as per identified needs.
8. Improving the educational quality of Teacher Training Institutes.
9. Providing vocational skills through organizing music, Drawing, Dance, Drama, and other activities under art research center of DSERT.
10. Promoting use of technology in education.

## II. Samagra Shikshana Karnataka Primary and secondary section

This section is a unit of DSERT functions with the responsibility of formulating and managing teacher's trainings are considered as a very useful activity. They play vital role in enhancing the quality of education. For the year 2024-25 the following activities are scheduled.

1. **IISc Training:** For the year 2024-25, Rs. 43.30 lakhs have been released under Head of Account 2202-01-109-0-08-059. A 10 days training will be held at IISc Chalakere for high school teachers who teach Mathematics and Science, and it is planned to train a total number of 300 teachers for this year. The training has started from November, and 88 teachers have been trained in the first batch. 2nd and 3rd batch will conduct from December 2024.
2. **Content Enrichment Module Batch Creation:** In the year 2023-24 we have prepared modules under zero budget from all 34 DIETs and for this year we planned to make batch creation for those modules. Rs.10.50 lakhs has been released under account head 2202-01-109-0-08-059 for 7 districts namely Davangere, Kolar, Tumkur, Bellary, Chikkamagaluru, Mandya and Mysore districts 1.50 lakhs for each and the batch creation work is in progress.
3. **Ganitha Ganaka Training:** In the year 2024-25, Rs. 1,16,88,000 has been released for Ganitha Ganaka Training under Account Head 2202-02-107-0-06 Abhyudaya Yojana 051 General Expenditure. Out of this, training was organized for 72 MRPs on October 15 and 16, 2024 at DIET Mandya. A total of 66 MRPs and 6 SRPs participated in this training. A total of Rs.1,50,307/- has been spent on this MRP training. Ganitha Ganaka Teacher Training is being held in 17 districts of the state, with a total target of 34960, so far a total number of 16390 teachers including CRPs have been trained.
4. **Programmes under Centrally Sponsored Schemes for the year 2024-25 PAB Approved In-Service Teacher Training:** Under the PAB Approved Activities for the year 2024-25, Rs.519.15 lakhs has been released from the SSK State Office in the first instalment for In-service teachers training for Primary (6 to 8) teachers. The target is 20,766 teachers. So far, 7490 teachers have completed the training and the training is in progress. Under the PAB Approved Activities for the year 2024-25, Rs.235.89 lakhs has been released from the SSK State Office in the first instalment for In-service teachers training for High School (9 to 10) teachers. The target is 9439 teachers. So far, 3969 teachers have completed the training and the training is in progress.
5. **Marusinchana 6th to 7th class Module creation, MRP and teacher training**
  - Rs. 13,17,089/- has been released to 5 districts (DIET Tumkur, Mysore, Davangere, Bangalore Urban and Shimogga) for Module creation of Marusinchana 6th and 7th class and the Module creation work has been completed.

- Rs. 14,00,000/- has been released for MRP training of Marusinchana 6th and 7<sup>th</sup> class. A total of 340 targets have been set, and 321 targets have been achieved so far.
- Rs.90,30,600/- has been released for training of 36520 teachers of Marusinchana 6th and 7th class. So far, 24211 teachers have been trained.

**6. Marusinchana 8, 9 and 10th class literature creation, MRP and teacher training**

- Rs. 7,77,710/- has been released to 5 districts (Diet Tumkur, Mysore, Davangere, Bangalore City and Shimogga) for Module creation of Marusinchana 8, 9 and 10th class and the Module creation work has been completed.
- A total of Rs.10,20,000/- has been released by the SSK State Office for MRP training of Marusinchana 8, 9 and 10th class. The total target of this training is 344, of which 333 targets have been achieved so far.
- Rs.90,30,600/- has been released for the training of 10034 teachers of Marusinchana 8, 9 and 10th class. So far, 8408 teachers (including guest teachers) have been trained.

**7. Nali Kali and English Nali Kali Training:** In addition to the 2024-25 academic year, the Nali Kali Kosha has released Rs. 21,51,000/- to organize training of resource persons at the district level in relation to the Kannada and English Nali Kali program. An amount of Rs. 12,22,539/- has been spent for training imparted to 1011 resource persons as against total number of 1195 resource persons.

**8. Induction Training:** A 10-days basic training was organized for newly recruited primary school (graduate) teachers in the year 2022-23. In connection with this training, the first MRP training was organized in DIET Mandya and made successful. A total of 136 MRPs were targeted and the target was achieved fully. A total of Rs. 10,40,400/- was released for MRP training and an expenditure of 7,99,780/- was incurred.

Similarly, 10-days induction training for teachers was organized in 21 districts of the state and in the first phase 5 days training was completed. The second phase of training is in progress. Its total target is 6209. So far, 5447 teachers have been trained in the first phase of training. A grant of Rs.1,70,74,750/- has been received from TBF for this training. A total of 76,28,475/- has been spent on this training so far.

**9. Educational Vocational Guidance (EVG) section:** This section is a unit of DSERT functions with the responsibility of formulating and managing teacher and child education programmes with the purpose of preparing quality education for Students. For the year 2024-25 the following programmes are scheduled.

**10. "Sambhrama Shanivara" programme 2023-24 (No Bag Day):** As per the Government Order No: ED 107 YoYoKa 2017, Bangalore dated: 03-05-2019, the motto of this programme is to reduce the bag burden for the students in schools and Government ordered to celebrate 'Sambhrama Shanivara' in each school as Bag Less Day on third Saturday of every month. In this regard, to celebrate the 10 days of Bag Less Day in schools 10 modules and a teacher's guide has been prepared and uploaded in DSERT website and an implementation memo has been issued and also monitoring by DIETs with proper guidance.

**11. Bridge Course programme 2024-25:** Bridge Course programme is to bridge the gap between concepts learned and concepts being learned. The main goal of this programme is that identifying the learning level and abilities of children according to their age and class and to prepare them for further learning. In this regard, from classes 1 to 10th all subjects Kannada medium and first languages of Tamil, Telugu, Marathi and Urdu Bridge Course literature has been prepared and uploaded in DSERT Website and circular regarding implementation has been issued and guided through online meet. The same is monitoring through DIETs and also it is reviewed in monthly progress meetings by DSERT.

12. **We-The-Humans Budget Announced Program:** In the 2024-25 budget statement Kandike 97, there is a directive of the government to implement the “We-Manuzaru” initiative. Accordingly, to make all the educational institutions of the state into educational centers of Social Harmony, Scientific Spirit and Co-existence. Under these themes some suggestive activities are given. To implement the same in all the schools of Karnataka two hours per week (120 minutes - 3 periods of 40 minutes) has been mapped to SUPW and Moral Education periods in the time table based on the order issued by State Government Order No: EP 143 PBS 2024 Bangalore Dated: 11-06-2024.
13. **‘Eradication of Corporal Punishment in Schools’ :** As per National Commission for Protection of Child Rights (NCPCR) guidelines, literature on Eradication of corporal punishment of children in schools was created and Pilot training was given to selected monitoring officers from all districts across the state. In the year 2024-25, awareness training is conducted for teachers.
14. **POCSO – Protection of Children from Sexual Offenses Act 2012:** Regarding POCSO the case of Criminal Appeal No: 100515/2021 filed in the Hon’ble High Court Dharwad Bench, as per the judgment given by the Hon’ble High Court dated: 04-11-2022, there is an emergency need to impart legal awareness training on POCSO Act among the students of schools and colleges above class 9. In this regard, a resource team has been formed and an awareness manual has been prepared for students and teachers separately and an information brochure has been prepared for parents, SMC’s and the community. Pilot training has been given to selected monitoring officers from all districts across the state. In the year 2024-25 training is conducted for teachers. This action is being taken to create awareness of POCSO Act among the students and to create awareness in the community.
15. **DIET, CTE and ECCE/FLN section:** Pre-Service Teacher Education section is a unit of DSERT functions with the responsibility of formulating and managing pre service teacher education programmes with the purpose of preparing quality teachers for pre-school and primary school levels. This section plays a pivotal academic and administrative role in the field of teacher education through DPSE, D.El. Ed and DPED courses.
16. **Training/Refresher Course :** Organizing and executing refresher courses and workshops to the Principals and Lecturers of all Teacher Education Institutions, as and when the curricula of D.P.S.E, D.El.Ed and D.P.Ed courses are revised or reviewed or innovative practices are to be introduced.
17. **Early Childhood Care and Education ECCE & Foundational Literacy and Numeracy(FLN):** Seminar Workshop on Early Childhood Care and Education (ECCE), Foundational Literacy and Numeracy(FLN) was organised on Date:19/02/2024 and 20/02/2024 under the grant released under PAB approved Teacher Education Scheme for 2023-24. An expenditure of Rs. 3.77 lakhs has been incurred against the release of Rs.4.50 lakhs.
18. **Teacher Education Components(TE) section:** The teacher education programs have adopted innovative strategies, such as learning outcome-based teaching, arts and sports-integrated learning, and school visit and support systems. Quality improvement initiatives have been prioritized, with a focus on Foundational Literacy and Numeracy (FLN) strategies and the dissemination of best practices through academic leadership development programs, including research. In Karnataka, teacher education reflects a systematic approach to enhancing educational quality through structured financial support, innovative programs, and research initiatives, reinforced by effective monitoring and evaluation mechanisms. Significant progress is anticipated in Karnataka’s teacher education for 2023-24. Currently, Rs. 538.40 lakhs has been allocated under the Teacher Education Scheme approved by the Project Approval Board (PAB) for 2024-25. Out of this, Rs. 411.00 lakhs has already been disbursed to support activities in DIETs.

- 19. NTSE (National Talent Search Examination):** The National Talent Search Examination (NTSE) is a competitive examination conducted at the state and national levels under the guidance of NCERT, New Delhi, to provide scholarships to students studying in class 10. The functions of facilitating the selection of students at the national level in getting scholarships are handled by DSERT. As per the official instructions of NCERT, the NTSE examination has been postponed from the year 2021-22 till further orders.
- 20. NMMS (National Means - Cum Merit Scholarship):** The National Means-cum Merit Scholarship Scheme is a centrally sponsored scheme under which meritorious students studying in class 8 from economically backward families in government and aided schools are selected for scholarships through competitive examination. Those selected students are given a scholarship of Rs.12000/- per annum from class 9 to 12. The functions of facilitating the eligible beneficiaries in getting scholarships through the National Scholarship Portal are handled by DSERT. 5520 students are selected for scholarships in the academic year 2023-24.
- 21. National Population Education Project:** The National Population Education Project (NPEP) is a valuable project funded by the Government of India. The main objective of this programme is to create awareness among students about the interrelationship between population and sustainable development by creating situations where life skills are developed through co-curricular activities along with academic learning in schools. NCERT is the implementing agency at the national level and DSERT is the implementing agency at the state level.
- 22. School Health & Wellness Programme:** The School Health and Wellness Programme under Ayushman Bharat is a programme implemented in collaboration with the Ministry of Health and Family Welfare and the Ministry of Human Resource Development. A total of 5444 teachers from government/aided upper primary and high schools in the state will be trained by DSERT for implementation of the programme in schools. In the first phase, the programme is being implemented in Raichur, Yadgir, Chikkaballapur, Chikkamagaluru, Haveri and Koppal districts.
- 23. English / Language Programme:** Karnataka Government has started English medium in 1000 KPS schools in the year 2019-20. Thus, a language cell was started to strengthen English language and English medium teachers. 1726 English medium (bilingual) schools were started in the year 2024-25. Total 4129 English medium (bilingual) sections are there in the State. The Govt. of Karnataka has started English Medium for 6th Standard in the year 2024-25. In the year 2023-24 out of 10477 teachers 8668 teachers have been trained. Currently 11243 teachers are trained in English language teaching.
- 24. E-Content - Digital Infrastructure for Knowledge Sharing (DIKSHA):** Digital Infrastructure for Knowledge Sharing (DIKSHA) is the 'One nation: One digital platform' for school education in India. DIKSHA portal and mobile app created by Ministry of Education is a storehouse of a large number of eBooks and e Contents created by States/UTs and National level organizations. The e-Textbooks of NCERT/ states and related e-Contents, mapped with QR Codes, are available on DIKSHA, which can be accessed at <https://diksha.gov.in/>. Registered Users on DIKSHA from Karnataka: 91,17,969. The State of Karnataka has created 37,796 digital contents and made them available on DIKSHA platform for the use of Students, Teachers and Parents. The State occupies the 1st place in terms of number of contents uploaded and number of plays on DIKSHA. Online Courses developed by Karnataka: No. of learning Sessions: 44.27 Crores (5th Place) Number of Learning Minutes: 525.15 crores (4th Place).
- 25. Technology Assisted Learning Programme (TALP)**
  1. The Technology Assisted Learning Program was implemented from 2016-17 with the objective of improving the teaching learning process in government high schools. The initiatives of the project

include providing teachers with information technology tools, training in the use of information technology facilities in schools, access to e-content.

2. The grant of Rs. 2,34,090/- has been approved under the 2023-24 teacher training program at AWP & B for conducting state-level TALP training. In this regard, a training session was organized at DSERT for 70 resource person from 17-01-2024 to 19-01-2024. An amount of Rs. 1,57,906/- was spent for this training.
3. The training familiarized participants with subject-specific pedagogical techniques. It included instruction on utilizing images, audio and video as effective instructional tools, as well as guidance on the use of spreadsheets and Management Information Systems (MIS).

**26. INSPIRE Awards –MANAK:** INSPIRE Award MANAK is an ambitious initiative of the Department of Science and Technology, Government of India. The initiative aims to encourage a culture of innovation and creative thinking by allowing school students to present ideas of current, social concern through projects.

1. Karnataka has the highest number of participants (39) in the country at the national level competitions organized in September-2024. 02 students won the national award in the said competition and a student from Udupi district won the bronze medal.
2. 03 students from Karnataka state has participated in the SAKURA program in May 2024 organized by Department of Science and Technology in Japan.
3. A total No of 1,13,112 students have submitted nominations from the state of Karnataka for the year 2023-24 and Karnataka was the second highest number of nominations at National Level.
4. 7445 students from Karnataka are selected for the award from the nominations submitted for the year 2023-24. District/State and National level competitions will be organized for these students in collaboration with Department of Science and Technology, Government of India and NIF Gujarat.
5. A total No of 1,05,613 nominations were submitted for the year 2024-25 and Karnataka is the third highest number of nominations at National level.

## 27. Atal Tinkering Lab

1. Central Government launched Atal Tinkering Lab program in 2016 under Niti Aayog and Atal Innovation Mission with the objective of inculcating creativity and scientific spirit among students.
2. Atal Tinkering Labs have been set up in a total of 798 schools in Karnataka, of which 283 labs are in government high schools.
3. In November 2024, 03 days training was given to Diet ATL Nodal Officers of all districts in collaboration with UNICEF and Samagra Shikshana Karnataka.
4. Various activities for strengthening of ATLs in 208 government high schools have been undertaken by UNICEF on hub and spoke model.
5. Videos prepared by UNICEF and VIGYAN ASHRAM and uploaded to Jnanadeepa You-TUBE Channel of DSERT for the use of ATAL Tinkering Lab schools.

**28. Loka Shikshana(ULLAS-Nav Bharat Saksharat Karykram):** The action plan for the target of 13,86,730 learners for the year 2024-25 was submitted to the central government. The action plan was discussed in the PAB meeting dated: 22.03.2024. Central share- Rs.1435.58 lakhs, State share- Rs. 957.05 lakhs, Total Rs. 2392.63 lakhs has been approved. It is expected that the first installment of Ullas-Nava Bharata

Literacy Program will be released by the Central Government for the year 2024-25. The survey work has already been done and the physical achievement of 556779 has been achieved.

## 29. Literacy Programme Progress of 2024-25

1. 1000 Gram Panchayat Literacy Programme an action plan has been approved 2022-23, 2023-24 Programme Target is 366667 is implementing this year. Survey work is in final stage, Primers printing procedure is in progress after completion of this process learning centres will be stating as per norms and conducting Evaluation work as per scheduled time. Financial target is Rs.28.00 cr, available grant Rs.12.31 cr, remaining grants expecting from Govt.
2. A physical target 13,86,730 has been set for the centrally sponsored ULLAS-New India Literacy Programme for the year 2024-25. So far 556779 illiterates have been identified through the survey. Registration of illiterates is in progress. Utilization will be carried out after release of stipulated grant and evaluation will be completed in March 2025.
3. Under the district Link Document Grant programme has a Physical target of 107171 in 33 educational districts of the state and a grant of Rs. 3.72 crore is to be utilized. The survey work is completed; identification of tutors and tutors training is in process for this programme. Evaluation work will be conducted as per scheduled time.

## 11.2.6 Karnataka School Examination And Assessment Board

### 1) Objectives

- a) Karnataka Secondary Education Examination Board came into existence in the year 1966 and got renamed as KARNATAKA SCHOOL EXAMINATION AND ASSESSMENT BOARD in the year 2022. It conducts examinations for class 10<sup>th</sup> and 12<sup>th</sup> of affiliated Schools and Junior Colleges. Examinations related to Karnataka Open School, Diploma in Education, Music, Commerce, etc are also conducted by the Board.
- b) The Board has its headquarters in Bangalore & Divisional offices in Bangalore, Belgaum, Kalaburagi and Mysore. The Divisional office of Bangalore division is also located in the head office at Malleshwaram, Bangalore.
- c) Every year, approximately 8.5 lakh students appear for the 10<sup>th</sup>-grade (SSLC) examinations conducted by the Board during March/April. For students who fail and wish to reattempt, a marks improvement system has been introduced, under which three examinations are conducted. Similar examination procedures are followed for the 12<sup>th</sup>-grade as well.
- d) The Chairman heads KARNATAKA SCHOOL EXAMINATION AND ASSESSMENT BOARD. The Examination wings of 10<sup>th</sup> and 12<sup>th</sup> Standards have separate Directorates. Subjects and procedures related to all the examinations are explained in the website <https://kseab/sslc.karnataka.gov.in>.
- e) Various steps have been initiated from the year 2017-18 to digitalize the whole examination process. Registration for the examination has become online and the same method is followed for downloading of admission tickets and the results. The Board has done away with the usage of OMRs for the purpose of communication of marks from evaluation centres and is instead, using online portal for the purpose. This has not only saved the time but also avoided possible wrong scanning in case of faulty shadings in OMRs. Results are conveyed to the students through SMS and web portal. Online services like issuing of Migration Certificate, Marks card Verification and Second/ Third/ Fourth copy of marks card/ Failed marks card of previous years, Photocopy, Retotaling &

Revaluation of answer scripts are made available under Pragathi-10 program. Students can also download the marks sheet using digi-Locker app.

**2) Budget Estimates and Expenditure for the SSLC and other examinations in 2023-24 and 2024-25 are as follows:**

In Rs.

| Sub-Headings       | Budget Estimate for 2023-24 | Expenditure                    | Budget Estimate for 2024-25 | Expenditure till 31.12.2024 |
|--------------------|-----------------------------|--------------------------------|-----------------------------|-----------------------------|
| SSLC Examination   | 73,15,00,000/-              | 65,61,69,197/-<br>(un Audited) | 84,39,50,000/-              | 71,683,440/-                |

### 11.2.8 Public Libraries

**1) Background:** Public Libraries Act has come into force since 1965 in Karnataka. Karnataka has been the third state in the country to come under Library Act. Under the act, a network of about One Thousand Three hundred and Thirty-five libraries have been functioning all over the State. Public Library is an institution established by the Government in order to inculcate interest in education, communication and reading among the General Public. It is an open public service system.

The main purpose of this system is to help people to develop interest in literature and culture. Public Library system serves as a dynamic force giving people knowledge, continuing education and information. "Public Libraries are people's university" It is a democratic institution working on democratic principles.

**2) Details of the Public Library Department:** The network of the libraries includes State Central Library at the state level, District Central Libraries at the District level and City Central Libraries at all places having a population of more than one lakh together with libraries at the Taluk, municipality levels. For the proper functioning of Public Libraries, the Library authorities are functioning throughout the state at state, City and District levels. Statistics of Karnataka Public Libraries details shown in **Appendix 11.7.**

#### 3) Types of Public Libraries

- a) **State Central Library:** It is an apex Public Library equipped with reference books and source books in all languages on all subjects. Book Registration, Computer, browsing section, Braille Books, career information, periodicals sections are some of the important sections of the library.
- b) **City Central Libraries:** Under the Karnataka Public Library Act, 1965 there are 27 City Central Libraries with branch libraries serving in the State. The Bangalore City Central Libraries have been bifurcated into 5 zones. Namely East, West, North, South and Central zones for the smooth administration. Out of 198 wards in Bangalore, 230 Branch Libraries are functioning and providing service to the public.
- c) **District Central Libraries:** There are 30 Districts Libraries in the State as per the section 16(1)(b) of Karnataka Public Libraries Act, 1965. Its branch Libraries are serving the Public. District Central library offices are there in all districts where City Central Libraries are functioning.
- d) **Mobile Libraries:** There are 04 mobile Libraries functioning, to inculcate the reading habit to the public at their own door steps in different parts of the City in the State. This has been accepted as a popular library service rendered by the Department.
- e) **Gram Panchayat Libraries:** Gram panchayat libraries are helping the rural people to acquire knowledge through books and to have continuous learning to make effective use of their time. A total

of 5766 Gram Panchayat Libraries are functioning in the rural areas in the state. As per Government Order No: ED 64 LIB 2015 Bangalore Date: 26-02-2020, out of 5766 Gram Panchayat Libraries, 5569 libraries have been transferred to the Department of Rural Development and Panchayat Raj.

- f) **Upgraded Gram panchayat :** 206 Upgraded Gram panchayat libraries under the jurisdiction of local bodies such as town Metropolitan Corporation, City Corporation, Town Municipalities and Pattana Panchayats are presently functioning under the Department of Public Libraries.
- g) **Indira Priyadarshini Children Library:** Indira Priyadarshini children Library is established in 1994 at Cubbon Park, Bangalore. There are separate Children sections maintained in many City and District Libraries which provides useful and entertaining books for the children.
- h) **Community Children Centres:** 31 Community Children centres are functioning in all the 30 districts in the state. In these centres children books, computer section, toys section for the entertainment has been arranged. The Interior section is decorated to attract the children. These centres will help in the overall development of the children.
- i) **Nomadic and Slum Libraries:** Under SCP, TSP scheme 127 libraries have been opened for the use of nomadic communities. These have been started in nomadic dwelling area in different districts of the State. Similarly, 100 libraries have been started in slum areas under this scheme and a proposal has been submitted to the government for establishing 70 nomadic libraries and the file is under the scrutiny by the government.
- j) **Library Training School:** Library Training Schools are functioning in Bangalore, Mangalore, Dharwad and Gulbarga cities to provide training in library science to untrained library employees. 80 candidates will be selected for each team. Refresher camps are arranged for the staff of the department from time to time and information is given on administrative and technical matters.
- k) **Raja Rammohun Roy Library Foundation:** Raja Rammohun Roy Library Foundation, Government of India, has helped to develop the library movement in rural areas. This has given a lot of encouragement to the movement of public libraries in Karnataka. Both the Government of Karnataka and the Foundation are implementing this project by allocating equal share of funds. Financial assistance is also being given to voluntary organizations providing public library services in the State.

- 4) **Building Details:** Branch Libraries, Service Centres, Reading Rooms are functioning in the Department of Public Library the Departmental Buildings of City and District Libraries are Functioning at Own, Rental and Free Buildings. The details are as follows:-

(During the period of 2021 -2022 to 2023 -24, sports meet not conducted)

**8) All India Survey on Higher Education (AISHE):** The Department of Technical Education is participating in this survey since 2010-11 by providing the necessary information (through online) to MHRD. The Department of Technical Education was the first department in the country to complete the 100% survey work in the inaugural AISHE (2010-11) program. During 2022-23 all technical institutes have filled the required formats of the survey.

**9) Information and Communication Technology Initiatives-ICTs:** ICTs contribute for universal access to education, equity in education, the delivery of quality learning and teaching, teachers' professional development and more efficient education management, governance and administration. Department takes a holistic and comprehensive approach for promoting ICTs in education in order to address the challenges in realizing the vision of higher education.

ICTs can help strengthen democratic and transparent education planning and management. Communications technologies can expand access to learning, improve quality and ensure inclusion. Where resources are scarce, judicious use of open-source materials through technologies can provide the means to bypass the bottleneck of textbook production, distribution and updating. Use of ICT can improve student achievement, extend access to technical education, increase efficiencies and reduce costs, prepare students for lifelong learning and train them as a global competitive workforce.

**10) Accreditation by National Board of Accreditation (NBA):** The Department of Technical Education (DTE) is taking up various quality improvement initiatives among them Accreditation is one of the major initiative both in terms of improving academic and infrastructural quality of the technical institutes. Accreditation is the continuous quality improvement process. Which ensures quality in teaching-learning process, self-evaluation, accountability and fulfils the expectations of its stakeholder viz., academicians, industries, statutory regulators, students and parents.

In this context, Department has introduced outcome based curriculum in all its Diploma Curriculum, pedagogical training to faculty and conducting various Accreditation-Workshops across the state to accredited all the programs of the Govt., institutions.

In first phase, 40 Programs of Govt. Polytechnics and 04 Programs of Govt. Engineering have been identified and concerned self-assessment reports were prepared. Further, 29 Govt., Institutes and 2 Engineering Colleges have been registered for NBA for evaluation of their selected programs. In this connection, all the selected institutes have been imparted rigorous training by means of conducting interactive workshops.

**11) Revamped Curriculum for Polytechnic Diploma Programs:** The Department of Technical Education has developed the new C\_20 Curriculum that is focused on job ready workforce and aligned to NSQF as well as international standards. DTE after extensive consultations with industry, academia, alumni and government, are implementing a new pathway driven curriculum, which provides opportunities for students to plan their career paths as they progress through their learning – leading them to choose from employment, entrepreneurship or higher education.

From the academic year 2020-21, DTE is offering new Diploma programs in emerging areas like Alternative Energy Technologies, Food Processing and Preservation, Travel & Tourism, Automation and Robotics, Cloud Computing and Big Data & Cyber Physical Systems and Security, EE & EVT and Gaming & Animation.

**12) Regional Ecosystem for Technical Excellence (RETE):** The RETE program aims to identify and develop selected institutions to serve as institutions of technical excellence in the state, ensuring that there is at least one such institution in each district. Institutions shall have clear vision, mission, governance and support to enable them meet educational objectives in delivering contemporary, quality teaching

and learning programs, industry relevant or partnered programs, research and innovation driven and developing state of the art infrastructure for incubation which are all key to ensure industry ready students, entrepreneurs and problem solvers for their district. RETE also envisions the creation of an ecosystem to enable multidisciplinary and holistic studies between institutions to develop a true Regional Ecosystem for Technical Excellence through joint programs, joint research and sharing resources within and beyond the ecosystem.

- 13) RETE Goals:** Defining the key goals for any program is crucial for its success and the key goals for the RETE institutes are;

| Benchmark            | Goal                                                                                                                                              | Timeline  |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Ranking              | NIRF All India Ranking with Top 100                                                                                                               | 3 Years   |
|                      | QS/THE Global Ranking                                                                                                                             | 5 Years   |
| Research             | Applied research in partnership with industry in an emerging technology priority area of study as identified in the Engineering R & D Policy 2020 | 3 Years   |
|                      | Centre of Excellence in partnership with industry or institute of national importance in at least one knowledge domain                            | 5 Years   |
| District Development | 10 Projects                                                                                                                                       | Each Year |
| Entrepreneurship     | 25 incubatees                                                                                                                                     | Each Year |
| Placements           | 100 %                                                                                                                                             | 5 Years   |
| Internationalisation | 50 International Students                                                                                                                         | 5 Years   |

**14) DTE-e- Studio Channel**

- To organize VC with Hon'ble Higher Education Ministers, Hon'ble Principal Secretary, Hon'ble Commissioners, Hon'ble Directors and Hon'ble Joint Directors to interact and give advice to all officers and staff of the Department.
- Administrative material transmission and material collection will be done through e-Studio to Principals and Lecturers of Engineering, Polytechnic and JTS as per requirement.
- Admission process of students through Video Conference, transfer of lecturers through counselling, Career Guidance program for Polytechnic and Engineering students, Outstanding AG Paras, Institution Development Plan (IDP) Program, being done and e-Office, e-par, IPGRS and other software related trainings will be given to office officials and arrangements will be made to train the staff.

- 15) Revision of Syllabus:** The process is underway to revise the syllabus of all 33 diploma and 2 post diploma programs and 4 subjects of Junior Technical Schools. Which are revised to latest needs of the industry, skill based and made employment oriented from the year 2020-21.

- 16) Integrated Karnataka Learning Management System:** For the first time in the country, a student-friendly integrated learning management system has been implemented to increase the learning ability of students in order to develop more skills in studying and studying polytechnic, diploma and engineering. Students are enabled to use a comprehensive learning management system through a free tab.

- 17) "Karnataka institute of Technology(KIT)" on IIT pattern:** In 2022-23 announced the special programme to promote the highest quality technical teaching-learning and research in the following 07 Government Engineering Colleges of the State on IIT model "Karnataka institute of Technology(KIT)" identified for up gradation.

| Name of the Colleges                                             | Region            |
|------------------------------------------------------------------|-------------------|
| Government Engineering College, Hassan                           | Mysore            |
| SKSJIT, Bangalore Bangalore                                      | Bangalore         |
| Government Engineering College, Haveri                           | Kittur Karnataka  |
| Government Engineering College, K.R. Downtown                    | Mysore            |
| Government Engineering College, Ramanagara                       | Bangalore         |
| Government Engineering College, Talakal, KoppalKalyana Karnataka | Kalyana Karnataka |
| Government Engineering College, Karwar                           | Coastal Karnataka |

- 18) Implementation of Comprehensive Karnataka Learning Management System:** Department implemented the Karnataka LMS, to enable students to learn from anywhere, anytime. Students are now enrolled into a learning system that helps to assess themselves continuously and seek corrective action to ensure just in time learning and correction. Polytechnics are now equipped with Smart classrooms to facilitate digital learning classrooms. Further, students are provided with tablet PCs to enable online learning.
- 19) Integrated Twinning Program by the Department of Collegiate and Technical Education in partnership with Montgomery County Community College's, Pennsylvania, USA:** The department of Collegiate and Technical Education (DCTE), has been working on revamping of its Diploma Curriculum to align it to global standards to enable both global learning and employment as envisioned by the Hon. Prime Minister of India. India has the potential to be the global provider of skilled workforce to industry and Karnataka aspires to be the lead provider of highly skilled workforce. To realise this vision, the Department of Collegiate and Technical Education has launched its first partnership for offering an integrated twinning program leading to the award of an Associate Degree from Montgomery County Community College (MCCC), Pennsylvania, USA. This twinning program shall be offered at the Sri Jayachamarajendra (Govt.) Polytechnic in Tourism and Hospitality starting this academic year of 2021-22.
- 20) DTE-Bangalore Chamber of Industry and Commerce Partnership:** Industry-Academia partnership is key to ensure success of both, as without educated and skilled manpower industry cannot sustain and without industry nobody will hire the students in academia. Department of Technical Education and the Bangalore Chamber of Commerce and Industry (BCIC) have signed MoU, which will enable all Polytechnics across Karnataka to produce job ready students no just as employees but entrepreneurs as well. Some of the salient features of this partnership include;
- Establishing of the DTE-BCIC Case Centre, that will help DTE students learn from real world case studies in the classrooms;
  - Endorsement of the new Diploma Curriculum by all members of BCIC, that it is relevant and shall produce job ready students needed by the industry;
  - Building a joint online portal for seamless offering of interne ships, industry visits, projects and placements for diploma students across Karnataka;
  - Jointly running a campaign for BCIC members to support the upgrading of laboratory infrastructure across polytechnics in Karnataka and also provide training to maintain the equipment to industry standards;
  - Train our faculty in the latest subjects, topics and tools to ensure the teaching is on par with industry training; and
  - Offer scheduled, periodic industry lectures, talks and courses through the Karnataka LMS.

**21) Help educate-An initiative by DCTE –MoU with Infosys:** The Department of Collegiate and Technical Education (DCTE) is working with industry to revolutionize education in Karnataka. DCTE has partnered with leading industries in revamping curriculum, placement, faculty training etc. As a testimony to the power of Industry academia collaboration in bringing about meaningful social changes the Department of Collegiate and Technical Education, The Infosys Ltd Bangalore and Rotary India have come together to make a difference in the learning of students of Government Engineering and Polytechnic colleges across Karnataka, most of whom hail from socio-economically marginalized background.

**22) Partnership with Infosys Limited:** India has the potential to be the global provide of skilled workforce to industry and Karnataka aspires to be the lead provider of highly skilled workforce. To realize this vision, the Department of Collegiate and Technical Education is happy to announce its partnership with Infosys Limited.

The key points of the MoU with Infosys are:

- Utilizing the Infosys Springboard Platform for faculty and student training.
- Faculty Enablement Program
- 15,000 de-bonded Computer Donation

**23) Scholarship:** The Students admitted for various engineering courses by the Karnataka Examination Authority through the CET are being provided the scholarship under the following schemes.

- 1) Scheduled Caste (Special Component Plan) – Reimbursement of Fee:** The SC students selected for engineering degree and PG degree courses through CET, COMED-K, Deemed University, PG CET and Offline Entrance Examinations (whose annual family income between Rs. 2.5 lakhs to Rs. 10.00 lakhs) will be awarded this scholarship from the first semester until end of the course.
- 2) Scheduled Tribe (Scheduled Tribe Plan) – Reimbursement of Fee:** The ST students selected for engineering degree and PG degree courses through CET, Comed-K, Deemed University, PG CET and Offline Entrance Examinations (whose annual family income between Rs. 2.5 lakhs to Rs. 10.00 lakhs) will be awarded this scholarship from the first semester until end of the course.

#### Reimbursement of Fee during last 6 years

| Year    | SC – Students |                      | ST – Students |                      |
|---------|---------------|----------------------|---------------|----------------------|
|         | Numbers       | Total (Rs. In Lakhs) | Numbers       | Total (Rs. In Lakhs) |
| 2019-20 | 2826          | 1322.06              | 933           | 459.62               |
| 2020-21 | 3040          | 1578.45              | 1012          | 534.36               |
| 2021-22 | 1636          | 799.99               | 618           | 315.57               |
| 2022-23 | 1651          | 799.97               | 747           | 399.98               |
| 2023-24 | 1507          | 799.69               | 670           | 399.92               |
| 2024-25 | 1441          | 899.80               | 645           | 414.66               |

- 3) Defense force - scholarship:** Students/dependents selected for engineering courses through CET from the family of Defense Forces (Army, Navy and Air Force) will be awarded this scholarship from the first semester until end of the course for four years.

During 2024-25 total 311 students have been disbursed an amount of Rs. 197.96 lakhs.

- 4) Merit Award (Free Fee) prathibha Purskar:** students of below poverty line (BPL) family with 80% marks in the PUC-II and who admitted for engineering courses through CET will be awarded this scholarship from the first semester until end of the course for four years.

During 2024-25 total 402 students have been disbursed an amount of Rs. 225.46 lakhs.

- 5) **Scholarship and free education to the students who are affected with HIV/Leprosy or HIV/Leprosy infected parents** : This Scholarship program for the students whose parents suffering from HIV/ Leprosy has been launched by the government where, eligible students receive scholarship and free education for higher studies. This scheme is applicable for students studying in govt. /Aided/ Pvt. Institutes. Free higher education to suicided farmers children studying in polytechnics and engineering colleges.
- 6) **Stipend for Govt. Junior Technical Schools:** Disciple pay of Rs. 2,500/- per head is given to the students studying in 8th, 9th and 10th standard in Government Junior Technical Schools under Department of Technical Education.

During 2024-25 total 426 students have been disbursed an Amount of Rs. 10.65 lakhs.

#### 24) Apprentice Training Section

- To Conduct Centralized Apprenticeship Training Programs for technical institutions coming under DTE by Apprentice Training Board, Chennai, which conducts Central Apprentice Melas.
- Selection of program and payment of stipends for the pupils who have passed in Diploma/BE.
- Industry interaction for ensuring participation of various industries in the ATS programs and providing list of eligible students to them.
- Apart from this student can also apply online via websites viz., <https://www.mhrdnats.gov.in> or <https://www.boat-srp.com>

#### Objective

As per the Govt. Apprenticeship Act 1973 (amended) and 1986 the State Govt./Central Govt./Private Companies will impart training to specific number of students for duration of one year. The objective of the scheme is to provide a connection between the technical institutes and industries, to improve the technical-know-how and to introduce the students to all fields of the industry.

| Period        | One Year                                                                                                                                                                          |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eligibility   | Pass in BE or Diploma. Candidate should not have had any training /work experience. The candidate should not have exceeded more than three years after passing the above courses. |
| Stipend       | (a) B.E-Degree Holders-Monthly Stipend Rs.9000/- is being paid.                                                                                                                   |
|               | (b) Diploma Holders-Monthly StipendRs.8000/- is being paid.                                                                                                                       |
| Certification | The certificate will be issued after successful completion of one year apprenticeship training by the BOAT, Chennai.                                                              |

- 25) **Name of the Participating Companies:** Bharath Electronics, Hindustan Aeronautics, Indian Space Research Organization, Bharath Heavy Electricals Limited, Bharath Earth Movers Limited, L&T, BBMP, SRTC, PWD, KEB, Vikranat/JK Tyre, Skypro Technologies, Wipro etc. Apart from this above mentioned companies do call for apprenticeship directly or through their websites.

### ATS Training Programs for the last 7 Years

| Year    | BE Graduates | Diploma Holders | Non-Engg | Total Students selected |
|---------|--------------|-----------------|----------|-------------------------|
| 2018-19 | 4478         | 3261            |          | 7739                    |
| 2019-20 | 3342         | 2496            |          | 5838                    |
| 2020-21 | 2705         | 1644            |          | 4349                    |
| 2021-22 | 3295         | 1978            |          | 5273                    |
| 2022-23 | 7193         | 2419            | 678      | 10290                   |
| 2023-24 | 8672         | 3124            | 3202     | 14998                   |
| 2024-25 | 9338         | 2471            | 4770     | 16579                   |

The above data is obtained from the <http://portal.mhrdnats.gov.in/annual-report>

D-Diploma in Engineering

### 11.2.12 Collegiate Education

Department of Collegiate Education was established in the year 1960. Department of Collegiate Education oversees the administration of 411 Government First Grade Colleges, 12 Government Residential First Grade Colleges, 02 Government Fine Arts colleges, 03 Government Sanskrit Colleges and 320 Private Aided Degree colleges, 53 Private Aided B.Ed colleges, 27 Private Aided Law colleges, 23 Private Aided Fine Arts colleges through 6 Regional Joint Directors' Offices located at Bangalore, Mysore, Mangalore, Shivamogga, Dharwad and Kalaburagi.

#### 1) Progress

1. **Permission to start New Courses:** Recent Advances in Science and Technology have been at the root of the emergence of several new subjects, courses and branches of study in each discipline and pertinent requests were being made for several years by students and public alike to commence these in Government First Grade Colleges. This significant matter which remained undecided for the past 4 years was taken up seriously by the student-friendly State Government and granted permission to start 77 new courses in 47 Government First Grade Colleges from the academic year 2023-24. Accordingly, these courses are being offered in these colleges from the present academic year.

2. **Recruitment:** The recruitment for 1242 posts out of 1842 vacant posts of Assistant Professors in the Government First Grade Colleges of the state is in progress and document verification is being carried out.

The recruitment for 232 posts of First and Second Division Assistants through Karnataka Public Service Commission is in the final stages and Appointment Orders have been issued to 176 candidates. Common Admission Tests have been conducted through Karnataka Examination Authority for filling up 310 posts out of 410 vacant posts of principals at the Government First Grade Colleges of the state. The final selection list of candidates is expected to be released by the Karnataka Examination Authority shortly.

3. **NAAC Accreditation:** NAAC Accreditation is a major yardstick for measuring the overall performance of Higher Education Institutions and a total of 332 Government First Grade Colleges have obtained NAAC accreditation so far. 17 Government First Grade Colleges have undergone NAAC Accreditation process and have obtained good NAAC grades for the period May 2023- November 2023.
4. **Career Advancement:** Placements have been given to 218 Assistant professors/Librarians/ Physical Education Directors of Government First Grade Colleges from Academic levels- 10 to 11, 11 to 12, 12 to 13A under Career Advancement Scheme. 21 Associate professors have been placed in the Post of Professors i.e., have obtained career Advancement from Academic level 14 from 13.
5. **Training:** 644 teachers and 144 non-teaching Staff of the Department participated in the Continuous Wholistic Training Programmes and relevant Training Programs respectively, conducted Online and Offline by the Higher Education Academy, Dharwad. 185 Drawing and Disbursing Officers attended various short term programmes/Workshops conducted by the Fiscal Policy Institute. Life Skills Training was imparted to 270 teachers of Government First Grade Colleges under a collaborative programme of the National Service Scheme State Cell and NIMHANS.
6. **Transfers:** Transfers of the Staff of the Department has been effected as per Rules through Online Counselling and 759 staff including Teaching Staff/Librarians/ Physical Education Directors have been transferred by this method since May 2023.

7. **Karnataka Yuvanidhi Scheme:** Action has been taken for offering an Unemployment Allowance of Rs.1500 per month to the youth who have passed Degree examination during the academic year 2022-23 but have not got employment for 180 days from the date of passing the Degree Exam, uploading the marks cards of such youth onto NAD is under progress.
8. **Telegram and YouTube Channels:** Guidance for competitive exams and career guidance is being offered to students through the following channels of the Department:
  - a) **Vijayi-Bhava Telegram Channel:** A Telegram Channel was started by the Department for boosting the confidence of the youth of the state preparing for competitive exams by providing Pdf notes and conducting a model test every Sunday. At present 75,000 aspirants have subscribed to the channel and study material exceeding 2000 pages has been provided and 23 tests have been conducted. More than 3.5 lakh youth have participated in the tests.
  - b) **Vijaya-Patha YouTube Channel:** This Channel was started by the Department in July 2023 to provide online coaching to Youth by focusing exclusively on Central Government Jobs. At present 97,000 aspirants have subscribed to this channel and study material exceeding 2000 pages has been provided and 104 video classes have been uploaded. This channel has secured 33 lakh views.
  - c) **Vijayi-Bhava YouTube Channel:** This Channel was started by the Department to impart online coaching to Youth by focusing exclusively on State Government Jobs. 65,000 aspirants have subscribed to this channel during the period June 23-November 23 and 124 video classes have been uploaded. This channel has secured 65 lakh views.

## 2) Innovation, Best Practices and Success Stories

- a) **Digital Learning:** Novel Technology based teaching-learning has been implemented through Karnataka Comprehensive learning management System and Smart Classrooms under the 'Digital Learning Scheme' in Government First Grade Colleges and most students of Government First Grade Colleges who hail from rural and socio-economically marginalized backgrounds have benefitted from this scheme.
- b) **Telegram and YouTube Channels:** Guidance for Higher Studies, National and State-level competitive examinations and Career guidance is given to the students of Government First Grade Colleges, free of cost, through Telegram and YouTube Channels of the Department. Lakhs of students are benefiting from this measure.

## 3) Way Forward

- a) To improve the Gross Enrolment ratio (GER) of Government First Grade Colleges.
- b) To improve the basic infrastructure of Government First Grade Colleges.
- c) To identify and introduce market-driven courses in Government First Grade Colleges.
- d) To enhance the employability of students of Government First Grade Colleges by imparting training in conversational English.
- e) To assist students, build a bright future through Job-oriented and Job skills training programs.
- f) To strengthen the Placement Cells in Colleges.

## a) Institutions

Table 11.17: Institutions for graduate education 2022-23

| Management             | Govt.  | Pvt.Aided | Pvt.Unaided | Total   |
|------------------------|--------|-----------|-------------|---------|
| Institutions           | 430    | 423       | -           | 853     |
| Students               | 397098 | 290000    | -           | 687098  |
| Avg.pep College (Nos.) | 923.48 | 685.58    | -           | 1609.06 |

The average strength in Government and Aided Degree Colleges is 923.48 and 685.58 respectively. The details of spread of government sector Degrees colleges across the state are given in below.

Table 11.18: Details of Govt. sector Degree Colleges

| Region         | Bangalore | Mysore | Shivamogga | Mangalore | Dharwad | Gulbarga | Total |
|----------------|-----------|--------|------------|-----------|---------|----------|-------|
| Number         | 168       | 125    | 101        | 76        | 241     | 142      | 853   |
| Proportion     | 19.70     | 14.65  | 11.84      | 8.91      | 28.25   | 16.65    | 100   |
| Revenue Blocks | 32        | 26     | 27         | 11        | 49      | 31       | 176   |

## b) Enrolments: Analysis of student enrolment data from Government and Private-Aided First Grade Colleges is as follows.

Table 11.19: Growth of Enrolments in Degree colleges

| Year    | Boys     | % growth | Girls    | % growth | Total    | % growth | M:F Ratio |
|---------|----------|----------|----------|----------|----------|----------|-----------|
| 2012-13 | 229681   | 1.28     | 235471   | 0.07     | 465152   | 0.66     | 49:51     |
| 2013-14 | 247140   | 7.60     | 282867   | 20.13    | 530007   | 13.94    | 47:53     |
| 2014-15 | 251078   | 1.59     | 283986   | 0.40     | 535064   | 0.95     | 47:53     |

| 2018-19 | 214625   | 6.38     | 292386   | 2.58     | 506531   | 4.05     | 42:58     |
| 2019-20 | 222784   | 3.80     | 293123   | 0.25     | 515907   | 1.85     | 43:57     |
| 2020-21 | 237891   | 6.78     | 336170   | 14.69    | 574061   | 11.27    | 41:59     |
| 2021-22 | 249880   | 5.04     | 339825   | 1.09     | 589705   | 2.73     | 42:58     |
| 2022-23 | 253770   | 1.56     | 341425   | 0.47     | 595195   | 0.93     | 42:59     |
| 2023-24 | 2,65,189 | 4.55     | 3,60,544 | 5.60     | 6,25,733 | 1.05     | 43.60     |
| 2024-25 | 2,72,132 | 4.65     | 3,80,564 | 6.20     | 6,52,696 | 1.23     | 44.62     |

Enrolment for degree courses are increasing every year. The male-female students' ratio is in favour of girls.

Table 11.20: Enrolments across courses (2024-25)

| Courses            | BA<br>(BA & BSW) | B.Sc<br>(B.Sc & BCA) | B.COM<br>(B.COM & BBM) | B.Ed  | Law    | Fine Arts | Total  |
|--------------------|------------------|----------------------|------------------------|-------|--------|-----------|--------|
| Number of Students | 2,28,837         | 70,802               | 3,51,602               | 6,711 | 13,714 | 1351      | 673017 |
| Percentage         | 34.00            | 10.52                | 52.24                  | 0.99  | 2.03   | 0.20      | 100    |

The student enrolment to science stream is lower in comparison with the total enrolment in Higher Education. Students who have studied Arts and Commerce in Pre-university classes naturally get admitted to Degree Courses. But students who have studied Science in Pre-university classes seek admission to Professional courses on priority and then to Degree Courses, as a result of which total enrolment in the Science stream is low.

The total budget for Collegiate Education increased from Rs. 56415.59 Lakhs in 2013-14 to Rs. 319149.56 Lakhs in 2022-23. The major share of the increase in the amount of budget allocation was towards creating additional infrastructure and facilities required for colleges. The SC/ST students enrolment in Degree College is given in below.

**Table 11.21: SC/ST Students Enrolment for Academic year (2024-25)**

| 2023-24 No.         | No. of SC Students |        |        | No. of ST Students |        |       |
|---------------------|--------------------|--------|--------|--------------------|--------|-------|
|                     | Male               | Female | Total  | Male               | Female | Total |
| Govt Colleges       | 52,629             | 49,385 | 102014 | 14077              | 14633  | 28710 |
| Pvt. Aided Colleges | 20190              | 17905  | 38095  | 6707               | 6265   | 12972 |

- c) **National Education Policy (NEP-2020):** Government of India implemented the National Education Policy in the year 2020, following which Karnataka Government issued an order to implement the New Education Policy in Universities and affiliated Colleges under the Department of Higher Education from the Academic year 2021-22. Complying with this order, National Education Policy-2020 is being implemented in all Government First Grade Colleges of the state.
- d) **Fees:** From the academic year 2022-23; The Department has issued orders to utilise the fees collected from students for improving the infrastructure of respective colleges with the approval of the Commissioner, DCTE, Bangalore.
- e) **Training:** Induction and in-service Training programs are conducted at the Higher Education Academy, Dharwad for the faculty of Government First Grade Colleges. 459 Assistant Professors have undergone Faculty Induction Programme in 8 batches during the academic year 2022-23, in both Online and Offline mode.

19 Grade A/Grade B Officers/Staff of the Department have undergone Administrative Training in 3 batches at Administrative Training Institute, Mysore during the academic year 2022-23, 181 Group C Staff have undergone District Training Programme in 7 batches at District Training Institute, Bangalore during the academic year 2022-23, Around 253 teachers and 1351 students belonging to Government/Private Aided First Grade Colleges have undergone training provided by Bharat Scouts and Guides and Rovers and Rangers Unit.

During the academic year 2022-23, 136 Assistant/Associate Professors have undergone Life Skills Training Programme conducted jointly by Department of Epidemiology, NIMHANS, Bangalore and NSS state unit.

- f) **Smart Class Rooms:** 6500 class rooms of Government First Grade Colleges, Government Polytechnics and Government Engineering Colleges are being upgraded into Smart Class Rooms at an expense of Rs.97.50cr during the academic year 2022-23. Every Smart Class Rooms will be provided with Projector, White Board, U.P.S and High-speed internet facility. Smart Class Rooms complement the Karnataka LMS initiative and are a great help in improving the classroom teaching.

- g) **NAAC:** The apex Quality Assurance Agency of the country, NAAC has practiced the philosophy of being an 'enabling organization', to achieve the desired quality consciousness for global competence among Higher Education Institutions (HEIs).
- h) **Three-Tier Quality Assurance Structure**
1. National level – National Assessment & Accreditation Council (NAAC)
  2. State-level – State Quality Assurance Cell (SQAC)
  3. Institution level – Internal Quality Assurance Cell (IQAC)
- i) **State Quality Assurance Cell (SQAC):** State Quality Assurance Cell (SQAC) is a cell monitored by the Commissioner of Collegiate Education. The SQAC will guide and coordinate the work of the Internal Quality Assurance Cell (IQAC) of Colleges to achieve the desired quality in higher education and also to obtain good grades in the National Assessment and Accreditation Council (NAAC) A&A process. The role of SQAC starts with the allocation of funds to colleges for annual IQAC activities and the NAAC A&A process, monitoring the functions of IQACs, assisting in the documentation of IQAC as per the NAAC requirements at the college level. SQAC will also coordinate with NAAC to assist the colleges with the required information which is necessary for the process. Vision: "To enhance quality initiatives of Government First Grade Colleges in Karnataka".

### New initiatives

1. SQAC has redesigned an Institutional Academic Calendar for Government First Grade Colleges in accordance with the NAAC manual, through which Colleges will enhance the quality in the delivery of education.
2. SQAC has redesigned Stakeholder feedback Google forms as per Criteria-1 of NAAC manual.
3. Prepared Criterion wise SOP for New Revised Manual.
4. Conducted online and offline workshops to handhold GFGCs on IIQA, SSR, DVV and PTV preparations.
5. SQAC has conducted online and offline review meetings to review the NAAC preparedness of the colleges.
6. SQAC visited the Colleges to overview the NAAC preparations.
7. SQAC has monitored colleges in obtaining 2f & 12b status.
8. College website updates monitoring.
9. Guidelines are issued to special officers to monitor, guide and evaluate the preparedness of NAAC going colleges.
10. The total allotted in the budget is Rs.140 lakhs. In that Rs 70.00 lakh is released under 1st and 2nd instalment from Government for NAAC Accreditation and Reaccreditation process. SQAC has released the amount to 16 colleges, Rs 3,74,500 to each college for IIQA submission fee, SSR fee, Logistic, and Peer team visit. Under the 3rd installment of Rs. 35 Lakh 57 colleges are listed for fund release.
11. SQAC extended support to 240 GFGCs in getting better grades in NAAC A & A Process.
12. For colleges pre-qualified in DVV Mock peer team visit was organized.

### 11.3 WELFARE OF SCHEDULED CASTES

The Government of Karnataka is striving to achieve faster, sustainable, and more inclusive growth, with a particular focus on improving the capabilities and productive endowments of the economically disadvantaged and socially marginalized sections of the State. To achieve this, the Social Welfare Department and development corporations of the State are implementing a range of programs designed to promote the welfare of SCs, STs, BCs, and Minorities, and thereby place them on the path of mainstream of development. Notably, the SC population has increased from 0.86 crores during the 2001 census to 1.05 crores in the 2011 census, and the ST population has similarly increased from 0.35 crores during the 2001 census to 0.42 crores in the 2011 census. As per the projected population for the year 2024, the SC population is 1.39 crores and ST population is 0.58 crores. District wise population of SC/ST as per the census 2001, 2011 and projected for the year 2024 is given in **Appendix 11.11**.

#### Department of Social Welfare

The Department of Social Welfare implements various Programs and Schemes for the upliftment of Scheduled Castes. Department aims to empower scheduled castes and ensure protection of their constitutional rights. During the year 2024-25, an amount of Rs.5125.32crores has been allocated, of which Rs.3984.16 crore has been released and expenditure incurred up to end of January 2025 is Rs.3039.19 crores.

Details of various Schemes implemented by the department are mentioned below:

#### i) Pre-matric Scholarships

Pre-matric scholarship is a significant scheme, introduced to encourage children belonging to SC households, with annual family income less than Rs.6.00 lakhs to continue their school education. Pre-Matric scholarship is sanctioned annually at the rates mentioned below:-

| Class / Standard | Boys    | Girls   |
|------------------|---------|---------|
| 1 – 5            | Rs.1000 | Rs.1100 |
| 6 – 7            | Rs.1150 | Rs.1250 |
| 8                | Rs.1250 | Rs.1350 |

The scholarship for 9th and 10th standard students with annual family income of less than Rs.2.50 lakhs, is sanctioned by the Central Government. Rs.3,500 for Day Scholars and Rs.7,000 for Hostellers is being provided. During the year 2024-25 up to the end of December 2024, an amount of Rs.10245.00 lakhs has been spent providing scholarship to 6.91 lakh students.

#### ii) Post-matric Scholarships:

Post-matric scholarships include day scholarships, compulsory fees for educational institutions, and maintenance costs for hostel students. The post matric scholarship is directly debited to the bank account of students whose annual family income is less than Rs.2.50 lakhs. During the year 2024-25 up to the end of December 2024, an amount of Rs.23000.00 lakhs has been spent providing scholarship to 2.38 lakh students.

#### iii) Prize Money to Meritorious Students

The main objective of this scheme is to reward talented Scheduled Caste students and to encourage them to continue their education. Under this Scheme, the prize money is awarded to Scheduled Caste students who have passed first class in the SSLC and Post-Matric Courses in the first attempt. The financial incentive of Rs.7000/- to Rs. 35,000/- is awarded under this scheme. In addition, students securing 1<sup>st</sup> to 5<sup>th</sup> rank in

universities are awarded Rs.50,000/-. During the year 2024-25 up to the end of December 2024, an amount of Rs.7205.00 lakhs has been spent for providing prize money to 56662 students.

#### **iv) Dr. B.R. Ambedkar Overseas Scholarship for students studying in foreign universities**

Under this scheme, financial assistance is provided to those who pursue post graduate and PhD at reputed foreign universities/institutions approved by the government. Selected candidates with an annual family income of Rs.8.00 lakhs are paid/reimbursed 100% tuition and other fees. 50% of the cost is reimbursed to beneficiaries with an annual income limit of Rs 8.00 lakhs to Rs.15.00 lakhs. Further, 33% of the cost is reimbursed to beneficiaries with an annual income of Rs.15.00 lakhs to Rs.25.00 lakhs. During the year 2024-25 up to the end of December 2024, an amount of Rs.1500.00 lakhs has been spent for providing overseas scholarships to 189 students.

#### **v) Indira Gandhi Professional Development Institute**

Pre-examination training is imparted for various competitive exams such as UPSC/KAS/ Group-C/SSC/RRB & Banking examinations, at free of cost in prestigious coaching institutes of New Delhi, Hyderabad and various State level institutions. Candidates selected for the training will receive tuition fees and scholarship. During the year 2024-25 up to the end of December 2024, an amount of Rs.2500.00 lakhs has been spent for providing training to 3982 students.

#### **vi) Dr. B.R. Ambedkar Post-Metric Hostels**

There are 713 post-metric hostels to encourage SC students to pursue their higher education at college level. During the year 2024-25 up to the end of December 2024, for the maintenance of these hostels, the Government has incurred an expenditure of Rs.18779.00 lakhs benefitting 1.17 lakh students.

#### **vii) Dr. B.R. Ambedkar Pre-metric Hostels**

There are 1231 Pre-metric Hostels. Students staying in hostels from 5<sup>th</sup> to 10<sup>th</sup> grade will be provided with meals, books, toothpaste, uniforms, beds, shoes, etc., During the year 2024-25 up to the end of December 2024, for the maintenance of these hostels, the Government has incurred expenditure of Rs.33342.00 lakhs benefitting 1.25 lakh students.

#### **viii) Construction of Hostel Buildings**

Pre-metric and post-metric hostel buildings for students belonging to the SC community are constructed. During the year 2023-24, an amount of Rs.30,000.00 lakhs had been spent to construct 234 hostels. During the year 2024-25, Rs.13,475.00 lakhs has been spent up to the end of December 2024 and the construction of hostels is under progress.

#### **ix) KREIS Residential Schools**

The Department of Social Welfare has set up Karnataka Residential Education Institutions Society (KREIS), to provide quality residential education to students from 6<sup>th</sup> to 10<sup>th</sup> standard. Totally, 503 residential schools are run by the KREIS under Social Welfare Department. 47 schools have been upgraded to offer PUC Education at the KREIS schools.

Along with academic classes, these residential schools are providing students with facilities such as meals, stationery and books, uniforms, shoes, socks, tie-belts, bedding, oil, soap and medical facilities. During the year 2024-25 up to the end of December 2024, an amount of Rs.66495.00 lakhs has been spent for 1.25 lakh students under Morarji Desai Residential Schools and Rs.32500.00 lakhs has been spent and construction of KREIS residential schools is in progress.

**x) Assistance to Grant-in-aid Hostels**

The voluntary organisations running 152 pre-matric Grant-in aid hostels are provided financial assistance to meet boarding charges of the students studying in these hostels. During the year 2024-25 up to the end of December 2024, an amount of Rs.337.00 lakhs has been spent for 7916 students.

**xi) Dr. B.R. Ambedkar Residential Schools**

The Social Welfare Department is running 68 residential schools to provide quality education to students studying from class 1<sup>st</sup> to 5<sup>th</sup>. Food, books, uniforms, beds, Suchi kits, medical facility etc., are being provided to the children studying in residential schools.

**xii) Compensation to SC/ST Atrocity Victims**

Atrocity cases against SC/ST by the non-SC/ST are registered under the Prevention of Atrocity Act 1989. The District Administrator is in-charge of initiating measures for immediate relief, to provide compensation and rehabilitate the victims of atrocity. During the year 2024-25 up to the end of December 2024, an amount of Rs.2500.00 lakhs have been spent for 3069 victims.

**xiii) Scheduled Caste Sub-Plan (SCSP)****Interest Subsidy Scheme for Scheduled Caste Entrepreneurs**

The Social Welfare Department provides interest subsidy for Scheduled Caste entrepreneurs who are availing business loans of Rs.10.00 lakhs to Rs.10.00 crores from KSFC/ Nationalized / DCC Banks. ##### **III. Land Purchase Scheme**

The scheme was launched during 1990-91 to make the landless agricultural labourers as land holders by purchasing lands from non-SC/ST land holders. Under this scheme, 2 acres of dry land or 1 acre of wet land will be distributed to the beneficiaries. The unit cost fixed is Rs.25.00 lakhs, for 5 districts (Bangalore urban, Bangaluru Rural, Chikkaballapura, Ramanagar and Kolar) and Rs.20.00 lakhs for the remaining 26 districts. Under this scheme, 50% will be subsidy and 50% as term loan with 6% interest rate which has to be repaid in 10 annual equal instalments. The lands will be registered in the name of women beneficiary of the family. During the year 2024-25 up to end of December 2024 Rs.526.00 lakhs has been spent for 39 beneficiaries.

## IV. Ganga-Kalyana Scheme

### A. Community Irrigation/Lift Irrigation Scheme

Under this scheme, a group of 8 to 15 acres of land belonging to SC land holders will be provided irrigation facility at free of cost by lifting water from the perennial rivers, streams, etc. The unit cost fixed to provide irrigation facilities for 8 to 15 acres of land is Rs.9.00 lakhs.

### B. Individual Irrigation Bore-well Scheme

Individual Irrigation bore wells along with pump sets will be provided to small and marginal SC farmers. The unit cost of the scheme is Rs.3.50 lakhs and subsidy will be Rs.3.00 lakhs. For 6 districts Bengaluru Urban, Bengaluru Rural, Ramanagar, Kolar, Chikkaballapura, and Tumkur District, the unit cost is revised to Rs.4.50 lakhs and subsidy is increased to 4.00 lakhs. The remaining Rs.50,000/- will be term loan from Share capital, Rs.50,000/- for each bore well is provided under the SCSP pooled funds to ESCOMS for energisation of irrigation bore wells drilled by the Corporation. During the year 2024-25, up to end of December 2024 an amount of Rs.3848.00 lakhs has been spent for 1480 irrigation bore wells.

## V. Micro Credit Scheme (Prerana)

Under this scheme, the beneficiaries of semi-urban and urban areas are assisted to start their own small business activities. The unit cost is Rs.25,000/-, of which Rs.15,000 will be subsidy and Rs.10,000 is loan. During the year 2024-25, up to end of December 2024, Rs.68.00 lakhs have been spent for 273 beneficiaries.

### 11.3.2 Karnataka Bhovi Development Corporation (KBDC)

The Corporation is implementing several programmes for economic upliftment of SC Bhovi communities. During the year 2024-25 up to end of December 2024, an amount of Rs.355.00 lakhs has been spent for 616 beneficiaries under Self-employment Programme, Rs.92.00 lakhs has been spent for 67 beneficiaries under I.S.B (Industries service and Business) Scheme, Rs.14.00 lakhs has been spent for 110 beneficiaries under Micro Credit Scheme (Prerana), Rs.820.00 lakhs has been spent for 108 beneficiaries under Land Purchase Scheme and Rs.1117.00 lakhs has been spent for 1248 beneficiaries under Ganga Kalyana Scheme.

### 11.3.3 Karnataka State Safai Karmachari Development Corporation

The Corporation is implementing various schemes for the economic development of Safai Karmachari/manual scavengers in the State. During the year 2024-25, an amount of Rs.518.00 lakhs has been spent for 693 beneficiaries under Self-employment Programme-Direct Loan Scheme, Rs.71.00 lakhs for 35 beneficiaries under Self-employment Programme-Industry Service Business Scheme and Rs.1.00 lakhs for 10 beneficiaries under Micro Credit Scheme up to end of December 2024.

### 11.3.4 Dr. Babu Jagjivan Ram Leather Industries Development Corporation

The Corporation is established with an objective of overall development of Leather Industry in Karnataka and upliftment of socio-economic conditions of the Schedule Caste Leather Artisans. Keeping in view of the objectives, the Corporation is implementing the following schemes:

#### I. Training Programs

##### 1. Skill Development

60 days skill development training is imparted to the artisans in footwear/ leather goods making. Unit cost for each training programme is Rs.10.40 lakhs. In order to continue their profession, leather stitching machine and tool kit is provided apart from Stipend of Rs.6000/-

## 2. Skill Upgradation Program

Under this Scheme, the youths from artisans' community who have passed SSLC/PUC/Degree are being deputed to different short term and long-term courses run by CFTI (Central Footwear Training Institute) / CLRI (Central Leather Research Institute), Chennai and Karnataka Institute of Leather Technology, Bangalore, in order to upgrade their skills in Leather Technology, Footwear/Leather Goods making, and designing etc., Entire expenditure of these courses will be borne by the Corporation. Stipend also will be given during course period. During the year 2024-25 up to end of December 2024, an amount of Rs.27.00 lakhs has been spent for 19 beneficiaries.

## II. Self-Employment Programs

### 1. Providing Financial Assistance for opening "Swavalambi"/Sanchari Marata Malige

In order to make youths from artisans' community self-employed and to give marketing linkage for the products made by them, the Corporation evolved a scheme where artisans will be provided financial assistance to open their own showrooms or Mobile van and sell their products directly to the consumers. If the artisans avail bank loan for opening the Swavalambi/Mobile showroom the following amount will be given in the form of subsidy.

|                                                    |               |
|----------------------------------------------------|---------------|
| Up to Taluk level:                                 | Rs.2.00 Lakhs |
| Taluk & District Centres:                          | Rs.3.00 Lakhs |
| Mahanagarapalike Limits:                           | Rs.4.00 Lakhs |
| BBMP Limits:                                       | Rs.5.00 Lakhs |
| Remaining amount will be in the form of Bank Loan. |               |

During the year 2023-24, 204 beneficiaries were provided the benefits at a cost of Rs.509.00 lakhs. During the year 2024-25 up to end of December 2024, 162 beneficiaries are provided the benefits at a cost of Rs.400.00 lakhs.

### 2. Providing Paduke Kuteeras

The cobblers who are sitting on the roadside and engaged in repair works/production/Sale of footwear will be provided with a Paduke kuteera made of Steel with LED Signal. Along with the kiosk, a tool kit will be provided at free of cost. Unit cost is Rs.1,25,000. During the year 2023-24, 300 beneficiaries are provided the benefits at a cost of Rs.375.00 lakhs. During the year 2024-25 up to end of December 2024, 78 beneficiaries are provided the benefits at a cost of Rs.98.00 lakhs.

### 3. Direct Loan Scheme (Nerasala Yojane)

Under this scheme, unemployed scheduled caste prospective beneficiaries will be assisted with subsidy & loan to start small business activities for their livelihood. The unit cost is Rs.1,00,000/- out of which the corporation gives Rs.50,000/- in the form of loan & remaining amount Rs.50,000/- as subsidy. During the year 2023-24, 310 beneficiaries were provided benefits at a cost of Rs.310.00 lakhs. During the year 2024-25, Rs.80.00 lakhs have been allocated and the same has been released up to end of December 2024, selection of beneficiaries is under progress.

### 4. Marketing Assistance Scheme

- The objective of the scheme is to avoid exploitation of artisans from private dealers and provide assistance to sell the products made by SC leather artisans.

- Skilled Artisans will be empanelled under the scheme.
- The products made by artisans will be procured based on the demand and sold through LIDKAR Leather Emporia under the Brand Name of LIDKAR.
- The Procurement will be made once in a month or 2 months to the extent of Rs. 50,000/- to 1,00,000/- from each artisan depending on the indents from showrooms.

During the year 2023-24, 85 beneficiaries were provided the benefits at a cost of Rs.100.00 lakhs. During the year 2024-25 up to end of December 2024, 141 beneficiaries are provided the benefits at a cost of Rs.100.00 lakhs.

### III. Infrastructure Development Programs

#### 1. Dr. Babu Jagjivan Ram Living cum Work shed Scheme

Under this scheme, the homeless leather artisans will be given financial assistance to construct 'Living cum Work Sheds' through Rajiv Gandhi Rural Housing Corporation. The artisans who have sites/old house/huts in their name can avail the benefit of the scheme. Unit Cost of the working shed is Rs.2.50 lakhs and the subsidy amount is Rs.2.20 lakhs. Beneficiary Contribution is Rs. 30,000/-. During the year 2024-25 up to end of December 2024, 54 beneficiaries are provided benefits at a cost of Rs.119.00 lakhs.

#### 2. Integrated Development of Pragathi LIDKAR Colonies

Under this Scheme, LIDKAR Colonies and other colonies where 100% Leather Artisans are living, will be developed by providing infrastructure facilities such as CC Road, drainage, streetlight, drinking water, 'Charmashilpi Bhavan' for cultural activities & Toilet etc. During the year 2023-24, an amount of Rs.398.45 lakhs has been spent under the scheme. During the year 2024-25, Rs.220.00 lakhs have been allocated in the budget.

#### 11.3.5 Karnataka Adi Jambava Development Corporation

The Karnataka Adijambava Development Corporation was established with the intention of empowering the Madiga and its related communities by implementing all the schemes/programs which were earlier implemented by Dr. B.R. Ambedkar Development Corporation. From the year 2020-21, the corporation started independently to implement the schemes.

During the year 2024-25, up to the end of December 2024, an amount of Rs.409.00 lakhs has been spent for 557 beneficiaries under Self-employment Programme-Direct Loan Scheme, Rs.740.00 lakhs has been spent for 250 beneficiaries under Self-employment Programme-I.S.B (Industries Service and Business) Scheme, Rs.622.00 lakhs for 44 beneficiaries under Land Ownership Scheme, Rs.208.00 lakhs for 1232 beneficiaries under Ganga Kalyana Scheme and Rs.74.00 lakhs has been spent for 590 beneficiaries under Micro Credit Scheme.

#### 11.3.6 Karnataka Thanda Development Corporation

The Corporation is working towards providing basic infrastructure facilities to the 3395 Banjara Thandas in a phased manner. Initially, the Corporation undertook providing civic amenities and construction of Sevalal Samudaya Bhavans and Banjara Bhavans in Thandas. From the year 2013-14 onwards the Corporation has expanded its scope of work to income generating activities with the objective to bring the Thanda residents into the mainstream of the society.

## 1. Providing basic infrastructure facilities in Thandas

The Corporation has undertaken projects to provide basic infrastructure facilities in Thandas like, CC Roads and drainage, connectivity roads between Thandas, connectivity roads from thandas to main roads, RO Plants, Anganwadi Centres, development of layouts in thandas, construction of hostels for girls of Banjara community, RO plants in schools, high mast and power supply connections along with other developmental works. During the year 2024-25, up to the end of December 2024, an expenditure of Rs.742.00 lakhs has been spent for providing basic infrastructure facilities under 04 projects.

## 2. Awareness programs for Thanda residents

The awareness on central schemes like MNREGA, along with providing information about the developmental projects being implemented by the Corporation and the Government for Thanda residents. Especially information related to Right to Information, Right to Education, forest rights, voting rights, Model Thanda Concept, conversion of Thandas into Revenue Villages, awareness on rich Cultural heritage of the Banjara community, language, traditions, negative influence of alcohol, smoking and their impact etc. During the year 2023-24, an amount of Rs.300.00 lakhs has been spent for 375 beneficiaries. During the year 2024-25, an amount of Rs.300.00 lakhs have been allocated in the budget.

## Individual Beneficiary schemes

During the year 2024-25 up to the end of December 2024, an amount of Rs.352.00 lakhs has been spent for 704 beneficiaries under Self-employment Programme-Direct Loan Scheme, Rs.349.00 lakhs have been spent for 118 beneficiaries under Self-employment Programme-I.S.B (Industries service and Business) Scheme, Rs.1030.00 lakhs for 80 beneficiaries under Land Purchase Scheme, Rs.337.00 lakhs for 326 beneficiaries under Ganga Kalyana Scheme and Rs.41.00 lakhs has been spent for 330 beneficiaries under Micro Credit Scheme.

## Initiatives undertaken by Social Welfare Department

As per the values and aspirations laid out in the Constitution of India, the Social Welfare Department is implementing many schemes and programs for the development and welfare of the Scheduled Caste. During 2024-25, amount allocated by Government of Karnataka under SCSP/TSP for the overall development of SC/ST communities in the State is as below:

### SCSP/TSP, Allocation Releases & Expenditure for the year 2024-25 (upto the end of January 2025) (Rs.in crores)

| Particulars  | Allocation      | Releases        | Expenditure     |
|--------------|-----------------|-----------------|-----------------|
| SCSP         | 28527.02        | 16578.67        | 15041.97        |
| TSP          | 11515.39        | 5756.12         | 5347.96         |
| <b>Total</b> | <b>40042.41</b> | <b>22334.79</b> | <b>20389.93</b> |

Source: Avalokana

The Social Welfare Department is implementing many schemes and programs for the development and welfare of the Scheduled Caste and Scheduled Tribes. During 2024-25, Rs.40042.41 crores have been allocated by Government of Karnataka under SCSP/TSP for the overall development of SC and ST communities in the State. The allocation made for SCSP/TSP is further distributed among 35 departments to provide education, employment, social security and other services and amenities to SCs and STs in the state.

## Achievements of Social Welfare Department

- In the current year, the Indira Gandhi professional development centre has provided training to 1000 Scheduled caste youths on using Drone at agriculture field and 1400 graduate students have received training to attend PSI competitive examinations.
- Action is being taken to train 100 youth from the Scheduled Caste leather-based traditional artisan families through the LIDKAR. This shall enable the artisans to introduce new technologies, designs and meet the market demands in Delhi & in states such as Tamil Nadu, Maharashtra, Uttar Pradesh and West Bengal, which are the leading in leather industry.
- Orientation and training on Basic Mountaineering course was given in Himachal Pradesh to 50 Scheduled Caste students of Social Welfare Department hostels.

## Challenges faced by the department and future prospects

- To collect accurate data about the social, economic and educational conditions of people belonging to Scheduled Castes/Scheduled Tribes to take up required programmes.
- To obtain details of basic amenities provided by various Departments in colonies inhabited by Scheduled Castes/Scheduled Tribes communities.
- To evaluate the improvement in the standard of living of the Scheduled Caste community as a result of implementation of various programs of the Social Welfare Department.

## 11.4 WELFARE OF SCHEDULED TRIBES

The Government of Karnataka's priority is to create an environment where people from the fringes of society can live with self-respect. This goal will be achieved through education, employment and empowerment. In this regard, the Government is implementing several development programs for the welfare of Scheduled Tribes through the Department of Tribal Welfare and the Karnataka Maharshi Valmiki Scheduled Tribes Development Corporation. During the year 2024-25, an amount of Rs.1718.85 crores has been allocated, of which Rs.813.21 crores has been released and expenditure incurred up to end of January 2025 is Rs.674.15 crores. During 2024-25, an amount of Rs.11515.39 crores has been allocated by Government of Karnataka under TSP, up to the end of January 2025, Rs.5756.12 crores has been released and Rs.5347.96 crores have been spent. The allocation made for TSP is further distributed among 35 departments to provide education, employment, social security and other services and amenities to ST in the State.

### I. Admission of Scheduled Tribe Talented Students to Prestigious Schools

Talented Scheduled Tribe students are selected and admitted from 6th standard to prestigious residential/non-residential schools in respective districts. Under this scheme, the fees and other maintenance expenses of each student are borne by the department. During the year 2024-25 up to the end of December 2024, an amount of Rs.1125.00 lakhs has been spent and 2835 students have benefited by this scheme.

### II. Pre-Matric Scholarship

Pre-matric scholarship is a significant scheme, introduced to encourage children belonging to ST households, with annual family income less than Rs.6.00 lakhs to continue their school education. Pre-Matric scholarship is sanctioned annually at the rates mentioned below:

| Class / Standard | Boys    | Girls   |
|------------------|---------|---------|
| 1 – 5            | Rs.1000 | Rs.1100 |
| 6 – 7            | Rs.1150 | Rs.1250 |
| 8                | Rs.1250 | Rs.1350 |

The scholarship amount of Rs.3000 is sanctioned by Central Government for 9th and 10th standard students with annual family income less than Rs.2.50 lakhs.

During the year 2024-25 (Up to December-2024), an expenditure of Rs.3585.13 lakhs has been incurred benefitting 228401 students.

### III. Post Matric Scholarship

Post-matric scholarships include day scholarships, compulsory fees for educational institutions, and maintenance costs for hostel students. The post matric scholarship is directly debited to bank account of students whose annual family income is less than Rs.2.50 Lakhs. During the year 2024-25 up to the end of December 2024, an expenditure of Rs.7653.00 lakhs has been incurred benefitting 62759 students.

### IV. Prize Money to Meritorious Students

The main objective of this scheme is to reward talented Scheduled Tribe students and to encourage them to continue their education. Under this Scheme the prize money is awarded to Scheduled Tribe students who have passed first class in the SSLC and Post-Matric Courses in the first attempt. The financial incentive of Rs.7000 / - to Rs.35,000 / - is awarded under this scheme. In addition, students securing 1<sup>st</sup> to 5<sup>th</sup> rank in universities are awarded Rs.50,000/-. Also, students who are admitted in National level prestigious Institutions like IITs / IIMs / AIMs / IISc / NITs are being given a one-time financial incentive of Rs.2.00 lakhs. Further, students who clear CA / ICWA / Company Secretary Examinations are awarded Rs.1.00 lakh incentive for clearing both intermediate and final exams. During the year 2024-25 (Up to December-2024), an expenditure of Rs.1737.20 lakhs has been incurred benefitting 11860 students.

### V. Pre-Examination Training for various competitive exams

Pre-examination training is imparted for various competitive exams such as UPSC/KAS/Group-C/SSC/RRB & Banking examinations at free of cost in prestigious coaching Institutes of New Delhi, Hyderabad and various State level institutions. Candidates selected for the training will receive tuition fee and scholarship. During the year 2023-24, an amount of Rs.850.00 lakhs has been spent benefitting 1350 candidates. During the year 2024-25, an amount of Rs.400.00 lakhs has been allocated. Student selection process is in progress.

### VI. Post-Metric Hostels

To encourage ST students to pursue their higher education at college level, there are 134 post-metric hostels in the State. For the maintenance of these hostels, an amount of Rs.6872.17 lakhs has been incurred in the year 2024-25 (up to Dec 2024) benefitting 18956 students.

### VII. Pre-metric Hostels

There are 134 pre-metric hostels in the State. Students staying in hostels from 5th to 10th grade will be provided with meals, books, toothpaste, uniforms, beds, shoes, etc., For the maintenance of these hostels, an amount of Rs.2958.89 lakhs has been incurred in the year 2024-25 (up to December 2024) benefitting 10911 students.

## VIII. Construction of Residential School Buildings

In order to provide good quality accommodation and other facilities to Scheduled Tribe students, steps have been taken to undertake construction of Morarji Desai Residential School, Kittur Rani Chennamma Residential Schools. During the year 2023-24, an amount of Rs.16500.00 lakhs has been spent. During the year 2024-25, an amount of Rs.22000.00 lakhs has been allocated. Construction of building is in progress.

## IX. Construction of Hostels and residential schools (Ashrama Schools)

The plan is to construct own buildings to provide basic facilities for the convenience of students living in the department hostels and ashram schools running in rented buildings. During the year 2024-25 (Up to December 2024) an amount of Rs.150.00 lakhs has been incurred for construction of 01 Residential school.

## X. Management of Morarji Desai Residential Schools

Morarji Desai Hostels are sanctioned for the educational improvement of Scheduled Tribe students. Maintenance of residential schools is being borne under this programme. During the year 2024-25 (Up to December 2024), the department has spent Rs.11112.96 lakhs for 34697 students.

Valmiki Bhavans are constructed at a cost of Rs.4.00 crores at district level, Rs.2.00 crores at taluk level and Rs.75.00 lakhs at hobli level and Rs.20.00 lakhs at village level for the benefit of Scheduled Tribes. During the year 2024-25 (Up to December 2024), an amount of Rs.790.00 lakhs has been incurred for construction of 97 Valmiki Bhavans.

## XII. Nutrition program for Aborigines

The aboriginal tribes of Koraga and Jenukuruba are living in Dakshina Kannada, Udupi, Kodagu, Mysore, Uttara Kannada, Chamarajanagar, Chikkamagaluru and Shimoga districts of the state and other scheduled tribes like Kadukuruba, Soliga, Yarava, Malekudiya, Kudiya, Siddhi, Goudalu, Hasala, Gond and Bettakuruba are living on the edge of the forest. To avoid them suffering from malnutrition during the rainy season, nutritious foods like 1) 8 kgs of rice/millet/wheat, 2) 3 kgs of gram, 3) 1 kg of cowpea, 4) 2 kgs of cowpea/chickpea per family every at an interval of 45 days for six times a year, 4) 2 lts of Oil, 5) 2 kgs of Sugar/Jaggery, 6) 30 Eggs per month and 7) 1/2 kg Nandini Ghee are provided to them at free of cost in addition to the ration food grains. During the year 2024-25 (Up to December 2024), an amount of Rs.4000.00 lakhs has been incurred benefiting 47859 families.

### 11.4.1 Karnataka Maharshi Valmiki Scheduled Tribes Development Corporation

A large number of ST households continue to be deprived of productive assets and income earning avenues. Therefore, Karnataka Maharshi Valmiki Scheduled Tribes Development Corporation is implementing several developmental schemes such as Self-Employment Scheme, Land Purchase Scheme, Ganga Kalyana Scheme & Micro Credit Scheme for the economic development of Scheduled Tribes households in the State. A brief progress of the schemes implemented by the Corporation is presented below.

#### 1) Direct Loan under Self Employment

From 2020-21, Self-Employment Direct Loan Scheme is being implemented under the Self-Employment Program, for the scheduled tribe unemployed youth/women to undertake self-employment, 50% of the target of the scheme is dairy farming and the remaining 50% target is vegetable, fruit growing, fish and meat sales, sheep/pig/rabbit farming. 50% loan and 50% subsidy on the unit cost of Rs.1,00,000/- for the purpose

facilities including shop/cart working capital for micro economic activities etc. During the year 2023-24, an expenditure of Rs.139.40lakhs has been spent for 279 beneficiaries. For the year 2024-25, an amount of Rs.4700.00 lakhs has been allocated to cover 1100 beneficiaries.

## **2) Self-employment (ISB)**

Under this scheme, the scheme will be implemented with the assistance of the Corporation and bank facilities for the youth of the Scheduled Tribes to start self-employment units in small business, small industry and service sectors. 70% of the unit cost or a maximum of Rs.2.00 lakhs will be subsidized and the remaining amount will be a bank loan. For the purpose of purchasing goods transport vehicles, 70% of the unit cost or a maximum of Rs.4.00 lakhs will be subsidized and the remaining amount will be a bank loan. During the year 2024-25 up to the end of December 2024 an amount of Rs.15.50 lakhs has been spent for 08 beneficiaries.

## **3) Micro Credit Finance**

Under this scheme, skilled or unskilled Scheduled Tribe beneficiaries belonging to semi urban or urban areas of the Self-Help Groups are covered to develop their small business activities. The unit cost is Rs.25,000/- per beneficiary, out of which Rs.15,000/- is subsidy and Rs.10,000/- is margin money from State Government. The term loan will carry interest @ 4% per annum. During the year 2023-24, an expenditure of Rs.141.76 lakhs has been spent for 1020 beneficiaries. For the year 2024-25, an amount of Rs.3700.00 lakhs has been allocated to cover 13320 beneficiaries.

## **4) Ganga Kalyana Scheme**

### **a. Individual Irrigation Borewell Scheme**

Irrigation facility will be provided to the agricultural lands held by small and marginal scheduled tribe farmers by digging bore well/open well, Installation of pump, motor and accessories followed by energization of borewell.

The unit cost is Rs.3.75 lakhs, which includes subsidy of Rs.3.25 lakhs and loan of Rs.0.50 lakh. Subsidy of Rs.3.25 lakhs include energization of Rs.0.75 lakh. However, in respect of Kolar, Ramanagara, Chikkaballapura, Bengaluru Urban & Rural and Tumkur districts where ground water table is depleted, the unit cost is fixed at Rs.4.75 lakhs, inclusive of subsidy of Rs.4.25 lakhs and Loan Rs.0.50 lakh. Subsidy of Rs.4.25 lakhs include energization of Rs.0.50 lakh. Loan sanctioned to the beneficiaries carries an interest of 6% p.a. Loan and interest are repayable in 6 years in half yearly instalments.

### **b. Lift Irrigation Scheme**

Irrigation facility at free of cost will be provided to the agricultural lands held by minimum 3 small and marginal scheduled tribe farmers having their lands nearby river/canal by drawing pipeline and installing pump sets. Unit cost is Rs.4.00 lakhs for min. 8-00 acres of land and Rs.6.00 lakhs in respect of 15-00 acres of land.

During the year 2024-25 (up to December 2024), an expenditure of Rs.252.29 lakhs has been spent for 227 beneficiaries under Ganga Kalyana Scheme.

## **5) Training Programme**

Various training programs to make unemployed youth/women of Scheduled Tribes self-reliant will be implemented in collaboration with Karnataka Skill Development Authority. Training will be provided to women graduates of Scheduled Tribes in collaboration with prestigious IIMs to help them set up businesses. Training in solar panel repair and installation will be provided in collaboration with ICICI FOUNDATION OFFICE RETAIL SALES AND ADMINISTRATION to make unemployed youth/women of Scheduled Tribes self-reliant.

It is proposed to set up 15 sales outlets in urban areas with a grant of Rs.2.00 crores in the current financial year with the aim of providing competitive prices for minor forest products and handicrafts collected from forest-dwelling tribes. A total number of 14 shops have been established up to the end of December 2024 at a cost of Rs.214.00 lakhs.

## 11.5 WELFARE OF BACKWARD CLASSES

The Backward classes (BCs) constitute major chunk of population who are also deprived of educational and economic advancement in the state. Therefore, the Department of Backward Classes Welfare and the D. Devaraj Urs Backward Classes Development Corporation (DBCDC) have been implementing various developmental programmes for socio-economic welfare of the Backward Classes in the state. During the year 2024-25, an amount of Rs. 2251.62 crores has been allocated, out of which Rs. 1772.44 crores has been released and expenditure incurred up to end of December 2024 is Rs. 1356.29 crores. Scheme wise details are given below:

### 11.6.1 Directorate of Minorities

#### 1. Minority Scholarship and Fee Reimbursement

##### a) Pre-Matric Scholarship

The Pre-Matric Scholarship encourages parents of minority communities to send their children to school and helps them complete their schooling by reducing the financial burden on the parents. This scheme lays the foundation for their academic achievement. The objective of this scheme is to empower minority communities through education, leading to upliftment of socio-economic conditions. Scholarships are awarded to students who have secured more than 50% marks in the previous class annual examination and the annual income of the student's parents from all sources does not exceed Rs. 1.00 lakh. 30% of the scholarship will be reserved for girl students. In case sufficient number of eligible girl students are not available, the remaining scholarship will be given to eligible boys.

The said scheme is being implemented by the State Government from 2023-24 as the Pre-Matric Scholarship (Class 1 to 8) provided by the Central Government to minority students has been discontinued.

For 2024-25, Rs. 55.71 crore has been disbursed to 3,22,170 students till December-2024.

##### b) Post-Matric Fee Reimbursement Scholarship

The objective of the 'Fees Reimbursement' scheme is to provide scholarships and incentives to minority community students pursuing post-matric undergraduate, graduate, postgraduate and professional, technical and MPhil & Ph.D. courses in government and private colleges/universities in India/Karnataka State.

Scholarship is given to students who have secured more than 50% marks or equivalent in the previous year's semester/final examination. The annual family income of a student pursuing post-matric courses should not exceed Rs.2 lakhs.

The annual family income of a student pursuing merit cum means (technical and professional courses) should not exceed Rs.2.50 lakhs.

For 2024-25, Rs. 30.41 crores has been spent for 50,732 students up to December-2024.

### **c) Overseas Scholarship Scheme for students pursuing higher education abroad**

A program has been launched by the Karnataka Government to provide scholarships for a maximum of 2 years to minority community students of the state of Karnataka to pursue postgraduate degrees in universities in the QS Top 500 Universities List – 2024. If the annual family income of the student is within Rs. 6.00 lakhs, a maximum scholarship of Rs. 10.00 lakhs will be given annually, and if the annual family income of the student is between Rs. 6.00 lakhs to Rs. 15.00 lakhs, a maximum scholarship of Rs. 5.00 lakhs will be given annually.

Rs. 19.51 crores have been disbursed to 198 students till December-2024.

### **d) M.Phil and Ph.D Fellowship Scheme**

A fellowship program of Rs. 10,000/- per month has been implemented for a maximum of 03 years for minority students pursuing Ph.D. in recognized universities of India/Karnataka State and for a maximum of 02 years for minority students pursuing M. Phil on JRF model.

An amount of Rs. 1.67 crores have been spent on 123 students till the end of December-2024.

## **2. Stipend for Law Graduates**

Under the District sector scheme, students are being selected from each district and trained. The training is given by Government Advocates or experienced Advocates with at least 20 years of experience. A training stipend of Rs. 5,000 per month is given to the students. During the period 2024-25 (up to December-2024), a total expenditure of Rs. 98.01 lakhs have been made for 248 beneficiaries.

## **3. Hostels for Minorities**

### **a) Pre-Matric Hostels**

To facilitate the education of students from the religious minority community, 36 boys/girls hostels (with a total strength of 1,825, 50 per hostel) have been sanctioned and are functioning in the district and taluks. Minority students studying from class 5 to class 10 are being provided with meals at a rate of Rs. 1,750/- for 10 months and uniform, stationery and other facilities are being provided.

### **b) Post-Matric Hostels**

Students from the minority community studying in PUC, degree, and post-graduate and other courses are eligible for admission in these hostels. 365 boys/girls hostels with a total strength of 29,350 are functioning in the districts and taluks across the state. Students admitted to post-matric courses are being provided with meals at a rate of Rs. 1850/- for 10 months. Free library facilities and play materials are being provided.

100 new minority post-matric boys/girls hostels have been started for the year 2024-25. The enrolment process is under progress.

### **c) Hostels for Working Women**

In view of the safety of working women in Bangalore and the municipal corporation limits, 10 working women's hostels have been opened for women.

In the year 2024-25, a budget has been provided and grants have been released for pre-matric hostels, post-matric hostels and hostels for working women.

#### **d) Maintenance of Maulana Azad Schools/Colleges for Minorities**

With a view to providing quality education to the minority community, 250 Maulana Azad Model Schools have been started in the state from class 6<sup>th</sup> to class 10<sup>th</sup> in English medium. As announced in clause 184 of the budget speech for the year 2024-25, pre-university education has been started in 25 Maulana Azad Model Schools having their own building of the Minority Welfare Department with the PCMB stream and in the first phase for the year 2024-25, 50 new Maulana Azad Model Schools with a strength of 60 have been started under the Minority Department. A budget of Rs.5604.68 lakhs has been provided for their maintenance in the year 2024-25 and Rs.4580.93 lakhs has been released. As at the end of December-2024, Rs.3497.81 lakhs have been spent on the infrastructure and maintenance of the schools.

#### **e) Residential Schools for Minorities**

With a view to providing quality education to the religious minority community from 6<sup>th</sup> to 12<sup>th</sup> standard in the state, 119 Morarji Desai Residential Schools/Government Muslim Residential Schools, 13 Pre-University Colleges and 29 Dr. A.P.J. Abdul Kalam Residential Schools are functioning in various districts and taluks. For the year 2024-25, an expenditure of Rs.9561.26 lakhs have been made till the end of December-2024 and 44,576 students have been provided with the funds.

#### **f) Orphanages for Minorities-Assistance**

Orphans studying in class 1 to 10 are eligible for admission in 49 private pre-matric aided hostels and 27 orphanages run by voluntary organizations in the state. Each student in voluntary organizations will be given a grant of Rs.875/- per month for 12 months for food expenses. A budget of Rs.500.00 lakhs has been provided for the year 2024-25 and Rs.370.20 lakhs has been released. Rs.121.86 lakhs have been spent by the end of December-2024. 3,496 students in 76 private institutions/orphanages have benefited from this.

### **4. Construction of Hostel and Residential school buildings for Minorities**

The construction, repair and renovation work of the buildings of Morarji Desai Residential School/College and Model Residential School, Maulana Azad Bhavan, Maulana Azad Model School and Women's Hostels functioning in the state are being undertaken and construction works are being undertaken for construction of additional rooms, repair and purchase of sites, especially in backward and most backward taluks. In the year 2024-25, Rs. 24,872.70 lakhs have been spent by the end of December-2024.

### **5. Vidyasiri Scheme**

This scheme has been implemented for students studying in post-matric courses (from PUC to Ph.D.) in government, aided/unaided colleges/institutions and who do not have access to hostel facilities. The selected students will be given a monthly stipend of Rs.1,500.00 up to a maximum of Rs.15,000 for 10 months during their education period. Rs.1,033.50 lakhs have been spent on 6,890 students in the year 2023-24. A budget of Rs.2,500.00 lakhs has been released for the year 2024-25, with a target of providing facilities to 16,660 students.

### **6. Pradhan Mantri Jan Vikas Yojana (PMJVK)**

Under the Multi Sectoral Development Programme (MSDP), the Department of Minorities has spent Rs.3800.89 lakhs for the construction of 40 buildings in the year 2023-24 for hostel buildings, Anganwadi centre building, construction of labour ward, construction of toilets, construction of Morarji Desai Residential School/Colleges and Navodaya School building, construction of Maulana Model School building, laboratory

- **Awards:** Awards are proposed to recognize the dedication and hard work of the staff working in child care institutions across the state. Awards are being given to honor children of child care institutions who excel in academics and sports.
- Award to Grama Panchayath's with zero tolerance to Child Marriage, POCSO, Child Labour incentive at GP level.
- **Special Unit for Children with Special Needs:** Departments is aiming to set up 8 special units in 4 divisions for children who are unable to attend school due to physical/mental reasons. Special care and nurturing will be provided to these children.

**Vulnerability Mapping:** It is proposed to undertake vulnerability mapping in the districts. To analyze and monitor trends and patterns in the case of children in difficult situations, taking appropriate measures.

## 11.10 EMPOWERMENT OF DIFFERENTLY ABLED & SENIOR CITIZENS

### I. Differently Abled

The Department for Empowerment of Differently Abled & Senior Citizens has been established in the year 1988. Department is facilitating Differently Abled Persons to get the benefits of the different schemes implemented by the department in order to bring them to the mainstream of the society. As per 2011 census the population of Differently Abled persons in various categories is 13.24 lakhs, which constitutes 2.16% of state total population. Category wise differently abled persons are mentioned below.

#### Differently Abled persons in various categories

| Categories            | No. of persons   |
|-----------------------|------------------|
| Visually Impaired     | 2,64,170         |
| Hearing Impaired      | 2,35,691         |
| Speech                | 90,741           |
| Movement              | 2,71,982         |
| Mentally Retarded     | 93,974           |
| Mentally ill          | 20,913           |
| Others                | 2,46,721         |
| Multiple Disabilities | 1,00,013         |
| <b>Total</b>          | <b>13,24,205</b> |

The programmes are broadly classified into three categories

1. Programmes for Development of Differently Abled persons.
2. Programmes for Development of Senior Citizens.
3. Social Security programmes.

#### Specific challenges and future strategy of the Department

- To undertake survey of Differently Abled persons based on types of disabilities in all districts of Karnataka.

There is no income limit for the students availing the facility under this scheme. Only the disabled candidates as mentioned in the Persons with Disabilities Act and recommended by the Medical Council with a medical certificate are eligible for the scheme.

From 2017-18 to 2023-24, an amount of Rs.826.21 lakhs expenditure has been incurred covering 13448 beneficiaries. An amount of Rs.80.00 lakhs has been allocated for the year 2024-25.

15. **Child Care Allowances towards the Health and Nutritional Care of the new born baby of Visually Impaired Women:** This Scheme was implemented during 2013-14. It is observed that the women with visual impairment experiences greater hardship in upbringing the newly born child. In this context under the scheme a sum of Rs 2,000/- per month for five years for two deliveries is paid to the beneficiary towards the services of Aaya, health care, nutritional food, medical treatments for maximum of two children.

From 2017-18 to 2023-24, an amount of Rs.208.71 lakhs expenditure has been incurred covering 912 beneficiaries. For the year 2024-25 an amount of Rs.50.00 lakhs is earmarked.

16. **Establishment of Day Care Centers for Children with Autism and Multiple Disabilities:** The scheme has been implemented by setting up day care centers for children with cerebral palsy, autism, mental retardation and multiple disabilities in the age group of 06 to 18 years through voluntary organizations and implementing these centers under the "Centralized Special Educational State Assistance for Disabled Children" scheme. In view of the fact that the parents of severely disabled children are engaged in employment for their livelihood, administrative sanction is being given to set up day care centers in 4 categories for children with autism, cerebral palsy, mental retardation and multiple disabilities on a practical basis.

From 2017-18 to 2023-24, an amount of Rs.286.63 lakhs expenditure has been incurred covering 331 beneficiaries. A budget of Rs.75.00 lakhs have been allocated for the year 2024-25, of which Rs.31.65 lakhs expenditure has been incurred up to the end of December 2024.

17. **NIRAMAYA (Health Insurance Scheme):** NIRAMAYA Health Insurance Scheme was implemented during 2014-15 for the children belonging to BPL families and suffering from autism, cerebral palsy, Mental retardation and multiple disabilities has been launched as per the requirement of National Trust Act 1999. The scheme provides the beneficiaries with medical insurance coverage up to Rs. 1 lakh per year based on onetime payment of Rs.250 as premium.

From 2017-18 to 2023-24, an amount of Rs.35.80 lakhs expenditure has been incurred covering 13692 beneficiaries. For the year 2024-25, an amount of Rs.66.00 lakhs is earmarked.

- 18. Laptop to Students with visual impairment:** Visually challenged students studying in SSLC and Disabled classes is provided with Laptops having latest technology and software Talking feature to facilitate higher education of the students from the year 2014-15.

From 2017-18 to 2023-24, an amount of Rs.1762.36 lakhs expenditure has been incurred covering 2296 beneficiaries. For the year 2024-25, an amount of Rs.300.00 lakhs is earmarked.

- 19. Providing Motorized two-wheeler for Persons with Disabilities:** A scheme has been implemented to provide a motorized two-wheeler once in a lifetime to severely physically disabled persons (with disability of more than 75 percent) between the ages of 20 and 60 whose annual family income is less than Rs. 2.00 lakhs.

From 2017-18 to 2023-24, an amount of Rs.12902.17 lakhs expenditure has been incurred covering 15172 beneficiaries. For the year 2024-25, an amount of Rs.500.00 lakhs have been allocated.

- 20. Sewing Machine to Hearing impaired people for Self employment:** For self-employment of hearing impaired persons, a budget outlay of Rs.199.78 lakhs have been provided to 1604 beneficiaries from 2020-21 to 2023-24. For the year 2024-25, an amount of Rs.25.00 lakhs have been allocated.

- 21. Braille kit for Blind Students:** From 2020-21 to 2023-24, 1582 Braille kits including talking mobiles and Braille watches have been purchased and distributed to blind students at a cost of Rs.351.10 lakhs. For the year 2024-25, an amount Rs.65.00 lakhs has been allocated.

- 22. Unemployment allowance:** Administrative approval for this scheme was accorded during 2014-15 to provide unemployment allowance to Differently Abled persons with the qualification of SSLC and above. These persons would be paid Rs.1000/- per month.

From 2017-18 to 2023-24, an amount of Rs.13.42 lakhs expenditure has been incurred covering 109 beneficiaries. For the year 2024-25, an amount of Rs.3.00 lakhs is earmarked, of which Rs.0.13 lakhs expenditure has been incurred up to the end of December-2024.

- 23. Identity Cards to Differently Abled Persons:** Under this scheme, Identity Cards are issued to Differently Abled persons. The ID cards enable the card holders avail various services. At present Government of India has implemented Unique Disability ID Card (UDID) scheme all over the State. Issuing authority is Medical Authority through Medical Officers. 10,95,216 applications received and 8,35,608 UDID cards are issued up to the end of December-2024.

### Specific challenges and Way forward

- As per Census 2011, the population of differently abled persons in Karnataka is 13,24,205, which includes only 7 different disabilities notified by the government. The Government of India has notified 21 different disabilities on 19.04.2017. Therefore, the Department in collaboration with the Department of Health and Family Welfare needs to undertake a regular survey of every differently abled person in all the districts of the state to bring them into the mainstream of society both economically and socially.
- Steps will be taken to start rehabilitation centers in those districts where there are no District Rehabilitation Centers for the disabled persons.
- Rehabilitation centers will be provided to all mentally retarded children at the district level.
- It will be necessary to provide monthly allowance to the caregivers who take extra care of those with severe mental retardation, autism, cerebral palsy, multiple disabilities.
- The government should start separate hostels and care homes for employed disabled men.

- The department should identify the government land and construct a well-equipped and disability-friendly residential training center building at all district levels to provide skill development and vocational training to 21 types of disabled people, and formulate a scheme to empower disabled people with 8th standard and above education to get employment in self-employment/business/nearby industrial areas, to be implemented directly by the department.

## II. Senior Citizen Cell

As per 2011 census, the population of senior citizen aged above 60 years is around 47.18 lakhs which constitute 7.72% of the State total population.

To ensure the provision of high quality of life to Senior Citizens, Government has formulated State Policy for Senior Citizens with an objective, "To protect them by providing Economic Security, Health Care and against exploitation and ill treatment and to formulate programme for senior Citizens living in rural areas to ensure that they also get the benefits that their counter parts in urban areas".

### Senior Citizens Welfare Programmes

#### 1. Financial Assistance to NGO's to run the Old Age Home

It has been envisaged to provide grants to voluntary service organizations to run 65 old age homes in 31 districts of the state. Under this scheme, a total annual grant of Rs. 12.00 lakhs is being provided to voluntary service organizations through the Zilla Panchayat for staff expenses, maintenance expenses, medicines, building rent, newspaper and other expenses for a unit with 25 elderly people.

From 2017-18 to 2023-24, an amount of Rs.1922.71 lakhs expenditure has been incurred covering 5392 beneficiaries. For the year 2024-25, an amount of Rs.528.00 lakhs have been allocated, of which Rs.159.00 lakhs expenditure has been incurred up to the end of December 2024.

#### 2. Senior Citizens Helpline

To address problems faced by Senior citizens like harassment, financial exploitation, mental anguish and weakness, an emergency assistance is provided to Senior Citizen through Senior Citizen Helpline Centers are started in 26 districts except Haveri, Kalaburagi, Uttara Kannada and Belagavi districts. This scheme is being run in the premises of the District Superintendent of Police of the respective district, in collaboration with voluntary service organizations. An annual grant of Rs.6.16 lakhs, including recurrent and non-recurrent expenses, is being provided to the voluntary service organizations to run Senior Citizen Helpline Centers.

From 2017-18 to 2023-24, an amount of Rs.1163.47 lakhs expenditure has been incurred covering 585 beneficiaries. For the year 2024-25, an amount of Rs.160.06 lakhs have been allocated, of which Rs.88.86 lakhs expenditure has been incurred up to the end of December 2024.

#### 3. Day Care Centers for Senior Citizen's

To facilitate senior citizens to spend time with their peers during the day, a one-day wellness center is organized through voluntary organizations in each district by providing light breakfast, medical facilities, magazines and newspapers will be provided once in a day at the day wellness center and also Senior citizens will get entertainment of TV, radio etc. Currently, 25-day wellness centers are functioning and steps are being taken to start day wellness centers in other districts. An annual grant of Rs.9.84/- lakhs is being given to the voluntary organizations to run the day wellness centers.

From 2017-18 to 2023-24, Rs.1425.24 lakhs have been spent for 9675 senior citizens. Rs.203.94 lakhs have been budgeted for the year 2024-25 and Rs.121.27 lakhs have been spent till the end of December 2024.

#### 4. Distribution of ID Cards to Senior citizens through online

Identity cards are being distributed to senior citizens above 60 years of age through voluntary service organizations recognized by the department. Under the Seva Sindhu scheme of the e-Governance Department, a senior citizen can obtain identity cards through online from Integrated Citizen Services Centers of Bangalore-One, CSC Seva Kendra, Karnataka-1, Atalji Janasnehi Kendra and Bapuji Kendra.

In the current year, 3,19,091 applications have been received through online and 2,93,974 cards have been distributed up to the end of December-2024.

#### 5. Concession in Bus Fare

Senior citizens aged 60 and above are being given a 25% discount on bus fare. To avail the benefits of this scheme, senior citizens will have to show any one of the following: identity card, voter ID card, driving license issued by the department or an identity card issued by KSRTC.

#### Way forward

- Awareness programs will be organized among the implementing officers and other partner departments and the community about the Care, Protection and Protection of Senior Citizens Act 2007 and Rules 2009.
- Strengthening and providing training to officers/staff/officers of self-service organizations implementing senior citizen welfare schemes.
- Coordination with various departments for proper implementation of the senior citizen policy.
- Identifying the government land, the department will set up a well-equipped building, spacious premises, nature/natural therapy, yoga/meditation hall and many other facilities for senior citizens in all districts, which will be implemented directly by the department. This center will be designed to be different from old age homes.

#### 11.11 Human and Gender Development

Human Development concept richly contributed for human wellbeing. United Nation Development Programme(UNDP) states that human development approach focuses on people, their opportunities and choices. Hence human development emphasizes mainly on health, education, and standard of living. It also includes other dimensions like gender, child, poverty, food security, region, religion, caste, ecology and environment, development throughout the life cycle or life span, etc.

The efforts to quantify the qualitative results of human development processes has taken the forms of many such HD-Indices as Human Development Index (HDI), Gender Inequality Index (GII) etc.

HDI provides a single measure capturing three basic dimensions of human development viz., health, education and living standards (**Figure 11.3**). In HDI, economic welfare is given more importance than economic growth. It emphasizes that the individual's capabilities must be the ultimate criteria for assessing the development of the country.

Figure 11.3: HDI 3 major indicators measured by UNDP

Source: Karnataka Human Development Report-2022

According to the latest Human Development Report 2023-24 titled “Breaking the Gridlock: Reimagining cooperation in a polarized world” by UNDP, India ranked 134 with HDI value of 0.644 out of 193 countries, which belongs to medium human development category as compared to the global average 0.739 (Table 11.22). Among neighbouring countries, except Sri Lanka, India is marginally better than other countries.

Table 11.22: Human Development Index and its dimensions for selected countries

| Country    | Rank | HDI   | Life Expectancy at birth | Expected Years of Schooling | Mean Years of schooling | Gross National Income per Capita (2017 ppp\$) |
|------------|------|-------|--------------------------|-----------------------------|-------------------------|-----------------------------------------------|
| Sri Lanka  | 76   | 0.780 | 76.6                     | 13.6                        | 11.2                    | 11,899                                        |
| India      | 135  | 0.644 | 67.7                     | 12.6                        | 6.6                     | 6,951                                         |
| Bangladesh | 130  | 0.670 | 73.7                     | 11.9                        | 7.4                     | 6,511                                         |
| Nepal      | 149  | 0.601 | 70.5                     | 12.6                        | 4.5                     | 4,026                                         |
| Pakistan   | 165  | 0.540 | 66.4                     | 7.9                         | 4.4                     | 5,374                                         |
| World      | -    | 0.739 | 72.0                     | 13.0                        | 8.7                     | 17,254                                        |

### 11.11.1 Human Development Reports in Karnataka – An Overview

Karnataka has been a pioneering State in addressing the issues concerned to human development through various policy initiatives consequent upon the preparation of human development reports at various levels over the years. The first Karnataka State Human Development Report (KSHDR) was published in 1999 which helped the State to realize the existence of sharp socio-economic disparities between districts. The second KSHDR-2005 provides a comprehensive analysis of district human development goals and outcomes especially for vulnerable sections and also examined the efficacy of service delivery mechanisms.

To understand the status of various indicators of human development at the taluk level, a pilot project of preparing the District Human Development Report for Kalaburagi (then Gulbarga), Mysuru (then Mysore), Udupi and Vijayapura (then Bijapur) districts was undertaken in collaboration with UNDP during 2005-08

and these reports were released in 2010. It provides the status of various indicators of human development at the taluk level. It is a matter of pride that the Udupi and Vijayapura District Human Development Reports were recognized at the national level. Also, the first India Human Development Award - Manav Vikas was awarded to the Udupi District Human Development Report for its emphasis on innovation in 'Measurement Methodology'. The Vijayapura District Human Development Report reached the final stage of the award.

Karnataka is the first State in the country to bring out District Human Development reports for all the 30 districts in the state simultaneously with assistance of the Zilla Panchayaths in 2014. Based on all the 30 DHDRs, a compendium titled, "Human Development: Performance of Districts, Taluks and Urban Local Bodies in Karnataka, 2014 – A Snapshot", has also been brought out with a slightly modified methodology in 2015. It presents details on the relative performance of districts / taluks/ urban local bodies (ULBs) on various indices.

The third Karnataka State Human Development Report-2015 was brought out with a specific theme on "Accelerating Equitable Human Development". The approach was to assess inclusiveness of human development across caste, class, gender, regions and social groups and accelerate the process.

The Fourth Karnataka State Human Development Report-2022 was brought out with a theme "Bridging the Gaps towards sustainable wellbeing". The report is being presented with a specific action-oriented agenda to reach the human development milestones in Sustainable Development Goals. The effort is to explore the strategies and policies that helps to bridge the gaps and promote sustainable wellbeing at micro level.

### 11.11.2 HDI at State level

Human Development Index is estimated with 3 major dimensions i.e., Health, Education and Standard of living, which measures the achievement in key dimensions of Human development. To understand the relative position of different Indian States and Subsequently districts of Karnataka in global context, HDI is estimated using international goal posts. **Table 11.23** provides the global goal posts set by UNDP for the year 2019.

**Table 11.23: The global goalposts set by UNDP**

| Dimension          | Indicator                                    | Minimum | Maximum |
|--------------------|----------------------------------------------|---------|---------|
| Health             | Life Expectancy (years)                      | 20      | 85      |
| Education          | Expected years of schooling(years)           | 0       | 18      |
|                    | Mean years of schooling(years)               | 0       | 15      |
| Standard of living | Gross national Income per capita(2017 PPP\$) | 100     | 75000   |

Source: KSHDR-2015 & KSHDR-2022. \*\* Not estimated. (Ranks are not exactly comparable as methodological changes and addition of new States)

Karnataka's performance in human development has been improving over the years in terms of HDI value and the rank is more or less stable between 10 & 11 but the index has improved significantly from 0.432 to 0.644. It implies that the state's achievement in human development has increased from 43.2 percent to 64.4 percent. It is well above the national average in all the years. The gap between Karnataka HDI and the best performing State NCT Delhi has declined from 35.1 percent to only 8 percent and in case of the other better performing State -Kerala, it has declined from 24.5 percent to only 7.5 percent in 2022. Thus, the trend in increase in HDI value is higher as compared to the top states and all India average. But the State has to move towards high and very high human development States (HDI  $\geq$  0.700 & above) to establish its identity at national and global level.

### 11.11.3 HDI at District Level

HDI at District Level is estimated using Global Goal posts as in Table 11.23 and **Table 11.25** gives HDI across the district of Karnataka.

**Table 11.25: HDI across the districts of Karnataka**

| Districts        | Health Index | MYS Index | EYS Index | Education Index | Income Index | HDI   | Rank |
|------------------|--------------|-----------|-----------|-----------------|--------------|-------|------|
| Bengaluru Urban  | 0.770        | 0.662     | 0.693     | 0.678           | 0.770        | 0.738 | 1    |
| Dakshina Kannada | 0.757        | 0.479     | 0.712     | 0.595           | 0.720        | 0.687 | 2    |
| Chikkamagaluru   | 0.770        | 0.465     | 0.687     | 0.576           | 0.672        | 0.668 | 3    |
| Udupi            | 0.760        | 0.492     | 0.640     | 0.566           | 0.684        | 0.665 | 4    |

| Districts       | Health Index | MYS Index | EYS Index | Education Index | Income Index | HDI   | Rank |

**Table 11.25** shows that Bangalore urban stands first with HDI being 0.738. Comparing with other states, human development is much higher than Kerala state, its HDI value is 0.719 with global comparison, Bangalore falls under the category of high Human development. Dakshina Kannada stands second highest with HDI value being 0.687, which value is close to that of Punjab state. Chikkamagaluru district stands in the third position with HDI value is 0.668. Yadgir, Kalaburagi and Raichur are the districts in the last three positions with HDI Value is 0.538, 0.539 & 0.562 respectively, which belongs to the category of low human development.

Source: KSHDR 2015 and 2022.

**Table 11.26** provides the comparison of district wise HDI over two periods 2015 and 2022. All the districts witnessed an improvement in human development. The districts like Bangalore Urban, Chikkaballapura, Kalaburagi, Shivamogga, Tumkur, Koppal, Bidar, Uttar Kannda and Yadgir have retained their position in ranks with increase in HDI value and there was a marginal decline in HDI values of Dharward and Bangalore Rural districts over the periods.

#### 11.11.4 Human Development Index at Taluka level

HDI at taluk level is estimated using indicators as in **Table 11.27**. The index is based on taluka level data from Health, education and income with the State Max Min values.

**Table 11.27: Indicators for Taluk Human Development Index**

| Theme     | Indicator |                                                            | Data Source |
|-----------|-----------|------------------------------------------------------------|-------------|
| Health    | H1        | Children (0-5 years) died for 1000 live births             | HMIS/eJanMa |
|           | H2        | Maternal deaths per 100000 live births                     | HMIS/eJanMa |
|           | H3        | Number of mothers who had at least 4 antenatal care visits | NFHS 5      |
| Education | E1        | Male Literacy Rate                                         | NFHS 5      |
|           | E2        | Female Literacy Rate                                       | NFHS 5      |
|           | E3        | Gross Enrolment Rate (Elementary)                          | SATS        |

**Table 11.28 and 11.29** shows Top 10 and Bottom 10 Talukas in Human Development Index. Mangalore Taluka of Dakshina Kannada district tops in human development with HDI of 0.786 and the Yadgir taluka of Yadgir district is at the lowest with HDI of 0.325. The gap is 46 percent. The achievement is 78 percent in Mangalore and 32.5 percent in Yadgir.

Source: Karnataka Human Development Report-2022

The top ten talukas are from South Karnataka except Bhatkal from Uttar Kannada. Kalaburagi and Yadgir districts share 5 talukas in the bottom ten. Yadgir and Jevargi are at the bottom. Except health, all the talukas are low in the other two parameters- education and Standard of living. Hence a package approach with synergy across Departments & Schemes is essential to address the low-level human development equilibrium trap. Yadgir and Shorapur have very low education index.

In 36 talukas the achievement in HDI is less than 50% indicating high incidence of deprivation. The State average is 0.573 and 76 talukas are below state average (**Table 11.30**) for which priority is to be given in the developmental programmes for their improvement. (**Appendix 11.12**)

**Table 11.30: Human Development Index for 176 Talukas**

|                                   | Health Index | Education Index | Standard of living Index | HDI   |
|-----------------------------------|--------------|-----------------|--------------------------|-------|
| State Average                     | 0.722        | 0.476           | 0.565                    | 0.573 |

### 11.11.5 Engendering Human Development in Karnataka

#### (A) Gender-wise Population

Karnataka state projected population for 2024 is 6,81,15,000 Male projected population is 3,45,24,652 and Female projected population is 3,35,90,348 with female disadvantage factor -0.027 by Report of the Technical Group on Population Projections Nov-2019. It is a good sign that Karnataka is inching close towards the ideal state of equal numbers and ratio with not much significant Female Deprivation / Disadvantage Factor ( $FDF = (F-M)/F$ ), in terms of gender-wise population.

Southern states shows a concern about the sex ratio at birth except Kerala (974), it shows improvement over the last decade compared to other states. The State sex ratio is declining from 935 in 2014-16 to 916 in 2018-20. There is a growing concern about the declining Sex Ratio at Birth. The State has to take up necessary steps to adopt/implement or to monitor schemes like Bhagyalakshmi and Beti Bacho and Beti Padhao to improve Sex Ratio at Birth (**Table 11.31**).

**Table 11.31: Sex Ratio at Birth**

| State          | Sex Ratio at Birth |         |         |         |         |
|----------------|--------------------|---------|---------|---------|---------|
|                | 2014-16            | 2015-17 | 2016-18 | 2017-19 | 2018-20 |
| Karnataka      | 935                | 929     | 924     | 915     | 916     |
| Andhra Pradesh | 913                | 916     | 920     | 931     | 926     |
| Kerala         | 959                | 948     | 957     | 968     | 974     |

| State     | Sex Ratio at Birth |         |         |         |         |
|-----------|--------------------|---------|---------|---------|---------|
|           | 2014-16            | 2015-17 | 2016-18 | 2017-19 | 2018-20 |

### 11.11.6 Gender and Health

#### Life Expectancy (LE)

Life Expectancy is one of the key indicators of health. On biological terms, women are usually expected to have a greater LE than men. The same is demonstrated in case of both Karnataka and India (**Table 11.32**).

**Table 11.32: Life Expectancy in Karnataka, 2012-16 to 2016-20**

| Years   | Total     |       |                     | Male      |       | Female    |       |
|---------|-----------|-------|---------------------|-----------|-------|-----------|-------|
|         | Karnataka | India | Difference in years | Karnataka | India | Karnataka | India |
| 2012-16 | 69.1      | 68.7  | 0.4                 | 67.6      | 67.4  | 70.7      | 70.2  |
| 2013-17 | 69.2      | 69.0  | 0.2                 | 67.7      | 67.8  | 70.8      | 70.4  |
| 2014-18 | 69.4      | 69.4  | 0                   | 67.9      | 68.2  | 70.9      | 70.7  |
| 2015-19 | 69.5      | 69.7  | -0.2                | 67.9      | 68.4  | 71.3      | 71.1  |
| 2016-20 | 69.8      | 70.0  | -0.2                | 67.9      | 68.6  | 71.9      | 71.4  |

### 11.11.7 Gender and Literacy & Education

#### (A) Literacy

The gender disparity with respect to literacy in the State has been gradually decreasing over the decades reflecting a healthy sign. Male and Female literacy Rate of Karnataka is 88.1 and 77.3 respectively with female Disadvantage factor -0.14 which is slightly better than All India but very low when compared to Kerala (**Table 11.33**).

**Table 11.33: Gender-wise Literacy rate (age 7 & above) in Southern States**

(In percentages)

| States         | Male | Female | Persons | FDF   |
|----------------|------|--------|---------|-------|
| Karnataka      | 88.1 | 77.3   | 82.7    | -0.14 |
| Andhra Pradesh | 78.8 | 66.8   | 72.6    | -0.18 |
| Kerala         | 96.7 | 94.0   | 95.3    | -0.03 |
| TamilNadu      | 90.0 | 81.3   | 85.5    | -0.11 |
| Telangana      | 84.7 | 69.4   | 76.9    | -0.22 |
| All India      | 87.2 | 74.6   | 80.9    | -0.17 |

Source: Annual Report PLFS, 2023-24-20, FDF-Female Deprivation/Disadvantage factor (F-M)/F.

## B) Educational Attainment

The gender-wise educational attainment, according to the All India Survey on Higher Education 2021-22, shows that there is an increasing trend in female enrolment at various level of education both in India and Karnataka (**Table 11.34**). The percentage of Female enrolment in Post Graduate level is more when compared to Diploma, Under Graduate and PhD levels.

**Table 11.34: Student Enrolment at various levels of Education through Regular Mode- All India and major southern States**

| State          | Ph. D  |       |       | Post Graduate |         |       | Under Graduate |          |       | Diploma |         |       |
|----------------|--------|-------|-------|---------------|---------|-------|----------------|----------|-------|---------|---------|-------|
|                | M      | F     | %F    | M             | F       | %F    | M              | F        | %F    | M       | F       | %F    |
| Andhra Pradesh | 3237   | 2346  | 42.02 | 74588         | 75554   | 50.32 | 732340         | 671641   | 47.84 | 95018   | 61430   | 39.27 |

### 11.11.8 Gender and Employment

Against gender parity in employment for Karnataka, **Tables from 11.35 to 11.38** present a mixed trend of both gradual but very slow movement towards gender equality and also prevailing glaring female deprivation / disadvantageous situation. This trend is visible more glaringly even in the high profile employment categories of judges and bureaucrats. Concerted efforts should, therefore, be effectively carried out to ensure the removal of gender discrimination at all levels.

**Table 11.35: Worker Population ratio in Karnataka & India**

| State/Country  | Worker Population Ratio in per cent according to usual status (ps+ss), age group 15-59 years |      |        |         |      |        |
|----------------|----------------------------------------------------------------------------------------------|------|--------|---------|------|--------|
|                | 2022-23                                                                                      |      |        | 2023-24 |      |        |
|                | Total                                                                                        | Male | Female | Total   | Male | Female |

Source: Annual Report, PLFS 2022-23 & 2023-24.

Karnataka state shows relatively high women worker population ratio (42.7) compared to Kerala(39.6) but it is low compared to other southern states. While the southern states of India show relatively high women's worker population ratio compared to all India. Continuous efforts in education, Social reform and economic support system are essential to further improve women's participation in labour force.

Source: Men and Women in Karnataka 2018-19 to 2022-23.

Note: Figures in brackets are percentages.

Employment of women in Private sector(37.01%) is high compared to Public sector (27.13%)and the trend remains same during 2018-19 to 2022-23. To encourage women in organized sector, an efforts to be addressed through systemic inequalities, wage gaps, and cultural barriers are crucial for sustaining growth in women's participation.

Source: Men and Women in Karnataka 2017-18 to 2022-23, DES.

The proportion of women in judiciary and bureaucracy is much lower compared to men. There is need to create awareness about gender equality in legal and administrative professions and to encourage more women in these fields.

### 11.11.9 Gender and Political Representation

The performance of the State is impressive in respect of women's representation in Panchayat Raj Institutions (PRIs), which has crossed the mandatory half-way (50%) mark in all the three tiers of PRIs (**Table 11.39**).

**Table 11.39: Women's Representation Status in all the three-tier Panchayat Raj Institutions (PRIs) of Karnataka**

### 11.11.10 Gender Inequality Index (GII)

GII combines some aspects of Gender Development Index(GDI) and Gender Empowerment Index(GEM) and it is an innovative approach to assess gender inequality. It measures gender inequalities in three important aspects of human development—reproductive health, measured by maternal mortality ratio and adolescent birth rates; empowerment, measured by proportion of parliamentary seats occupied by females and proportion of adult females and males aged 25 years and older with at least some secondary education; and economic status, expressed as labour market participation and measured by labour force participation rate of female and male populations aged 15 years and older. It measures the human development costs of gender inequality. Thus the higher the GII value the more disparities between females and males and the more loss to human development.

**Figure 11.4: Gender Inequality Index 3 major indicators**

Source: Karnataka Human Development Reports-2022

## GII at District Level

GII across districts indicate a lesser variation after accounting for political participation at local level. The variation in percentage of loss due to gender inequality is from 21% (Udupi) to 44%(Dharwad) (Table 11.40).

**Table 11.40: Gender Inequality Index Across Districts of Karnataka -2019**

| District            | MMR | AFR<br>(15-19) | Political<br>Participation |      | Secondary Education<br>and above by adult<br>(25+) |      | LFPR (15+) |      | GII   | Rank |

**Table 11.41** provides the comparison of district wise GII over two periods 2015 and 2022. Udupi retains its first position in both the periods. The district like Raichur, Mysuru, Koppal and Chitradurga have retained their position in ranks and districts like Bagalkote, Gadag, Bellary, Yadgir, Kalaburagi, Chamarajnagar and Haveri shows improvement in GII Rank over the periods. Whereas the district like Bengaluru(R), Belagavi, Chikkaballapur, Chikkamagaluru, Davanagere, Dharwad, Kolar, Mandya, Ramanagara shows decline in ranking. To improve GII rank in these districts, government has taken steps to improve the reproductive health and provide more opportunities to female labour force and also female political participation through the concerned departments.

#### 11.11.11 Conclusion & Way Forward

The status of human development in Karnataka is witnessing an improving trend over the years. However, the variation across districts is high with respect to both Education and Income indicators.

- There are many flagship programmes like Samagra Shikshan Abhiyana Karnataka and MGNREGA NFSM etc. that can be designed and implemented effectively based on local needs.
- More emphasis should be on education outcomes to bring down the disparity across districts.
- Provide Basic infrastructure facility and medical facilities to Government Hospitals as per the norms.
- The GII can be reduced through improving the reproductive health, female labour force participation and political participation.
- Increase women's participation in labour force by
  - Promoting entrepreneurship among women- Focused schemes in Animal Husbandry, Dairy, Household industries. Expanding coverage of Udyogini scheme.
  - Capacity building of women in e-trading and e-commerce. Re-training and skill upgradation in existing sectors.
  - Banks should adopt a single window approach to overcome the procedural and other barriers to accessing loans by women, especially those belonging to marginalized groups and communities.
  - Providing Social Security to women workers in Unorganized sectors.

## 12.1 E-GOVERNANCE INITIATIVES RELATING TO THE DEPARTMENT OF PERSONNEL AND ADMINISTRATIVE REFORMS (E-GOVERNANCE)

Karnataka has an exclusive e-Governance Division in the Department of Personnel and Administrative Reforms, headed by the secretary to the Government. This was set up in the year 2003 with a view to accelerate the process of IT enabling eg. Government processes for the benefit of citizens and to improve transparency and efficiency in administration. The Department of Personnel and Administrative Reforms (e-Governance) has created the necessary infrastructure for implementing e-Governance initiative in the state. From year 2024-25 an amount of Rs. 9593.78 crores, has been provided to the department of which amount released is Rs. 7170.18 crores, (up to December 2024). The expenditure incurred is Rs. 6120.77 crores, and balance amount is Rs. 1049.41 crores (up to December 2024). The Schemes of the e-Governance Department are as follows:

### 12.1.1 Karnataka State Wide Area Network

The Karnataka State Wide Area Network is in operation since December 2009. It is serving as a state information highway for various departments of Government of Karnataka, providing video and data services and secured internet services.

KSWAN 1.0 was providing secured network connectivity to important Government departments like the Treasury, IGR, Health, RTO, Bhoomi etc. Some of the critical applications like Kaveri, Khajane, e-Hospital, Bhoomi, e-Procurement, e-Office are running on KSWAN. About 3000 Government offices were connected to KSWAN. KSWAN Control Rooms (PoP) are Operational at District and Taluka HQ and serve as aggregation points for network traffic. Bandwidths were taken from BSNL and Airtel for all District and Taluka PoPs, depending on actual need and are upgraded from time to time to meet the requirement of traffic demand.

Government of Karnataka upgraded KSWAN to more robust and secure network namely KSWAN 2.0, which ensures end to end secured WAN services using MPLS technology within the network and that of the bandwidth service provider and LAN services in important Government buildings.

Many departments have been onboarded to avail KSWAN services like, Zilla and Taluk Panchayats, Police Department, Backward Class Welfare department, Agriculture, Raitha Samparka Kendra, Nada Kaccheri, Education, Excise, Horticulture.

Some of the Boards and Corporations like BMTC, BBMP, BDA, DBRADCL KPCL, KNNL, KBJNL, KSFC, KREDL, KIADB, KMVSTDCL, City Municipal corporations and ESCOMS have also been provided with KSWAN connectivity.

Security being an important aspect in Government data transactions over the network, in KSWAN 2.0, state of the Art IPsec, DMVPN and MPLS features are being enabled. Dual connectivity is provided to major departments to ensure uptime of more than 99.99% for the network.

The next stage of the project, i.e., KSWAN 3.0 has been proposed and the DPR is approved for 931.15 Crores. Under this project, it is envisaged to extend the connectivity to all the Gram Panchayats covering about 22000 offices.

In addition to BSNL & Airtel, other Telecom Service Providers, viz, Vodafone Idea Limited and Reliance Jio Infocom Limited are integrated to KSWAN to speed up the commissioning of KSWAN links.

As on date, Karnataka State Wide Area Network (KSWAN) connectivity has been extended to 1000 Government offices making a total around 8000 Government officers to implement e-office and access e-governance applications and about 100 offices will be covered shortly.

Video Conferencing Solution was implemented as part of KSWAN1.0 project in the year 2009. 31 number of Video Conferencing end points units were provided to Deputy Commissioner (DC) offices and Room Number. 313 Committee room Vidhana Soudha and Room No.122, Vikasa Soudha.

In the year 2015, under the project Taluka video conferencing project, the central VC infrastructure was upgraded with higher capacity units and 219 video conferencing endpoints were procured to cover 141 Taluka offices, 29 DC offices, 23 District Court, 7 Prisons Departments, and 19 HoD offices in Bangalore. In the year 2018, due to additional demands, 104 additional video conferencing endpoints were procured to cover a second VC endpoint unit in each DC office, 1 VC unit in each ZP office and 39 end points at DSERT offices and added to the existing video conferencing system.

The software-based Video Conferencing solution was implemented and enabled in 1000 Gram Panchayat offices across the districts.

During 2022, implemented the new VC infrastructure by replacing MCU Servers and procured additional 350 VC End points for Extending VC facility to Taluka Panchayats, District Training Institutes and Regional Commissioner's offices.

KSWAN Services like Webcasting, Youtube casting, Video conferencing, dual network connectivity was provided during winter Assembly Sessions at Suvarna Vidhana Soudha, Belagavi.

### 12.1.2 e-Procurement

Karnataka Public Procurement Portal is aimed to enhance transparency, accountability and reliability and responsiveness in all Government procurement activities. The Karnataka Public Procurement Portal is implemented on an 'end to end' solution. It is to the Credit of the project that it is a less-paper office.

The new Karnataka Public Procurement Portal (KPPP) 2.0 has been designed and developed using a microservices-based architecture to meet growing demands, leverage technological advancements, and build on over a decade of experience. Several key enhancements such as robust workflow engine, layered security, mobile enabled, well designed post award of contract module, integrated accounting module, user friendly interface, external integration for seamless data exchange and a robust e-auction module are envisaged for Karnataka Public Procurement Portal 2.0 This upgraded portal enables procurement processes from estimate creation to contract award for all procurement entities across the state. One of its key features is the robust Contract Management module.

The Contract Management module was launched on October 31, 2023 and is accessible to all procurement entities.

As per Para 422 of the Budget Speech 2024-25, Under the Karnataka Public Procurement Platform 2.0, the Contract Management Module will be extended to all departments in a phased manner.

Subsequently, DPAR (e-Governance) issued a Government order mandating implementation of the Contract Management Module for tenders invited on the Karnataka Public Procurement Portal (KPPP), effective from August 1, 2024.

## External System Integrations

- NeSL - Supports digital contract execution and e-bank guarantees.
- K-GIS - Enables asset mapping and geographic location tracking.
- Khajane II - Facilitates bill processing and tracks expenditures through the state's treasury system.

A comprehensive “Dashboard” has been developed on the Karnataka Public Procurement Portal to monitor contract progress effectively. This dashboard provides a wide range of information, including the number of tenders awarded, contracts created, those in progress, completed contracts, penalties imposed and bill status.

As of 30th November 2024, the Karnataka Public Procurement Portal has been extended to 569 procurement entities. A total of 14,24,456 tenders and 67,583 auctions have been published, attracting 35,51,974 bids. The platform has promoted healthy competition among bidders. Additionally, 1,81,705 suppliers and 33,742 government users are registered on the portal, reflecting its growing adoption and impact.

### 12.1.3 Karnataka State Data Centre (SDC)

Government of Karnataka is committed to providing a secure, resilient, reliable and scalable information technology infrastructure for all Government Departments, Boards & Corporations for hosting & running their e-Governance applications/Initiatives in a secure manner for providing faster and reliable citizen services.

To realize above objectives, the Centre for e-Governance, had setup a Karnataka State Data Centre in the year 2011 for hosting the data and applications of various departments in the state. The data centre is being managed and supported by CeG hosting many applications of various departments. As on December 31st 2024, the SDC hosts about 500+ applications and 590+ web portals and maintaining infrastructure uptime of 99.95%.

The data centre is being monitored and managed by skilled resources on 24/7 basis. The KSDC has been hosting G2G, G2C and G2B applications of various departments, boards & Corporations. Some of the critical applications include Kutumba, FRUITS, Bhoomi, Seva Sindhu, Sakala, KAVERI 2.0, DBT, SSP, KRSRAC, UUCMS, KSBCL, e-Procurement etc. Also, KSDC is instrumental in successfully providing hosting infrastructure for registration of beneficiaries to Government Guarantee Schemes like Gruha Jyothi, Gruha Lakshmi and Yuvanidhi.

In order to ensure business continuity for the critical applications, DR has been setup and operational in Mohali and Near DR in Bengaluru embracing 3-way data replication technology.

### 12.1.4 Security Operation Centre for SDC (SOC-SDC)

Security Operations center is a command center facility, with a team of IT/Cyber security professionals with expertise on information security who would be responsible for monitoring, analyzing, and protecting information and applications hosted in Karnataka State Data Center from Cyber Attacks on a 24/7 basis.

After COVID -19 pandemic, as more and more people are accessing Government applications and websites, there is a significant increase in cyber surveillance activities by hackers. These hackers/cyber miscreants are targeting all the sectors including government, considering the prevailing threat scenario in cyber space and criticality of govt data and applications hosted in SDC, CeG has setup SOC to further strengthen the SDC to provide secured and robust IT infrastructure & to enable the Government departments to deliver the services more securely, and effectively to all stakeholders and citizens.

CeG SOC is also being integrated with the Threat Intelligence and advisory feeds from CERT-IN, MEITY, NCIIPC which would further enhance the security posture of CeG SOC to proactively mitigate any cyber-attack.

The salient features of the SOC are as below:

- a. Continuous collection of Security Event logs from all devices in SDC
- b. Analysis of Security Logs, for Threat Detection.
- c. Proactive Response for mitigating potential threats.
- d. Threat Intelligence and advisory for proactive threat detection and prevention
- e. 24x7 analysis of Security logs and correlation and analysis of security logs
- f. Proactive threat detection and issuance of alerts
- g. Advanced User behaviour analytics
- h. Breach Assessment and Forensic services
- i. Deep/Dark Web Monitoring/ Phishing activities
- j. Endpoint Detection and Response: - for comprehensive detection and response of abnormal activities at endpoints level like launching of malware attack and zero-day attacks which are normally not detected by conventional Antivirus/Anti Malware solution.
- k. Security Operations Centre operations have been started w.e.f 15th June 2022.

### 12.1.5 Unique Identification Numbers (UID)

The aim of the project is to provide an Aadhaar number for 6.75 Crore of population. As on date, approximately 6.95 Crores Aadhaar numbers have been issued to the residents. Apart from this, many beneficiary schemes of the Government of Karnataka have included Aadhaar-based authentication, which in-turn helps in the targeted delivery of services to the right beneficiaries. As on date, 6,95,57,420 Aadhaar has been generated for the residents of which 3% are with age group of 0-5 years, 19% are 5-18 years and 78% greater than 18 years. Currently, 12,522 Aadhaar Centres have been deployed at various locations across the state.

#### a) Child Aadhaar enrolment using BRN:

- CeG has taken an initiative to enrol children between 0-5 years using BRN from the Registrar of Births and Deaths.
  - Apart, coordinated with Postal and RDPR Departments to enrol children between the 0-5 years using BRN.
  - A total of 1,178 Tabs has been provided to RDPR Department to enrol children between the 0-5 years using BRN.
- b) Provided 141 Enrolment kits to the ward offices of BBMP for Aadhaar activities: 69 enrolment centres have been provided the Aadhaar services.
  - c) Special Drives for enrolment of old age and disabled people at their residence.

- d) As CeG is the nodal agency for the Karnataka state, coordinated with all stakeholders of GoK for the special drive of eliminating illegal Aadhaar numbers from illegal migrants and ineligible residents/citizens was executed. The drive of door-to-door verification in the identified 19 locations in Bengaluru Urban was completed for 5,704 houses (10,352 residents). Out of which 9,367 residents have Aadhaar and 985 residents do not have Aadhaar. 435 Aadhaar were suspected cases which have been flagged.
- e) State Aadhaar Portal is a recent initiative which was launched to verify documents for individuals aged 18 and above in order to generate Aadhaar cards. In compliance with the Government Order, 33,778 packets have been assigned for verification, and verifiers can access their logins for this activity. 22,851 packets were processed as on 15th Dec'24.

### 12.1.6 Karnataka Resident Data Hub (KRDH)

Karnataka Resident Data Hub (KRDH) was created as a platform to deliver eSign, Aadhaar-related services such as Aadhaar authentication and Name matcher services to departments of the Government of Karnataka. KRDH collaborates closely with the department's technical team, effectively assisting them with e-Sign services, Aadhaar Authentication, Namematcher and Transliteration services. It includes on-boarding process as well as the integration of these services with departmental applications.

#### a) Authentication (ASA/AUA)

Aadhaar Authentication is the process by which the Aadhaar number along with the Aadhaar holder's personal identity data such as biometric/demographic information is submitted to UIDAI (Central Identities Data Repository-CIDR) for matching, following which the UIDAI verifies the correctness thereof on the basis of the match with the Aadhaar holder's identity information available with it. The purpose of Authentication is to enable Aadhaar-holders to prove their identity and for service providers to confirm the resident's identity claim in order to provide services and give access to benefits.

To filter and control the AUA/ ASA services availability to the departments of GoK the DBT cell has developed a platform called Aadhaar as a service. All the departments are routed through 'aadhar as a service' platform for AUA/ASA transactions. Total 84 departments are using authentication services.

#### C-DAC AUA-ASA Security Audit:

Till date 69,35,23,607 authentication transactions have been performed in the Production environment and 19,81,703 in preproduction AUA. 73,36,67,428 authentication transactions have been performed in ASA production. Aadhaar authentication services are being used in CM's Five guaranteed schemes.

#### b) Name matcher App Software Support/ Maintenance for an Annual basis:

- I. Namescape software will contain functions namely string-to-string comparison, bulk string-to-string comparison for English to Kannada names and vice versa. The Name Matcher web services is hosted at the State Data Centre.
- II. Namematcher service has been extended to applications of 34 departments.

#### c) KRDH as ASP for e-Sign Services:

e-Sign is an online service that can be integrated within various service delivery applications via an open API to facilitate digitally signing a document by an Aadhaar holder. It is designed for applying Digital Signature using authentication of consumers through Aadhaar authentication and e-KYC service. CeG has obtained eSign

services from two of the eSign service providers (ESP), M/s CDAC and M/s NSDL (Protean eGov Technologies Limited).

**The milestones of e-Sign services are listed below:**

e-Sign services were integrated with e-Office as a separate ASP ID. 5,72,793 e-sign has been utilised by the e-office till date. Further e-Sign has been extended to 72 departments. Till date 5,31,34,019 e-Signs have been consumed.

**d) KRDH as Transliteration Service**

- I. Transliteration is a phonetic transliteration mechanism that transliterates English data to Indian Language content (Kannada). You can type a word of your choice in English and get the transliterated output in selected language like Kannada.
- II. It supports some attractive features like chat lingo, number to text transliteration, abbreviations and transliteration of complex English words.
- III. Transliteration tool is developed/built by M/s CDAC, similar to Namematcher tool.
- IV. Total 2 departments have been on-boarded.

**12.1.7 DigiLocker**

DigiLocker is a flagship initiative of Ministry of Electronics & IT (MeitY) under Digital India programme. DigiLocker aims at 'Digital Empowerment' of citizen by providing access to authentic digital documents to citizen's digital document wallet and DigiLocker is an introduced platform for citizens to access digital documents at their fingertips. The highlights of digital lockers are as follow:

- More than 60 State Departments adopted the DigiLocker facility successfully in Karnataka
- More than 30 crores of documents/certificates are made available in DigiLocker from various departments and universities of Karnataka state.
- More than 60 officers have been trained by the DigiLocker team on the "Nanna Gurutu" campaign.

Integrating all the documents verifying and issuing departments on to DigiLocker platform to ease fake documentation and other malpractices is the future plan of the department.

**12.1.8 e-Office**

The e-Office is a Mission Mode Project (MMP) under the National e-Governance Program (NeGP) of the Government of India. Developed by the National Informatics Centre (NIC), e-Office facilitates the electronic management of office procedures, transforming government operations to be more efficient, effective, and transparent in handling intra-government processes and transactions. It is designed as a unified, reusable system that integrates independent functions and systems within a single framework to promote transparency, accountability, and a positive transformation in government work culture and ethics. Key Features of e-Office are.

- Common Data Sets and Standards
- Role-Based Access Control for authorization

- Workflow Management for streamlined processes
- Based on Open Standards and Technologies
- Unicode Compliance with support for local languages
- Common User Repository at the organizational level for various services and applications

The Benefits of e-Office are as detailed below:

- Enhanced transparency files can be tracked, and their status is known to all at any time.
- Increase towards more accountability and responsibility, easy to monitor.
- Assure data security and data integrity.
- Transform the government work culture.

### Current Implementation Status

The e-Office has been successfully implemented in various 4759 offices including the Secretariat, Ministers, and Head Offices, as well as Deputy Commissioner (DC) Offices, Superintendent of Police (SP) Offices, Zilla Panchayat (ZP) Offices, Tahsildar Offices, and Taluk Panchayat Offices. Further, the implementation process is currently in progress at Nadakacheri and Grama Panchayat Offices across the state. Training on the e-office application has been conducted for 39,538 users across 4759 offices.

The e-Leave module (Leave Management System) of the e-Office application has been successfully implemented in all GoK Secretariat offices. Currently, 2,571 users from the Secretariat are actively using the e-Leave module. e-Office implementation progress is as mentioned in **Table 12.1**

**Table 12.1**

| Offices                 | No. of Offices | No. of Files   | No. of Receipts |
|-------------------------|----------------|----------------|-----------------|
| Chief Minister Office   | 1              | 18             | 318861          |
| Legislative             | 2              | 749            | 2053            |
| Statutory Bodies        | 1              | 784            | 17180           |

| Grama Panchayaths       | 384            | 0              | 0               |
| <b>Total</b>            | <b>4759</b>    | <b>3691705</b> | <b>18688379</b> |

## E-Par

The electronic Annual Performance Appraisal Report (SPARROW) is an online system based on the comprehensive performance appraisal dossier that is maintained for each member of the Service by the State Government/Central Government. The aim of this system is to facilitate the electronic filling of PAR by officers in a way that is not only user friendly but also allows to fill from anywhere anytime as per their convenience. Similar convenience will be available to the officers at different Stages in the workflow hierarchy of filling and submission process. The system is also expected to reduce delays in submission of completely filled PARs.

PAR filling process starts at the beginning of the financial year. The Custodian of the respective Ministry/ department sends the blank PAR forms to the Individual officer. The officer fills the PAR for further submission to his/her Reporting Officer. The PAR moves from Reporting officer to Reviewing officer and to Accepting Authority mandatorily marking CR Section a slip. With the electronic system in place, the recording and movement of PAR forms becomes seamless, quick and convenient due to inbuilt alert mechanisms through different modes at appropriate Stages. The system provides status check so that the officers know where their PARs pending as well as what are pending with them. The e-par generated for Group A, Group B officers and Group c officials during 2023-2024 is mentioned in **Table 12.2**.

**Table 12.2**

| Assessment Year | Group   | Total Officers/<br>Officials posted | e-PARs Generated | e-PARs Closed |
|-----------------|---------|-------------------------------------|------------------|---------------|
| 2023-2024       | Group-A | 26,830                              | 6940             | 654           |

### 12.1.9 Capacity Building

The Government of Karnataka is in the forefront in initiating and successfully implementing several e-Governance projects of national importance in order to improve delivery of public services. Imparting of specialized training and enhancing the knowledge, skills of the employees in various facets of e-Governance and ICT is envisaged.

#### Physical Achievements:

- Conducted More than 250 e-Governance initiatives training programmes for all the Group 'A' & 'B' officers and Group 'C' employees of various departments for the year April 2023 till December 2024.
- Conducted 126 training programmes, 2613 employees were trained on e-Governance initiatives, e-Office, Gem and Tally, Data Science and Data Analytics, Cyber Security, Blockchain Technology in e-Governance applications. e-Procurement ICT and KTPP trainings from all the District Training Institutes and at Administrative Training Institute, Mysore.
- Conducted a Cyber Security awareness programme and Cyber Security Hygiene Practice trainings to Government employees at Vikasa Soudha on October 2023 more than 300+ employees benefitted.
- Data Driven Decision making training by Wadhwani foundation during 27th and 28th November 2023.
- Conducted SOC (Security Operation Centre) training to Government employees at Vikasa Soudha on 29th May 2023 and more than 131 employees benefitted.

- f) Conducted Efficient Management of Social Media trainings to Government employees on 9th January 2024 and more than 35 employees were benefitted.
- g) Conducted two days Soft skill training to CeG Project employees on 24th February 2024, 22nd March 2024 and during September 2024 more than 50 employees were benefitted from the training.
- h) Advance MS Office 4days workshop conducted on 24,25, 30 and 31st July 2024.
- i) IT Equipment's provided twice for Hon'ble Chief Minister's state level Janata Darshan programme in the months of November 2023 and February 2024.
- j) IT Equipment's provided for DPAR Department to conduct health camp for Govt employees in June 2024.
- k) Conducted Artificial Intelligence and Machine Learning trainings by Wadhwani foundation to Government employees at Vikasa Soudha in the months 27th February 2024 and October 2024, more than 120 employees were benefitted.
- l) Capacity Building Training Committee formed under the chairmanship of CEO CeG, to guide on the training modules and identify the resources for training programs to skill up the Government Employees.
- m) Infosys Springboard MoU signed with CeG on 11th Jan 2024 to introduce Learning Management System (LMS) to all departments. As a pilot basis Springboard microsite are created from Capacity Building and Department of Women and Child Development. Learning courses are added into Microsites for access and certification courses for staff.
- n) MoU signed with Administrative Training Institute (ATI) Mysore on 30th May 2024 for next 5 years to provide support for conduct Administrative trainings for Government officials.
- o) Trainings on e-Governance initiative like e-Office, e-Par, RTI online, e-Procurement, IPGRS, SSP, FRUITS, Crop Survey, Kutumba, Department website updation (web portal), Digilocker, KODI, Mahiti Kanaja, NAD, Cyber Security Awareness. Cyber Law, Incidence Responses and Management for Secretariat.
- p) At ATI 325 Programmes conducted 13,556 employees trained on various e-Governance initiatives
- q) 345 programmes are conducted to train 16,756 employees of Universities, Boards and corporations.
- r) Conduct Artificial Intelligence (AI) and chat GPT programme to State Government Employees and more than 110 employees benefitted.
- s) Infosys Springboard LMS training was conducted to 1365 Anganwadi Supervisors and Spring board workshop attended by Capacity Building team at Infosys Campus.
- t) Training committee Visited IIIT-B and discussed on the in-house trainings and certification courses available in the institute.
- u) Cyber Security Essentials workshop has been conducted in four batches successfully in association with IIIT-B. Certificate was issued to all participants in the year 2024.
- v) BIG Data, Network and System Administration, Cloud-Azure, Web and Mobile Application development, Software Development Life Cycle, MS SQL 2022, Power BI and Data Visualization training was conducted successfully in the year 2024 along with certificate to all participants.

- w) Project Management training on Azure was conducted successfully to all Project Managers of CeG projects in the year 2024.
- x) KTPP Act and eProcurement hands on training was organised to all PDs of CeG Project successfully in the month of November 2024.
- y) MS Office – MS Excel, MS Word training and e-Governance Initiatives and Soft Skill training was conducted to treasury and finance department staffs by Capacity Building team at Fiscal Policy Institute (FPI) in the year 2024.
- z) Online Literacy Test conducted for Government employees and 2,85,309 employees qualified and 2,84,922 Digital Certificates issued in the year 2023.

### 12.1.10 Kannada Computing

e-Kannada, one of the ambitious projects of Government of Karnataka, intends to develop software driven services for Kannada using Natural Language Processing. Effective implementation of Kannada in all the domains of Information technology including Administration. Following activities are taken Localization of Government Applications/Software's, develop technical tools for Kannada language, To bring the various Glossary and dictionaries into a single digital platform as a Kannada lexical hub (PADAKANAJA).

- 1) **Padakanaja Version 1.0** released and hosted in State Data Centre for public usage. For larger usage Android version of mobile application is also released and upgradation to Android versions is in progress. 95 Glossaries and Dictionaries consisting of 219092 original Kannada words and 120395 English root words are available. For Padakanaja version 2.0 release, collecting Mysore dictionary proof reading and DTP work is in progress.
- 2) **Spelling checker:** The spelling checking tool is an Application that checks spelling errors in Kannada text and helps to correct text. Kannada Ganaka Parishath has developed the software, tested by CeGeKannada team and hosted in SDC available for public use. On 13.02.2022 an MoU has been signed between Government of Karnataka and Kannada Ganaka Parishad to develop spell checker software. Software development completed and hosted in SDC for public use in January 2025.
- 3) **Translation tool(Kannada Kasturi):** English-Kannada translation tool has been developed in collaboration with the University of Hyderabad in the year 2024. Hyderabad university MOU signed with CeG in the year September 2022. The development of the second edition based on 2.3 crore parallel sentences (English-Kannada) has been completed. This tool is tested by e-Kannada team in the year 2024. Currently front end user interface development is in progress to use this translation tool by CeG.
- 4) **Kannada fonts(Font family):** MoU has been signed on 24th February 2022 between CeG and Kannada Ganaka Parishath to develop Kannada Unicode. Unicode fonts of smart nudi series (SmartNudi1, SmartNudi2, SmartNudi3, SmartNudi4, SmartNudi5) have been developed and completed by Kannada Ganaka Parishath tested by e-Kannada team with the font styles as regular, light, bold, extrabold option provided in each font. The fonts are ready to use in Nudi version 6.5.
- 5) **BHASHINI :** MOU is signed between CeG and India Bhashini on 22/10/2024 intended to constitute an expression and mutual understanding of the Parties willingness to work collaboratively to facilitate growth of language technology and generative AI solutions and promote governance in vernacular languages.

### 12.1.11 State Scholarship Portal (SSP)

An Integrated State Scholarship Portal (SSP) is developed by Centre for e-Governance, for sanctioning of Pre-Matric & Post-Matric Scholarships under various Schemes of Government of Karnataka. Scholarship amount is disbursed to Aadhar seeded bank account of the student through Direct Benefit Transfer (DBT).

The departments onboarded in SSP for pre-matric and Post matric scholarship are Social Welfare, Tribal Welfare, Backward Classes Welfare, Minorities Welfare, Technical Education, Medical Education, AYUSH, KSBDB, Collegiate Education, Disability Welfare.

An amount of Rs. 283.56 crores of pre-matric scholarship was paid to 17.17 lakhs students through, Direct Benefit transfer during 2023-24. Similarly, an amount of Rs. 159.78 crores of pre-matric scholarship was paid to 10.65 lakh students during 2024-25 up to 31st December 2024

An amount of Rs. 1062.67 crores of post-matric scholarship was paid to 13.24 lakhs students through, Direct Benefit transfer during 2023-24. Similarly, an amount of Rs. 372.84 crores of post-matric scholarship was paid to 6.96 lakh students during 2024-25 up to 31st December 2024. Application submission and payment process is still in progress for FY 2024-25.

### State Hostel Portal (SHP)

The State Hostel Portal has been developed in collaboration with NIC, Karnataka to provide admission to students of various categories in post-matric and pre-matric hostels run by various departments of the Government since FY 2022-23. 2.93 lakh students were admitted in 2374 post-matric hostels and 1.57 lakh students were admitted in 2644 pre-matric hostels.

### 12.1.12 Direct Benefit Transfer (DBT)

Direct Benefit Transfer is a major reform initiative to re-engineer the existing delivery processes of the Government using IT. Vision of DBT is to enable departments to transfer benefits directly into Aadhaar seeded bank accounts of accurately targeted beneficiaries. DBT is intended to resolve the issues related to wrong inclusion/exclusion of beneficiaries, inaccurate beneficiary identification and unreliable database which resulted in fakes, duplicates and non-achievement of objectives. DBT will improve targeting, plug loopholes etc.

On the DBT Platform 463 schemes have been on-boarded. The Major Schemes which have been on-boarded are Scholarship Schemes, Minimum Price Support schemes, CM-Relief Fund, Housing Schemes, Milk Incentive scheme, three Guarantee scheme i.e., Anna Bhagya Scheme, Yuvanidhi Scheme and Gruhalakshmi Scheme. During the Year 2023-24 an amount of Rs. 34,364 crores were disbursed through this platform to 5.36 crores beneficiaries. In the year 2024-25 (up to 31/1/2025) rupees 42,836 crores were disbursed through DBT platform to 5.54 crores beneficiaries.

### 12.1.13 Kutumba:

The Department of e-Governance has implemented the “Kutumba” project which is a centralized data repository of families in Karnataka consisting of the individual and family attributes. Ration Card data has been used as the base and other departments databases have been integrated with it. 5.8 Crore residents of Karnataka i.e. nearly 90% of the state population (as per 2011 census) have become part of the Kutumba system. Kutumba project has been recognised at National level and has been awarded the National e-Governance Award (Silver).

Kutumba system empowers departments to weed out deceased, ineligible and ghost beneficiaries from their IT systems. Kutumba has been integrated with the Birth and Death Registration system, which provides the details of both new born and deceased person details on a daily basis. Kutumba, in turn, shares the details of deceased persons to Departments IT systems, which enables them to remove deceased beneficiaries from the databases. This has avoided the need for annual verification/life certificate for recurring benefits like social security pensions. Kutumba also enables departments to identify ineligible beneficiaries. Departments seek information of beneficiary eligibility, for eg. income, as per scheme guidelines to identify ineligible beneficiaries based on Kutumba data to remove them.

Kutumba also aids the Government in Policy making, Planning and budgeting. It provides aggregated data on likely eligible beneficiaries and thus impact on budget (through financial outlay required). It also supports the Government to implement conditions in schemes like single benefit per family - Kutumba data has been used extensively by the Rajiv Gandhi Rural Housing Corporation to identify the eligible families. Kutumba has supported in the successful implementation of flagship Guarantee schemes of Gruha Jyothi and Gruha Lakshmi.

In 2024-25, Kutumba has linked the Birth and Death certificates and identified 2.85 lakh deceased members in Ration Cards of the State and has shared it to Department of Food, Civil Supplies, and Consumer Affairs for their removal. Similarly, 1.36 lakhs of deceased social security pensioners have been identified and shared with Directorate of Social Security and Pensions. This measure is estimated to save Rs. 219.56 Crores to the state exchequer. Kutumba has identified 33.16 lakh likely ineligible members belonging to 14.26 lakh Priority Household Ration Cards and shared the data with Department of Food, Civil Supplies, and Consumer Affairs.

#### **12.1.14 Karnataka Open Data Initiative (KODI)**

Open Data ecosystem was envisioned to help and publish datasets present with the State departments and design a State Open Data Policy to improve collaboration and stakeholder management, enable inter and intra departmental data sharing, drive open innovation through data analysis, citizen access to data sets of various sectors and improve public understanding of state's operations. Successfully on-boarded 160+ Chief Data Officers, 8000 resources and 650+ catalogues on to KODI platform.

Future Plans of the department are as detailed below:

- Revision of State Data Policy – version 2.0
- Implementation of blogs and infographics section
- Increasing the availability and access of high value datasets
- Building analytics platform for better decision making for the Government

#### **12.1.15 RTI Online**

The State Government of Karnataka has launched an RTI Online portal on 04-02-2020 exclusively for accepting, appealing and disposing of applications through the Right to Information Act 2005 in the form of the Central Government.

The RTI Online project was handed over to the Centre for e-Governance by the Department of Personnel and Administrative Reform (Janaspandana) on 11.11.2020. RTI Online portal is in progress in all the departments of the state government and their respective subordinate offices, corporation boards and related institutions.

- a) In the first phase, 516 public authorities and in the second phase, 1,003 public authorities have been trained and onboarded the RTI Online portal effectively. From 4.2.2020 to 31.12 2024 more than 1,71,841 requests have been received through the RTI online portal, 1,23,543 requests have been disposed off and 36,916 first appeals have been received through the RTI Online portal, out of which 19,117 first appeals have been disposed off.
- b) Khajane-2 has been integrated with RTI Online application for the payment gateway and the integrated application has been migrated from National Informatics Centre (NIC) Data Centre to Karnataka State Data Centre (KSDC). Additionally, the integration of eOffice and Family ID with the RTI Online application is in progress.

### 12.1.16 Crop Survey

During Kharif 2018, to alleviate the problems of data collection and for effective capture of survey/sub survey number-wise accurate crop data, the State Government conducted Crop survey using mobile software application developed by the DPAR (e-Governance) with the help of officials of the Revenue, Agriculture, Horticulture and Sericulture departments. Engaging educated youth (private residents-PR) of the village. Since 2019-20 it has been conducted in all the three seasons. 2024-25 Kharif season Crop survey work was completed. The data obtained from the crop survey is used to prepare the advance estimates of area, yield and production, MSP operations, to provide subsidy during disasters, settlement of claims to farmers under crop insurance scheme and for selection of beneficiaries under various agriculture and horticulture programmes.

### 12.1.17 Karnataka State Web Portal (KSWP):

The web portal of Government of Karnataka is an integrated solution providing a single point of information and interaction, for all citizens, visitors and businesses. The websites of various Departments are further enabling the Government to bring G2C, G2G and G2B services to the citizens and external agencies, increasing its authenticity, uniformity and trustworthiness.

- a) The Webportal Team has developed an in-house model template complying with GIGW and Accessibility guidelines and recommendations of Kannada AbhivruddhiPradhikara. Till date, Centre for e-Governance has redesigned, developed and hosted 727 websites of various Government Departments, Corporations, Boards and other allied agencies.
- b) Karnataka State main portal ([www.karnataka.gov.in](http://www.karnataka.gov.in)) has been redesigned and maintained regularly with regular updates of People's representatives and officials.
- c) Uniform Domain Nomenclature has been provided to all Government websites for easy accessibility by the general public. For example: [www.dpar.karnataka.gov.in](http://www.dpar.karnataka.gov.in)
- d) Few websites were redesigned and revamped, which includes APPSTORE - An umbrella website to notify all government-related APPS / web-applications to its citizens.
- e) **District Incharge Secretaries (DIS) portal:** - Reporting of all field level issues across Districts is made easy, saving tedious paper works and speeds up the process of resolution.
- f) **Chatbot:-** Added Chatbot integration as New Feature for all 7 ITBT verticals
- g) **IT Policy Pillars:-** Data Centre Policy, Cyber Security Policy, Engineering R & D & Karnataka Global Capability Centre Policy have been added for EITBT website.

- h) **SUTF:** - Funding application for State Urban Transport, DULT (Directorate of Urban Land Transport)
- i) **IUT - Inter Unit Transfers:-** A new application for Karnataka State Police managing the internal transfers and head count.
- j) **Akanksha:-** Developed & Deployed API Module for transformation of schools
- k) **Yuvaraja:-** Integrated Google Analytics, Pixel Implementation and API Integration with LMS
- l) **E-Office Citizen Portal:-** Restoration of E-Office Citizen Portal, Deployment & Go Live
- m) **Gender Sensitization:-** LMS application for Bengaluru City Police

#### 12.1.18 Karnataka Government Secretariat LAN (SECLAN):

The Secretariat LAN (SecLAN) is the largest enterprise grade Wi-Fi Network spread across Vidhana Soudha, Vikasa Soudha, M.s Building, Annex and Lokayukta.

SecLAN 2.0 is the upgraded version providing both wired and Wireless connectivity, approved at a budgetary cost of 37 crores. 1700 Access Points have been provided with adequate backup and 4200 end user devices are connected and each device gets a maximum of 700 Mbps bandwidth. The users of SecLAN network can access both Intranet applications hosted the State Data Centre and internet applications in Government portals. The SecLAN 2.0 project had been declared Go live on 23rd Dec 2021 and operational for 5 years from the Date of Go-Live. Different access privileges have been provided to SecLAN Users for efficient operations and management of the network.

#### 12.1.19 National Academic Depository (NAD)

National Academic Depository (NAD) is an initiative by the Ministry of Education (MoE) to provide a 24X7 online depository to Academic institutions to store and publish their academic records (Marksheet, Caste certificates). The digital depository not only ensures easy access to and retrieval of an academic award but also validates and guarantees its authenticity and safe storage. To ensure that the academic awards are stored permanently in a secure digital depository. This system not only ensure easy retrieval and access of academic awards but also maintains the authenticity, integrity and confidentiality of the documents. This depository reduces / eliminates the circulation of fake documents. The highlights of the NDD are as detailed below.

- a) ABC training session being carried out for all the Universities (State Public, Private and Deemed to be) and also for all the Education Boards of the state
- b) Designed exclusive templates (certificate and marks card) as requested by Atria University and Kannada University Hampi.
- c) IEC activities for bulk ABC / APAAR ID creation procedure.
- d) Onboarding autonomous institutions.
- e) 173 Universities / State Public/State Private/State Open University/Central University/Deemed-to-be Universities/Institute of National Importance/Autonomous Colleges/Educational Boards/ Standalone Institutes/ registered in NAD of which 163 Universities published academic awards on NAD.
- f) NAD serves as a verification platform for the Government of Karnataka's Yuva Nidhi scheme – Ensuring NAD API integration with Seva Sindhu creating hassle-free process in receiving the scheme benefit to the eligible student.

### 12.1.20 Mahiti Kanaja

Mahiti Kanaja is a unified web-portal designed to provide information to citizens under Section 4(2) of the Right to Information Act, 2005. Centre for e-Governance has developed this web-portal to ease the availability of the information to the citizens of the state. As of now 579 services from 150 departments are successfully onboarded on to the platform. It ensures availability of beneficiary-oriented data and bridging to the problem statements across the department via Digital Dialogues. The future plans are as detailed below.

- Upskilling departments regarding Data Visualization.
- Institutionalizing of Digital Dialogues meeting at the grassroot levels.
- Developing voice bot and chatbot services.

### 12.1.21 FRUITS: Farmer Registration and Unified Beneficiary Information System

FRUITS is an e-Governance initiative to have common database of farmers and other beneficiaries who want to avail farm related benefits and services from the Government. It also facilitates various departments in providing assistance to the beneficiary by connecting to DBT portal and therefore also acts as a repository of benefits provided. "FRUITS" is aimed at bringing departments like Agriculture, Horticulture, Sericulture, Animal Husbandry & Veterinary Sciences, Fisheries, Backward classes and Social welfare on to a single platform.

FRUITS helps in Registering Farmers and citizens involved in farm related activities and provides a unique Farmer ID (FID). The Registration is once in lifetime activity, as a result the beneficiary need not carry his/her documents to the next department and for every scheme. FRUITS is integrated with the state DBT portal and through the DBT portal it is integrated with Khajane II (K2) /Financial Management System. Facilities provided under FRUITS are furnished below:

- a) **Beneficiary Registration:** Facility for departmental hierarchy to register and approve (Maker-Checker concept) and to register themselves online and choose a department to get approved
- b) **Facility for citizens Modifications to existing data:** Facility to departmental hierarchy to modify the registration details and to add land parcels to an existing farmer.
- c) FRUITS is connected to the crop survey database, DBT portal (of e Governance department) so that crop details are also available, eases out the process of integration with K2 by individual departments and also avoids creating recipient ID for individual beneficiary and data exchange with different departmental applications to maintain a common beneficiary database.

Till 15<sup>th</sup> of December 2024 more than 98.98 lakh farmers are registered in FRUITS Out of which around 72 lakhs are with land.

Benefits were provided to farmers through FRUITS under major beneficiary schemes namely, Crop Insurance, MSP procurement, Milk incentives to milk pourers of KMF, Disaster relief to damaged crops- Input subsidy for crop loss due to drought and flood, Crop loan through Financial Institutions, Various other schemes and services of Agriculture and allied departments, PMKISAN where more than 80.92 lakh uniquely registered farmers availed benefits. Around Rs. 30759.16 Crores of assistance provided through the system by various departments. Banks and Co-Operative institutes are also using FRUITS for extending Agriculture loan. More than 16,000 Branch's including more than 5,500 PACs are using FRUITS data.

### 12.1.22 Integrated Public Grievances Redressal System(iPGRS)

Government of Karnataka launched Integrated Public Grievance Management System (iPGRS) on 1st November 2021, also known as Janaspandana, is a one stop multi-modal, data-driven & paperless IT platform to transform the Karnataka's Grievance Management System for registration, processing and redressal of the public grievances regarding the delivery of services and schemes of various Departments of Government of Karnataka.

The citizens can register their grievances pertaining to 41 Departments and 3000 + schemes/services delivered by the Government of Karnataka. As on today 2,12,870+ grievances have been received through web portal (<https://ipgrs.karnataka.gov.in>), the android mobile application -Janaspandana and dedicated call centre with the Helpline number 1902.

The iPGRS has also been integrated with the PG portal of Govt. of India- CPGRAMS to receive and redress the grievances registered on CPGRAMS. The information on redressal of such grievances will be sent to CPGRAMS through a web service. The citizens visiting CPGRAMS of GoI can select Karnataka State and file their grievances directly in iPGRS portal.

More than 6000 + probable grievances of the Government of Karnataka and field level officers have been pre-mapped. More than 35,000 + LMF, L2, L3 officers have been trained.

Hon'ble Chief Minister's Janaspandana (CMJS), District Janaspandana (DJS), CMO- Letter Monitoring System(LMS) & Chief Secretary office (CSO) modules have been newly developed in the IPGRS portal.

Hon'ble Chief Minister's Janaspandana (CM-JS) - Two separate options are provided to register the applications received from citizens at various places by the Hon'ble Chief Minister in the IPGRS portal and is integrated with e-office.

- 1) Grievances regarding services and projects will be forwarded to the Last Mile Functionaries of the concerned department.
- 2) The petitions/ requests will be forwarded to the ACS/PRS/Secretaries to Government and the Heads of Departments / Managing Directors/Deputy Commissioners /Chief Executive Officers of Zila Panchayats / District Superintendents of Police.

CM-JS Module integrates with e-Office to track petitions and grievances associated with CM's Janaspandana. DJS module integrates with e-Office to digitize requests and grievances filed during District Janaspandana. As on 16-12-2024, total 9,002 grievances and 6,347 requests/petitions have been registered in the Hon'ble CM Janaspandana module and out of which 8,947 grievances and 6,272 requests/petitions have been resolved.

**District Janaspandana (District-JS):** The applications / petitions / requests received from the public at the Janaspandana held in each district of Karnataka are registered on the spot in the District Janaspandana module and forwarded to the concerned departments and to the ACS / PRS / Secretaries to Government and Heads of Departments / Managing Directors and is integrated with e-office.

As per the orders, District Janaspandana is being held across the State under the Chairmanship of the District in-charge Minister every month from 25/09/2023. As on 16-12-2024, 412 District Janaspandana has been organized in the districts and the details of the petitions & 51721 grievances are registered out of which 50335 are resolved (97.32%) and 1386(2.67%) are pending.

**Chief Secretary Office (CSO):** A module has been developed to register & monitor the Grievances/Requests received directly from citizens at the CS office and is integrated with e-Office. As on 16-12-2024, a total 378 requests/petitions have been registered in the Chief Secretary office module and out of which 25 requests/petitions have been resolved.

**CMO-LMS:** e-Office has been integrated with IPGRS to register the letters/notes of elected representatives received in the office of the Hon'ble Chief Minister at IPGRS and forwarded to the ACS / PRS / Secretaries of the concerned Departments. As on 16-12-2024, 8,950 have been registered. Out of them, 5,463 letters / notes have been resolved.

### 12.1.23 e-Sahamathi

e-Sahamathi (Consent Management Platform), a first-of-its-kind software in the country, to allow non-government organisations to access genuine documents of citizens with the consent of the data principal while adhering to data privacy standards. Any citizen (data principal) can use the e-Sahamathi consent framework to share their consent for the Data Seeker / Third Party Service Provider (TPSP) to access their data directly from the Data Fiduciary (the department keeping that data). An awareness program on Data Exchange has been carried out across the various districts of the state. It is planned to Revamp of e-Sahamathi portal (version 2.0), Design and developing a tool for obtaining the digital consent as a service.

### 12.1.24 Directorate of Electronic Delivery of Citizen Services (EDCS)

Directorate of Electronic Delivery of Citizen Services (EDCS) was constituted on 17-01-2007 under Department of Personnel and Administrative Reforms (e-Gov). EDCS Projects which are associated with delivery of services to citizens through electronic modes Viz., ICT enabled centres, portal, etc. The main objective is to provide government services in a cashless, contactless, and paperless manner and reduces turnaround time and office visits by citizens.

The projects being implemented under Directorate of EDCS are Seva Sindhu Project, Grama One Project, Suvidha Project, Bangalore One Project, Karnataka One Project, Janasevaka Project and Mobile One Project.

### Seva Sindhu – One Platform, Many Services

It's an ambitious initiative of Government of Karnataka to deliver Government services to Citizens in cashless, contactless and paperless manner; in turn, reducing turnaround time and eliminating physical visits to the Departments/ Government offices by citizens.

#### Key objectives of Seva Sindhu:

- One platform - many Services
- Convenience – Online or assisted mode
- Accountability & Transparency
- Cost reduction

#### Achievements are:

- Implementation of Gruhajyothi, GruhaLakshmi, YuvaNidhi Schemes
- Development of Transgender application for GruhaLakshmi scheme.

- De-Linking and re-linking of GruhaJyothi scheme
- Self-Declaration service for YuvaNidhi Scheme
- Entry Ticket for Mysore Dasara Film Festival
- MIS Dashboard for Sindhutva Service
- Integration of Operation Partner's Wallets into Seva Sindhu
- Service development to supply Free power to Government Schools & PU Colleges
- Asset Management Service for DPAR (e-Governance) Department
- Upgradation of AJSK Services
- Development and Integration of Sakala notified Services into Seva Sindhu
- Development of Tourism Department services
- Development of Services for Muzrai department (Kashi Yatra, Chardham, Manasa Sarovar and Tasdik)
- Development of Sakala notified services
- Biometric e-KYC service for Social Welfare Department

Beneficiaries under the Guarantee schemes are provided up to end of November 2024 in **Table 12.3**

**Table 12.3**

| Scheme       | No of Citizens Enrolled | DBT Processed |
|--------------|-------------------------|---------------|
| Gruhajyothi  | 1,55,34,673             | NA            |
| Gruhalakshmi | 1,26,17,756             | 1,23,41,646   |
| Yuvanidhi    | 1,77,887                | 1,06,797      |

### Grama One Project

Grama One is expected to be a single point assistance centre for all citizen-centric activities at the village level, including G2C services, B2C Services and banking services. It was announced by the Honourable Chief Minister of Karnataka in 2020-21 budget and was officially launched on 26-01-2022.

- Grama One centres were established in all Grama Panchayats covering entire rural population, all the rural citizens were able to avail the services at their Grama panchayat's itself instead of travelling to towns or cities, there by saved the cost, time and efforts of citizens.
- To deliver the services which are in electronic mode to rural citizen who are facing difficulties to use digital platforms.
- To avoid dependencies on Government offices and middle men.
- Among available digital service centres the distribution was not uniform, not thoroughly monitored and controlled.

- Grama One centres were introduced to bridge the gap and to work as channel from citizen to government and vice versa.

Total of 7400 centers were made operational with 658 services offered; 3.82 crores transaction was done with a turnover of 327.11 crores from January 2022 to December 2024.

### Suvidha

Suvidha is a one stop solution for benefit delivery of Government's Welfare schemes in Karnataka. It also strives to enable an ecosystem of hassle-free benefit delivery to beneficiaries by using integrated technologies to verify data at the source and do a DBT to the beneficiaries.

164 schemes have been developed and managed for the following Departments/Boards and Corporations Energy Department, Social Welfare Department, Department of Women and Child Development, Backward Classes Welfare Department, Directorate of Industries and Commerce (MSME), Department for the Empowerment of Differently Abled and Senior Citizens, Farmers Aadhaar linking for Irrigation Pump sets upto 10 HP and Application for Coffee Growers (reimbursement)

### Jana Sevaka Project

Jana Sevaka is an enhanced assisted delivery model wherein citizens can avail services at their doorstep. Currently, 80 services of 9 departments are being delivered in BBMP areas. Citizens can book slots Citizens can book slot via call centre or slot management application.

#### Features are:

- Citizens can book a slot as per their convenience between 8am-8pm on all 365 days through call centre (080-44554455), website ([www.janasevaka.karnataka.gov.in](http://www.janasevaka.karnataka.gov.in)) or mobile app.
- Saving in time, effort and money on traveling to Government offices or citizen service centres for availing services. No need to wait in long queues to avail services. This is especially helpful for senior citizens, physically challenged persons etc.
- No more dependency on middlemen
- Due to Integration with Sakala, delivery of services within notified time is ensured without compromising the quality-of-service delivery.
- The important indicator of good governance being public participation in governance is indeed achieved through Jana sevaka. Trust between government and community increased because of services rendered through Jana sevaka.
- 360-degree appraisal is done using valuable feedback from citizens after each visit through follow-up calls from Jana sevaka call Centre.

Total 84 Jana Sevaka services were created with transaction of 5.93 lakhs and 7.28 crores turnover up to December 2024.

### Bangalore One and Karnataka One Project

Bangalore One and Karnataka One are initiatives by the Government of Karnataka aimed at providing citizen-centric services through a single-window interface. Bangalore One started in 2005 with an objective of

providing various G2C and B2C services under a single roof. 156 Bangalore One Centres are operational across Bangalore city delivering 909 services with a Transaction of 35.39 crores and 25,980 crores of Turnover from April 2005 to December 2024. The replication of Bangalore One is known as Karnataka One started in 2008. 838 Karnataka One Centres are operational covering 286 ULB's delivering 850+ services with a transaction of 850.48 lakhs and 7,944.05 crores of Turnover from February 2008 to December 2024.

### **Mobile One – Mobile Applications**

A multi-mode mobile governance platform by Karnataka government, aims to deliver Mobile Apps, SMS, WhatsApp and IVR Services to various Departments of Government of Karnataka

Achievements are: Parihara 3.0, Guarantee Schemes Survey, Out Of School Children Survey (49 Lakh entries made), Free Spectacles Distribution, Ganga Kalyana App and High Court App – Digital Diary

In SMS Service provided, total 368 Senders IDs were created, 10,443 SMS templates registered and 1,55,33,10,578 SMS were Delivered from March 2024 to December 2024.

### **Guarantee Schemes Survey**

The survey was conducted to create the awareness about the schemes, its benefits and to get feedback from the beneficiaries. Total of 1.25 lakh enumerators were enrolled to conduct the survey. The survey was conducted between 26th February to 15th March 2024 the number of beneficiaries in each Guarantee scheme are Gruhajyothi; 67,84,350 Shakthi; 3,18,00,000, Gruhalakshmi; 77,21,259, Annabhagya; 1,15,37,174 and Yuvanidhi; 5,23,492, are surveyed and major finding in the survey are.

The Registration process to be very easy with registration 80% Gruhajyothi and 76% in Gruhalakshmi, amount was used to buy provisions, fruits and vegetables, school, education and of their children, medical expenses and general household expenses. In Shakthi scheme beneficiaries are utilizing the free ride benefit and it is very easy to get the free ride. In Annabhagya, survey 90% feels that government must provide other food items like pulses, oil etc. In Yuvanidhi survey 73% youth feel less stressed as they are getting the money.

### **12.1.25 Karnataka State Remote Sensing Applications Centre**

Recognizing the capabilities of the cutting edge technologies like Remote Sensing, GIS and GPS in addressing various issues of planning, development and management of natural resources for equitable growth and balanced development on sustainable basis, the Govt. of Karnataka established the Karnataka State Remote Sensing Applications Centre (KSRSAC) in the year 1986 and later designated it as the Nodal Agency for implementation of Remote Sensing (including Photogrammetry) and GIS programme in the state, during 2020. The Centre is working under the administrative control of Department of Personnel and Administrative Reforms (e-Governance) headed by Secretary to Government.

The activities of KSRSAC are guided and monitored by the Executive Committee chaired by the Secretary, DPAR (e-Governance) with Principal Secretaries/Secretaries of various line departments and subject experts as members.

To meet the requirements of the departments of Government of Karnataka (GoK) various projects were taken up to support their spatial data needs and also for the national programmes on utilization of RS and GIS technologies. The activities include the GIS data creation & its organization, analysis & utilization in decision making, development of web and mobile applications to assist in data collection, monitoring, planning and decision support activities.

The Karnataka-GIS Program continued its activities from April 2019 after completing its mission mode period of 3 years (April 2016 to March 2019). Under the programme the various geospatial activities were taken up based on the requirements shared by the departments of Government of Karnataka (GoK). These activities include the GIS data organization, spatial data and database management, web and mobile application development etc for the operational activities of monitoring, planning and decision support.

The KSRSAC has been conducting M. Tech Programme in Geo-informatics in association with Visvesvaraya Technological University (VTU) from the academic year 2004-2005.

### 12.1.26 Sakala Mission

- The Act was implemented across state of Karnataka on 2nd April 2012 with 151 services and 11 departments. At present there are 1,255 services notified under 108 departments/institutions in Sakala.
- As on end of December-2024 Sakala Mission has received 36,43,47,749 applications and disposed 36,37,06,793 applications at in-time disposition rate of 99.82%
- There is an exclusive **call centre** with popular **helpline number 080 4455 4455** to assist citizens.
- **@SakalaKarnataka** is official social media pages of Sakala (Facebook, Twitter, Instagram and YouTube) with sakala@nic.in being email ID for managing the service related issues.
- Sakala Arivu Harivu (2023) program has been organized to provide suitable training to the field level staffs of respective departments who are having regular public interactions. Under this program training is provided by Sakala District IT Consultants to the representatives of Bapuji Seva Kendra, Grama One, Anganwadi as well as Asha Karyakarthas, and to the members of Self-Help Groups. The training program was started in the month of August 2023 and 17,479 Master Trainers and 12,913 employees have been trained through Cascaded training as on 26-11-2024.
- Sakala Mission has won the “Best Citizen Carring Government Department Award 2023” under Tesz platform.
- Reason for Rejection Module - Under the chairmanship of Honourable Revenue and Sakala Minister it was instructed to list all the possible reasons for rejection for each Sakala notified service and implement rejection drop down. Among 921 Sakala notified citizen services, most utilized 721 services were identified and due to regular follow up by Sakala Mission, Sakala Mission was able to receive list of reasons for rejection for 417 services. Rejection codes have been already generated for 408 such services and shared with corresponding departments. Among these 408 services the rejection drop down has been already implemented in the departmental software of 3 departments for 27 Sakala notified services and integrated with Sakala software.
- Appeal Prompt Appeal SMS feature for rejected service applications was launched on 13-09-2023.
- Parking Module- State’s cumulative service applications rejection rate has been 6.48%. The parking module is an initiative to reduce the rejection rate of service applications. Whenever the Designated officer processes an application for payment of service fee or seeking clarification from the applicant, such applications enter the parking zone. This Parking Zone timeline is exclusive of Sakala Timeline and opportunity for applicants to avoid rejections of their applications by providing requested clarifications and completing the pending fee payment.

### 12.1.27 Single Sign On (SSO):

- In the current digital world more and more applications / services are offered online at citizen's doorstep. The spread of web and mobile services has surely simplified life of citizens; however, it also makes it vulnerable. A wall of security which was there due to one's physical presence is now removed. Possibility of stealing one's valuable data by forgery is a threat if proper security measures are not taken. Some of the online services are trying to secure the data and communication by authenticating the user through login- password mechanism. The approach however has multiple limitations such as:
- Single way Authentication - The authentication mechanism provides only one way of authentication. Only service user gets authenticated to the service, however, the authenticity of the service may not be guaranteed to the User. User may be accessing a phishing site and is unaware of it.
- Multiple Logins – Users have to remember many logins and passwords to access various services which becomes a tedious task and users start maintaining login password list which defeats the whole purpose.
- Authentication Mechanism Change – Sometimes online services realize that the data they are sharing is more sensitive and will need stronger authentication to improve security. If authentication is implemented at every service level there are time, cost and efforts implications.
- In order to address these concerns a centralized authentication framework was designed. It provides unified login through its own SAML 2.0 based Single Sign On (SSO) for applications in an integrated manner. The SSO feature provides registered users a single window to access all services that are integrated with this framework.
- Secure authentication with four levels (password, OTP, Digital Certificate, Biometrics) of assurances.
- Fraud management techniques like Symmetric channel encryption, Digitally Signed Token, Alert notifications to users on Browser / OS usage pattern changes, etc.

The SSO applications Login Transaction Summary from last 6 months from April 2024 to December 2024 was Rs 1033,184.

### 12.1.28 Business Process Re-engineering (BPR-Cell)

Business Process Re-engineering (BPR-Cell), Centre for e-Governance is a strategic management approach that is focused on fundamentally rethinking and redesigning business processes to achieve significant improvements in performance, efficiency and effectiveness. These improvements can impact various aspects of the Governance including cost, service quality and delivery time. BPR is not a one-time project, but a continuous journey of innovation and optimization.

BPR aims to fundamentally reshape how work is run. Using IT for automation and integration to optimize workflows, eliminate tasks that don't add value and restructure existing processes, ultimately benefiting both the Government and its citizens.

1. BPR-Cell was set up under Centre for e-Governance in 2023-24 following a Budget para-329 with an objective of Business Process Re-engineering of 100 citizen services based on high requests, rejections, dissatisfaction, complaints, and higher level of delay in providing services. Business Process Re-engineering done for 97 services and 3 services work is in progress. Additionally, BPR Cell has done 21 services under Revenue, Labour, Higher Education and Agriculture departments. All these services are under various stages of implementation by the departments.

2. During 2024-25, as per the Budget para-426, Business Process Re-engineering has been done for 31 services and 9 services work in progress out of 120 SAKALA off-line services. Parallely, EDCS is implementing these services.
3. Additionally, BPR for 24 offline services of Atal Janasnehi Kendra under Revenue Department and 33 EoDB services under various departments Business Process Re-engineering work is in progress.

Business Process Re-engineering (BPR) leads to following improvements in Government service delivery:

- a. Increase database usage
- b. Simplified Application Forms
- c. Reduced document submission
- d. Efficient verification process
- e. Faster service delivery

Muster Roll, Maintenance of Vehicle Registry, Sericulture Passbook, Farmer's Dairy, Allotment of plots/sheds/shops/flats/godowns registry, Trade Registry, Water allocation registry, Marriage Registry, LGD Code registries are suggested in BPR as policy initiatives to capture relevant details that will help for the state for effective implementation of schemes and policies of the Government.

### **12.1.29 Unified Land Management System (ULMS)**

Unified Land Management System (ULMS) established during 2020-21 is a comprehensive platform designed to streamline the administration, monitoring, and regulation of land use and land resources. It integrates various processes and functionalities related to land management in a unified, digital framework, often with the goal of improving efficiency, transparency, and coordination between different stakeholders involved in land use planning and management. These stakeholders could include government agencies, private landowners, planners, developers, environmental groups, and the general public. It is a single statutory source of truth with respect to land and properties.

In this system, everyone uses a single source of land and properties to update and edit their respective usage/ attributes for each land and property. This way the land and property database along with attributes/ information created and updated by various departments remains unique, consistent and up-to-date all times.

ULMS will have more than 40 modules to deliver different functionalities to various departments that have been on-boarded to ULMS and also for those departments that gets on-boarded in future. ULMS deals with various land and property related functionalities like Change of Land Use, Site and Building Plan Approval System, Property Tax etc. Till now 6 departments have been on-boarded to ULMS. 87 sub-modules have been developed.

## 12.2 SPECIAL DEVELOPMENT PLAN FOR BALANCED REGIONAL DEVELOPMENT

Karnataka has always demonstrated vibrant potential for growth. Despite the natural resource constraints and unfavorable conditions, the State could maintain above average performance in basic development indicators. It is placed at the median level on most of the development indicators. During the last five decades, the State has made efforts to achieve rapid growth through investments in agriculture, industry, infrastructure and other sectors.

With the sharp North-South divide existing in the State, the regional gap emerged in the State on the eve of the reorganization of States in 1956. The new areas that joined the State from Hyderabad State and Bombay State were relatively less developed than the Old Mysore State. This area formed the Northern part of the State. In the absence of focused efforts in the past, the development gap increased over a period of time leading to marginalization and exclusion of the region and its people from the mainstream development process. Efforts have been made over a period of time to reduce the un-developmental gap. However, there has been a growing realization that investment and focus on the area especially on initiatives to improve the human development indicators must be further accelerated.

### High Power Committee for Redressal of Regional Imbalances (2000-2002)

The High-Power Committee for Redressal of Regional Imbalances (HPCRRI) was constituted under the Chairmanship of Dr. D.M. Nanjunadappa assessed the level of development of 175 taluks in the state which spread over various sectors such as agriculture, industry, economic infrastructure, social infrastructure, and demography on the basis of 35 socio-economic indicators. Considering the state average of development in these indicators as the benchmark (equal to 1), the Committee estimated Comprehensive Composite Development Index (CCDI) with appropriate weights and identified 114 taluks as backward taluks. These taluks were further classified into most backward, more backward and backward taluks based on the value of CCDI. Taluks with CCDI of 0.53 - 0.79 were classified as most backward, those with CCDI of 0.80 - 0.89 as more backward and taluks with CCDI of 0.90 – 0.99 as backward. The distribution of the taluks under the above categories is given in **Table 12.4**.

**Table 12.4:**

| Region                 | Relatively Developed | Backward  | More Backward | Most Backward | Total Taluks |
|------------------------|----------------------|-----------|---------------|---------------|--------------|
| Bangaluru              | 18                   | 09        | 13            | 11            | 51           |
| Mysuru                 | 22                   | 10        | 10            | 02            | 44           |
| Belagavi               | 18                   | 14        | 12            | 05            | 49           |
| Kalaburagi (KK Region) | 03                   | 02        | 05            | 21            | 31           |
| Total                  | 61                   | 35        | 40            | 39            | 175          |
| North Karnataka        | 21                   | 16        | 17            | 26            | 80           |
| South Karnataka        | 40                   | 19        | 23            | 13            | 95           |
| <b>Total (State )</b>  | <b>61</b>            | <b>35</b> | <b>40</b>     | <b>39</b>     | <b>175</b>   |

The Table indicates the extent of regional imbalances existing in the State which was identified by the Dr. D.M. Nanjundappa Committee. Out of the 39 most backward taluks in the State, 26 taluks are in North Karnataka and 13 taluks are in South Karnataka, 21 in Kalburgi Division and out of the total 61 relatively developed taluks, 40 are in South Karnataka. The Committee has recommended a policy mix of resource transfer, fiscal incentives and special programmes for development of the 114 backward taluks in the State.

The following recommendations of the committee have been implemented.

1. Central University is established at Kalaburagi.
2. A High Court Benches are established at Dharwad and Kalaburagi.
3. A Women's University is established at Vijayapura.
4. IT parks are established in Kalaburagi and Hubli.
5. Food Park is established at Kalaburagi.
6. A Textile Park is established at Kalaburagi.
7. Airport is set up in Kalaburagi.
8. 6 new Government Medical colleges are established at Hassan, Mandya, Shimoga, Raichur, Belagavi and Bidar.
9. Dharwad mental hospital has been upgraded.
10. 38 Burns and dialysis wards are newly opened.
11. Horticulture University at Bagalkot and Horticulture College at Bidar have been established.
12. To support agricultural pricing, revolving fund is created.
13. Hubli-Mumbai flight is open to public.
14. Karnataka Veterinary and Fisheries Science University is established at Bidar.
15. Dairy Science College is established at Kalaburagi.
16. Kasturba Gandhi Girls Schools are established in all the 39 most backward taluks.
17. Dialysis wards are setup in 23 district hospitals and 34 taluks.
18. Bidar - Kalaburagi railway line is opened to public.
19. Sainik School is established in Kodagu District.
20. 49 Farmer Training Centers are established by the Agriculture Department.
21. APMC markets are capable of operating independently in 162 taluks
22. Mysuru to Chennai Airline Service is opened to public.

### Special Development Plan

The Committee has estimated the required resource flow in the 114 backward taluks to bring them on par with other taluks in the State for which an Eight-year Special Development Plan (SDP) has been recommended for implementation with an investment of Rs.31,000 crore, which includes Rs.15,000 crore from Normal Plan programmes, and Rs.16,000 crore as additional grants. The objectives of the Special Development Plan are as mentioned below

- To give a thrust to the development programmes in the 114 backward taluks to move towards a more balanced development in the State.

- To accelerate growth in the backward taluks through the stimulus of additional investment in various sectors and areas.
- To establish the needed institutions/ organizations to redress the imbalances in the concerned sectors in backward taluks.
- To provide location-specific sectoral schemes in backward taluks in order to raise the level of services in these sectors to the level of state average.

### A) Allocations under Special Development Plan

An eight year Special Development Plan (SDP) has been recommended for implementation with an investment of Rs.31,000 crores which includes Rs.15,000 crores from normal plan programmes and Rs.16,000 crores as additional grants. The focus of the SDP is on irrigation, rural development and social sectors. Sectors like energy and agriculture are also given additional financial assistance. The allocations in SDP across the divisions were based on the Cumulative Deprivation Index (CDI). This is estimated on the basis of the distance of the CCDI value from the State average ( $CDI=1-CCDI$ ). The allocation within the division and among the districts and taluks is again based on the respective CDI values of the additional investment of Rs.16,000 crore. The share of Kalaburagi division is the maximum i.e. Rs.6,400 crore. This is because the extent of development deprivation is more in Kalaburagi Division i.e.  $8.06 (8.06/20.26 \times 100 = 40\%)$  which is just equal to the total deprivation of entire South Karnataka.

The Special development plan was implemented from 2007-08 with an annual allocation of Rs.1571.50 crores. Though the period of the eight years Special Development Plan fixed by the High Power committee ended during 2014-15 it is being continued with the annual allocation of about Rs.3000 crores every year.

From 2007-08 to 2023-24 an amount of Rs.44074 crores has been allocated of which Rs.37662 crores has been released. The expenditure incurred is Rs.34381 crores which constitute 91% for the released amount. Yearwise and department wise financial progress from 2007-08 to 2023-24 is furnished in **Table 12.5**.

During 2023-24 an amount of Rs.2335.54 crores has been allocated to 25 Special Development and Aspiration Taluks development programmes comes under the purview of Rural Development and Panchayat Raj, Social Welfare, Welfare of Backward Class, Welfare of Minorities, Women and Child Development, Higher Education, Primary Education, Housing, Health and Family Welfare departments. As against the allocation, the amount released was Rs.2281.40 crores. The expenditure incurred was Rs.1770.78 crores.

For the year 2024-25, an amount of Rs.3076.99 cores is allocated for the development of aspirational talukas. It is allocated for the programmes of ten departments, namely 1) Agriculture, 2) Rural Development and Panchayat Raj, 3) Welfare of Backward Classes, 4) Welfare of Minorities, 5) Social Welfare, 6) Women and Child Development, 7) Higher Education, 8) School Education and Literacy, 9) Housing and 10) Health and Family Welfare. As on 31st January 2025, the amount released is Rs.811.35 crores and the expenditure incurred Rs.756.98 crores.

There were only 176 taluks in the state when the High Power Committee on redressal of Regional Imbalances headed by Dr D.M Nanjundappa submitted the report to the Government during 2002. At present there are 237 taluks in the state. Further, as against Rs.16000 crores recommended under Special Development Plan for the development of 114 identified backward taluks. The amount released and expenditure incurred from 2007-08 to 2023-24 is Rs.37662 and Rs.34381 crores respectively. To study about the impact of the Special Development Plan and to assess the backwardness of the talukas based on new development index as per para 248 of the budget speech of 2024-25, Karnataka Regional Imbalances Redressal Committee is constituted under the Chairmanship Prof. M. Govinda Rao Ph.D. vide notification dated 16.03.2024. The Committee has

started functioning from 01.09.2024 and as per the terms of reference it has to submit the report to the Government within a year.

**Table 12.5 : Financial achievements under SDP from 2007-08 to 2023-24**

(Rs.crores)

| Year         | Allocation      | Total Allocation including OB | Amount Released | Exp. Incurred   | % of exp.to total releases |
|--------------|-----------------|-------------------------------|-----------------|-----------------|----------------------------|
| 2007-08      | 1571.50         | 1571.50                       | 827.93          | 804.48          | 97.17                      |
| 2008-09      | 2547.34         | 2547.34                       | 1369.26         | 1153.94         | 84.27                      |
| 2009-10      | 2573.83         | 2573.83                       | 1731.12         | 1543.11         | 89.14                      |
| 2010-11      | 2584.00         | 2584.00                       | 1924.47         | 1762.54         | 91.59                      |
| 2011-12      | 2975.64         | 2975.64                       | 2529.99         | 2200.16         | 86.96                      |
| 2012-13      | 2680.00         | 2680.00                       | 2464.83         | 2402.92         | 97.49                      |
| 2013-14      | 2925.60         | 2925.60                       | 2053.63         | 2053.63         | 100.00                     |
| 2014-15      | 1228.48         | 1228.48                       | 1223.78         | 1212.73         | 99.10                      |

## 12.3 AREA DEVELOPMENT BOARD

### 12.3.1 Malnad Area Development Board (MADB)

Malnad Area Development Board came into existence as per the Malnad Area Development Act 1991. The main objective of the board is specifically to achieve overall development of the Malnad Area. The area under the jurisdiction of the board extends over 13 districts of Malnad Area along with the Western Ghats in 74 Taluks covering 65 Assembly Constituencies. The board depending upon the grants available and determines the specific requirements that needs to be made to fill gaps or those that cannot be funded from regular plans. The Board has taken up many initiatives including the formation of concrete roads in the areas inhabited by the weaker sections, providing safe drinking water in rural areas especially those affected by fluoride, construction of foot bridges and hanging bridges as well as formation of roads.

From 1993-94 to 2024-25, an amount of Rs.1023.70 crores has been allocated to the board of which Rs.950.63 crores has been released. As against the released amount, an amount of Rs.905.62 crores has been incurred upto January 2025.

During 2023-24, as against the allocation of Rs.36.02 crores, an amount of Rs.35.35 crores has been released of which the expenditure incurred is Rs.55.93 crores (includes opening balance). In 2024-25, an amount of Rs.35.34 crores is allocated of which the amount released is Rs.26.86 crores and the expenditure incurred is Rs.22.45 crores upto January 2025.

The year-wise allocation, releases and expenditure from 2015-16 to 2024-25 (upto Jan-25) is depicted in the graph.

### Achievements

- 1) During 2010-11, for the physical development of the child along with the curricular activities sports materials were supplied to the Anganwadi centers in the most backward talukas identified by Dr. D.M Nanjundappa committee under the Scheme "Chinnara Loka". The talukas are Channagiri, H.D. Kote, Chamarajanagara and Joida.
- 2) Since inception to facilitate the public and the children to cross the streams during rainy seasons 19 hanging bridges have been constructed with an expenditure of Rs.13.13 crores.
- 3) Executed the solid waste disposal system in Kadaba and Ujire villages in co-ordination with the Sri Kshetra Dharmasthala Rural Development Project
- 4) "Dr. Shivaram Karanth" theme park was developed at the cost of Rs.51.00 lakhs in Kotta Thattu village, the home town of Shivaram Karanth in Kundapura taluk of Udupi district.
- 5) "Koti Chennayya" theme park was developed at a cost of Rs.45 lakhs in Byndur taluk Udupi District during 2012-13.
- 6) Helipad was developed at a cost of Rs.65 lakhs at Basarihalli village in Hirekerur taluk of Haveri district during 2019-20

The financial and physical progress from 1993-94 to 2024-25 upto January -2025 is provided in **Annexure – 12.1 and 12.2**

### 12.3.2 Bayaluseeme Area Development Board (BADB)

Bayaluseeme (Maidan Area) comprises 57 Taluks of the State which have been recognized as drought prone taluks, and pose special problems for development. To hasten the development of this area for bringing

it on par with the other parts of the State, Bayaluseeme Area Development Board was established under Bayaluseeme Area Development Board Act 1994. There are 70 Assembly constituencies spread over 14 districts, come under the purview of the board. The main objectives of the Board are as detailed below.

- Development and Conservation measures in rain fed agriculture
- Adopting soil and water conservation measures in rain fed agriculture afforestation.
- Promoting Horticulture and Animal Husbandry.
- Promoting the allied sectors of agriculture.

Of total amount allocated to the Board, a minimum of 60% shall be utilized for water and soil conservation works and remaining amount shall be for other developmental works in Bayaluseeme area.

From 1995-96 to 2024-25 an amount of Rs.687.56 crores has been allocated for the developmental works of which Rs.605.75 crores has been released. The expenditure incurred up to January 2025 is Rs.600.93 crores.

During 2024-25, an amount of Rs.39.50 crores has been allocated, of which an amount of Rs.19.75 crores has been released of which Rs. 42.39 crores expenditure incurred including opening balance till January 2025.

**The year-wise allocation, releases and expenditure from 2015-16 to 2024-25 (upto Jan-25) is depicted in the graph.**

The financial and physical progress from 1995-96 to 2024-25 upto January 2025 is provided in **Annexure – 12.3 & 12.4.**

### 12.3.3 Karavali Development Authority (KDA)

The Karavali Development Authority was established in 2008, fostering the comprehensive development of the coastal regions of Dakshina Kannada, Udupi and Uttara Kannada districts. The main functions of the Authority are as mentioned below.

- Identification of potential projects to promote and develop essential infrastructure including roads, tourism, ports, industries, technology parks and over-bridges.

- Preparing of project reports for identified potential projects in collaboration with concerned administrative departments.
- Identifying projects for conservation and development of various coastal zones and recommending such works for inclusion in the state level planning.
- Implementing measures to ensure effective and timely supervision of projects focused on coastal conservation and development.
- From financial year 2015-16, Karavali Development Authority has been empowered to execute various development works such as construction of fish markets, bridges, commercial complexes, public amenities, etc., through other executing agencies.

From 2009-10 to 2024-25, an amount of Rs.161.68 crores was allocated. Of this amount, Rs.145.87 crores was released and an expenditure of Rs. 138.19 crores was incurred upto January 2025, which constitutes 94.73%.

In the year 2024-25, a budget allocation of Rs. 10.50 crores was made for developmental works. From this allocation Rs.7.88 crores has been released and an expenditure of Rs.3.80 crores is incurred up to January 2025.

### Achievements

- Hi-tech fish markets are constructed at Padubidri, Yedthare-Byndoor, Kaatpadi, Uppunda, Kota and Shirva in Udupi District and Ankola, Shirali in Uttara Kannada District, Kinnigoli and Panemangalore in Dakshina Kannada District.
- The following 5 hanging bridges were constructed at the cost of Rs. 7.85 crores in Uttara kannada and Dakshina Kannada district and handed over to the concerned Grama Panchayath.
  - Kudrugi Sharavati Hanging Bridge was constructed in Uttara Kannada during 2015-16.
  - Kuppepadavu Phalguni Hanging Bridge was constructed in Dakshina Kannada during 2015-16
  - Dongri Gangavali river Hanging Bridge was constructed in Uttara Kannada during 2016-17.
  - Chikkanagoda Hanging Bridge was constructed in Uttara Kannada during 2016-17.
  - Bettampadi hanging bridge was consturected in Dakshina Kannada during 2023-24.
- In the year 2023-24, KDA has under taken on several significant projects, including the construction of 10 Foot Bridges, 6 Fish Markets, 2 Parks, 23 Anganwadi/Schools and 206 kms of roads.
- During 2024-25 upto January 2025, 1 Hanging Bridge, 7 Foot Bridges, 5 Fish Markets were constructed.
- Form 2010-11 to 2012-13, the KDA in collaboration with the National Fisheries Development Board (NFDB) and the State Fisheries Department, sucessfully constructed Women Fish Markets. They are as below.
  - Shiral Fish Market
  - Padubidri Fish Market

- Uppunda Fish Market
- Yedthare-Byndoor Fish Market
- Udupi town Fish Market
- Panemangaluru fish market
- Kinnigoli Fish Market
- Katapady Fish Market
- Ankola Fish Market
- Kota Fish Market
- Shirva Fish Market

#### 12.3.4 Article 371(J) – Special Status for the region of Kalyana-Karnataka

The Article 371(J) has granted special status to seven backward districts of Kalyana Karnataka region namely, Bidar, Yadgir, Raichur, Koppal, Ballari, Kalaburagi and Vijayanagar.

##### **Brief Note:**

- (1) The Hon'ble President may, by order, made with respect to the State of Karnataka, provide for any special responsibility of the Hon'ble Governor for –
  - (a) Establishment of a separate development board for Kalyana-Karnataka Region with the provision that a report on the working of the board will be placed each year before the State Legislative Assembly;
  - (b) Equitable allocation of funds for developmental expenditure over the said region, subject to the requirements of the State as a whole; and
  - (c) Equitable opportunities and facilities for the people belonging to the said region, in matters of public employment, education and vocational training, subject to the requirements of the State as a whole.
- (2) An order made under sub-clause (1) may provide for –
  - (a) Reservation of a proportion of seats in educational and vocational training institutions in the Kalyana-Karnataka region for students who belong to that region by birth or by domicile; and
  - (b) Identification of posts under the State Government and in any body or organization under the control of the State Government in the Kalyana-Karnataka Region and reservation at the proportion of such posts for persons who belong to that region by birth or by domicile and for appointment there to by direct recruitment or by promotion or in any other manner as may be specified in the order.

The Constitutional obligation consequent to Amendment of Article 371(J) by insertion of Article 371(J), binds the State and Central Governments to put forth all out efforts for development of the Kalyana-Karnataka region besides ensuring the same by way of providing reservation in the Education and Public Employment sectors.

A Cabinet Sub-Committee was constituted to advise the State Government for effective implementation of Article 371(J). The Cabinet Sub-Committee has held wide range of discussions with all stakeholders of the region and has submitted a report to the Government. In pursuance to the implementation of Article 371(J) the State has issued the following orders:

- a. The Kalyana-Karnataka Region Development Board Order, 2013.
- b. The Karnataka Public Employment (Reservation in Appointment for Kalyana-Karnataka Region) Orders 2013 – Provides for creation of a local cadre and reservation in the Kalyana-Karnataka Region as under, besides reservation of 8% of the posts in the State level offices or institutions or apex institutions.
- c. The Karnataka Private Un-Aided Educational Institutions (Regulations of Admission in the Kalyana-Karnataka Region) Order 2013. - provides for reservation of 70% of the available seats in every course of study in any regional university or educational institution referred to in the First Schedule, besides 8% of the available seats in every course of study provided in a State wide university or a State wide educational institutions.
- d. The Karnataka Educational Institutions (Regulations of Admission in the Kalyana-Karnataka Region) Order 2013 provides for reservation of 70% of available seats.

### **Reservation in Education sector and Recruitment in Public Employment under Article 371(J) of the Constitution of India**

Special stress is laid upon for area development, reservation in public employment and reservation in admission to various courses for the local persons belonging to Kalyana (Hyderabad) Karnataka region under Article 371(J) of the Constitution of India conferring special status to the Kalyana (Hyderabad) Karnataka region. Consequential orders have been issued for implementation of Article 371(J).

A Cabinet Sub - Committee is reviewing the implementation of the same from time to time. The reservation imposed for filling up of vacant posts consequent upon the amendment to the Constitution by insertion of Article 371(J) has been relaxed permitting the appointing authorities to fill in the vacant posts both in the local and parent residual cadres after formation of local cadre and allotment of the local persons to the respective cadres based on their option. Clarifications and guidelines in the form of Circulars, Official Memorandum and Government Orders are issued from time to time for effective implementation. Action is being taken to fill in all the vacant posts in the Government offices located in the Kalyana-Karnataka region consequent to the accordable of special status to the Kalyana-Karnataka region providing for reservation in Public Employment and admissions to various courses in the educational institutions, ample opportunities are made available to the local persons in the Public Employment and Educational sectors.

Details of post sanctioned and filled and promotion given under 371(J) are as below:

- Direct Recruitment in Local cadre 1,05,168 posts are sanctioned out of which 74,179 posts are filled and 30,989 posts are vacant.
- Direct Recruitment in State Level cadre (8%), 19,864 posts are sanctioned out of which 13,390 posts are filled and 6474 posts are vacant.
- Promotion in Local cadre 42,115 posts are reserved out of which 26,490 posts are filled and 14,314 posts are vacant.
- Promotion in State Level cadre (8%), 2926 posts are reserved out of which 1759 posts are filled and 1147 posts are vacant.

To address the issue of backwardness in the State, Government has been implementing a Special Development programme (SDP) since 2007-08. 40% of budget, SDP is earmarked for Kalyana-Karnataka region.

Besides, Hyderabad Karnataka Development Board was also engaged in the development of this region till it was repealed on 22/02/2014. In pursuance to the Article 371(J) Kalyana-Karnataka Region Development Board was formed on 06/11/2013.

Kalyana Karnataka Region Development Board (KKRDB) has earmarked 60% of budget for bridging infrastructure gaps and 40% for institutional gaps. Administrative charges continued to be 1% of total allocation.

During 2023-24, an amount of Rs.3000 Crore has been released of which the expenditure incurred upto the end of March 2024 was Rs.2009.53 crores. As against 6211 approved works, 1804 works were completed as on Jan-25.

For the year 2024-25 an amount of Rs.5000.00 Crores has been allocated of which an amount of Rs.750.00 crores has been released to the Board. An expenditure of Rs. 1657.78 crores has been incurred including OB up to 21 Jan 2025. Out of 4508 works approved, 16 works are completed as at the end of Jan-2025. Financial & Physical progress of KKRDB from 2013-14 to 2024-25 are furnished in **Table 12.7**.

**Table 12.7 : Financial & Physical progress of KKRDB from 2013-14 to 2024-25**

| Year                  | Financial (Rs.in Crore) |                 |                 | Physical (works in Nos) |                 |
|-----------------------|-------------------------|-----------------|-----------------|-------------------------|-----------------|
|                       | Allocation              | Releases        | Expenditure *   | Approved works          | Completed works |
| 2013-14               | 153.50                  | 78.97           | 26.66           | 597                     | 597             |
| 2014-15               | 600.00                  | 300.00          | 322.59          | 1854                    | 1854            |
| 2015-16               | 1000.00                 | 750.00          | 493.66          | 3274                    | 3272            |
| 2016-17               | 1000.00                 | 750.00          | 960.02          | 2907                    | 2903            |
| 2017-18               | 1000.00                 | 800.00          | 450.32          | 4400                    | 4394            |
| 2018-19               | 1000.00                 | 1000.00         | 1193.54         | 4138                    | 4100            |
| 2019-20               | 1500.00                 | 1125.00         | 1246.81         | 4046                    | 3953            |
| 2020-21               | 1131.86                 | 1031.86         | 925.81          | 2276                    | 2091            |
| 2021-22               | 1492.97                 | 1492.97         | 1129.66         | 2242                    | 1906            |
| 2022-23               | 2900.00                 | 2900.00         | 1584.31         | 3541                    | 2154            |
| 2023-24               | 3000.00                 | 3000.00         | 2009.53         | 6211                    | 1804            |
| 2024-25 (Upto Jan-25) | 5000.00                 | 750.00          | 2007.76         | 4508                    | 16              |
| <b>Total</b>          | <b>19778.33</b>         | <b>13978.80</b> | <b>12350.67</b> | <b>39994</b>            | <b>29044</b>    |

\* Expenditure includes OB.

From 2013-14 to 2024-25 up to the end of January 2025 as against the allocation of Rs. 19,778.33 crores, Rs.13,978.80 crores has been released. Out of the released amount the expenditure incurred is Rs 12,350.67 crores which constitutes 88% of the expenditure for the released amount. Similarly as against 39,994 works approved, 29,044 works have been completed.

### Issues and Challenges:

Despite the interventions to develop the Kalyana-Karnataka region on par with the relatively developed regions, vital indicators relating to human development, in particular, of the region depicts that the gaps in the indices still persists. This indicates that the barriers to development are still strong enough to retard the development processes.

In this context, intensive efforts are required to bridge the development gap and attain equitable distribution of gains from development across regions and people in State. Therefore, to plug the backwardness of the Kalyana-Karnataka region, State has made a conscious effort by substantially increasing the allocation provided to the KKRDB and continuing the allocation of Rs.5000.00 crores during 2024-25. The focus, however, needs to be on education, health and nutrition and skill development along with development of farm and non-farm activities. Therefore, formulation and effective implementation of development programmes tailored to the needs of the region are required to meet the challenges of this region.

### **12.3.5 Karnataka Legislators Local Area Development Scheme (KLLADS)**

In order to accommodate local aspirations and needs and to ensure responsive planning and delivery of services, the Government has introduced the Karnataka Legislators Local Area Development Scheme (KLLADS) in 2001-02 with an allocation of Rs.25 lakhs per constituency. Schemes pertaining to asset creation, infrastructure development and employment generation for the benefit of the poor and weaker sections are taken up under this programme.

The allocation has been enhanced from Rs.25 lakh to Rs.100 lakh per constituency from 2006-07. Further, the allocation has been enhanced from Rs.100 lakh to Rs.200 lakh per constituency from 2013-14.

The KLLADS schemes follows a participatory demand responsive development approach to address infrastructure development requirements of the local area within a Legislators Constituency. It also provides flexibility in taking up works which are otherwise not covered by other government programs.

During 2023-24, an amount of Rs.600 crores was provided under this scheme of which an amount of Rs.590.50 crores was released. As on Jan-2025, out of 10,398 works recommended with an estimated cost of Rs.483.28 crores, 1481 works have been completed with an expenditure of Rs.63.90 crores. The remaining 8,917 works are under progress.

In 2024-25, an amount of Rs.600 crores was provided under this scheme of which an amount of Rs.440.00 crores was released. As on Jan-2025, out of 5,043 works recommended with an estimated cost of Rs.238.49 crores, 95 works have been completed with an expenditure of Rs.4.65 crores. The remaining 4,948 works are under progress.

## **12.4 KARNATAKA MONITORING AND EVALUATION AUTHORITY (KMEA)**

### **EVALUATION OF GOVERNMENT SCHEMES/PROGRAMMES**

A surge in public expenditure driven by economic growth resulted in a growing demand for Monitoring and Evaluation. Macroeconomic policymakers are concerned about quality in public spending and better outcomes from public investments. Karnataka was one of the first States in the Country to evolve an Evaluation Policy in 2000. The main aspects of the evaluation policy are:

- (i) Schemes over Rs.1 crore outlay evaluated at least once in a Plan period,
- (ii) 1% of the total outlay of a project/scheme to be kept for project evaluation purposes in the Department
- (iii) Outcomes to be used for Improving Programme Design and Delivery and
- (iv) Justification to take a Programme forward beyond the Plan period.

The increasing importance and usefulness of the Evaluation of Schemes are evident. The Government of Karnataka has made a budget announcement during 2021-22 that the schemes/projects with an annual

outlay of more than Rs.100 crores to be evaluated mandatorily once in the plan period. Karnataka Evaluation Authority (KEA) was set up vide Government of Karnataka order no. PD/8/EVN (2)/2011, dated: 11th July 2011 and registered as a society vide registration number DRB-C/SOR/140/2011-12 on 19th September 2011 under the Karnataka Societies Registration Act, 1960. It functions under the Planning, Programme Monitoring and Statistics Department (PPMS). KEA was renamed as Karnataka Monitoring and Evaluation Authority (KMEA) during August 2022.

The total receipts of Karnataka Monitoring and Evaluation Authority from 2011-12 to 2024-25 is to the tune of Rs.9142.32 Lakhs the Expenditure incurred up to December 2024 Rs.8145.02 Lakhs(89% utilisation), resulting in a balance of Rs.997.3 Lakhs.

#### **12.4.1 Evaluation studies completed from 2011-12 to 2024- 25**

During 2024-25, up to end of December 2024 KMEA has completed 05 studies and 07 are ongoing studies. Since its inception 2011-12, to till December 2024, 199 studies have been completed pertaining to line departments. The findings and recommendations of these evaluation studies have provided useful insights for improving the efficacy of the schemes. KMEA has also provided technical support for evaluations of schemes by the departments themselves. Apart from the grant for evaluation studies from the Government of Karnataka, KMEA receives funds from line Departments for preparation of various evaluation and research study reports.

#### **12.4.2 Studies completed during 2024-25**

##### **Studies completed during 2024-25are:**

- (1) Evaluation of Samagra Shikshana Karnataka from 2018-19 to 2020-21.
- (2) Tracer Study for Technical Vocational Education and Training (TVET) Employment Outcomes of Graduates from ITIs in Karnataka.
- (3) Evaluation of Activities of Mahila Samakhya, Karnataka from 2016-17 to 2022-23.
- (4) Evaluation of 34 defunct Multi Village Scheme (MVS).
- (5) Study on Environmental Problems and Congestion: Evolving Sustainable Solutions for Bengaluru.

#### **12.4.3 Impact of Evaluation studies**

Action taken report received from the departments on the recommendations of the evaluation studies during 2024-25 are: (a) Performance Evaluation of Karnataka State Police Housing and Infrastructure Development Corporation Limited in Karnataka State (2010-2021). (b) Welfare Impact Study of Cess Utilization by Construction Workers Welfare Board in Karnataka (c) An evaluation of mitigation methods used by human-elephant conflict and their impact on conflict resolution.

#### **12.4.4 Knowledge Partner/Technical Support/Capacity Building**

KMEA is a knowledge partner with the Development Monitoring and Evaluation Office (DMEO-NITI) for replicating the KMEA model across states.

It has supported the Nudge-Indian Administrative Fellowship Programme. KMEA is involved in the preparation of the Karnataka Economic Survey and Human Development Report. KMEA is conducting the capacity building

of Evaluation Consultant Organizations and Officers of the Government department on Monitoring, Evaluation and Learning. Internships are taken up as per the Government's requirements on SDGs and topical issues.

## 12.5 DIRECTORATE OF ECONOMICS AND STATISTICS

The Directorate of Economics and Statistics under Planning, Programme Monitoring and Statistics Department is a data mining platform and is responsible for providing the necessary data base for formulation of programmes and policies by the State. It has been empowered to act as Nodal Agency by Government in respect of all the statistical activities of the state and to provide advice to all the government departments on all the statistical matters. As and when required statistical data on various socio-economic activities of the state are being collected, processed, analyzed and published from time to time. DES also estimates Hobli and Grama Panchayat level Insurance unit wise average yield for the notified crops under Pradhan Mantri Fasal Bima Yojana and sent to Agriculture Department for settlement of insurance claims to the farmers. It also estimates for Gross State Domestic Product (GSDP), Gross Districts Domestic Product (GDDP), Per capita Income of the State and districts.

### Karnataka at a Glance and District at a Glance

The Directorate publishes important publications called "Karnataka at a Glance" and "District at a Glance" every year. From 2018-19, these publications are being brought out by collecting the data from taluk level / district level by linking the Geographical Information System developed by Karnataka State Remote Sensing Applications Centre (KSRSAC). These publications contain information about 2000 parameters both static information (Population Census, Agricultural Census and Livestock Census) and dynamic information related to the programmes of various development departments in addition to socio- economic and geographical information of the districts / taluks.

These publications contain not only statistical information but also spatial maps which indicate the taluks / districts which are less than the state average in the development indicators, which will be useful for the planners, administrators to formulate policies and plans for the backward taluks on priority basis. Based on the information of KAG / DAG 2022-23 the value of 49 indicators assigned by the Niti Ayog for Aspiration Taluks and 35 indicators used by Dr.Nanjundappa Committee to determine the backwardness of the talukas are worked out in order to give priority to those talukas which are less than the state average in the development indicators. The information is available on the website [www.des.karnataka.gov.in](http://www.des.karnataka.gov.in) and [www.planning.karnataka.gov.in](http://www.planning.karnataka.gov.in). The preparation of Karnataka at a Glance and District at a Glance for 2023-24 is under progress. The statistics information of Karnataka Compared with India is presented in **Appendix 12.5 & 12.6**. The information contained in this publication is being furnished to the HighPower Committee for Karnataka Regional Imbalances Redressal Committee constituted under the Chairmanship of Prof. M. Govinda Rao Ph.D. to identify backward Taluks in the States vide GO No. PDS 1 SDP 2024 (Part-1) Dated 16.03.2024.

During 2024-25 the focus of the activities was on the following:

- The Directorate of Economics and Statistics estimates area, yield and production of important agriculture crops grown in the State. As per the final estimates, the area under major agricultural crops grown in the state during 2023-24 was 104.07 lakh hectares of area of which the area under food grains was 76.73 lakh hectares. The estimated food grains production was 128.31 lakh tonnes during 2023-24.
- As per the First Advance Estimates, the area under major agriculture crops for 2024-25 is 77.02 lakh hectares of which area under food grains is 57.11 lakh hectares. The estimated production of food grains during 2024-25 is 102.34 lakh tonnes.

- Under Karnataka Pradhana Mantri Fasal Bima Yojane, during 2023-24, as against 1,32,070 crop cutting experiments planned on the crops notified by the Agriculture Department for all three seasons, 97,818 experiments were conducted. In addition, as against 4980 experiments planned for Non-CIS crops, 3887 CCEs were conducted. All together 1,01,705 experiments were conducted as against 1,37,050 Crop Cutting Experiments planned for 2023-24.
- Based on the results of the crop cutting experiments conducted at field level, 13984 Gram Panchayat wise and 4628 Hobli wise totally 18612 Insurance units average yield is finalized in Samrakshane Portal for 2023-24 and sent to the Agriculture Department for the settlement of insurance claims to the farmers.
- For 2024-25 kharif season, 80,104 crop cutting experiments are planned for the notified crops and 4340 for the Non-CIS crops. Out of the total planned 84,444 experiments, 67,649 experiments were conducted upto 28.01.2025. The remaining experiments are under progress. Of the total 13,539 notified insurance units, till date 381 GP wise and 397 Hobli wise totally 778 insurance units average yield of the notified crops is finalized in CCE Samrakshane Portal and sent to the Agriculture Department for settlement of insurance claims to the farmers.
- As per 10th Agriculture Census 86 lakh landholders of different categories namely marginal, small, medium, semi medium and large farmers in the State. Enumeration of landholders is completed in the State in the first phase of 11th Agriculture Census. The landholders information is submitted to Government of India.
- Enumeration of area under irrigated and unirrigated crops in 20 % of the villages in the State is under progress in the second phase of 11th Agriculture Census.
- Under the third phase of 11th Agriculture Census, conduct of the Input Survey in 7% of the villages in the State is under progress.
- Report on Sample Check on Development Scheme namely, Pradhan Mantri Krishi Sinchayi Yojane conducted during 2023-24 is under printing.
- Conduct of Sample Check on Development Scheme namely, infrastructure in Anganavadis and extent of their utilization is under progress.
- Preparatory activities to conduct 8th Economic Census in the State from April 2025 is under progress.

### **Registration of Births and Deaths in e-JanMa software**

- Registration of births and deaths is being done in 61903 registration centres of which 61250 centres are in rural area and 653 centres are in urban area.
- During 2024 the total number of births and deaths registered are 9.91 lakhs and 5.52 lakhs respectively as against 10.17 lakhs births and 5.39 lakhs deaths in 2023.
- The Birth rate for the year 2023 is 14.27 as against 14.69 during the year 2022.
- The Death rate for the year 2023 is 7.84 as against 8.07 during the year 2022.
- 73.29 lakhs old birth and death records which have been registered before the implementation of e-JanMa have been Scanned and Digitized during 2022-23.

- To ensure 100% registration of births and deaths in rural areas Gram Panchayat Secretaries are appointed as Birth and Death sub-registrars during 2022-23.
- Karnataka Registration of Birth and Death rules 1999 are amended in accordance with the Births and Deaths Amendment Act 2023 of Government of India and for which Notification was issued on 31.12.2024.

### Improvements made in e-JanMa Software

- The e-JanMa Software is currently integrated with Health Department's RCH portal, Aadhar software, Horticulture Department's FRUITS software, Kutumba Software. This has saved crores of rupees to the Government by removing deceased persons from the beneficiary list of the development programmes.
- Provisions have been made to collect the registered births and deaths certificates from Seva Sindhu and Grama One Centres.
- Digital Signature is made compulsory for the Registrars and Sub-Registrars to register births and deaths events.
- Birth certificates registered in e-JanMa software has been enabled to be downloaded in Digi Locker software
- Karnataka is proud to be the first state in India to incorporate births and deaths certificate registered in e-JanMa into block chain software from 01.04.2022. This software prevents duplication of births and deaths certificates and its misuse.
- e-JanMa software is integrated with Civil Registration System (CRS) portal of Registrar General of India through Application Programme Interface (API) and the registered births and deaths events are being ported to the CRSORGI portal from 24.08.2023.
- Demo auth is integrated with e-JanMa to authenticate the name of mother and father in case of Birth registration as mentioned in Aadhar with effect from 10.01.2023.
- With an aim to achieve 100% medically certified deaths in Karnataka, uploading of medical certificate of cause of death (Form 4) to e-JanMa has been made compulsory for all institutional deaths.
- A dashboard has been created in e-JanMa to view the number of Births and Deaths events registered within the stipulated time of 21 days and after.

### Training

- Common foundation training has been imparted to the 15 Probationary Assistant Directors at Administrative Training Institute, Mysuru from 19.11.2024 to 27.12.2024.
- Divisional level trainings have been organised at Belagavi on 21-8-2024 and Gulbarga on 27-09-2024 to impart training regarding statistical activities of the Directorate to the officers/officials who are working in various Departments in the Districts of the Divisions.
- State level Induction training for the newly recruited 66 Assistant Statistical Officers/Statistical Inspectors has been organised from 30.12.2024 to 03.01.2025.

## WAY FORWARD

The Directorate of Economics and Statistics, under Planning, Programme Monitoring and Statistics Department is a data mining platform and is responsible for providing the necessary database for formulation of programmes and policies by the State. At present it emphasizes more on data collection and less on data analysis. Further, the department has voluminous time series data on area, yield and production on various crops, landholdings, cattle population, Economic Enterprises which also requires analysts to give us insight into that industrial scenario, productivity, geographical spread, female participation etc. Hence, the department will be strengthened with the domain experts in Agriculture, education and health, industries and commerce for data analytics in future. The focus will also be on improving the quality of data and aligning the data with SDG goals.

### Appendix 12.1 Financial Progress Statement of MADB Since Inception

(Rs. In lakh)

| Year         | Allocation | Releases | Expenditure * | Year                     | Allocation       | Releases        | Expenditure *   |

### 13.1 Background of Sustainable Development Goals (SDGs)

On 25th September 2015, the United Nations 70th summit adopted the Resolution titled “Transforming our world: the 2030 Agenda for Sustainable Development” with 17 SDGs accompanied by 169 targets and 232 indicators to be achieved by 2030 built on the Millennium Development Goals (MDGs) adding new areas such as climate change, economic inequality, innovation, sustainable consumption, peace, and justice, among other priorities. Although these goals are interconnected, each has a separate list of targets to achieve. The SDGs were a result of complex consultation process involving UN member states, civil society, the corporate sector and many other stakeholders and individuals from around the world (United Nations General Assembly, 2015). The SDGs aim to initiate action, while guiding policy making and accountability for the elimination of poverty, promotion of prosperity, furthering of peace and justice, and conservation of the planet’s resources for future generations.

- Sustainable Development implies
  - promotion of sustainable, inclusive and equitable economic growth,
  - creating greater opportunities for all,
  - reducing inequalities,
  - raising basic standard of living,
  - fostering equitable social development and inclusion,
  - promoting integrated and sustainable management of natural resources and ecosystems.

Poverty eradication is at the heart of the 2030 Agenda and so is the commitment to “leave no-one behind”. This necessitates engaging with local Governments, social institutions, NGOs and SHGs to frame and implement programs and policies that envisage ‘Sab ka saath, Sab ka Vikas, Sab ka Vishwas’. Meeting these ambitious SDG targets set for 2030 calls for a new and innovative way of governance instead of the business as-usual approach. Vertical coherence is crucial in implementation of SDGs and district administration play a crucial role in advancing sustainable development. While it is important for state government to set State-level goals and targets and the mandates to support them, local governments are responsible for implementation on the ground.

The SDGs will stimulate action in areas of: People, Planet, Prosperity, Peace and Partnership

- **People:** To end poverty and hunger, in all their forms and dimensions, and to ensure that all human beings can fulfill their potential in dignity and equality and in a healthy environment.
- **Planet:** To protect the planet from degradation, including through sustainable consumption and production, sustainably managing its natural resources and taking urgent action on climate change, so that it can support the needs of the present and future generations.
- **Prosperity:** To ensure that all human beings can enjoy prosperous and fulfilling lives and that economic, social and technological progress occurs in harmony with nature.
- **Peace:** To foster peaceful, justice and inclusive societies which are free from fear and violence. There can be no sustainable development without peace and no peace without sustainable development.

- **Partnership:** To mobilize the means required to implement this agenda through a revitalised Global Partnership for Sustainable Development, based on a spirit of strengthened global solidarity, focused in particular on the needs of the poorest and most vulnerable and with the participation of all countries, all stakeholders and all people.

In a nutshell it is the universal, inclusive and indivisible agenda which calls for action by all participating countries to improve the lives of the people and the planet. While the SDG goals and targets set a global context, they have been designed in a way so that they can be adapted locally to meet the specific challenges. SDGs are interlinked (achieving one goal results in achieving other goals) and address all three dimensions of development viz; Economic, Social and Environmental aspects of development.

|                                                                                                                                         |                                                                                                      |                                                                                                                                     |                                                                                                |                                                                                                                                          |                                                                                                       |                                 |                                   |

| <b>16 PEACE, JUSTICE AND STRONG INSTITUTIONS</b><br> | Promote peaceful and inclusive societies and provide access to justice for all                       | <b>17 PARTNERSHIPS FOR THE GOALS</b><br>         | Strengthen implementation means & revitalize global partnership for sustainable development    | <b>SUSTAINABLE DEVELOPMENT GOALS</b><br>             |                                                                                                       |                                 |                                   |

#### Classification of SDGs under different Themes

Government of Karnataka is keen to ensure that implementation of SDGs in State is judiciously prioritized and adopted in accordance with local challenges, capacities and resources available.

Karnataka is following a comprehensive holistic path with effective and innovative implementation strategies considering the multidimensional nature (Social, Economic and Environment) of SDG goals. Government is ensuring investments across all sectors towards achieving SDGs, through scheme and budget mapping. Mainstreaming resource efficiency approach and convergence strategy in the outcome based development pathway would go a long way in achieving SDG Targets by 2030.

### 13.2 PREPAREDNESS OF THE STATE TO IMPLEMENT SDG 2030

State has formed the Monitoring and Coordination Committee and State level Steering Committee for formulation of effective and efficient action plans for achieving SDGs and goal specific committees have been formed to provide technical support through departments and experts that contribute to the Goal as members. The Karnataka vision 2020 and 2025 is now being integrated with Karnataka SDG vision 2030. This document provided the road map for realizing goals and targets of the State.

Goal-wise Committees have identified around 678 indicators which contains some of the national indicators and proxy state indicators where data not available for national indicators. Baseline Data has been prepared by Goal Committees with all relevant information / present status of major indicators and prepared action plan to achieve SDGs by 2030. Karnataka has been actively working towards spreading awareness about SDGs. State has constituted revised goal committees under the chairmanship of the respective departments to prepare action plan based on the recommendations given by the earlier goal committees.

Karnataka being one of the progressive states in the country is highly sensitive to universal developmental programmes initiated by international institutions such as United Nations Development Programme (UNDP), World Bank, UN and other organizations. State has been the front-runner in formulating action plan, vision and targets of sustainable development goals and it is proactive in formulation and implementation of programmes, to achieve the targets of SDGs.

**Table 13.1: Abstract of State Matrix**

| Goal Number | Number of National Indicators         |                            | State Indicators (Number)           | Data Sources |                        |        |
|-------------|---------------------------------------|----------------------------|-------------------------------------|--------------|------------------------|--------|

Source: SDG India Index Report 2023-24, NITI Aayog

State has improved performance in 11 goals in 2023-24 compared to 2020-21. They are 1, 2, 3, 6, 8, 10, 11, 13, 14, 15 and 16 and slipped in four Goals, namely 4, 5, 9 and 12. Four Goals (2, 4, 5 and 9) are under performer category, eleven Goals (1, 3, 6, 8, 10, 11, 12, 13, 14, 15 and 16) are under front runner category and Goal 7 is under achiever category (**Table 13.3**).

**Table 13.3: SDG Scores of Karnataka: 2020-21 and 2023-24**

| Year    | SDG 1 | SDG 2 | SDG 3 | SDG 4 | SDG 5 | SDG 6 | SDG 7 | SDG 8 | SDG 9 | SDG 10 | SDG 11 | SDG 12 | SDG 13 | SDG 14 | SDG 15 | SDG 16 |
|---------|-------|-------|-------|-------|-------|-------|-------|-------|-------|--------|--------|--------|--------|--------|--------|--------|
| 2020-21 | 68    | 53    | 78    | 64    | 57    | 85    | 100   | 66    | 64    | 67     | 78     | 89     | 62     | 60     | 67     | 76     |
| 2023-24 | 73    | 56    | 80    | 63    | 51    | 90    | 100   | 86    | 62    | 69     | 85     | 85     | 73     | 77     | 70     | 81     |

(0-49: Aspirant, 50-64: Performer, 65-99: Front Runner, 100: Achiever)

In 2023-24 report, around one hundred and twelve indicators across sixteen SDGs were considered and computed score in one hundred and eleven indicators (excluding % of SC/ST persons in the State Legislative assemblies). Under aspirant category, twenty five indicators are there in 2023-24 as against twenty eight indicators in 2020-21. Similarly, fifteen indicators are under performer category in both reports of 2023-24 and 2020-21. Under Front runner category, in 2023-24 report, thirty nine indicators covered, as against forty six indicators covered in 2020-21. Finally, under achiever category, thirty two indicators are considered in 2023-24 as against this, twenty four indicators considered in 2020-21. In around forty three indicators, the State has improved its performance in 2023-24 compare to 2020-21 report. In around thirty four indicators, the State is slipped in its performance when compared to 2020-21. There are about fifteen indicators wherein no change in the performance in both the reports. There are twenty additional indicators which have not appeared in 2020-21 report. Finally, there are about twenty two indicators which were dropped in 2023-24 (**Table 13.4**).

Table 13.4: Analysis of SDG Indicators

| Goal No. | Name of the Indicator                                                                                                                                  | Type of the Indicator | 2019-20 | 2020-21 | 2023-24 | Improved/<br>Deteriorated | Score 2020-21 | Category 2020-21 | Score 2023-24 | Category 2023-24 |

### 13.4 ALIGNING SCHEMES TO SDGS

In Voluntary National Review 2020 Report, it was provisionally estimated that making India progress on SDGs would require an additional annual spend of 6.2 of GDP by 2030. The public money raised and spent has profound impact on Society, Economy and Environment. While there is no one to one relation between SDG achievement and budget allocation, there is a clear benefit from being strategic in design of programmes, schemes and budgeting. Aligned all schemes with SDGs and analysed goalwise budget. There are 2170 heads of account (schemes) in the budget 2024-25(BE). The Budget for 2024-25(BE) is at Rs. 371382.80 crore. All these schemes are mapped with SDGs. If any scheme mapped with multiple goals (based on the activities being taken up under the scheme), the allocation of the scheme is distributed to these multiple goals equally. (Table 13.5).

**Table 13.5: Budget under SDGs for 2024-25**

(Rs. in crore)

| Goal Number  | Number of Admin Depts* | Number of H/ACs Mapped* | 2024-25 (BE)     | Percentage flow to SDGs |

### 13.5 SDG OUTCOME BUDGET

State is preparing SDG outcome budget by identifying poor performing indicators as per SDG India Index report and estimated the budet required to improve performance in these indicators on par with best performing States. Accodigly, poor indicators were identified (Table 13.6) and analysed the Goal wise budget required for 2024-25 as against the budget provided (Table 13.7). The gap could be met through private sector under CSR platform.

Table 13.6: Poor performing Indicators

| Goal  | Poor performing Indicators                                                                                                                             | Karnataka Value | Best Performing State     | Reference Period and Sources                  |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|---------------------------|-----------------------------------------------|
| SDG 1 | Percentage of households covered by any health insurance scheme                                                                                        | 31.80(31)       | Rajasthan 87.80(88)       | 2019-21 NFHS-5                                |
|       | Percentage of the population (out of total eligible population) receiving social protection benefits under Pradhan Mantri Matru Vandana Yojana (PMMVY) | 46.08(46)       | Tamil Nadu 197.70(100)    | 2023-24 Ministry of Women & Child Development |
| SDG 2 | Rice and wheat production annually per unit area(Kg/Ha)                                                                                                | 2867.66(34)     | Punjab 4491.80(78)        | 2019-22 Ministry of Agriculture               |
|       | Percentage of pregnant women aged 15-49 years who are anaemic                                                                                          | 45.70(61)       | Kerala 31.40(88)          | 2019-21 NFHS-5                                |
|       | Percentage of pregnant women aged 15-49 whose body mass index below 18.5                                                                               | 17.20(49)       | Jammu & Kashmir 5.20(100) | 2019-21 NFHS-5                                |
|       | Percentage of Children under five years who are underweight                                                                                            | 32.90(29)       | Punjab 16.90(87)          | 2019-21 NFHS-5                                |
|       | Percentage of Children under five years who are stunted                                                                                                | 35.40(49)       | Kerala 23.40(100)         | 2019-21 NFHS-5                                |
| SDG 3 | Suicide rate per lakh population                                                                                                                       | 20.20(58)       | Bihar 0.60(100)           | 2022 Ministry of Home Affairs                 |
|       | Life Expectancy                                                                                                                                        | 69.80(55)       | Kerala 75.00(100)         | 2016-20 Ministry of Home Affairs              |
|       | Tuberculosis cases notification against target(%)                                                                                                      | 80.42(56)       | Gujrat 101.27(100)        | 2023 Ministry of Health & Familywelfare       |
|       | Death rate due to road traffic accidents per lakh popln                                                                                                | 17.36(34)       | West Bengal 5.86(100)     | 2022 Ministry of Home Affairs                 |
| SDG 4 | Average annual dropout rate at secondary level (class 9-10)                                                                                            | 14.70(64)       | Tamil Nadu 10.20(100)     | 2021-22 UDISE                                 |
|       | Percentage of persons with disability who have completed atleast secondary Edn(15 Yrs & above)                                                         | 20.90(12)       | Maharastra 25.70(17)      | 2018 MoSPI, NSS-76 round                      |
|       | Percentage of trained teachers at Secondary Edn                                                                                                        | 82.90(55)       | Tamil Nadu 99.90(100)     | 2021-22 UDISE                                 |
|       | Percentage of Schools with Computers                                                                                                                   | 56.40(47)       | Kerala 98.30(98)          | 2021-22 UDISE                                 |

| Goal  | Poor performing Indicators                                                                          | Karnataka Value | Best Performing State       | Reference Period and Sources                        |
|-------|-----------------------------------------------------------------------------------------------------|-----------------|-----------------------------|-----------------------------------------------------|

### 13.6 WAY FORWARD

#### Align Schemes to SDGs

1. **GSDP-SDG Linkage:** Analyse and establish connection between sectoral parameters of GSDP and SDGs for comprehensive alignment
2. **Private Sector ESG Framework:** EncourageSDG implementation within private sector through application of ESG(Environmental/Social/Governance) framework
3. **Schematic Weighatages:** Establish proper weighatages for schemes linked to multiple SDGs to reflect their Proportionate SDG contributions
4. **CSR Fund Mobilisation:** Encourage CSR funding for SDG related projects at GP and TP level
5. **SDG bounds for resource mobilisation:** To raise targeted resources for SDGwise initiatives
6. **Align object heads with SDGs:** Align object heads with SDGs enabling better insights, strategic planning and Monitoring

#### SDG 1: No Poverty

Alternative is to deal with Multi Dimensional poverty Index using NFHS data.

#### SDG 2: Zero Hunger

1. Use precision farming techniques to improve productivity and foster agro-processing with high nutrition value available locally and organise farmers through FPOs
2. Aggressive promotion of sustainable agriculture through integrated farming systems

#### SDG 3: Good Health & Wellbeing

1. Focus on the pregnant women registered in MCH portal with deficiencies to reduce MMR
2. Conduct nutrition surveys to improve disaggregated tracking of goals and objectives, and use the results for monitoring, evaluation and decision making

**SDG 4: Quality Education**

1. Ensuring arrest of dropouts at secondary level education and career guidance to take them to higher education. Vocationalisation of education has to be thrust area in this sector's strategy
2. Encourage Corporate Social Responsibility funding in the education sector

**SDG 5: Gender Equality**

1. Increasing women police stations with focus on high incidence areas
2. Implementation of new technologies, like fixing of CCTV cameras at sensitive places and Provision of safe transport and 24/7 helpline for women by Home Department
3. Increasing Women's work participation and valuation and equal distribution of work

**SDG 6: Clean Water & Sanitation**

1. Strong legal and administrative measures are needed to curb over exploitation of ground water
2. Ensuring separate & functional toilets for girls in schools, colleges and Public Places

**SDG 7: Clean Energy**

Periodic plans are required for all ESCOMs to reinforce their distribution infrastructure in a coordinated manner

**SDG 8: Decent Work and Economic Growth**

1. Efforts are required to spur growth in Tourism sector
2. Develop industrial estates & establish specific industries; organize local investors meet

**SDG 9: Industry, Innovation & Infrastructure**

1. Leverage net connectivity and spur economic activities in rural areas
2. Provision of high quality and expanded coverage of public transport, considerable investment in public & private transport for sustainable infrastructure is required.
3. Encourage non-motorable transport such as metro transport, bicycle, walking for short distances

**SDG 10: Reduced Inequalities**

1. Social groups (SC / ST / OBC / Minorities) to gain focused attention under regional planning and development initiatives.
2. Need based and Capacity building strategies to be implemented under SCP/TSP Plan

**SDG 11: Sustainable Cities & Communities**

1. Complete the rebuilding of slums and dilapidated houses; Invest in affordable homes for lower middle class families; Form housing cooperative societies with slum dwellers as stakeholders

2. Establish partnerships with civil society, the private sector and NGOs to implement and monitor programs for sustainable Cities and Communities

### **SDG 12: Responsible Consumption & Production**

In education curriculum -create awareness among the future generation about the importance of sustainable resources use.

### **SDG 13: Climate Action**

1. Improving strategies to rescue people stuck in flood situations by establishing &equipping rescue teams
2. Increasing the capacity of vulnerable section of the society to adapt to the climate change impacts by using IEC

### **SDG 14: Life Below Water**

Compensation/insurance mechanism to provide relief for fishers for the loss and damage of assets due to frequent climate-related factors

### **SDG 15: Life on Land**

1. Convergence of MGNREGA with territorial forest activities can improve both water and vegetations within the forest areas
2. Promote urban planting on massive scale

### **SDG 16: Peace, Justice and Strong Institutions**

1. Maintaining Police –population ratios through regular filling of vacant posts
2. Increase number of Lokayukthas to work autonomously and independently
3. Periodically organize workshops on gender-sensitive issues, human rights, safety & security of women and girl child, protection of rights of vulnerable groups

## NODAL & CO-ORDINATORS

|           | Chapters                                                       | Nodal Officers                                                                                                                                                                                                                                                                            | Coordinators                                                                                                                  |
